Notes: Beginning with fiscal year 2000, a footnote will be added when the "% change from Prior Fiscal Year" changes by 20% or more.

- (1) During fiscal year 2004, some government agencies moved a portion of their longer term investments into GAS Overnight Securities. Overnight Securities, or One Day Securities, are issued one day and redeemed the next. This change in investing practice explains the 54.97% increase in Total Activity for 2004.
- (2) During the fiscal year changes in economic conditions resulted in the need for an increase in borrowings from the public to finance federal spending. This increase is primarily a result of the federal government's response to the financial market crisis and the economic downturn.
- (3) During the fiscal year the increase is primarily a result of reduced federal revenues and the federal government's response to the financial market crisis and the economic downturn.

* The "Other" column includes Savings Bonds, Domestic Series Securities, Foreign Series Securities, Matured Unredeemed Debt and Hope Bonds.
