ISSUE: Treasury Department interest in JTF-6 Rapid Support Unit (RSU) training for Bureau of Alcohol, Tobacco, and Firearms (BATF) prior to raid on Branch Davidian at Waco, TX.

a. STATUS: To update previous KCI of 10 May 93 (TAB A), the Treasury Department has requested, through JCS, to interview two JTF-6 officers in order to better understand the reasons behind BATF's request for JTF-6 support prior to the Waco operation. The Treasury Department is conducting their own internal review of the Waco operation.

b. PROGRESS: JTF-6 has no objection to the telephonic interview. However, one of the officers is in the process of executing a PCS move, but will be available for interviewing through 23 Jul 93. This information has been passed to the Joint Staff.

c. CONCERNS: None.

Dear General Turk:

This firm represents the estates of [redacted] and [redacted] (586) (587) (588)

Notice is hereby given on behalf of [redacted] (589) father of [redacted] (591) and grandfather of [redacted] (588) (586) (589) of a claim against the Texas National Guard for the wrongful death of [redacted] (587) and [redacted] all of whom died at the Branch Davidian Mount Carmel Center in Waco, Texas, [redacted] (588) on February 28, 1993 as a result of the initial attack and [redacted] (587) and [redacted] (589) died as a result of the assault and incineration of the Mount Carmel Center on April 19, 1993.

The incident has been well-publicized and well-documented and involved David Koresh.

While we believe that the Texas National Guard had actual notice of this incident, we are nevertheless filing this notice of claim. (586)

We claim that the Texas National Guard caused the deaths of [redacted] (587) on February 28, 1993 and of [redacted] (588) on April 19, 1993. (589)

This notice is being sent to you as the administrative head of the Texas National Guard.

Very truly yours,

General Gordon R. Sullivan  
Acting Secretary  
Department of the Army  
The Pentagon  
Washington, D.C. 20310

Dear General Sullivan:

I have recently received a videotape from the American Justice Federation (AJF), which is located in my district, raising a number of allegations about the assault on the Branch Davidian compound in Waco and the resulting standoff. Some of the allegations concern the tanks provided by the Army from Fort Hood for this operation. I would appreciate it if you would review this tape and respond to the following questions.

1. At the 20 minute mark in the tape, the AJF alleges that federal law enforcement agencies fabricated evidence of a methamphetamine lab in the compound to provide legal justification for the use of army equipment and personnel in a civilian law enforcement action. Please identify the units of the U.S. Armed Forces or the Armed Forces of other countries that provided military equipment and/or personnel for this operation, and under what legal authority?
2. At 22 minutes, the tape shows a tank apparently destroying cars, bikes and other objects outside the compound. The AJF alleges that this was done to punish individual Branch Davidians in the compound. Are these allegations true, and if so, why was this done? Were these tanks operated by Army personnel or personnel from other government agencies?
3. Twenty-six minutes into the tape, the AJF alleges the tank retrieval units, brought in to puncture holes in the compound walls, were actually used to collapse the inside stairwells. Are these allegations true?
4. Twenty-seven minutes into the tape, footage is shown of a combat engineer tank withdrawing its turret from the compound wall. On the tape it appears that there are flames emanating from the turret. The AJF alleges that the government intentionally set fire to the compound. Were the tanks operated by Army personnel or other federal agents? Were the tanks used in this assault equipped with flame throwing devices? Were the tanks equipped to insert CS gas? Did the tanks utilize tear gas or other agents that were flammable? Can you account for the flames visible in this footage?

5. The AJF shows footage of tanks that it alleges are pushing physical evidence into the fire. Are there any grounds for these allegations?

6. Were Delta Force personnel present at any time during the 51 day siege, and if so, under what authority?

In asking these questions, it is not my intention to impugn the integrity of the federal agents or Army personnel that took part in this operation. I have always had the highest respect for the men and women who enforce our nation's laws and serve in our Armed Forces. However, since these questions have been raised, I believe that they should be answered.

Thank you for your attention to this matter, I look forward to your earliest possible response.

