UNITED STATES INTERNATIONAL TRADE COMMISSION  
500 E St., SW, Washington, DC 20436

#### PURPOSE AND SCOPE

The Commission instituted this investigation following receipt of a request on October 14, 2008, from the Committee on Ways and Means of the U.S. House of Representatives (Committee) under section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)).

The Committee requested that the Commission provide statistical reports every two weeks on the volume, value, unit value, and import market share of imports from China that were subject to the provisions of the U.S.-China Memorandum of Understanding Concerning Trade in Textiles and Apparel (MOU). As requested, these reports include official import data from the U.S. Department of Commerce (Census Bureau) and preliminary import data, as available, from the U.S. Customs and Border Protection agency. The Commission's reports contain these data at the 3-digit textile/apparel category level and by the Harmonized Tariff Schedule (HTS) 10-digit subheadings in these categories. The Commission provides these reports directly to the Committee, and also posts the latest report on its website at:

[www.usitc.gov/research\\_and\\_analysis/What\\_We\\_Are\\_Working\\_On.htm](http://www.usitc.gov/research_and_analysis/What_We_Are_Working_On.htm)

The Committee further requested that the Commission provide this annual compilation of the Census data shown in the biweekly reports.

For further information about this investigation, contact:

Donald Sussman (202-205-3331, [donald.sussman@usitc.gov](mailto:donald.sussman@usitc.gov))  
David Lundy (202-205-3439, [david.lundy@usitc.gov](mailto:david.lundy@usitc.gov))

The United States International Trade Commission ([www.usitc.gov](http://www.usitc.gov)) is an independent, quasijudicial federal agency with broad investigative responsibilities on matters of trade. The agency investigates the effects of dumped and subsidized imports on domestic industries and conducts global safeguard investigations. The Commission also adjudicates cases involving alleged infringement by imports of intellectual property rights. Through such proceedings, the agency helps to support a rules-based international trading system. The Commission also serves as a federal resource where trade data and other trade policy-related information are gathered and analyzed. The information and analysis are provided to the President, the Office of the United States Trade Representative (USTR), and Congress to facilitate the development of sound and informed U.S. trade policy. The Commission makes most of its information and analysis available to the public to promote understanding of international trade issues.

**Introduction**

The textile and apparel import data in this report are presented by 3-digit category numbers and combinations thereof (scroll down this sheet to view a list of these categories), as well as by 10-digit HTS (HTS10) subheading. The HTS10 subheadings in each category are based on a correlation maintained by the Office of Textiles and Apparel, U.S. Department of Commerce. Click on the following link for this correlation:

[Textile and apparel correlation to HTS10 items](#)

The import data presented here are only for the items that were subject to the MOU. These HTS10 items are specified in the document at the following link:

[MOU quota HTS10 items](#)

The data in this report are shown on an annual and quarterly basis by categories and individual HTS10 subheadings. The time frames are:

By category:

Annual data	2003 through 2009
Quarterly data	First quarter 2008 through fourth quarter 2009

By HTS10 subheading:

Annual data	2007 through 2009 (see note below)
Quarterly data	First quarter 2008 through fourth quarter 2009

The annual time frame for the data by HTS10 subheading is limited, compared with category data, because valid subheadings may change from year to year as a result of revisions to the HTS. (Typically, HTS10 subheadings are superseded by new HTS10 subheadings as a result of statistical breakouts or changes to the HTS that are necessary pursuant to HS revisions by the World Customs Organization.) Major subheading changes occurred in 2007; therefore, only 2007–09 data are shown. Minor changes have occurred during 2007–09, but only data for subheadings valid during all three years are shown to ensure that only meaningful trends are discerned.

For data for all HTS10 subheadings for all years, go to the biweekly report. Click on the link below to find this report:

**Data notes**

All data are official statistics of the U.S. Department of Commerce (Census Bureau), accessible at the following web site:

Imports are based on general imports, customs value.

Import data can be found on the data sheets that follow this sheet. Navigate to these data using the links below or the tabs at the bottom of the screen. Each data sheet has columns that show absolute and percentage change for the latest period as compared with the beginning period (scroll to the right if these columns are not visible). A "Not applicable" in the percentage change column indicates that a value cannot be calculated because the value in the beginning period is zero.

Each data sheet also has a filtering feature on line 4 that can be used to isolate or sort the data. Use the filter in the index column (sort ascending option) to return the sheet to its original order.
