(1) Firearm traces are designed to assist law enforcement authorities in conducting investigations by tracking the sale and possession of specific firearms. Law enforcement agencies may request firearms traces for any reason, and those reasons are not necessarily reported to the Federal Government. Not all firearms used in crime are traced and not all firearms traced are used in crime.

(2) Firearms selected for tracing are not chosen for purposes of determining which types, makes, or models of firearms are used for illicit purposes. The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. Firearms are normally traced to the first retail seller, and sources reported for firearms traced do not necessarily represent the sources or methods by which firearms in general are acquired for use in crime.

The results shall be made available in redacted form to exclude—

(1) any matter described in section 552(b) of title 5, United States Code; and

(2) sensitive personal information for any individual, the public access to which could be used to commit identity theft or for other inappropriate or unlawful purposes.

(c) A grant or contract funded by amounts appropriated by this Act may not be used for the purpose of defraying the costs of a banquet or conference that is not directly and programmatically related to the purpose for which the grant or contract was awarded, such as a banquet or conference held in connection with planning, training, assessment, review, or other routine purposes related to a project funded by the grant or contract.

(d) Any person awarded a grant or contract funded by amounts appropriated by this Act shall submit a statement to the Secretary of Commerce, the Attorney General, the Administrator, Director, or President, as appropriate, certifying that no funds derived from the grant or contract will be made available through a subcontract or in any other manner to another person who has a financial interest in the person awarded the grant or contract.

(e) The provisions of the preceding subsections of this section shall take effect 30 days after the date on which the Director of the Office of Management and Budget, in consultation with the Director of the Office of Government Ethics, determines that a uniform set of rules and requirements, substantially similar to the requirements in such subsections, consistently apply under the executive branch ethics program to all Federal departments, agencies, and entities.

(b) The foregoing exemption from obtaining an export license—

(1) does not exempt an exporter from filing any Shipper's Export Declaration or notification letter required by law, or from being otherwise eligible under the laws of the United States to possess, ship, transport, or export the articles enumerated in subsection (a); and

(2) does not permit the export without a license of—

(A) fully automatic firearms and components and parts for such firearms, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada;

(B) barrels, cylinders, receivers (frames) or complete breech mechanisms for any firearm listed in Category I, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada; or

(C) articles for export from Canada to another foreign destination.

(c) In accordance with this section, the District Directors of Customs and postmasters shall permit the permanent or temporary export without a license of any unclassified articles specified in subsection (a) to Canada for end use in Canada or return to the United

States, or temporary import of Canadian-origin items from Canada for end use in the United States or return to Canada for a Canadian citizen.

(d) The President may require export licenses under this section on a temporary basis if the President determines, upon publication first in the Federal Register, that the Government of Canada has implemented or maintained inadequate import controls for the articles specified in subsection (a), such that a significant diversion of such articles has and continues to take place for use in international terrorism or in the escalation of a conflict in another nation. The President shall terminate the requirements of a license when reasons for the temporary requirements have ceased.

SEC. 521. Notwithstanding any other provision of law, no department, agency, or instrumentality of the United States receiving appropriated funds under this Act or any other Act shall obligate or expend in any way such funds to pay administrative expenses or the compensation of any officer or employee of the United States to deny any application submitted pursuant to 22 U.S.C. 2778(b)(1)(B) and qualified pursuant to 27 CFR section 478.112 or .113, for a permit to import United States origin "curios or relics" firearms, parts, or ammunition.

The Secretary, Administrator, or Director shall notify the House and Senate Committees on Appropriations within 30 days in writing of such increase, and shall include in such notice: the date on which such determination was made; a statement of the reasons for such increases; the action taken and proposed to be taken to control future cost growth of the project; changes made in the performance or schedule milestones and the degree to which such changes have contributed to the increase in total program costs or procurement costs; new estimates of the total project or procurement costs; and a statement validating that the project's management structure is adequate to control total project or procurement costs.

SEC. 525. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence or intelligence related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of the Intelligence Authorization Act for fiscal year 2010.

SEC. 747. (a) DEFINITIONS.—For purposes of this section the following definitions apply:

(1) The term “covered manufacturer” means—

(A) an automobile manufacturer in which the United States Government has an ownership interest, or to which the Government has provided financial assistance under title I of the Emergency Economic Stabilization Act of 2008; or

(B) an automobile manufacturer which acquired more than half of the assets of an automobile manufacturer in which the United States Government has an ownership interest, or to which the Government has provided financial assistance under title I of the Emergency Economic Stabilization Act of 2008.

(2) The term “covered dealership” means an automobile dealership that had a franchise agreement for the sale and service of vehicles of a brand or brands with a covered manufacturer in effect as of October 3, 2008, and such agreement was terminated, not assigned in the form existing on October 3, 2008 to another covered manufacturer in connection with an acquisition of assets related to the manufacture of that vehicle brand or brands, not renewed, or not continued during the period beginning on October 3, 2008, and ending on December 31, 2010.

(b) A covered dealership that was not lawfully terminated under applicable State law on or before April 29, 2009, shall have the right to seek, through binding arbitration, continuation, or reinstatement of a franchise agreement, or to be added as a franchisee to the dealer network of the covered manufacturer in the geographical area where the covered dealership was located when its franchise agreement was terminated, not assigned, not renewed, or not continued. Such continuation, reinstatement, or addition shall be limited to each brand owned and manufactured by the covered manufacturer at the time the arbitration commences, to the extent that the covered dealership had been a dealer for such brand at the time such dealer’s franchise agreement was terminated, not assigned, not renewed, or not continued.

(c) *Before the end of the 30-day period beginning on the date of the enactment of this Act, a covered manufacturer shall provide to each covered dealership related to such covered manufacturer a summary of the terms and the rights accorded under this section to a covered dealership and the specific criteria pursuant to which such dealer was terminated, was not renewed, or was not assumed and assigned to a covered manufacturer.*

(d) *A covered dealership may elect to pursue the right to binding arbitration with the appropriate covered manufacturer. Such election must occur within 40 days of the date of enactment. The arbitration process must commence as soon as practicable thereafter with the selection of the arbitrator and conclude with the case being submitted to the arbitrator for deliberation within 180 days of the date of enactment of this Act. The arbitrator may extend the time periods in this subsection for up to 30 days for good cause. The covered manufacturer and the covered dealership may present any relevant information during the arbitration. The arbitrator shall balance the economic interest of the covered dealership, the economic interest of the covered manufacturer, and the economic interest of the public at large and shall decide, based on that balancing, whether or not the covered dealership should be added to the dealer network of the covered manufacturer. The factors considered by the arbitrator shall include (1) the covered dealership's profitability in 2006, 2007, 2008, and 2009, (2) the covered manufacturer's overall business plan, (3) the covered dealership's current economic viability, (4) the covered dealership's satisfaction of the performance objectives established pursuant to the applicable franchise agreement, (5) the demographic and geographic characteristics of the covered dealership's market territory, (6) the covered dealership's performance in relation to the criteria used by the covered manufacturer to terminate, not renew, not assume or not assign the covered dealership's franchise agreement, and (7) the length of experience of the covered dealership. The arbitrator shall issue a written determination no later than 7 business days after the arbitrator determines that case has been fully submitted. At a minimum, the written determination shall include (1) a description of the covered dealership, (2) a clear statement indicating whether the franchise agreement at issue is to be renewed, continued, assigned or assumed by the covered manufacturer, (3) the key facts relied upon by the arbitrator in making the determination, and (4) an explanation of how the balance of economic interests supports the arbitrator's determination.*

(e) *The arbitrator shall be selected from the list of qualified arbitrators maintained by the Regional Office of the American Arbitration Association (AAA), in the Region where the dealership is located, by mutual agreement of the covered dealership and covered manufacturer. If agreement cannot be reached on a suitable arbitrator, the parties shall request AAA to select the arbitrator. There will be no depositions in the proceedings, and discovery shall be limited to requests for documents specific to the covered dealership. The parties shall be responsible for their own expenses, fees, and costs, and shall share equally all other costs associated with the arbitration, such as arbitrator fees, meeting room charges, and administrative costs. The arbitration shall be conducted in the State where the covered dealership is located. Parties will have the option of conducting arbitration electronically and telephonically, by mu-*

tual agreement of both parties. The arbitrator shall not award compensatory, punitive, or exemplary damages to any party. If the arbitrator finds in favor of a covered dealership, the covered manufacturer shall as soon as practicable, but not later than 7 business days after receipt of the arbitrator's determination, provide the dealer a customary and usual letter of intent to enter into a sales and service agreement. After executing the sales and service agreement and successfully completing the operational prerequisites set forth therein, a covered dealership shall return to the covered manufacturer any financial compensation provided by the covered manufacturer in consideration of the covered manufacturer's initial determination to terminate, not renew, not assign or not assume the covered dealership's applicable franchise agreement.

(f) Any legally binding agreement resulting from a voluntary negotiation between a covered manufacturer and covered dealership(s) shall not be considered inconsistent with this provision and any covered dealership that is a party to such agreement shall forfeit the right to arbitration established by this provision.

(g) Notwithstanding the requirements of this provision, nothing herein shall prevent a covered manufacturer from lawfully terminating a covered dealership in accordance with applicable State law.

This conference agreement includes the Transportation, and Housing and Urban Development, and Related Agencies Appropriations Act, 2010; the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010; the Financial Services and General Government Appropriations Act, 2010; the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010; the Military Construction and Veterans Affairs Appropriations Act, 2010; and the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010.

DIVISION A—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

CONGRESSIONAL DIRECTIVES

The language and allocations set forth in the House report (House Report 111–218) and Senate report (Senate Report 111–69) should be complied with unless specifically addressed to the contrary in the conference report and the statement of the managers. Report language included by the House, which is not changed by the report of the Senate or this statement of managers, and Senate report language, which is not changed by this statement of managers, is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The conferees direct the Department of Transportation and the Department of Housing and Urban Development to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program or authority.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

NATIONAL INFRASTRUCTURE INVESTMENTS

The conference agreement provides \$600,000,000 for capital investments in surface transportation infrastructure instead of \$1,100,000,000 as proposed by the Senate. The House did not propose funding for this account. The conferees urge the Secretary to give consideration to innovative projects that support investment in inland ports and freight rail.

Credit assistance.—The conference agreement allows up to \$150,000,000 of the funding provided for surface transportation infrastructure to be used to pay for the subsidy and administrative costs of projects eligible for credit assistance under the TIFIA program.

Planning activities.—The conference agreement allows up to \$35,000,000 of the funding provided for surface transportation infrastructure to be used for the planning, preparation or design of eligible projects. This funding will improve the capacity of state, local, and regional governments to develop significant transportation solutions, including innovative and multijurisdictional projects that do not fit easily into existing federal programs. The conferees direct the Secretary of Transportation to provide this funding on a competitive basis.

FINANCIAL MANAGEMENT CAPITAL

The conference agreement provides \$5,000,000 for the financial management capital program as proposed by the Senate, instead of \$2,000,000 as proposed by the House.

WORKING CAPITAL FUND

The conference agreement includes a limitation of \$147,596,000 for working capital fund activities, as proposed by the House and instead of \$147,500,000 as proposed by the Senate. The conference agreement specifies that services shall be provided on a competitive basis to entities within the Department of Transportation. The conference agreement directs the Department to update the “transparency paper” included in the fiscal year 2010 budget justification and include the updated version in the budget justification for fiscal year 2011.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The conference agreement provides a total appropriation of \$923,000 as proposed by the Senate for the minority business center program, instead of \$912,000 as proposed by the House. Within the funds provided \$353,000 is for the costs of guaranteed loans for short-term working capital as proposed by the Senate, instead of \$342,000 as proposed by the House. In addition, \$570,000 is provided for administrative expenses as proposed by the House and Senate. The bill limits loans made under this program to \$18,367,000 as proposed by the House and Senate.

MINORITY BUSINESS OUTREACH

The conference agreement provides \$3,074,000 for minority business outreach as proposed by the House and Senate and allows funds to be used for business opportunities related to any mode of transportation.

PAYMENTS TO AIR CARRIERS
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$150,000,000 for payments to air carriers instead of \$125,000,000 as proposed by the House and the Senate. In addition to these funds, the program will receive \$50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. The funding provided in the conference agreement is necessary to support air service in all eligible communities.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF
TRANSPORTATION

Section 101 prohibits funds in this Act available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 prohibits funds from being obligated or expended to establish or implement a program where essential air service communities are required to assume subsidy costs commonly referred to as local participation.

Section 103 allows the Secretary of Transportation or his designee to engage with states to consider proposals related to the reduction of motorcycle fatalities.

Section 104 authorizes the Secretary of Transportation to transfer the unexpended balances available for the bonding assistance program from "Office of the Secretary, Salaries and Expenses" to "Minority Business Outreach".

Section 105 allows funds provided for the Transportation Planning, Research, and Development program to be used for the development, coordination, and analysis of data collection procedures and national performance measures. Data analysis is a critical part of informing transportation decision-making and reaching national priorities such as safety, economic accessibility, congestion reduction, network utility, reduced energy use, and environmental protection. The conferees encourage the Secretary to work with States and Metropolitan Planning Organizations in order to understand the resources they would need to collect and report accurate data on system performance.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$9,350,028,000 for operations of the Federal Aviation Administration instead of

\$9,347,168,000 as proposed by the House and \$9,359,131,000 as proposed by the Senate. Of the total amount provided, \$4,000,000,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

The following table compares the conference agreement to the levels proposed in the House and Senate bills by budget activity:

Controller staffing.—The conference agreement includes \$7,299,299,000 for the air traffic organization instead of \$7,300,739,000 as proposed by the House and \$7,305,902,000 as proposed by the Senate. The conference agreement provides funding for a minimum of 15,692 air traffic controllers. The conferees note that the FAA and its controller workforce reached a mutual agreement on a three-year labor contract. The conferees expect the FAA to honor the terms of the agreement within its existing resources.

The conferees also believe in the importance of maintaining adequate experience levels at each air traffic control facility. Therefore, the conferees direct the FAA to provide a report to the House and Senate Committees on Appropriations with facility-by-facility targets against which actual experience levels can be measured.

Contract tower program.—The conference agreement includes \$116,700,000 for the contract tower base program and \$9,500,000 for the contract tower cost-sharing program. In addition, the FAA is permitted to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the

cost share towers program, but only after all base line tower obligations have been fulfilled.

RNAV/RNP procedures.—Within the amounts provided for the air traffic organization, \$35,130,000 is included for RNAV/RNP procedures. FAA is directed to provide a report to the House and Senate Committees on Appropriations by February 15, 2010 which describes every procedure that will be developed with fiscal year 2010 funds, including quantifiable data comparing flight time; flight distance; and estimated fuel, emissions and environmental benefits compared to existing procedures. The report should include information on which office or region requested the procedure and the anticipated development time.

Southern California TRACON.—The conferees direct the FAA to submit a report to the House and Senate Committees on Appropriations within 60 days of enactment on the Southern California TRACON as articulated in Senate Report 111–69.

Aviation safety (AVS).—The conference agreement provides \$1,234,065,000 for aviation safety, which includes an increase of \$9,500,000 for additional flight standards inspectors and related safety staff and an increase of \$4,500,000 for additional aircraft certification inspectors and related safety staff.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$2,936,203,000 for FAA facilities and equipment instead of \$2,925,202,000 as proposed by the House and \$2,942,352,000 as proposed by the Senate. Of the total amount available, \$470,000,000 is available until September 30, 2010, and \$2,466,203,000 is available until September 30, 2012. The bill includes language directing FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2011 budget submission.

High priority projects.—Of the funds covered by the obligation limitation in this bill, FAA is directed to provide not less than the following funding levels, out of available resources, for the following projects. State apportionment funds may be construed as discretionary funds for the purposes of implementing this provision. To the maximum extent possible, the Administrator should work to ensure that airport sponsors for these projects first use available entitlement funds to finance the projects. However, the FAA should not require sponsors to apply carryover entitlements to discretionary projects funded in the coming year, but only those entitlements applicable to the fiscal year 2010 obligation limitation. The FAA is further directed that the specific funding allocated below shall not diminish or prejudice the application of a specific

airport or geographic region to receive other AIP discretionary grants or multiyear letters of intent.

In addition, the conferees provide \$3,220,000 in contract authority above the limitation available for the administrative expenses of the Appalachian Regional Commission in accordance with section 104 of title 23, United States Code.

Improving bridge safety.—The conferees expect the FHWA to make more significant progress in improving its oversight of bridge conditions and safety over the course of fiscal year 2010. In order to ensure that the agency has the staff necessary to conduct more rigorous oversight of bridges, the conferees direct the FHWA to use \$5,000,000 of the funds provided to hire additional personnel at the agency headquarters and in the division offices with the responsibility to oversee bridge safety.

In addition, the conferees direct the Inspector General to evaluate the FHWA's progress in fulfilling each of the recommendations given in his report on the national bridge inspection program (Report Number MH-2009-013) and to submit a report to the House and Senate Committees on Appropriations with his findings no later than April 30, 2010.

Ensuring the success of mass evacuations.—The conferees direct the Department of Transportation (DOT), in cooperation with the Department of Homeland Security (DHS), to assess mass evacuation plans for the country's most high-threat, high-density areas and identify and prioritize deficiencies on those routes that could impede evacuations. The conferees also direct DOT, in cooperation with DHS and the Office of the National Capital Region Coordination, to conduct an analysis of how national highway system projects under construction west of the National Capital Region (NCR) could increase the NCR's evacuation capacity and provide a detailed plan to accelerate such projects. DOT shall submit its report to the House and Senate Committees on Appropriations no later than 90 days after the enactment of this Act.

The conference agreement specifies that the Federal share payable on each program, project, or activity shall be 100 percent; however, the conferees recognize the importance of a local match as a sign of local support for the project. In addition, the conference agreement allows funds to be transferred to another Federal agency if so requested by a State.

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION

Section 120 retains the provision as proposed by the House and the Senate that distributes the federal-aid highways program obligation limitation.

Section 121 retains the provision as proposed by the House and the Senate that allows funds received by the Bureau of Transportation Statistics from the sale of data products to be credited to the federal-aid highways account.

Section 122 includes a provision similar to language proposed by the Senate that appropriates an additional \$650,000,000 for

highway infrastructure. The conference agreement distributes this funding to the States in the same proportion as the fiscal year 2010 obligation limitation to be used for activities eligible under the Surface Transportation Program. Bill language is included that specifies that each program, project, and activity funded under this section shall be administered under the planning, environmental, and other Federal rules required under title 23, United States Code, and that the Federal share payable on each program, project, or activity shall be 80 percent. The House bill contained no similar provision.

Section 123 retains the provision as proposed by the Senate that provides requirements for any waiver of Buy American requirements. The House bill contained no similar provision.

Section 124 retains the provision as proposed by the House and the Senate that prohibits tolling in Texas, with exceptions.

Section 125 retains the provision as proposed by the House that clarifies funding for various projects which were included in previous appropriations Acts. The Senate bill contained no similar provision.

Section 126 retains the provision as proposed by the Senate that clarifies funding for a project in Rhode Island which was included in section 1702 of Public Law 109–59. The House bill contained no similar provision.

Section 127 retains the provision as proposed by the Senate that clarifies funding for a project in Florida which was included in section 1702 of Public Law 109–59. The House bill contained no similar provision.

Section 128 retains the provision as proposed by the Senate that clarifies funding for a project in California which was included in a previous appropriations Act. The House bill contained no similar provision.

Section 129 retains the provision as proposed by the Senate that clarifies funding for a project in Kansas which was included in section 1702 of Public Law 109–59. The House bill contained no similar provision.

Section 130 retains the provision as proposed by the Senate that clarifies funding for a project in Alabama which was included in a previous appropriations Act. The House bill contained no similar provision.

Section 131 retains the provision as proposed by the Senate that clarifies funding for a project in Nevada which was included in section 1702 of Public Law 109–59. The House bill contained no similar provision.

FEDERAL MOTOR CARRIER SAFETY ADMINISTRATION

MOTOR CARRIER SAFETY OPERATIONS AND PROGRAMS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement includes a liquidation of contract authorization and a limitation on obligations of \$239,828,000 for the

operating expenses of and motor carrier safety research by the Federal Motor Carrier Safety Administration (FMCSA), as proposed by the House instead of \$238,500,000 as proposed by the Senate. Of this limitation, \$8,543,000 is to remain available for obligation until September 30, 2012, as proposed by the Senate. The conference agreement provides funding in the following manner:

<i>Program</i>	<i>Funding</i>
Operating expenses	\$183,051,000
Research and technology	8,543,000
Information management	34,722,000
Regulatory development	9,728,000
Outreach and education	2,784,000
Commercial motor vehicle operators grants	1,000,000
Total	239,828,000

The conference agreement prohibits any funds relating to outreach and education from being transferred to another agency, as proposed by both the House and the Senate.

High risk carriers.—The conferees include bill language, as proposed by both the House and the Senate, that directs the FMCSA to report to the House and Senate Committees on Appropriations on the agency's progress in meeting the requirement to conduct compliance reviews on high risk carriers. The reports are due March 30, 2010, and September 30, 2010, as proposed by the House.

On board data recorders.—The conferees urge the FMCSA to issue its final rule on the use of electric on board data recorders (EOBR) to collect and maintain data on driver hours of service and accident conditions as soon as possible. Furthermore, the conferees direct the FMCSA to report to the House and the Senate Committees on Appropriation within 90 days after the enactment of this Act on the specific actions the agency will take to incentivize industry-wide use of EOBR and the metrics that will be used to measure the adoption of EOBRs installation. In addition, the conferees direct the FMCSA to report by October 1, 2010, on the success of the agency's efforts to incentivize EOBR adoption, including a review of the agency's metrics.

Research and technology education.—The conferees are encouraged by the FMCSA's efforts to target research and technology funding towards safety technologies that promise to reduce fatalities and improve safety. However, the conferees believe that the FMCSA should more aggressively promote these safety technologies and, therefore, direct the FMCSA to dedicate a portion of its education and outreach budget, as appropriate, to educating motor carrier operators on available safety technologies and promote those most likely to result in meaningful safety benefits.

The conference agreement provides \$140,427,000 from the general fund for highway and traffic safety activities, instead of \$131,986,000 as proposed by the House and \$135,803,000 as proposed by the Senate. Of this amount, a total of \$35,543,000 shall remain available until September 30, 2011.

OPERATIONS AND RESEARCH

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides an appropriation for liquidating cash of contract authorization of \$105,500,000 from the highway trust fund for payment of obligations incurred in carrying out the provisions of the highway safety research and development program as authorized by section 403 of title 23, United States Code, as proposed by the Senate instead of \$108,642,000 as proposed by the House. The conference agreement specifies that the funds are available until expended, as proposed by both the House and the Senate.

The conference agreement limits obligations from the highway trust fund to \$105,500,000 for authorized activities associated with the highway safety research and development program, as proposed by the Senate instead of \$108,642,000 as proposed by the House. Of this limitation, a total of \$26,908,000 shall remain available until September 30, 2011, and shall be in addition to any limitation imposed on obligations in future fiscal years, as proposed by the House.

The following table summarizes the total funding level provided in the conference agreement for operations and research (general fund and highway trust fund combined) by budget activity.

Salaries and benefits	\$72,838,000
Travel	1,023,000
Operating expenses	25,238,000
Contract programs:	
Safety performance (rulemaking)	21,688,000

ADMINISTRATIVE EXPENSES

The conference agreement provides \$99,100,000 for the National Highway Traffic Safety Administration's (NHTSA's) salaries and benefits, travel, and other operating expenses, as requested in the budget. This funding level is sufficient to fund 527 full-time equivalent staff years. The conferees note that NHTSA currently has 527 full-time equivalent staff years on-board because the agen-

cy has hired additional personnel in advance of its appropriation for fiscal year 2010. The conferees direct the agency to refrain from this practice in the future and encourage the agency to provide better justification for any additional positions in future budget requests.

SAFETY PERFORMANCE (RULEMAKING)

Consistent with the budget request, the conference agreement provides \$21,688,000 for NHTSA's safety performance standards (rulemaking) programs to fund the following activities:

Safety standards support	\$2,300,000
New car assessment program	10,393,000
Fuel economy program	8,900,000
Climate control	20,000
Theft control and other programs	75,000
Total	21,688,000

SAFETY ASSURANCE (ENFORCEMENT)

Highway safety research	7,541,000
International activities in behavioral traffic safety	100,000
Total	44,609,000

Impaired driving.—The conferees include \$1,250,000, which is \$250,000 more than the budget request, to support NHTSA's partnership with leading automobile manufacturers in the Automotive Coalition for Traffic Safety (ACTS) to develop alcohol detection technologies that could be installed in a vehicle to prevent drunk driving. This additional funding is for the development of advanced alcohol detection technologies that are less intrusive and hold the most promise for being accepted by the general public.

RESEARCH AND ANALYSIS

The conference agreement provides the following amounts for research and analysis:

Safety systems	\$8,226,000
----------------------	-------------

Biomechanics	11,000,000
Heavy vehicles	2,115,000
Crash avoidance and human-vehicle performance	8,104,000

Data analysis program	1,666,000
Total, Research and Analysis	62,453,000

Hydrogen fuel cell and alternative fuel vehicle system.—The conferees provide \$4,500,000 for research into the safety of vehicles that use alternative fuels, instead of \$1,000,000 as proposed by the House and \$10,000,000 as proposed by the Senate. The funding provided for alternative fuels research shall be used for safety and other related research for vehicles that operate on alternative fuel vehicle technologies, such as lithium ion battery technology, compressed natural gas fuel tanks, hydrogen, fuel cell, and other alternative fuel vehicles.

NATIONAL DRIVER REGISTER

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation of \$4,000,000 for the national driver register and specifies that the funds are available until expended, as proposed by both the House and the Senate.

The conference agreement also limits obligations from the highway trust fund for the national driver register to \$4,000,000, as proposed by both the House and the Senate.

NATIONAL DRIVER REGISTER MODERNIZATION

The conference agreement provides \$3,350,000 for the modernization of the national driver register and specifies that these funds are to remain available until September 30, 2011, as proposed by both the House and the Senate.

HIGHWAY TRAFFIC SAFETY GRANTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides \$619,500,000 to liquidate contract authorizations for highway traffic safety grants to remain available until expended, as proposed by both the House and the Senate.

The conference agreement also limits obligations for highway traffic safety grants to \$619,500,000, as proposed by both the House and the Senate. The conference agreement includes separate obligation limitations for each of the agency's safety grant pro-

grams and specifies that the limitation provided for safety belt performance grants shall remain available until September 30, 2011, and shall be in addition to any limitation imposed on obligations in future fiscal years, as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—NATIONAL HIGHWAY TRAFFIC SAFETY
ADMINISTRATION

(INCLUDING RESCISSIONS)

Section 140 retains the provision as proposed by both the House and the Senate that provides funding for travel and related expenses for State management reviews and highway safety core competency development training.

Section 141 retains the provision as proposed by both the House and the Senate that exempts obligation authority that was made available in previous public laws for multiple years from limitations on obligations for the current year.

Section 142 retains the provision proposed by the Senate that rescinds unobligated contract authority authorized from the highway trust fund for NHTSA's operation and research activities that will not be available for obligation because of limitations on obligations imposed on those funds in previous acts. The House bill contained no similar provision.

Section 143 retains the provision proposed by the Senate that rescinds unobligated contract authority authorized from the highway trust fund for NHTSA's highway safety grant programs that will not be available for obligation because of limitations on obligations imposed on those funds in previous acts. The House bill contained no similar provision.

FEDERAL RAILROAD ADMINISTRATION

SAFETY AND OPERATIONS

The conference agreement provides \$172,270,000 for safety and operations of the Federal Railroad Administration (FRA) instead of \$172,533,000 proposed by the House and \$171,770,000 proposed by the Senate. Of the funds provided, \$12,300,000 is available until expended as proposed by the Senate.

Rail Safety Improvement Act of 2008.—Within the total funding \$1,500,000 is included to hire 9 FTEs for fiscal year 2010 to implement the regulatory and programmatic requirements of the Rail Safety and Improvement Act of 2008, Public Law 110-432, instead of \$3,000,000 and 17.5 FTE as proposed by the House.

Next Generation Corridor Equipment Pool Committee.—Also within the total is \$2,000,000 for grants to Amtrak and States for participation in the Next Generation Corridor Equipment Pool Committee that was authorized under section 305 of the Passenger Rail Investment and Improvement Act, instead of \$3,000,000 as proposed by the Senate.

RAILROAD SAFETY TECHNOLOGY PROGRAM

The conference agreement provides \$50,000,000 to implement the railroad safety technology program authorized in the Rail Safety Improvement Act of 2008 as proposed by the Senate. The House did not propose funding for this account. The conference agreement provides that to be eligible for assistance, an entity need not have developed plans required under 49 U.S.C. 20156(e)(2) and 20157. However, in order to qualify for a grant under this program, all applicants must demonstrate that they are currently developing the required plans.

CAPITAL ASSISTANCE FOR HIGH SPEED RAIL CORRIDORS AND
INTERCITY PASSENGER RAIL SERVICE

The conference agreement provides \$2,500,000,000 for grants to support intercity rail service and high speed rail corridors instead of \$4,000,000,000 as proposed by the House and \$1,200,000,000 as proposed by the Senate.

Additional High-Speed Rail Projects.—Section 502 of the Passenger Rail Investment and Improvement Act of 2008 authorized a program to establish public-private partnerships in high-speed rail development in eleven specific corridors. The conference agreement does not specifically include \$5,000,000 for this purpose as proposed by the House. However, the conferees urge the Secretary and FRA to meet the intent of advancing high speed rail along the eleven named corridors through the funds provided in this and other Acts.

Infrastructure Bank.—The conferees delete language proposed by the House which allowed high speed rail funds to be transferred for the creation of a National Infrastructure Bank if authorized prior to September 30, 2010. The Administration proposed the creation of a National Infrastructure Bank as a potential financing mechanism for a broad range of infrastructure needs including, within the realm of transportation, intermodal freight and passenger facilities; port infrastructure projects; public-private partnerships; and aircraft equipage requirements associated with the implementation of NextGen aviation technology. The conferees support strong investment in transportation infrastructure. However, given that this is a new and complex endeavor, the conferees believe that this proposal requires careful review and should be considered through the normal authorization process.

NATIONAL RAILROAD PASSENGER CORPORATION (AMTRAK)

The conference agreement provides a total of \$1,564,625,000 for the operations, capital improvements and debt service to the National Railroad Passenger Corporation (Amtrak).

OPERATING GRANTS TO THE NATIONAL RAILROAD PASSENGER
CORPORATION

The conference agreement provides \$563,000,000 in operating grants to Amtrak instead of \$553,348,000 as proposed by the House and the Senate. Such funds are available until expended, as proposed by the Senate.

OIG savings reports.—The conference agreement modifies the House and Senate bills and requires the Department of Transportation (DOT) IG to provide semiannual reports to the House and Senate Committees on Appropriations on the estimated savings accrued as a result of all operation reforms instituted by Amtrak as well as any possibilities for future savings.

Business plan.—The conference agreement modifies language included in the House and Senate bills and requires Amtrak to provide semiannual reports in electronic format regarding the pending business plan as well as progress against the milestones and target dates contained in its financial performance improvement plan provided in fiscal year 2009.

Reduced fares.—The conference agreement directs Amtrak to report semi-annually on fares reduced by fifty percent or more from the normal, peak fare rather than quarterly as proposed by the House.

Human emulation technology.—The conference agreement provides \$3,000,000 for Amtrak to deploy and study the use of human emulation technology rather than \$5,000,000 as was proposed by the Senate. The House did not provide funding for this purpose.

CAPITAL AND DEBT SERVICE GRANTS TO THE NATIONAL RAILROAD
PASSENGER CORPORATION

The conference agreement provides \$1,001,625,000 for capital and debt service payment grants to Amtrak as proposed by the Senate, instead of \$929,625,000 as proposed by the House. Such funds are available until expended, as proposed by the Senate. Within the funds provided, the conference agreement includes \$264,000,000 for Amtrak's debt service payment as proposed by the House and the Senate. The agreement modifies the Senate bill and requires that grants made after the first \$200,000,000 be provided only on a reimbursable basis.

Americans with Disabilities Act.—Under its six-year plan for compliance with the Americans with Disabilities Act (ADA), Amtrak would invest \$144,000,000 during fiscal year 2010 for necessary capital investments. The conferees direct Amtrak to maintain this plan for complying with the requirements of ADA. The conferees also direct Amtrak to provide quarterly status reports on its ADA improvements and progress on the six-year plan.

ADMINISTRATIVE PROVISIONS—FEDERAL RAILROAD ADMINISTRATION

Section 151 retains a provision that permits FRA to purchase promotional items for Operation Lifesaver as proposed by the House and Senate.

Section 152 retains a provision that ceases the availability of Amtrak funds if the railroad contracts for services outside the United States for any service performed by a full-time or part-time Amtrak employee as of July 1, 2006 as proposed by the House and Senate.

Section 153 retains a provision that allows FRA to receive and use cash or spare parts to repair, and replace damaged track inspection cars as proposed by the House and Senate.

Section 154 requires the FRA Administrator to submit quarterly reports to the Committees on Appropriations on Amtrak on-time performance as proposed by the House and Senate.

Section 155 clarifies funding for a project in California provided in the FY 2009 Appropriations Act, as proposed by the House.

Section 156 clarifies funding for a project in New York provided in the FY 2008 Appropriations Act, as proposed by the Senate.

Section 157 clarifies funding for a project in Washington provided in the FY 2009 Appropriations Act as proposed by the Senate.

Section 158 modifies language for a railroad feasibility study in Springfield, IL proposed by the Senate.

Section 159 modifies a provision proposed by the Senate requiring Amtrak to allow the transportation of firearms and ammunition in checked baggage.

FEDERAL TRANSIT ADMINISTRATION

ADMINISTRATIVE EXPENSES

The conference agreement provides \$98,911,000 for the administrative expenses of the Federal Transit Administration (FTA) instead of \$97,478,000 as proposed by the House and Senate. The conference agreement specifies that no more than \$1,809,000 shall be provided for travel.

The conference agreement directs FTA's operating plan to include a specific allocation of administrative expenses resources, including a delineation of full time equivalent employees, as proposed by the House. The conference agreement also requires transfers exceeding 5 percent to be approved by the House and Senate Appropriations Committees through the reprogramming process as proposed by the Senate.

FORMULA AND BUS GRANTS

(LIQUIDATION OF CONTRACT AUTHORITY)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement limits obligations from the Mass Transit Account for the formula and bus grant program to \$8,343,171,000 as proposed by the House and Senate. The conferees acknowledge that the specific programmatic distribution of formula and bus grant funds will be determined through legislation extending or reauthorizing the surface transportation programs. The conference agreement includes a liquidating cash appropriation of \$9,400,000,000.

DIVISION B—COMMERCE, JUSTICE, SCIENCE AND RELATED AGENCIES

The language and allocations contained in House Report 111-149 and Senate Report 111-34 should be complied with unless specifically addressed to the contrary in the conference report and statement of managers. The statement of managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly, in cases where the House or Senate report directs the submission of a report, such report is to be submitted in both the House and Senate Committees on Appropriations.

The conferees expect that each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying report, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to funds provided in this Act, unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2010, and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2010. In reiterating the reprogramming procedures here, which are codified as section 505 of this Act, the conferees expect that the Appropriations Subcommittees on Commerce, Justice, Science and Related Agencies of the House and Senate shall be notified by letter a minimum of 15 days prior to—

(1) Reprogramming of funds, whether permanent or temporary, in excess of \$500,000 or 10 percent, whichever is less, between programs or activities. This provision is also applicable in cases where several activities are involved with each receiving less than \$500,000. In addition, the Committees are to be notified of reprogramming actions which are less than these amounts if such ac-

tions would be the effect of committing the agency to significant funding requirements in future years;

(2) Increasing funds or personnel by any means for any project or activity for which funds have been denied or restricted;

(3) Relocating offices or employees;

(4) Reorganizing offices, programs, or activities;

(5) Contracting out or privatizing any functions or activities presently performed by Federal employees; or

(6) Proposing to use funds directed for a specific activity by either the House or the Senate for a different purpose.

Furthermore, the reprogramming authorities do not allow the obligation of funds to create or initiate any new program, project or activity.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. No changes shall be made to any program, project or activity, except as provided by the Committees, if it is to be construed to be a change in policy. Any program, project or activity cited in the reports of the House or Senate accompanying this Act or the conference agreement shall be construed as the position of the conference and shall not be subject to reductions or reprogramming without prior approval of the Committees. The conferees further expect any department or agency funded in this Act which plans a reduction-in-force to notify by letter the Appropriations Committees of the House and Senate 30 days in advance of the date of any such planned personnel action.

The conferees note that when a department or agency submits a reprogramming or transfer request to the Appropriations Committees of the House and Senate and does not receive identical responses by the House and Senate, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the difference between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved.

The conferees direct the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation to submit spending plans, signed by the respective department or agency head, for the Committees' review within 60 days of enactment of this Act.

TITLE I

DEPARTMENT OF COMMERCE

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The conference agreement provides \$456,204,000 in total resources for the programs of the International Trade Administration (ITA) for fiscal year 2010, which includes \$9,439,000 in offsetting fee collections.

The conferees understand the difficulties of attempting to balance the positive and negative effects of a free trade agenda. The conferees are determined to ensure that the United States Govern-

ment upholds its responsibility to enforce trade laws, particularly with China. If trading partners do not abide by the rules that are set in the global trading system, United States firms are unable to compete on a level playing field. The United States Government has an obligation to ensure that U.S. companies are not forced to compete with foreign companies that are engaged in unfair trading practices.

The conferees direct ITA to submit to the House and Senate Committees on Appropriations, not later than 60 days after the enactment of this Act, a spending plan for all ITA units that incorporates any carryover balances from prior fiscal years and expect this plan to be updated to reflect the obligation of funds on a quarterly basis.

China anti-dumping and countervailing duty activities.—The conference agreement designates funding of no less than \$7,000,000 for the Office of China Compliance, and no less than \$4,400,000 for the China Countervailing Duty Group within Import Administration. The conferees also encourage ITA to allocate additional resources above the request to the activities of both these offices.

Travel expenditures.—The conferees continue to direct the Department to submit quarterly reports to the House and Senate Committees on Appropriations regarding ITA's travel expenditures, including separate breakouts of funding, number of trips and the purposes of travel to both China and India.

Human rights training.—The conference agreement directs ITA to devote no less than \$500,000 from Executive Direction and Administration funds to ensure that American commercial officers and locally-engaged staff receive human rights training and to ensure that, when counseling U.S. businesses on market conditions with a particular country, employees include information on human rights, rule of law, and corporate responsibility. In addition, ITA shall report to the House and Senate Committees on Appropriations not later than 60 days after the enactment of this Act with an annual human rights training plan.

Facilitating exports with China.—The conferees direct that not later than 60 days after the date of enactment of this Act, the Secretary of Commerce shall submit to the House and Senate Committees on Appropriations a report on the status of the current program and the feasibility of providing additional assistance to small- and medium-sized businesses to facilitate U.S. exports to China. The report shall include, but is not limited to the Department's ability to provide small- and medium-sized businesses with: (1) assistance to find and utilize Federal and private resources to facilitate entering into the market; (2) continuous direct and personal contact with businesses that have entered the market; (3) assistance to resolve disputes with the Government of the United States or China relating to intellectual property rights violations, export restrictions, and additional trade barriers; (4) the location and recruitment of businesses to enter the market; (5) trade missions; and (6) consolidation of fees charged by the Department for Gold Key matching services provided for businesses that export goods or services produced in the United States to more than one market in China. The report shall include cost estimates for any additional

services not currently provided, the effect of any fee reductions, and the number of additional personnel required.

Anti-dumping and countervailing duties study.—The conferees direct the Secretary of Commerce to work with the Secretaries of the Departments of Homeland Security and the Treasury to conduct an analysis and report to the House and Senate Committees on Appropriations, within 180 days of enactment of this Act, on the relative advantages and disadvantages of prospective and retrospective anti-dumping and countervailing duty systems. The report should address the extent to which each type of system would likely achieve the goals of remedying injurious dumping or subsidized exports, minimize uncollected duties, reduce incentives and opportunities for importers to evade anti-dumping and countervailing duties, effectively target high-risk importers, address the impact of retrospective rate increases on U.S. importers and their employees, and create a minimal administrative burden.

Appalachian-Turkish Trade Project.—The conferees continue to recognize the importance of trade and investment opportunities to the Appalachian Region, and are encouraged by the findings in reports that Appalachian firms could find significant trade and investment opportunities, particularly in the energy, hardwood, high technology, and transportation sectors, in the Republic of Turkey and the surrounding region. In this regard, the conferees support the Appalachian-Turkish Trade Project (ATTP), a project to promote opportunities to expand trade, encourage business interests, stimulate foreign studies, and build a lasting and mutually meaningful relationship between Appalachian states and the Republic of Turkey, as well as neighboring countries in the region, such as Greece. The conferees expect the Commercial Service to continue to be a prominent ATTP sponsor.

World Trade Organization.—The conferees are aware of the World Trade Organization (WTO) Appellate Body's January 16, 2003, ruling regarding the Continued Dumping and Subsidy Offset Act. The conferees direct the Department of Commerce, in consultation with the Office of the U.S. Trade Representative, to conduct negotiations within the WTO to seek express recognition of the existing right of WTO Members to distribute monies collected from anti-dumping and countervailing duties as they deem appropriate. The agency shall consult with and provide regular reports, every 60 days, to the Appropriations Committees of the House and Senate on such negotiations.

In addition, the conferees direct that negotiations be conducted within the WTO consistent with the negotiating objectives contained in the Trade Act of 2002, to maintain strong U.S. trade remedies laws, prevent overreaching by WTO Panels and the WTO Appellate Body, and prevent the creation of obligations never negotiated or agreed to by the United States.

U.S. Foreign Commercial Service (USFCS).—The conferees strongly support an increase in the numbers of American and locally-engaged staff available to conduct core commercial activities at overseas posts. The conference agreement includes an increase above the request to enhance such staffing levels. The conferees further request that the Government Accountability Office (GAO) conduct the study described in the Senate report. In addition, the

conferees direct the Department of Commerce to submit a report to the House and Senate Committees on Appropriations within 120 days of enactment of this Act on steps taken to address overseas pay comparability for the USFCS, and how these actions compare with those taken by other departments for foreign service employees.

Within the appropriation, \$5,215,000 is provided for the following activities:

International Trade Administration
Congressionally-designated Items

UC Davis, Davis, CA	Textile Research at UC Davis	250
University of Nebraska-Lincoln, Lincoln, NE	International Trade Scholars Program	500

The conferees direct ITA to refrain from charging administrative costs to these grants and expect that the agency will provide appropriate management and oversight of each grant.

BUREAU OF INDUSTRY AND SECURITY

OPERATIONS AND ADMINISTRATION

The conference agreement provides \$100,342,000 for the Bureau of Industry and Security (BIS), and includes requested programmatic increases of \$10,000,000 for the cyber espionage and system modernization initiative and \$1,800,000 for the weapons of mass destruction (WMD) and improvised explosive devices (IED) nonproliferation initiative.

The conferees are concerned that crime control and law enforcement technologies can be exported to foreign governments and used to abuse human rights. The conferees understand that BIS is currently working to update crime control and law enforcement items contained on the Commerce Control List. In addition, BIS is working on a more complex crime control review to address developing technologies such as biometric identification systems, training simulators, and surveillance systems. The conferees encourage BIS to review thoroughly whether these new technologies can be used by foreign governments to repress basic human rights and to implement quickly appropriate export controls on items with the potential for abuse.

ECONOMIC DEVELOPMENT ADMINISTRATION

The conference agreement provides \$293,000,000 for the programs and administrative expenses of the Economic Development Administration (EDA) for fiscal year 2010.

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The conferees provide \$255,000,000 for Economic Development Assistance Programs. The conferees expect EDA to use all available carryover and prior year recoveries to the maximum extent possible.

Public Works.—The conference agreement provides \$158,280,000 for Public Works. The conferees believe that, given the current economic climate, these funds are critical to local communities and industries faced with increased economic pressures and dislocations in the rapidly changing global economy. EDA is directed to submit future budget requests that maintain the current public works program funding level while increasing funding for regional innovation clusters and small business incubator efforts. Public works remain an integral element of economic development assistance and funding for this critical program should not be limited, particularly in the current economy.

Global Climate Change Mitigation Fund.— Within the funds provided for Public Works, the conference agreement provides no less than \$25,000,000 for the Global Climate Change Mitigation Incentive Fund. The conferees emphasize that economic development must address climate change, and direct EDA to expand the program beyond Leadership in Energy and Environmental Design

(LEED) certification, to include renewable energy; energy efficiency; reuse, restoration and recycling; green buildings; the development of green products; the greening of an existing function, process or activity; and the creation or renovation of green buildings. The conferees further direct EDA to provide a report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act, detailing the scope of the fund, the criteria for approval of fund expenditures, and the methodology EDA will employ when reviewing grants.

Planning.—The conference agreement provides \$31,000,000 for planning. The conferees direct the agency to continue to allocate funding to the existing network of Economic Development Districts (EDDs), consistent with the fiscal year 2009 direction.

Technical assistance.—The conference agreement provides \$9,800,000 for technical assistance. The conferees direct EDA to compete two additional university centers each year with the additional base funding, with the goal of ensuring that each State has at least one center and that economically distressed communities are not further burdened by the lack of representation and the need to share and stretch resources.

