

Department of the Interior
Bureau of Indian Affairs

2001

Indian Population and Labor Force Report

Purpose:

Public Law 102-477, the Indian Employment, Training, and Related Services Demonstration Act of 1992, mandates the Bureau of Indian Affairs to publish, not less than biennially, a report on the Indian population eligible for services that the Secretary provides to Indian people.

This report provides 2001 calendar year data of tribal enrollment, service population, and labor force information for the Nation's 562 federally recognized Indian tribes. All the data in this publication was determined by representatives of each tribe and certified as accurate by their tribal leader or designate.

Summary of 2001 Report:

Tribal Enrollment:

- For 2001, 468 (83%) of the 562 federally recognized Indian tribes¹ provided revised data for this report.

Note: Many of the tribes that did not provide updated population and labor force information, identified the lack of staffing and resources as the primary reason for not responding.

¹ In addition to the 562 federally recognized Indian tribes, this Report includes several corporate and "at-large" Alaska tribal entities that were formed as a result of the Alaska Native Claims Settlement Act of 1971.

- The total 2001 tribal enrollment reported 1,816,504 represents an increase of 118,021 members or 6.5 percent over the 1,698,483 reported in the 1999 labor force report.
- The Total 2001 tribal enrollment reported represents an increase of 388,234 or 21.4 percent over the 1,428,270 total tribal enrollment reported in 1995, the first year in which enrollment information was collected and included in this biennial labor force report.

Note: The increase in enrollment is attributed to the addition of newly acknowledged tribes, updated tribal enrollment, and revisions to tribal enrollment criteria.

Service Population:

- The total 2001 Service Population reported 1,524,025 represents an increase of 126,094 members or 8.3 percent over the 1,397,931 reported in the 1999 labor force report.
- The Total 2001 Service Population reported represents an increase of 263,819 or 17.3 percent over the 1,260,206 total Service Population reported in 1995.

Note: The increase in Service Population is attributed to the addition of newly acknowledged tribes and updated tribal enrollment, and revisions to tribal enrollment criteria, as well as newly approved service areas for tribes.

Employment:

- Unemployment, as a percent of the available labor force, increased by 6 percent to 49 percent in 2001 from 42 percent, as reported in 1999.

Note: For 2001, tribes determined their available labor work force and unemployment percentage by including tribal members whose age was 16 and over. For 1999, the range was 16 through 64. If the 1999 criteria were used, range 16 through 64 only, the unemployment level would be approximately 43 percent, the same level as reported in 1999. Because many individuals in the 65 and over age group were employed and identified in the total employed category, they were also included in the available or total workforce category.

- The total available 2001 workforce of 795,218 increased by 135,208 or 17 percent over the total 660,120 total reported in 1999.

Note: This is primarily due to the increase in service population, most of which (88%) are ages 16 and over and are available for inclusion in the work force.

- Indian individuals employed but earning wages below the poverty level increased 7,788 between 1999 and 2001, but the overall percentage remained the same – 33 percent².
- The number of Indian individuals employed (403,714) represents 51 percent of the total workforce. Of the 51 percent employed, 33 percent earn wages below poverty guidelines.
- Of the employed Indian individuals, living on or near designated service areas, 271,271 or 34 percent earn wages above the poverty guidelines.

² Health and Human Services' (HHS) 2001 Poverty Guidelines were used to determine tribal poverty estimates.

Coverage:

Each tribe³ designated a tribal labor force coordinator who used a standardized survey reporting form to collect data and provide estimates on their enrolled members and members from other tribes who lived “on-or-near” the reservation and who were eligible to use the tribe’s BIA funded services. The aggregated total of those eligible to use the services constituted the tribe’s Indian “Service Population.” Excluded from each tribe’s “Service Population” total and other report totals were members who were in 2001, for example, serving in the Armed Forces or attending post-secondary institutions.⁴

Definitions (from 25 CFR § 20.1):

Indian means any person who is a member of a Federally recognized Indian tribe.⁵

Resident Indian means Indians living on Federal reservations or nearby who are considered part of the tribe’s service population. (Definition extrapolated from 25 CFR § 20.1.)

Indian Tribes are tribes, bands, nations, rancherias, pueblos, colonies, communities, and Alaska Native groups recognized as eligible for funding and services from the Bureau of Indian Affairs and included in the current list of tribal entities, pursuant to Section 104 of the Act of November 2, 1994 (Pub. L. 103—454; 108 Stat. 4791, 4792). Latest publication in the Federal Register; July 12, 2002.

³ In the Region /Tribal section of this report, the Navajo Nation is listed by BIA Agency. Also in the same section, Alaska Native entities are listed individually or grouped by consortium.

⁴ Members were excluded from their tribe’s “service population” if the member had relocated for purposes of direct employment or was incarcerated or confined long-term to a treatment facility.

⁵ Some tribes have enrollment criteria that allows their members to have a blood quantum less than one-fourth.