Sincerely,

Dan Burton  
Member of Congress

DEPARTMENT OF THE ARMY  
OFFICE OF THE CHIEF OF LEGISLATIVE LIAISON  
1600 ARMY PENTAGON  
WASHINGTON, DC 20310-1600

30 SEP 1993

Honorable Dan Burton  
House of Representatives  
Washington, D. C. 20515

Dear Congressman Burton:

Thank you for your letter of September 21, 1993, concerning the Department of the Army support to the Federal Bureau of Investigation and the Bureau of Alcohol, Tobacco, and Firearms during the Branch Davidian stand-off in Waco, Texas.

As you are already aware, active and direct participation by active Army forces in civil law enforcement is prohibited by the Posse Comitatus Act, Title 18 U.S.C. Section 1385; this is, however, subject to some widely-recognized exceptions. While usually prohibiting active and direct participation in civil law enforcement, this law does not prohibit other forms of support, such as the loan and maintenance of equipment, expert advice, and training. The authority for this support is codified in Title 10 U.S.C. Sections 372, 373, and 374, with reimbursement provisions in Section 377.

In this particular situation the Army performed an authorized support role. The Army loaned to federal officials armored vehicles, helicopters, mine detectors, and a variety of support equipment to include tents, cots, and light sets. The Army also maintained the equipment and provided federal officials with training and advice. No Army sidearms or munitions of any type were loaned to federal officials. No Army equipment was loaned with operable weapons systems. Active Army forces did not operate helicopters, tanks, or other armored vehicles, nor were such forces actively or directly involved in actual law enforcement operations. Active Army units which provided some support were from III Corps, Fort Hood, Texas. The Texas Army National Guard also provided support to federal officials.

Except for the support just described, the Army did not participate in this operation and is unable to comment on the tactics used. Your question involving special operations forces addresses units and activities outside the scope of the Department of the Army command responsibility and has been referred to the Joint Staff for response.

I hope you will find this information helpful.

Sincerely,

1

CERTIFICATE

I, [REDACTED], am a member of HHT(-), 1-124th Cavalry, located in Waco, Texas, and am also the supply sergeant for this unit. On 3 March 1993, units in the Waco Armory were directed to deliver equipment to the Texas Technical College in Waco, for use in the Branch/Davidian crisis. On 22 April 1993, I, received a telephone message to come to the College Campus to retrieve the equipment that was loaned to the Federal Bureau of Investigation, for the crisis, when I picked up the equipment the items listed on this survey were missing.

CERTIFICATE OF DELAY

Attached Report of Survey prepared by Company A 11th Engineer Battalion for the amount of \$4089.48 was delayed by this headquarters, waiting clarification from the 49AD G4 as to how this property would be adjusted. Initial thoughts were that all the equipment that was lost in the state concerning this matter would be surveyed by STARC and ultimately dropped from respective units hand receipts.

[REDACTED], P.O. Box 5218, Austin, Texas 78763-5218

SUBJECT: Reimbursement for Lost Equipment

1. During the law enforcement operation in Waco, Tx, the FBI and BATF were issued a wide variety of military equipment by representatives of the Counterdrug Support Program. This equipment was borrowed from several different units of the Texas Army National Guard. Most of this equipment was from the USPFO or from programs and organizations that trace their property to HQ STARC(-) PBO.

2. At the close of that operation, the Federal law enforcement agencies were billed for all items that were not recovered. Unfortunately, the lost property was not separated by owning command when it was billed.

3. The list of property paid for by the FBI included:

Item	NSN	QTY	OWNING UNIT
Helmet, CVC	8415-00-094-2684	08	Co. A, 111 ENG

Total cost was \$2,990.00.

4. This office does not have access to the MAMSCO of the affected unit or any specific information about the payment by the FBI; but it seems that of the money received from the FBI for lost equipment, \$2,990.00 should be transferred to control of some element of the 49AD. Questions of reappropriation necessarily belong to AGTX-SC.

CERTIFICATE OF DELAY

Attached Report of Survey prepared by Company A 111th Engineer Battalion for the amount of \$4089.48 was delayed by this headquarters, waiting clarification from the 49AD G4 as to how this property would be adjusted. Initial thoughts were that all the equipment that was lost in the state concerning this matter would be surveyed by STARC and ultimately dropped from respective units hand receipts.

