

Cumulative Index

Journal of Defense Research, 1969-1978

This index covers the content of the *Journal of Defense Research* since the latter was instituted as a reorganization of the old *Journal of Missile Defense Research*, which had been published in the period from 1964 through 1968. It covers issues as listed in Tables 1 through 4, containing lists that are arranged alphabetically, first, according to the authors' surnames and, second, according to the titles of the articles that have been published.

It should be noted that many of the regularly scheduled issues that were published over the years are dedicated to specific broad areas of defense research, with the various articles in the issue covering particular aspects of the area involved. These broad areas to which the issues are dedicated are listed as footnotes to Tables 1 through 3.

The dedicated issues turned out to be helpful enough and, consequently, popular enough among the members of our distribution list that the Journal's Advisory Council members called for the separate publication of dedicated issues on a non-regularly scheduled basis, and this program was started in 1976. The titles, publication dates, and classification levels of the dedicated issues published thus far in this revised program are listed in Table 4.

The papers in this index are listed, as mentioned above, by author and by title. In this compilation, the author portion of the list shows the title of the article only after the first-named author of articles having multiple authorship. The coauthors' names are shown in their alphabetical order and are keyed by reference to the name of the principal (that is, first-named) author. The numbers of the volumes in which the papers appear are italicized, while the page number of a volume on which the article commences is shown in roman type at the far right. Within the indexes, the titles or subject matter of dedicated issues are shown in parentheses in boldface type.

Copies of the various issues of the Journal are available in the usual forms of archival documents from the Defense Documentation Center, Cameron Station, Alexandria, Va. 22314. Requests for copies of the Journal should be accompanied by a mention of the pertinent AD number in those cases where the numbers are available in the accompanying tables.

PAGES 351-376 DO NOT CONTAIN RD/FRD

New ideas, R. L. Garwin (Letters and Technical Notes)..... 1B 310

New initiatives for command, control, communications, and intelligence, H. I. Davis (Tactical Command, Control, and Communications)..... 78-1 71

New radar detection systems for metal military targets, A. J. Eisenberger, J. A. Craff, G. F. Orighio..... 6B 288

New techniques for the TOA location of non-pulse emitters, J. R. Grindon..... 5B 196

Night sensor performance, A. H. Gillmer..... 2B 97

Night sensors for truck interdiction, L. M. Biberman, R. R. Legault..... 2B 216

Novel flechette munition for delivery by high-velocity rocket, M. B. Schaffer..... 3B 13

O

Observer and laser designator RPV's: Think Small, C. J. Malven, E. Ekisreb, P. G. McManigal..... 7B 709

On-board measurements during reentry, R. E. Kiel, G. F. Hohnstreiter, R. Watson, G. L. Grohs..... 2A 396

On the future of the tank, D. N. Fredericksen..... 7B 953

Open-ocean sprinkle mining, R. A. Benneche..... 3B 1

Operational problems in U.S. field artillery systems, B. E. Huffman, Jr..... 4B 129

Operational reliability test of the M-16A1 rifle systems, G. E. James..... 1B 30

Optical techniques for space object identification, R. P. Urtz, Jr., J. W. Justice..... 8 279

Other technologies, E. G. Fubini (Letters and Technical Notes)..... 1B 307

Over-the-horizon backscatter radar technology, L. Baum..... 8 187

Overview of current antisatellite programs, J. H. Kalish (Space Defense)..... 78-3 171

Overview of defense command, control, and communications (C³) systems, H. L. Yudkin..... 4A 860

Overview of several programs relating to the quantitative evaluation of air tactics, countermeasures, and anti-aircraft weapon systems, A. R. Eaton..... 2B 256

Overview of space system survivability techniques, E. J. Beverly D. H. Quine, J. Reinheimer, J. Roth (Space Defense)..... 78-3 327

Overview of strike operations: past—present—and future, D. N. Beatty..... 6B 233

P

Parametric design/cost-effectiveness study of advanced forward-area air defense systems (AFAADS) gun systems, R. Farrell, S. Bonder..... 3B 275

Particle beam technology for BMD, L. J. Havard, Jr., T. D. Hayward, T. W. Armstrong, T. G. Roberts..... 9 307

Passive laser countermeasure applications, K. F. Brettman, V. M. Kemp (High-Energy Lasers)..... 7B 613

Passive laser countermeasures for flight skins and structures, J. E. Cowling, S. R. Lyon (High-Energy Lasers)..... 7B 588

Pave Gat: a flexible gun turret armament system for the B-57G, E. L. Cloud, K. C. Leonard, Jr..... 6B 397

Phalanx, R. M. Cohen, G. Lasker, J. E. McSweeney, D. J. Trulin..... 4B 313

Planning for problems in crisis management, L. Hazlewood, J. J. Hayes, J. Brownell (Crisis Management)..... 77-1 42

Plumbicon design, L. G. Mundie (Letters and Technical Notes)..... 2B 247

Pointing and tracking for high-energy laser systems, L. Sher, B. F. Johnson (High-Energy Lasers)..... 7B 259

Potential countermeasure capabilities against electro-optical guided weapon systems, D. D. Kasparek (Defense Suppression)..... 78-2 125

Precision emitter-location system for Pave Nickel, D. Krausman, K. R. Cosgrove..... 5B 112

Precision guided munitions for surface targets, H. A. Ory, M. B. Schaffer, B. F. Jaeger, J. J. Kishel..... 7B 982

Precursor formation and the blunt-body radar cross section during reentry, C. J. Bartlett, K. R. Edwards..... 1A 260

Preface to the high-energy laser issue, E. T. Gerry..... 7B 1
(also in Volume 4A)

Project Della, J. G. Duffey, D. E. Spreen (High-Energy Lasers)..... 7B 41

Propagation limits of advanced air-defense weapons, V. H. Reis..... 8 329

Proportional lead guidance in the laser-aided rocket system, M. R. Yeager, L. J. Wroten..... 4B 116

Propulsion for tactical missiles, P. C. Oliver..... 1B 368

Prospects for crisis management R & D, R. A. Young (Crisis Management)..... 77-1 184

~~CONFIDENTIAL~~
