	mmission information about Alaska Is consolidation issues	BIA	Background: At the March1-2, 2012 Commission meeting, Commissioner Anderson inquired about whether land consolidation applies to allotments in Alaska. Below is follow-up information from the Department. No tribes are excluded from land consolidation; however the Indian Land Consolidation Act does exclude land consolidation in Alaska under the act and the Settlement only authorizes consolidation pursuant to the act. The Land consolidation included in the settlement is subject to the following language: F. TRUST LAND CONSOLIDATION FUND 1. Distribution. Conditioned on the enactment of the necessary legislation, the Interior Defendants shall distribute the Trust Land Consolidation Fund in accordance with the Land Consolidation Program authorized under 25 U.S.C. §§ 2201 et seq., any other applicable legislation enacted pursuant to this Agreement, and applicable provisions of this Agreement.

TASKS	LEADS	RESPONSE
		The statute at 25 U.S.C. Chapter 2201 et seq. includes the following language at section 2219 of 25 U.S.C.
		 § 2219. Application to Alaska: (a) Findings (1) Numerous academic and governmental organizations have studied the nature and extent of fractionated ownership of Indian land outside of Alaska and have proposed solutions to this problem; and (2) Despite these studies, there has not been a comparable effort to analyze the problem, if any, of fractionated ownership in Alaska.
		(b) Application of chapter to Alaska Except as provided in this section, this chapter shall not apply to land located within Alaska.
		(c) Rule of Construction Nothing in this section shall be construed to constitute a ratification of any determination by any agency, instrumentality, or court of the United States that may support the assertion of tribal jurisdiction over allotment lands or interests in such land in Alaska.
B. Provide Commission the FR notice and 'Dear Tribal Leader' letter announcing consultations on FY2013 streamlining.	BIA	The Federal Register Notice for upcoming consultations: please note to reference the report listed in the Notice go to: http://www.bia.gov/WhoWeAre/AS-IA/Consultation/index.htm

Tribal Trust Fund Accounts

Information for the National Commission on Indian Trust and Administration

2/29/2012

The information contained herein may be protected from disclosure by Federal law. It may not be released orally, in writing, or in any other form, except with the express consent of the U.S. Department of the Interior.

Tribal Trust Fund Account Types

As of February 29, 2012, the Office of the Special Trustee for American Indians (OST) managed 2,936 tribal trust accounts for a total of \$3.6 billion. This amount only represents the fund balance on that day and is not representative of the total revenue received for tribal accounts during the year. However it is interesting to note, for information purposes only, that for the time period March 1, 2011 through February 29, 2012, OST disbursed approximately \$774 million, either directly to tribes or to third parties on their behalf, with 33,816 transactions processed.

The federal regulations that govern the administration of tribal trust funds are found in 25 CFR Part §115.701 and §115.800 to 820, public laws, statutes, legislation, use and distribution plans or other tribal governing instruments. Trust funds are generally held for federally recognized tribes.

There are numerous types of tribal trust accounts which are described in the information below.

- Table 1 shows the total number of accounts summarized by account type.
- Table 2 shows the total number of accounts summarized by region.
- Table 3 shows the total number of accounts summarized by tribe and/or land area code.

<u>Table 1 Account Type Information:</u>

- Judgment Awards (JA)
 - Funds awarded by the Indian Claims Commission or the United States Court of Federal Claims, and authorized and appropriated by the Congress of the United States to be distributed based on a use and distribution plan approved by the Secretary. Funds awarded were generally distributed based on a percentage for per capita payments (80%) and program funds (20%). Some examples of program funds are:
 - Community Development
 - Economic Development
 - Education
 - Legal Services
 - Social and Health Services
 - Tribal Operations
- Legislative Settlement Awards (ID, EC, WR)
 - Funds awarded for claims by the United States Court of Federal Claims and authorized and appropriated by the Congress of the United States to be distributed based on a plan approved by Secretary.
 - Infrastructure Development (ID)
 - Economic Recovery (EC)
 - Water Right Settlements (WR)

Proceeds of Labor (PL)

 Accounts that house funds directly derived from trust land, restricted fee land, or trust resources such as rent, royalties, timber, or agricultural resources including late payment penalties; or title conveyance (i.e., sale, probate, condemnation).

Per Capita (PC)

 Accounts that house funds for checks returned as undeliverable, canceled after twelve months by the United States Treasury, or for whereabouts unknown account holders at the time of a per capita distribution.

Escrow (ES)

Accounts that house funds pending the outcome of an event.

Forest Management Deduction (FM)

 Accounts that house funds to be utilized to perform forest land management activities in accordance with an approved expenditure plan.

Forestry Projects (FP)

 Accounts that house funds to pay for the completion of special contract requirements for which money was collected from the purchaser. Projects may include road use, road maintenance, grass reseeding, etc.

