and  
Labor Force Report**

**2003**

**U.S. Department of the Interior  
Bureau of Indian Affairs  
Office of Tribal Services**

**Department of the Interior  
Bureau of Indian Affairs**

**2003**

**Indian Population and Labor Force Report**

### **Purpose**

**Public Law 102-477, the Indian Employment, Training, and Related Services Demonstration Act of 1992, mandates the Bureau of Indian Affairs (BIA) to publish, not less than biennially, a report on the American Indian and Alaska Native population eligible for services that the Secretary of the Interior provides to American Indian and Alaska Native people.**

**This report provides 2003 calendar year data on tribal enrollment, service population, and labor force information for the Nation's 562 federally recognized Indian tribes. All the data provided in this publication was determined by representatives of each tribe and certified as accurate by their tribal leader or designee. In addition to the 562 federally recognized Indian tribes, this report includes several corporate and "at-large" Alaska tribal entities that were formed as a result of the Alaska Native Claims Settlement Act of 1971.**

**Of the federally recognized Indian tribes, 79 percent provided revised data for this report. Many of the tribes that did not provide updated population and labor force information identified the lack of staffing and resources as the primary reason for not responding.**

### **Summary of the 2003 Report:**

#### **Overall**

**In terms of the Indian reservation population, there was less than 10 percent change between 2001 and 2003 regardless of informational area. The one exception, where the percent of change exceeded 10 percent nationally, is "Not Available For Work" which increased by about 23 percent (from 208,451 in 2001 to 268,485 in 2003, an increase of 60,034). Much of the increase occurred in Self-Governance tribes, which accounted for 74 percent of the national increase.**

**Various factors contributed to the Self-Governance increase, such as revised methodologies used by Self-Governance tribes, additional tribes included in the Self-Governance section of the report, as well as eligible Indians who came to reside in the Self-Governance tribe's service area to benefit from increased opportunities.**

## **Tribal Enrollment**

**The total 2003 reported Tribal Enrollment of 1,923,650 represents an increase of 107,146 or 5.9 percent over the 1,816,504 enrollment reported in the 2001 Labor Force Report.**

**The total 2003 reported Tribal Enrollment represents an increase of 495,380 or 34.7 percent over the 1,428,270 total Tribal Enrollment reported in 1995, the first year Tribal Enrollment information was collected and included in this biennial labor force report.**

**The 2003 increase in enrollment is attributed to updated tribal rolls, improved record keeping procedures, and revisions to tribal enrollment criteria.**

## **Service Population**

**The total 2003 reported Service Population of 1,587,519 represents an increase of 63,494 Indian residents or 4.2 percent over the 1,524,025 reported in the 2001 labor force report.**

**The total 2003 reported Service Population represents an increase of 327,313 or 26.0 percent over the 1,260,206 total Service Population reported in 1995, and an increase of 852,624 or 216 percent over the total Service Population reported in 1982 (the earliest year for which data were available).**

**The 2003 increase in Service Population is attributed to increased record keeping and improved data collection methods, as well as eligible Indian individuals and families who came to reside in the tribe's service area to benefit from opportunities and services unavailable to them in off-reservation communities.**

## **Employment**

**Unemployment, as a percent of the available labor force, remained the same (49 percent) in 2003 as it was in 2001. Even so, 3,091 more employment eligible individuals in the Service Population were unemployed in 2003 (394,705) than were unemployed in 2001 (391,614). Likewise, 2,109 more individuals were employed in 2003 (405,823) than were employed in 2001 (403,714).**

**The percent of Indians who were both eligible for BIA services and who were employed remained about the same (approximately 25 percent) over a 21-year period (1982 to 2003). Over this same period, the percent of Indians who were both eligible for BIA services and who were unemployed yet able to work increased from 20 percent to 25 percent.**

**The total 2003 workforce of 800,528 also increased by 5,200 individuals or about 1 percent, over the total workforce of 795,328 reported in 2001. The total 2003**

**workforce increase is primarily attributable to an increase in the Service Population, most of which (70.5 percent) are aged 16 or older and are available for inclusion in the workforce.**

**In 2003, Indian individuals employed but earning wages below the poverty level decreased by 772 between 2001 (132,500) and 2003 (131,728), and the overall percentage of those employed remained virtually the same (32.8 percent in 2001 and 32.5 percent in 2003).**

**The number of Indian individuals employed (405,823) represents 51 percent of the total workforce. Of the 51 percent of the Service Population that is employed, 32 percent earn wages below the 2003 poverty guidelines established by the U.S. Department of Health and Human Services (DHHS). This pattern remained relatively constant during the period 1982 to 2003 – from 32 percent to 36 percent of employed Indians were employed below that year's poverty guideline.**

**Coverage:**

**Each tribe that responded designated a tribal labor force coordinator who used a standardized survey reporting form to collect data and provide estimates on their enrolled members and members from other tribes who lived “on-or-near” the reservation and who were eligible to use the tribe’s BIA-funded services. The aggregated total of those eligible to use the services constituted the tribe’s Indian “Service Population.” Excluded from each tribe’s 2003 Service Population total and other report totals were members who, for example, were serving in the Armed Forces or attending post-secondary institutions and not residing on tribal lands. Members were also excluded from the tribe’s Service Population if they had relocated for purposes of direct employment or were incarcerated or confined to a long-term treatment facility.**