Dear Mr. Burton,

The Army referred to the Joint Staff the question in your recent letter regarding the presence of US Special Operations Command (USSOCOM) personnel during the 51-day siege of the Branch Davidian compound in Waco, Texas.

The Secretary of Defense authorized the deployment of two members of USSOCOM to Waco to provide technical assistance with observation and sensor equipment furnished under the authority of Title 10, USC, sections 372, 373, and 374, with reimbursement provisions in section 377. These personnel did not provide any tactical advice nor did they participate in any operations.

An additional member of USSOCOM was an observer at the FBI Tactical Operations Center. This observer also did not participate in any operations.

I hope this additional information will be helpful to you.

Sincerely,

WASHINGTON, DC 20310-1600

1 NOV 1993

Honorable Dan Burton  
House of Representatives  
Washington, D. C. 20515

Dear Congressman Burton:

Thank you for your telephone call of October 14, 1993, concerning Department of the Army support to the Federal Bureau of Investigation (FBI) and the Bureau of Alcohol, Tobacco, and Firearms (BATF) during the Branch Davidian standoff in Waco, Texas. This letter expands on the information we provided you in our letter of September 30, 1993.

The Department of the Army provided only indirect military support for this operation. This indirect support took the form of loaned equipment, equipment maintenance, training sites, and training assistance.

Loaned Army equipment included: two UH-1 utility helicopters, two M1A1 main battle tanks, two support vehicles for the main battle tanks, and miscellaneous equipment (night vision goggles, mine detectors, tents, generators, light sets, cots, and sandbags). An additional three CH-47 medium helicopters and five physicians were on call to respond to any serious medical emergency.

The Texas Army National Guard provided the following support: ten M2A1 Bradley Infantry Fighting Vehicles, five M728 Combat Engineer Vehicles, one fuel truck, one bus, one van, three trailers, two UH-60 helicopters (on stand-by), tents, body armor, and night vision goggles.

The nearby Army post at Fort Hood provided lodging, classrooms, and a military operations in urban terrain (MOUT) site for training.

A total of 23 Army and 15 Army National Guard personnel provided maintenance support and generic training assistance to the FBI/BATF. All military personnel were briefed on the legal restrictions on direct law enforcement support. No Army personnel were directly involved in the planning or execution of the operation.

The "tank" seen in the tape is actually a M728 Combat Engineer Vehicle. The weapons on this vehicle (and all others loaned by the Army to other Federal agencies) were made inoperable before being loaned. Additionally, the main gun on the vehicle cannot be employed as a flame-thrower. The part of the vehicle seen punching a hole in the building is the boom assembly. The boom allows the crew to remain inside the vehicle and remove debris or obstacles outside. The boom assembly on this vehicle was modified by the FBI to inject tear gas.

Army personnel did not drive any of the loaned armored vehicles. The vehicles were driven by FBI or BATF personnel, and only FBI personnel operated the vehicles at the Branch Davidian compound on the date of the operation. The FBI and BATF crews received one day of driver training from Army personnel prior to loan of the equipment. Army personnel receive approximately 80 hours of driver training, but this includes additional training on extreme terrain driving, vehicle maintenance, loader responsibilities, and blade operation. The FBI and BATF crews did not require this detail of instruction.

I hope this information answers your questions.

Sincerely,

1

AGREEMENT FOR THE LOAN OF US ARMY MATERIEL

1. This form, under DA Form 100-129, the predecessor of a DC SLOG.

This form will be used to enter

agreements relative to the loan of Army materiel between the United States Army and -

No. Federal departments below are appropriate

agencies. 2. Civilian activities specifically authorized to receive Army materiel on loan cases, as cited above, unless otherwise specified at the beginning of each paragraph

This loan agreement is entered

into, by, and between the United States of America, hereinafter called "the lender,"

represented by (b) COMMA

GENERAL, III CORPS AND FORT HOOD

for the purpose of entering into this agreement; and (a)

FEDERAL BUREAU OF INVESTIGATION

hereinafter called "the borrower," represented by (c)

[REDACTED] FBI HQ SIOC, WASHINGTON D.C

for the purpose of entering into this agreement.