Indian Forest Land Assistance (FL)

• Accounts that house funds from non-federal sources relating to activities on or for the Indian forest land, s donations, user fees, and unobligated forestry appropriations specifically for a tribe. Funds shall be used only for forest land management activities on the reservation for which the account is established. An expenditure plan is required for distribution of the funds.

Advance Payments (AP)

 Accounts house funds that are required for the sale of timber from allotted trust or restricted Indian forest land. Advance payments may be required for tribal land.
 These payments are in advance of cutting and are not refundable. Additional stumpage payments may be specified in contracts.

Advance Deposits (AD)

Accounts house funds that are collected for timber cutting on Indian land. Advance deposits are required in advance of cutting, which the purchaser furnishes to maintain an operating balance against which the value of the timber to be cut will be charged. These deposits may be refundable to the purchaser.

Trespass (TR)

Accounts house funds for penalties for trespass on trust or restricted fee lands.
 Payments are deposited from adjudicated actions or undisputed settlements where the amount is known.

Tribal Lease (T) or Other Tribal

Accounts are used as "flow-through" accounts from the tribal "T" account to the tribe's Proceeds of Labor account. BIA uses TAAMS title to record tribally owned tracts using "T" identification numbers. "T" accounts are used to collect revenue for the tribe's share of an undivided interest in an allotment that they own with individual land owners.

Other "T" accounts:

- BIA to Resolve Ownership Issue: The five accounts belong to the Five Civilized Tribes of the Eastern Oklahoma Region. The BIA Land Title & Records Office (LTRO) is working to resolve the ownership issues associated with the accounts (i.e., BIA is entering the original trust patents into TAAMS title).
- Escheat Youpee: These accounts house funds collected from individual Indians that were escheated to the tribe. Subsequent to the reversal of the Youpee decision, the BIA and OST are working collaboratively to distribute funds and return land ownership to the individual(s) and/or their heir(s).
- Fee Interest Assets Only: A tribe's undivided fee interest in an allotment that is maintained on the TAAMS title system for unity purposes (i.e., to account for 100% of the interest in a tract).

Bid Deposit

• Account contains one bid deposit for a forestry contract. The BIA and OST are working collaboratively to determine the disposition of the funds. In 2001, the BIA implemented the non-trust funds policy and procedure that determined bid deposits to be non-trust funds and non-interest bearing, therefore should be posted to the BIA Suspense Deposit System.

Performance Bond (PB)

Accounts house funds used as a cash performance bond for work to be completed based on an encumbrance (i.e., lease, contract, permit, etc.). The BIA and OST are working collaboratively to determine the disposition of these funds. In 2001, the BIA implemented the non-trust funds policy and procedure that determined performance bonds to be non-trust funds and non-interest bearing, therefore should be posted to the BIA Suspense Deposit System.

Other Funds (OT)

- Accounts house funds that contain special legislation or provisions that guide the management of the funds. For example, the fund contains a reversionary provision or is subject to specific activities or actions.
- Also account type is used for "House" suspense accounts that are used by OST for internal system reconciliation.

Endowment Funds (CF)

 Accounts house funds collected from endowments from individuals or entities. Some funds are established for specific purposes such as cultural preservation or specific entities such as the University of Idaho at Moscow for scholarships for Indian students.

Individual Indian Monies Account Metrics

Information for the National Commission on Indian Trust and Administration

2/29/2012

The information contained herein may be protected from disclosure by Federal law. It may not be released orally, in writing, or in any other form, except with the express consent of the U.S. Department of the Interior.

Individual Indian Monies (IIM) Account Metrics

As of February 29, 2012, the Office of the Special Trustee for American Indians (OST) managed 371,737 IIM accounts with a total of \$539.7 million. This amount only represents the fund balance on that day and is not representative of the total revenue received for individual Indian monies during the year. However it is interesting to note, for information purposes only, that for the time period March 1, 2011 through February 29, 2012, OST disbursed approximately \$749 million, either directly to individuals or to third parties for their benefit, with 667,242 transactions processed. The federal regulations governing the administration of IIM funds are found in 25 CFR Part 115 and Part 117.

OST establishes or closes accounts on the Trust Fund Accounting System (TFAS) at the request of the Bureau of Indian Affairs (BIA) Superintendent. TFAS is an industry standard trust accounting system that contains the subsidiary IIM and tribal account information and performs the investment and reporting of those funds. Setting up accounts on TFAS is typically performed through a daily data integration file that is exchanged between the Trust Asset and Accounting Management System (TAAMS) and TFAS. TAAMS is the trust system that the BIA uses to manage the title, ownership, encumbrances, and accounts receivables of trust assets and resources.

