Level 2 Probabilistic Risk Analysis (PRA) Logic Model Development and Thermal-Hydraulic Modeling and Analysis Support for the Full Scope Site Level 3 PRA Project

On September 6, 2012, as a result of a competitive negotiated acquisition, a cost reimbursement, fixed-fee Indefinite Quantity-Indefinite Delivery contract (NRC-HQ-12-C-04-0087) was awarded to Energy Research, Inc. of Rockville, MD. The contractor will support the development of the Level 2 PRA Logic Model and the Thermal-Hydraulic aspects of the Full-Scope Level 3 PRA project. The period of performance is September 6, 2012, to September 5, 2016. The estimated value of this four-year contract is \$553,091.04.

Fitness-for-Duty Programs: Regulatory basis and preliminary proposed rule language; 10 CFR Part 26 (NRC-2009-0090)

On September 10, 2012, the NRC published a document in the *Federal Register* (77 FR 55429) announcing the availability of two rulemaking documents related to the ongoing proposed rulemaking effort to amend its regulations regarding Fitness-for-Duty Programs. The released documents include the regulatory basis and preliminary proposed rule language for requiring personnel performing certain quality control and quality verification duties to comply with the work hour provisions. The availability of these documents allows interested stakeholders to prepare for future public meetings. The NRC is not soliciting formal public comments on these documents at this time. Additional documents related to this proposed rulemaking will periodically be made publicly available.

Seismic Hazard Review for the Western United States Nuclear Power Plants and Development of Flood Hazard Integrated Assessment Staff Guidance Applicable to United States Nuclear Power Plants

On September 10, 2012, as a result of a noncompetitive acquisition, a cost-plus-fixed-fee type contract (NRC-HQ-12-C-42-0083) was awarded to Southwest Research Institute of San Antonio, TX for technical assistance in support of seismic hazard reviews for the Western United States Nuclear power plants and development of flood hazard integrated assessment staff guidance applicable to United States Nuclear Power Plants. The period of performance is September 10, 2012, to September 28, 2013, with two one-year option periods. The total estimated cost is \$773,791, inclusive of options.

Federal Records Council Meeting

On September 13, 2012, the NRC's Agency Records Officer attended a meeting of the Federal Records Council (FRC) which is an interagency group that advises the National Archives and Records Administration. The purpose of the meeting was to form workgroups to address solutions for three items in the Presidential Directive on Managing Government Records: to develop a plan for automated records management solutions; define "open source" solutions and obtain external involvement to develop such; and implement a Community of Interest with Federal Chief Information Officers Council, the Federal Records Council, and other Government-wide councils.

Freedom of Information Act (FOIA) and Privacy Act (PA) Requests Received During the Period of September 10, 2012- September 14, 2012:

All documents regarding to NUREG-2125, Spent Fuel Transportation Risk Assessment, Draft for comment	FOIA/PA-2012-0317
Information on Polymedco, Inc, Cortlandt Manor, NY regarding licensing and storage of radioactive materials	FOIA/PA-2012-0318
Copies of all email sent to time2hire@opm.gov	FOIA/PA-2012-0319
Information on companies holding radioactive material licenses/permits within Portsmouth and Norfolk, VA.	FOIA/PA-2012-0320

Nuclear Energy Institute Fire Protection Information Forum Attendance

From September 9-13, 2012, staff attended the 2012 Fire Protection Information Forum. Multiple presentations related to National Fire Protection Association 805, probabilistic risk assessment, multiple spurious operations and fire research were given. The staff also led a panel discussion designed to provide clarity and awareness of NRC perspectives on fire protection.

September 14, 2012

ENCLOSURE D

Office of Public Affairs (OPA)
Items of Interest
Week Ending September 14, 2012

OPA received significant media inquiries on the following:

The issuance of the mid-cycle assessment letters

The ongoing special inspection at the Palisades (MI) nuclear plant

The lawsuit filed in federal court by an Indian Point (NY) nuclear plant security officer against Entergy

The U.S. Government Accountability Office's report on NRC's security regulations of radioactive materials in hospitals

Other Public Affairs Items:

OPA supported the following activities:

- The Commissioners' appearance before the Senate Environment and Public Works Committee.
- The Region III public meeting responding to the public's concerns about the Palisades nuclear power plant.
- Commission's public meeting on the economic consequences of a reactor accident.