Near Reservation means those areas or communities adjacent or contiguous to reservation, which are designated by the Commissioner upon recommendation of the local Bureau Superintendent. The recommendation shall be based upon consultation with the tribal governing body of those reservations on the basis of such general criteria. The criteria are:

- Number of Indian people native to the reservation residing in the area;
- A written designation by the tribal governing body that members of their tribe and family members who are Indians and residing in the area, are socially, culturally, and economically affiliated with the tribe and reservation;
- Geographic proximity of the area to the reservation; and
- Administrative feasibility of providing an adequate level of services⁶

Headings/Terms Used in Tables:

Tribal Enrollment means the total number of tribal enrollees who are certified as being tribal members by their tribe's leader or designate. Pursuant to tribal governing documents, tribal enrollees may live on the reservation or anywhere outside the reservation – for example, in distant towns/cities or in foreign countries.

Total Service Population is the tribe's estimate of all American Indians and Alaska Natives, members and non-members, who were living "on-or-near" the tribe's reservation during the 2001 calendar year and who were eligible to use BIA funded services. The aggregated sum of "Age Under

⁶ For the purposes of this report, "On Reservation" is defined as those Indians who live on or near the present reservation boundaries and who are eligible for BIA funded services. For Alaska, the term "near" reservation includes the entire state, since Alaska Native tribes are typically isolated from each other and are not formed as reservations.

16," Age 16-64," and "Age 65 & Over" sub-totals of a given tribe equals the tribes "Total Service Population" total. Typically, Indians included in a tribe's Service Population live within a reasonable distance of the reservation from where they can access the tribe's services. Such Indians typically do not live in distant cities, towns or foreign countries.

Not Available for Work is the total estimated number of individuals who were over the age of 16 and who were included in a tribe's service population, but because of personal circumstances were not able to assume or sustain gainful employment.

Available for Work represents the tribe's 2001 "Total Work Force." The "Available for Work" total are the sum of "Age 16 and over" sub-totals minus service population individuals who were "Not Available for Work."

Number Employed was determined by aggregating a tribe's estimated subtotals of their service population individuals who were either employed by public, private, or tribal entities.

Number Not Employed was determined by subtracting the "Number Employed" from a tribe's service population who were "Available for Work". This provided the 2001 total of a tribe's available work force that was not employed.

Unemployed as a % of the Labor Force was determined by dividing the "Number Not Employed" by the "Total Work Force" (also called "Available for Work" total).

Employed, but Below Poverty Guidelines was determined by using HHS's Poverty Guidelines (applicable for 2001), the tribe's estimated number of their employed work force who were below the poverty guideline – for example, for a family unit of two the poverty threshold of combined earned income was \$11,610 and for four the threshold was \$17,650. Additionally, the tables show the percentage of employed below the "Poverty Guidelines." This percentage was derived by dividing the tribe's estimated total "Employed, but below the Poverty Guidelines" by the tribe's "Total" employed.

Table Format:

The Indian Population and Labor Force Report data, is organized into five sections:

1. National Totals by State
2. National Totals by Region
3. Totals by Region and Tribe
4. Listing by Tribe Name
5. Tribal Enrollment Ranges - Summary

For tribes with reservation boundaries and service populations that are located in more than one state, the tribe's labor market totals are proportionately distributed, by tribal population, for each state. An asterisk "*" following a tribe's name in the "Region/Tribe" section indicates that the reported totals were from the 1999 Report. Also, "NR" in any column signifies that data was not provided by the tribe. In addition, the Total for the State of Alaska will not equal the total for the Alaska Region, because about half the Alaska Tribes are in the Self-Governance section of the "Totals by Region and Tribe."

Additional Information:

Any questions regarding a specific tribe's labor market information can be directed to the tribe's Bureau of Indian Affairs' (BIA) Agency or Regional Office. A current BIA Region and Agency directory, as well as this report can be found on the Department of the Interior (DOI) web site.

Notes on Self-Governance tribes have been provided by the Office of Self-Governance, Department of the Interior.

Absentee Shawnee Tribe of Oklahoma: Service population totals estimated by the Department of the Interior. It is the Department's position that 1) the Tribe's service population estimate provided by the Tribe is not consistent with the Collier decision and that 2) the Tribe's total resident Indian population is limited to Absentee Shawnee allotted and tribal trust lands. The Absentee Shawnee Tribe strongly disagrees with this interpretation and the estimates.

Cherokee Nation of Oklahoma: Some duplication of data may exist with data submitted by the United Keetowah Band and the Delaware Tribe of Indians.

Citizen Potawatomi Nation: The Tribe's estimates are consistent with the Department's position that the Tribe's total Indian service population is limited to Absentee Shawnee allotted and tribal trust lands.

Muscogee (Creek) Nation: Some duplication of data may exist with data from Alabama-Quassarte Tribal Town, Kialegee Tribal Town, and Thlopthlocco Tribal Town

Confederated Tribes of Grand Ronde: Some duplication of data may exist with data submitted by the Confederated Tribes of Siletz Indians.

Muscogee (Creek) Nation: Some duplication of data may exist with data from Alabama-Quassarte Tribal Town, Kialegee Tribal Town, and Thlopthlocco Tribal Town

Confederated Tribes of Siletz Indians: Some duplication of data may exist with data submitted by the Confederated Tribes of Grand Ronde.