Trade Adjustment Assistance (TAA).—The conference agreement provides \$15,800,000 for TAA. While the conferees support this program and the recently enacted authorization, EDA must undertake efforts to improve overall organization, implementation and evaluation of its program before significant new investments can be recommended. The conferees therefore direct EDA to institute an evaluative process and use up-to-date economic data before allocating these funds among regional offices. EDA is also directed to provide quarterly reports to the House and Senate Committees on Appropriations on the number of firms assisted, how that assistance is quantified, and the value each TAA center adds to the process.

Economic adjustment assistance (EAA).—The conference agreement provides \$38,620,000 for EAA.

Regional innovation clusters.—The conferees support the efficiency gains of regional innovation clusters for applicants and the agency; encourage the use of this approach within existing authorities and funding structure; and note that first efforts will include mostly planning grants for communities as they identify local clusters for development. Critical to the success of the cluster approach, however, is coordination and alignment between economic development agencies. EDA is directed to identify appropriate agencies; establish coordination and alignment of priorities, applications, and working relationships; and report this structure to the House and Senate Committees on Appropriations within 90 days of enactment of this Act. EDA is directed to provide quarterly reports on progress and funding awards for the cluster initiative, and to create performance measures for future evaluation.

Small business incubators.—The conferees encourage EDA to continue to fund business incubation efforts as it has in the past through its existing grant programs and budget structure. EDA is also directed to work with other Federal agencies such as the Small Business Administration, the Minority Business Development Agency, and the U.S. Department of Agriculture, to develop a co-

ordinated Federal approach for supporting business incubators nationwide rather than creating duplicative activities within these agencies. These programs are available to assist new and existing businesses and should be coordinated and aligned among them and with the regional innovation clusters initiative. Within 90 days of enactment of this Act, EDA shall provide a report to the House and Senate Committees on Appropriations defining the specific needs that EDA proposes to support through emerging business incubators in various communities, providing a matrix of how the various Federal programs currently support these centers, and explaining how future funding would provide beneficial synergy.

Hawaii and the American Pacific.—The conferees are aware of the exceptionally large geographic area of Hawaii and the American Pacific, which is served by the Hawaii Economic Development Administration office and the increasing demands for services in the area, and provide increased staff support for this field office.

Base realignment and closure (BRAC).—The conferees direct EDA, in coordination with the Department of Defense's Office of Economic Adjustment, to submit a report within 60 days of the enactment of this Act. The report shall identify opportunities for coordination and alignment of the two agencies, within current authorities and budget structures, to address the needs of localities designated as military growth and closures communities, including criteria for eligible communities and projects, and foreseeable funding requirements and availability.

Disaster funding.—The conferees encourage EDA to ensure that disaster funding is disbursed in a timely manner.

SALARIES AND EXPENSES

The conference agreement provides \$38,000,000 for salaries and expenses. The conferees continue to support EDA's regional offices and reiterate their commitment to continuing the current operational structure with the six regional offices. The conference agreement provides adequate funding to begin filling vacancies within the regional offices, and continues the previous direction to fill vacancies within the regional offices prior to any vacancies within headquarters.

TAA centers database.—The conferees direct the use of fiscal year 2009 carryover funds intended for TAA salaries and expenses to develop a single database for the collection of the data now required of the TAA centers.

Economic development representative (EDR).—The conferees note that some States share an EDR, requiring some EDRs to be responsible for a larger geographic area. The conferees are concerned that the increased territorial burden is impacting the effectiveness of EDR efforts, therefore, the conferees direct the agency to develop a maximum territorial range for each EDR; submit costs associated with re-establishing a single EDR in each State to the House and Senate Committees on Appropriations within 60 days of enactment of this Act; include funding to restore a minimum of one EDR per state in the fiscal year 2011 budget request; and begin implementation with a portion of the resources provided.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The conference agreement provides \$31,500,000 for the Minority Business Development Agency (MBDA) for fiscal year 2010. Within the appropriation, the conference agreement provides not less than \$200,000 for the Office of Native American Business Development. The conferees expect the office to utilize the assistance of the Native American Business Enterprise Centers to help fulfill its obligations to expand business development, trade promotion and tourism opportunities for Indian tribes and other Native American entities. Within the appropriation, \$1,100,000 is provided for the congressionally designated activities listed below:

Minority Business Development Agency
Congressionally-designated Items
(\$ in thousands)

Recipient	Project	Amount
Jamaica Chamber of Commerce, Jamaica, NY	Jamaica Export Center	100
McAllen Economic Development Corporation, McAllen, TX	McAllen Manufacturing Research and Education Park	300
Mississippi Band of Choctaw Indians, Choctaw, MS	Choctaw Native American Business Enterprise Center	200
West Liberty State College, West Liberty, WV	Emerging Minority Business Leaders	500

MBDA is directed to work with the recipients to ensure that projects meet the agency's mission, to refrain from charging administrative costs, and to provide appropriate management and oversight.

ECONOMICS AND STATISTICS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$97,255,000 for the Economics and Statistics Administration.

BUREAU OF THE CENSUS

The conference agreement provides a total operating level of \$7,324,731,000 for the Bureau of the Census.

SALARIES AND EXPENSES

The conference agreement provides \$259,024,000 for the salaries and expenses of the Bureau of the Census for fiscal year 2010.

PERIODIC CENSUSES AND PROGRAMS

The conference agreement provides a total of \$7,065,707,000 for all periodic censuses and related programs in fiscal year 2010.

Field Data Collection Automation (FDCA) Contract replan.—The replan of the FDCA contract resulted in a significant overall increase in the life cycle cost of the decennial census, now estimated at \$14,700,000,000. The conferees direct the Census Bureau to provide monthly status reports and obligation rates on this contract and other large contracts related to the 2010 decennial, and include the status of known risks to the success of the decennial. In addition, the conferees direct the Census Bureau to follow the recommendations of the February 2009 Office of Inspector General (OIG) report, including the implementation of a fee evaluation process to ensure that fee awards are truly earned and contractors are incentivized to maximize value for the taxpayer.

Development and reporting of milestones.—The conferees adopt, by reference, report language that accompanies the fiscal year 2008 supplemental appropriations for the Census Bureau regarding the development and reporting of milestones associated with the 2010 census.

Communications.—The conferees direct the Census Bureau to work closely with the advertising provider to ensure that the decennial's outreach activities are targeted to achieve high rates of survey responses in all communities, particularly within hard-to-reach communities.

Paid media.—In order to increase the mail-back response rate, the conferees direct the Census Bureau to allocate sufficient funding to support robust paid media efforts in preparation for the 2010 decennial census, with specific focus on hard-to-reach populations, ensuring these efforts surpass the effectiveness of such efforts in 2000.

Partnership.—The conferees urge the Census Bureau to ensure it hires a diverse pool of employees, particularly for partnership specialist and enumerator positions for the 2010 decennial census.

These indigenous workers bring language skills and neighborhood and cultural knowledge to bear on the task, and are thus more likely to be accepted by communities during outreach and non-response follow-up, resulting in a more accurate count. The Census Bureau is also encouraged to strive to maintain a more diverse, full-time workforce, including at the senior management level.

Mileage reimbursement for temporary workers.—The conferees provide sufficient funding to ensure that temporary employees will receive full mileage reimbursement at a rate that is equivalent to that of all Federal employees.

Fingerprinting.—A recent GAO report highlighted flaws in the Bureau's current methods for fingerprinting temporary census workers, a safeguard instituted in the 2010 Decennial. The conferees direct the Bureau to evaluate its procedures and to build on the steps the Bureau is taking to improve employee training and ensure the safety of the public.

Other languages.—The conferees direct the Bureau to provide the House and Senate Committees on Appropriations with updates of its language assistance program on a semi-annual basis, including information on how it will reach and assist respondents who speak Asian, American Indian, Alaska Native, Spanish, and other languages for the ACS and the 2010 decennial census.

Data on small population groups and offshore U.S. jurisdictions.—The conferees direct the Bureau to report to the House and Senate Committees on Appropriations within 90 days of enactment of this Act, describing the steps it will take to ensure the availability and accuracy of small population groups data from the ACS and decennial census, and for reporting aggregate data reflecting all citizens of the United States, including Puerto Rico and other offshore jurisdictions.

Additional outreach.—The conferees direct the Bureau to ensure full funding of Census in Schools and adult education materials.

Inspector General recommendations.—The conferees note that the OIG issued three recommendations to promote an accurate address list and contain costs. The conferees are concerned that the Census Bureau has failed to implement these recommendations and thus direct the Census Bureau to report to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, on the steps it is taking to implement the OIG's recommendations.

Non-decennial programs.—The conference agreement provides \$214,581,000 for non-decennial periodic census programs.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$19,999,000 for the salaries and expenses of the National Telecommunications and Information Administration (NTIA).

The conference agreement retains language from previous years allowing the Secretary of Commerce to collect reimbursements from other Federal agencies for a portion of the cost of co-

ordination of spectrum management, analysis, and operations. NTIA shall submit a report to the House and Senate Committees on Appropriations no later than June 1, 2010, detailing the collection of reimbursements from other agencies related to spectrum management, analyses, and research.

Preventing contraband cell phone use in prisons.—The conferees are concerned with the increased smuggling of contraband cell phones into State and Federal prisons and the use of such devices by inmates to orchestrate prison-breaks, conduct illegal activity, and harass or intimidate judges, lawyers or former victims. To deter contraband cell phones, States have begun to pursue aggressively smugglers and abettors of inmates; increased efforts to detect contraband phones hidden on prison employees, visitors and inmates; and explored the use of wireless detection and monitoring devices that could help corrections officials identify and prosecute criminal activity.

To help State and Federal correctional authorities address this growing national problem, the conferees direct the National Telecommunications and Information Administration at the Department of Commerce, in coordination with the Federal Communications Commission, the Federal Bureau of Prisons and the National Institute of Justice, to develop a plan to investigate and evaluate how wireless jamming, detection and other technologies might be utilized for law enforcement and corrections applications in Federal and State prison facilities. The conferees strongly urge the NTIA, in coordination with the FCC, to investigate and evaluate detection or other technologies that do not pose a risk of negatively affecting commercial wireless and public safety services in areas surrounding prisons.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

The conference agreement provides \$20,000,000 for Public Telecommunications Facilities, Planning and Construction (PTFPC). PTFPC has been the primary source for telecommunications infrastructure assistance for public radio and television stations seeking assistance, particularly in under-served rural areas. The budget request proposed to eliminate the PTFPC program in fiscal year 2010, citing funding available through the Corporation for Public Broadcasting (CPB). The conferees direct that NTIA work with CPB to provide a report that clarifies the funding authorities of the two agencies to the House and Senate Committees on Appropriations within 60 days of enactment of this Act.

UNITED STATES PATENT AND TRADEMARK OFFICE SALARIES AND EXPENSES

The conference agreement provides \$1,887,000,000 for the United States Patent and Trade Office (USPTO) for fiscal year 2010, the same as the revised fee collection projection dated September 17, 2009.

Budget formulation process.—A confluence of factors in fiscal year 2009, including depressed revenues, continuing declines in the patent allowance rate, recent court decisions, and the absence of in-

flation has highlighted major, unacceptable deficiencies in USPTO's budget formulation and execution processes. USPTO's financial situation in fiscal year 2009, while anomalous, may be repeated again. The decision to rely solely on fee income has removed USPTO from the safety net of the appropriations process and has placed it at the mercy of the economy; it has allowed USPTO to build a boom time infrastructure that it cannot support in an economic downturn. Complicating and contributing to this situation is the fact that USPTO's budget formulation process does not reflect the agency's resource requirements for the relevant fiscal year. Fiscal year 2010 will likely present a new and more daunting set of financial challenges for the agency and achievement of key performance measures will likely continue to decline.

The conferees note that although USPTO is a fee-funded agency, USPTO's budget development process should not be markedly different from other Federal agencies, at least initially. Yet today, the USPTO is unable to produce a clear and concise statement of resources needed to operate independent of the agency's estimate of projected revenues. Whatever advantages the current funding arrangement confers to the agency and its constituencies, the current state of budget formulation, execution and management at the USPTO cannot continue.

USPTO must develop and present a requirements-based budget to ensure transparency to the Congress, the Administration and to USPTO's stakeholders. To convey more fully USPTO's spending requirements, the conferees direct that, in addition to the budget request, the annual USPTO budget submission, beginning with the fiscal year 2011 submission, shall contain the following items, separately identified, for the budget year: (1) an estimate of a current services baseline consistent with the Budget Enforcement Act (BEA) requirements; (2) any changes to that baseline from expected workload changes; (3) any changes from proposed initiatives to improve performance; and (4) any proposed user fee changes and their expected additional revenues needed to fund the budget request.

Provision of fee collection projections.—The conferees direct the USPTO to provide quarterly reports on its fee collection projections and to notify the House and Senate Committees on Appropriations during any month when significant changes in such projections prompt serious concern or require drastic budgetary responses. In addition, the conferees direct the USPTO to provide official revised fee estimates for fiscal year 2011 to the House and Senate Committees on Appropriations no later than September 1, 2010.

Reprogramming and spend plan.—The conferees understand that in several recent fiscal years, the USPTO has used excess fee collections in the current year to forward fund requirements in the budget year. The conferees note that the funding appropriated in any fiscal year is intended to fund costs in only that fiscal year. Therefore, funds appropriated in this Act for fiscal year 2010 are provided only for fiscal year 2010 operating costs. The USPTO is required to follow the reprogramming procedures outlined in section 505 of this Act before using excess fee collections to forward fund expenses beyond fiscal year 2010. Any deviations from the funding distribution provided for in this Act, including carryover balances, are subject to the standard reprogramming procedures

set forth in section 505 of this Act. In addition, 60 days after enactment of this Act, the USPTO shall submit to the House and Senate Committees on Appropriations a spending plan for fiscal year 2010. This spending plan shall incorporate all carryover balances from previous fiscal years, and describe any changes to the patent or trademark fee structure. Any changes from the spending plan shall also be subject to section 505 of this Act.

Patent pendency and backlog.—The conferees remain concerned by the lack of progress toward reducing patent pendency and the overall patent backlog. The increasing backlog is the result of a number of factors, including the significant decrease in number of patents approved; the practical effect of the increasing numbers of requests for continued examination (RCE); and the fact that applicants are filing in more than one jurisdiction.

The Government Accountability Office (GAO) has found that the hiring of additional patent examiners has not been sufficient to reverse the patent pendency and backlog trend and the recent and projected decrease in fee collections makes it clear that the USPTO will not be able to rely on additional hiring as a method to reduce the backlog. The conferees direct USPTO to enhance its efforts to reduce duplication of work already performed by another patent office in a manner that does not compromise the quality of the examination or compromise the sovereignty of the United States. The conferees also direct USPTO to develop and implement strategies to combat the unintended consequences of RCEs and the effect of the drop in patent application approvals. USPTO shall provide a report to the House and Senate Committees on Appropriations on its progress in these areas within 90 days of enactment of this Act.

Patent Examiners.—The conferees are encouraged by the Administration's recent actions to evaluate out-dated and unreasonable productivity goals, but remain concerned about workforce turnover at the agency. The Director, working with management and employees, recently completed an evaluation of the work productivity goals, which have been cited by many former patent examiners as a major reason for their departure. USPTO is directed to continue a thorough and independent evaluation exploring all workforce management and turnover issues, and is directed to provide a preliminary, if not final, report within 120 days of enactment of this Act outlining substantial changes and milestones to improve employee retention.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

The conference agreement provides \$856,600,000 for the National Institute of Standards and Technology (NIST) for fiscal year 2010.

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement provides \$515,000,000 for NIST's scientific and technical programs. Up to \$9,000,000 may be transferred from the Scientific and Technical Research and Services (STRS) account to the Working Capital Fund, which NIST uses to purchase equipment for its laboratories.

Baldrige National Quality Program	9,627,000
Corporate Services	16,777,000
Total STRS	515,000,000

The conferees approve NIST's new budget structure consolidating all the functions of its laboratory research program under one budget activity. Any deviation from amounts specified in spend plans or reports for particular labs and technical programs, or the use of de-obligated funds shall be subject to reprogramming procedures set forth in sections 103 and 505 of this Act.

Within available resources, the conference agreement fully funds the requested increase for a comprehensive national cyber security initiative. NIST is directed to expand its biodiversity storage capabilities and resources into the Pacific region through a Pacific Islands component and the conference agreement provides \$750,000 for this purpose.

The conference agreement includes funding within the amounts provided for Strategic Measurement Partnerships for the activities listed below:

The conferees direct NIST to refrain from charging administrative costs to these grants and expect that the agency will provide appropriate management and oversight of each grant.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement provides \$194,600,000. Of this amount, \$124,700,000 is provided for the Manufacturing Extension Partnerships (MEP) and \$69,900,000 is provided for the Technology Innovation Program (TIP). Within MEP, NIST and its partners are directed to consider the importance automation plays in accelerating and integrating manufacturing processes across all levels of industry.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement provides \$147,000,000, of which \$20,000,000 shall be available for a competitive construction grant program and \$80,000,000 for the highest priority construction and safety, capacity, maintenance, and major repair (SCMMR) projects at NIST. Within funding provided, the conferees encourage the agency to maintain an appropriate SCMMR funding level.

Competitive construction grants.—Within the appropriation, the conference agreement provides \$20,000,000 for competitive construction grants for research science buildings in fiscal year 2010. The conferees note that in just the first year of the program, the fiscal year 2008 call for proposals yielded 93 requests, of which only three were funded due to limited appropriations. The conferees expect the Administration to include funding for this competitive program in future requests as these research science buildings leverage additional public and private funding, provide jobs, and improve science research in the Nation.

The conferees direct NIST to provide quarterly reports on the status of all construction projects funded under this appropriation to the House and Senate Committees on Appropriations.

The conference agreement provides \$47,000,000 for the activities listed below.

The conferees direct NIST to refrain from charging administrative costs to these grants. The conferees expect that NIST will provide appropriate management and oversight of each grant.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The conferees provide a total of \$4,737,531,000 in discretionary appropriations for the National Oceanic and Atmospheric Administration (NOAA).

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides a total program level of \$3,412,778,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes \$3,305,178,000 in direct appropriations; a transfer of \$104,600,000 from balances in the “Promote and Develop Fishery Products and Research Pertaining to American Fisheries” account; and a transfer of \$3,000,000 from the Coastal Zone Management Fund.

Within this amount, the conference agreement provides funds for congressionally-directed activities listed within the obligation tables for each line office, and directs NOAA to refrain from charging administrative costs to these grants. The conferees expect that NOAA will provide appropriate management and oversight of each grant.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act:

National Ocean Service (NOS).—The conference agreement provides \$522,220,000 for NOS operations, research and facilities.

Mapping and charting.—The conference agreement provides \$49,487,000 for mapping and charting, of which \$750,000 is provided for the development and demonstration of unmanned surface vehicles for hydrographic survey operations.

Tide and current data.—The conference agreement provides an additional \$3,800,000 above the request to support fully the entire design, installation, maintenance, and operations of the Physical Oceanographic Real-Time System (PORTS), as authorized by Public Law 107–372.

Regional geospatial modeling grants.—The conference agreement provides \$5,500,000 to continue funding for this competitive program for researchers and resource managers to develop models or geographic information systems using existing geodetic, coastal remote sensing data, terrestrial gravity measurements, or other physical datasets.

Integrated Ocean Observing System (IOOS).—The conference agreement provides a total of \$33,555,000 for IOOS, of which \$6,555,000 is for program administration; \$20,000,000 is for a competitive, regional ocean observing systems solicitation; \$4,000,000 is for a competitive extramural regional test bed for the Atlantic and Gulf coasts described in the Senate report, for which NOAA shall outline this effort’s approach and timeline in its fiscal year 2010 operating plan; and \$3,000,000 is for a consortium for testing and advancing new sensor technologies. NOAA is directed to report

to the House and Senate Committees on Appropriations within 30 days of enactment of this Act on the feasibility of establishing a cooperative institute for the purpose of advancing and sustaining this essential capability and its inclusion in future requests.

Coral reef programs.—Given the magnitude of the effect of climate change on coral reefs worldwide and the vital role that coral reefs play in protecting the Nation's beaches, sustaining fisheries and providing other economic benefits, the conference agreement provides \$29,000,000 for the coral reef program, which includes \$2,273,000 in competitive funding above the request for external coral reef institute partners. In awarding this competitive funding, the conferees encourage NOAA to consider comparative regional needs, geographic scope, historic funding levels and other available funding. The conferees direct NOAA to include base funding for the external coral reef institutes in future budget requests.

Response and restoration.—The conference agreement includes \$27,134,000 for response and restoration, which provides \$3,000,000 for estuary restoration and \$9,300,000 for damage assessment and restoration. The conference agreement provides an additional \$1,000,000 for the Office of Response and Restoration, working jointly with the Office of National Marine Sanctuaries, to solicit a one-time independent assessment of potential man-made undersea threats that could impact coastal and Great Lakes States.

Coastal Zone Management (CZM) grants.—The conference agreement provides \$2,000,000 above the request, and NOAA is directed to use a portion of the increase provided for a competitive program for efforts to modernize and improve State information systems to assess, track and manage permitting and land-use tracking procedures.

National Estuarine Research Reserve System (NERRS).—The conference agreement provides an increase of \$1,174,000 above the request for the NERRS operations.

National Marine Fisheries Service (NMFS).—The conference agreement provides \$904,539,000 for NMFS operations, research and facilities.

Protected species research and management.—The conference agreement provides \$15,623,000 for the species recovery grants program. The conferees concur with the need for increased funding for endangered, threatened, and at-risk marine species.

Marine mammals, marine turtles, and marine protected species.—The conference agreement provides total funding of \$4,275,000 for Hawaiian Monk Seal activities; \$7,800,000 for Hawaiian Sea Turtle and incident take activities; and \$1,500,000 for the study and protection of cetaceans in the Pacific.

The conferees encourage NOAA to demonstrate and utilize biological pattern recognition technology where appropriate for tagging fish or threatened or endangered animal species.

Fisheries research and management.—The conference agreement provides \$424,717,000 for fisheries research and management. Within this amount, \$190,883,000 is recommended for fisheries research and management programs. Within the amounts provided, the conference agreement includes a programmatic increase of \$750,000 for regulation activities associated with the Pacific Marine Monuments.

Magnuson-Stevens Reauthorization Act (MSRA).—The conference agreement provides all requested increases for MSRA requirements. These funds are necessary to prevent fisheries collapses and obviate the need for disaster funding. The conferees recognize the need to ensure sustainable fisheries. Within amounts provided, funding is designated to implement a sector-based management approach for New England and to transition to catch shares, a new tool that provides flexibility for fishermen while maintaining sustainability. Funding is provided to support the costs of expanded stock assessments and for regional councils that make recommendations on annual catch limits (ACLs).

The conference agreement also provides funding to continue development of a State-Federal national registry program for marine recreational fishing participants, and to expand commercial fisheries' biological sampling programs and electronic reporting of commercial fisheries' landings. In addition, the conferees direct NMFS to provide a report to the House and Senate Committees on Appropriations within 90 days of enactment of this Act on recreational fishing under catch share program management. Specifically, the report shall include how data collection for recreational catches will improve in fisheries where the commercial sector receives catch shares; and how allocation conflicts between recreational and commercial sectors will be resolved.

Economic and social science research.—The conference agreement includes the requested increase to address significant economic and social science research data gaps in major Federal fisheries that are crucial to developing support tools to conduct MSRA-mandated cost-benefit analyses of regulatory options, such as ACLs and limited access privilege programs (LAPPs). These resources will allow the affected regions to provide input and engage in solutions in their own sectors, and to forge new relationships between the regions and NMFS.

Salmon management activities.—An increase of \$10,000,000 above the request is provided to begin implementation of reforms developed by the Hatchery Scientific Review Group to operate these facilities in a manner more conducive to salmon recovery.

Enforcement.—The conference agreement provides the requested increase to fund the enforcement requirements of the MSRA. The conference recommendation includes a total of \$1,500,000 to continue installing electronic logbooks on shrimp boats to monitor and reduce bycatch; end overfishing; rebuild overfished stocks such as red snapper; and ensure the sustainability of shrimp fisheries. The conferees note that this program is inherent to NOAA's core mission and implementation of current shrimp fishery regulations, and expect that sufficient funding will be reflected in future budget requests.

Observer/training.—The conference agreement provides the requested MSRA increase for implementation of annual catch limits. This includes supplementing observer coverage in three fisheries, including the Gulf of Mexico reef fish fishery, and will implement pilot programs for three additional fisheries. The conference agreement also provides an increase above the request of \$3,015,000 for the Hawaiian Longline Observer Program.

Gulf coast management activities.—The conferees encourage NOAA to solicit, evaluate and incorporate independent fishery data when developing fishery regulations, and to create a thorough report detailing the potential economic impact any new restrictions would have on Gulf of Mexico communities before moving forward with any changes impacting the red snapper fishery.

Habitat conservation and restoration.—The conference agreement provides a total of \$27,967,000 for fisheries habitat restoration. Within this amount, \$18,600,000 is provided for the community based restoration program and \$7,034,000 is provided for the open rivers program.

Other activities.—The conference agreement provides \$500,000 for fishery demonstration projects that develop and protect traditional fishing practices in communities represented on the Western Pacific Fishery Management Council.

The conferees recognize the importance of ongoing surfclam and ocean quahog surveys to sustainable fisheries management and encourages NOAA to work closely with stakeholders on this matter.

Regional studies: Chesapeake Bay.—The conferees direct NOAA's Chesapeake Bay Office to continue to collaborate with the States of Maryland and Virginia, and to continue to utilize the Sea Grant programs from both States in developing the program to advance multiple species management by focusing on blue crabs, oysters, and other resource species.

Chesapeake Bay oyster restoration.—The conference agreement provides \$3,000,000 for oyster restoration in the Chesapeake Bay. Of these funds, \$2,000,000 is provided for oyster restoration in the Maryland waters of the Chesapeake Bay which shall be for on-the-ground and in-the-water restoration efforts, and \$1,000,000 of these funds is for oyster restoration in Virginia waters of the Chesapeake Bay. Funds shall not be used for administrative costs, including banquets or salaries.

Alaskan marine mammal protection.—With regard to congressionally-designated funding for the Indigenous People’s Council for Marine Mammals (IPCoMM), the conferees expect NOAA to assist IPCoMM in developing a competitive process to allocate new co-management funding provided in this Act.

Oceanic and Atmospheric Research (OAR).—The conference agreement includes \$438,766,000 for OAR operations, research and facilities. The conferees provide additional support for activities appropriately conducted by a national climate service and direct the agency to accelerate its current efforts towards the creation of such an entity.

The conferees direct NOAA to enter into a contract with the National Academy of Public Administration (NAPA) within 60 days after the enactment of this Act for a study and analysis of organizational options for a National Climate Service within NOAA, emphasizing maximum effectiveness and efficiency. The study should consider how to provide information at the global, regional, and State levels over varying timescales; support interaction among the government and various users, stakeholders, researchers, and information providers of climate information in both the private and public sectors; develop and distribute products and information that will support decision-making to better prepare the Nation for climate variability and climate change; coordinate and align existing programs and resources internal and external to NOAA to reduce duplications and leverage existing climate-related resources; and provide estimates on projected funding levels. The study shall be completed no later than 120 days after the contract is awarded.

Climate research.—The conference agreement provides \$221,040,000 for climate research. Within the recommendation, the conferees provide \$9,000,000 for climate assessment services to synthesize, evaluate and report on climate change research findings; evaluate the effects of climate variability and change for different regions and sectors; and identify climate vulnerabilities and uncertainties as part of an ongoing effort to understand what climate change means for the United States. The recommendation also includes \$2,200,000 to continue chemical climate research important to climate modeling and atmospheric science research.

Weather and air quality research.—The conference agreement includes \$650,000 above the request for instrumentation and operation of state-of-the-art monitoring of nutrients and mercury speciation measurement stations and laboratories.

Ocean, Coastal and Great Lakes research.—The conferees encourage NOAA to conduct long-term ice cover and water level outlooks for the Great Lakes and to report on the impact of climate change on the habitats, fish and wildlife, commerce, recreational opportunities and water supply of the Great Lakes.

The conferees direct NOAA to provide a report on the potential of ocean fertilization for climate change mitigation to the House and Senate Committees on Appropriations within 60 days of enactment of this Act, and encourage NOAA to support further research, as appropriate, within funds provided.

Laboratories and cooperative institutes.—The conference agreement provides a total of \$26,340,000 for laboratories and cooperative institutes, of which \$4,500,000 is for the Northern Gulf Institute (NGI). The NGI is a cooperative institute that was solicited and competitively selected by NOAA to develop regional approaches to ecosystem management and research the interface between human, watershed, coast, ocean, and atmosphere continuums. The Gulf region is a significant contributor to the Nation's economy,

and NOAA's own data shows that the Gulf experiences the highest frequency of severe weather and is affected by more disasters than any other region. Therefore, the conferees expect NOAA to provide adequate base funding for this activity in future budget requests.

National Sea Grant College Program.—The conference agreement provides \$63,000,000, of which \$4,800,000 is for marine aquaculture research and \$2,000,000 is for aquatic invasive species research; both activities shall be coordinated by NOAA's Sea Grant office. The conferees recognize the important role the Sea Grant program plays in connecting coastal and Great Lakes communities with practical research and results, and encourage the growth of this program in future budget requests.

Ocean exploration.—The conference agreement funds the ocean exploration program and the national undersea research program separately, as they are two distinct authorizations in the Omnibus Public Lands Management Act (Public Law 111-11). The conferees provide \$3,000,000 in additional funding to support further ongoing operations in the Pacific and to advance exploration in the Indian Ocean.

National Weather Service (NWS).—The conference agreement provides \$892,118,000 for National Weather Service operations, research and facilities. This includes the requested increase of \$10,000,000 to accelerate significantly the improvement of hurricane track and intensity forecasts and fully funds the request for the Center for Weather and Climate Prediction operations.

Aviation weather.—The conferees are concerned about the plans under consideration by the Federal Aviation Administration (FAA) and the NWS to restructure the way aviation weather services are provided at en route centers that require the consolidation of weather service offices. GAO's September 2009 report on this issue recommended that the Departments of Commerce and Transportation document baseline performance for several measures and take steps to address the significant challenges that FAA and NWS face to improve the current aviation weather structure. The conferees direct NWS to report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act on steps taken to implement GAO's recommendations and the consequences, if any, of plans to restructure aviation weather services.

National Centers for Environmental Prediction (NCEP).—The conferees encourage NCEP to continue to improve the performance of its computer modeling for weather, climate, hydrological and ocean prediction to ensure U.S. forecasting capabilities lead the world. The conferees encourage NCEP to draw fully upon the resources of the U.S. academic community to better implement emerging scientific and technological advances.

National mesonet program.—The conference agreement provides \$19,000,000 for continuation and expansion of the national mesonet program. Funds shall be allocated as follows: (1) \$8,000,000 to maintain data procurements from existing surface in situ mesonet observations, including those observations added as a result of the fiscal year 2009 expansion of the national mesonet program; (2) \$5,500,000 for competitive expansion of the national mesonet program to include integration of additional surface in situ observational data from existing networks, with 75 percent of the funds for data acquisition from urban and 25 percent from non-urban (rural, mountainous, and coastal) areas; (3) \$500,000 for the national mesonet program office for program oversight and data utilization initiatives; (4) \$3,500,000 for the continued development and expansion of the Mobile Platform Environment (MoPED) System pilot program to ensure that mobile platform environmental data is available to support efforts of the NWS and Meteorological Assimilation Data Ingest System (MADIS); and (5) \$1,000,000 for data validation tools for quality control and network monitoring and reliability, with up to \$500,000 of these funds for MADIS expansion. The conferees expect NOAA to include in its fiscal year 2011 budget a robust and expanded national mesonet program, as called for by the National Research Council. Further, the conferees note that NOAA was required to submit a plan 90 days after enactment of the fiscal year 2009 Omnibus Appropriations Act on implementation of the national mesonet program, a deadline with which the agency has not complied. The conferees expect this plan to be submitted within 30 days of the enactment of this Act.

National Weather Service.—The conferees direct that NOAA contract with the National Academy of Sciences to conduct an assessment of the now completed NWS modernization. During the 1980s and 1990s NOAA launched a major program to modernize the NWS, investing \$5,000,000,000 to modernize NWS technologies to advance weather forecasting. However, a complete assessment of the entire end-to-end NWS modernization enterprise has not been completed. The conferees require a report that not only addresses the past modernization, but also focuses on lessons learned to support future improvements to NWS capabilities. The report shall address high-impact weather and new science and technologies that allow for even better forecasts; the integration of new technologies and better models into NWS operations; and improving current partnerships with private industry, academia and other governmental agencies.

Williston radar.—The conferees remain concerned about the ability of the NWS to forecast weather adequately, especially snow events, without the Williston radar. NOAA is directed to continue operations and staffing at the Williston Radar Station until independent research substantiates that any other radars in the forecast area can provide coverage for all light and heavy weather activity in the region.

National Environmental Satellite, Data and Information Service (NESDIS).—The conference agreement provides \$199,165,000 for NESDIS operations, research and facilities.

Data centers and information services.—The conference agreement provides \$67,255,000. This level includes \$10,000,000 for climate data records (CDRs) to ensure the availability of authoritative climate reference data upon which to base investments and strategic plans; and additional funding for environmental data archiving, access and assessment activities.

Regional climate centers (RCCs).—The conference agreement provides a total of \$4,350,000 for RCCs.

Scatterometer.—The conferees direct NOAA, together with NASA which is similarly directed, to continue co-funding joint studies within available funds that should lead to a fiscal year 2011 request to build and fly an operational scatterometer providing sea surface vector wind measurements. NOAA should aggressively pursue negotiations to secure a flight opportunity for this instrument that is both reliable and timely.

Program support (PS).—The conference agreement provides \$455,970,000 for PS operations, research and facilities.

IT security.—The conference agreement provides \$7,000,000 for NOAA's new cyber security and email communications system. This system is needed to reduce NOAA's high vulnerability to cyber threat and to ensure that NOAA's observing and modeling systems provide high quality information for continuous public use. The conferees note that funds provided in fiscal year 2009 were diverted without notification and NOAA has not requested adequate funds for these critical efforts in the current request. The conferees direct the agency to provide a detailed spend plan for all IT expenditures within 30 days of enactment of this Act, including funds from all sources. In addition, the conferees expect that future budget requests will include descriptions of significant IT expenditures and appropriate request levels, and that NOAA will follow the reprogramming procedures outlined in section 505 of this Act, as appropriate.

NOAA education program.—The conferees strongly support NOAA's education programs to increase environmental and ocean literacy and the conference agreement includes \$38,523,000 to ensure a robust program. Within funding provided, \$12,000,000 is for competitive educational grants, of which \$8,000,000 is to increase the number of successful applications, and \$4,000,000 is to continue the ocean education initiative created in fiscal year 2009. NOAA is also encouraged to support informal education partnership efforts to use new online broadband and digital media technologies to improve STEM education related to weather, climate, the Great Lakes and the ocean.

GLOBE.—The conference agreement provides \$3,000,000 for the GLOBE Program. The conferees recognize NOAA's past role in GLOBE and direct NOAA to support the OSTP review of the program and to work cooperatively with NASA and NSF on this inter-agency program.

Marine operations.—The conference agreement provides \$120,125,000, which includes \$2,500,000 for purchase and installation of an integrated vessel electronics bridge system for any ships or boats within NOAA.

Justification improvement.—The conferees direct NOAA to work with the House and Senate Committees on Appropriations to reformat its justification into a more useable and user-friendly document, starting with the fiscal year 2011 submission. The conferees note the lack of funding transparency, justification for base programs, and other cross-cutting information, including the lack of personnel costs.

GAO report on management and administration costs.—The conferees note NOAA's inability to identify the costs of administering NOAA's programs and direct GAO to identify salaries and expenses within each line item of the NOAA budget and explain how agency, line office, and program management and administration costs are financed. The conferees expect that the report be completed within one year and that a preliminary report be prepared and presented to the House and Senate Committees on Appropriations by May 3, 2010.

Research and development (R&D) tracking and outcomes.—The conferees continue their direction that NOAA track the division of R&D funds between intramural and extramural research, and assure consistency and clarity in the collection and reporting of data. NOAA is directed to clearly state its expected research outcomes and available funding in order to provide transparency into the competitive grant process for extramural researchers. The conferees further direct NOAA to increase extramural research funding in future requests to build broad community support and leverage external funding for mission-oriented research.

Laboratories and cooperative institutes.—Within 60 days of enactment of this Act, NOAA is directed to provide the House and Senate Committees on Appropriations a report detailing the status of existing and expected regional cooperative institutes including current and planned funding and activities on a program by program basis. This report should make clear the programmatic origin of existing funding and contain an explanation of how NOAA expects to use these institutes in the future.

Commercial satellites.—The conferees direct NOAA to report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act on how the agency could benefit from acquiring space-based scientific data from commercial sources over the next three years, its plans to obtain such data, and an analysis of expected availability.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The conference agreement includes a total program level of \$1,360,353,000 in direct obligations under this heading, of which \$1,358,353,000 is appropriated from the general fund and \$2,000,000 is derived from recoveries of prior year obligations.

The bill includes language making any deviation from amounts designated for specific activities in this report, or any use of deobligated balances of funds provided under this heading in previous years subject to the reprogramming procedures set forth in section 505.

National Ocean Service (NOS).—The recommendation includes \$36,890,000 for NOS acquisition and construction. This includes \$5,000,000 above the request for the coastal and estuarine land conservation (CELCP) program. As a result of the Omnibus Public Lands Act, no less than 15 percent of CELCP funds shall be available for acquisitions benefitting National Estuarine Research Reserves System (NERRS). The conference agreement funds the NERRS Acquisition and Construction account at the request of \$3,890,000, which provides a total of \$6,890,000 for NERRS.

Great Lakes restoration initiative.—The conferees understand that NOAA is expected to receive funding through the Environmental Protection Agency for the Great Lakes Restoration Initiative, including funds for land conservation projects. The conferees expect that this external funding will supplement, not replace, funding provided in this Act for CELCP projects, and the existence of this additional funding source shall not affect NOAA's consideration of proposals under the CELCP program.

National Environmental Satellite, Data and Information Service (NESDIS).—The recommendation includes \$1,199,357,000 for NESDIS acquisition and construction. The conference agreement reduces the total funding provided for satellite acquisition and construction in recognition of reduced requirements for GOES-R resulting from delays in awarding the ground system contract.

National Polar-orbiting Operational Environmental Satellite System (NPOESS).—The conferees are concerned that NPOESS' management structure, potential growth in the projected life-cycle cost of more than \$15,000,000,000, and repeated schedule delays portend an unacceptably high risk of weather and climate satellite observation gaps. Recognizing that this satellite program is critical to forecasting the Nation's weather, the conferees' recommendation fully funds the NPOESS budget request for 2010 based on current information. However, the budget request does not reflect the true need and the program's long-term projections for success remain in doubt. In fact, to date this experiment in combining disparate elements has been a horrendous and costly failure.

A recent independent review team tasked with assessing all aspects of the program found many overarching flaws, ultimately determining that NPOESS is a program with a low probability of success. A June 2009 GAO report found that the NPOESS Executive Committee responsible for overseeing the program lacks the membership and leadership needed to effectively and efficiently oversee and direct the program. The conferees note that this situa-

tion has been developing for some time and is the result of a dysfunctional tri-agency management approach.

Yet decisions made now—including delays or postponements of decisions—have long-term consequences for both the sustained robustness of the operational observing system and for the Nation's industrial capacity. Nothing short of an immediate and out-of-the-box solution will do. The program needs a cooperative solution that will take advantage of the strengths of the three agencies involved, sustain the integrated operations of the various satellites, and should not be based on financial projections that have proven to be consistently and abysmally unreliable.

NOAA is encouraged to request appropriate contingency funding to avoid delays and additional management and industrial policy challenges when programmatic funding is diverted to solve an imminent crisis. In addition, NOAA is encouraged to request funding for and to develop back up capabilities to ensure continuity of climatological observations. Accordingly, the conference agreement removes the 50/50 NOAA/DoD funding split requirement to allow for more creative funding decisions to avert the critical climate and weather gaps that are sure to occur if a management solution is not identified soon.

Changes to the overall management structure are also needed to bring the program back in line, which includes modifying existing relationships between NOAA, the Department of Defense, and the contractor and enlisting more help from an agency with real space acquisition experience, such as NASA. Furthermore, a clear line of authority embodied in a project manager with the ability to make timely and cost effective decisions and avoid further delays is crucial.

Finally, the conferees direct NESDIS to employ NASA cost analysis capabilities, and in consultation with the Office of the Secretary of Defense (OSD), Cost Analysis Improvement Group (CAIG), to perform an independent cost analysis of all programmatic and acquisition alternatives at the 80 percent confidence level, and to include management structure change options. The conferees direct NOAA to report these findings and recommendations to the House and Senate Committees on Appropriations along with all appropriate congressional oversight committees no later than January 4, 2010.

Comprehensive large array stewardship system (CLASS).—The conference agreement includes \$18,476,000 for CLASS. Of these funds, \$5,500,000 is for maintenance, operations, and implementation of enhancements from development activity, and \$12,976,000 is for contracted development, with project administration and oversight to be at NOAA's National Climatic Data Center.

NOAA Cooperative Institute and Research Center for Southeast Weather and Hydrology.—The conference agreement provides \$14,000,000 for the continued construction of a research facility and weather related instrumentation and equipment to address the impact of severe weather in the Southeast.

The conference agreement provides funding for congressionally-designated activities listed within the obligation table for the PAC appropriation and directs NOAA to refrain from charging adminis-

trative costs to these grants. The conferees expect that NOAA will provide appropriate management and oversight of each grant.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement provides \$58,000,000 for Departmental Management.

Climate change.—The conferees are concerned that local and regional governments and the private sector of the United States make wise and timely investments to adapt to climate changes that will occur based on continuing growth in the amounts of atmospheric greenhouse gases. The conferees direct the Secretary of Commerce to develop a plan for how the needs of the private sector and local and State governments, as users of specific and tailored climate forecasts, will be addressed by new investments in climate services funded in this Act, and how a National Climate Service could incorporate the needs for such forecasts, if established. This plan is to be reported to the House and Senate Committees on Appropriations by April 1, 2010.

Minority serving institutions digital and wireless opportunity program.—Not later than 60 days after enactment of this Act, the Secretary of Commerce shall submit to the House and Senate Committees on Appropriations a report describing the Department’s plans to support and assist minority serving institutions (MSI) in improving their instrumentation, connectivity, hardware and software for instructional and research purposes as contemplated by the amendments to the Stevenson-Wydler Technology Innovation Act of 1980. The conferees also encourage the Secretary to work with the MSI national stakeholder organizations in developing such strategies.

Justification improvement.—The conferees direct the Department to work with the House and Senate Committees on Appropriations to reformat all Commerce justifications into more useable and user-friendly documents, starting with the fiscal year 2011 submission.

Departmental oversight.—The conferees direct the Department to develop oversight capacity of the USPTO, and to track fee collections and other pertinent policy and economic impacts, to avoid budgetary shortfalls, and ensure that the Department and the

House and Senate Committees on Appropriations are fully informed on funding issues.

HERBERT C. HOOVER BUILDING RENOVATION AND MODERNIZATION

The conference agreement provides \$22,500,000 for continued renovation of the Herbert C. Hoover Building.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$27,000,000 for the Office of Inspector General (OIG) for fiscal year 2010. Within funds provided, the Office of Inspector General shall continue to conduct audits and oversight of the USPTO.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

The conference agreement includes the following general provisions for the Department of Commerce:

Section 101 makes funds available for advanced payments only upon certification of officials designated by the Secretary that such payments are considered to be in the public interest.

Section 102 makes appropriations for the Department for salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriation accounts and requires notification to the House and Senate Committees on Appropriations of certain actions.

Section 104 provides that any costs incurred by the Department in response to funding reductions shall be absorbed within the total budgetary resources available to the Department and shall be subject to the reprogramming limitations set forth in this Act.

Section 105 extends Congressional notification requirements for the GOES-R satellite program.

Section 106 provides for the reimbursement for services within Department of Commerce buildings.

Section 107 provides authority for Secretary of Commerce to negotiate or re-evaluate international agreements related to fisheries, marine mammals, or sea turtles.

Section 108 extends the authority of the Emergency Steel Loan Guarantee Program for two years.

Section 109 clarifies that grant recipients under the Department of Commerce may continue to deter child pornography, copyright infringement, or any other unlawful activity over their networks.

Section 110 provides the Administrator with the authority to avail NOAA of needed resources, with the consent of those supplying the resources, to carry out responsibilities of any statute administered by NOAA.

TITLE II
DEPARTMENT OF JUSTICE
GENERAL ADMINISTRATION
SALARIES AND EXPENSES

The conference agreement provides \$118,488,000 for General Administration, Salaries and Expenses.

Post-Guantanamo activities.—The conference agreement does not include the \$60,000,000 requested for the anticipated costs of detaining, prosecuting and incarcerating individuals transferred from the detention facilities at Guantanamo Bay.

Reports to the Committees on Appropriations.—The conferees note that the Department has been delinquent in the delivery of multiple reports requested in the explanatory statement accompanying the Omnibus Appropriations Act for fiscal year 2009. These reports were requested by the Committees to provide additional information and analysis necessary for the conduct of appropriate oversight and to assist the Committees in determining funding levels for fiscal year 2010. While the presidential transition process likely played a role in these delays, the Department is still responsible for meeting congressionally-imposed deadlines.

