

# Is your eLearning Accessible?

ADA/Section 508 Compliant eLearning by CourseAvenue, LLC

# Is Your eLearning ADA/Section 508 Compliant?

CourseAvenue is reducing the cost, challenge and complexity of building accessible, compliant *and usable* eLearning... from PowerPoint import to pure custom content.

## The Accessibility Player: Validated Accessibility Built-in

The screenshot displays the 'Accessible eLearning: Meeting the Challenge Head On' interface. It features a blue navigation menu on the left with options: Menu, Tools, Glossary, and Help. The main content area includes a welcome message, a title 'Accessible eLearning: Meeting the Challenge Head On', and a video player. A callout box points to the menu, stating 'High-contrast color schemes used in the course skin'. Another callout points to a blue hyperlink in the text, stating 'Color-differentiated in-text hyperlinks; keyboard and screen reader accessible'. A third callout points to a video player, stating 'Integrate media into an accessible compliant course.' A fourth callout points to a text box, stating 'Audio transcript window displays the text for the audio of any narrated pages'. A fifth callout points to the video player controls, stating 'Accessible media controls'. A sixth callout points to the video player controls, stating 'Accessible media controls; toggle play/pause, captioning, enable fast forward, rewind, etc.' The video player shows a man in a suit speaking, with a transcript below it: 'received over the last week in regard to the projects and organizations you've'. The interface also includes a 'Click on the "next" button below to continue.' instruction and a 'Page: 1 of 12' indicator.