1. PURPOSE. Under the authority of (d) 31 USC 1535 (THE ECONOMY ACT) the lender hereby lends to the borrower and the borrower hereby borrows from the lender the Government materiel, hereinafter called "the materiel," listed and described in Exhibit 1 hereto attached and incorporated by reference into

the terms of this agreement, which materiel is required by the borrower for (e) MAJOR CASE 80, WACO, TX

2. TERM. This loan of materiel is intended to meet a temporary need covered by federal law. The borrower will keep the materiel only for the period of (f) 28FEB93 - 24APR93. Loans may be renewed, if justified, and requested by the borrower and approved by the lender. Nevertheless, the lender may revoke and terminate this agreement and demand return of the materiel in whole or in part at any time.

3. CONDITIONS. This agreement is predicated upon the following conditions.

a. The lender will make every effort to ensure that each item of the materiel is furnished to the borrower in a serviceable and usable condition according to its originally intended purpose. However, if the use for which the materiel is loaned will permit, materiel of a lesser condition will be loaned. This lesser condition will be noted on the appropriate loan documents. Nevertheless, the lender makes no warranty or guarantee of fitness of any of the materiel for a particular purpose or use; or warranty of any type whatsoever.

b. The borrower will appoint a representative for the purpose of making joint inspection and inventory of all materiel when the borrower physically picks up or returns the borrowed materiel. Upon pickup (or receipt after shipment) of the borrowed materiel, the chief of the borrowing activity (or his authorized representative) will sign the appropriate documents acknowledging receipt and possession of the materiel. Upon return of the materiel to the Army, the borrower will certify that "the quantities listed in the shipping document(s) are correct." In instances where borrower representatives, authorized to receive and sign for borrowed materiel, are not available when the materiel is delivered, all claims for costs related to the loan will be valid.

c. The borrower is responsible for care and maintenance of borrowed materiel during the term of the loan. The borrower will provide sufficient personnel and facilities to adequately operate, maintain, protect, and secure the borrowed materiel. The borrower will maintain the materiel in a serviceable condition and ascertain that it is returned to the Army in as good a condition as when it was loaned (fair wear and tear excepted). Records of maintenance performed will be kept and returned to the Army with the borrowed materiel. (NOTE: When appropriate, the borrowing activity will place the materiel in a "properly preserved" status prior to or upon return.)

d. The borrower will store, safeguard, and secure high value items, or items in a manner consistent with common practice, public law, and local ordinances.

e. The borrower will prevent misuse of borrowed materiel, or its use by unauthorized persons.

- f. The borrower will neither permit any modification or alteration of any borrowed material except with the permission of the approving authority for the loan.
- g. The borrower will not mortgage, pledge, assign, transfer, sublet, or part with possession of any borrowed material to any third party, either directly or indirectly except with the prior written approval of the lender.
- h. At all times the lender shall have free access to all loaned material for the purpose of inspecting or inventorying it.
- i. The borrower will return borrowed material to a location designated by the lender when the material is no longer needed, upon termination of the loan period (including any approved extension), or upon demand therefore by the lender. The lender will provide documents to be used by the borrower to return the material.
- j. (Applicable to agreements involving the loan of an Army building) The building will not be moved. Upon termination of its use, the borrowing activity will vacate the premises, remove its own property therefrom, and turn it over to the Government property.

**k. PAYMENT.** The borrower will reimburse the lender for expenses incurred in connection with this loan as provided below:

a. (Applicable to loan agreements with civil authorities - except for FDAA requested disaster assistance - and civilian activities only.) Before delivery of any material by the lender, the borrower will post with the approving authority a surety bond and a certified bank check, US Treasury bonds, or bonding company bond in the amount of the total value of the material as shown in Exhibit I (See paragraphs 2-7 of 2(a) and 2-7 of 2(b), AR 700-131, for exceptions where a "double bond" is required.) The bond, marked Exhibit II, (properly executed surety bond and evidence of deposit with the approving authority of certified check, United States of America Treasury bonds, or bonding company bond in the amount of the grand total shown on Exhibit I), is hereto attached and incorporated by reference into the terms of this agreement.