At the suggestion of the Department, the conferees have made all reports required in this fiscal year 2010 statement due 120 days after the enactment of this Act. Because the Department has provided assurances that a 120 day deadline is both reasonable and achievable, the conferees fully expect the Department to meet the deadline for all required reports in fiscal year 2010.

Emerging telecommunications technologies.—The Attorney General (AG) is directed to report to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act on whether the Department has the resources needed to preserve law enforcement's electronic surveillance capabilities in the face of emerging communication technologies, such as third and fourth generation communications networks. If sufficient resources do not exist, the AG is directed to provide recommendations on the resources needed to ensure that Federal, as well as State and local, law enforcement agencies maintain the technological capabilities to conduct successful electronic surveillance.

Reducing crime in Indian Country.—The conferees direct the AG, in coordination with the Secretary of the Interior and State and tribal officials, to establish an interagency and tribal working group to clarify and resolve investigatory and prosecutorial jurisdiction challenges in Indian Country and to identify other challenges and needs related to tribal justice systems, including secure law enforcement information sharing systems. The working group shall develop recommendations on streamlining the Federal, State, and tribal response to criminal investigations and prosecutions, and shall submit a report containing such recommendations to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act.

The group shall also report to the House and Senate Committees on Appropriations on the declination rate of crimes committed

in Indian Country, the criteria used to determine when a Federal prosecution will be brought and how those criteria differ from practices used elsewhere in the United States and its territories. The report shall be submitted within 120 days of the enactment of this Act.

Further, the group shall develop protocols for Federal law enforcement agencies to notify the appropriate tribal officials of the rationale behind any decision to decline to initiate an investigation, or to terminate an investigation of an alleged violation of Federal law in Indian Country without referral for prosecution. This notification should describe the type of crime alleged, the status of the perpetrator and the status of the victim. These protocols should also ensure that United States Attorneys coordinate with tribal prosecutors in advance of prosecution deadlines mandated by the statute of limitations to permit tribal prosecutors to pursue cases, as appropriate, and define the responsibilities of Assistant United States Attorneys serving as Tribal Liaisons in order to better coordinate the prosecution of crimes on reservations.

Reducing regulatory backlogs.—The conferees remain concerned with the existence of significant regulatory backlogs in portions of the Department, particularly the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). While ATF and other relevant bureaus hold primary responsibility for getting their regulations drafted, reviewed and disposed of in a timely manner, the Department also plays a significant role, and lengthy delays in the Department's consideration of proposed regulations are contributing to the larger timeliness problem. The Department is directed to examine its regulatory review process (to include processes at the relevant bureaus) and to report to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act on recommended process reforms or resource investments that could shorten the total amount of time needed to draft and complete consideration of new regulations.

Combating Gangs.—The 2009 National Gang Threat Assessment produced by the Department indicates that gangs pose a serious threat to public safety in many communities throughout the United States, and are increasingly migrating from urban to suburban areas. Gang membership has increased more than 20 percent since 2005, and gangs now total more than one million members. Gangs are involved in drug trafficking, and increasingly, in alien and weapons trafficking. A rising number of U.S. gangs are intent on developing working relationships with U.S.- and foreign-based drug trafficking organizations and other criminal organizations to gain direct access to foreign sources of illicit drugs. While the primary responsibility for combating gang crime falls on local jurisdictions, the Federal government has a critical leadership, coordination, and intelligence-sharing role to play. The conferees expect the Attorney General to make anti-gang efforts a top national law enforcement priority, and dedicate the resources necessary to reduce violent gang crime. Toward this objective, the conference agreement includes an increase of \$35,000,000 above the request for anti-gang activities of the Federal Bureau of Investigation and the Bureau of Alcohol, Tobacco, Firearms and Explosives.

In order to strengthen anti-gang efforts, and in accordance with recent Government Accountability Office recommendations, the conferees also expect the Attorney General to direct DOJ entities to reexamine and reach consensus on their roles and responsibilities in anti-gang efforts; to develop a Department-wide strategic-level performance measure for anti-gang efforts; and to develop more complete and accurate reporting of gang-related case information by U.S. Attorney Offices. The Department shall report to the Committees within 120 days of the enactment of this Act on actions taken in response to these GAO recommendations, and presenting a comprehensive spending plan for the additional resources provided in this Act linked to Department-wide anti-gang strategic objectives.

Office of Professional Responsibility (OPR) inquiry.—The conferees are aware of an ongoing inquiry by OPR regarding Voting Rights Act enforcement. The conferees direct the Department to report on the findings of that inquiry, including, if applicable, any recommendations for action, at the conclusion of the inquiry.

Preventing contraband cell phone use in prisons.—The conferees include a directive under the National Telecommunications and Information Administration section of this explanatory statement requiring that agency to coordinate with the Federal Communications Commission, the Federal Bureau of Prisons (BOP) and the National Institute of Justice (NIJ) to develop a plan to investigate and evaluate how wireless jamming, detection and other technologies might be utilized for law enforcement and corrections applications in Federal and State prison facilities. The conferees expect BOP and NIJ to fully cooperate in this effort.

NATIONAL DRUG INTELLIGENCE CENTER

The conference agreement provides \$44,023,000 for the National Drug Intelligence Center.

JUSTICE INFORMATION SHARING TECHNOLOGY

The conference agreement provides \$88,285,000 for Justice Information Sharing Technology.

Litigation Case Management System (LCMS).—The conference agreement does not include funds for the continued deployment of LCMS. A reprogramming of funds for LCMS will be considered once the Department has completed all of the Inspector General's LCMS recommendations and submitted a report to the House and Senate Committees on Appropriations detailing the steps taken to contain cost and schedule overruns.

Unified Financial Management System (UFMS).—The Department is directed to submit a list of specific and detailed performance milestones for UFMS development and deployment in fiscal year 2010, including dates for planned completion. These milestones should be reported to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act, and quarterly updates should be provided on the Department's progress in meeting those milestones.

Cyber security.—The conference agreement includes \$27,439,000 to strengthen DOJ's cyber security program. The Department is urged to exercise discretion in testing cyber security

protections to ensure that all relevant players have been alerted to the timing of these tests and to minimize any potential negative impact on DOJ employees.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The conference agreement provides \$206,143,000 for Tactical Law Enforcement Wireless Communications.

Integrated Wireless Network (IWN).—The conference agreement includes an increase of \$21,143,000 for the continued development and deployment of IWN in high priority regions. Consistent with direction in the explanatory statement accompanying P.L. 111–8, all funds for IWN should be spent on the modernization and improvement of land mobile radio (LMR) systems. Secure cellular or data systems and non-LMR tactical equipment must be budgeted for and requested separately.

Performance milestone reporting.—The Department is expected to continue submitting quarterly reports on the achievement of established performance milestones for the use of IWN funds. These reports should reflect the Department’s progress toward each milestone and the extent to which those milestones are being achieved within cost, schedule and performance expectations.

Cross-agency participation.—While supporting the broadest possible use of IWN across law enforcement agencies, the conferees expect that other agencies using the network will assume the full costs of their own participation.

ADMINISTRATIVE REVIEW AND APPEALS

The conference agreement provides \$296,685,000 for Administrative Review and Appeals.

Personnel and infrastructure increases.—The conference agreement includes \$24,253,000 for personnel and infrastructure investments needed to efficiently process an increasing immigration adjudication caseload. Of this total, \$10,250,000 is for the eWorld document management system to improve the Executive Office of Immigration Review’s (EOIR) ability to store, distribute and archive its files.

Legal Orientation Program (LOP).—The conference agreement includes \$6,000,000 for the continued implementation and expansion of the LOP. EOIR is encouraged to seek alien-specific detention costs and duration of detention data from Immigration and Customs Enforcement in order to develop a more accurate estimate of the cost savings to the Federal government provided by participation in the LOP.

Within the LOP total, \$2,000,000 is provided for programs aimed at the custodians of unaccompanied alien children in order to address the custodian’s responsibility for the child’s appearance at all immigration proceedings and to protect the child from mistreatment, exploitation and trafficking.

Competency standards.—The explanatory statement accompanying P.L. 111–8 urged EOIR to work with experts and interested parties in developing standards and materials for judges to use in conducting competency evaluations of persons appearing in immigration court. EOIR is directed to report to the House and Senate Committees on Appropriations within 120 days of the enact-

ment of this Act on the status of its efforts to develop this competency bench book. The report should also address the steps DOJ has taken to provide safeguards for the rights of aliens judged to be mentally incompetent, as required by 8 U.S.C. 1229a(b)(3).

Fraud program.—EOIR is urged to set written standards and criteria for use in judging potentially fraudulent evidence and testimony provided to an immigration court.

DETENTION TRUSTEE

The conference agreement provides \$1,438,663,000 for the Office of the Federal Detention Trustee (OFDT).

Inadequacy of budget requests.—The Government Accountability Office (GAO) is directed to review OFDT's methods for projecting population levels, jail day rates and other factors that are translated into the annual budget request for detention capacity. GAO should make recommendations to the House and Senate Committees on Appropriations on steps OFDT should take to develop more accurate projections of funding requirements no later than August 31, 2010.

Population estimates.—OFDT is directed to report to the House and Senate Committees on Appropriations on a quarterly basis the number of individuals in the detention system, the projected number of individuals and the annualized costs that are associated with them.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$84,368,000 for the Office of Inspector General (OIG).

Grants management.—Within funds provided for audit and oversight of grant programs, OIG is urged to include a focus on financial management issues at the Office of Justice Programs (OJP) and OJP's ability to track the disbursement of its appropriations by activity.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$12,859,000 for the United States Parole Commission for fiscal year 2010.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement provides a total of \$875,097,000 for General Legal Activities for fiscal year 2010. The funding is provided as follows:

Solicitor General	\$10,809,000
Tax Division	105,877,000
Criminal Division	176,861,000
Civil Division	287,758,000
Environment and Natural Resources	109,785,000
Office of Legal Counsel	7,665,000
Civil Rights Division	145,449,000
INTERPOL-USNCB	30,091,000
Office of Dispute Resolution	802,000

The conference agreement provides additional resources, as requested, for the Department's litigation divisions, for which inadequate funding has been proposed in past years. This includes additional resources for the Civil Rights Division to restore its base capacity to enforce civil rights laws; expand its capacity to prosecute and provide litigation support for human trafficking and unsolved civil rights era crimes; carry out its responsibilities associated with the civil rights of institutionalized persons and the access rights of the disabled; and enhance the enforcement of fair housing and fair lending laws. The agreement also includes \$5,300,000 within the total for Human Trafficking and Slavery Prosecution investigation and prosecution, as requested.

Within the total, not less than \$1,800,000 is for the Criminal Division to maintain positions provided in the Commerce, Justice, Science and Related Agencies Appropriations Act, 2009 (Public Law 111-8) for attorneys, analysts, and support personnel for the investigation and prosecution of suspected human rights violators from foreign countries who have found safe haven in the United States.

U.S. National Central Bureau.—A September 2009 report from the Department of Justice Office of Inspector General identified a number of weaknesses in the U.S. National Central Bureau's (USNCB) processes and systems for collecting and disseminating international criminal information. The Department is directed to address the OIG's recommendations as soon as possible and to submit a report to the House and Senate Committees on Appropriations, within 120 days of enactment of this Act, regarding the status of its efforts.

VACCINE INJURY COMPENSATION TRUST FUND

The conference agreement provides \$7,833,000 for the Vaccine Injury Compensation Trust Fund for fiscal year 2010.

SALARIES AND EXPENSES, ANTITRUST DIVISION

The conference agreement provides \$163,170,000 in budget authority for the Antitrust Division for fiscal year 2010. This appropriation is offset by \$102,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$61,170,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement provides \$1,934,003,000 for the salaries and expenses of United States Attorneys (USA) for fiscal year 2010. The USAs are directed to focus their efforts on those crimes for which the unique resources, expertise, or jurisdiction of the Federal government can be most effective, and to use the resources provided by the conference agreement to address their highest priorities.

Pro-IP Act.—Within the total amount provided, the conference agreement includes an additional \$2,000,000 above the request for activities authorized under section 402 of the Prioritizing Resources and Organization for Intellectual Property Act of 2008 (Public Law 110-403).

Child exploitation investigations and prosecutions.—Within the total, the conference agreement provides not less than \$36,980,000

for continued investigations and prosecutions of offenses related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006 (Public Law 109–248).

Southwest border enforcement.—Within the funds provided, the agreement includes the requested programmatic increase of \$8,127,000 and 75 positions to strengthen prosecutions of criminal enterprises, including human, drug, and weapon smuggling, along the southwest border.

Combating financial fraud.—Within the funds provided, the agreement includes the programmatic request of \$7,500,000 and 43 positions to enhance efforts in the areas of mortgage fraud, bankruptcy, affirmative civil enforcement, and white collar crime.

Prosecution of serious crimes in Indian Country.—Within the funds provided, an additional \$6,000,000 above the request is provided for the EOUSA to increase the rate of prosecutions of serious crime in Indian Country.

Terrorist recruitment.—The U.S. Attorney for the District of Minnesota is urged to continue efforts to help the Somali-American community in Minnesota prevent the recruitment of young Somali-American men by terrorist groups to fight in the Somali civil war.

Human trafficking.—The conferees direct the Executive Office of the United States Attorneys to designate a point of contact in each USA office to serve as the coordinator for all activities within that office concerning human trafficking and slavery matters covered by the Trafficking Victims Protection Act. Designating a point of contact will improve communication and coordination within each jurisdiction, including with victim services organizations, in order to better serve the victims of human trafficking and slavery.

UNITED STATES TRUSTEE SYSTEM FUND

The conference agreement provides budget authority of \$219,250,000 for the United States Trustee System Fund in fiscal year 2010. The reduction of \$5,238,000 from the budget request is due to a carryover into fiscal year 2010 of prior year funds. The appropriation is offset by \$210,000,000 in offsetting fee collections and \$5,000,000 derived from interest on investments in U.S. securities, resulting in a direct appropriation of \$4,250,000.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The conference agreement provides \$2,117,000 for the Foreign Claims Settlement Commission in fiscal year 2010.

FEES AND EXPENSES OF WITNESSES

The conference agreement provides \$168,300,000 for Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The conference agreement provides \$11,479,000 for the Community Relations Service in fiscal year 2010. As authorized by the Emmett Till Unsolved Civil Rights Crime Act (Public Law 110–344), the conferees direct the Community Relations Service to partner with law enforcement agencies and communities to help resolve

conflicts resulting from the investigation of unsolved civil rights era cases.

ASSETS FORFEITURE FUND

The conference agreement provides \$20,990,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$1,125,763,000 for the United States Marshals Service (USMS), Salaries and Expenses.

Sex offender apprehension.—The conference agreement includes an increase of \$27,500,000 over the budget request to expand Adam Walsh Act enforcement activities in districts across the country. This funding will also help establish the National Sex Offender Targeting Center, improve the agency's information technology backbone and reinforce the agency's infrastructure so that Deputy Marshals have timely, accurate information to track down and arrest fugitive sex offenders.

Immigration enforcement.—The conference agreement includes significant new resources to address the enormous workload generated by increased enforcement activity in other agencies and bureaus. The conferees hope that this investment will at least partially alleviate the pressure on other Marshals programs, such as fugitive apprehension, now that more dedicated personnel will be available to handle the immigration-related caseload.

Fugitive Task Forces.—The conferees support the Marshals Service's Regional Fugitive Task Forces (RFTFs) and District Task Forces programs. The conferees direct the Marshals Service, within funds provided, to dedicate at least \$20,000,000 to the enhancement of existing task forces and the establishment of new task force capabilities in areas of the United States not currently served by regional or district task forces.

Staff sexual abuse.—The conferees are concerned with the findings of the Inspector General that the USMS does not have a program addressing staff sexual abuse in cellblock and transportation operations. The conferees expect the Marshals to implement the recommendations of the Inspector General expeditiously.

CONSTRUCTION

The conference agreement provides \$26,625,000 for USMS construction. Included in this total is \$12,625,000 that has been previously provided under the Salaries and Expenses heading. These funds should be applied to the highest priority renovation projects identified by the Marshals.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The conference agreement provides \$87,938,000 for the National Security Division (NSD).

National Security Reviews.—NSD is directed to give immediate notice to the House and Senate Committees on Appropriations of

any deviations from the current plan to perform 20 National Security Reviews in fiscal year 2010.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conference agreement provides \$528,569,000 for the Organized Crime and Drug Enforcement Task Forces.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The conference agreement provides \$7,658,622,000 for the Federal Bureau of Investigation (FBI), Salaries and Expenses.

Materials submitted in support of the budget.—The FBI is directed to submit all future budget requests with a listing of enhancement proposals in priority order so that the relative importance of each new initiative can be weighed. A prioritization of enhancements within each end-state capability or grouped into tiers will not be sufficient to meet this requirement.

The request also needs to include more quantifiable descriptions of the end-state capabilities. The conferees understand that the Bureau is currently working to develop more discrete and quantifiable end states. When this exercise is complete, the newly refined end state capabilities should be included in justification materials, along with a description of how each new initiative will advance the Bureau toward the achievement of an end state.

Finally, for the fiscal year 2011 process and all future requests, the FBI is directed to submit its classified addendum concurrently with its unclassified budget justification.

Hiring challenges.—In order to improve oversight of the FBI's hiring program, the FBI is directed to provide immediately to the House and Senate Committees on Appropriations a hiring plan for direct-funded positions in fiscal year 2010. This plan should show on-board start of year staffing, anticipated attrition, planned enhancement hiring, planned vacancy hiring and expected end of year vacancies. This data should be supplemented by quarterly reports showing the number of direct-funded hires and separations in that quarter, as well as a cumulative running total of each.

Hollow positions.—The FBI is directed to prioritize the filling of its 450 existing hollow positions prior to seeking additional new positions in any future budget request. In addition, the FBI is directed to notify the House and Senate Committees on Appropriations prior to taking any action that would divert salary funds away from the positions for which they were appropriated, either for temporary uses (e.g., equipment purchases) or ongoing needs (e.g., pay raise absorption).

White collar crime.—The conference agreement provides \$75,158,000, including an increase of \$25,491,000 and 50 new agents, for mortgage fraud and other economic recovery investigations.

Civil rights enforcement.—The conference agreement provides \$54,315,000, including an increase of \$8,000,000 over the base, for civil rights enforcement. The conferees expect these funds to be

used for investigations of human trafficking, hate crimes and cases pursued under the Emmett Till Unsolved Civil Rights Crimes Act.

Intellectual property enforcement.—The conference agreement includes an increase of \$8,000,000 over the base for new agents to investigate intellectual property (IP) cases as authorized under section 402 of the PRO-IP Act (Public Law 110-403). These new agents are in addition to the IP-dedicated agents funded in Public Law 111-8 and identified in the Department's 2009 spend plan. The Department is directed to provide to the House and Senate Committees on Appropriations an expenditure analysis of these congressional augmentations to ensure that these agents are solely investigating and supporting the criminal prosecution of violations of those Federal intellectual property laws cited in the statement accompanying Public Law 111-8. The report shall provide an accounting of the agents placed in specific field offices with Computer Hacking and Intellectual Property units and the types of intellectual property investigations pursued by these agents. This report shall be submitted no later than 120 days after the enactment of this Act.

Gangs and violent crime.—The conference agreement includes an increase of \$25,000,000 over the base to expand the FBI's ability to confront gangs and violent crime in U.S. communities and in Indian Country through the Safe Streets and Safe Trails task force programs. The conferees expect this increased funding to be used to expand the resources of existing task forces, and to support the creation of at least three new task forces.

FBI statistics indicate that as much as 80 percent of crime in many communities is committed by criminal gangs and nearly 58 percent of State and local law enforcement agencies report that criminal gangs are active within their jurisdiction. The conferees expect the Bureau to develop an aggressive, comprehensive and unyielding anti-gang program comparable to the successful effort against organized crime in the U.S. forty years ago. Within 120 days of the enactment of this Act, the FBI shall submit a comprehensive report to the Committees on the overall strategy, funding, personnel, and activities of the Bureau's anti-gang program, including the MS-13 National Gang Task force and the Safe Streets and Safe Trails task force programs, and the spending plans for additional resources provided in this Act.

Records management.—The conference agreement includes requested funding to continue records indexing and other preparations to make FBI's case and administrative files universally searchable and accessible, and to ensure that they are useful intelligence and investigative tools.

Overseas Contingency Operations.—The conference agreement includes \$101,066,000, as requested, for the annualization of FBI's terrorism supplemental funds.

Next Generation Identification (NGI).—The FBI's inability to finalize program requirements and a budget and schedule baseline for NGI raises the possibility of significant budget overages and schedule delays. The FBI is directed to notify the House and Senate Committees on Appropriations prior to acceptance of any Engineering Change Proposal that will change NGI's Incremental De-

velopment Plan or the Integrated Master Schedule as they existed on April 14, 2009.

With respect to program scope, the FBI is directed to report to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act on the standards the Bureau will use to assess the maturity of any biometric indicator being considered for inclusion in NGI.

National Security Reviews.—The budget justification for the National Security Division (NSD) indicates that NSD completed fewer National Security Reviews than planned in fiscal year 2008 because the FBI's Office of General Counsel (OGC) was busy with other requirements and commitments. This seems to imply a resource problem at OGC, despite the FBI having received millions of dollars in supplemental funds for the completion of these reviews. If additional resources are required beyond existing remediation dollars, the FBI is urged to identify those needs and request sufficient funds in fiscal year 2011.

Surveillance.—The conference agreement provides \$22,000,000 in addition to requested funds for new personnel to address gaps in the FBI's surveillance program. The conferees direct that no less than 75 percent of these additional funds shall be spent on Special Surveillance Groups.

Comprehensive National Cybersecurity Initiative.—Cyber-based attacks and intrusions upon U.S. computer networks, many of which may be conducted by foreign state sponsors, result in substantial loss of critical intelligence by U.S. government, academia, military, industry, financial and other domains. The conferees recognize the FBI's efforts to address these threats and have included the full request of \$140,311,000 to fund those efforts. This total includes an additional 260 positions and \$61,180,000 to further the FBI's investigatory, intelligence gathering and technological capabilities.

The Bureau shall submit to the Committees within 120 days of the enactment of this Act a report on the FBI's portion of the Comprehensive National Cybersecurity Initiative, including program strategy, resources, trends in attacks, sources of attacks, attack notification procedures, and plans for outreach to both public and private sector institutions to prevent and deter future attacks.

Workforce distribution.—Staffing disparities exist between FBI field offices that have comparable threat and workload levels and comparable populations in their area of responsibility. The conferees encourage the Bureau to consider such disparities when allocating new agents to field offices in fiscal year 2010.

National security initiatives.—The conferees support the FBI's critical national security efforts to conduct investigations to prevent, disrupt, and deter acts of terrorism, and to continue strengthening relationships with other Federal, State and local partners. In addition to providing resources for core FBI national security activities, the conference agreement also provides funds to enhance national security initiatives, including for domain and operations, surveillance, and strengthening the FBI workforce.

Criminal Justice Information Services (CJIS) Division.—The conference agreement includes \$651,000,000 for CJIS, including \$285,000,000 in appropriated funds and \$366,000,000 in user fees.

Biometrics.—The conference agreement includes language to permit the FBI to transfer up to \$30,000,000 in prior year fees from the Salaries and Expenses account to the Construction account for the Biometrics Technology Center, if determined necessary by the FBI Director. In addition, the FBI is directed to make available \$23,000,000 in prior year fee collections for information technology equipment and infrastructure that is necessary for the facility.

Human rights violations.—The FBI is directed to increase its efforts to investigate and support the criminal prosecution of serious human rights crimes committed by foreign nationals now residing in the United States. The conferees direct the use of \$1,500,000 for this purpose and to continue operations of the human rights unit at FBI headquarters.

Innocent Images.—The conference agreement provides a total of \$52,723,000 for the Innocent Images National Initiative to address the problem of child sexual exploitation and child victimization.

Innocence Lost.—The conference agreement provides \$5,000,000 over the base to hire additional agents for the Innocence Lost Initiative to address child prostitution and domestic sex trafficking in the United States.

Rescission.—Title V of this Act contains a rescission from the FBI Salaries and Expenses account. This rescission should be taken against unobligated balances available for carryover from expired annual accounts.

CONSTRUCTION

The conference agreement provides \$239,915,000 for construction. Included in this total is \$72,119,000 requested in the Salaries and Expenses account for Sensitive Compartmented Information Facilities.

Biometrics Technology Center (BTC).—The conference agreement includes \$97,600,000, as requested, for the BTC, a joint biometrics facility that will house both the FBI Biometrics Center for Excellence and the DOD Biometrics Fusion Center.

Terrorist Explosive Devices Analytical Center (TEDAC).—The conference agreement includes an additional \$30,000,000 for the continued construction of a new TEDAC facility.

FBI Academy.—The conference agreement includes \$5,000,000 to begin an architectural and engineering study to determine the full scope of renovations and/or construction necessary at the FBI Academy.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$2,019,682,000 for the Drug Enforcement Administration (DEA).

Mobile Enforcement Teams.—The conference agreement includes \$5,000,000 above the request to continue reestablishing Mobile Enforcement Teams (MET) in each domestic field office. The activities of MET should continue to include a focus on methamphetamine enforcement.

Methamphetamine strategy.—DEA is directed to report to the House and Senate Committees on Appropriations within 120 days of the enactment of this Act on the methamphetamine “smurfing” enforcement strategy it intends to pursue. The report shall describe both the actions DEA can pursue with current enforcement authorities, as well as any legislative changes that might improve DEA’s ability to identify and apprehend individuals engaged in smurfing.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The conference agreement provides \$1,114,772,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), Salaries and Expenses.

Southwest border enforcement.—The conference agreement includes an increase of \$17,989,000 in support of ATF’s Project Gunrunner. This brings the total amount available to ATF for weapons trafficking along the southwest border to \$61,016,000. In order to ensure the continued availability of \$10,000,000 previously provided for Gunrunner through the American Recovery and Reinvestment Act (ARRA), ATF is directed to annualize ARRA Gunrunner funds in its fiscal year 2011 request.

eTrace reconfiguration.—ATF may need to expand and reconfigure eTrace and related systems in order to efficiently find and package responses to trace data requests as permitted by the bill language associated with this account. If additional resources are necessary for this reconfiguration, ATF is encouraged to use the Department’s authorities under Public Law 102–140 to access up to \$8,500,000 of expired prior year funds for this purpose.

Gangs and violent crime.—Within amounts provided, the conference agreement includes an increase of \$10,000,000 for ATF’s Violent Crime Impact Team (VCIT) program for violent crime and gang enforcement. These resources should be used to expand the activities of existing VCITs and to establish new VCITs in geographic areas of highest need.

The conferees expect ATF to coordinate with the FBI and other DOJ entities to maximize effectiveness of anti-gang efforts, and to report to the Committees within 120 days of the enactment of this Act on the spending plans for the additional resources provided in this Act for such efforts.

Conversion of records.—ATF is urged to continue the digital conversion and integration of Federal firearms dealer out-of-business records at the National Tracing Center.

National Integrated Ballistic Information Network.—ATF is urged to prioritize the upgrading and replacement of aging ballistic imaging equipment in its fiscal year 2010 operating budget and in future budget requests. ATF should also ensure that upgrades and replacements maximize and protect the resources already invested by State and local law enforcement.

ATF Headquarters.—Within the amounts provided, \$1,500,000 shall be available to complete projects at ATF’s national headquarters that were not completed during construction of that facility.

CONSTRUCTION

The conference agreement provides \$6,000,000 for ATF construction. This includes the requested funds for the completion of phase two of the National Center for Explosives Research and Training.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

The conference agreement provides \$6,086,231,000 for the salaries and expenses of the Federal Prison System for fiscal year 2010, an increase of \$106,400,000 above the budget request.

Bureau of Prisons appropriations requests.—The Department's appropriations requests for the Federal Bureau of Prisons (BOP) have been woefully inadequate over the last several years to meet BOP's basic operational needs. Rather than proposing funding levels based on the marginal costs of expected growth in the inmate population, the appropriations requests for BOP appear to hew to external, arbitrary limitations. As a result, even when program enhancements are proposed, such as the hiring of new correctional officers and the activation of new prisons, BOP would be unable to implement such enhancements were Congress to provide the requested funding level. BOP cannot be expected to operate with arbitrary limitations on funding increases because BOP has relatively little control over its primary cost driver, inmate population growth. To address the gap between BOP's operating needs and its budget request, the conference agreement provides an additional \$106,400,000.

Variation from the funding directives in this statement shall be subject to the reprogramming requirements of section 505 of this Act. As part of the Department's fiscal year 2010 spending plan, BOP shall propose a distribution of funds by decision unit that incorporates such directives. If additional salaries and expenses funding is required to meet BOP's operating needs during fiscal year 2010, the Department is expected to propose supplemental appropriations or transfer funds from outside BOP to meet those needs.

The Department and BOP are expected to review carefully the Government Accountability Office (GAO) recommendations related to BOP's budget formulation methodology and to implement recommendations designed to better ensure that future budget requests are coherently tied to BOP's operational needs. The conferees expect the budget requests for fiscal year 2011 and future years to identify clearly the marginal costs of projected inmate population increases, in both BOP and private facilities, and to include those costs as adjustments to BOP's base budget. More generally, the Department and BOP are expected to present future budget requests for BOP in a way that accurately differentiates all non-discretionary cost adjustments to BOP's base budget requirements from program and staffing enhancements. BOP's fiscal year 2011 budget request should also provide detailed descriptions of the major categories of activities comprising each decision unit and the proposed funding levels for each such category, including comparisons to prior year obligations for each category.

Correctional worker staffing.—The current correctional workforce is spread dangerously thin, compromising BOP's ability to operate the Federal Prison System in a safe and efficient manner and undermining efforts to facilitate the successful reentry of inmates back into their communities. While BOP used additional resources provided by Congress above the budget request in fiscal year 2009 to hire more than 700 additional correctional workers, substantial additional progress must be made to ensure that BOP facilities can operate safely and effectively. Therefore, not less than \$98,200,000 of the total salaries and expenses appropriation shall be used only for additional correctional worker staffing in fiscal year 2010 and for annualizing the cost of correctional workers hired during fiscal year 2009. The conferees expect the fiscal year 2011 budget submission to propose fully annualizing the cost of staff hired in fiscal year 2010 and to propose additional funding that would enable BOP to make significant further progress in increasing its on-board correctional worker staffing rate in fiscal year 2011.

To ensure that BOP's correctional worker staffing needs are clearly defined, the conferees direct BOP to identify, as part of the budget requests for fiscal year 2011 and future years, the proposed number of authorized positions for each BOP facility in each correctional worker staffing category, along with the on-board staffing goals for the coming fiscal year for each facility in each such category, defined as percentages of authorized positions.

New prison activation.—Of the total amount provided, not less than \$36,000,000 shall be used for the activation of FCI McDowell and not less than \$22,000,000 shall be used for the activation of FCI Mendota. Although the budget request proposed the full activation of these facilities in fiscal year 2010, BOP has stated that various delays will prevent their full activation as scheduled. The amounts provided by the conference agreement for these activations are based on BOP's most current estimates of the maximum amount it could obligate in fiscal year 2010. The conferees direct BOP to provide to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, an updated construction and activation schedule for new BOP facilities, and to notify formally the House and Senate Committees on Appropriations of any deviations from this schedule, including detailed explanations of the causes of delays and actions proposed to address them.

Federal Prison System population.—The conferees urge the Department and BOP to consider evidence-based policy changes that BOP could make under its current statutory authorities that would help it responsibly manage its offender population while reducing recidivism, improving public safety, and reducing future costs to the American taxpayer. In addition, the conferees direct the National Institute of Corrections to estimate the effects of potential reforms on the Federal prison population, and to provide a report to the House and Senate Committees on Appropriations describing those estimated effects by September 30, 2010.

Inmate reentry and Second Chance Act implementation.—The conference agreement includes \$13,778,000 for BOP's Inmate Skills Development initiative and other Second Chance Act activities, as proposed by the Department. Because BOP has indicated that approximately \$75,000,000 is required to implement fully its Second

Chance Act responsibilities, the conferees expect the Department to propose significant additional funding for this purpose in the fiscal year 2011 budget request, including significant additional funding for the enhanced use of Residential Reentry Centers (RRC) as part of a comprehensive prisoner reentry strategy. The conferees also urge BOP to make appropriate use of home confinement when considering how to provide reentering offenders with up to 12 months in community corrections. In addition, the conferees direct BOP to report quarterly on the average length of stay in community corrections, differentiated by average lengths of stay in RRCs and home confinement.

Within the amount provided for salaries and expenses, the conference agreement provides sufficient resources to allow BOP to meet the drug abuse treatment needs of all eligible inmates, as required by law. The conferees direct BOP to notify immediately the House and Senate Committees on Appropriations if any unforeseen factors are expected to prevent BOP from meeting this requirement. The conferees expect BOP to make significant progress in filling all authorized staff positions for drug abuse treatment programs and education programs. To the greatest extent possible, BOP shall prioritize the participation of nonviolent offenders in the Residential Drug Abuse Treatment Program (RDAP) in a way that maximizes the benefit of sentence reduction opportunities for reducing the inmate population.

In addition, as part of RDAP, the conferees encourage BOP to conduct a pilot initiative on the use of anti-craving medications as a component of drug abuse treatment. Such an initiative should continue the use of anti-craving medications through an offender's period of confinement in community corrections and period of supervised release. The conferees expect BOP to collaborate on any such initiative with the National Institute of Drug Abuse, which is currently supporting a research study on the effectiveness of anti-craving medication on probationers and parolees.

As part of its portion of the Department's fiscal year 2010 spending plan, BOP shall delineate the funding to be provided for each of its programs and activities related to inmate reentry and Second Chance Act implementation, including inmate drug abuse treatment programs, inmate education and vocational training programs, and all other programs and activities designed to facilitate offender reentry. As part of the fiscal year 2011 budget submission, the conferees direct the Department and BOP to include a detailed description of the coordinated prisoner reentry strategy required by the Second Chance Act, along with the estimated costs of full implementation of that strategy in fiscal year 2011.

In addition, to ensure that BOP is benefiting from outside expertise and viewpoints, the conferees direct BOP to convene an independent panel to make recommendations for future options for the development of prisoner reentry programs, including options related to the role of faith-based and community programs. The report of this panel shall be submitted to the House and Senate Committees on Appropriations within 120 days of enactment of this Act.

The conferees direct GAO to evaluate BOP's strategic approach to budgeting for its inmate reentry programs and activities, includ-

ing community corrections and programs and activities related to BOP's Second Chance Act responsibilities. GAO shall provide recommendations to the House and Senate Committees on Appropriations by June 30, 2010, on how BOP should adapt its budgeting processes to carry out more effectively an inmate reentry strategy and fully implement the provisions of the Second Chance Act that apply to BOP.

Counterterrorism activities.—Within the amount provided, not less than \$14,200,000 is for the full estimated cost of BOP's counterterrorism activities, including the monitoring and translation of the communications of incarcerated terrorists and the dissemination of information, as appropriate, to law enforcement agencies. These activities have been partially funded through supplemental appropriations in previous fiscal years.

Sexual misconduct.—Using funds provided in prior fiscal years, the National Institute of Corrections has made useful progress in helping State and local correctional systems throughout the country reduce staff sexual misconduct with inmates. By providing training in investigating cases and training the "trainers," NIC is helping to ensure that employees at every level will be more aware of, and better prepared to deal with, these cases.

At the Federal level, a September 2009 report by the Department's Office of the Inspector General (OIG) found that BOP has not established appropriate goals and oversight mechanisms for its programs to prevent and respond to sexual abuse of inmates by staff. In addition, the OIG report found that BOP's staff training programs need to be updated, that some inmate victims have not been referred for psychological and medical assessments, and that officials at some BOP facilities have implemented policies to safeguard prisoners, such as segregation and transfer, which may serve as a disincentive for some prisoners to report abuse. The OIG report makes several recommendations designed to address these and other issues, upon which the conferees urge BOP to act as soon as possible.

Administrative Maximum United States Penitentiary.—The conferees direct BOP to ensure that the Administrative Maximum United States Penitentiary, also known as "Supermax," has adequate funding to retain staff levels necessary to provide strict oversight of prisoner activities and communications; ensure the safety of prison staff; and make needed upgrades to its security infrastructure.

Reimbursement for U.S. Immigration and Customs Enforcement detainees.—The conferees direct the Attorney General to work cooperatively with the Secretary of the Department of Homeland Security to transfer expeditiously ICE detainees who are currently housed in the Federal Prison System, or to obtain prompt and fair reimbursement from U.S. Immigration and Customs Enforcement for the costs of incarcerating them.

National Institute of Corrections.—To address deficiencies identified by the U.S. Census Bureau in the reporting of inmate address information, the conferees encourage the National Institute of Corrections to work with State corrections agencies to develop better procedures and systems for collecting and maintaining corrections records.

Stun lethal fences.—BOP correctional officers have expressed concerns about the use of “stun lethal” fences at BOP facilities in lieu of correctional officers in perimeter towers. The conferees direct BOP to submit a report to the House and Senate Committees on Appropriations, within 120 days of enactment of this Act, on the reliability and effectiveness of these fences.

Incarceration of low security criminal alien offenders.—The conferees direct BOP to submit a report, within 120 days of enactment of this Act, on its long term strategy for minimizing the cost of incarcerating low security criminal alien offenders, including an assessment of the potential for closed military facilities, closed State prisons, or other existing facilities to be converted to low security prisons operated by BOP.

BUILDINGS AND FACILITIES

The conference agreement provides \$99,155,000 for fiscal year 2010 for the construction, modernization, maintenance, and repair of prison and detention facilities housing Federal inmates.

Modernization and repair.—Of the total amount provided for Buildings and Facilities, not less than \$73,769,000 is for modernization and repair (M&R) activities. The conferees direct BOP to provide a report to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, itemizing all pending M&R projects for Federal prison facilities, specifying when each project was first identified and estimating the cost associated with each project. The conferees also direct BOP to provide an updated M&R backlog list as part of its fiscal year 2011 budget request. In addition, the conferees expect the Department to propose sufficient funding in the fiscal year 2011 budget proposal to begin to address seriously BOP’s M&R backlog.

Construction.—The Department is expected to ensure that the fiscal year 2011 budget proposal for BOP contains sufficient resources for BOP to, at a minimum, stay on track with its current plan to construct and activate new prisons.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The conference agreement provides a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated.

The Department is urged to explore new program models, and to seek new funding and authorities, as necessary, to create additional inmate work and training programs that prepare inmates for successful reentry into the community. The Department shall submit to the House and Senate Committees on Appropriations, within 120 days of enactment of this Act, a plan describing such options for increasing inmate work opportunities.

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

In total, the conference agreement provides \$3,706,959,000 for State and local law enforcement and crime prevention grant programs for fiscal year 2010, an increase of \$479,859,000 above the fiscal year 2009 funding level. The conferees direct the Department

to work closely with recipients of congressionally-designated funding to ensure that funded projects are consistent with authorized criminal justice purposes and goals, and to provide appropriate management and oversight of each grant. No administrative overhead costs shall be deducted from funding for congressionally-designated projects. In addition, no grant funding shall be used for luxury items, real estate, or construction projects.

Total	418,500,000

Note.—The conference agreement does not provide funding through OVW for programs requested in the President's budget that were funded through this account in fiscal year 2009 but are administered by the Office of Justice Programs (OJP). For fiscal year 2010, funding for each of these OJP-administered programs is appropriated directly to OJP at the fiscal year 2009 level. For programs administered by OVW, the total is an increase of \$29,500,000 above the fiscal year 2009 funding level.

Several programs requested in the budget that received funding through this appropriation in fiscal year 2009 are funded under the conference agreement through the Office of Justice Programs (OJP) because they are administered by OJP. These include: the CASA Special Advocates program; the Training for Judicial Personnel program; the Stalking Database program; the Research on Violence Against Women program; and Training Programs to Assist Probation and Parole Officers. The conference agreement provides funding through OJP for each of these programs at the fiscal year 2009 level. For grants and programs administered directly by OVW, the conference agreement provides \$29,500,000 more than the budget request and the fiscal year 2009 level.

Violence Against Women Act programs.—Domestic violence, sexual assault, dating violence and stalking are crimes of epidemic proportions that impact millions of individuals and every commu-

nity in the United States. For 15 years, Violence Against Women Act (VAWA) programs have supported community efforts around the Nation to respond effectively to domestic violence, sexual assault, stalking, and dating violence. In the 109th Congress, Congress unanimously passed a VAWA reauthorization to continue successful programs and create targeted new programs to address gaps in prevention services and better meet the needs of youth, native women, communities of color, and victims of sexual violence. In light of the frequent connection between violence against women and a variety of social ills, such as homelessness and substance abuse, the VAWA reauthorization also sought to address housing, healthcare, criminal justice, employment and other social needs of victims. Because violence against women is often associated with other types of crime, such as gang violence, child abuse, and trafficking, the Department and OVW are encouraged to work together to address the intersection of these crimes.

Addressing violence against Native women.—While it is estimated that American Indian women are victimized at more than double the rate of any other population of women in the United States, not a single comprehensive study of rates of violence against this group has been conducted. In addition, the lack of a tribal protection order and sex offender registry prevents tribes from accessing information that could prevent future violence. Through OVW and the Office of Justice Programs, the conference agreement includes funding to document the extent and nature of violence against Native women and to establish a tribal registry to enhance enforcement of tribal protection orders and the monitoring of sex offenders.

Safe start.—Funding requested through OVW for the Safe Start program is not provided through OVW because Safe Start is administered by the Office of Juvenile Justice and Delinquency Prevention, within the Office of Justice Programs. The conference agreement instead recommends funding for Safe Start through the Juvenile Justice appropriation.

Jessica Gonzales victim assistance program.—Support for victim assistants who act as liaisons between local law enforcement agencies and victims of domestic and dating violence, sexual assault, and stalking remains an eligible purpose under the STOP Violence Against Women formula grant program.

Training, technical assistance, research and statistics.—As part of the Department's spending plan for fiscal year 2010, OVW shall provide details on its planned training and technical assistance (T&TA) activities and research and statistics activities. The spending plan shall differentiate those activities performed via grant, cooperative agreement, interagency agreement, under contract, and performed directly by OVW. As part of the fiscal year 2011 budget submission, the conferees direct OVW to provide similar details on its planned T&TA activities and research and statistics activities for fiscal year 2011.

Management and administration.—The conference agreement maintains the salaries and expenses account structure established in the fiscal year 2009 Act to fund the management and administrative costs of OVW and other Justice Department grant pro-

grams. No administrative overhead costs shall be deducted from the programs funded from this account.

OFFICE OF JUSTICE PROGRAMS

Training, technical assistance, research and statistics.—The Office of Justice Programs (OJP), as part of the Department’s spending plan for fiscal year 2010, shall provide details of its planned training and technical assistance (T&TA) activities and research and statistics activities. The spending plan shall differentiate those activities performed via grant, cooperative agreement, interagency agreement, under contract, and performed directly by OJP. In addition, the conferees direct OJP, as part of the Department’s fiscal year 2011 budget submission, to provide details of its planned T&TA activities and research and statistics activities for fiscal year 2011.

Evidence-based programs.—To the greatest extent practicable, OJP shall ensure that competitive grants are used for evidence-based programs and activities.

Services for victims of rape.—An estimated one in six women in the United States will experience a sexual assault in her lifetime, and the Federal Bureau of Investigation ranks rape as the second most violent crime, second only to murder. The Department of Justice is encouraged to continue supporting programs, including hotline programs, which facilitate the delivery of confidential recovery services to rape victims.

JUSTICE ASSISTANCE

The conference agreement provides \$235,000,000 for Justice Assistance programs for fiscal year 2010, as follows:

<i>Program</i>	<i>Conference</i>
National Institute of Justice	\$48,000,000
Bureau of Justice Statistics	60,000,000
State Automated Victim Notification System	12,000,000
Regional Information Sharing System (RISS)	45,000,000
Missing and Exploited Children	70,000,000
Total	235,000,000

Regional information sharing.—Within the amount provided for RISS, funds shall be available to support existing local-to-local law enforcement data and information sharing efforts focused on solving routine crimes, especially in rural areas, by sharing law enforcement information not categorized as criminal intelligence. Funded projects will conform with national standards, priorities, and goals articulated by the Bureau of Justice Assistance.

Missing and exploited children.—The conference agreement does not prescribe a distribution of funds for missing and exploited children programs, except that \$30,000,000 shall be available for the Internet Crimes Against Children Task Force program. BJA shall provide a plan for the use of the remainder of the funds to the House and Senate Committees on Appropriations as part of the Department’s fiscal year 2010 spending plan.

National Institute of Justice.—Within the amount provided for the National Institute of Justice (NIJ), \$5,000,000 is for forensics and DNA, including \$1,000,000 to support the continued develop-

ment of standards and standard reference materials at the National Institute of Standards and Technology (NIST) Office of Law Enforcement Standards to maintain quality and proficiency within Federal, State, and local crime laboratory facilities. NIJ shall provide to the House and Senate Committees on Appropriations a plan for the use of the remainder of NIJ's appropriation as part of the Department's fiscal year 2010 spending plan.

Hate crimes.—The conferees direct BJA to assess the feasibility and associated costs of establishing a national helpline for victims of hate crimes. In addition, the conferees direct NIJ to evaluate trends in hate crimes against new immigrants, individuals who are perceived to be immigrants, and Hispanic-Americans, and to assess the underlying causes behind any increase in hate crimes against such groups.

