OFFICE OF CONTRACTING SERVICES

Wasatch Softrip Licenses

The National Geospatial-Intelligence Agency has a requirement for Wasatch Softrip Licenses and 12 months maintenance coverage. The period of performance will be for 12 months following the delivery date. The NAICS code for this acquisition is 511210.

The Wasatch Softrip brand software is currently the only software that can fulfill the form fit and function of the agency at this time. The Wasatch Softrip software is a high end professional printing tool that can process extremely large digital data for large format printers and also provides the ability to create and customize color profiles.

This requirement is for Electronic and Information Technology (EIT) which must meet the accessibility standards established by Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 7941). The specific Technical Standards that apply are:

- Technical Standard: 1194.21 – Software Applications and Operating Systems
- Functional Performance Criteria: 1194.31 – Functional Performance Criteria

In responding to the RFQ, vendors must state if the products offered meet the identified Technical Standards. General information regarding the Section 508 Act can be found at the web site www.section508.gov.