b. (Applicable to loan agreements with civil authorities - except for FDAA requested disaster assistance - and civilian activities only.) Should the borrower fail to return any of the borrowed material or fail to reimburse the lender within 30 days after receiving a request for payment of expenses, the bond shall be forfeited as liquidated damages in an amount equal to the expense to the Government.

c. (Applicable to loan agreements with civil authorities - except for FDAA requested disaster assistance - and civilian activities only.) Payment of liquidated damages by forfeiture of any portion of the bond to the Government shall not operate as a sale to the borrower of any of the material available to be returned, but, not returned to the lender, nor to extinguish the lender's right to have the available missing material returned. Should the borrower later return to the lender any of the missing material on account of which a portion of the bond was forfeited as liquidated damages, the borrower shall be entitled to recoup from the lender a sum equal to 90 percent of the price of the returned material as shown on Exhibit I, less an amount in payment for expenses, if any, computed in accordance with Chapter 6, AR 700-131, and less an amount for depreciation.

d. (Applicable to loan agreements with civil authorities and civilian activities only.) If the normal life expectancy of borrowed material can be determined by reference to applicable military publications, the amount to be assessed for depreciation shall be computed by the straight line method using the price shown on Exhibit I and the date of expiration or termination of this loan as initial points. When normal life expectancy is not established by applicable military publications, the amount for depreciation shall be computed by the same method, applying a uniform depreciation rate of 50 percent per annum.

e. (Applicable to loan agreements with civil authorities and civilian activities only.) The borrower will assume all responsibility for Army claims arising from the possession, use, or transportation of the borrowed material, and, agree to hold the lender harmless from any such claims and liability. The borrower will protect the interests of the lender by procuring comprehensive insurance for all borrowed material to include coverage for liability, property damage, fire, and theft, and deductible collision insurance for motorized vehicles. The borrower will file duplicate copies of such insurance policy(ies) with the lender and prepare accident reports in accordance with existing laws and local ordinances.

f. The borrower will bear the cost of pickup and return of borrowed material, and, will reimburse the lender for costs incurred incident to packing, crating, handling, movement, and transportation of the material.

g. The borrower will reimburse the lender for any expenses necessary to repair, rehabilitate, or preserve the material following its return to the lender (NOTE: Of any borrowed material, unless depreciation is significant.)

h. The borrower will reimburse the lender (as indicated and at the price shown on Exhibit I) for the cost of all of the expendable material (including, but not limited to, petroleum, oil, and other lubricants) used or consumed during the loan.

i. The borrower will reimburse the lender for costs incident to the pay of Army personnel who may be temporarily called to operate, maintain, guard, or otherwise attend to borrowed Army material. This includes travel and per diem for both Army uniformed and civilian personnel, and regular salary and overtime costs for Army civilians.

1) The borrower will reimburse the lender for any other expenses to the lender arising in connection with the loan of Army material.

2 (Applicable to loan agreements with Federal departments and agencies only) The lender will indicate the specific security classification(s) against which any charges so enumerated above will be charged.

3) MEMBERS SHALL NOT TO BENEFIT No member of or delegate to Congress shall be admitted to any share or part of this loan or to any benefit arising in connection with it.

4) CONTINGENCY FEES No person or agency acting for or on behalf of the borrower to solicit or obtain this loan shall be paid any commission, percentage, brokerage, or contingent fee in any way connected with this loan.

5) DISPUTES Any disputes concerning a question or fact arising under this loan agreement which are not mutually disposed of by the lender and the borrower shall be decided by the Secretary of the Army as the Government's Executive Agent, or by his designee.