As the BIA Trust Program offices and Land and Title Records Office (LTRO) update title and ownership records, the information is exchanged between the two trust systems. In a nutshell, as a result of this exchange, asset statements reporting the financial transactions from TFAS and real property and encumbrance information from TAAMS are combined from the two systems to generate periodic statements of performance for beneficiaries (generally quarterly for IIM accounts and monthly for tribal accounts).

The number of IIM accounts and the dollar value for the past five years is shown below.

Fiscal Year	Number of Accounts	Amount in Millions (\$)
9/30/2007	370,857	420.9
9/30/2008	377,878	433.5
9/30/2009	384,024	445.2
9/30/2010	380,712	448.8
9/30/2011	383,595	462.7

The tables below show the metrics of IIM accounts by region, tribal or land area code affiliation, and by account categories. The regions are the same as the twelve BIA offices that manage trust resources.

- Table 1 shows the total number of accounts summarized by region.
- Table 2 shows the total number of accounts summarized by tribe and/or land area code.
- Table 3 shows the total number of accounts summarized by account categories. (This is not an inclusive list of all account categories.)

- o Table 3.A shows the total number of accounts summarized by estate status.
- o Table 3.B shows the total number of accounts summarized by minor status.
- Table 3.C shows the total number of accounts summarized by Whereabouts Unknown (WAU) status.
- o Table 3.D shows the total number of WAU accounts by dollar amount.
- o Table 3.E shows the total number of supervised accounts.
- o Table 3.F shows the total number of supervised accounts by region.

^{*} Generally less than 18 years of age. Some Tribes by resolution define minor as less than 21 years of age and/or with other stipulations. There are 4,039 accounts with \$10.4 million that appear to be over 18 years of age but the verification has not been completed due to whereabouts unknown status or no verifiable information is available.

^{**}Decedent accounts pending final probate distribution. The accounts are in the various stages of the probate process from case preparation to final distribution and closing.

Total Supervised 3/2/2012	2,060	100.00%	\$ 47,197,633.07

The percentage of supervised accounts in the categories of 1) adult financial assistance and 2) adult non-compos mentis is less than 1% of the total number of the IIM accounts and 8.75 % of the IIM fund. However the administration and management of these accounts for the most vulnerable of individuals requires the collaboration of federal, tribal, private and sometimes state caretakers to ensure the beneficiary receives the best service possible.

It is important to note that minor (less than the age of majority) accounts are also considered "supervised" accounts under the management of the BIA Superintendent until the individual reaches the age of majority. There are cases where minors are under medical or other supervision that requires, as a last resort, funds to be used from the IIM account to cover certain expenses. In this type of situation, the BIA, OST and tribal staff (if appropriate) work collaboratively to administer the account. Therefore, a combined total "supervised" accounts under trust management is 29,334 (<1%) with \$150.3 million (28%).

Office of the Special Trustee for American Indians

Advisory Board Resolutions

- Unclaimed Property Fund: OST to recommend legislation to DOI to create a single account similar to an unclaimed property fund. (*January 17, 2008*)
- **Fractionation:** The Board, working with BIA and Indian organizations, will make an effort to develop a solution to fractionation. (*January 17, 2008*)
- **Future of OST**: OST should not be reversed, nor should progress on reform cease. OST needs to continue in its role as a focused, professional, independent fiduciary trust management organization with separate congressional funding. (*January 17, 2008*)
- **OST**: OST should continue to operate in its present form reporting to the Secretary of the Interior until the major trust reforms are completed by September 30, 2011. (*January* 15, 2009)
- **Limited Liability Entity**: Directs the Special Trustee to propose a fractionation pilot project seeking to form a Limited Liability Entity in order to have one ownership of highly fractionated land (more than 20). Interior's Solicitor's Office will provide guidance in accordance with the provision in AIPRA to allow individuals owners of tract land to incorporate on a voluntary basis to form the entity. (*January 15, 2009*)
- **Probate Administration**: Study the development of a simpler probate administration system, including a review of any legislative modifications that are required. (*March 26*, 2009)
- Indian Trust Property Account: Advisory Board approves that OST seeks authority to establish an indian trust property account with the Department of Treasury. After a specified period of inactivity the WAU accounts will be transferred from OST to the Indian Trust Property Account. The return on investments for these funds will be used for purposes beneficial to Indian Country, including purposes of land consolidation. (September 24, 2009)
- Uniform Law Commission: Advisory Board supports efforts to secure adequate funding to support the ULC to draft a model tribal probate code to supplement the provisions of AIPRA. (September 16, 2010)
- Cobell Settlement Issues: December 15, 2010, Letter to Secretary Salazar (1) The Lien The Secretary has the authority to remove the lien for a variety of reasons. (2) Reduce Numbeof Allotted Parcels Any repurchase procedures should reduce the number of parcels owned by allottees.
