

## Committee on National Security Systems

CNSS-020-11

14 April 2011

### Secretariat Manager

#### MEMORANDUM TO COMMITTEE ON NATIONAL SECURITY SYSTEMS MEMBERS, OBSERVERS, AND WORKING GROUP CHAIRS

#### **SUBJECT: Issuance of Committee on National Security Systems (CNSS) Letters of Approval and Assigned Serial Numbers – INFORMATION MEMORANDUM**

1. The National Manager for National Security Telecommunications and Information Systems Security, as designated by National Security Directive 42, has approved the following commercial telephone security equipment products as “meeting the type-acceptance requirement for on-hook audio security of telephone equipment that resides in sensitive discussion areas of the U.S. Government or sponsored contractor spaces.”

2. The CNSS amended Letters of Approval along with the accompanying the assigned CNSS serial numbers were issued to each of the below listed vendors and commercial products:

**CNSS-B-11-2010 Avaya Government Solutions H.323 VoIP Telephone with RJ45 data port, Power over Ethernet, and AC power capability  
Model: 9620L-PDB**

**CNSS-B-10-2010 Advanced Programs, Inc. API 7962G TEMPEST SCCP VoIP Telephone  
Model: DNC502-10**

**CNSS-A-06-2010 CIS Secure Computing, Inc. VoIP Telephone CIS7962 TEMPEST Telephone  
Model: DTD-7962-T2**

3. Each of the vendor products must be resubmitted for approval if substitution of any component alters its electrical or acoustic characteristics. A random sample of these models will be tested one calendar year after CNSS approval to ensure compliance with CNSS guidance.

4. This memorandum will be posted on the CNSS public domain website, [www.cnss.gov](http://www.cnss.gov), under “ISSUANCES” then “OTHER.”

5. The CNSS Secretariat point of contact is Mr. Paul Kappes, who can be reached at [p.kappes@radium.ncsc.mil](mailto:p.kappes@radium.ncsc.mil), or (410) 854-6805.