Collaboration among State corrections, alcohol and drug abuse, and mental health program directors.—The conferees encourage BJA to continue working with the Substance Abuse and Mental Health Services Administration to foster collaboration among the Association of State Corrections Administrators, the National Association of State Alcohol and Drug Abuse Directors, and the National Association of State Mental Health Program Directors.

National missing and unidentified persons system.—The conferees encourage NIJ to continue to support its on-line database containing information about unidentified decedents and missing persons. In addition, as allowable by law and as appropriate, NIJ is encouraged to explore the sharing of data between NIJ's database and other relevant databases, including that of the FBI's National Crime Information Center (NCIC), to better facilitate the identification of unidentified decedents and missing persons.

Edward Byrne memorial justice assistance grant program.—

The conference agreement provides \$519,000,000 for activities under the Edward Byrne Memorial Justice Assistance Grant (JAG) program. When excluding one-time fiscal year 2009 costs for reimbursement to State and local governments for security and other expenses related to the presidential transition and inauguration, the funding level for this account is equal to the fiscal year 2009 level and the request. Within the amount provided, \$3,000,000 is for intelligence training for State and local law enforcement entities and \$5,000,000 is for the National Institute of Justice to help local units of government identify, select, develop, modernize, and purchase new technologies for use by law enforcement. Except for the activities noted above, the conference agreement does not provide funding under this heading for activities proposed under this heading in the House or Senate Committee reports.

Crime reporting transition rule.—The September 30, 2008, expiration of the crime reporting “transition rule” established by 42 U.S.C. 3755(d)(2)(B) resulted in approximately 1,000 communities falling out of eligibility for Byrne-JAG direct local awards. A number of these communities have high crime rates and many were reportedly unaware that, effective October 1, 2008, compliance with State crime reporting requirements no longer ensured compliance with Byrne-JAG reporting requirements. The conferees encourage these communities to come into compliance with current Byrne-JAG reporting requirements and direct the Department of Justice to collect, process, and validate reporting information as expeditiously as possible in order to ensure the future eligibility of these communities.

Byrne discretionary grants.—The conference agreement provides \$185,268,000 for Byrne discretionary grants to prevent crime, improve the criminal justice system, provide victims’ services, and other related activities. The following table details funding for congressionally designated projects, which the bill incorporates by reference:

Byrne competitive grants.—The conference agreement includes \$40,000,000 for competitive, peer-reviewed grants to programs of national significance to prevent crime, improve the administration of justice or assist victims of crime. The conferees do not concur with recommendations in the Senate Committee report for allocating these funds for particular programs, projects or activities. OJP shall submit a plan, within 120 days of enactment of this Act, detailing the criteria and methodology that will be used to award grants. The conferees expect national programs that have previously received funding under the Byrne discretionary program or the Juvenile Justice Part E program, and programs for which specific funding is designated in this Act, to be eligible to compete for funding under this competitive grant program.

State criminal justice reform and recidivism reduction.—The conference agreement provides \$10,000,000 for technical assistance, incentive grants, and other activities in support of comprehensive, evidence-based criminal justice reform and recidivism reduction efforts by States.

John R. Justice grants.—The conference agreement provides \$10,000,000 pursuant to section 952 of Public Law 110–315, which authorizes student loan repayment assistance for State and local prosecutors and public defenders, as well as Federal public defenders, to complement existing student loan repayment options for Federal prosecutors. The John R. Justice Prosecutors and Defenders Incentive program addresses the serious problems prosecutor and public defender offices across the country face in recruiting and retaining qualified attorneys.

Tribal assistance.—The conferees encourage OJP to assist tribes in building their capacity to plan and develop effective criminal justice programs and initiatives, and to prioritize assistance to tribes with the greatest needs. The conferees also encourage OJP to expand its efforts to provide voluntary training for tribal court officials and judges to promote improvements in tribal judicial systems. In addition, the conferees direct OJP to coordinate with the Bureau of Indian Affairs in the Department of the Interior in developing a priority list for detention facility construction, targeting tribal areas with the greatest need, and to incorporate that priority system into the ranking criteria for detention facility grants.

Victims of trafficking.—The conference agreement includes \$12,500,000 for services for U.S. citizens, permanent residents, and foreign nationals who are victims of human trafficking, and for task force activities. OJP shall provide a plan for the use of these funds to the House and Senate Committees on Appropriations as part of the Department's fiscal year 2010 spending plan.

Drug courts.—To facilitate the use of State clinical treatment standards, discourage system fragmentation, promote sustainability, and encourage the use of common client level performance and outcomes data, the conferees strongly encourage collaboration between drug courts and State agencies that oversee substance abuse prevention and treatment services.

Justice for all, capital litigation review/wrongful conviction review.—Of the amount provided, \$2,500,000 is made available for capital litigation grants to improve the quality of representation and the reliability of verdicts in local and State capital cases

through training for prosecutors, defense counsel and trial judges. Also within the amount provided, \$3,000,000 is for competitive grants to public and non-profit entities that work to exonerate individuals who have been wrongfully convicted.

Economic, high-tech and cybercrime prevention.—As part of the Department's fiscal year 2010 spending plan, OJP is directed to provide to the House and Senate Committees on Appropriations a plan for the use of the funds provided for economic, high tech, and cybercrime prevention grants.

Second Chance Act.—The conference agreement provides \$100,000,000 for activities authorized under the Second Chance Act of 2007 (Public Law 110–199) to reduce criminal recidivism, which is \$75,000,000 above the fiscal year 2009 enacted level and equal to the request. Of the total, \$37,000,000 is for Adult and Juvenile Offender Reentry Demonstration Grants; \$10,000,000 is for State, tribal and local reentry courts; \$7,500,000 is for family-based substance abuse treatment, including family-based programs for the incarcerated parents of minor children; \$2,500,000 is to evaluate and improve education at prisons, jails, and juvenile facilities; \$5,000,000 is for technology careers training demonstration grants; \$13,000,000 is for offender reentry substance abuse and criminal justice collaboration; \$15,000,000 is for grants for mentoring and transitional services, as authorized by Section 211 of Public Law 110–199; and \$10,000,000 is for prisoner reentry research. The conference agreement authorizes the Attorney General to waive the matching requirements for Adult and Juvenile Reentry Demonstration Projects grants awarded in fiscal year 2010 based on determinations of fiscal hardship.

National technical assistance and training.—The conferees encourage the Department to support efforts to assist States in the development and use of criminal justice information systems that accelerate the automation of identification processes for fingerprints and other criminal justice data, and which improve the compatibility of State and local law enforcement systems with the FBI's Integrated Automated Fingerprint Identification System.

Solving cold cases with DNA.—The conferees recognize the need of State and local governments for resources to identify, review, investigate and prosecute violent crime cold cases that may be solved using DNA analysis and to locate and analyze biological evidence associated with these cases. Advances in DNA technology and the success of DNA database systems have substantially increased the successful analysis of aged, degraded, limited or otherwise compromised biological evidence. As a result, crime scene samples once thought to be unsuitable for testing may now yield DNA profiles. Additionally, samples that previously generated inconclusive DNA results may now be successfully analyzed using newer methods. The conferees expect both the Office of Justice Programs and the National Institute of Justice to continue supporting State and local law enforcement efforts to investigate and prosecute violent crime cold cases, including those from the civil rights era to support the goals of the Emmett Till Unsolved Civil Rights Crime Act of 2007 (Public Law 110–344).

National Motor Vehicle Title Information System (NMVTIS).—The conferees affirm House report language on the National Motor

Vehicle Title Information System, and understand that the Department recently provided fiscal year 2009 funds for NMVTIS to make system enhancements and assist participation by States. The conferees encourage OJP to continue to work with the system operator in fiscal year 2010.

Legal advocacy for crime victims.—The conferees note that a multiyear, national demonstration project, funded through the Office for Victims of Crime (OVC), to improve the capacity of attorneys to represent victims in the enforcement of their rights ended in 2009, and that a preliminary evaluation concluded that the project’s clinics “are on the road to fulfilling the intentions of their architects and funders.” The conferees strongly encourage OVC to continue to support efforts to provide legal counsel and support services for crime victims, and expand awareness and recognition of victims’ rights.

WEED AND SEED PROGRAM FUND

The conference agreement provides \$20,000,000 for the Weed and Seed Program for fiscal year 2010.

Youth mentoring grants.—To support the critical work of national, regional and local organizations in nurturing and mentoring at-risk children and youth, the conference agreement provides \$100,000,000 for competitive, peer-reviewed youth mentoring grants. Within 60 days of enactment of this Act, OJP is directed to provide a report and spending plan to the House and Senate Committees on Appropriations detailing the criteria and methodology that will be used to award these grants. The conferees expect that OJJDP will take all steps necessary to ensure fairness and objectivity in the award of these and future competitive grants. It is expected that national programs that have received funding under the Byrne discretionary grants program or the Juvenile Justice Part E program will be eligible for funding under this competitive grant program, including programs for which specific amounts are designated in this Act.

Safe Start.—The conference agreement provides \$5,000,000 for the Safe Start Initiative, which helps prevent and reduce the impact of children's exposure to violence in both the home and the community, as a distinct Juvenile Justice appropriation. The Senate Committee report had proposed funding for this program under the Part B State formula appropriation, while the Department had proposed funding for this program through the Office on Violence Against Women.

Victims of Child Abuse Act.—Within the \$22,500,000 provided for Victims of Child Abuse Act programs, the conference agreement designates \$5,000,000 for regional children's advocacy centers programs.

Mental health services for youth in foster care.—When developing and implementing programs related to children in foster care or who have been adopted from foster care, OJJDP is encouraged to work with the Administration for Children and Families at the Department of Health and Human Services and non-profit organizations with expertise on the mental health needs of such children.

Child exploitation prevention and interdiction.—The Attorney General is urged to designate a senior departmental official to coordinate the development of a national strategy for child exploitation prevention and interdiction, as directed by the Protect Our Children Act (Public Law 110-401).

PUBLIC SAFETY OFFICER BENEFITS

The conference agreement provides \$70,100,000 for Public Safety Officer Benefits programs for fiscal year 2010. Within funds provided, \$61,000,000 is for death benefits for survivors, an amount estimated by the Congressional Budget Office that is considered mandatory for scorekeeping purposes. In addition, \$9,100,000 is provided, as requested, for disability benefits for public safety officers who are permanently and totally disabled as a result of a catastrophic injury, and for education benefits for the spouses and children of officers who are killed in the line of duty or who are permanently and totally disabled as a result of a catastrophic injury sustained in the line of duty.

COMMUNITY ORIENTED POLICING SERVICES
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$791,608,000 for Community Oriented Policing Services (COPS) programs for fiscal year 2010, as follows:

Law enforcement technologies and interoperable communications.—The conference agreement provides \$170,223,000 for grants for State, local, and tribal law enforcement to develop and acquire effective technologies and interoperable communications that assist in the prevention of and response to crime. COPS is directed to ensure that all equipment funded under this program meets applicable requirements of the National Institute of Standards and Technology (NIST) Office of Law Enforcement Standards (OLES).

Within the funds provided, \$1,500,000 shall be transferred to NIST to continue the efforts of OLES in developing a comprehensive suite of minimum standards for law enforcement communications, including the development of conformance and interoperability test standards for the Project 25 Inter-RF-Subsystem Interface (ISSI), Console Interface, and Fixed Station Interface for land mobile radio systems. These funds should also be used to begin the development of standards for emerging technologies such as VoIP applications for public safety operations. In addition, these funds should be used to support the development and implementation of a compliance assessment program to ensure that communications equipment purchased with Federal funds is compliant with existing, applicable standards.

Methamphetamine enforcement and clean-up.—The conference agreement provides \$40,385,000 for activities to address public safety and methamphetamine manufacturing, sale, and use in “hot spots.” Within the funds provided, \$10,000,000 is for transfer to the Drug Enforcement Administration to assist State, local and tribal law enforcement agencies with the proper removal and disposal of hazardous materials at clandestine methamphetamine labs, including funds for training, technical assistance, a container program, and purchase of equipment. Also within the total is \$5,000,000 for tribal methamphetamine enforcement activities. COPS shall consult with tribal governments on the distribution of these funds to ensure that they are targeted to areas with the greatest need.

The accompanying table details funding for congressionally-designated activities related to methamphetamine enforcement, which the bill incorporates by reference:

DNA analysis grants.—The conference agreement provides \$161,000,000 for grants to strengthen State and local government DNA collection and analysis systems, which can be vital to successfully prosecuting the guilty and protecting the innocent from wrongful conviction. Within the funds provided, \$151,000,000 is for Debbie Smith DNA backlog reduction grants; \$5,000,000 is for post-conviction DNA testing grants; and \$5,000,000 is for Sexual Assault Nurse Examiner programs.

Bulletproof vests.—Within the amount provided for bulletproof vests, \$1,500,000 is for the National Institute of Standards and Technology's Office of Law Enforcement Standards to continue supporting the ballistic and stab-resistant material compliance testing programs.

Child sexual predator elimination / sex offender management.—Of the amount provided for assistance to State, tribal, and local law enforcement to locate, arrest, and prosecute child sexual predators and exploiters, and to enforce sex offender registration laws, \$1,000,000 is for the National Sex Offender Public Website and \$11,000,000 is for the Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking for sex offender management assistance activities. The conferees expect the Department to target assistance to tribal and other law enforcement entities with the greatest needs.

Child sexual predator elimination grants help State and local law enforcement entities target sexual predators who prey upon children, including convicted sex-offenders who fail to register. Grants to support these efforts should be awarded in a manner that is geographically balanced, facilitates testing the model in various settings, and includes major urban police departments, State and tribal law enforcement agencies, smaller jurisdictions, and regional groupings of agencies. COPS is encouraged to continue coordinating with the National Center for Missing and Exploited Children to assist grant recipients in detecting, apprehending, and prosecuting sex offenders who victimize children.

The conferees support the establishment of coordinated sexual predator elimination efforts in communities across the country, and recommend the appointment of an Assistant U.S. Attorney and a deputy U.S. Marshal in each judicial district to help coordinate the development of a comprehensive, district-wide child sexual predator investigation and prosecution strategy, in consultation with social services providers and partners from Federal, State and local law enforcement agencies.

Community policing development.—The conference agreement provides \$12,000,000 for community policing development activities, including training and technical assistance and the Police Integrity Initiative.

Training, technical assistance, research and statistics.—As part of the Department's spending plan for fiscal year 2010, COPS is directed to provide details on its planned training and technical assistance (T&TA) activities and research and statistics activities. The spending plan shall differentiate those activities performed via grant, cooperative agreement, interagency agreement, under contract, and performed directly by COPS. As part of the fiscal year 2011 budget submission, COPS is directed to provide similar de-

tails on its planned T&TA activities and research and statistics activities for fiscal year 2011.

SALARIES AND EXPENSES

To achieve greater transparency, efficiency, and accountability in the management, administration and oversight of grant programs administered by the Department of Justice, Congress established a new salaries and expenses account for fiscal year 2009 within State and Local Law Enforcement Activities to fund the management and administration costs of the Department's grant programs. A total of \$213,388,000 is provided for salaries and expenses for Department of Justice grant programs for fiscal year 2010, including \$139,218,000 for the Office of Justice Programs (OJP); \$37,462,000 for the Office of Community Oriented Policing Services (COPS); and \$15,708,000 for the Office on Violence Against Women (OVW).

The conferees expect all activities related to the management and administration of grant programs, grants, and cooperative agreements—including activities related to peer review—to be supported with salaries and expenses funding. Training and technical assistance (T&TA) activities and research and statistics activities performed by OJP, OVW, and COPS, or through interagency agreements or under contract for OJP, OVW, and COPS, may be supported with program funds, subject to the submission of details related to these costs in the Department's fiscal year 2010 spending plan.

Within the funds provided, \$21,000,000 shall be made available to the Office of Audit, Assessment, and Management (OAAM). The conferees expect OAAM to continue to develop its capacity to evaluate, in coordination with the National Institute of Justice, the effectiveness of programs and projects funded by OJP, OVW, and COPS, using rigorous research and evaluation methods that generate valid evidence on the effectiveness of crime prevention strategies.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

The conference agreement includes the following general provisions for the Department of Justice in this Act:

Section 201 makes available additional reception and representation funding for the Attorney General from the amounts provided in this title.

Section 202 prohibits the use of funds to pay for an abortion, except in the case of rape or to preserve the life of the mother.

Section 203 prohibits the use of funds to require any person to perform or facilitate the performance of an abortion.

Section 204 establishes the obligation of the Director of the Bureau of Prisons to provide escort services to inmates receiving an abortion outside of a Federal facility, except where this obligation conflicts with the preceding section.

Section 205 establishes requirements and procedures for transfer proposals.

Section 206 authorizes the Attorney General to extend an ongoing personnel management demonstration project.

Section 207 extends specified authorities to the Bureau of Alcohol, Tobacco, Firearms and Explosives for undercover operations.

Section 208 prohibits the use of funds for transporting prisoners classified as maximum or high security, other than to a facility certified by the Bureau of Prisons as appropriately secure.

Section 209 prohibits the use of funds for the purchase or rental by Federal prisons of audiovisual equipment, services and materials used primarily for recreational purposes, except for those items and services needed for inmate training, religious, or educational purposes.

Section 210 requires review by the Deputy Attorney General and the Department Investment Review Board prior to the obligation or expenditure of funds for major information technology projects.

Section 211 requires the Department to follow reprogramming procedures prior to any deviation from the program amounts specified in this title or the reuse of de-obligated funds provided in previous years.

Section 212 prohibits the use of funds for A-76 competitions for work performed by employees of the Bureau of Prisons or Federal Prison Industries, Inc.

Section 213 prohibits the use of funds to pay the salary, benefits or expenses of a U.S. Attorney performing dual duties that exempt that U.S. Attorney from established residency requirements.

Section 214 prohibits the use of funds for future phases of the Sentinel program until the AG certifies that work on existing phases has been substantially completed under a validated performance baseline.

Section 215 permits the use of up to one percent of formula grant funds made available to the Office of Justice Programs for research or statistical purposes, and permits the use of up to three percent of funds made available to that office for training and technical assistance.

Section 216 gives the Attorney General authority to waive matching requirements for Second Chance Act adult and juvenile reentry demonstration projects based on a demonstration of fiscal hardship.

Section 217 makes permanent retention and relocation bonus authorities previously provided to the Federal Bureau of Investigation.

Section 218 requires the Attorney General to submit quarterly reports to the Inspector General regarding the costs and contracting procedures related to conferences for which the cost to the Federal government is more than \$20,000.

Section 219 extends foreign language proficiency pay authorities to the Federal Bureau of Investigation.

Section 220 provides the Attorney General authority to waive certain reporting requirements for localities applying for Byrne Justice Assistance grants in fiscal year 2010 upon demonstrating that they had met previous reporting requirements and agree to begin to report timely data on part I violent crimes of the Uniform Crime Reports to the Federal Bureau of Investigation by the end of fiscal year 2010.

TITLE III

SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement provides \$7,000,000 for the Office of Science and Technology Policy (OSTP), of which not to exceed \$2,500 may be for official reception and representation expenses and rental of conference rooms. The conferees agree with the direction of the House that OSTP, working with NOAA, NASA, NSF, USGS, the Department of Energy, and other federal agencies shall develop a plan for achieving and sustaining Earth observations.

OSTP exists to bring to the President timely recommendations for decisions with substantial scientific and technical content. OSTP must take leadership, particularly when issues involve multiple agencies as they do for climate observations, climate change adaptations, and civil and military environmental observation systems. Specifically, decisions are long past due for the restructuring of NPOESS management and the provision of appropriately increased funding to complete this system deployment, which teeters once again on the brink of crisis. In addition, the Administration is expected to put forward a plan to create a National Climate Service. The Nation needs a capability to gather, synthesize and distribute critical information to regions, States, and local governments as they plan for and adapt to climate change. Both cases require leadership and decision-making, assignment of responsibility for implementation, and oversight of all relevant agencies in achieving the integrated mission.

GLOBE.—The conferees are concerned that the interagency GLOBE program, a hands-on primary and secondary school-based environmental science and education program, does not receive sufficient financial or management support. Accordingly, the conferees provide \$3,000,000 within NASA and \$3,000,000 within NOAA for the GLOBE program. The conferees direct the Office of Science and Technology Policy to conduct a thorough review of the program and to report within 60 days of enactment of this Act on recommendations to improve the program's viability. The report shall include an examination of the merits of transitioning responsibility for the program from NASA to NOAA. The conferees expect that any recommendations will be incorporated into the fiscal year 2011 budget request.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

AGENCY SUMMARY

The conferees remain concerned about NASA's management of its budget, as well as its financial recordkeeping and reporting. Reports and findings of the General Accounting Office and the House and Senate Committees on Appropriations continue to reveal a pattern of lax fiscal management and oversight, ranging from the administration of enhanced use lease receipts, insufficient evidentiary support for amounts in NASA's budget execution data, improper execution of its authority in the construction program, and increasing numbers of contract awards being protested. Accordingly, the

conferees have taken several steps to assist NASA in improving its fiscal management. The conference agreement:

- consolidates all programmatic and institutional construction and environmental compliance and remediation activities into a new account, for which the period of availability is five years;
- subjects annual expenditures planned from the collection of enhanced use lease receipts to an annual appropriations limitation first enacted in fiscal year 2009;
- fully funds center administrative activities in the consolidated Cross Agency Support account, realigning the remaining FTE currently charged to programmatic accounts;
- directs NASA to include in its annual budget justifications the reserve amount assumed by the agency to be necessary for the program and the amount actually proposed for each directorate, theme, program, project and activity, or if the proposed funding level is based on confidence level budgeting, the confidence level assumed in the proposed funding level;
- directs NASA to cooperate fully and to provide timely program analysis and evaluation data to the GAO to permit the GAO to meet the Congressional mandate on major systems reporting;
- directs NASA to include in its monthly financial reports beginning February 1, 2010, and the 15th day of each month thereafter, data on budget authority, outlays, unobligated balances, and recoveries presented by appropriation, theme, program or project for each directorate, theme, program, project and activity, as delineated in the House report;
- directs NASA to include in its fiscal year 2011 budget request and each budget request thereafter an accounting of civil service expense requirements, including FTE estimates, requested for each directorate, theme, program, project and activity; and
- directs NASA to report within 60 days of enactment of this Act on actions the agency will take to improve financial management and to ensure integrity of the procurement process in an effort to reduce increasing numbers of contract award protests.

While the conference report does not adopt the position proposed by the House to limit appropriations available to NASA for one year while providing an allowance of ten percent for two years to reflect the research and development nature of the work performed, the conferees will continue to monitor NASA's efforts to improve its obligation rate with commensurate improvements in accrual of costs and outlays to determine if the House's proposal warrants further consideration.

Summary funding provided for NASA is delineated more fully in the table below and in the account summaries.

SCIENCE

The conference agreement provides \$4,469,000,000 for science. Funds provided herein are available for two years to conduct and support science research and development activities, including research, development, operations, support and services; maintenance; space flight, spacecraft control, and communications activities; program management; personnel and related costs; travel expenses; purchase and hire of passenger motor vehicles; and purchase, lease, charter, maintenance, and operation of mission and administrative aircraft. Funds for construction of facilities, including repair, renovation of existing facilities, construction of new facilities, facility planning and design, and for environmental compliance and restoration are provided in a separate, new account, as proposed by the House.

Earth science, other missions and data analysis.—The conference agreement provides \$201,300,000 for Earth science, other missions and data analysis. An increase of \$15,000,000 is provided above the request to advance further the studies of the next two decadal survey missions, the Climate Absolute Radiance and Refractivity Observatory (CLARREO) and the Deformation, Ecosystem Structure, and Dynamics of the Ice (DESDnyI).

The conferees are concerned about the limited progress made to date in advancing the Earth science missions identified in the recent decadal survey. In an effort to address the need for Earth science data, the conferees encourage NASA to consider commercial solutions for providing such data and suggest that NASA contract with the National Academies' Space Studies Board to conduct a study of the feasibility of commercially-provided Earth science data.

Climate variables and climate science.—Long-term measurement of selected climate variables is of critical importance for climate science. NASA should provide leadership in demonstrating satellite-based global change measurements that can then be implemented on an operational basis by NOAA and USGS. Given the likely demise in coming years of a number of Earth observing satellites and the NASA cancellation of the second and third copies of the EOS satellites and instruments, NASA, working with NOAA, USGS, and the other agencies of the US Global Change Research Program, is directed to conduct a systematic review of the recommended Decadal Survey implementation architecture, with the focus being to first measure and understand specifically those climate forcings that have the greatest leverage for improving the Nation's climate predictive capabilities significantly over the next 10–12 years. The resulting architecture should include emphasis on NASA's responsibility to develop measurements using new technologies to demonstrate an innovative, affordable climate observing system and improvements to the predictive models resulting from the ensemble of measurements obtained. The resulting architecture must also take into account the time required for NOAA and USGS to obtain appropriations to assume operational responsibility for the measurement once their utility has been demonstrated including consideration of NASA including two copies of each instrument with operational potential. A report outlining this climate-centric

architecture shall be delivered to the Committees no later than May 3, 2010.

Scatterometer.—NASA and NOAA are directed to continue joint studies leading to a NOAA request in the fiscal year 2011 budget to build and fly an operational scatterometer to provide sea surface vector wind measurements, as directed by the House.

Earth system science pathfinder, other mission and data analysis.—Within the funds provided for other mission and data analysis, the conferees have provided \$25,000,000 for initial costs associated with an orbiting carbon observing (OCO) replacement. In addition, NASA is directed to supplement these funds with not less than \$25,000,000 from available Science mission directorate prior year balances to achieve a total program level of not less than \$50,000,000 in fiscal year 2010.

Also included within the funds provided for other mission and data analysis, the conference agreement provides \$6,000,000 for pre-phase A and pilot initiatives for the development of a carbon monitoring system. Any pilot developed shall replicate State and national carbon and biomass inventory processes that provide statistical precision and accuracy with geospatially explicit associated attribute data for aggregation at the project, county, State and Federal level using a common dataset with complete market transparency, including extraction algorithms and correlation modeling.

Near Earth object observations.—The recommendation includes \$5,800,000 for near Earth object observations, an increase of \$2,000,000 to support scientific research at the Arecibo Observatory in the fields of climate change and space weather.

GLOBE.—The recommendation includes \$3,000,000 for the GLOBE program. The conferees recognize the significant investment NASA has made in GLOBE and direct NASA to support the OSTP review of the program and to work cooperatively with NOAA and NSF on this interagency program.

Planetary science, international lunar network.—The conference agreement provides \$15,000,000 for the international lunar network.

Astrophysics, servicing opportunities for science missions.—Funding for this activity has been provided within funds appropriated under the heading “Space Operations”.

Astrophysics, exoplanet exploration, other missions and data analysis.—The conference agreement includes the funds requested to enable SIM-lite to continue mission concept, technology and risk reduction efforts.

James Webb space telescope.—The conferees provide the full budget request of \$441,400,000 for the James Webb Space Telescope, NASA’s next orbiting observatory scheduled to launch in 2014. The conferees are troubled by ongoing cost overruns and inaccurate phasing of reserves that have required the Committees to approve multiple adjustments to Webb’s funding levels. These adjustments have totaled \$95,000,000 in the last six months alone, and the Committees are aware that additional adjustments may be needed in fiscal year 2010. Before the Committees will consider any further adjustments, NASA shall provide to the Committees a report on the factors contributing to Webb’s cost overruns and re-

serve phasing problems, identifying NASA's plans to address these issues and how it shall prevent such occurrences in the future.

Jupiter system mission.—The conference agreement provides \$15,500,000 to study further the Europa Jupiter system mission to address the primary risk to the mission, the energy particle radiation environment of Jupiter, as described in the House report. Included in these funds shall be efforts to assist the science community in responding to the announcement of opportunity for the instruments. The conferees direct NASA within 60 days of enactment to provide a projected full lifetime budget outline for the Europa mission, to include anticipated contributions from foreign partners, and an alternative budget profile that would accelerate the launch to 2018.

Heliophysics, sounding rockets operations.—Within the amounts provided for heliophysics sounding rockets operations, \$5,000,000 is provided to continue advanced technology development of small satellites and unmanned aerial systems that have the potential of lowering the costs of space and Earth science missions.

NASA is directed to increase its participation in suborbital missions that provide hands-on experience in STEM education.

Solar probe plus.—The conference agreement includes \$40,000,000 for the solar probe plus mission, the highest priority of the decadal survey in heliophysics. The conferees direct NASA to work aggressively to achieve a launch in 2015, and expect future budget requests to accommodate that launch date without jeopardizing other Science missions or programs.

Magnetospheric multiscale (MMS).—The conference agreement provides the budget request of \$118,600,000 for the MMS project. NASA is expected to maintain the full complement of science instruments for this mission and achieve a launch in 2014.

Planetary science, technology.—Within the funds provided for planetary science, resources are provided for test and development of thermal protection systems (TPS), such as coal-based carbon foam ablative devices, in future missions to and from Mars and Moon.

General reduction.—The conference agreement assumes a general reduction that may be applied to unobligated balances from prior years and to amounts provided herein. Such reductions shall not be assessed against those activities augmented by the Congress or otherwise addressed by this statement of the managers and shall be presented in NASA's initial operating plan.

AERONAUTICS

The conference agreement provides \$501,000,000 for aeronautics. Funds provided herein are available for two years to conduct and support aeronautics research and development activities, including research, development, operations, support and services; maintenance; space flight, spacecraft control, and communications activities; program management; personnel and related costs; travel expenses; purchase and hire of passenger motor vehicles; and purchase, lease, charter, maintenance, and operation of mission and administrative aircraft. Funds for construction of facilities, including repair, renovation of existing facilities, construction of new

facilities, facility planning and design, and for environmental compliance and restoration are provided in a separate, new account, as proposed by the House.

Aviation safety.—Within the funds provided for aviation safety, \$15,000,000 is included within the aeronautics program to establish a university affiliated research center (UARC) to collaborate with the Dryden National Flight Center to focus on unmanned aircraft systems remote sensing research applications and educational programs.

EXPLORATION

The conference agreement provides \$3,746,300,000 for exploration. Funds provided herein are available for two years to conduct and support exploration research and development activities, including research, development, operations, support and services; maintenance; space flight, spacecraft control, and communications activities; program management; personnel and related costs; travel expenses; purchase and hire of passenger motor vehicles; and purchase, lease, charter, maintenance, and operation of mission and administrative aircraft. Funds for construction of facilities, including repair, renovation of existing facilities, construction of new facilities, facility planning and design, and for environmental compliance and restoration are provided in a separate, new account, as proposed by the House.

U.S. human spaceflight plans.—Appointed in June 2009 to conduct an independent review of the ongoing U.S. human spaceflight plans and programs, as well as alternatives, the Review of U.S. Human Spaceflight Plans Committee reported its findings in an October 2009 report. Outlining five broad options for the future of NASA's human spaceflight program, the committee noted that the current U.S. human spaceflight program is on an unsustainable trajectory and that its goals are not matched by financial resources. Given the current budgetary projections, the existing program cannot meet its established timelines and content. The gap in time in which the U.S. is without a human spaceflight capability will be at least six years, and more likely seven under current budgetary projections.

The committee's work raises issues requiring thoughtful consideration by the Administration and the Congress, before the Committees on Appropriations of the House and Senate can recommend detailed funding levels. The conferees note that the Constellation program is the program for which funds have been authorized and appropriated over the last four years, and upon which the pending budget request is based. Accordingly, it is premature for the conferees to advocate or initiate significant changes to the current program absent a bona fide proposal from the Administration and subsequent assessment, consideration and enactment by Congress.

To protect the jurisdiction and prerogatives of the House and Senate Committees on Appropriations and of the Congress generally while providing appropriate flexibility to the Administration in managing a complex research and development program, the conference agreement provides \$3,466,400,000 for human exploration architecture development, the same level as the budget re-

quest. Changes in budgetary and programmatic requirements for fiscal year 2010 from the original budget request shall be submitted only in the form of a supplemental budget request for fiscal year 2010 and not through an initial operating plan or subsequent updates. Funds are not provided herein to initiate any new program, project or activity, not otherwise contemplated within the budget request and approved by Congress, consistent with section 505 of this Act, unless otherwise approved by the Congress in a subsequent appropriations Act. Funds are also not provided herein to cancel, terminate or significantly modify contracts related to the spacecraft architecture of the current program, unless such changes or modifications have been considered in subsequent appropriations Acts.

The conferees note that the previous Administration failed to request a budget adequate to implement its Vision for Space Exploration while also maintaining a balanced portfolio of science and aeronautics programs, returning the Shuttle to flight after the *Columbia* accident and completing the International Space Station. Similarly, the current budget submittal for fiscal year 2010 and beyond significantly reduces planned funding for space exploration activities such that human exploration beyond low-Earth orbit is not viable under the fiscal year 2010 budget guideline. As the committee noted, "NASA's budget should match its mission and goals" and "whatever space program is ultimately selected, it must be matched with the resources needed for its execution." It is the expressed hope of the conferees that the Administration will formulate its formal decision soon, submit its recommendation for congressional review and consideration, and budget the necessary resources to meet U.S. spaceflight program funding requirements identified in the Administration's recommendation and congressionally-approved program for space exploration while maintaining a balanced portfolio of science and aeronautics programs.

Within the funds provided for human exploration architecture development, not less than \$100,000,000 is provided for continuing investments in heavy-lift cargo launch capability. In addition, within the funds provided for human exploration architecture development, \$39,100,000 is provided for commercial cargo activities (COTS A-C), the same level as the budget request.

Microgravity research.—Within the funds provided for exploration technology development, the conference agreement provides \$47,000,000 for microgravity research. Not later than 90 days after enactment of this Act, NASA shall submit to the House and Senate Committees on Appropriations the planned expenditure of the amounts provided herein for microgravity research.

Technology infusion projects.—The conference agreement provides \$219,300,000 for technology infusion projects, within which funds are included for the development of new technologies to include filament wound aluminum metal matrix composite technology for use in cryogenic fuels systems for space vehicles.

General reduction.—The conference agreement assumes a general reduction that may be applied to unobligated balances from prior years and to amounts provided herein. Such reductions shall not be assessed against those activities augmented by the Congress and shall be presented in the initial operating plan.

SPACE OPERATIONS

The conference agreement provides \$6,146,800,000 for space operations. The conference agreement designates not more than \$3,157,100,000 for Space Shuttle operations, production, research, development and support; not more than \$2,317,000,000 for International Space Station operations, production, research, development and support; and not more than \$751,500,000 for Space and Flight Support operations, production, research, development and support. Funds provided herein are available for two years to conduct and support space operations research and development activities, including research, development, operations, support and services; maintenance; space flight, spacecraft control, and communications activities; program management; personnel and related costs; travel expenses; purchase and hire of passenger motor vehicles; and purchase, lease, charter, maintenance, and operation of mission and administrative aircraft. Funds for construction of facilities, including repair, renovation of existing facilities, construction of new facilities, facility planning and design, and for environmental compliance and restoration are provided in a separate, new account, as proposed by the House.

Space Shuttle.—The summary report of the Review of U.S. Human Space Flight Plans Committee noted that the projected flight rate of the Space Shuttle prior to its projected retirement is nearly twice that of the actual flight rate since return to flight after the *Columbia* accident, stating, “Recognizing that undue schedule and budget pressure can subtly impose a negative influence on safety, the Committee finds a more realistic schedule is prudent. With the remaining flights likely to stretch into the second quarter of 2011, the Committee considers it important to budget for Shuttle operations through that time.” Accordingly, the Administration is urged to provide adequate funding for the remaining Shuttle flights in its fiscal year 2011 budget request without reducing other important and ongoing NASA activities.

International Space Station (ISS) operations.—Within the amounts provided for ISS operations, \$50,000,000 is provided to continue efforts in the use of next generation of human space flight architecture to service existing and future observatory-class scientific spacecraft as identified in the conference report accompanying division B of Public Law 111–8. The activities to be undertaken shall be a joint project of the space operations, science and exploration mission directorates, and shall include technology demonstrations for both robotic and human servicing capabilities.

Tracking and data relay satellite system.—NASA is directed to report to the Committees on Appropriations of the House and Senate not later than March 15, 2010, on options for accommodating increased mission load to the tracking and data relay satellite system, to include an examination of the feasibility of using off-the-shelf technologies.

The conference agreement does not provide for a competitive grant program for launch infrastructure construction and upgrades at spaceports, as the Senate had proposed.

General reduction.—The conference agreement assumes a general reduction that may be applied to unobligated balances from

prior years and to amounts provided herein. Such reductions shall not be assessed against those activities augmented by the Congress or otherwise addressed by this statement of the managers and shall be presented in NASA's initial operating plan.

EDUCATION

The conference agreement provides \$182,500,000 for education.

Education activities.—NASA is directed to include in its annual budget justifications the amount within each mission directorate for the past, current and budget year planned for education activities, and the specific purposes for which the funds are requested.

National Space Grant College and Fellowship program.—For this program, the conference agreement provides \$45,600,000 to fund 42 states or jurisdictions at \$900,000 each and 10 states or jurisdictions at \$700,000 each.

Classroom of the Future.—The conference agreement provides \$1,000,000 for the Classroom of the Future, as requested.

Educational activities at NASA centers.—The conference agreement provides \$7,000,000 for NASA visitor centers for the development of educational activities to be distributed in equal \$700,000 increments to each center's visitor center for the development of educational activities. The conferees encourage NASA to make its visitor centers or their proxies available to all students and children up to grade 12 or age 18 on a no-fee basis as such experiences should be integral components of a broad-based STEM education. NASA is further directed to review its educational portfolio to determine how such visitor centers can be better incorporated into NASA's efforts to inspire and educate students at all levels to pursue careers in the fields of science, technology, engineering and mathematics. The findings of such a review and recommendations to improve student visitor experience and accessibility shall be submitted to the House and Senate Committees on Appropriations not later than 90 days after enactment of the Act. NASA is directed to avoid implementation of any change to admission costs to any NASA visitor center for children up to grade 12 or age 18.

Earth Knowledge Acquired by Middle School Students (EarthKAM) program.—Funds are provided within informal education to ensure that NASA increases its support for this program.

CROSS AGENCY SUPPORT

The conference agreement includes \$3,194,000,000 for cross agency support. Funds provided herein are available for two years for the conduct and support of science, aeronautics, exploration, space operations and education research and development activities, including research, development, operations, support and services; maintenance; space flight, spacecraft control, and communications activities; program management; personnel and related costs; travel expenses; purchase and hire of passenger motor vehicles; and purchase, lease, charter, maintenance, and operation of mission and administrative aircraft. Funds for construction of facilities, including repair, renovation of existing facilities, construction of new facilities, facility planning and design, and for environ-

mental compliance and restoration are provided in a separate, new account, as proposed by the House.

The conference agreement designates within amounts appropriated \$2,206,300,000 for center management and operations; \$40,000,000 for independent verification and validation activities; and \$63,000,000 for congressionally-designated projects which are incorporated by reference. Provisions proposed by the House relating to enhanced use lease receipts have been incorporated, with modifications, under the "Construction and environmental compliance and remediation" appropriation.

The conference agreement provides the budget request for activities of NASA's Chief Engineer to increase direct technical support to high-risk aspects of NASA's missions in order to improve mission success, cost containment and schedule performance across all mission directorates.

NASA is directed to include in its fiscal year 2011 budget request an accounting of civil service salary and expense requirements contained in each program, as directed by the Senate report.

Not later than 60 days after enactment of this Act, NASA is directed to provide a report to the House and Senate Committees on Appropriations detailing the number of term positions to be funded under the Act, as well as a comparative summary of NASA's use of term positions since 1990.

Small business innovative research (SBIR) and small business technology transfer research (STTR).—While the conference agreement identifies amounts for these activities at the levels requested by the Administration, the conferees note that funding for government-wide SBIR and STTR programs are set by statute at 2.5 percent and 0.3 percent of the agency's extramural research and development program, which has yet to be determined.

Cybersecurity.—The conferees are concerned about recent cyber attacks against NASA and therefore direct NASA to partner with the National Security Agency to assure that NASA networks are secure and that its software verification process includes a rigorous cyber examination process.

General reduction.—The conference agreement assumes a general reduction that may be applied to unobligated balances from prior years and to amounts provided herein. Such reductions shall not be assessed against those activities augmented by the Congress or otherwise addressed by this statement of the managers and shall be presented in NASA's initial operating plan.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND REMEDIATION

The conference agreement includes an appropriation of \$448,300,000 for construction and environmental compliance and remediation. Appropriations are available for five years and shall be available for construction of facilities, including repair, rehabilitation, revitalization, and modification of facilities, construction of new facilities and additions to new facilities, facility planning and design, and restoration, and acquisition or condemnation of real property, as authorized by law, and environmental compliance and restoration. Funds for construction-related labor costs and travel are included within the amounts provided in the Cross Agency Support appropriation. Within this appropriation, the conference agreement designates the following amounts for each of the mission directorates, as shown below:

Science	\$13,700,000
Exploration	90,800,000
Space Operations	27,300,000
Cross agency support	316,500,000
Institutional investments, construction of facilities	(249,300,000)
Environmental compliance and restoration	(67,200,000)

NASA is directed to provide to the House and Senate Committees on Appropriations NASA form 1509 for each CoF project submitted in the annual budget request or an initial operating plan and for each CoF project subject to a reprogramming notification. In addition, NASA is directed within 90 days of enactment of this Act to provide to the House and Senate Committees on Appropriations a comprehensive five-year plan detailing in priority order and by center projected facilities infrastructure improvements and construction needs across the NASA complex. The plan shall include current and projected mission assignments by center and how such proposed improvements meet each center's mission objectives.

Leasing authorities and collections.—The conference agreement includes provisions relating to enhanced use leases (EULs): a provision that requires, hereafter, the deposit of all EUL proceeds into the construction account, provides for five-year availability, and subjects all EUL receipts to annual appropriations Acts prior to their availability; a provision that limits to \$6,226,000 the expenditure of EUL receipts to the level planned by NASA in its official submission; and a provision that requires each annual budget request to include an annual estimate of gross EUL receipts and proposed uses of such receipts. Similar provisions were proposed by the House under the “Cross Agency Support” appropriation.

NASA is directed to continue its moratorium on any new enhanced use leases until it promulgates and disseminates to the centers and the Committees on Appropriations of the House and Senate its final desk guidance on the administration and execution of the EUL program. In addition, NASA is further directed to submit a separate operating plan by center on the proposed use of all receipts and collections in fiscal year 2010 prior to the expenditure of such funds, and any deviation from such approved plan shall be subject to section 505 of this Act. Lastly, NASA shall submit with its annual budget submission a separate accounting by center of gross receipts and collections and proposed use of all funds collected under its leasing authority. Such material shall include a de-

tailed presentation of all proposed expenditures, to include but not limited to full-time equivalent (FTE) staff years and object class data, minor renovation projects proposed to be undertaken with requested amounts for each project, and justification for such proposed expenditures by project or activity.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$36,400,000 for the Office of Inspector General, which shall be available for one year.

ADMINISTRATIVE PROVISIONS

The conference agreement contains language regarding the availability of funds for announced prizes.

The conference agreement contains language providing for the transfer of certain amounts between appropriations accounts.

The conference agreement contains language prohibiting any reduction in force or other involuntary separations in fiscal year 2010.

The conference agreement contains language regarding transfers of unexpired balances.

The conference agreement does not include language proposed by the Senate which provided that funding designations and minimum funding requirements contained in any other Act shall not be applicable to funds provided in this Act for NASA.

The conference agreement does not include administrative provisions proposed by the Senate regarding the period of availability of funds allocated for construction and environmental compliance activities within appropriations made for the various mission directorates. The conference agreement provides for a new, separate appropriation for construction and environmental remediation, eliminating the need for the administrative provisions proposed by the Senate.

NATIONAL SCIENCE FOUNDATION

The conference agreement includes \$6,926,510,000 for the National Science Foundation (NSF), consistent with the ongoing effort to double the agency's budget over a ten-year period.

The conferees are concerned with continuity in the level of support for research and development at the National Science Foundation and reiterate concerns expressed by the House that the request for fiscal year 2011 should represent at least a seven percent increase for NSF over the conference agreement level for fiscal year 2010 in order to sustain the planned doubling of the Foundation's budget.

The conferees support House direction to the Foundation to convene a panel of experts to survey pre-K to 12 schools that are highly successful in science, technology, engineering and mathematics (STEM) education and submit a report of the findings and recommendations of this panel to the Committees within 180 days of the enactment of this Act.

RESEARCH AND RELATED ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$5,617,920,000 for research and related activities.

The conference agreement transfers \$54,000,000 from NSF to the United States Coast Guard (USCG) for icebreaking services to cover all anticipated operation and maintenance costs for fiscal year 2010. The conferees expect that in future years all operation and maintenance budget authority for these USCG icebreakers will be requested by the Department of Homeland Security.

Within the funds provided, the conferees direct NSF to maintain funding at the levels requested for the following activities:

- Climate change
- Cyber-enabled discovery and innovation
- Science and engineering beyond Moore's law
- Adaptive systems technology
- Dynamics of water processes in the environment
- National Radio Astronomy Observatory

In addition, the conferees support House direction on high-risk, high-reward basic research; funding for research on ocean acidification; support for 2,000 graduate research fellowships across all of NSF; climate change education; and funding of EPSCoR. Beyond these requirements, the conferees expect NSF to accommodate the reduction from the request based on its judgment of where funding will be used most effectively.

