WHO WE ARE

The Foundry Program is an Army G2, INSCOM led training program that assists Commanders, and G2s by serving as the coordination point to obtain Military Intelligence training opportunities otherwise not available at the tactical echelon or through the institutional training system.

WHAT WE DO

Our mission is to provide timely and relevant advanced intelligence skills training in SIGINT; GEOINT; CI/HUMINT; Analysis/Fusion, and Information Operations to Army MI Soldiers through special certifications, Mobile Training Teams (MTT), Live Environment Training (LET), and technical classroom instruction tailored to keep MI Soldiers "in the fight" when not deployed in the operational environment.

NO COLD STARTS

MANAGEMENT

✓ Our web pages provide quick and easy access to detailed information on all our current training opportunities.

https://icon.army.mil/

ICON Portal (CAC Access only), new link to Foundry

- ✓ Delivers short duration training opportunities in all intelligence disciplines.
- Contains links to many additional training resources

...in all intelligence disciplines

✓ Provides training request forms, After-Action Reports, and a guide to quickly secure training slots and funding.
