Introduction

This report presents federal government aid to state and local governments by state and U.S. Outlying Area. Coverage is restricted to federal government expenditures for grants to state and local governments for which data are available by state and outlying area. For fiscal year 2002 (October 1, 2001, to September 30, 2002), the statistics compiled cover \$362.4 billion. The data are shown by federal agency and program whenever possible.

This report also is available on the U.S. Census Bureau's Internet site at www.census.gov/govs/www/cffr.html.

CONSOLIDATED FEDERAL FUNDS REPORT SERIES

Federal Aid to States

This *Federal Aid to States* (FAS) report is one of two publications comprising the Consolidated Federal Funds Report (CFFR) series. The other publication is the *Consolidated Federal Funds Report for Fiscal Year 2002, State and County Areas*. The FAS report presents information similar to the grant data in the CFFR state and county areas publication, except that in this report grants to state and local governments represent actual expenditures of the federal government, and only grants to state and local governments are included. In the CFFR publication, federal grants generally represent obligations, and payments to state and local governments are not distinguished from grants to nongovernmental recipients.

All amounts of federal government grants and other payments to state and local governments represent actual cash outlays made during the fiscal year. Each federal government executive department and agency maintains annual data on grants and other payments to governmental units pursuant to Office of Management and Budget (OMB) Circular A-11. The data are collected from federal agencies by the Census Bureau.

Prior to 1983, such data were incorporated into the report *Federal Aid to States*, published by the Department of the Treasury. The Treasury Department collected and published federal grants data in accordance with the former Treasury Circular 1014 and the annual Treasury Financial Manual. Both of these contained definitions and reporting guidelines consistent with OMB Circular A-11 and the current Census Bureau reporting guidelines.

For the years 1981 through 1997, the Census Bureau published the series, Federal Expenditures by State (FES). Table 2 of the FES publication covered "grants and other

payments to state and local governments." Table 2 of FES provided statistics equivalent to those found in the Treasury Department's Federal Aid to State series, as well as the Census Bureau's current *Federal Aid to States* publication. In addition, the Federal Expenditures by state series published statistics on salaries and wages, direct payments for individuals, procurement, and other programs. These other statistics are now being published as part of the *Consolidated Federal Funds Report for Fiscal Year 2002, State and County Areas*.

Hence, the Census Bureau publication *Federal Aid to States*, Table 2 of the previous Census Bureau publication *Federal Expenditures by State*, and the previous Treasury Department publication *Federal Aid to States* provide users with historically consistent statistics on federal agency payments to state and local governments.

Federal government aid to state and local governments includes the following:

1. Direct cash grants to state or local government units.
2. Payments for grants-in-kind, such as purchases of commodities distributed to state or local government institutions (e.g., school programs).
3. Payments to nongovernment entities when such payments result in cash or in-kind services passed on to state or local governments.
4. Payments to regional commissions and organizations that are redistributed to the state or local level.
5. Federal government payments to state and local governments for research and development that is an integral part of the provision of public services.
6. Federal revenues shared with state and local governments.

It should be noted that the outlays covered in Table 1 exclude federal government payments to individuals, profit or nonprofit institutions not covered above, and payments for services rendered. Grants to individuals and profit or nonprofit institutions and payments for services rendered are covered in the CFFR report.

The examination and edit process the Census Bureau uses includes a comparison of reported data to information submitted for the prior year, and to budget amounts supplied by the Office of Management and Budget. All grants

data are reconciled by budget account and to budget figures that each federal agency is required to submit annually to OMB, in accordance with OMB Circular A-11. Discrepancies are brought to the attention of the reporting agencies and, where warranted, revisions are made. The Office of Management and Budget also provides assistance in the classification of grants and in ensuring compliance with the reporting requirements.

State and County Areas Report

The CFFR state and county areas publication covers domestic federal expenditures for all object categories (direct payments, grants, procurement, and salaries and wages). The CFFR report also covers three nonexpenditure object categories (direct loans, guaranteed loans, and insurance). Users should consult the introductory text in the CFFR state and county areas publication for detailed explanations of the data reported there.

SOURCES AND LIMITATIONS OF DATA

Federal government departments and agencies provide all data in this report. Data are reviewed for accuracy and consistency, and compared to actual outlays in the federal budget to assure reasonableness and proper coverage. No attempts have been made to account for all federal government grants or expenditures as reported in the federal budget, or as presented in the Census Bureau annual reports on government finances.

The actual expenditure (outlay) data that comprise Table 1 in this report are obtained from a direct mailing to more than 50 departments and agencies of the federal government. We asked each respondent to provide a state-by-state (plus outlying areas) distribution of outlays made to state and local governments during fiscal year 2002. These data represent not only outlays made, but also in-lieu-of-tax payments, and various revenues shared with state and local governments.

Whenever possible, this report uses statistics representing actual expenditures of the federal government during the fiscal year. Each agency reported a program/project name and/or budget account number to identify separately each project or budget account from which expenditures were made. Table 1 is an organized compilation, by department and agency and/or program, of nearly 500 of these state-by-state expenditure reports.

¹For Puerto Rico, amount shown is for nutritional assistance grant program. All other amounts are grant payments for food stamp administration.

²The data were extracted from the FY2002 quarterly data files submitted to the Federal Assistance Award System, since FY2002 FAS data were not available at time of publication.

³The data were downloaded from the U.S. Department of Education Web site, since FY2002 FAS data were not available at time of publication.

⁴The data were extracted from the Appendix, FY2004 Budget of the U.S. Government, since FY2002 FAS data were not available at time of publication.

Note: Negative amounts (-) are refunds (from the recipients) of advances from a prior year, or represent reductions in the amount of funds originally obligated to the recipients for the particular program or program category during the fiscal year. All amounts, unless otherwise footnoted, represent actual expenditures of the federal government during the indicated (FY2002) fiscal year.