The conferees support the direction in the Senate report with respect to VORTEX2.

The conferees direct NSF to transfer \$100,000 to the National Academy of Sciences as directed by the House.

Hydrology, terrestrial ecosystems and soils.—The conferees see the need for an appropriate mechanism to bring together the hydrology research community and better integrate the different types of data and observing systems and enhance support of hydrology modeling, and to institutionalize this mechanism. The conferees also see the need for an appropriate mechanism to bring together the terrestrial ecology and soils research communities. NSF is directed to report its recommendations on the need for and establishment of mechanisms in these two areas with the budget request for fiscal year 2011.

Gemini telescope.—The conferees recognize that the Gemini international telescope agreement is scheduled for renewal in 2012. The United States currently has a 50 percent share in this project, which originated in 1992, and today includes the United Kingdom, Canada, Australia, Brazil, Argentina, and Chile as partners. Given the scientific importance of the Southern Hemisphere Gemini Observatory, NSF is encouraged to continue and, if possible on favorable terms, expand U.S. support in the upcoming renewal negotiations to acquire additional telescope time for NSF investigators.

GLOBE.—The conferees are aware that NSF continues to support the GLOBE program and encourage the agency to continue this support and to work with NASA and NOAA and to support the OSTP review of the program.

EPSCoR.—The conferees request that NSF examine new approaches and innovative efforts within EPSCoR to assist States within the program, including but not limited to, additional co-funding opportunities and EAGER awards, efforts to better ensure participation in new initiatives, and other activities as appropriate.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The conference agreement provides \$117,290,000 for Major Research Equipment and Facilities Construction, and prohibits funds from being used for reimbursement of the Judgment Fund. The agreement supports the following items at the indicated amounts:

Advanced LIGO	\$46,300,000
Atacama Large Millimeter Array (ALMA)	42,760,000
Advanced Technology Solar Telescope (ATST)	13,000,000
Ocean Observatories Initiative (OOI)	14,280,000
Ice Cube	950,000

EDUCATION AND HUMAN RESOURCES

The conference agreement provides \$872,760,000 for Education and Human Resources. The increase over the budget request is to support additional work in experiential learning as directed by the House with a substantial portion of the initiative focused on K–6 STEM education. The recommendation includes adjustments to the budget request for specific programs, as follows:

Discovery research K–12	+\$10,000,000
Research and evaluation on education in science and engineering	+2,500,000
Course, curriculum and laboratory improvement	+2,500,000

The conferees direct NSF to provide a report detailing plans to establish a Hispanic Serving Institutions—Undergraduate Program no later than 90 days following enactment of this Act. The conferees expect a significant funding request for such a program to be included in NSF's fiscal year 2011 budget request.

The conferees are concerned that K–12 students need a better foundation in geographic literacy, and direct NSF to work with external partners with experience in geographic education to improve geography teaching, training and research in our Nation's schools.

The conferees support the Foundation's request of \$55,000,000 for the Robert Noyce Teacher Scholarship program.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The conference agreement provides \$300,000,000 for agency operations and award management.

The conferees recognize that NSF excels at creating and managing external relations, providing valuable financial and professional leadership for the Nation's scientific communities, particularly in the competitive solicitation and award of research and educational grants and fellowships. Internally the agency must do better to provide a safe and productive work environment for all of its employees. The conferees reinforce the need for formal reviews from both the NSF directorate and the Office of Inspector General on the agency's personnel management practices as outlined in the Senate report. In addition, the conferees support the Senate's report language identifying the need to improve grant management and accountability.

OFFICE OF THE NATIONAL SCIENCE BOARD

The conference agreement provides \$4,540,000 for the National Science Board. The conferees direct the National Science Board to use the increase of funds above the request for obtaining a General Counsel independent of the National Science Foundation.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$14,000,000 for the Inspector General, the same as the request.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The conference agreement includes \$9,400,000 for the Commission on Civil Rights.

Support of State Advisory Committees (SACs).—The Commission shall submit to the House and Senate Committees on Appropriations a biannual report listing the 51 SACs and the expiration date of the most recent charter for each. The report should also include the projected date of re-chartering for those SACs whose most recent charter has expired and a description of the recent activities undertaken by those that do have an active charter.

The conferees urge the Commission to ensure that its regional office staffing plan is coordinated with its charter expansion plan so that newly reinvigorated SACs will have the operational support necessary to succeed.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$367,303,000 for the Equal Employment Opportunity Commission (EEOC).

Backlog reduction.—The conferees urge EEOC to develop and implement a multiyear plan to increase EEOC staffing to the levels necessary to achieve backlog reduction in a timely manner. In the meantime, EEOC shall submit to the House and Senate Committees on Appropriations quarterly reports on projected and actual agency staffing levels so EEOC's personnel resources can be better monitored.

Workload projections.—Workload projections should be continually calibrated with actual data as it becomes available through midyear reviews and other means. EEOC shall also ensure that its workload projections account for necessary changes in overtime policy as required by a March 23, 2009 arbitration decision addressing EEOC overtime payments.

Federal sector hearings.—EEOC shall submit to the House and Senate Committees on Appropriations within 60 days of the enactment of this Act an implementation plan for the new Federal sector hearing process, including background on the need for these changes, the proposed implementation schedule and an analysis of

the potential impact, both positive and negative, on the ability of Federal employees to get a fair hearing under the track system.

INTERNATIONAL TRADE COMMISSION

The conference agreement provides \$81,860,000 for the International Trade Commission for fiscal year 2010.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The conference agreement provides \$420,000,000 for the Legal Services Corporation (LSC).

Accountability and oversight.—Over the past three years, GAO, the LSC Inspector General and the Audit Committee of the LSC Board of Directors have issued multiple findings of management and oversight weaknesses at the Corporation. LSC has made a public commitment to address each of these findings, and, as evidenced by recent GAO testimony, has made progress by implementing necessary corrective actions in a number of areas. However, as also evidenced by GAO's testimony, additional work remains to complete the full list of recommended actions.

The conferees have been, and remain, concerned about these gaps in LSC's management and accountability controls, which leave the Corporation vulnerable to improper expenditures or instances of waste by grantees. The timely resolution of these remaining issues must be a Corporation priority. Consequently, the conferees direct the Corporation's President and Chairman of the Board of Directors to report jointly to the House and Senate Committees on Appropriations no later than February 1, 2010, to certify that the Corporation has met the requirements for management practices and policies, as well as governance standards and guidelines.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

A general provision in Title V of the bill revises the administrative provision in order to permit grantees to pursue the recovery of attorney's fees when recovery is permitted or required under Federal or State law. The conferees believe that this action will level the playing field between legal aid attorneys and their counterparts in the private sector and provide a potentially crucial source of additional revenue to legal aid providers in a year in which State and private funding sources are decreasing.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$3,250,000 for the Marine Mammal Commission for fiscal year 2010.

The Commission is directed to submit a report to Congress prioritizing international research and conservation efforts of marine mammals.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE
SALARIES AND EXPENSES

The conference agreement provides \$47,826,000 for the Office of the United States Trade Representative (USTR) for fiscal year 2010.

World Trade Organization.—The conferees are aware of the World Trade Organization (WTO) Appellate Body's January 16, 2003, ruling regarding the Continued Dumping and Subsidy Offset Act (Public Law 106–387). The conferees direct USTR, in consultation with the Department of Commerce, to continue to negotiate within the WTO to seek express recognition of the existing right of WTO members to distribute monies collected from antidumping and countervailing duties as they deem appropriate. The agency shall consult with and provide regular reports every 60 days to the House and Senate Appropriations Committees on this matter.

In addition, the conferees direct that negotiations be conducted within the WTO consistent with the negotiating objectives contained in the Trade Act of 2002, Public Law 107–210, to maintain strong U.S. trade remedies laws, prevent overreaching by WTO Panels and the WTO Appellate Body, and prevent the creation of obligations never negotiated or agreed to by the United States.

Climate change.—Countries in Southeast Asia are particularly vulnerable to the potentially destructive impacts of climate change. U.S. companies have the capacity to provide valuable expertise and install advanced weather forecasting infrastructure and other reliable technologies addressing climate change adaptation and mitigation. The conferees direct the USTR to report to the House and Senate Committees on Appropriations on the status of U.S. company engagement with Southeast Asian nations on these efforts no later than March 30, 2010.

STATE JUSTICE INSTITUTE
SALARIES AND EXPENSES

The conference agreement provides \$5,131,000 for the State Justice Institute.

Section 509 provides that any closing or downsizing costs incurred by a department or agency funded under this Act resulting from funding reductions in the Act shall be absorbed within the budgetary resources available to the Department or agency, and provides transfer authority between appropriation accounts to carry out the provision, subject to reprogramming procedures.

Section 510 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, provided that such restrictions are applied equally to all tobacco products or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 511 prohibits funds made available in this Act from being used to implement a Federal user fee for background checks conducted pursuant to the Brady Handgun Control Act of 1993, or to implement a background check system that does not require and result in the destruction of certain information within 24 hours.

Section 512 delays the obligations of any receipts deposited into the Crime Victims Fund in excess of \$705,000,000 until October 1, 2010. This language is continued to ensure a stable source of funds will remain available for the program, despite inconsistent levels of criminal fines deposited annually into the Fund.

Section 513 prohibits the use of Department of Justice funds for programs that discriminate against or denigrate the religious beliefs of students participating in such programs.

Section 514 prohibits the transfer of funds in the Act to any department or agency of the United States Government, except for transfers made under authorities provided in this or any other appropriations Act.

Section 517 requires certain timetables of audits performed by Inspectors General of the departments and agencies funded in this Act.

Section 518 prohibits the use of process patents of human organisms. The intent of this provision is as expressed in the colloquy between the provision's sponsor in the House and the Ranking Minority Member of the House Committee on Appropriations as occurred on July 22, 2003, with respect to any existing patents on stem cells.

Section 519 prohibits the use of funds in this Act to be used to support or justify torture by any official or contract employee of the United States Government.

The conferees do not intend for this provision to apply to law enforcement training and/or operational conferences for law enforcement personnel when the majority of Federal employees in attendance are law enforcement personnel stationed outside the United States.

Section 532 modifies a provision included by the House regarding detainees from Guantanamo Bay.

Section 533 permits LSC grantees to pursue the recovery of attorney's fees when permitted or required by law.

tives that are considered congressional earmarks for purposes of clause 9 of rule XXI of the Rules of the House of Representatives, when intended to be awarded to a for-profit entity, shall be awarded under a full and open competition.

The conference agreement does not contain a provision proposed by the House authorizing the Attorney General to provide qualified relocation expenses.

TITLE VI

ADDITIONAL GENERAL PROVISIONS

The conference agreement does not include an appropriation for the Office on Violence Against Women as proposed by the House. Appropriations for this activity are provided in Title II of this Act.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the conference report or the accompanying joint statement of managers, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the conference report nor the joint statement of managers contains any limited tax benefits or limited tariff benefits as defined in the applicable House or Senate rules. Pursuant to clause 9(b) of rule XXI of the Rules of the House of Representatives, none of the congressional earmarks listed below were committed to the conference committee on H.R. 3288. However, all the following items were either (1) included in the Commerce, Justice, Science and Related Agencies Appropriations Act, 2010 (H.R. 2847) as passed by the House or Senate, or (2) in a report of the committee of either House on H.R. 2847.

DIVISION C—FINANCIAL SERVICES AND GENERAL
GOVERNMENT APPROPRIATIONS ACT, 2010

References in this statement to the Senate bill are to the bill (S. 1432) as reported to the Senate by the Committee on Appropriations on July 9, 2009 (S. Rept. 111–43). References to the House bill are to the bill (H.R. 3170) as passed by the House on July 16, 2009 (H. Rept. 111–202).

Language included in House Report 111–202 or Senate Report 111–43 that is not changed by this joint explanatory statement is approved by the committee of conference. This explanatory statement, while repeating some report language for emphasis, is not intended to negate the language in the referenced House and Senate committee reports unless expressly provided herein.

Where the House or Senate has directed submission of a report, that report is to be submitted to the Committees on Appropriations of both the House of Representatives and the Senate.

TITLE I

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$304,888,000 for departmental offices salaries and expenses, instead of \$303,388,000 as proposed by the House and \$305,712,000 as proposed by the Senate.

For the activities under this heading, the conference agreement provides the following funding levels:

Executive Direction	\$21,983,000
Economic Policies and Programs	47,249,000
Financial Policies and Programs	48,580,000
Terrorism and Financial Intelligence	64,611,000
Treasury-wide Management	22,679,000
Administration	99,786,000

Within the Financial Policies and Programs budget activity, the conference agreement provides an increase of \$1,000,000 above the amount assumed in the budget request for the Department's Office of Financial Education. The Department is directed to target this increase toward further financial education efforts aimed at elementary and high schools, as well as efforts to enhance other financial education efforts, including support for the revision of the national strategy on financial literacy and the development of measurable goals and objectives for the Financial Literacy and Education Commission.

Within the funding provided for economic policies and programs: (1) \$1,500,000 is provided for a comprehensive carbon audit of the Internal Revenue Code, as proposed by both the House and the Senate and as authorized by Public Law 110–343, division B, section 117; and (2) \$1,000,000 is provided for a study on the long-term economic effects of the aging population in the United States, as proposed by the Senate.

The conference agreement includes a provision allowing the Department to transfer up to 4 percent of funds available between budget activities upon notification of the House and Senate Committees on Appropriations. Transfers in excess of 4 percent may be made upon approval of the Committees on Appropriations.

Department Responsiveness.—The conferees are dissatisfied with the responsiveness of the Department of the Treasury to questions and requests for information from the House and Senate Appropriations Committees. For example, the Department did not submit to the House and Senate Committees on Appropriations the responses to questions for the record in connection with the Treasury Department fiscal year 2010 budget hearings until several months after the hearings. Questions for the record are submitted to inform the Committees and increase their knowledge of the Administration's activities, ultimately improving the bills enacted into law. The conferees expect that the responsiveness of the Department of the Treasury will dramatically improve from this point forward.

Economic Sanctions and Divestments.—The conferees direct the Department to fully implement the sanctions and divestment measures applicable to North Korea, Burma, Iran, Sudan, and Zimbabwe. The Department is further directed to promptly notify the Appropriations Committees of any resource constraints that adversely impact the implementation of these sanctions programs.

Illegal Garnishment of Federal Benefits.—The conferees reiterate the Senate report language regarding the illegal garnishment of Federal benefits by third-party collectors and direct the Department to provide a written report to the House and Senate Appropriations Committees, within 15 days of enactment of this Act, on the progress in creating guidelines to prevent this illegal garnishment.

Financial and Economic Stabilization Efforts.—Given the ongoing need to provide stability to the economic and financial system, along with the billions of dollars in taxpayer funds that have been put at risk in the process, the conferees take very seriously the obligation of the Appropriations Committees to continue to exercise vigorous oversight over all of the Department's efforts in these areas. The conferees reiterate the associated detailed reporting requirements contained in House Report 111–202. The conferees direct the Department to ensure that the stabilization efforts are administered soundly and efficiently in order to minimize risks to the taxpayer. The Department is additionally directed to ensure that these efforts do not hamper the Department's other critical missions. Further, the conferees reiterate the Senate language directing the Department to: (1) develop a more effective strategy for communicating with Congress, the public, and other stakeholders with regard to economic and financial stabilization efforts, as recommended by the Government Accountability Office (GAO), (2) pursue more detailed reporting from entities receiving Troubled Asset Relief Program (TARP) funds, and (3) provide a monthly report on the number and value of foreclosures prevented to date under Treasury programs.

DEPARTMENT-WIDE SYSTEMS AND CAPITAL INVESTMENTS PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$9,544,000 for systems and capital investments as proposed by both the House and the Senate.

OFFICE OF INSPECTOR GENERAL
SALARIES AND EXPENSES

The conference agreement provides \$29,700,000 for the Office of Inspector General as proposed by both the House and the Senate.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION
SALARIES AND EXPENSES

The conference agreement provides \$152,000,000 for salaries and expenses of the Treasury Inspector General for Tax Administration (TIGTA) as proposed by the Senate, instead of \$149,000,000 as proposed by the House.

SPECIAL INSPECTOR GENERAL FOR THE TROUBLED ASSET RELIEF
PROGRAM
SALARIES AND EXPENSES

The conference agreement provides \$23,300,000 for salaries and expenses of the Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP). The Emergency Economic Stabilization Act (Public Law 110-343) provided the SIGTARP with a direct appropriation of \$50,000,000 to cover the costs of its audit, investigative and related expenses. It is the understanding of the conferees that this funding level is adequate to allow the SIGTARP to continue its work only for a portion of fiscal year 2010. The conferees have provided additional budget authority in this Act to allow the critical work of the SIGTARP to continue for the entirety of fiscal year 2010.

FINANCIAL CRIMES ENFORCEMENT NETWORK
SALARIES AND EXPENSES

The conference agreement provides \$111,010,000 for salaries and expenses of the Financial Crimes Enforcement Network (FinCEN), instead of \$117,760,000 as proposed by the House and \$104,260,000 as proposed by the Senate. The conference agreement provides an increase of \$8,250,000 above the budget request. The conferees modify Senate report language and direct that, of the increase above the budget request, not less than \$2,000,000 be used to improve collaboration with other Financial Intelligence Units (FIUs) around the world regarding international anti-money laundering and counter-terrorism financing efforts, and to help FIUs to build and strengthen investigative and analytical capabilities.

FinCEN is directed to submit a semiannual report to the House and Senate Appropriations Committees summarizing the agency's progress regarding its information technology moderniza-

tion effort, including milestones planned and achieved, progress on cost and schedule, management of contractor oversight, strategies to involve stakeholders, and acquisition management efforts.

TREASURY FORFEITURE FUND

(RESCISSION)

The conference agreement includes a rescission of \$90,000,000 of the unobligated balances in the Treasury Forfeiture Fund, instead of \$50,000,000 as proposed by both the House and the Senate.

The conferees direct the Department to provide information in the Department of the Treasury fiscal year 2011 budget request, as well as updates every 60 days thereafter, on the projected amount of Super Surplus available for obligation in fiscal year 2011.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$244,132,000 for salaries and expenses of the Financial Management Service (FMS) as proposed by both the House and the Senate.

Treasury Securities Sold to Foreign Investors.—The conferees reiterate the House language requesting that FMS include in the Monthly Treasury Statement the amounts of Treasury securities sold to foreign investors in the most recent month of available data, as well as a breakdown, by country, of foreign ownership of Treasury securities.

Federal Government Payment of Card Transaction Fees.—The conferees reiterate the Senate language regarding the Federal Government's payment of interchange and other fees on credit and debit card transactions and direct FMS to report to the House and Senate Appropriations Committees, within 180 days of enactment of this Act, on the potential cost savings and other benefits to the Federal Government if FMS were able to effectively negotiate (1) changes in the rates and fees assessed by card networks and (2) modifications to the rules and regulations of the card networks which restrict the Federal Government's ability to determine the types of card payments it accepts and the methods by which its transactions are processed.

ALCOHOL AND TOBACCO TAX AND TRADE BUREAU

SALARIES AND EXPENSES

The conference agreement provides \$103,000,000 for salaries and expenses of the Alcohol and Tobacco Tax and Trade Bureau as proposed by the Senate, instead of \$99,500,000 as proposed by the House. Within this amount, \$3,000,000, available until September 30, 2011, is provided for the hiring, training, and equipping of special agents and related support personnel.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The conference agreement provides that not more than \$26,700,000 in new liabilities and obligations may be incurred during fiscal year 2010 for circulating coinage and protective service capital investments of the U.S. Mint, as proposed by both the House and the Senate.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The conference agreement provides \$192,244,000 for costs associated with administering the public debt, as proposed by both the House and the Senate. The conference agreement further directs that \$10,000,000 in user fees be used to offset the appropriated amounts.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND
PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$246,750,000 for the Community Development Financial Institutions (CDFI) Fund program as proposed by the Senate, instead of \$243,600,000 as proposed by the House. Within this amount, up to \$18,000,000 is for administrative expenses and \$12,000,000 is for technical assistance and other purposes for Native American, Native Hawaiian, and Alaskan Native communities.

Of the funds provided, \$80,000,000, as requested and as proposed by both the House and the Senate, is to be transferred to the Capital Magnet Fund. The Capital Magnet Fund is authorized by the Housing and Economic Recovery Act of 2008 (Public Law 110-289) to support affordable housing and related community development efforts. The conference agreement provides temporary funding, in lieu of contributions from Fannie Mae and Freddie Mac. The conferees intend the funding to provide start-up capital and fully expect that the Capital Magnet Fund will operate without additional appropriations in the future when Fannie Mae and Freddie Mac begin the required contributions.

Further, within the funds provided, \$4,150,000 is included for a competitive grants pilot program aimed at providing financial counseling services to prospective homebuyers, as authorized by the Housing and Economic Recovery Act of 2008 (Public Law 110-289). Of this amount, \$3,150,000, as proposed by the Senate, is for a pilot program to be conducted in Hawaii for financial education and pre-homeownership counseling. In developing the competitive grants process, the Department is directed to consult with other Federal agencies and public and private organizations with expertise in community-based financial counseling programs.

The Department is directed to fund the Bank Enterprise Award program at a level not less than \$25,000,000.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

The conference agreement provides \$2,278,830,000 for Internal Revenue Service (IRS) Taxpayer Services, instead of \$2,273,830,000 as proposed by the House and \$2,275,830,000 as proposed by the Senate. Within the overall amount, not less than \$10,000,000 is for low-income taxpayer clinic grants, and not less than \$6,100,000 is for the Tax Counseling for the Elderly program. Not less than \$205,954,000 is provided for operating expenses of the IRS Taxpayer Advocate Service.

In addition, within the overall amount provided, \$12,000,000, available until September 30, 2011, is included for the Community Volunteer Income Tax Assistance (VITA) matching grants demonstration program. The conferees urge the IRS to make every effort to expand the quantity and funding level of VITA grants focused on serving persons with disabilities proportional to the growing disability population requiring tax assistance.

Taxpayer Assistance Blueprint (TAB).—The conferees reiterate House and Senate report language regarding IRS efforts, in conjunction with the IRS Oversight Board and the IRS Taxpayer Advocate, to update the TAB. The conferees direct the IRS to continue to submit annual updates to the TAB and include the updates as part of the annual IRS budget submission, beginning with the submission of the fiscal year 2012 budget request.

ENFORCEMENT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$5,504,000,000 for Enforcement as proposed by both the House and the Senate.

OPERATIONS SUPPORT

The conference agreement provides \$4,083,884,000 for Operations Support, instead of \$4,082,984,000 as proposed by the House and the Senate.

BUSINESS SYSTEMS MODERNIZATION

The conference agreement provides \$263,897,000 for Business Systems Modernization (BSM), instead of \$253,674,000 as proposed by the House and \$274,119,000 as proposed by the Senate. The amount represents an increase of \$10,223,000 above the budget request. The conferees have provided the additional funds to support the IRS in furthering its new strategy for the Customer Account Data Engine. In addition, the conferees support additional funding being made available for this effort from IRS user fee collections, if the IRS determines that these funds are available and warranted.

Language is retained requiring approval by the House and Senate Committees on Appropriations of a GAO-reviewed expenditure plan for BSM prior to the obligation of the funds, except in the case of funds for IRS labor costs.

HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The conference agreement provides \$15,512,000 for administration of the Health Insurance Tax Credit program as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

Section 101 provides transfer authority.

Section 102 requires the IRS to maintain training in taxpayer rights.

Section 103 requires the IRS to safeguard taxpayer information.

Section 104 permits funding for 1–800 help line services and directs the Commissioner to make improving phone service a priority.

Section 105 directs that, of the funds made available by this Act to the IRS, not less than \$7,100,000,000 shall be available for tax enforcement, and that an additional \$890,000,000 shall be available for enhanced tax law enforcement, as proposed by the Senate.

Section 106 prohibits funds made available in this Act from being used to enter into, renew, extend, administer, implement, enforce, or provide oversight of any private tax collection contract, as proposed by the Senate.

Unless otherwise noted, these provisions were contained in similar form in both the House and Senate versions of the bill.

ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

(INCLUDING TRANSFERS OF FUNDS)

Section 107 allows Treasury to use funds for certain specified expenses.

Section 108 allows for the transfer of up to 2 percent of funds between “Departmental Offices” and the various Treasury bureaus, except the IRS.

Section 109 allows for the transfer of up to 2 percent from the IRS accounts to TIGTA.

Section 110 directs that the purchase of vehicles be consistent with vehicle management principles.

Section 111 prohibits funding to redesign the \$1 note.

Section 112 allows for the transfer of funds from “Financial Management Service, Salaries and Expenses” to the Debt Collection Fund conditional on future reimbursement.

Section 113 extends a pay demonstration program for one year.

Section 114 prohibits funds to build a United States Mint museum without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction.

Section 115 prohibits funding for consolidating the functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction.

Section 116 specifies that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2010 intelligence authorization act.

Section 117 permits the Bureau of Engraving and Printing to use up to \$5,000 from the Industrial Revolving Fund for reception and representation expenses.

Unless otherwise noted, these provisions were contained in similar form in both the House and Senate versions of the bill.

The conference agreement does not include section 116 of the House bill permitting the Secretary to establish additional accounts for various bureaus involved in the administration of refund payments under 31 U.S.C. 1324.

TITLE II

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

COMPENSATION OF THE PRESIDENT

The conference agreement provides \$450,000 for compensation of the President as proposed by both the House and the Senate.

THE WHITE HOUSE

SALARIES AND EXPENSES

The conference agreement provides \$59,143,000 for the salaries and expenses of the White House, instead of \$59,319,000 as proposed by both the House and the Senate. The agreement also specifies that not less than \$1,400,000 shall be for the Office of National AIDS Policy. Relative to the House and Senate bills, the conferees have shifted \$176,000 from this account to the Office of Management and Budget (OMB) to reflect the Administration's decision to locate the new Intellectual Property Enforcement Coordinator at OMB rather than the White House.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE

OPERATING EXPENSES

The conference agreement provides \$13,838,000 for the Executive Residence at the White House as proposed by both the House and the Senate.

WHITE HOUSE REPAIR AND RESTORATION

The conference agreement provides \$2,500,000 for repair, alteration and improvement of the Executive Residence at the White House as proposed by both the House and the Senate.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The conference agreement provides \$4,200,000 for the salaries and expenses of the Council of Economic Advisers as proposed by both the House and the Senate.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The conference agreement provides \$12,231,000 for the salaries and expenses of the National Security Council as proposed by both the House and the Senate.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement provides \$115,280,000 for the salaries and expenses of the Office of Administration as proposed by both the House and the Senate.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conference agreement provides \$92,863,000 for the salaries and expenses of the Office of Management and Budget (OMB), instead of \$92,687,000 as proposed by both the House and the Senate. Relative to the House and Senate bills, the conferees have shifted \$176,000 to this account from the White House, to reflect the Administration's decision to locate the new Intellectual Property Enforcement Coordinator at OMB rather than the White House.

The conferees urge OMB to focus efforts on planning and implementing a modernization of the Federal Government's core budgeting system using funds provided for fiscal years 2009 and 2010.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

The conference agreement provides \$29,575,000 for salaries and expenses of the Office of National Drug Control Policy (ONDCP), instead of \$27,575,000 as proposed by the House and \$28,575,000 as proposed by the Senate. The additional funding is intended to allow for an increase in ONDCP staff to as close to 118 full-time equivalents as possible. The conferees are pleased that ONDCP has taken steps to implement the recommendations and action items contained in the 2008 report by the National Academy of Public Administration, and direct that ONDCP continue to do so and keep the Committees on Appropriations informed of its progress.

Budget Justifications.—The conferees direct that the ONDCP congressional budget justification (CBJ) shall remain separate, as well as summarized within the justification of the Executive Office of the President, as in previous years. In addition, the conferees expect more detail and context in the fiscal year 2011 ONDCP CBJ, so that the Committees can better understand the scope and intended direction of the programs.

Staffing Reports.—The conferees remain interested in receiving quarterly reports on staffing, including current levels, vacancies, new hires, and plans for new hires. The staffing reports shall in-

clude office, position title, job classifications, and bonuses, and be retroactive to fiscal year 2009.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$5,000,000 for the Counterdrug Technology Assessment Center (CTAC), instead of \$1,000,000 as proposed by the Senate. The House did not propose funding for this program.

In recent years, funding for CTAC has decreased due to a lack of confidence in the previous management as well as concern about the direction of the program and projects funded. Now that ONDCP has signaled a new direction for the program, more tailored to its original mission, the conference agreement provides \$5,000,000 for a newly-invigorated program, contingent upon receipt and approval by the Committees on Appropriations of information including the mission, detailed program description, and spending plan for CTAC. The conferees understand that CTAC's new program will supplement and enhance other government-sponsored research in both drug supply and drug demand reduction, with a focus on development of new scientific technologies, including prevention technology research.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$239,000,000 for the High Intensity Drug Trafficking Areas Program (HIDTA), instead of \$248,000,000 as proposed by the House and \$234,000,000 as proposed by the Senate. The conference agreement specifies that each HIDTA be funded at not less than the fiscal year 2009 base level, unless the ONDCP Director submits to the Committees on Appropriations justification for changes to those levels based on clearly articulated priorities and published performance measures. The conferees intend that increased funding provided above the fiscal year 2009 level is for program adjustments and discretionary activities (particularly Native American programs and prevention programs). Allocation of funds among discretionary activities is to be determined in consultation with the HIDTA Directors, and the Committees on Appropriations are to be notified of planned uses not later than 90 days after enactment of this Act.

OTHER FEDERAL DRUG CONTROL PROGRAMS
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$154,400,000 for Other Federal Drug Control Programs, instead of \$132,400,000 as proposed by the House and \$174,750,000 as proposed by the Senate. The agreement allocates funds among specific programs as follows:

National Youth Anti-Drug Media Campaign	\$45,000,000
Drug-Free Communities Program	95,000,000
(National Community Anti-Drug Coalition training	2,000,000)

National Drug Court Institute	1,000,000
United States Anti-Doping Agency	10,000,000
World Anti-Doping Agency (U.S. membership dues)	1,900,000
National Alliance for Model State Drug Laws	1,250,000
Performance Measures Development	250,000

The conference agreement’s \$45,000,000 funding level for the media campaign is \$25,000,000 more than proposed by the House and \$25,000,000 less than proposed by the Senate. The conferees direct ONDCP to maintain funding for non-advertising services of the media campaign at not less than the fiscal year 2003 ratio and to continue the corporate outreach program. Further, the conferees direct that not more than 10 percent of the amount appropriated for the media campaign may be used for administration, advertising production, research and testing, labor, and related costs. To help save on production costs, the conferees suggest that ONDCP consider “recycling” advertisements from past years as well as developing new material. In order to combat methamphetamine use within scarce resources, the conferees encourage ONDCP to focus methamphetamine prevention advertising on geographic areas with the highest level of methamphetamine abuse.

UNANTICIPATED NEEDS

The conference agreement provides \$1,000,000 for unanticipated needs as proposed by both the House and the Senate.

PARTNERSHIP FUND FOR PROGRAM INTEGRITY INNOVATION
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$37,500,000 for the Partnership Fund for Program Integrity Innovation, instead of \$40,000,000 as proposed by both the House and the Senate. The agreement adopts the Senate approach of requiring establishment of an interagency council consisting of representatives of appropriate Federal agencies, States and other stakeholders to make decisions and determinations regarding pilot projects under the Partnership Fund and requiring the council to report semiannually to the Committees on Appropriations.

The conferees expect OMB to play a coordinating role in designing pilots, developing performance measures, and allocating funds, but intend that the interagency council will be the exclusive decision making body and that funds will be transferred to appropriate Federal agencies to manage and evaluate the individual pilot projects. The OMB Director, as chair of the council, should seek consensus and maximum input from council members and participating Federal and State agencies. Under the conference agreement, the interagency council, in consultation with OMB, will submit a progress report to the Appropriations Committees by March 31, 2010 and semiannually thereafter until the program is concluded. Reports are to include detailed information on goals, objectives, performance measures, and evaluations of the Partnership Fund and each pilot project, along with an operating plan detailing current and planned funding allocations.

SPECIAL ASSISTANCE TO THE PRESIDENT

SALARIES AND EXPENSES

The conference agreement provides \$4,604,000 for salaries and expenses to enable the Vice President to provide special assistance to the President as proposed by both the House and the Senate.

OFFICIAL RESIDENCE OF THE VICE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$330,000 for operating expenses for the official residence of the Vice President as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFERS OF FUNDS)

Section 201 provides transfer authority among various Executive Office of the President accounts.

Section 202 requires a detailed narrative and financial plan for Office of National Drug Control Policy funds.

Section 203 provides transfer authority among Office of National Drug Control Policy accounts.

Section 204 governs reprogramming of Office of National Drug Control Policy funds.

These administrative provisions were included in similar form in both the House and Senate versions of the legislation.

TITLE III

THE JUDICIARY

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

The conference agreement provides \$74,034,000 for the salaries and expenses of the Supreme Court as proposed by the House, instead of \$74,081,000 as proposed by the Senate.

CARE OF THE BUILDING AND GROUNDS

The conference agreement provides \$14,525,000 for the care of the Supreme Court building and grounds as proposed by both the House and the Senate.

UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

SALARIES AND EXPENSES

The conference agreement provides \$32,560,000 for the salaries and expenses of the United States Court of Appeals for the Federal Circuit, instead of \$33,577,000 as proposed by the House and \$32,300,000 as proposed by the Senate. The court appears to have

added additional staff during fiscal year 2009 beyond what was identified in its fiscal year 2009 financial plan. The conferees have not provided additional funds for fiscal year 2010 to cover the annualized cost of these new positions.

UNITED STATES COURT OF INTERNATIONAL TRADE
SALARIES AND EXPENSES

The conference agreement provides \$21,350,000 for the salaries and expenses of the United States Court of International Trade as proposed by the House, instead of \$21,374,000 as proposed by the Senate.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL
SERVICES
SALARIES AND EXPENSES

The conference agreement provides \$5,011,018,000 for the salaries and expenses of the Courts of Appeals, District Courts, and Other Judicial Services, instead of \$5,080,709,000 as proposed by the House and \$5,076,845,000 as proposed by the Senate. In addition, the agreement provides \$5,428,000 from the Vaccine Injury Compensation Trust Fund, as proposed by both the House and the Senate. Reductions in this account below the levels proposed in the House and Senate bills largely result from more recent estimates provided by the Judiciary, reflecting updated cost estimates and revised projections of fee income and carryover balances.

Five-Year Plan for Courthouse Construction.—The conferees appreciate the five-year priority plans for courthouse construction which have been provided by the Judicial Conference of the United States in recent years, and have found those plans to be helpful in their deliberations. Some construction projects have apparently been omitted from those plans, however, on the basis that the Judicial Conference intended them to be carried out through “build to suit” leases rather than through Federal construction. There is considerable disagreement as to the circumstances (if any) under which leasing might be more suitable than construction in the case of courthouses, and the conferees have directed that the General Services Administration and the Judiciary prepare a joint report on that issue. The conferees, therefore, strongly urge the Judicial Conference to provide one integrated list of courthouse construction priorities in future years, ranked in overall priority order regardless of the financing mechanism being proposed for each. That list should also include any construction projects deemed emergencies as well as any projects funded in prior years but for which additional funding is needed. A single list along these lines will facilitate due consideration of Judicial Branch priorities.

Greenville, Mississippi Federal Building and Courthouse.—The conferees understand that the United States Marshals Service (USMS) has serious concerns about the security deficiencies that exist in the current Federal building and courthouse facility in Greenville, Mississippi. These deficiencies have caused this facility to score among the lowest of such facilities in a nationwide USMS facility assessment. The conferees are concerned that these defi-

ciencies pose a security threat to USMS personnel and their protectees detained at the Greenville facility. The conferees request that the Judicial Conference review the security deficiencies of the Greenville facility, evaluate all alternatives to remedy this situation, and report its findings to the House and Senate Committees on Appropriations no later than 180 days after enactment of this Act.

DEFENDER SERVICES

The conference agreement provides \$977,748,000 for Defender Services, instead of \$982,699,000 as proposed by the House and \$975,504,000 as proposed by the Senate.

Panel Attorney Pay Rates.—The conference agreement increases the non-capital panel attorney rate from \$110 to \$125 per hour, instead of \$139 as proposed by the House and \$115 as proposed by the Senate. Private panel attorney rates in capital cases are provided a cost-of-living adjustment from \$175 to \$177 per hour.

FEEES OF JURORS AND COMMISSIONERS

The conference agreement provides \$61,861,000 for Fees of Jurors and Commissioners, instead of \$62,275,000 as proposed by both the House and the Senate.

COURT SECURITY

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$452,607,000 for court security, instead of \$457,353,000 as proposed by both the House and the Senate. The reduction in this account below the House and Senate level largely reflects updated estimates of costs for reimbursement of the Federal Protective Service.

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

SALARIES AND EXPENSES

The conference agreement provides \$83,075,000 for the salaries and expenses of the Administrative Office of the United States Courts, as proposed by both the House and the Senate.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

The conference agreement provides \$27,328,000 for the salaries and expenses of the Federal Judicial Center, as proposed by both the House and the Senate.

JUDICIAL RETIREMENT FUNDS

PAYMENT TO JUDICIARY TRUST FUNDS

The conference agreement provides \$82,374,000 for payments to the judiciary trust funds, as proposed by both the House and the Senate.

UNITED STATES SENTENCING COMMISSION
SALARIES AND EXPENSES

The conference agreement provides \$16,837,000 for the salaries and expenses of the United States Sentencing Commission, as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—THE JUDICIARY
(INCLUDING TRANSFER OF FUNDS)

Section 301 makes funds appropriated for salaries and expenses available for services authorized by 5 U.S.C. 3109.

Section 302 provides transfer authority among Judiciary appropriations.

Section 303 permits not more than \$11,000 to be used for official reception and representation expenses of the Judicial Conference.

Section 304 requires a comprehensive financial plan from the Judiciary, which will establish a baseline for reprogrammings and transfers.

Section 305 extends through fiscal year 2010 the delegation of authority to the Judiciary for contracts for repairs of less than \$100,000, as proposed by the House. The Senate proposed language amending 40 U.S.C. 3314(a) to make this delegation permanent.

Section 306 continues a pilot program under which the United States Marshals Service provides perimeter security services at selected courthouses.

Section 307 extends for one year the authorization of temporary district judgeships in Kansas, Ohio, and Hawaii. The House proposed language extending the judgeships in Kansas and Ohio while the Senate bill contained no similar provisions.

Except where otherwise noted, the provisions listed above were included in similar form in the House and Senate versions of the legislation. The conference agreement does not include language proposed by the Senate authorizing a cost-of-living salary adjustment for justices and judges of the United States during fiscal year 2010.

TITLE IV
DISTRICT OF COLUMBIA
FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

The conference agreement includes \$35,100,000 for District of Columbia resident tuition support as proposed by both the House and the Senate. The District of Columbia is expected to adhere to the authorizing statute with regard to the administrative expenses associated with operation of this program.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS
IN THE DISTRICT OF COLUMBIA

The conference agreement provides \$15,000,000 for emergency planning and security costs in the District of Columbia as proposed by the House instead of \$15,350,000 as proposed by the Senate.

The Senate proposed \$350,000 under this heading for the District of Columbia National Guard tuition assistance program. The conference agreement includes \$375,000 for the D.C. Guard tuition assistance program under the "Federal Payment for the District of Columbia National Guard" heading of this title.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

The conference agreement provides \$261,180,000 for the District of Columbia Courts, instead of \$268,920,000 as proposed by the House and \$258,517,000 as proposed by the Senate. Within the amount provided, \$12,022,000 is for the District of Columbia Court of Appeals, \$108,524,000 is for the District of Columbia Superior Court, \$65,114,000 is for the District of Columbia Court System, and \$75,520,000 is for capital improvements to Court facilities. Official reception and representation expenses for the Court of Appeals, Superior Court, and Court System are each limited to \$2,500 as proposed by the Senate instead of \$1,500 as proposed by the House.

FEDERAL PAYMENT FOR DEFENDER SERVICES IN DISTRICT OF
COLUMBIA COURTS

The conference agreement includes \$55,000,000 for Defender Services in District of Columbia Courts as proposed by both the House and the Senate.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA WATER AND
SEWER AUTHORITY

The conference agreement provides \$20,000,000 for the District of Columbia Water and Sewer Authority (WASA) as proposed by the Senate instead of \$20,400,000 as proposed by the House. The amount provided is to continue implementation of the Combined Sewer Overflow Long-Term Plan with a 100 percent match provided by WASA.

The conference agreement does not include funding proposed by the House for the District of Columbia Department of Environ-

ment to conduct a study of lead levels in the District of Columbia’s drinking water.

FEDERAL PAYMENT TO THE CRIMINAL JUSTICE COORDINATING COUNCIL

The conference agreement provides \$2,000,000 for the Criminal Justice Coordinating Council as proposed by the House instead of \$1,774,000 as proposed by the Senate.

FEDERAL PAYMENT FOR JUDICIAL COMMISSIONS

The conference agreement provides \$500,000 for Judicial Commissions as proposed by both the House and the Senate. Within the amount provided, \$295,000 is for the Commission on Judicial Disabilities and Tenure, and \$205,000 is for the Judicial Nomination Commission.

FEDERAL PAYMENT TO THE OFFICE OF THE CHIEF FINANCIAL OFFICER FOR THE DISTRICT OF COLUMBIA

The conference agreement provides \$1,850,000 to the Office of the Chief Financial Officer for the District of Columbia. The funding is for grants to the following organizations with the requirement that the funds be spent primarily in the District of Columbia to benefit District residents:

Project name	Amount
Children’s National Medical Center, Washington, DC, expand pediatric intensive care unit	\$1,000,000
Living Classrooms of the National Capital Region, Washington, DC, education and job skills training for disadvantaged young adults	100,000
National Building Museum, Washington, DC, education programs and exhibitions	150,000

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

The conference agreement includes \$75,400,000 for school improvement in the District of Columbia as proposed by the Senate instead of \$74,400,000 as proposed by the House. Within the amount provided, \$42,200,000 is to improve public school education, \$20,000,000 is to expand public charter schools, and \$13,200,000 is for the Secretary of Education for opportunity scholarships for low-income students in the District of Columbia for the 2010–2011 school year, of which up to \$1,000,000 may be used to administer and fund assessments, and up to \$1,000,000 may be used for testing of scholarship students to determine and compare academic performance of the participating schools as proposed by the Senate.

The conference agreement includes language proposed by both the House and the Senate specifying that opportunity scholarships funded in this Act for school year 2010–2011 be limited to students who received scholarships in school year 2009–2010.

The conference agreement continues the requirement that schools enrolling scholarship students have and maintain a valid

certificate of occupancy issued by the District of Columbia and that core subject matter teachers have 4-year bachelor's degrees as proposed by both the House and the Senate. The agreement includes new language requiring schools enrolling scholarship students to be in compliance with the accreditation and other standards prescribed for purposes of the District of Columbia compulsory school attendance laws as specified under title 5, chapter 21 of D.C. Municipal Regulations. The agreement also includes new language requiring the Secretary of Education to ensure that site inspections of participating schools are conducted at least twice annually.

The conference agreement includes language proposed by the Senate requiring the Secretary of Education to submit a report to Congress by June 15, 2010 detailing the academic rigor and quality of each participating school and that for the purposes of submitting the report the Secretary shall administer to eligible students participating in the Opportunity Scholarship Program the same tests of academic performance as those administered to students enrolled in the District of Columbia Public Schools in the 2009–2010 school year. The conference agreement does not include language proposed by the Senate specifying that after school year 2009–2010 only schools determined by the Secretary of Education to be of superior academic rigor and quality to D.C. Public Schools may participate in the scholarship program.

The conferees believe that questions as to the future of a school voucher program in the District of Columbia, including the appropriate rules and limitations for such a program, would best be decided by the elected representatives of the people of the District. This would put the District in the same position as other jurisdictions that decide whether or not to have a school voucher program, consistent with the principles of home rule.

Although the authorization for the Opportunity Scholarship Program has expired, as noted above the conference agreement includes funds to continue scholarships in school year 2010–2011 for those students already participating. The conferees are aware of proposals to expand the scholarship program to include additional students. If the elected leaders of the District decide that such proposals are in the best interests of students and families in the District, there is time prior to the beginning of school year 2010–2011 for the Mayor and Council to enact legislation establishing and funding a school voucher program that could admit additional students.

FEDERAL PAYMENT FOR CONSOLIDATED LABORATORY FACILITY

The conference agreement provides \$15,000,000 for a consolidated laboratory facility in the District of Columbia as proposed by both the House and the Senate. The conferees note that this is the final Federal payment needed to complete work on this important project.

FEDERAL PAYMENT FOR THE DISTRICT OF COLUMBIA NATIONAL GUARD

The conference agreement provides \$375,000 for the District of Columbia National Guard instead of \$2,375,000 as proposed by the House. The funds provided are for the D.C. National Guard tuition

assistance program. No funds are provided in the conference agreement for support costs associated with the D.C. National Guard.

The Senate did not propose funding for D.C. Guard support costs although the Senate proposed \$350,000 for the D.C. National Guard tuition assistance program under the “Federal Payment for Emergency Planning and Security Costs” heading of this title.

