

The Center for BioEnergy Sustainability (CBES) at Oak Ridge National Laboratory (ORNL) is pleased to announce that we are holding our next Forum on September 17 in the Ocoee Room (room 189) in Building 1505 at 3:30. The forum will be followed by a casual gathering at Virginia Dale's home where light refreshments will be enjoyed as the discussions continue.

The topic of the September CBES Forum is "Implementing the Cellulosic Biomass Industry in Tennessee." Dr. Mark Downing (from the Environmental Sciences Division at ORNL) will introduce the topic and the speaker. The current situation and opportunities will be discussed by Dr. Kelly Tiller (Associate Professor and Director of the External Operations at the Office of Bioenergy Programs at the University of Tennessee as well as President & CEO of Genera Energy LLC). Please come ready to engage in a lively discussion of this topic.

Please mark your calendar for every third Thursday for 2009 so that you can join in the collaboration and camaraderie that is being built by your participation in the CBES forums.
