Description:	1			1								

The WHS IT procurement FY 2013 funding request of \$26.550 million is for the modernization of office automation and IT infrastructure requirements for WHS, White House Military Office, the US Court of Appeals for the Armed Forces, and 14 organizational components of the Office of the Secretary of Defense (OSD). The budget funds approximately 20 to 50 office automation and IT infrastructure modernization projects annually. The FY 2013 major modernization initiatives include continued upgrade and support of the network infrastructure, and office automation modernization projects for systems that are at the end of their life cycle. Special emphasis is placed on continuing to implement enterprise-wide common applications and systems resulting in efficient, cost-effective and interoperable IT solutions for the OSD and WHS organizations. The program also funds Continuity of Operations IT requirements that support the sustainment of critical business operations in the event of an emergency. The Life-Cycle Refresh Program is in support of the Secretary, Deputy, and Senior DoD officials and replaces one (1) Commercial Heavy Armored Vehicle (CHAV).