The conference agreement includes language proposed by the House that the D.C. National Guard’s tuition assistance program will hereafter be known as the “Major General David F. Wherley, Jr. District of Columbia National Guard Retention and College Access Program”. General Wherley was a former commanding general of the D.C. National Guard and was killed in the tragic Metrorail train crash that occurred in Washington, D.C. on June 22, 2009. As commanding general of the D.C. National Guard, General Wherley was in frequent contact with Congress in order to further the ability of the Guard to serve the citizens of the District of Columbia, as well as the Nation’s elected leadership. Among a number of initiatives, General Wherley advocated on behalf of the Capital Guardians for funding for a retention and college access program to ensure that members of the D.C. National Guard received some of the same benefits for their service as members of the National Guard in neighboring states. The D.C. National Guard and the entire community of the District of Columbia lost a dedicated leader and public servant in General Wherley. In honor of his service to the District of Columbia and his commitment to those he worked with, the D.C. National Guard tuition assistance program will hereafter carry his name.

FEDERAL PAYMENT FOR HOUSING FOR THE HOMELESS

The conference agreement provides \$17,000,000 for a permanent supportive housing program to reduce homelessness in the District of Columbia instead of \$19,200,000 as proposed by the House. The Senate version of the bill did not include funding for this program.

FEDERAL PAYMENT FOR YOUTH SERVICES

The conference agreement provides \$4,000,000 for a reconnecting disconnected youth program in the District of Columbia instead of \$5,000,000 as proposed by the House. The Senate version of the bill did not include funding for this program.

FEDERAL PAYMENT FOR PUBLIC HEALTH SERVICES

The conference agreement does not provide a Federal payment to the District of Columbia for HIV/AIDS prevention programs. The House proposed \$4,000,000 for this program; the Senate version of the bill did not include funding.

DISTRICT OF COLUMBIA FUNDS

The conference agreement provides authority for the District of Columbia to spend \$10,016,041,000 from the General Fund of the District of Columbia. Of the funds provided, \$5,637,824,000 is from local funds, of which \$394,417,000 is from the general fund balance; \$2,661,782,000 is from Federal grant funds; \$1,711,249,000 is

from other funds; and \$5,187,000 is from private funds. In addition, the District may use \$185,725,000 from funds previously appropriated in this Act as Federal payments.

For capital construction, the conference agreement provides an additional \$3,249,642,000. Of the funds provided, \$2,685,760,000 is from local funds; \$54,893,000 is from the District of Columbia Highway Trust Fund; \$186,805,000 is from the Local Street Maintenance Fund; and \$322,184,000 is from Federal grant funds. In addition, \$1,834,494,000 of prior year local funds and \$91,327,000 from Local Street Maintenance funds are rescinded. In total, \$1,323,821,000 is provided for capital construction.

Any changes to the financial plan submitted by the District of Columbia for Federal funds must follow the reprogramming guidelines set forth under title VIII of this Act.

TITLE V

INDEPENDENT AGENCIES

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

SALARIES AND EXPENSES

The conference agreement includes \$1,500,000 for the Administrative Conference of the United States (ACUS) as proposed by both the House and the Senate. The conferees expect ACUS to use 50 percent of fiscal year 2009 carryover balances to fund fiscal year 2010 operating expenses as permitted under section 609 of division D of the Omnibus Appropriations Act, 2009 (Public Law 111–8). Funds remain available until September 30, 2011 as proposed by the Senate.

CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

SALARIES AND EXPENSES

The conference agreement includes \$750,000 for the Christopher Columbus Fellowship Foundation, instead of \$1,000,000 as proposed by the Senate. The House did not include an appropriation for this account.

COMMODITY FUTURES TRADING COMMISSION

SALARIES AND EXPENSES

This conference agreement does not include funding for the Commodity Futures Trading Commission. While the Senate included funding for the Commission in its version of the bill, \$168,800,000 in fiscal year 2010 funding for the Commission has been enacted in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (Public Law 111–80).

CONSUMER PRODUCT SAFETY COMMISSION
SALARIES AND EXPENSES

The conference agreement includes \$118,200,000 for the Consumer Product Safety Commission (CPSC) as proposed by the House, instead of \$115,000,000 as proposed by the Senate.

Funding is provided for the ongoing implementation and enforcement of recently enacted consumer protection legislation, including the Consumer Product Safety Improvement Act, the Virginia Graeme Baker Pool and Spa Safety Act, and the Children's Gasoline Burn Prevention Act. Funding is also provided to support expansion of the CPSC's Import Safety Initiative which positions CPSC investigators at key ports of entry to stop defective products from entering the United States. The conferees expect new staff hires, including at key ports of entry, as part of these implementation and enforcement efforts.

The conference agreement also provides funding to assist the CPSC in further identifying and addressing problems that may be associated with imported drywall from China.

The conference agreement modifies House report language regarding the Consumer Product Safety Improvement Act (CPSIA) of 2008 (Public Law 110-314). The CPSIA was signed into law on August 14, 2008 and is considered to be the most significant piece of consumer protection legislation enacted since the CPSC was established in the early 1970s. The legislation received nearly unanimous bipartisan support in Congress. Congress passed this legislation in the wake of a massive number of consumer product recalls in 2007 and 2008—more than 20 million—many of which involved toys manufactured in China. The conferees strongly support this legislation but are aware of concerns surrounding implementation of certain aspects of the law. The conferees believe there may be parts of some products subject to the strict lead ban under section 101(a) of the CPSIA that likely were not intended to be included. This includes parts of youth motorized off-road vehicles and bicycles, and may include parts of some sporting equipment and ordinary books. The conferees urge the CPSC to continue considering exemptions under section 101(b) of the CPSIA for parts of products that, based on the CPSC's determination, present no real risk of lead exposure to children. The conferees are also aware of concerns among small manufacturers and crafters regarding the third-party testing requirements under section 102 of the CPSIA and urge the CPSC to consider those when issuing rules and guidance on third-party testing.

The conferees further encourage the CPSC to continue to work with the off-road vehicle and other industries to reduce lead content in accessible components of all children's products to the greatest extent possible, where complete compliance is deemed not necessary or not feasible by the CPSC. The conferees note that the CPSC has already instituted a stay of enforcement until May 1, 2011 on the lead standard with regard to youth motorized recreational vehicles (which include all-terrain vehicles, motorcycles, and snowmobiles) with the expectation that the industries would work constructively with the CPSC in reducing lead levels as feasible. The CPSC is directed to assess enforcement efforts of section

101(a), including difficulties encountered, as well as recommendations for improvement to the statute, and to report to the House and Senate Appropriations Committees, as well as the House Energy and Commerce Committee and the Senate Commerce, Science, and Transportation Committee, no later than January 15, 2010.

ELECTION ASSISTANCE COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$17,959,000 for the salaries and expenses of the Election Assistance Commission as proposed by the House, instead of \$16,530,000 proposed by the Senate.

Included in this total is \$3,500,000 to be transferred to the National Institute of Standards and Technology for election reform activities as proposed by the House. The Senate proposed a transfer of \$3,250,000. Further included in the total is \$750,000 for the Help America Vote College Program and \$300,000 for a competitive grant program to support community involvement in student and parent mock elections, as proposed by the House.

ELECTION REFORM PROGRAMS

The conference agreement provides a total of \$75,000,000 for this account, instead of \$106,000,000 as proposed by the House and \$52,000,000 as proposed by the Senate.

Within this total, \$70,000,000 is designated for requirements payments under the Help America Vote Act, compared to \$100,000,000 in the House bill and \$50,000,000 in the Senate bill. Also within the total is \$3,000,000 for grants to carry out research on voting technology improvements to ensure accessibility for voters with disabilities, and \$2,000,000 for a pilot program of grants to States and units of local government for pre-election logic and accuracy testing and post-election voting systems verification. The House proposed \$4,000,000 and \$2,000,000 for these grant programs, respectively, while the Senate proposed \$2,000,000 for voting technology research grants only.

FEDERAL COMMUNICATIONS COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$335,794,000 for the salaries and expenses of the Federal Communications Commission (FCC) as proposed by the House and the Senate. The House recedes to the Senate in providing that \$335,794,000 be derived from offsetting fee collections with no net direct appropriation.

The conferees believe that all persons living under the American flag, including those living in the United States territories, should have equal access to communications services.

The 9/11 Commission identified the need to increase the assignment of spectrum for first responders in its July 2004 report. The conferees are disappointed that the Federal Government has yet to address this critical need. The FCC is directed to work expeditiously to conduct a successful auction of the D Block spectrum

so that first responders have an interoperable communications network.

Conferees urge the FCC to ensure that public, educational, and governmental (PEG) channels remain on the basic service tier of programming and to prevent cable service providers from impeding the public's access to PEG programming.

The conferees are concerned that some Federal agencies may not be improving controls over wireless networks as delineated in the Government Accountability Office's 2005 report (GAO-05-383). Therefore, the conferees direct GAO to update its report and include a review of Federal agencies and their wireless networks, including an assessment of vulnerabilities to attack and unauthorized penetration; an examination of best practices within Federal agencies for deploying and monitoring secure wireless networks; and an assessment of state-of-the-art technology solutions that could help protect these networks. GAO shall report its findings to the House and Senate Committees on Appropriations within 120 days of enactment of this Act.

The conferees emphasize the importance of effective auditing of the Universal Service Fund (USF). The FCC is directed to work with the Universal Service Administrative Company and the FCC Inspector General to re-evaluate auditing processes to ensure that audits are more uniform and not unduly onerous, that all auditors are familiar with the telecommunications industry, and that lessons learned from audits are translated into better performance in the future. Senate report language requiring a report on USF audit activity within 60 days of enactment of this Act is adopted.

ADMINISTRATIVE PROVISIONS—FEDERAL COMMUNICATIONS
COMMISSION

Section 501 extends an exemption for the Universal Service Fund as proposed by the Senate. The House did not include a similar provision.

Section 502 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions as proposed by the Senate. The House did not include a similar provision.

FEDERAL DEPOSIT INSURANCE CORPORATION
OFFICE OF THE INSPECTOR GENERAL

The conference report includes \$37,942,000 to fund the Office of Inspector General (OIG) as proposed by both the House and the Senate. The OIG's appropriations are derived from the Deposit Insurance Fund. However, if the OIG performs work in connection with the Federal Savings and Loan Insurance Corporation Resolution Fund, the cost of such work can be derived from that Fund.

FEDERAL ELECTION COMMISSION
SALARIES AND EXPENSES

The conference agreement provides \$66,500,000 for the salaries and expenses of the Federal Election Commission, instead of \$65,100,000 as proposed by the House and \$67,000,000 as proposed

by the Senate. Of the increase provided above the President's budget request, \$1,500,000 is for maintaining current staffing levels and services, and \$1,000,000 is for addressing audit findings related to information technology, enhancing public access to electronic records, and addressing increased workload demands.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

The conference agreement includes \$24,773,000 for the Federal Labor Relations Authority as proposed by the House and the Senate.

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$291,700,000 for the salaries and expenses of the Federal Trade Commission (FTC) as proposed by the House, rather than \$289,300,000 as proposed by the Senate. This appropriation is partially offset by not to exceed \$102,000,000 from premerger notification filing fees and \$21,000,000 from fees to implement the Telemarketing Sales Rule. These offsets are the same as proposed by both the House and the Senate, except that the House proposed \$19,000,000 in fees from the Telemarketing Sales Rule.

The increase above the President's budget request provided in the conference agreement is to strengthen the FTC's capacity to protect consumers and prevent anti-competitive practices, as well as to support required activities related to health information technology provisions in the American Recovery and Reinvestment Act. Among other priorities, the conferees request the FTC to direct a portion of the increase toward investigations into fraud related to the housing crisis (including mortgage and other financial services fraud) and into unfair and deceptive practices associated with Federal programs promoting economic stimulus and stabilization. The conferees also note that, of the increase above fiscal year 2009, \$15,000,000 is to cover one-time relocation costs associated with the upcoming expiration of a lease.

The conferees appreciate that the FTC has delayed implementation of the Red Flags Rule while it works with health care providers and small businesses to minimize the burdens on providers and firms that present low risk for identity theft. The conferees urge the FTC to continue to work with these groups on the implementation of the Red Flags Rule.

The conferees also encourage the FTC to continue its efforts in the areas of call spoofing and violations of the Do Not Call Registry and to fully pursue further violations.

GENERAL SERVICES ADMINISTRATION
REAL PROPERTY ACTIVITIES
FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

The conference agreement provides resources from the General Services Administration (GSA) Federal Buildings Fund totaling \$8,543,585,000, instead of \$8,445,460,000 as proposed by the House and \$8,488,585,000 as proposed by the Senate.

Construction and Acquisition.—The conference agreement provides \$894,037,000 for construction and acquisition, instead of \$722,537,000 as proposed by the House and \$734,037,000 as proposed by the Senate. Funds are provided for the following specific construction projects and acquisitions, in the amounts indicated:

Alabama:		
Mobile, United States Courthouse		\$50,000,000
California:		
Calexico, Calexico West, Land Port of Entry		9,437,000
Colorado:		
Lakewood, Denver Federal Center Remediation		9,962,000
District of Columbia:		
Columbia Plaza		100,000,000
Southeast Federal Center Remediation		15,000,000
Florida:		
Miami, FBI Field Office Consolidation		190,675,000
Georgia:		
Savannah, United States Courthouse		7,900,000
Maine:		
Madawaska, Land Port of Entry		50,127,000
Maryland:		
White Oak, Food and Drug Administration Consolidation		137,871,000
Greenbelt, United States Courthouse		10,000,000
Pennsylvania:		
Lancaster, United States Courthouse		6,500,000
Texas:		
El Paso, Tornillo-Guadalupe, Land Port of Entry		91,565,000
San Antonio, United States Courthouse		4,000,000
Utah:		
Salt Lake City, United States Courthouse		211,000,000

The conferees understand that the need for a replacement courthouse in Yuma, Arizona, as discussed in the Senate report, will be addressed with funds previously appropriated.

Five-Year Construction Plans.—The conferees have included bill language that clarifies the requirement that the annual budget submission to Congress for GSA contain two separate 5-year plans. These plans were required by the Omnibus Appropriations Act, 2009 for fiscal year 2010 and thereafter. The conferees expect that GSA and the Office of Management and Budget will ensure that plans are submitted to Congress contemporaneously with the annual budget submission for fiscal year 2011 and each year thereafter. Requests for courthouse construction projects, including those proposed as lease-construction projects, shall be included in the 5-year plan for Federal construction, and this plan shall reflect the priorities of the Judicial Conference of the United States.

Report on Lease Construction.—The conferees reiterate language in the Senate report directing GSA and the Judicial Conference to submit a joint report to the Committees on Appropria-

tions within 120 days of enactment identifying the circumstances under which it would be appropriate to provide court facilities using a lease-construct strategy.

Repairs and Alterations.—The conference agreement provides \$413,776,000 for repairs and alterations, instead of \$400,276,000 as proposed by the House and \$453,776,000 as proposed by the Senate. Funds are provided for the following specific projects, in the amounts indicated:

District of Columbia:	
East Wing Infrastructure Systems Replacement	\$84,500,000
Eisenhower Executive Office Building Roof Replacement	15,000,000
New Executive Office Building	30,276,000
Special Emphasis Programs:	
Fire and Life Safety Program	20,000,000
Energy and Water Retrofit and Conservation Measures	2,000,000
Federal High-Performance Green Buildings	2,000,000
Basic Repairs and Alterations	260,000,000

While unable to appropriate the full amount needed for the East Wing Infrastructure Systems Replacement project, the conferees recognize the need for this undertaking and would support additional funding if it became available. The conferees understand that bids for construction projects have recently often been coming in below the budgeted amounts, and would invite a transfer/reprogramming request redirecting such savings to the East Wing project.

The conferees are strongly supportive of the special emphasis programs for Energy and Water Retrofit and Conservation Measures and Federal High-Performance Green Buildings. Although this conference report provides less for those two programs than appropriated in fiscal year 2009, that is only because large amounts are currently available for such purposes under the American Recovery and Reinvestment Act.

The conference agreement does not include the funding proposed by the Senate for the Eisenhower Executive Office Building Courtyard Replacement.

Installment Acquisition Payments.—The conference agreement includes \$140,525,000 for installment acquisition payments, as proposed by both the House and the Senate.

Rental of Space.—The conference agreement provides \$4,804,871,000 for rental of space, instead of \$4,843,996,000 as proposed by the House and \$4,829,871,000 as proposed by the Senate.

Building Operations.—The conference agreement provides \$2,290,376,000 for building operations, instead of \$2,338,126,000 as proposed by the House and \$2,330,376,000 as proposed by the Senate.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

The conference agreement appropriates \$59,665,000 for GSA Government-wide Policy activities, instead of \$63,165,000 proposed by the House and \$61,165,000 proposed by the Senate. The agreement does not provide the \$1,500,000 requested by the President to shift funding for certain expenses of the Federal Acquisition In-

stitute from the Acquisition Workforce Training Fund to this appropriation.

Office of Federal High-Performance Green Buildings.—The conference agreement, like the Senate bill, does not include language proposed by the House providing \$3,000,000 for the Office of Federal High-Performance Green Buildings. That Office and its mission remain a very high priority for the conferees. The only reason no new funding is included in this legislation is that GSA appears to have obligated little, if any, of the amount provided for the Office of Federal High-Performance Green Buildings in the American Recovery and Reinvestment Act (ARRA), and therefore ample carryover balances remain. The conferees reiterate the language in the Senate report directing GSA to use the funds provided in ARRA to hire the necessary staff and ensure that the Office immediately begins fulfilling its responsibilities, to submit to the Committees on Appropriations a detailed expenditure plan within 30 days of enactment of this Act, and to report on the obligation of the ARRA funds on a monthly basis.

Study on Pricing of Office Supplies.—The conferees note that GSA is authorized to award contracts to private firms under terms and conditions that mirror commercial practices for commercial supplies and services through its Multiple Award Schedule Program. Recently, some Federal agencies have announced savings through improvements in the process of purchasing office products outside of GSA's schedules. Therefore, the conferees direct the Administrator of GSA to review the ten largest Federal agencies to (1) determine the level of funds spent on office products during fiscal year 2009 through the GSA schedules and outside of these schedules, (2) compare the prices paid through the schedules and outside the schedules for representative items within major categories of individual office products, and (3) determine the extent to which agencies conducted a cost-benefit analysis of alternative options. The Administrator shall report to the Committees on Appropriations its findings not later than 180 days after enactment of this Act. Additionally, the conferees direct GAO to assess the data collected by GSA and report to the Committees on Appropriations its assessment, with particular attention on the potential for savings.

OPERATING EXPENSES

The conference agreement provides \$72,881,000 for operating expenses of GSA as proposed by the House instead of \$71,881,000 as proposed by the Senate. Included in this total is \$1,000,000 for a payment to the Oklahoma City National Memorial Foundation as proposed by the House.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$59,000,000 for the Office of Inspector General, instead of \$60,080,000 as proposed by the House and \$58,000,000 as proposed by the Senate.

ELECTRONIC GOVERNMENT FUND

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$34,000,000 for the Electronic Government Fund, instead of \$33,000,000 as proposed by the House and \$35,000,000 as proposed by the Senate. As specified in both bills, these funds may be transferred to other Federal agencies to carry out the purposes of the Electronic Government Fund, but only after a spending plan and explanation for each project has been submitted to the Committees on Appropriations.

ALLOWANCES AND STAFF FOR FORMER PRESIDENTS

The conference agreement includes \$3,756,000 for allowances and staff for former Presidents, as proposed by both the House and the Senate.

FEDERAL CITIZEN SERVICES FUND

The conference agreement appropriates \$36,515,000 for deposit into the Federal Citizen Services Fund and authorizes use of appropriations, revenues and collections in the Fund in an aggregate amount not to exceed \$61,000,000. These provisions are the same as proposed by both the House and the Senate.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

Section 510 specifies that funds are available for hire of motor vehicles.

Section 511 authorizes transfers within the Federal Buildings Fund, with advance approval of the Committees on Appropriations.

Section 512 prohibits use of funds to transmit a fiscal year 2011 request for courthouse construction unless the request meets design guide standards, reflects the priorities in the Judicial Conference 5-year construction plan, and includes a standardized courtroom utilization study.

Section 513 specifies that funds in this Act may not be used to increase the amount of occupiable space or provide services such as cleaning or security for any agency that does not pay the rental charges assessed by GSA.

Section 514 permits GSA to pay certain construction-related claims against the Federal Government from savings achieved in other projects.

Section 515 requires that the delineated area of procurement for leased space match the approved prospectus, unless the Administrator provides an explanatory statement to the appropriate congressional committees.

Section 516 authorizes certain relief and disaster assistance organizations to purchase from the Federal supply schedules.

All of these administrative provisions were included in both the House and Senate versions of the legislation.

SALARIES AND EXPENSES

The conference agreement includes \$660,000 for a payment to the Harry S Truman Scholarship Foundation Trust Fund as proposed by the Senate. The House did not propose funding for this purpose.

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$42,918,000 for the salaries and expenses of the Board as proposed by both the House and the Senate. MORRIS K. UDALL AND STEWART L. UDALL TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$2,500,000 for payment to the Morris K. Udall and Stewart L. Udall Trust Fund, instead of \$2,200,000 as proposed by the House and \$3,850,000 as proposed by the Senate. The conference agreement reflects the new name of the Foundation and the Trust Fund, as specified in the Morris K. Udall and Stewart L. Udall Foundation Act (Public Law 111-90).

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The conference agreement includes \$3,800,000 for payment to the Environmental Dispute Resolution Fund as proposed by the House, instead of \$3,000,000 as proposed by the Senate.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The conference agreement provides \$339,770,000 for operating expenses of the National Archives and Records Administration (NARA), as proposed by both the House and the Senate.

The conferees reiterate House language directing NARA to report to the Committees within 30 days of enactment on information security improvements made or planned, and further direct NARA to promptly inform relevant committees of jurisdiction when any formal law enforcement investigation is commenced into alleged theft of electronic or other materials which may contain personally identifying information.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$4,100,000 for NARA's Office of Inspector General as proposed by both the House and the Senate.

ELECTRONIC RECORDS ARCHIVES

The conference agreement provides \$85,500,000 for the Electronic Records Archives (ERA) project as proposed by both the House and the Senate. Of this amount, \$61,757,000 is available until September 30, 2012. The bill retains the directive requiring NARA to submit, and for the Committees on Appropriations to approve, a GAO-reviewed spending plan for ERA prior to the obligation of multi-year funds.

REPAIRS AND RESTORATION

The conference agreement provides \$27,500,000 for repairs and restoration as proposed by both the House and the Senate. Included in the amount is \$17,500,000, as requested by the President, for necessary expenses related to the repair and renovation of the Franklin D. Roosevelt Presidential Library in Hyde Park, NY, which NARA has listed as its top capital improvement priority.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION

GRANTS PROGRAM

The conference agreement provides \$13,000,000 for NARA's grants program as proposed by the House, instead of \$12,000,000 as proposed by the Senate. Of the amount provided, \$4,500,000, as requested, is for the initiative to provide online access to the papers of the Founding Fathers. The conference agreement does not specify further set-asides within this account.

NATIONAL CREDIT UNION ADMINISTRATION

CENTRAL LIQUIDITY FACILITY

For the second year, the conference report provides the National Credit Union Administration (NCUA) Central Liquidity Facility (CLF) the ability to lend, during fiscal year 2010, up to the maximum level provided for by section 307(a)(4)(A) of the Federal Credit Union Act. This gives the NCUA flexibility to assist with credit unions' financial liquidity during the current economic downturn. The NCUA will be expected to keep the House and Senate Committees on Appropriations fully informed on the activities of the CLF.

The conference report limits administrative expenses to \$1,250,000 as proposed by both the House and the Senate.

COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The conference report includes \$1,250,000 for the Community Development Revolving Loan Fund as proposed by the House, instead of \$1,000,000 as proposed by the Senate.

OFFICE OF GOVERNMENT ETHICS

SALARIES AND EXPENSES

The conference agreement provides \$14,000,000 for salaries and expenses of the Office of Government Ethics, instead of

\$14,415,000 as proposed by the House and \$13,665,000 as proposed by the Senate.

OFFICE OF PERSONNEL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The conference agreement provides \$215,708,000 for salaries and expenses compared to \$211,208,000 as proposed by the House and \$207,708,000 as proposed by the Senate. Within the amount provided, \$102,970,000 is a direct appropriation and \$112,738,000 is a transfer from Office of Personnel Management (OPM) trust funds.

The direct appropriation of \$102,970,000 includes \$5,908,000 to remain available until September 30, 2011 for the Enterprise Human Resources Integration project, and \$1,364,000 to remain available until September 30, 2011 for the Human Resources Line of Business project.

The transfer from trust funds of \$112,738,000 includes \$9,300,000 to remain available until September 30, 2011 for the cost of implementing the new integrated financial system, and \$4,000,000 to remain available until September 30, 2011 for the cost of automating the retirement recordkeeping systems.

The conference agreement includes funding for new initiatives to expand the recruitment and hiring of veterans government-wide, and to streamline the Federal hiring process.

The conference agreement also includes funding to pilot several wellness initiatives for Federal employees in areas such as smoking cessation, disease management and prevention, and risk assessment, as well as funding to conduct an Employee Viewpoint Survey (formerly known as the Human Capital Survey) annually instead of every other year as is the current practice, and with more comprehensive data analysis.

The conferees reiterate House report language directing that future work on the retirement modernization program move forward within the framework of the recommendations made by the Government Accountability Office in its April 2009 report (GAO-09-529) on the subject.

The conferees reiterate Senate report language directing OPM to carry out the Intergovernmental Personnel Act Mobility Program and to report to the Committees on Appropriations no later than 120 days after enactment of this Act on how the mobility program is being used to alleviate the nursing shortage and on the demonstrable steps OPM has taken to encourage government-employed nurses to teach at accredited schools of nursing.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The conference agreement provides \$24,363,000 for salaries and expenses of the Office of Inspector General instead of \$23,576,000 as proposed by the House and \$22,564,000 as proposed

by the Senate. Within the amount provided, \$3,148,000 is a direct appropriation and \$21,215,000 is a transfer from Office of Personnel Management trust funds. Increased funding is provided to cover standard pay adjustments for OIG staff and to support increased workload stemming from fraudulent background investigations.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH
BENEFITS

The conference agreement provides such sums as necessary for health benefits payments as proposed by both the House and the Senate.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEE LIFE
INSURANCE

The conference agreement provides such sums as necessary for life insurance payments as proposed by both the House and the Senate.

PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement provides such sums as necessary for retirement and disability payments as proposed by both the House and the Senate.

OFFICE OF SPECIAL COUNSEL
SALARIES AND EXPENSES

The conference agreement includes \$18,495,000 for the salaries and expenses of the Office of Special Counsel as proposed by both the House and the Senate.

POSTAL REGULATORY COMMISSION
SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$14,333,000 for the salaries and expenses of the Postal Regulatory Commission, as proposed by both the House and the Senate. It does not include language proposed by the House requiring any unobligated balances remaining at the end of fiscal years 2009 and 2010 to be transferred back to the Postal Service Fund.

Proposed Closings of Postal Facilities.—The conferees are aware of considerable public concerns about plans by the Postal Service to close or consolidate retail post offices and other mail facilities, and believe that the Postal Regulatory Commission has an important role to play in evaluating those concerns and fostering well-informed decision making. The conferees commend the Commission for undertaking its current investigation of the national service implications of the Postal Service “Station and Branch Optimization and Consolidation Initiative” and urge the Commission to initiate such other proceedings as appropriate to fully evaluate the effects of proposed closings and consolidations on service levels, costs, postal employees, and the affected communities. Among

other issues, the Commission should examine whether Postal Service actions, including notification and appeal procedures, are in accord with applicable law.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

SALARIES AND EXPENSES

The conference agreement provides \$1,500,000 for the salaries and expenses of the Privacy and Civil Liberties Oversight Board as proposed by the Senate, rather than \$2,000,000 as proposed by the House. The funds shall remain available for two years as proposed by the House, instead of one year as proposed by the Senate.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The conference report includes \$1,111,000,000 for the Securities and Exchange Commission (SEC), instead of \$1,036,000,000 as proposed by the House and \$1,126,000,000 as proposed by the Senate.

The conference report provides that the SEC Office of Inspector General shall receive no less than \$4,400,000 as proposed by the House, a provision not included in the Senate bill.

The conference report provides that, in addition to \$16,084,200 derived from prior year unobligated balances, an additional \$1,094,915,800 shall be derived from offsetting collections.

The SEC's Office of Global Security Risk shall submit reports to the House and Senate Committees on Appropriations every six months as described in the House and Senate reports and ensure that all companies sold on United States exchanges operating in State Department-designated terrorist-sponsoring states are disclosing such activities to investors.

The conferees acknowledge efforts to identify ways to harmonize oversight of futures and securities products to achieve greater protection of investors, ensure market integrity, and promote price transparency. The GAO is directed to assess the harmonization report issued on October 16, 2009 jointly by the SEC and the Commodity Futures Trading Commission and report to Congress not later than March 1, 2010 with comments on the report and recommendations on ways to reduce or eliminate discrepancies and gaps in oversight, enhance regulatory effectiveness and efficiency, and heighten market transparency.

An increase over the requested level is provided to support the SEC's performance-based pay system, as well as to enhance enforcement, capital market oversight, and investor protection activities, including investigations of accounting fraud, market manipulation, insider trading, and investment scams that target seniors and low-income communities. The SEC should also increase its effort to improve oversight of investment banking institutions.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

The conference agreement includes \$24,275,000 for the salaries and expenses of the Selective Service System, instead of \$24,400,000 as proposed by the Senate and \$24,150,000 as proposed by the House.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$433,438,000 for the salaries and expenses account of the Small Business Administration (SBA), instead of \$428,387,000 as proposed by the House and \$444,000,000 as proposed by the Senate.

Of the amount provided under this heading, \$248,088,000 is for operating expenses of the SBA including funds for an additional 80 full-time equivalents to address increased workload needs, and \$185,350,000 is for non-credit programs. In addition, \$153,000,000 from the Business Loans Program Account and \$75,588,200 from the Disaster Loans Program Account may be transferred to and merged with the Salaries and Expenses account for the administrative expenses related to those accounts.

The conferees direct that no less than the following amounts shall be dedicated to the following SBA non-credit programs:

Veterans Programs	\$2,500,000
7(j) Technical Assistance Programs	3,400,000
Small Business Development Centers	113,000,000
SCORE	7,000,000
Women's Business Centers	14,000,000
Women's Business Council	1,000,000
Native American Outreach	1,250,000
Drug-free Workplace Program	1,000,000
Microloan Technical Assistance	22,000,000
PRIME	8,000,000
HUBZone	2,200,000
Entrepreneurial Development Initiative	10,000,000
Total, non-credit programs	185,350,000

The conferees direct that the amounts provided for SBA's non-credit business assistance programs, as specified in the table above, shall be administered in the same manner as previous years and shall not be reduced, reallocated, or reprogrammed to provide additional funds for other programs, initiatives, or activities. In addition, the conferees expect that the National Ombudsman; the Office of Advocacy, including support for the Advocacy Database; international trade programs; and the defense transition program receive no less than the fiscal year 2009 level of funding.

The conference agreement includes language proposed by the Senate increasing from 25 percent to 50 percent for fiscal year 2010 the formula specified under section 7(m)(4)(A) of the Small Business Act for calculating microloan technical assistance grants to lending intermediaries. The conference agreement does not include language proposed by the Senate that would waive the matching fund requirements for intermediaries receiving microloan technical assistance grants.

The conference agreement includes \$10,000,000 for the Administrator's Entrepreneurial Development Initiative as proposed by the Senate instead of \$15,000,000 as proposed by the House. The conference agreement does not include language proposed by the Senate that would waive section 7(e) of the Small Business Act for the purpose of providing grant funding in executing this initiative. The conferees modify House report language directing SBA to submit a detailed spending plan for the Entrepreneurial Development Initiative within 45 days of enactment of this Act and that obligation of funds for the initiative will be contingent upon approval of such a spending plan by the House and Senate Committees on Appropriations. The plan should include a discussion of the strategies and goals of the Entrepreneurial Development Initiative and the methodologies for selecting funding recipients and assessing performance, as requested in the Senate report.

The conferees reiterate Senate report language strongly encouraging SBA to consider funding veterans' business outreach centers that have significant experience conducting outreach to veterans including those previously receiving Federal funding.

The conference agreement does not include funding for SBA relocation costs. The House and Senate proposed \$10,000,000 associated with a potential move of SBA headquarters to another location within Washington, D.C. A decision was made in October 2009 that SBA will be staying in its current building under a new lease, obviating the need to provide relocation costs in this Act. The conference agreement does provide funding to cover higher space rental and operating costs associated with the new lease.

The conference agreement provides sufficient funds to administer small business development and entrepreneurship initiatives provided in section 523.

The conference agreement includes language proposed by the Senate providing \$2,000,000 for the Federal and State Technology Partnership Program.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$16,300,000 for the Office of Inspector General of the Small Business Administration as proposed by both the House and the Senate. An additional \$1,000,000 is available for transfer into this account from the Disaster Loans Program Account.

SURETY BOND GUARANTEES REVOLVING FUND

The conference agreement provides \$1,000,000 for this account as proposed by both the House and the Senate.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$236,000,000 for the Business Loans Program Account as proposed by both the House and the Senate. Of the amount provided, \$3,000,000 is for the cost of direct loans in the microloan program, \$80,000,000 is for the cost of guaranteed loans as authorized by section 7(a) of the Small Business Act, and \$153,000,000 is for administrative expenses to carry

out the direct and guaranteed loan programs and may be transferred to and merged with Salaries and Expenses.

DISASTER LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes \$78,278,200 for the Disaster Loans Program Account instead of \$104,000,000 as proposed by both the House and the Senate. Of the amount provided, \$1,690,000 is for the cost of guaranteed loans, of which \$352,357 is for loan guarantees as authorized by section 42 of the Small Business Act, and \$1,337,643 is for loan guarantees as authorized by section 12085 of Public Law 110–246. The remaining \$76,588,200 is for administrative expenses to carry out the direct and guaranteed loan programs, of which \$65,278,200 is for direct administrative expenses of loan making and servicing to carry out the direct loan program, which may be transferred to and merged with Salaries and Expenses; \$9,000,000 is for indirect administrative expenses for the direct loan program, which may be transferred to and merged with Salaries and Expenses; \$1,000,000 is for the Office of Inspector General for audits and reviews of disaster loans and the disaster loan programs; and \$1,310,000 is for administrative expenses to carry out the guaranteed loan programs, which may be transferred to and merged with Salaries and Expenses. Any direct loan subsidies required in fiscal year 2010 will be derived from available unobligated balances.

The \$76,588,200 provided for disaster administrative expenses takes into account a November 2009 report from SBA regarding actual no-year balances that carried forward from fiscal year 2009 into fiscal year 2010. Actual carryforward balances for disaster administrative expenses are \$41,000,000 above the carryforward estimates included in the budget request. In light of this information, the conference agreement reflects a fiscal year 2010 appropriation \$25,721,800 below the amounts recommended by the House and the Senate. The conferees note, however, that when all sources of funding are considered, including the higher than anticipated carryforward balances, disaster administrative expenses are funded above SBA's fiscal year 2010 budget request in order to provide additional flexibility in the event fiscal year 2010 funding needs exceed the level requested.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 520 allows transfers between accounts as proposed by both the House and the Senate.

Section 521 as proposed by the Senate specifies that disaster loans issued in Alaska or North Dakota shall be administered by the Small Business Administration and shall not be sold during fiscal year 2010.

Section 522 makes a technical correction to Public Law 111–8.

UNITED STATES POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

The conference agreement provides \$118,328,000 for a payment to the Postal Service Fund, of which \$89,328,000 is an advance appropriation for fiscal year 2011 to continue free mail for the blind and for overseas voting materials, and of which \$29,000,000 is for the annual repayment of revenue foregone as required by law. These provisions are the same as proposed by both the House and the Senate.

The conference agreement includes provisions directing that mail for the blind and for overseas voting shall continue to be free and that six-day delivery and rural mail delivery shall continue at not less than the 1983 level. Further, it includes language prohibiting use of funds in this Act to charge a fee for providing information to child support enforcement programs or to consolidate or close small rural and other small post offices. All of these provisions were also contained in the House and Senate bills.

Closings of Postal Facilities.—Numerous concerns and criticisms have been brought to the attention of the conferees regarding Postal Service plans to close or otherwise consolidate various retail and mail handling facilities. The conferees believe that the Postal Regulatory Commission is an appropriate forum for evaluating these proposals and the attendant concerns and have urged that

the Commission take appropriate action to do so in language included under that heading.

In addition, the conferees direct the Government Accountability Office to update its previous studies regarding Postal Service initiatives to realign its mail processing network, including proposed closures or consolidations of area mail processing facilities, and to report to the Committees on Appropriations and other appropriate congressional committees not later than 6 months after enactment of this Act. GAO's study should address the criteria used in selecting facilities for closure or consolidation, whether those criteria are being applied reasonably and consistently in particular cases, the adequacy of efforts to communicate and consult with affected communities and stakeholders, and the quality of efforts to evaluate the results of closures and consolidations.

Financial Condition of the Postal Service.—The conferees are concerned about the financial condition of the Postal Service. In fiscal year 2009, the Postal Service posted a net loss of \$3.8 billion that would have totaled \$7.8 billion, had Congress not reduced the Postal Service's retiree health benefits payment by \$4 billion. Significant declines in mail volume, exacerbated by the struggling economy, have contributed to the most recent Postal Service financial crisis.

The conferees applaud the Postal Service for its efforts to reduce costs. In fiscal year 2009, the Postal Service reduced its operating expenses by \$6.1 billion. These cost-cutting efforts must continue in close coordination with stakeholders and with careful consideration of the effect proposed cuts may have on service and volume.

Despite cost-cutting efforts, the financial condition of the Postal Service remains dire. The conferees understand that the Postal Service has requested legislative relief from the requirement that the Postal Service pre-fund a significant portion of its future retiree health benefits through the end of fiscal year 2016. Congress reduced the fiscal year 2009 payment from \$5.4 billion to \$1.4 billion. The Postal Service continues to seek a reduction or elimination of future mandated payments.

The conferees understand that both the Postal Service Inspector General (IG) and the Postal Regulatory Commission (PRC) have reviewed the payment stream under the Postal Accountability and Enhancement Act of 2006 (PAEA). The IG concluded that the current schedule would result in an overpayment to the retirement fund by the end of fiscal year 2016, and the PRC study concluded that the unfunded liability would not be as high as originally estimated. Because some experts, including OPM, have expressed concerns about the assumptions made in the Postal Service IG and PRC reports, the conferees urge the Postal Service to coordinate with OPM and OMB to develop a fiscally responsible legislative proposal, for consideration by the appropriate congressional committees, that would grant a limited measure of relief from the PAEA requirements to pre-fund retiree health benefits. These proposals should consider: (1) whether the PAEA-mandated stream of future payments overfunds through fiscal year 2016 the anticipated liability of the Postal Service for future retiree health benefits, (2) whether modifications to the mandated payments could meet the

unliquidated liability goals contained in the PAEA, and (3) whether a decrease in mandated payments will reduce the incentive of the Postal Service to continue to cut additional costs.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$244,397,000 for the Office of Inspector General, as proposed by both the House and the Senate. It does not include language proposed by the House requiring any unobligated balances remaining at the end of fiscal years 2009 and 2010 to be transferred back to the Postal Service Fund.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

The conference agreement provides \$49,241,000 for salaries and expenses of the United States Tax Court as proposed by the Senate, instead of \$49,242,000 as proposed by the House.

TITLE VI

GENERAL PROVISIONS—THIS ACT

Section 601 prohibits paying expenses or otherwise compensating non-Federal parties in regulatory or adjudicatory proceedings funded in this Act.

Section 602 prohibits obligations beyond the current fiscal year and prohibits transfers of funds unless expressly so provided herein.

Section 603 limits consulting service expenditures to contracts where such expenditures are a matter of public record, with exceptions.

Section 604 prohibits funds from being transferred to any department, agency, or instrumentality of the United States without express authority provided in this or any other appropriations Act.

Section 605 prohibits the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

Section 606 prohibits funds from being expended unless the recipient agrees to comply with the Buy American Act.

Section 607 prohibits funding to a person or entity convicted of violating the Buy American Act.

Section 608 provides reprogramming authority and requires agencies to submit financial plans to the House and Senate Appropriations Committees.

Section 609 provides that not to exceed 50 percent of unobligated balances from salaries and expenses may remain available for certain purposes.

Section 610 provides that no funds may be used by the Executive Office of the President to request any official background investigation from the Federal Bureau of Investigation unless the person has given consent or there are national security circumstances.

Section 611 requires that cost accounting standards not apply to a contract under the Federal Employees Health Benefits Program.

Section 612 permits the Office of Personnel Management to accept funds regarding the nonforeign area cost of living allowances.

Section 613 prohibits the expenditure of funds for abortions under the Federal Employees Health Benefits Program.

Section 614 provides an exemption from section 613 if the life of the mother is in danger or the pregnancy is a result of an act of rape or incest.

Section 615 waives restrictions on the purchase of non-domestic articles, materials, and supplies in the case of acquisition by the Federal Government of information technology.

Section 616 prohibits the acceptance by any regulatory agency or commission funded by this Act, or by their officers or employees, of payment or reimbursement for travel, subsistence, or related expenses from any person or entity (or their representative) that engages in activities regulated by such agency or commission.

Section 617 provides authority for the Public Company Accounting Oversight Board to obligate funds for a scholarship program.

Section 618 rescinds \$1,500,000 in unobligated balances for the Privacy and Civil Liberties Oversight Board, as proposed by the Senate.

Section 619 defines "payment of cash in advance" for purposes of section 908(b)(1) of the Trade Sanctions Reform and Export Enhancement Act of 2000.

Section 620 revises the Federal and District of Columbia Government Real Property Act of 2006 to advance the date for GSA to transfer the Old Naval Hospital to the District to not later than 60 days after date of enactment of this Act, as proposed by the House.

Section 621 permits the SEC and CFTC to fund a joint advisory committee to advise on emerging regulatory issues, notwithstanding section 708 of this Act. This provision was not included in either the House or Senate bills.

Section 622 provides that projects contained in the House report that are considered congressional earmarks for purposes of clause 9 of House of Representatives rule XXI, when intended to be awarded to a for-profit entity, shall be awarded under a full and open competition. This provision was not included in either the House or Senate bills.

The above provisions were included in similar form in both the House and Senate unless otherwise noted.

The conference agreement does not include House section 619 prohibiting the use of funds in this Act to implement or enforce section 101(a) of the Consumer Product Safety Improvement Act (CPSIA) of 2008 in regard to youth motorized off-highway vehicles. The conferees note that off-highway vehicles manufactured and sold during fiscal year 2010 are not subject to the strict lead limits of the CPSIA. The conferees are aware that the Consumer Product Safety Commission (CPSC) granted a stay of enforcement of CPSIA section 101(a) for certain components of those vehicles until May 1, 2011, and that CPSC is requiring compliance plans from industry that will indicate how products will be modified to comply with

the lead standard as well as which parts have high lead content. The conferees recognize that practical issues exist in applying the CPSIA to these and certain other products, and address the issue in the CPSC account under title V.

The conference agreement does not include section 901 of the House bill concerning first-class travel by Federal employees. The conferees support Federal regulations stipulating that employees of Federal departments and agencies must use coach-class accommodations for official business travel except as provided under sections 301–10.123 and 301–10.124 of title 41 of the Code of Federal Regulations. The House language was redundant to those regulations.

TITLE VII

GENERAL PROVISIONS—GOVERNMENT-WIDE

DEPARTMENTS, AGENCIES, AND CORPORATIONS

Section 701 requires all agencies have a written policy for ensuring a drug-free workplace.

Section 702 sets specific limits on the cost of passenger vehicles with exceptions for police, heavy duty, electric hybrid and clean fuels vehicles.

Section 703 makes appropriations available for quarters/cost-of-living allowances.

Section 704 modifies provisions proposed by the House and the Senate that prohibit the use of appropriated funds to compensate officers or employees of the Federal Government in the continental United States unless they are citizens of the United States or qualify under other specified exceptions. This provision eliminates the differential treatment of individuals by country of origin and excepts from the prohibition individuals who are lawfully admitted for permanent residence and are seeking United States citizenship.

Section 705 ensures that appropriations made available to any department or agency for space, services and rental charges shall also be available for payment to the General Services Administration.

Section 706 allows the use of receipts from the sale of materials for acquisition, waste reduction and prevention, environmental management programs and other Federal employee programs as appropriate.

Section 707 allows funds for administrative expenses of government corporations and certain agencies to also be available for rent in the District of Columbia, services under 5 U.S.C. 3109, and the objects specified under this head.

Section 708 prohibits funds for interagency financing of boards (with exception), commissions, councils, committees or similar groups to receive multi-agency funding without prior approval.

Section 709 precludes funds for regulations which have been disapproved by joint resolution.

Section 710 sets ceilings on pay rates for certain Federal employees for fiscal year 2010.

Section 711 limits the amount of funds that can be used for redecoration of offices under certain circumstances to \$5,000, unless

advance notice is transmitted to the House and Senate Committees on Appropriations.

Section 712 allows for interagency funding of national security and emergency preparedness telecommunications initiatives.

Section 713 requires agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House.

Section 714 prohibits the payment of any employee who prohibits, threatens, prevents or otherwise penalizes another employee from communicating with Congress.

