Advisory Committee Note

With the implementation of electronic filing and service of, and access to submissions that contain business proprietary information, it will be necessary to assure termination of CM/ECF access to such information for government attorneys who are no longer participating in an action. New Form 18A is intended to parallel Form 18 (used to terminate access to business proprietary information for private attorneys or consultants who have been granted access to such information pursuant to Rule 73.2(c)(2)). Form 18A provides a vehicle for a government attorney to notify the Court that he/she, or a former member of his/her staff, is no longer participating in the action and that CM/ECF access to business proprietary information for that attorney should be terminated.
