Limited access users are not permitted to make changes to the primary users account information. After logging in to **myPay**, go to Personal Settings to establish limited access passwords.

myPay is a secure Web-based pay information system. One of the many benefits of this system is avoiding risks associated with identity theft. The secure technology provided to **myPay** customers meets or exceeds security requirements in private industry worldwide.

Using **myPay** to access tax statements eliminates the preparation and mailing costs incurred with the traditional distribution methods. Combined with the earlier availability of statements online, this makes **myPay** a better option for many DFAS customers and the Department of Defense.