Section 715 prohibits Federal employee training not directly related to the performance of official duties.

Section 716 prevents funds from being used to implement or enforce non-disclosure agreement policies unless certain provisions are included.

Section 717 prohibits executive branch agencies from using funds for propaganda or publicity purposes in support or defeat of legislative initiatives.

Section 718 prohibits any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order.

Section 719 prohibits funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the government without the approval of the House and Senate Committees on Appropriations.

Section 720 prohibits the use of funds for propaganda and publicity purposes not authorized by Congress.

Section 721 directs agency employees to use official time in an honest effort to perform official duties.

Section 722 authorizes the use of funds to finance an appropriate share of the Federal Accounting Standards Advisory Board administrative costs.

Section 723 authorizes the transfer of funds to GSA to finance various government-wide initiatives in financial management, information technology, human capital, procurement, and performance improvement, under certain conditions.

Section 724 permits breastfeeding in a Federal building or on Federal property if the woman and child are authorized to be there.

Section 725 permits interagency funding of the National Science and Technology Council and requires OMB to provide a report on the budget and resources of the National Science and Technology Council.

Section 726 requires that the Federal forms that are used in distributing Federal funds must indicate the agency providing the funds, the Federal Domestic Assistance Number, and the amount provided.

Section 727 prohibits the use of funds to monitor personal information relating to the use of Federal Internet sites to collect, review, or create any aggregate list that includes personally identifiable information relating to access to or use of any Federal Internet site of such agency.

Section 728 requires health plans participating in the Federal Employees Health Benefits Program to provide contraceptive coverage and provides exemptions to certain religious plans.

Section 729 recognizes the U.S. Anti-Doping Agency as the official anti-doping agency for Olympic, Pan American and Paralympic sport in the United States.

Section 730 allows funds for official travel to be used by departments and agencies, if consistent with OMB and Budget Circular A-126, to participate in the fractional aircraft ownership pilot program.

Section 731 prohibits funds for implementation of OPM regulations limiting detailees to the Legislative Branch or implementing limitations on the Coast Guard Congressional Fellowship Program.

Section 732 restricts the use of funds for Federal law enforcement training facilities with an exception for the Federal Law Enforcement Training Center.

Section 733 prohibits funds for E-Government initiatives sponsored by OMB prior to 15 days following submission of a report to the House and Senate Committees on Appropriations and receipt of the Committees' approval to transfer funds. The section also prohibits funds for new E-Government initiatives without the explicit approval of the Committees.

Section 734 provides authority to transfer funds between agencies to ensure the uninterrupted, continuous operation of the Midway Atoll Airfield.

Section 735 prohibits funds to begin or announce a study or public-private competition regarding conversion to contractor performance pursuant to OMB Circular A-76.

Section 736 prohibits executive branch agencies from creating prepackaged news stories that are broadcast or distributed in the United States unless the story includes a clear notification within the text or audio of that news story that the prepackaged news story was prepared or funded by that executive branch agency.

Section 737 prohibits funds from being used in contravention of the Privacy Act or associated regulations.

Section 738 requires agencies to evaluate the creditworthiness of an individual before issuing a government travel charge card and prohibits agencies from issuing a government travel charge card to individuals who have an unsatisfactory credit history.

Section 739 requires OMB to submit a crosscut budget report on Great Lakes restoration activities not later than 45 days after the submission of the budget of the President to Congress.

Section 740 prohibits funds in this or any other Act to be used for Federal contracts with inverted corporations, unless the contract preceded this Act or the Secretary grants a waiver in the interest of national security.

Section 741 prohibits agencies from using funds to implement regulations changing the competitive areas under reductions-in-force for Federal employees.

Section 742 repeals section 748 of division D of the Omnibus Appropriations Act, 2009 (Public Law 111-8) to permit the President to modify or replace Executive Order 13423 with a new executive order, but it must achieve equal or better environmental and energy results.

Section 743 creates an annual requirement for every civilian agency to compile an inventory of service contracts performed for, or on behalf of, the agency during the prior fiscal year. In the ab-

sence of complete and reliable information on the extent of their reliance on service contractors, Federal agencies are not well-equipped to determine whether they have the right balance of contractor and in-house resources needed to accomplish their missions. This section requires agencies to review the contents of the inventory and report on actions taken and requires the Government Accountability Office to provide a series of reports on the implementation of the requirements in this section. It also modifies or replaces several provisions contained in the House and the Senate bills relating to tabulating the size of the Federal Government's contractor workforce.

Section 744 modifies Senate section 736 to provide that the adjustment in rates of basic pay for employees under statutory pay systems taking effect in fiscal year 2010 shall be an increase of 2 percent as recommended by the President and supported in the House bill. The conference agreement provides for a base pay adjustment and a locality pay adjustment.

Section 745 makes a technical correction to section 751 of division D of the Omnibus Appropriations Act, 2009 (Public Law 111-8).

Section 746 clarifies references to "this Act".

Section 747 establishes a disclosure and arbitration process to determine whether dealers that had their franchise agreements terminated or not assumed by a successor company should be added to dealer networks of automobile manufacturers partially owned by the Federal Government. This provision is a substitute for language contained in the House bill which also addressed concerns regarding terminated auto dealers. The Senate had no comparable provision.

The conferees believe that it is in the national interest that the United States automobile industry regain profitability and maintain sufficient dealerships to meet consumer demand. Evidence obtained in numerous Congressional hearings in 2009 demonstrates that automobile dealerships are integral parts of their local economy and provide millions of direct and indirect jobs in the United States. Automobile dealers are essential to the success of automobile manufacturers because they facilitate distribution, sales, and servicing of hundreds of millions of vehicles annually. It is also apparent to Congress that high-performing, historically profitable, and experienced automobile dealers with longstanding relationships with their customers are best positioned to help automobile manufacturers succeed financially. It is in the best interest of automobile manufacturers, the automotive industry, dealers, and the public to have a competitive and viable automobile distribution network throughout the country, including in urban, suburban, and rural areas. It is in the interest of the local economies, the national economy, and the economic recovery to preserve successful small businesses.

The conferees believe that this procedure will best protect the due process rights and property interests of all parties, and safeguard the economic public interest, including the substantial taxpayer investment in this critical industry. The approach taken by the conference agreement provides for an independent arbitrator to assess, on a case-by-case basis, the merits of each dealer's request

to be added to the automobile manufacturer's dealer network. By doing so, the Conferees expect that this policy will strengthen this key industry, bolster the nation's economic recovery, and benefit communities across the country.

The conference agreement would permit covered manufacturers and dealers to also, where they both prefer, to use voluntary negotiation outside the arbitration process where possible, to resolve issues of possible dispute, including equitable compensation.

The above provisions were included in similar form in both the House and Senate unless otherwise noted.

The conference report does not include House section 744 directing the Attorney General to transmit documents to Congress concerning notification of Miranda rights to captured foreign persons suspected of terrorism. The conferees understand that this issue has been addressed in the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

TITLE VIII

GENERAL PROVISIONS—DISTRICT OF COLUMBIA

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes the following general provisions for the District of Columbia:

Section 801 specifies that an appropriation for a particular purpose or object shall be considered as the maximum amount that may be expended for said purpose or object.

Section 802 authorizes appropriations for travel and dues of organizations.

Section 803 allows the use of local funds for making refunds or paying judgments against the District of Columbia government.

Section 804 prohibits the use of Federal funds for propaganda designed to support or defeat legislation before Congress or any state legislature, but allows the District of Columbia to use local funds to lobby on any matter.

Section 805 sets out reprogramming procedures for Federal funds.

Section 806 provides that appropriations under the Act shall be applied to objects for which the appropriation was made.

Section 807 prohibits the use of Federal funds for the salaries and expenses of a Shadow U.S. Senator or U.S. Representative.

Section 808 places restrictions on the use of District of Columbia government vehicles.

Section 809 prohibits the use of Federal funds for a petition or civil action which seeks to require voting rights for the District of Columbia in Congress.

Section 810 allows the District of Columbia to use local funds for needle exchange programs and allows the use of Federal funds for needle exchange programs provided that District health or law enforcement officials do not object. The House bill placed detailed geographic restrictions on the sites where needle exchange programs could be operated using either local or Federal funds, while the Senate bill prohibited use of Federal funds but did not restrict local funds.

Section 811 concerns a “conscience clause” on legislation that pertains to contraceptive coverage by health insurance plans.

Section 812 requires an annual report on crime, access to substance abuse treatment, management of parolees, education, rat abatement and indicators of child well-being as proposed by the Senate.

Section 813 prohibits the use of Federal funds to legalize or reduce penalties associated with the possession, use, or distribution of any schedule I substance under the Controlled Substances Act (or any tetrahydrocannabinols derivative) as proposed by the House.

Section 814 prohibits the use of Federal funds for abortion unless certain circumstances apply.

Section 815 requires the CFO to submit a revised operating budget no later than 30 calendar days after the enactment of this Act for agencies the CFO certifies as requiring a reallocation in order to address unanticipated program needs.

Section 816 requires the CFO to submit a revised operating budget for D.C. Public Schools, no later than 30 calendar days after the enactment of this Act, that aligns schools’ budgets to actual enrollment.

Section 817 authorizes the transfer of local funds to capital and enterprise funds.

Section 818 specifies that references to this Act in this title or title IV, are treated as referring only to the provisions of this title and title IV.

The above provisions were included in similar form in both the House and Senate unless otherwise noted.

DIVISION D—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2010, put in place by this division incorporates the following agreements of the managers. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the statement of the managers for this Act. Funding levels that are not displayed in the detailed table are identified within this statement of the managers. All references within this explanatory statement to the Recovery Act mean the American Recovery and Reinvestment Act of 2009 (Public Law 111–5).

In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 111–220 and Senate Report 111–66 accompanying the bill, H.R. 3293. In cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this explanatory statement.

In cases in which the House or the Senate report requests or directs the submission of a report, such report is to be submitted to both the Committees on Appropriations of the House of Representatives and the Senate.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this division, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram funds in excess of 10 percent or \$500,000, whichever is less, between programs, projects, and activities.

Departments and agencies funded in this division shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section

518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects, and activities, particularly in accounts where the final appropriation is different than that of the budget request. Further, these statements also shall include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2010 budget.

The conference agreement includes \$3,828,530,000 for Training and Employment Services instead of \$3,802,961,000 as proposed by the House and \$3,798,536,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an advance appropriation for fiscal year 2011 as proposed by both the House and the Senate.

Within the total for the Dislocated Worker Assistance National Reserve, the conference agreement does not include bill language to allow up to \$30,000,000 of this appropriation to be made available to the Career Pathways Innovation Fund as proposed by the Senate. The conferees urge the Secretary to give favorable consideration to grant applications from States whose allotment for dislocated worker employment and training activities in Public Law 111–8 was less than their allotment for such activities in Public Law 110–161. The conference agreement includes bill language to suspend section 173(e) of the Workforce Investment Act (WIA). Section 173(e) of the WIA facilitated the transition from the Job Training Partnership Act formula to the WIA formula; however, the WIA formula has been in effect for a decade and the transition is complete. The conferees note that suspending this provision will allow more funds to be available to respond to natural disasters and mass layoffs. Neither the House nor the Senate proposed a similar provision.

The conference agreement designates \$78,410,000 for migrant and seasonal farmworker formula grants instead of \$78,610,000 as proposed by the House and \$78,310,000 as proposed by the Senate. In addition, the conference agreement designates \$5,700,000 for migrant and seasonal farmworker housing instead of \$5,500,000 as proposed by the House and \$5,800,000 as proposed by the Senate.

Within the amount provided for Pilots, Demonstrations and Research, the conference agreement includes \$30,000,000 for a new competitive grant program to provide transitional jobs activities instead of \$35,000,000 as proposed by the House and \$40,000,000 as proposed by the Senate. The conference agreement provides an additional \$15,000,000 for these activities within the Reintegration of Ex-Offenders program, resulting in a total of \$45,000,000 for transitional jobs activities. The conferees direct the Department of Labor to consult with the Department of Health and Human Serv-

ices' Administration for Children and Families in designing the grant competition and awarding grants, consistent with House Report 111-220. In addition, the conferees note that funds should be used to leverage other resources to support program growth, consistent with Senate Report 111-66. The conference agreement includes bill language allowing up to 10 percent of funding for transitional jobs activities to be available for evaluation of such projects or transferred to the Department of Health and Human Services or the Department of Justice for support of transitional jobs activities as proposed by the Senate. The House bill included a provision to ensure that a sufficient portion of funds available for transitional jobs activities would be used for an evaluation of the program.

Within the amount provided for Pilots, Demonstrations and Research, the conference agreement also includes \$5,500,000 as proposed by the House to continue a program of competitive grants to address the employment and training needs of young parents. The Senate did not include funds for this activity. The Department should continue to award these competitive grants based on the criteria outlined in House Report 110-231.

The conference agreement includes \$48,889,000 for the following projects in the following amounts:

Within the funds provided for Reintegration of Ex-offenders, the conference agreement includes \$15,000,000 for transitional jobs activities as proposed by the House. The Senate included funds for transitional jobs activities within the Pilots, Demonstrations and Research program. The conference agreement designates that funds shall be available for obligation on April 1, 2010 as proposed by the Senate. The House proposed that funds shall be available for obligation on July 1, 2010. The conferees expect the Department of Labor to consult with the Department of Justice in awarding competitive grants for transitional jobs activities.

The conferees support the Department's proposed spending priorities for the Reintegration of Ex-offenders program, as identified in the congressional budget justification. Given that the conference agreement adopts a funding level below the request, the conferees request that an operating plan be submitted to the Committees on

Appropriations of the House of Representatives and the Senate not later than 45 days after enactment of this Act.

The conference agreement establishes a separate line item for the Career Pathways Innovation Fund. The Career Pathways Innovation Fund replaces the Community-Based Job Training Grants program, which previously received funding under the Dislocated Worker Assistance National Reserve. The conference agreement includes a set-aside of not less than \$65,000,000 for competitive grants that prepare workers for careers in the health care sector as proposed by the House. The Senate did not include a set-aside within the Career Pathways Innovation Fund.

The conferees note that from November 2000 to November 2009 manufacturing employment in the United States declined by more than 5.5 million jobs. The conferees encourage the Secretary to consider competitive grant opportunities to train and place returning veterans, the underemployed, high school graduates, and traditional manufacturing employees so they can achieve the skills necessary to fill jobs in growing sectors of the high skilled, high tech and precision manufacturing industry.

The conferees direct the Department of Labor and the Department of Health and Human Services to establish an interagency taskforce and submit a strategic plan for addressing emerging needs in the health care sector, consistent with House Report 111-220.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The conference agreement includes \$825,425,000 for Community Service Employment for Older Americans (CSEOA) instead of \$615,425,000 as proposed by the House and \$575,425,000 as proposed by the Senate. Within the total, \$225,000,000 is available upon the enactment of this Act and shall remain available through December 31, 2011. Neither the House nor the Senate proposed a similar availability period.

The conferees are aware that additional resources provided in the Recovery Act are insufficient to meet the needs of low-income older workers adversely impacted by the recession. Many CSEOA grantees are maintaining waiting lists for available community service jobs but are unable to fill those jobs due to funding limitations. In determining those current grantees that can effectively use funds made available immediately in this Act, the Secretary should take into account demonstrated need, financial management, and sustained and satisfactory performance.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The conference agreement includes \$4,113,681,000 for State Unemployment Insurance and Employment Service Operations instead of \$4,097,056,000 as proposed by the House and \$4,113,806,000 as proposed by the Senate.

The conference agreement includes \$60,000,000 for in-person reemployment and eligibility assessments and unemployment insurance improper payment reviews. This amount includes \$50,000,000 available for these purposes through a discretionary spending cap adjustment established in the fiscal year 2010 con-

gressional budget resolution. In addition to increasing support for in-person reemployment and eligibility assessments, the Department should continue to make a portion of these funds available for technology-based overpayment prevention, detection, and collection activities. In fiscal year 2009, the Department funded State requests for technology-based projects through a combination of the discretionary spending cap adjustment and the appropriation for State Operations for Unemployment Insurance. The conferees encourage continuation of this practice.

The conference agreement includes \$12,000,000 within One-Stop Career Centers and Labor Market Information funding to carry out the language in Senate Report 111-66 regarding disability-related employment planning and activities. The Senate proposed \$12,000,000 for these activities, along with an additional \$12,000,000 in the Office of Disability Employment Policy (ODEP) account. The House proposed \$10,000,000 in ODEP for similar activities.

ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS

The conference agreement includes such sums as necessary for Advances to the Unemployment Trust Fund and Other Funds as proposed by both the House and the Senate. The conference agreement also includes bill language to reestablish the longstanding policy of making funds in this account available for two fiscal years. Neither the House nor the Senate proposed a similar provision.

PROGRAM ADMINISTRATION

The conference agreement includes \$147,656,000 for Program Administration instead of \$146,406,000 as proposed by the House and \$148,906,000 as proposed by the Senate.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$154,861,000 for the Employee Benefits Security Administration instead of \$154,060,000 as proposed by the House and \$155,662,000 as proposed by the Senate.

EMPLOYMENT STANDARDS ADMINISTRATION

SALARIES AND EXPENSES

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The conference agreement includes \$493,506,000 for the Employment Standards Administration (ESA) instead of \$486,756,000 as proposed by the House and \$498,956,000 as proposed by the Senate.

The conferees support the Administration's reorganization of ESA to eliminate overlapping leadership and management positions. The conference agreement includes bill language to allow funds identified in the table accompanying this Act for ESA Program Direction and Support to be reallocated among the agencies

included in this account or transferred to any other account within the Department for the same purposes. Neither the House nor the Senate proposed a similar provision.

The conference agreement rescinds \$50,000,000 from unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act instead of \$65,000,000 as proposed by both the House and the Senate. The rescission is effective on September 30, 2010 as proposed by the House. The Senate proposed that the rescission be effective on September 1, 2010. Sufficient funds will remain to enable the Department of Labor to conduct enforcement activities under the current legislative authority. The conference agreement also includes bill language in section 524 to provide additional authority for ESA to conduct enforcement programs and activities that focus on industries likely to employ nonimmigrants.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES OCCUPATIONAL
ILLNESS COMPENSATION FUND

The conference agreement includes \$51,900,000 for the Energy Employees Occupational Illness Compensation Program Act (EEOICPA) instead of \$51,197,000 as proposed by both the House and the Senate. The funding level reflects expansion of the Office of the Ombudsman's responsibilities to include claimants for benefits under Part B of the EEOICPA, as authorized by the National Defense Authorization Act for fiscal year 2010.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION
SALARIES AND EXPENSES

The conference agreement includes \$558,620,000 for the Occupational Safety and Health Administration (OSHA) instead of \$554,620,000 as proposed by the House and \$561,620,000 as proposed by the Senate.

Within the funds provided for Federal Enforcement, the conferees intend for the Department to use the increase above the fiscal year 2009 funding level to continue a multi-year process of rebuilding OSHA's enforcement capacity and increasing the pace of standard setting.

The conference agreement includes bill language designating that grants to States shall be no less than 50 percent of the costs of State occupational safety and health programs required to be incurred under plans approved by the Secretary as proposed by the House. The Senate proposed that grants to States may be up to 55 percent of the costs of State occupational safety and health programs.

The conferees strongly urge the Secretary not to permanently redistribute any of the additional State Plan grant funding provided under this appropriation for which a State is unable to provide its required match in fiscal year 2010 because of the pressures on State budgets. The Secretary is further urged to adopt past agency practice that would allow each State an opportunity next fiscal year to match and receive funding that is available but was not matched this fiscal year.

The conferees believe that after every effort is made to allow State grant funds to be matched by States—consistent with past

agency practice—any remaining funds that cannot be matched in fiscal year 2010 by States should be reprogrammed for Federal enforcement activities, consistent with section 516 of this Act. Utilizing maximum flexibility to respond to individual State issues related to the match requirement, or reprogramming for Federal enforcement, will meet the goal of increasing resources that can lead to improved workplace safety and health for America's workers.

The conferees include \$1,000,000 within OSHA to continue a recordkeeping enforcement initiative on injury and illness recording, consistent with Senate Report 111-66. The House did not include a similar provision.

MINE SAFETY AND HEALTH ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$357,293,000 for the Mine Safety and Health Administration (MSHA) instead of \$353,193,000 as proposed by the House and \$357,143,000 as proposed by the Senate.

The conference agreement includes \$2,000,000 over the budget request for MSHA to increase spot inspections in the active workings of coal mines for the purpose of obtaining compliance with section 202 of the Federal Coal Mine Health and Safety Act of 1969. The conferees expect MSHA to submit quarterly reports on enforcement of section 202 of such Act, including findings from the spot inspection program, to the Committees on Appropriations of the House of Representatives and the Senate. Within the amount available for standards development, the conference agreement provides sufficient funding for MSHA to conduct risk assessments for the proposed rules to reduce miners' exposure to respirable coal mine dust and silica and related regulatory activities.

The conferees direct the Secretary to provide sufficient resources for the National Mine Safety and Health Academy and MSHA's Approval and Certification Center, consistent with Senate Report 111-66. The conference agreement continues to recognize the Joseph A. Holmes Safety Association as a principal safety association as proposed by the Senate. The conference agreement does not make this recognition permanent as proposed by the House.

Within the amount provided for Program Administration, the conference agreement provides \$1,450,000 for an award to the United Mine Workers of America to continue a project, initiated with the fiscal year 2008 appropriation, for classroom and simulated rescue training for mine rescue teams as proposed by the Senate. The House did not include a similar provision.

BUREAU OF LABOR STATISTICS

SALARIES AND EXPENSES

The conference agreement includes \$611,447,000 for the Bureau of Labor Statistics (BLS) instead of \$611,623,000 as proposed by the House and \$611,271,000 as proposed by the Senate.

The conference agreement continues bill language providing that the Current Employment Survey shall maintain the content of the survey issued prior to June 2005 with respect to the collection

of data for the women worker series as proposed by the House. The Senate did not include a similar provision. The conferees include \$1,300,000 within BLS funding to continue efforts to improve injury and illness data, consistent with Senate Report 111-66. The House did not include a similar provision.

OFFICE OF DISABILITY EMPLOYMENT POLICY

SALARIES AND EXPENSES

The conference agreement includes \$39,031,000 for the Office of Disability Employment Policy (ODEP) as proposed by the Senate instead of \$37,031,000 as proposed by the House.

The conference agreement includes \$12,000,000 within ODEP funding to carry out the language in Senate Report 111-66 regarding disability-related employment planning and activities. The Senate proposed \$12,000,000 for these activities, along with an additional \$12,000,000 in the ETA account. The House included \$10,000,000 in the ODEP account for similar activities.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$355,154,000 for Departmental Management instead of \$350,154,000 as proposed by the House and \$357,154,000 as proposed by the Senate.

International Labor Affairs Bureau

The conference agreement includes \$92,669,000 for the International Labor Affairs Bureau (ILAB) instead of \$91,419,000 as proposed by the House and \$93,919,000 as proposed by the Senate. The conference agreement also includes new language providing ILAB with an extra quarter to obligate funding for its technical assistance programs and authority to support microfinance activities. The conferees take this action to better enable ILAB to design its international labor activities, confirm government support for proposed programs and collaborate closely with the State Department and other program partners in effectively utilizing this appropriation.

The conference agreement designates \$40,000,000 for the United States' contribution to the International Labour Organization's International Program for the Elimination of Child Labor in order to expand this successful effort. The conference agreement also designates \$20,000,000 to continue the program of basic education grants in countries where the growing numbers of children removed from abusive and exploitative child labor need access to basic education, to be administered in accordance with Senate Report 111-66.

In addition, the conference agreement designates \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States has trade preference programs as proposed by the House. The Senate included a similar directive in its report.

The conferees also support the Department's proposed spending priorities for research, policy, reporting, and administration—as identified in the congressional budget justification. The increased funding level over fiscal year 2009 is sufficient to support an additional 12 full-time equivalents (FTE)—consistent with House Report 111–220—including 4 FTEs for the Office of Child Labor, Forced Labor, and Human Trafficking.

Legal Services

For Legal Services, the conferees agree that the increased funding level over fiscal year 2009 is intended to include adequate enforcement support for the Mine Safety and Health Administration.

OFFICE OF JOB CORPS

The conference agreement provides \$1,708,205,000 for the Office of Job Corps instead of \$1,705,320,000 as proposed by the House and \$1,711,089,000 as proposed by the Senate.

The conference agreement includes sufficient funds, together with funds from previous fiscal years, to support construction of a new Job Corps center previously approved through the competitive bidding process. The conference agreement also includes sufficient funds to initiate a competition for two new Job Corps centers. In the selection process, the conferees direct the Department to follow guidance provided in House Report 111–220 and Senate Report 111–66 regarding the criteria to be considered in selecting two new sites.

VETERANS EMPLOYMENT AND TRAINING

The conference agreement includes \$256,127,000 for Veterans Employment and Training instead of \$257,127,000 as proposed by the House and \$255,127,000 as proposed in the Senate.

GENERAL PROVISIONS

OPERATING PLAN

The conference agreement continues a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research, and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds as proposed by the House. The Senate did not include a similar provision.

WORKFORCE INVESTMENT ACT PROVISIONS

The conference agreement continues a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted as proposed by the Senate. The House did not include a similar provision.

TRANSFER PLAN

(INCLUDING TRANSFER OF FUNDS)

The conferees direct the Secretary to submit a plan for the transfer of the administration of the Job Corps program from the Office of the Secretary to the Employment and Training Administration as proposed by the House. Not less than 30 days after submitting the plan to the Committees on Appropriations of the House of Representatives and the Senate, the Secretary may transfer the administration and appropriation of the Job Corps program from the Office of the Secretary and the provisions of section 102 of Public Law 109-149 shall no longer be applicable. The Senate bill contained a similar provision.

TITLE II

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The conference agreement includes \$7,498,522,000 for health resources and services, of which \$7,473,522,000 is provided as budget authority and \$25,000,000 is made available under section 241 of the Public Health Service Act instead of \$7,331,817,000 as proposed by the House and \$7,263,799,000 as proposed by the Senate.

The conference agreement includes bill language designating \$1,000,000 of funding for Rural Flexibility Grants to telehealth services, including pilots and demonstrations using electronic health records to coordinate rural veterans care with the Department of Veterans Affairs VISTA-Electronic Health Record. The Senate proposed \$2,000,000 for this activity. The House did not propose funding.

The conference agreement includes \$800,000 within Rural Outreach Grants for the community health integration models demonstration authorized in the Medicare Improvements for Patients and Providers Act of 2008 as proposed by the Senate. The House did not propose to fund the demonstration.

The conferees intend that telehealth funding may be used for new and existing regional and national resource centers that focus on operational clinical, statutory, or regulatory barriers to the delivery of telehealth services including credentialing and licensure and the establishment of one or more resource centers focused on telehomecare. The Senate proposed similar language. The House did not propose language.

The conference agreement does not include bill language allocating funding for base grant adjustments for existing community health centers as proposed by the House. The Senate did not propose a similar provision.

The conference agreement includes no less than the fiscal year 2009 funding level for Native Hawaiian Health Care activities within the Community Health Centers program as proposed by the Senate. The House did not propose similar language.

The conferees expect that the \$75,000,000 included for State Health Access Grants will be awarded in the same manner and with the same requirements as in fiscal year 2009 consistent with House Report 111-220. The Senate did not propose similar language.

The conference agreement includes bill language providing \$1,932,865,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2012, as proposed by the House. The Senate proposed \$1,916,873,000.

The conference agreement includes language proposed by the House limiting 2009 program year reductions in Ryan White Part A grants for metropolitan and transitional areas to 7.6 percent by providing \$6,021,000 for supplemental grants for fiscal year 2009. The Senate bill did not propose similar language.

The conference agreement does not include bill language proposed by both the House and Senate continuing legislative authority for Ryan White activities through fiscal year 2010. This language is not necessary because the reauthorization for the program has recently been signed into law.

The conferees intend that the Health Resources and Services Administration (HRSA) allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at a level above the fiscal year 2009 funding level. The House proposed a specific level of funding, and the Senate proposed funding at no less than the fiscal year 2009 level for the Minority AIDS Initiative.

The conference agreement includes bill language setting aside \$92,551,000 for Special Projects of Regional and National Significance (SPRANS) as proposed by the Senate instead of \$92,649,000 as proposed by the House. The conference agreement assumes the following set-asides within SPRANS:

Budget activity	House	Senate	Conference
Oral Health	\$4,859,000	\$4,859,000	\$4,859,000
Epilepsy	4,000,000	3,416,000	3,708,000
Sickle Cell	3,774,000	3,774,000	3,774,000
First-time Motherhood	4,956,000	4,956,000	4,956,000
Doulas	1,504,000	1,504,000	1,504,000
Fetal Alcohol Syndrome	0	486,000	486,000

In addition to the SPRANS funding for Oral Health activities, an additional \$17,500,000 is included for Dental Health Improvement Act State grants (authorized under section 340G of the Public Health Service Act) within Allied Health. The House proposed \$20,000,000 for these State grants. The Senate proposed \$10,000,000.

The conferees intend that doula demonstration funding be allocated evenly among urban and rural settings, with an emphasis on breastfeeding initiation and retention as proposed by the Senate. The House proposed similar language.

The conference agreement includes bill language that identifies not less than \$7,575,000 for General Dentistry programs and not less than \$7,575,000 for Pediatric Dentistry programs, including Faculty Loan Repayment, as proposed by the Senate. The House proposed \$5,000,000 for the dentistry programs. The conference

agreement also includes bill language stating that Dental Faculty Loan Repayments shall be made using the same terms and conditions as the Nursing Faculty Loan Repayment program unless otherwise authorized. This is similar to language proposed by the Senate. The House did not propose comparable language.

The conferees expect HRSA to use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments consistent with Senate Report 111-66. The House did not propose similar language.

The conferees are aware that the National Health Service Corps may require fewer amendments to contracts made under the Recovery Act than were anticipated. The conferees intend that funds provided in the Recovery Act for amendments may also be used for new scholar and loan repayment awards. The conferees also intend that Recovery Act funds provided for National Health Service Corps field operations may be used to fund multi-year contracts that support the orientation, monitoring, compliance, and relocation of scholar and loan repayment awardees who received funding through the Recovery Act.

The conference agreement includes funding for Allied Health Training programs as follows:

Budget activity	House	Senate	Conference
State Dental Health Grants	\$20,000,000	\$10,000,000	\$17,500,000
Chiropractic-medical School Demo Grants	1,945,000	1,945,000	1,945,000
Graduate Psychology Training	1,945,000	3,945,000	2,945,000

The conferees intend that the increase over fiscal year 2009 funding for Public Health, Preventive Medicine, and Dental Public Health programs be used to expand fellowships and training in the area of Preventive Medicine as proposed by the Senate. The House did not propose similar language.

The conferees intend that, as proposed by the Senate, the funding increase over fiscal year 2009 for the Nurse Education, Practice, and Retention program be used to establish a new initiative to train nursing home aides and home health aides, with grants made to colleges or community-based training programs. The House did not propose this provision.

The conference agreement includes bill language providing \$10,000,000 as a direct lump sum payment to the Denali Commission as proposed by the Senate. The House did not propose funding for the Denali Commission. The conferees concur in the language proposed in Senate Report 111-66 regarding the allocation of Denali Commission funding. The House did not propose any Denali Commission language.

The conference agreement includes bill language providing \$35,000,000 for the Delta Health Initiative as authorized in section 219 of division G of Public Law 110-161, and associated administrative costs. The Senate proposed \$40,000,000 for this initiative, which was not funded in the House bill.

The conference agreement includes bill language not proposed in either the House or the Senate bill authorizing a three-year grant period for the Patient Navigator program.

The conferees intend that the Traumatic Brain Injury Protection and Advocacy Services component of the Traumatic Brain Injury program receive the same proportion of funding it received in fiscal year 2009 as proposed by the House. The Senate proposed similar language.

Within the funding provided for the Autism and Other Related Developmental Disorders program, the conference agreement includes an increase of not less than \$2,200,000 to expand the Leadership Education in Neurodevelopmental and Related Disabilities (LEND) program as proposed by the House. The Senate did not specify a funding level for the LEND program. In addition, the conference agreement includes an increase of not less than \$2,200,000 for research on evidence-based practices for interventions for indi-

viduals with autism and other developmental disabilities instead of \$2,000,000 as proposed by the Senate. The House did not specify a funding level for this research activity.

The conferees understand that the Organ Procurement and Transplantation Network (OPTN) is planning a forum to consider further changes in policy regarding the broader allocation of donor livers in addition to the June 2009 Status 1 recipients OPTN decision. However, HRSA has informed the conferees that a further policy proposal will not be ready for the OPTN Board to review before 2011 or 2012. At least six months before any further change is implemented, the conferees direct OPTN to submit to the Committees on Appropriations of the House of Representatives and the Senate a report analyzing and describing the potential impact of any changes to broaden the geographic allocation of livers on the following:

(1) Access to transplantation for all patients who are listed at both smaller volume transplant centers and who are listed at centers outside major urban areas;

(2) Mortality of all patients on a waiting list at either smaller volume transplant centers or transplant centers located outside major urban areas;

(3) Model for End-Stage Liver Disease (MELD) score of all patients at time of transplant;

(4) Access to transplant and mortality rates for all patients whose primary insurance is Medicare or Medicaid and who are on waiting lists;

(5) Organ wastage rates;

(6) One-year and three-year graft and patient survival, and total years prolonged by transplantation;

(7) Ischemia time and function of the donor liver;

(8) Transportation and other costs associated with broadening the sharing of donor livers; and

(9) Organ donation rates and public attitudes on organ donation (such as willingness to donate) in aggregate and in localities that are net exporters of organs.

The report shall also describe in detail all comments received up to one year prior to and/or in conjunction with the OPTN 2010 public forum on broader allocation of livers, as well as any comments received from a planned subsequent public comment period, and shall indicate what steps will be taken to address such public comments.

No changes to current OPTN policy on broader allocation of livers shall be permitted (a) prior to the submission of this report, and (b) absent formal notification to the Committees on Appropriations of the House of Representatives and the Senate. Further, the conferees direct that any policy change on broader allocation of livers be tested first in demonstrations, similar to the demonstration recently conducted in Iowa and North and South Dakota, before nationwide implementation, and be made in an incremental manner, reflecting the accumulation and analysis of data on the impact of policy changes.

The conferees have included \$1,000,000 within the organ transplantation program to support the costs of developing the report described above.

The conference agreement includes sufficient resources to allocate funding to all certified poison control centers, or centers granted a waiver by the Secretary, based on service population. The Senate proposed similar language. The House did not propose any language.

COVERED COUNTERMEASURE PROCESS FUND

The conference agreement does not include funding for the Covered Countermeasure Process Fund as proposed by the House. The Senate proposed \$5,000,000 for the Fund. The Fund received support from fiscal year 2009 supplemental appropriations provided in Public Law 111–32.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The conference agreement includes \$6,390,387,000 in discretionary appropriations for Disease Control, Research, and Training at the Centers for Disease Control and Prevention (CDC) instead of \$6,314,032,000 as proposed by the House and \$6,733,377,000 as proposed by the Senate. In addition, \$352,357,000 is made available under section 241 of the Public Health Service (PHS) Act instead of \$368,863,000 as proposed by the House and \$40,075,000 as proposed by the Senate.

Infectious Diseases

Immunization and Respiratory Diseases

Within the program level total for Immunization and Respiratory Diseases, the conference agreement includes the following amounts:

Budget activity	House	Senate	Conference
Section 317 Immunization Program	\$496,847,000	\$496,847,000	\$496,847,000
Program Operations	61,621,000	63,621,000	62,621,000
Influenza	158,992,000	158,992,000	158,992,000
Pandemic Influenza	156,344,000	156,344,000	156,344,000

Within the total for Program Operations, the conference agreement includes a \$1,000,000 increase for vaccine safety research instead of a \$2,000,000 increase as proposed by the Senate. The House did not propose similar language.

HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Within the total for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, the conference agreement includes the following amounts:

Budget activity	House	Senate	Conference
Domestic HIV/AIDS Prevention and Research	\$744,914,000	\$711,045,000	\$727,980,000
HIV Prevention by Health Departments	N/A	N/A	328,887,000
HIV Surveillance	N/A	N/A	109,455,000
National, Regional, Local, Community, and Other Organizations	N/A	N/A	134,793,000
Enhanced HIV Testing	N/A	N/A	65,273,000
Improving Program Effectiveness	N/A	N/A	89,572,000
Viral Hepatitis	20,150,000	18,367,000	19,259,000

Budget activity	House	Senate	Conference
Sexually Transmitted Diseases	152,750,000	N/A	153,875,000
Tuberculosis	144,268,000	144,268,000	144,268,000

In order to support a multi-faceted approach to HIV research and prevention practices, the conferees have established five new sub-budget lines that are structured around the principles of transparency, accountability, and comprehensiveness. The conferees expect that the fiscal year 2011 budget justification will follow this format, providing detailed explanations of funded activities, and how any proposed increases or reductions will be applied across each line. The conferees further insist that any future movement of funds between these lines must go through the formal re-programming review process.

The conference agreement does not include bill language regarding the Early Diagnosis Grants program. The House proposed bill language specifically eliminating funding for the program while the Senate proposed to limit funding for the program to \$15,000,000. The Ryan White HIV/AIDS Treatment Extension Act of 2009 did not reauthorize this activity; therefore, the conferees expect CDC not to carve out any funding for this activity in fiscal year 2010.

Within the total for Domestic HIV/AIDS Prevention and Research programs, the conference agreement provides funding at no less than the fiscal year 2009 level to support activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The House proposed \$95,700,000 for these activities. The Senate did not propose similar language.

The conferees direct CDC to include in the fiscal year 2011 congressional budget justification a description of efforts and timelines to update hepatitis C screening guidelines, including information on pilot studies that are ongoing and planned for the future using a one-time, age-based screen to target the age demographic with the highest prevalence. Neither the House nor the Senate proposed similar language.

The conferees intend that the increase provided for STD prevention be used to expand Infertility Prevention Services and Infrastructure Projects in all regions as proposed by the Senate. The House did not propose similar language.

Zoonotic, Vector-borne, and Enteric Diseases

Within the total for Zoonotic, Vector-borne, and Enteric Diseases, the conference agreement includes the following amounts:

Budget activity	House	Senate	Conference
Vector-borne Diseases, including West Nile Virus.	\$26,717,000	N/A	\$26,717,000
Lyme Disease	8,938,000	N/A	8,938,000
Food Safety	26,942,000	N/A	26,942,000
Prion Disease	5,474,000	N/A	5,474,000
Chronic Fatigue Syndrome	4,825,000	N/A	4,825,000

Preparedness, Detection, and Control of Infectious Diseases

Buildings and Facilities

Within the amount provided for Buildings and Facilities, the conference agreement includes \$30,000,000 for nationwide repairs and improvements of existing facilities as proposed by both the House and Senate and \$39,150,000 for Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia instead of \$78,300,000 as proposed by the Senate. The House did not propose funding for new construction.

The conference agreement also includes bill language proposed by the Senate that CDC shall award a single contract or related contracts for the development and construction of facilities in the Master Plan that collectively include the full scope of the project and that the solicitation and contract shall contain the clause "availability of funds". The House did not propose similar language.

Business Services and Support

The funds for Business Services and Support are intended for CDC to carry out its business functions, including, but not limited to, administrative services, financial management, security and emergency preparedness, and procurement and grants. Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level.

NATIONAL INSTITUTES OF HEALTH

The conference agreement includes \$31,008,788,000 for the 26 accounts that comprise the National Institutes of Health (NIH)

total appropriation instead of \$31,258,788,000 as proposed by the House and \$30,758,788,000 as proposed by the Senate. In addition, the conference agreement continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, which is the same as the House and Senate bills. Appropriation levels for individual institutes and centers are described in the table at the end of this statement of managers. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The National Cancer Institute (NCI) reports that it is meeting the funding level identified for pediatric cancer research in the Caroline Pryce Walker Conquer Childhood Cancer Act of 2008 within its base budget. The conferees commend NCI for its attention to this issue.

NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$304,000,000 by transfer from the Project BioShield Special Reserve Fund (BioShield) instead of a transfer of \$500,000,000 as proposed by the House. The Senate bill did not propose a transfer of BioShield funding.

OFFICE OF THE DIRECTOR

The conference agreement includes bill language providing up to \$193,880,000 for continuation of the National Children's Study. The House bill provided up to \$194,400,000 for continuation of the study. The Senate bill did not identify a particular funding level.

The conference agreement includes funding for a one percent increase in research training stipends instead of a two percent increase as proposed by the House. The Senate did not identify a specific training stipend increase.

Unless otherwise noted in this statement, the conferees expect NIH to follow the budget policy assumptions of the President's fiscal year 2010 budget and the accompanying explanatory materials.

The conferees expect NIH to notify the Committees on Appropriations of the House of Representatives and the Senate each time the Director uses the statutory one percent transfer authority as proposed in House Report 111-220. The Senate did not include similar language.

The conference agreement includes \$5,000,000 for a bioethics initiative administered through the institutes and centers as proposed by the House. The Senate did not identify a funding level for the initiative.

The conference agreement provides that, as proposed in Senate Report 111-66, with regard to section 516 of the bill, "program, project, or activity" applies to all sub-mechanisms and stand-alone activities in institute and center mechanism tables, except for the research project grants mechanism, in which case the restriction applies at the subtotal level. The House did not include comparable language. The conferees understand that NIH is upgrading its financial business system and is implementing hard funds controls. The conferees expect NIH to ensure that these funds controls will

be established at the levels identified above to proactively enforce the reprogramming thresholds. The conferees request a detailed explanation and timeline in the 2011 congressional budget justification describing how the NIH enterprise system will proactively ensure full compliance with the reprogramming thresholds.

The conferees expect that NIH will work to strengthen its policy of supporting AIDS and non-AIDS research funding allocations at the current relative rate when allocating the second year of Recovery Act funding. House Report 111-220 had similar language. The Senate did not include comparable language.

BUILDINGS AND FACILITIES

The conference agreement includes sufficient funding to support the construction of the Northwest Child Care Center on the Bethesda campus as proposed in House Report 111-220. The Senate did not include comparable language.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The conference agreement includes \$3,431,624,000 for Substance Abuse and Mental Health Services instead of \$3,419,438,000 as proposed by the House and \$3,429,782,000 as proposed by the Senate. In addition, the conference agreement makes available \$131,585,000 under section 241 of the Public Health Service (PHS) Act, which is the same as both the House and Senate.

Within the total provided for Programs of Regional and National Significance across the Substance Abuse and Mental Health Services Administration (SAMHSA), the conference agreement includes \$4,897,000 for the Minority Fellowship Program instead of \$5,093,000 as proposed by the House and \$4,701,000 as proposed by the Senate. The distribution of these funds between the Center for Mental Health Services (CMHS), the Center for Substance Abuse Treatment (CSAT), and the Center for Substance Abuse Prevention (CSAP) is detailed later in this statement.

Within the increase provided for the National Traumatic Stress Network above the fiscal year 2009 funding level, the conference agreement includes \$1,800,000 to fund additional adaptation centers, which help apply general principles of trauma services to particular populations. The conferees are particularly interested in ensuring that there will be an adaptation center focused on domestic violence and child abuse. Neither the House nor the Senate proposed similar language.

The conference agreement includes \$1,000,000 above the fiscal year 2009 funding level to the National Center for Child Traumatic Stress for data analysis and reporting activities that improve evidence-based practices and raise the standard of trauma care. The conference agreement includes \$5,000,000 for a new Community Resilience and Recovery Initiative, as proposed by the House. The Senate did not propose similar language. According to SAMHSA, economic problems create additional emotional stress leading to increased suicide, crime, domestic violence, child neglect and abuse, and alcohol and drug problems. This new initiative will take advantage of SAMHSA's experience in providing services in local communities to support evidence-based programs to help address the emotional stress and the resultant behaviors.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The conference agreement includes a program level of \$397,053,000 for the Agency for Healthcare Research and Quality (AHRQ) instead of \$372,053,000 as proposed by both the House and Senate. The conference agreement makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

Within the total for Research on Health Costs, Quality and Outcomes, the conference agreement includes \$21,000,000 for Patient-Centered Health Research instead of \$12,500,000 as proposed by the House and \$50,000,000 as proposed by the Senate. Of the funding provided, \$12,500,000 is to cover the continuation costs of current research grants and \$8,500,000 is for the Developing Evidence to Inform Decisions about Effectiveness (DEcIDE) Network. The DEcIDE Network conducts accelerated practical studies about the outcomes, comparative clinical effectiveness, safety, and appropriateness of health care items and services.

As proposed by the House, the conferees do not intend for the patient-centered health research funding to be used to mandate coverage, reimbursement, or other policies for any public or private payer. The funding shall be used to conduct or support research to evaluate and compare the clinical outcomes, effectiveness, risk, and benefits of two or more medical treatments and services that address a particular medical condition. Further, the conferees recognize that a “one-size-fits-all” approach to patient treatment is not the most medically appropriate solution to treating various conditions. Research conducted should be consistent with Departmental policies relating to the inclusion of women and minorities. The Senate did not propose similar language.

Within the total for Research on Health Costs, Quality and Outcomes, the conference agreement includes \$15,904,000 for the Prevention and Care Management program instead of \$24,404,000 as proposed by the House and \$7,100,000 as proposed by the Sen-

ate. Funding shall be used consistent with the language in House Report 111–220.

