The Open Data Institute - Background

“Government will provide up to £10 million over five years, with match funding from industry and academia, to establish the world’s first Open Data Institute to help business exploit the opportunities created by release of public data”

Further detail on Open Data Measures in the Autumn Statement 2011

“to realise significant economic benefits by enabling businesses and non-profit organisations to build innovative applications and websites using public data.”

Prime Minister David Cameron May 2010

“Our ambition is to become the world leader in open data”
Chancellor of the Exchequer George Osborne May 2011

“The vision is to establish the Open Data institute as a world leading centre to innovate, exploit and research the opportunities for the UK created by the Government’s Open Data policy.”

- Business Innovation
- Training the Open Data Generation
- Public Sector Innovation
- Researching Open Data
- Open Data Standards and Policies
- Advisor to Government
- International Collaboration

Forward Plan

- Develop business plan
- Develop financial modelling
- Government funding assessment
- Set up the company
- Develop prospectus

- ‘Soft’ launch
- Secure premises
- Begin staff recruitment
- Begin OD business model dev
- Begin seeking match funding

- Formal launch
- Develop Course Content
- First cohort for training
- Begin programme of policy work
- Begin Red Team projects
- Begin incubation work
- Begin corporate engagement