6 Jan 93	Request from BATF to ONDCP for support for an ongoing drug case.
22 Jan 93	Letter received by Operation Alliance from BATF requesting MOUT site, Bradley Fighting Vehicles, tents, light sets, heaters, generators, and other military items of equipment.
1 Feb 93	JTF-6 makes informal inquiry with New Equipment Team (Ft Benning) to establish minimum training requirements to qualify operators for BFV. (5 days minimum was answer)
2 Feb 93	Briefing at Operation Alliance by BATF on the operational and logistics requirements. Support Request, 25.2.139.0293, forwarded by Operation Alliance to JTF-6 and TANG. JTF-6 was to provide a mobile training team at Port Hood, if possible.
3 Feb 93	MSG, 032140Z FEB 93(S) from JTF-6 to Cdr III Corps requests range and training areas for 18-21 Feb (initial dates).
4-5 Feb 93	JTF-6 J3Ops, and RSU Commander (with Det team planners) travel to Houston and participate in an initial planning conference to establish the minimum parameters, finalize training objectives, and assess subjects the RSU could provide IAW DoD policy. On-site trauma medical support is discussed. Mission connection to counterdrug identified.
4 Feb 93	Initial Warning Order to FORSCOM (OPNCTE, JVIDs, 041603Z FEB 93) indicating an RSU mobile training team support request is being planned. This warning order also introduces the possibility for CONTOMS (contingency tactical medical support--Bethesda, Md) to provide emergency trauma teams.

DATE	EVENT
4 Feb 93	BATF decides to handle on-scene medical support with their own agents and local civilian medical assets. Notified FORSCOM J3OD that CONTOMS would not be necessary.
5 Feb 93	JTF-6 conducts IPR on specifics of support request. Counterdrug nexus reviewed (BATF and Operation Alliance again verified drug relationship) and overall JTF-6 concept narrowed to an MTT on Fort Hood. Overall commanders intent is to provide general training support on Ft Hood only. Title 10 personnel would not be use for C <sup>2</sup> , specific mission planning, or medical evacuation.
5 Feb 93	Coordination is made with CINCSOC staff.
5 Feb 93	BATF changes their execution dates. JTF-6 notifies G3 staff action officer, III Corps, of new training dates (25-27 Feb) and for training area, ranges, and the MOUT site. Followed up with a new BATF request for billeting (for approx 95 personnel).
8 Feb 93	RSU Det ODA 381 begins lesson plan preparation at Ft Bliss, Texas.
11 Feb 93	SAC, Houston, BATF, briefed their concept to BATF, Washington DC. They receive approval.
12 Feb 93	JTF-6 Concept Message draft FAXed to FORSCOM for review and comment.
14 Feb 93	RSU ODA Detachment receives RSU Commander internal operations order for MTT.
15 Feb 93	ODA 381 RSU team begins isolation at Ft Bliss for MTT
16 Feb 93	FORSCOM FAXes proposed EXORD with language to be integrated in final message: "RSU assets will not become involved in BATF operational planning, nor assume responsibility for the BATF plan. Observing and critiquing the rehearsal of the operational plan is authorized, particularly in the areas of safety. Rehearsal critique comments will be provided as the opinion of trained military observers, not an official DoD endorsement of the soundness of the plan."

THE AMOUNT INDICATED HEREON REPRESENTS AN AUTHORIZED OBLIGATION TARGET WHICH SHOULD NOT BE EXCEEDED WITHOUT A PROPERLY DOCUMENTED CHANGE. THIS TARGET, IN ITSELF, DOES NOT CONSTITUTE A FUND LIMITATION UNDER THE PROVISIONS OF AR 37-20. HOWEVER, OPERATING OFFICIALS SHOULD RECOGNIZE THAT EXCEEDING THIS OBLIGATION TARGET MAY RESULT IN AN OVEROBLIGATION OF THE ADMINISTRATIVE FUND LIMITATION AND MAY BE THE BASIS FOR NAMING THE PERSON RESPONSIBLE FOR A VIOLATION OF 31 U.S.C., SEC 1517, REVISED STATUTES (37-20).

Replies to Congressional communications are to be made as expeditiously as possible with special attention being given to correspondence of an urgent or time-sensitive nature. The basic guidelines for the processing of routine correspondence is five working days, from the date of receipt to complete and dispatch the response.

When circumstances clearly prevent a final or draft reply within five working days, a substantive interim reply will be made. The interim response will contain as much information as is available at the time, provide the Member of Congress with the reason for the delay, and indicate the appropriate date a final response can be expected.