**The data within the Regional/Tribal section of this Report are provided by Tribe, by BIA Agency, and by BIA Region. The Navajo Nation is listed by BIA Agency, under the BIA Navajo Region. Alaska Native entities are listed individually or grouped by consortium.**

**Definitions (from 25 CFR § 20.1):**

**Indian means any person who is a member of a Federally recognized Indian tribe. Some tribes have enrollment criteria that allows their members to have a blood quantum less than the one-fourth specified in 25 CFR § 20.1.**

**Indian Tribes are tribes, bands, nations, rancherias, pueblos, colonies, communities, and Alaska Native groups recognized as eligible for funding and services from the BIA and included in the current list of tribal entities, pursuant to Section 104 of the Act of November 2, 1994 (Pub. L. 103-454; 108 Stat. 4791). The list was last published in the Federal Register on December 5, 2003.**

**Near Reservation** means those areas or communities adjacent or contiguous to a reservation, which are designated by the Assistant Secretary upon recommendation of the local BIA Superintendent. The recommendation is based upon consultation with the tribal governing body of those reservations on the basis of such general criteria as:

- Number of Indian people native to the reservation residing in the area;
- A written designation by the tribal governing body that members of their tribe and family members who are Indians and residing in the area, are socially, culturally, and economically affiliated with the tribe and the reservation;
- Geographic proximity of the area to the reservation; and
- Administrative feasibility of providing an adequate level of service.

For Alaska, the term includes the entire State, since Alaska Native tribes are typically isolated from each other and are not formed as reservations, except for the Metlakatla Indian Community on the Annette Island Reserve in southeast Alaska.

**On Reservation** means American Indians who live within the present reservation boundaries and who are eligible for BIA-funded services.

**Resident Indian** means American Indians living on or near Federal reservations who are considered part of the tribe's service population.

### **Headings/Terms Used in Tables:**

**Tribal Enrollment** is the total number of tribal enrollees who are certified as being tribal members by their tribe's leader or designate. Pursuant to tribal governing documents, tribal enrollees may live on-reservation or anywhere outside the reservation – for example, in distant towns, cities or foreign countries.

**Total Service Population** is the tribe's estimate of all American Indians and Alaska Natives, members and non-members, who are living on-or-near the tribe's reservation during the 2003 calendar year and who are eligible to use BIA-funded services. The aggregated sum of those reported as "Age Under 16," "Age 16-64," and "Age 65 and Over" sub-totals of a given tribe equals the tribe's "Total Service Population." Typically, Indians included in a tribe's Service Population live within a reasonable distance of the reservation from where they can access the tribe's services. Such Indians typically do not live in distant cities, towns, or foreign countries.

**Not Available for Work** is the total estimated number of individuals who were age 16 and over and who were included in a tribe's Service Population, but because of personal circumstances were unable to assume or sustain gainful employment.

**Available for Work** represents the tribe's 2003 "Total Work Force" and is the sum of the "Age 16-64" and "Age 65 and Over" sub-totals minus the number of individuals who were "Not Available for Work."

**Number Employed** is determined by aggregating the tribe's estimated subtotals of the number of individuals in their Service Population who were either employed by public, private, or tribal entities.

**Number Not Employed** is determined by subtracting the "Number Employed" from the tribe's number of individuals in the tribe who were "Available for Work."

**Unemployed as a percent of the Labor Force** is determined by dividing the "Number Not Employed" by the "Total Work Force" (also called the "Available for Work" total).

**Employed, but Below Poverty Guideline** is determined by using the DHHS Poverty Guidelines (applicable for 2003). The tribe estimated the number of its employed work force whose annual earned income was below the poverty guideline. For example, for a family of two the poverty threshold of combined earned income was \$12,120 and for a family of four the poverty threshold of combined earned income was \$18,400 (for Alaska, \$13,940 and \$21,160 respectively). Additionally, the report tables show the percent of those employed below the "Poverty Guideline." This percent is derived by dividing the tribe's estimated total number of "Employed, but Below Poverty Guidelines" by the "Number Employed."

### **Report Format:**

The Indian Population and Labor Force Report is organized into three sections:

1.     **National Totals by State**
2.     **National Totals by Region**
3.     **Totals by Region and Tribe**

For tribes with reservation boundaries and service populations that are located in more than one state, the tribe's labor market totals are proportionately distributed, by tribal population, for each state. An asterisk "\*" following a tribe's name in the "Region/Tribe" section indicates that the reported totals were from the 2001 Report. Also, "NR" in any column signifies that data was not provided by the tribe. In addition, the total for the State of Alaska does not equal the total for the Alaska Region, because about half the Alaska tribes are in the Self-Governance section of the "Totals by Region and Tribe."

### **Additional Information:**

Any questions regarding a specific tribe's labor market information can be directed to the tribe's BIA Agency, Field Office or Regional Office. The current Tribal Leaders Directory, with contact information for BIA Regional and Agency offices and the tribes, can be accessed at [www.doi.gov/leaders.pdf](http://www.doi.gov/leaders.pdf). This report can also be found at [www.doi.gov/triballaborforce2003/pdf](http://www.doi.gov/triballaborforce2003/pdf).