**PRIVACY ACT STATEMENT: GENERAL** - This information is provided pursuant to Public Law 93-570 (Privacy Act of 1974), December 31, 1974, for individuals completing Federal nomination for training forms. **AUTHORITY** - The Government Employees Training Act of 1958 (U.S. Code, Title 5, sections 4101 to 4118). **PURPOSES AND USES** - The information on this form is used in the administration of the Federal Training Program. The purpose of this form is to document the nomination of trainees and completion of training, and it serves as the principal repository of personal, fiscal and administrative information about trainees and the programs in which they participate. The form becomes a part of the permanent employment record of participants in training programs and is included in the Government's Personnel Data File. **EFFECTS OF NONDISCLOSURE** - Personal information provided on this form is given on a voluntary basis. Failure to provide this information, however, may result in ineligibility for participation in training programs.

**INFORMATION REGARDING DISCLOSURE OF YOUR SOCIAL SECURITY NUMBER UNDER PUBLIC LAW 93-579, SECTION 7(b):** Disclosure by you of your Social Security Number (SSN) is mandatory to obtain the training you are seeking. Solicitation of the SSN by the United States Civil Service Commission is authorized under provisions of Executive Order 9397, dated November 22, 1943. The SSN is used as an identifier to match the person completing the training with the correct master record in the Central Personnel Data File (CPDF). It will be used primarily to give you recognition for completing the training and to accumulate government-wide training statistical information. The information gathered through the use of the number will be used only as necessary in training administration processes carried out in accordance with established regulations. The SSN also will be used for the selection of persons to be included in statistical studies of training management matters. The use of the SSN is made necessary because of the large number of present Federal employees who have identical names and birthdays, and whose identities can only be distinguished by the SSN.

ADDITIONAL INSTRUCTIONS/COMMENTS: Per our conversation 31 Aug 93: I am forwarding revised page 2 of Memorandum of Agreement (MOA) and revised cost report based on ATCOM's final disposition instructions for damaged UH-1 helicopter. ATCOM requires reimbursement only for 25 % of total AMDF cost for aircraft (\$230,676.00). Directorate of Logistics (DOL) at Fort Hood will not requisition repair parts; therefore, reimbursable expenditures due this installation has been decreased. Request your appropriation be provided as soon as possible so that Fort Hood can closeout FY93. We will begin billing process when appropriation is received.

EXAMPLE OF SUPPLEMENTAL MOU

MEMORANDUM OF UNDERSTANDING FOR SUPPLEMENTAL REQUESTS

COUNTER-DRUG ASSISTANCE UNDER 32 U.S.C. 112  
BETWEEN \_\_\_\_\_ NATIONAL GUARD COUNTER-  
DRUG PROGRAM

AND

\_\_\_\_\_

SUBJECT: Memorandum of Understanding (MOU) between the \_\_\_\_\_ National  
Guard Counter-Drug Unit ("National Guard") and  
\_\_\_\_\_ ("the "Requesting Agency")

1. PURPOSE: The purpose of this MOU is to set forth the responsibilities of the two  
organizations in connection with the operation and control of an operation to be titled

\_\_\_\_\_.

This operation is a result of a request for assistance dated \_\_\_\_\_ day of

\_\_\_\_\_, \_\_\_\_\_.

(a copy of which is attached)

The request for assistance sets forth a drug connection for the proposed operation  
as required by 32 U.S.C. 112. The \_\_\_\_\_ National Guard has relied on the accuracy of  
the information contained in the request for assistance in furnishing its assets to the  
Requesting Agency.

RIOT CONTROL MUNITIONS SYSTEM, 64 MM (a.k.a RING AIRFOIL GRENADE - RAG). The system projects an inert rubber ring airfoil from the M16A1 rifle to an effective range of 40mm on an individual and 60m on groups of individuals. The system has an extremely low probability of producing serious injury even at muzzle velocities. The M743 projectile (STING RAG) is designed to deter individuals through pain and discomfort. The M742 projectile was designed to augment the kinetic energy effects with a CS payload to the target creating a 3-5 ft diameter cloud. The M742 was type classified but ran into production problems and was never put into inventory. We currently have about 300 XM742 CS rounds in our possession at APG. A possible variation of the system would be to incorporate a marking dye as the payload ( or combination dye and CS) to mark riot leaders or looters for later identification/detention. This was demonstrated years ago but never pursued and no marking rounds currently exist. Marker payloads could be demonstrated in 90 days and may also require a safety/health evaluation (unknown time).