Within the total for Research on Health Costs, Quality and Outcomes, the conference agreement includes \$27,645,000 for Health Information Technology as proposed by the Senate instead of \$32,320,000 as proposed by the House.

Within the total for Research on Health Costs, Quality and Outcomes, the conference agreement includes \$176,689,000 for crosscutting activities related to quality, effectiveness, and efficiency research instead of \$169,514,000 as proposed by the House. The Senate did not propose similar language. Within the Patient Safety total, the conference agreement includes \$25,000,000 for patient safety and medical liability reform demonstrations. Neither the House nor the Senate proposed similar language. The conferees are aware that medical liability concerns may lead doctors to practice “defensive medicine,” which in turn may contribute to higher costs in our health care system. The conferees are concerned about this and the possible implications that the fear of liability may be having on the delivery of health care services. Therefore, the conference agreement includes this funding for a three-pronged initiative consisting of demonstration grants to States and health systems to test implementation and evaluation of evidence-based patient safety and medical liability projects, grants to States and health systems to plan for implementation and evaluation of evidence-based patient safety and medical liability demonstrations, and a rapid and comprehensive review of initiatives that improve health care quality and reduce liability.

The demonstration projects should test models that meet the following goals: put patient safety first and work to reduce preventable injuries; foster better communication between doctors and their patients; ensure that patients are compensated in a fair and timely manner for medical injuries, while also reducing the incidence of frivolous lawsuits; and reduce liability premiums.

As proposed by the House, within the Patient Safety total the conference agreement includes \$25,000,000 for healthcare-associated infections prevention activities. The Senate did not propose similar language. Funding shall be used consistent with the language in House Report 111–220.

Within the Patient Safety total, the conference agreement includes \$9,000,000 for the Methicillin-Resistant *Staphylococcus Aureus* (MRSA) Collaborative Research Initiative instead of \$10,000,000 as proposed by the House. The Senate did not propose similar language.

The conference agreement does not include bill language proposed by the Senate identifying \$81,600,000, made available for two years, to implement provisions in the Medicare Improvements for Patients and Providers Act of 2008. The House proposed similar language. The Senate did not propose language.

The conferees are concerned that the delivery of telehealth services may be disrupted by HHS requirements that result in duplicative credentialing and privileging of remote providers. The conference agreement includes bill language transferring \$304,000,000 from the Project BioShield SRF to the National Institute of Allergy and Infectious Diseases (NIAID) instead of \$500,000,000 as proposed by the House. The Senate did not propose a similar transfer to NIAID. Together with the \$305,000,000 transfer proposed by both the House and Senate for Advanced Research and Development, a total of \$609,000,000 will be transferred from the Project BioShield SRF. As of October 31, 2009, data from HHS indicate that \$3,033,000,000 remains unobligated and available in the Project BioShield SRF, therefore after these transfers a total of \$2,424,000,000 will be available through fiscal year 2013 to procure and stockpile emergency medical countermeasures.

Within the total for Preparedness and Emergency Operations, the conference agreement includes sufficient funding to prepare for and respond to non-Stafford Act National Special Security Events and other planned and unplanned events. The House proposed this transfer authority at the account level.

INTERNATIONAL HEALTH ACTIVITIES STAFFING

The conference agreement continues a general provision allowing Department of Health and Human Services health activities abroad to be supported under State Department authorities and includes an additional provision as proposed by the Senate authorizing the Secretary to pay personnel assigned abroad allowances and benefits similar to those for foreign service officers. Services to amend regulations by May 1, 2010 regarding financial conflict of interest among National Institutes of Health extramural investigators and institutions. The House did not propose a similar provision.

The conferees are concerned that occurrences of conflict of interest among extramural grantees are investigated only when a complaint is received by the Department of Health and Human Services Office of Research Integrity. The conferees encourage NIH to develop a system for periodic review of conflict of interest documentation at extramural institutions to give some assurance that the new conflict of interest regulations have an effect.

TITLE III

DEPARTMENT OF EDUCATION

EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$15,914,666,000 for Education for the Disadvantaged instead of \$15,938,215,000 as proposed by the House and \$15,891,132,000 as proposed by the Senate. The conference agreement provides \$5,073,490,000 in fiscal year 2010 and \$10,841,176,000 in fiscal year 2011 funding for this account.

For Title I School Improvement Grants, the conference agreement includes bill language permitting fiscal year 2010 appropriations and funds appropriated under the Recovery Act for these grants to be used by local educational agencies to serve any Title I, part A-eligible school that has not made adequate yearly progress for at least two years or is in a State's lowest quintile of performance based on proficiency rates and, in the case of secondary schools, priority shall be given to those schools with graduation rates below 60 percent. Both the House and Senate proposed similar language.

The conference agreement modifies bill language proposed by the Senate permitting the Secretary to establish minimum and maximum subgrant sizes applicable to fiscal year 2010 and Recovery Act funds for Title I School Improvement Grants. The conference agreement includes bill language permitting each State educational agency to award subgrants of up to \$2,000,000 in size for each school eligible for Title I School Improvement Grants funding. The House did not propose similar language.

For school improvement activities authorized under section 1003(a) of the Elementary and Secondary Education Act (ESEA), the conference agreement includes a technical clarification in bill language as proposed by the Senate clarifying that Title I funds appropriated in the Recovery Act are excluded from the calculation of amounts States may reserve for school improvement activities under section 1003(a) of the ESEA. The House proposed similar language.

The conference agreement does not include bill language proposed by the House requiring each State educational agency to ensure that not less than 50 percent of its allocation under Title I School Improvement Grants is used for evidence-based reading instruction. For the Striving Readers program, the conference agreement modifies bill language proposed by the Senate designating funds under section 1502 of the ESEA for a comprehensive literacy program, including pre-literacy skills, reading, and writing, for students from birth through grade 12. Of the total provided for this initiative, certain funds are reserved: (1) \$10,000,000 for formula grants to States to support State Literacy teams, (2) one-half of one percent for the Secretary of Interior for the Bureau of Indian Education, (3) one-half of one percent for outlying areas, (4) and up to five percent for national activities conducted by the Secretary of Education. The remainder of the funds must be used for competitive awards to State educational agencies, of which up to five percent may be used for State leadership activities and not less than 95 percent shall be awarded as subgrants to local educational agencies or other entities, giving priority to such agencies or entities serving greater numbers or percentages of disadvantaged children. The conference agreement provides that State subgrants must be allocated as follows: (1) at least 15 percent to serve children from birth through age five, (2) 40 percent to serve students in kindergarten through grade five, and (3) 40 percent to serve students in middle and high school, through grade 12, including an equitable distribution of funds between middle and high schools. Eligible entities receiving comprehensive literacy program subgrants must use these funds for services and activities that have certain characteristics of effective literacy instruction. The House proposed other funding designations for adolescent literacy, early literacy, and national activities and evaluation related to early childhood and adolescent literacy.

The conferees direct the Department to prepare an implementation plan for K-12 literacy-related activities including, but not limited to, activities under Title I School Improvement Grants, Striving Readers, Reading is Fundamental, Reach Out and Read, and the Institute of Education Sciences, as proposed by the House. The Senate report did not propose similar report language. This plan shall be submitted to the Committees on Appropriations of the

House of Representatives and the Senate not later than 30 days prior to release of a request for proposals under the Striving Readers program.

The conferees request that the Department of Education Office of Inspector General (OIG) continue to monitor the Department's implementation of procedures to identify, disclose, and manage potential conflicts of interest, as the Department implements this new comprehensive reading initiative. The conferees request that the OIG submit a report to the Committees on Appropriations of the House of Representatives and the Senate within one year after enactment of this Act assessing the adequacy of such procedures.

Within the amount for the High School Graduation initiative, the conference agreement provides that up to \$5,000,000 may be used for peer review, technical assistance, dissemination, evaluation, and other national activities as proposed by both the House and the Senate. The conferees direct the Department to provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate on the planned uses of funds for this initiative not less than 30 days prior to a request for proposals as proposed by the House. The Senate did not propose similar report language.

New Leaders for New Schools (NLNS) shall utilize these funds to support the organization's efforts to develop and deliver training for aspiring principals and support for principals, and conduct research to create a national knowledge base to inform the recruitment, selection, and training of principals

for high-need schools. NLNS and its partners shall provide not less than a 150 percent match in cash or in-kind for the Federal funds provided for this initiative. The match may consist of cash or in-kind offerings by private philanthropy or public sources, including funding allocated by partner State and school systems, and may be used for any purpose related to the program's recruitment, training, and residencies for aspiring principals, the ongoing coaching and support of those school leaders, as well as related research activities. The conference agreement also modifies bill language for the Charter School program proposed by the House mandating that the Secretary of Education reserve \$10,000,000 to carry out technical assistance, including such assistance to authorized public chartering agencies in order to increase the number of high-performing charter schools; and that each Charter School program application describe a plan to monitor and hold accountable authorized public chartering agencies through such activities as providing technical assistance or establishing a professional development program. The bill language also mandates that each Charter School program application contain assurances that State law, regulations, or other policies require: (1) each authorized charter school in the State to operate under a legally binding charter or performance contract, conduct audits, and demonstrate improved achievement; and (2) authorized public chartering agencies to use increases in student achievement for all groups of students as the most important factor in renewing or revoking a school's charter. (INCLUDING DEFERRAL OF FUNDS)

The conference agreement includes \$19,296,809,000 for Student Financial Assistance as proposed by the Senate instead of \$19,634,905,000 as proposed by the House.

The conference agreement includes \$17,495,000,000 for the Pell Grant program as proposed by the Senate instead of \$17,783,395,000 as proposed by the House. The funds in this conference agreement will support a \$4,860 maximum Pell grant for the 2010–2011 award year. With the additional funds provided under the College Cost Reduction Act and the Recovery Act, the total maximum Pell grant will increase to \$5,550 for the 2010–2011 award year, an increase of \$200 over the previous award year.

The conference agreement defers \$561,000,000 from unobligated balances under the mandatory Academic Competitiveness and SMART grants program as proposed by the House. The Senate proposed to rescind, rather than defer, these funds. These balances

are not needed to pay Academic Competitiveness and SMART awards in the 2010–2011 award year and will partially offset additional costs in the Pell Grant program.

The conferees concur that the Department shall provide the same funding in fiscal year 2010 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Program appropriation as proposed by the House. The Senate did not propose similar report language.

HIGHER EDUCATION

The conference agreement includes \$2,255,665,000 for Higher Education instead of \$2,294,882,000 as proposed by the House and \$2,106,749,000 as proposed by the Senate. The conference agreement includes citations in the bill for title VIII of the Higher Education Act (HEA) and part I of subtitle A of title VI of the America COMPETES Act as proposed by the Senate. The House did not propose using these citations.

Fund for the Improvement of Postsecondary Education (FIPSE)

Within the amount for FIPSE, the conference agreement includes \$10,000,000 for the college textbook rental pilot initiative as proposed by the House. The Senate did not propose a similar provision. The conferees direct that these funds be awarded in accordance with section 803(b) through (d) of the Higher Education Act. The conferees are interested in projects that propose expanding the services of college bookstores to offer innovative efforts to increase opportunities for students to rent college course materials and lower costs for students. These projects may include, but not be limited to, activities that: (1) acquire course materials that the entity will make available by rent to students, (2) develop or acquire equipment or software necessary for the conduct of a rental program, (3) place a priority on higher cost and introductory level classes, and (4) focus on students with the greatest financial need. The conferees direct that the Department provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate not less than 30 days prior to the release of a request for proposals.

Within the amount for FIPSE, \$6,000,000 is included for grants to institutions of higher education for Centers of Excellence for Veteran Student Success, to support veterans, particularly those returning from Iraq and Afghanistan as proposed by the House. The Senate did not propose a similar provision. The conferees direct that these funds be awarded in accordance with section 873 of the HEA.

Within the amount for FIPSE, \$1,000,000 is included for the Training for Realtime Writers program under section 872 of the HEA as proposed by the Senate. The House did not propose funding for this program.

Within the amount for FIPSE, \$750,000 is included for the Off-campus Community Service program, in accordance with section 447 of the HEA. The Senate proposed \$1,000,000 and the House did not propose a similar provision.

Within the amount for FIPSE, \$28,822,000 is included for the Comprehensive Program, for which the conferees direct the Depart-

ment to establish these invitational priorities: centers of excellence for teacher preparation as described in section 242 of the HEA; university sustainability initiatives as described in section 881 of HEA; rural development initiatives for rural-serving colleges and universities as described in section 861 of HEA; initiatives to assist highly qualified minorities and women to acquire doctoral degrees in fields where they are underrepresented as described in section 807 of HEA; modeling and simulation programs as described in section 891 of HEA; and higher education consortia to design and offer interdisciplinary programs that focus on poverty and human capability as described in section 741(a)(11) of HEA. The House proposed \$34,805,000 for the Comprehensive Program, while the Senate did not designate a specific amount for this activity.

As proposed by the Senate, the conference agreement does not set aside \$1,000,000 in the bill for modeling and simulation programs under section 891 of the HEA. The House proposed \$1,000,000 for these programs. Instead, these programs are included as an invitational priority under the FIPSE Comprehensive Program.

For Erma Byrd Scholarships, the conference agreement includes bill language designating \$1,500,000 as proposed by the Senate. The House proposed \$1,000,000 for these scholarships, which are intended to increase the size of the industrial health and safety workforce in the public and private sectors.

For the Model Comprehensive Transition and Postsecondary Programs for Students with Intellectual Disabilities, the conferees intend that the Department support a range of awards in size and scope, up to \$1,000,000 for each year of the award year, to promote the implementation of high-quality model programs and to provide a better understanding of an array of effective practices. The conferees direct that the Department provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate not less than 30 days prior to the release of a request for proposals.

For TRIO, the conferees intend that the increase over fiscal year 2009 be used for the Student Support Services program, which will be re-competed in fiscal year 2010. The conferees recognize that supportive services aimed at increasing retention and graduation of low-income students in college are an important complement to student financial aid, particularly the Pell Grant program. Many such retention services are supported through Student Support Services grants. Thus, the conferees intend that the funds provided will maintain the number of Student Support Services grantees.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL
FINANCING PROGRAM

The conference agreement includes \$20,582,000 for the Historically Black College and University Capital Financing Program as proposed by the House instead of \$10,354,000 as proposed by the Senate.

INSTITUTE OF EDUCATION SCIENCES

The conference agreement includes \$659,006,000 for the Institute of Education Sciences (IES) instead of \$664,256,000 as proposed by the House and \$679,256,000 as proposed by the Senate. The conference agreement specifies that \$588,356,000 of total IES funding shall be available through fiscal year 2011.

Within the amount provided for IES Research, Development, and Dissemination, the conference agreement includes \$1,000,000 for a national study on minority male achievement as described in section 1109 of the Higher Education Act. The House proposed \$2,000,000 for this activity, while the Senate did not propose a similar provision.

Within the amount provided for IES Research, Development, and Dissemination, the conference agreement includes \$2,000,000 for a new research and development center for adult learning and literacy, as outlined in House Report 111-220. The Senate did not propose a similar provision.

The conferees are concerned about actions taken by IES that leave the impression that it is not subject to the same level of oversight and accountability as any other agency of the Department that receives and is responsible for allocating appropriated funds. In the fiscal year 2010 congressional budget justification, IES indicated that it would adhere to a congressional limitation included in the fiscal year 2009 explanatory statement of \$8,023,000 for the What Works Clearinghouse (WWC). However, the IES increased its allocation to WWC by more than one-third above this amount, without any notification to the Committees on Appropriations that spending information presented in budget documents would not be followed. The Committee expects the IES to adhere to funding limits and guidance established by the Committees on Appropriations.

In addition, responses to requests for information about IES activities regularly come in later than most other agencies and the congressional budget justification provides limited information about the specific spending plans of the IES and the proposed allocation of resources. The conferees strongly support the mission of the IES, but believe the IES should make a greater effort to communicate clearly its plans for and use of taxpayer resources. Therefore, the conferees direct the IES to submit an operating plan to the Committees on Appropriations within 30 days of enactment of this Act and quarterly reports thereafter that describe planned research, development, and dissemination activities; actions taken to implement such activities; and amounts obligated for each activity at the level of detail and in the format shown in the program output measures displayed in the fiscal year 2010 congressional budget justification.

DEPARTMENTAL MANAGEMENT

PROGRAM ADMINISTRATION

The conference agreement includes \$456,200,000 for Program Administration instead of \$452,200,000 as proposed by both the House and Senate. The conferees direct the Department to establish an Educational Opportunity and Equity Commission, as outlined in House Report 111-220. The Senate did not propose this provision.

GENERAL PROVISIONS

IMPACT AID

The conference agreement includes a general provision as proposed by the Senate amending Public Law 110-161 to make available certain Impact Aid basic support payments to several school districts in Illinois for an additional two years. The House did not propose a similar provision.

PALAU

The conference agreement includes a general provision that extends Palau's eligibility for certain education programs through the end of fiscal year 2010. Neither the House nor the Senate proposed a similar provision.

STATE INCENTIVE GRANTS

The conference agreement includes a new general provision making a technical amendment to section 14006 of Public Law 111-5 pertaining to State Incentive Grants. Neither the House nor the Senate proposed a similar provision.

TITLE IV

RELATED AGENCIES

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

OPERATING EXPENSES

The conference agreement includes \$857,021,000 for the operating expenses of the programs administered by the Corporation for National and Community Service (the Corporation) instead of \$792,179,000 as proposed by the House and \$864,316,000 as proposed by the Senate. Funding for the National Service Trust is provided in a separate appropriations account as proposed by both the House and Senate.

As proposed by the Senate, within the total for the National Senior Volunteer Corps, the maximum total dollars that may be used in fiscal year 2010 for Grants.gov/eGrants support, Training

and Technical Assistance, and Recruitment and Retention activities shall not exceed the amount provided for these activities in fiscal year 2009. The House did not propose similar language.

As proposed by the Senate, the conferees direct that any assignments made under section 1708 of the Serve America Act relating to programs authorized under the Domestic Volunteer Service Act shall be published in the Federal Register and, following normal procedure, allow for a 90-day comment period. Further, the conferees direct the Corporation to detail any such assignments in its annual budget justification. The House did not propose similar language.

Within the total provided for Innovation, Assistance, and Other Activities, the conference agreement includes \$50,000,000 for the Social Innovation Fund as proposed by the Senate instead of \$35,000,000 as proposed by the House.

Within the total provided for Innovation, Assistance, and Other Activities, the conference agreement includes \$1,000,000 for the nonprofit capacity building program instead of \$2,000,000 as proposed by the Senate. The House did not propose funding for this program.

Within the total provided for Innovation, Assistance, and Other Activities, the conference agreement includes \$4,000,000 for the Volunteer Generation Fund instead of \$8,000,000 as proposed by the Senate. The House did not propose similar language. The conference agreement includes bill language making the full amount available on a competitive basis to State Commissions. Neither the House nor the Senate proposed similar language.

The conference agreement does not concur in the Senate proposal to include funding within the Corporation for competitive grants under the Volunteer Generation Fund focused on identifying and enrolling eligible individuals into already existing Federal, State, and local benefit programs. Rather, \$2,000,000 is included for this activity within the Department of Health and Human Services Administration for Children and Families. The House did not propose similar language.

Within the total provided for Learn and Serve America, the conference agreement includes \$2,000,000 for the newly authorized Summer of Service program as proposed by the House. The Senate did not propose funding for this program.

NATIONAL SERVICE TRUST

(INCLUDING TRANSFER OF FUNDS)

As proposed by the Senate, the conference agreement includes \$197,000,000 for the National Service Trust, to be available until expended, instead of \$178,214,000 as proposed by the House.

The conference agreement does not concur with the House proposal to include language designating that \$1,000,000 within the total for the National Service Trust is for education awards for Summer of Service program participants. The Senate did not propose similar language. The conferees note that Summer of Service program participants are entitled to education awards, therefore language carving out dollars specifically for these program participants is unnecessary.

SALARIES AND EXPENSES

The conference agreement includes \$88,000,000 for the Corporation for National and Community Service Salaries and Expenses as proposed by the Senate instead of \$80,923,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS

CHANGES THROUGH RULEMAKING

The conference agreement continues to include language that the Corporation for National and Community Service (the Corporation) shall make any changes to program requirements, service delivery, or policy only through public notice and comment rulemaking to include service delivery changes in the administration and/or governance of national service programs as proposed by the House. The Senate proposed language that the Corporation notify the House and Senate Appropriations Committees 15 days prior to making any significant changes to the programs or policies.

COMBINED MATCHING OF GRANTS

The conference agreement continues to include language that combines separate matching requirements for AmeriCorps grants as proposed by the House. The Senate did not propose similar language.

CORPORATION FOR PUBLIC BROADCASTING

The conference agreement includes a fiscal year 2012 advance appropriation of \$445,000,000 for the Corporation for Public Broadcasting (CPB) instead of \$440,000,000 as proposed by the House and \$450,000,000 as proposed by the Senate.

In addition, the conference agreement provides fiscal year 2010 appropriations for CPB totaling \$86,000,000 instead of \$101,000,000 as proposed by the House and \$71,000,000 as proposed by the Senate. Of the total fiscal year 2010 funding in the conference agreement, \$25,000,000 is for fiscal stabilization grants to public radio and television stations, which have experienced a downturn in revenues due to the recession that has resulted in job losses and reductions to local programming and services. The House proposed \$40,000,000 and the Senate proposed \$10,000,000 for this purpose. In addition, the conference agreement includes bill language providing that fiscal stabilization grants shall be awarded to public radio and television licensees no later than 45 days after enactment of this Act based on the guidance outlined in House Report 111-220. The remaining fiscal year 2010 appropriations include \$36,000,000 for digital transition grants and \$25,000,000 to complete the replacement of the public radio interconnection system.

FEDERAL MEDIATION AND CONCILIATION SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$46,652,000 for the Federal Mediation and Conciliation Service instead of \$47,000,000 as pro-

posed by the House and \$46,303,000 as proposed by the Senate. Within the amount provided, the conference agreement includes \$349,000 for the Labor-Management Grants program to remain available through September 30, 2010, instead of \$650,000 as proposed by the House to remain available through September 30, 2011. The Senate did not include a similar provision.

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$10,358,000 for the Federal Mine Safety and Health Review Commission instead of \$9,858,000 as proposed by the House and \$10,858,000 as proposed by the Senate.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

RAILROAD RETIREMENT BOARD

LIMITATION ON THE OFFICE OF INSPECTOR GENERAL

The conference agreement includes authority to expend \$8,186,000 from the Railroad Retirement and Railroad Unemployment Insurance Trust Funds for the Office of Inspector General as proposed by both the House and Senate. The Senate did not include such a provision.

TITLE I

DEPARTMENT OF DEFENSE

ITEMS OF GENERAL INTEREST

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted, except that the Department of Defense may seek reprogrammings for appropriated increments.

The reprogramming criteria that apply to military construction projects (25 percent of the funded amount or \$2,000,000, whichever is less) continue to apply to new housing construction projects and to improvements over \$2,000,000. To provide the services the flexi-

bility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed. Planning and design costs associated with military construction and family housing projects may also be excluded from these guidelines. In instances where prior approval to a reprogramming request for a project or account has been received from the Committees on Appropriations, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogrammings and notifications, including the pertinent statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda. The conferees encourage the Office of the Director of National Intelligence to use a format similar to that used by the Office of the Secretary of Defense to submit reprogramming requests.

Incrementally Funded Projects.—The conferees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The conferees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The conference agreement therefore incrementally funds the following projects consistent with the National Defense Authorization Act for fiscal year 2010: Aviation Task Force Complex Phase 1, Fort Wainwright, Alaska; North Region Tertiary Treatment Plant Phase 1, Camp Pendleton, California; Hospital Replacement, Fort Bliss, Texas; Data Center, Camp Williams, Utah; Ship Repair Pier Replacement, Portsmouth, Virginia; Apra Harbor Wharves Improvements Phase 1, Guam; and Hospital Replacement, Guam.

Bid Savings.—The conferees are aware of significant bid savings realized by the military departments and Defense agencies in the fiscal year 2009 military construction program due to a competitive bidding climate and lower material costs and have adjusted appropriated amounts for certain accounts to reflect these savings as well as projected savings in the fiscal year 2010 program. Individual project notifications provided to the congressional defense

committees pursuant to section 2853 of title 10, United States Code, show that the Department of Defense has realized in total well over half a billion dollars in fiscal year 2009 military construction bid savings, and is projecting similar substantial savings for fiscal year 2010. However, the services and agencies are required to notify Congress of only those cost variations equal to or exceeding 25 percent of the appropriated amount for military construction projects. In order to enhance congressional oversight and provide greater visibility of cumulative bid savings in the fiscal year 2010 program, the conferees direct the Secretary of Defense to submit to the Committees on Appropriations of both Houses of Congress a quarterly consolidated report from each of the military departments and Defense agencies identifying, by project name, location, and dollar amount, bid savings in excess of 10 percent of the amount appropriated for military construction projects for which funds are obligated in fiscal year 2010. The report shall include projects funded through the regular military construction accounts, family housing construction accounts, the Department of Defense Base Closure Account 2005, and the overseas contingency operations military construction accounts. The initial report shall be submitted no later than April 30, 2010, and thereafter no later than 30 days after the end of each quarter.

Report on Design Obligations.—The conferees direct that the Secretary of Defense, and the secretaries of the Army, Navy, and Air Force, each submit separate semi-annual reports on the obligation and expenditure of planning and design funds. The Secretary of Defense's report shall cover Military Construction, Defense-Wide, and the reports by the Army, Navy, and Air Force shall cover active, guard, and reserve military construction accounts. Each report shall provide data on the total amount available from each and all fiscal years for planning and design activities, as well as the amounts currently obligated and expended. The reports shall be submitted no later than 30 days following the end of the second and fourth quarters of fiscal year 2010.

Nuclear Weapons Security.—The conferees direct the Secretary of Defense to submit a report to the Committees on Appropriations of both Houses of Congress analyzing alternative designs for any major construction projects requested in fiscal year 2011 or included in the accompanying future years defense plan for the purpose of securing strategic nuclear weapons. The report of alternatives should include the full life cycle cost and benefits including security enhancements required for each major construction project. The report shall be submitted along with the annual budget request.

Department of Defense Cooperation with the Government Accountability Office.—The conferees are concerned by indications that the Department of Defense is not cooperating fully with Government Accountability Office (GAO) investigations of matters that are of vital interest to the Committees on Appropriations of both Houses of Congress. GAO activities are crucial to the Committees' ongoing oversight of Administration military construction programs and policies. The conferees direct the Secretary of Defense to ensure that the Department fully complies in a timely manner with valid GAO requests for information. The conferees further direct

the GAO to provide the Committees with an update on Department cooperation with its investigations no later than 30 days following the enactment of this Act.

Delivery of Notifications.—The conferees direct the Office of the Secretary of Defense, the services, and the Defense agencies to submit a quarterly report listing all notifications that have been submitted to the Committees during the preceding three-month period.

MILITARY CONSTRUCTION, ARMY

The conference agreement appropriates \$3,719,419,000 for Military Construction, Army, instead of \$3,630,422,000 as proposed by the House and \$3,477,673,000 as proposed by the Senate. Within this amount, the agreement provides \$200,519,000 for study, planning, design, architect and engineer services, and host nation support, instead of \$187,872,000 as proposed by the House and \$191,573,000 as proposed by the Senate.

The conference agreement includes \$350,000,000 to address the large unfunded backlog of Army trainee troop housing construction, instead of \$450,000,000 as proposed by the House. The Senate bill contained no similar provision.

Within this amount, the agreement provides \$179,652,000 for study, planning, design, architect and engineer services, instead of \$182,569,000 as proposed by the House and \$176,896,000 as proposed by the Senate.

Within this amount, the agreement provides \$103,562,000 for study, planning, design, architect and engineer services, instead of \$93,407,000 as proposed by the House and \$106,918,000 as proposed by the Senate.

The conference agreement rescinds \$37,500,000 from funds previously appropriated for the establishment of unmanned aerial system (UAS) field training facilities at an unspecified location. After those funds were appropriated, the Air Force selected Holloman AFB, New Mexico, as the site for the UAS field training unit, which required significant revisions to the scope of these facilities. The conference agreement provides \$37,500,000 for the revised UAS field training unit complex at Holloman, consistent with the National Defense Authorization Act for fiscal year 2010.

Of the funds provided for planning and design in this account, the conferees direct that not less than the specified amounts be made available for the design of the following projects:

Air Base Development, Palanquero, Colombia.—The conference agreement provides \$43,000,000 for the construction of air base fa-

cilities at the Colombian Air Force Base, Palanquero, Colombia. The conferees understand that this funding is not intended to establish a U.S. base or a permanent U.S. military presence in Colombia, and that any activities conducted by U.S. forces from this or any other location in Colombia would be based on full respect for the principles of sovereignty, territorial integrity, and non-interventionism, in accordance with the Defense Cooperation Agreement of October 30, 2009. The conference agreement reduces the amount requested for this project by \$3,000,000 to meet this intent.

MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The conference agreement appropriates \$3,093,679,000 for Military Construction, Defense-Wide, instead of \$2,743,526,000 as proposed by the House and \$3,137,614,000 as proposed by the Senate. Within this amount, the agreement provides \$131,942,000 for study, planning, design, architect and engineer services, instead of \$121,442,000 as proposed by the House and \$142,942,000 as proposed by the Senate.

The conference agreement rescinds \$151,160,000 from previously appropriated funds due to the Administration's cancellation of a proposed ballistic missile defense system in Europe. The conference agreement also includes \$68,500,000 for an Aegis Ashore Test Facility, as proposed by the Senate, to support the Administration's new plan for ballistic missile defense. The House bill contained no similar provision.

Washington—Fort Lewis, Women's Health Center Facility, \$2,000,000.

Landstuhl Regional Medical Center.—The conferees understand that the Department of Defense is reviewing options for a new site to accommodate a facility replacing the current Landstuhl Regional Medical Center in Germany, including the current site, Ramstein Air Base, the Weilerbach area adjacent to Ramstein, and other locations. The conferees direct the Department to provide the Committees on Appropriations of both Houses of Congress with a cost-benefit analysis of the various site options, and a justification for the preferred site. This assessment should include ancillary facilities that need to be collocated with the new medical facility, as well as any additional facilities or functions that would benefit U.S. forces in Europe by being collocated on the same site. The conferees direct the Department to submit this assessment with the fiscal year 2011 budget request.

Energy Conservation Investment Program (ECIP).—The conference agreement provides \$174,209,000 for ECIP, including \$10,500,000 for planning and design, instead of \$90,000,000 as proposed by the House and \$225,000,000 as proposed by the Senate. The conferees strongly support the efforts of the Department of Defense to promote energy conservation, green building initiatives, energy security, and investment in renewable energy resources, and commend the leadership of the Department and the services

for making energy efficiency a key component of construction on military installations. The conferees urge the Department to use the additional funds to invest in innovative renewable energy projects as well as projects that enhance energy security at military installations. The conferees direct the Secretary of Defense to provide an expenditure plan for the additional funds to the Committees on Appropriations of both Houses of Congress no later than 45 days following the enactment of this Act.

Within this amount, the agreement provides \$47,429,000 for study, planning, design, architect and engineer services as proposed by the House, with modification. The Senate bill contained no similar provision. The agreement also provides \$30,000,000 for critical unfunded requirements as proposed by the House. The Senate bill contained no similar provision.

Of the funds provided for planning and design in this account, the conferees direct that not less than the specified amounts be made available for the design of the following projects:

(5) provide recommendations for modifications of current policy for the DAR and Office of Economic Adjustment programs, including funding strategies, road capacity assessments, eligibility criteria, and other government policies and programs the National Academy of Sciences may identify, to mitigate the impact of BRAC-related installation growth on preexisting urban congestion.

The NAS is directed to provide an interim report of its findings to the Secretary of Defense and the Committees on Appropriations of both Houses of Congress no later than May 14, 2010, with a final report to be provided no later than January 31, 2011.

TITLE II

DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF GENERAL INTEREST

Outreach at Colleges and Universities.—The conferees are aware that with increasing numbers of veterans utilizing the new GI Bill benefits, veteran enrollment at institutions of higher education is growing. The conferees strongly encourage the Department to utilize all means at its disposal to ensure that effective outreach and services are offered at institutions of higher education for student veterans, particularly those combat veterans with neurological and psychological illnesses or injuries.

Guide and Service Dog Program.—The conferees are concerned with the lack of progress the Department has made to fully implement section 1714 of title 38 regarding the provision of guide dogs and service dogs to qualified veterans seeking such services. Additionally, the conferees direct the Department to immediately begin the process of assisting those veterans with mental illnesses, to include Post-Traumatic Stress Disorder (PTSD), who would benefit from having a service dog and provide the authorization to do so in the bill. While the conferees understand that the Department is currently reviewing its policies and regulations in order to improve access to guide and service dogs, and advance its partnerships with accredited nonprofit organizations with expertise in the training of service dogs and education in the use of service dogs, the conferees want this process to accelerate. Therefore, the conference agreement provides an additional \$2,000,000 in Medical Services for the Guide and Service Dog Program and provides additional funds in Medical and Prosthetic Research for any necessary studies. Further, the conference agreement provides additional funds to the Office of Inspector General and directs the Office of Inspector General to review the Guide and Service Dog Program to include its current and pending policies and regulations and wait list and outreach procedures and report to the Committees on Appropriations of both Houses of Congress on its recommendations to improve this program by July 8, 2010. Additionally, the Department is encouraged to expand its partnership with accredited nonprofit service dog organizations where veterans with PTSD help to train service dogs.

VETERANS HEALTH ADMINISTRATION

Advance Appropriations.—The conference agreement includes an advance appropriation for the Medical Services, Medical Support and Compliance, and Medical Facilities accounts. The goal of this advance appropriation is to provide the Veterans Health Administration with reliable and timely funding for their current services so the delivery of medical care is not disrupted. However, the provision of an advance appropriation should be seen as only the first step in this process. The conferees direct the Department to include in future budget submissions the budget plan for the advance appropriation provided in the previous year's appropriation to include the amount of funds that will be allocated in accordance with the Veterans Equitable Resource Allocation, and expect funding provided by advance appropriation to be made available to the

Veterans Integrated Service Networks on October 1, 2010. The conferees further direct the Department to include an advance appropriation request for current services for the Medical Services, Medical Support and Compliance, and Medical Facilities accounts in future budget submissions.

Hyperbaric Oxygen Therapy.—The conferees direct the Department to submit a report to the Committees on Appropriations of both Houses of Congress on the Veterans Health Administration's use of hyperbaric oxygen therapy by March 31, 2010. This report should include, but not be limited to, the number of veterans and types of conditions being treated using this therapy, outcome measurements, and number of facilities that provide this therapy.

State Home Care.—The conferees urge the Department to undertake a feasibility study to identify any potential impacts of permitting State Home Care facilities to provide services to non-veterans who have had a child die while serving in the Armed Forces, as long as such services are not denied to a qualified veteran seeking those services. The Department is directed to report back to the Committees on Appropriations of both Houses of Congress within 90 days after enactment of this Act on what steps, if any, have been taken to undertake the feasibility study and any findings, should the study be completed.

Hiring Incentives for Rural and Highly Rural Areas.—The conferees are aware that the Department currently provides recruitment and relocation incentive pay to attract high quality medical personnel. However, the conferees are concerned that the Department has not been aggressive enough in utilizing this program in underserved rural areas. Therefore, the Department is directed to provide an additional \$1,500,000 for incentive pay from Medical Services and \$1,500,000 for incentive pay from Medical Support and Compliance for recruitment and permanent relocation of high quality healthcare providers and administrators, respectively, to areas designated by the Veterans Health Administration as rural or highly rural areas. Further, the Department is directed to provide a report to the Committees on Appropriations of both Houses of Congress on the number of new employees receiving incentives with this funding and the structure of the program by March 31, 2010.

(INCLUDING TRANSFER OF FUNDS)

Of the amount provided, \$1,015,000,000 is available for obligation until September 30, 2011, as proposed by the House, instead of \$1,600,000,000 as proposed by the Senate. The agreement further appropriates an advance appropriation for fiscal year 2011 of \$37,136,000,000 as proposed by the House, instead of \$37,136,000,000 as proposed by the Senate in title V, to become available on October 1, 2010, and remain available until September 30, 2011.

MEDICAL SUPPORT AND COMPLIANCE

The conference agreement appropriates \$4,930,000,000 for Medical Support and Compliance, instead of \$4,896,500,000 as proposed by the House and \$5,100,000,000 as proposed by the Senate. Of the amount provided, \$145,000,000 is available for obligation until September 30, 2011, as proposed by the House, instead of \$250,000,000 as proposed by the Senate. The agreement further appropriates an advance appropriation for fiscal year 2011 of \$5,307,000,000 as proposed by the House, instead of \$5,307,000,000 as proposed by the Senate in title V, to become available on October 1, 2010, and remain available until September 30, 2011.

MEDICAL FACILITIES

The conference agreement appropriates \$4,859,000,000 for Medical Facilities, instead of \$4,893,000,000 as proposed by the House and \$4,849,883,000 as proposed by the Senate. Of the amount provided, \$145,000,000 is available until September 30, 2011, as proposed by the House, instead of \$250,000,000 as proposed by the Senate. The agreement further appropriates an advance appropriation for fiscal year 2011 of \$5,740,000,000 as proposed by the House, instead of \$5,740,000,000 as proposed by the Senate in title V, to become available on October 1, 2010, and remain available until September 30, 2011.

In addition, the conference agreement specifies that \$130,000,000 for non-recurring maintenance shall be allocated in a manner not subject to the Veterans Equitable Resource Allocation model, instead of \$200,000,000 as proposed by the House and \$100,000,000 as proposed by the Senate. The conference agreement includes an additional \$5,000,000 to hire extra contracting staff.

Community Based Outpatient Clinics.—The conference agreement includes an additional \$30,000,000 for the Department to open new community based outpatient clinics (CBOC) in rural areas. The conferees understand that the Department funds new outpatient clinics through the Medical Services account as well as the Medical Facilities account and reminds the Department that they may reprogram funds between these accounts for this initiative. The conferees direct the Department to provide to the Committees on Appropriations of both Houses of Congress a detailed expenditure plan for this funding no later than March 1, 2010. Moreover, the plan should also include a list of all current clinics,

regardless of size or contractual arrangements, which provide healthcare services in an outpatient setting.

The conferees direct the Department to provide the Committees on Appropriations of both Houses of Congress with a report by February 16, 2010, on the feasibility of and/or plans for clinics in the following locations: Chattanooga, Tennessee; Idabel, Oklahoma; and Hinesville, Georgia.

MEDICAL AND PROSTHETIC RESEARCH

The conference agreement appropriates \$581,000,000 for Medical and Prosthetic Research, instead of \$580,000,000 as proposed by both the House and the Senate.

Gulf War Illness Research.—The conferees are concerned that the Department has not placed sufficient emphasis on finding a cause or cure for Gulf War Veterans' illnesses, which affect thousands of veterans every day. Veterans from the First Gulf War and now the current conflict are experiencing illness that cannot be explained and rates of other more known illnesses at higher than the national average. The conferees have repeatedly encouraged the Department to do more research in this area and have consistently provided the funds to do so. However, the Department has not shown a consistent level of commitment for this vital research. In order to better track the expenditures for this research, the Department is directed to include Gulf War Veterans' illnesses as a designated research area in the fiscal year 2011 budget request.

NATIONAL CEMETERY ADMINISTRATION

The conference agreement appropriates \$250,000,000 for the National Cemetery Administration as proposed by both the House and the Senate. Of the amount provided, \$24,200,000 is available until September 30, 2011, as proposed by both the House and the Senate.

The conference agreement includes an additional \$8,000,000 for the National Shrine Commitment Program and to correct gravesite deficiencies to include gravesite renovation projects to replace turf, repair sunken graves, and raise, realign and clean headstones.

The conferees direct the Department to report by January 29, 2010, on plans to expand the Chattanooga National Cemetery. Additionally, the conferees direct the Department to conduct a study to determine the need and feasibility of establishing a National Veterans Cemetery in the eastern portion of South Dakota. The conferees are also aware that there is no active National Veterans Cemetery in North Dakota, Montana, Idaho, Wyoming, or eastern Washington, which encompasses approximately 500,000 square miles. Therefore, the conferees direct the Department to evaluate the feasibility of establishing a national veterans cemetery in this area, with consideration of the Yellowstone County Veterans Cemetery in Yellowstone County, Montana.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The conference agreement appropriates \$2,086,707,000 for General Operating Expenses, instead of \$2,086,200,000 as proposed by the House and \$2,081,501,000 as proposed by the Senate. The agreement provides not less than \$1,689,207,000 as proposed by the Senate for the Veterans Benefits Administration, instead of \$1,690,200,000 as proposed by the House. Of the amount provided, \$111,000,000 is available for obligation until September 30, 2011, as proposed by both the House and the Senate.

The conferees do not concur with the budget proposal to shift the cost of disability compensation exams from the mandatory Compensation and Pensions account to the discretionary General Operating Expenses account. The funding reduction in this account reflects this decision. Funding to continue the disability compensation exam pilot program is provided in the Compensation and Pensions account. The Department is directed to provide \$10,500,000 for the Paralympic Program.

INFORMATION TECHNOLOGY SYSTEMS

The conference agreement appropriates \$3,307,000,000 for Information Technology (IT) Systems as proposed by both the House and the Senate.

The conference agreement directs the Department to submit an expenditure plan to the Committees on Appropriations of both Houses of Congress within 30 days of enactment as proposed by the House, instead of 60 days of enactment as proposed by the Senate.

Reporting Requirements.—The conferees are aware that the Assistant Secretary for Information Technology conducted a comprehensive review of all information technology projects under development, resulting in some projects being halted completely and others paused to improve internal governance structures. The conferees understand how such a comprehensive review could alter the fiscal year 2010 request for projects and programs that are to receive the proposed funding. Therefore, the conferees have included bill language that restricts the obligation of \$800,485,000 in IT development funds until the Secretary or the Chief Information Officer submits a certification letter to the Committees on Appropriations of both Houses of Congress identifying which project/program is to receive funding in fiscal year 2010 and in what amount. These certifications may be submitted incrementally and are to serve as the base reprogramming amounts for development programs. In addition, the conferees direct the Department to submit the total life cycle development costs of projects and programs receiving development funds in fiscal year 2010, and to include these estimated costs in future budget submissions.

The conferees further direct the Assistant Secretary for Information Technology to report quarterly to the Committees on Appropriations of both Houses of Congress on the status of the Program Management Accountability System.

that are required in order to provide healthcare services to veterans using telehealth platforms.

Combat Stress and Women Veterans.—The conferees direct the Office of Inspector General to conduct a study to assess the capacity of the Department to address combat stress in women veterans. At a minimum, the study should include: whether women veterans are properly evaluated by the Department for Post-Traumatic Stress Disorder, military sexual trauma, and traumatic brain injury; whether the Department is properly adjudicating combat stress as a service-connected disability; whether the Veterans Benefits Administration (VBA) has developed and disseminated materials and policies to claims adjudicators that address claims involving military sexual trauma; and the feasibility of requiring training and testing of VBA claims adjudicators on military sexual trauma. The conferees direct the Office of Inspector General to provide the Secretary and the Committees on Appropriations of both Houses of Congress a plan for conducting this study, and any interim findings, within 180 days and a final report no later than one year after enactment of this Act.

RELATED PROGRAMS APPROPRIATIONS ACT, 2010

In implementing this conference agreement, the departments and agencies should be guided by the language and instructions set forth in House Report 111–187 (hereby referred to as “the House Report”) accompanying the bill H.R. 3081 and Senate Report 111–44 (hereby referred to as “the Senate Report”) accompanying the bill S. 1434. In cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and the agreed upon amounts are detailed in this joint statement. In addition, in cases in which the House or Senate directed the submission of a report, the joint statement directs submission of those reports in which the conferees concur. Finally, the conferees agree that, unless otherwise specifically addressed in this joint statement, direction related to notification, prior consultation, and/or guidance with respect to organizations or other entities contained in either the House or Senate Reports should be adhered to by the relevant departments and agencies.

* Funding in italics denotes a non-add and is not in addition to the subcategory total.

In addition, the conference agreement includes authority to collect \$8,158,305 from certain authorized fees and payments. The Department of State also projects that authorized fee revenues for the Border Security Program of the Department of State will total \$1,657,515,000 in fiscal year 2010.

The conference agreement includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the Emergencies in the Diplomatic and Consular Service heading for emergency evacuations and rewards payments, as authorized, as proposed by the House and Senate.

The conference agreement includes a requirement that the Secretary of State submit to the Committees on Appropriations a report detailing planned expenditures for funds appropriated under this heading, not later than 45 days after enactment of this Act, which was not in the House or Senate bills. The conferees expect the report to include accompanying tables that compare the planned fiscal year 2010 spending levels to the actual expenditures for the prior fiscal year and that these tables be updated and submitted when any reprogramming notification is submitted.

Worldwide Security Protection

The conference agreement provides \$1,586,214,000 for Worldwide Security Protection, which is \$8,787,000 above the House and \$8,786,000 below the Senate. The conferees note that \$13,375,000

requested for fiscal year 2010 was included in the Supplemental Appropriations Act, 2009 (Public Law 111–32), bringing the total available for Worldwide Security Protection in fiscal year 2010 to \$1,599,589,000. Within the amount provided, \$221,926,000, and a projected 200 security positions, are to strengthen the Department's capacity to respond to the growing security challenges at posts around the world, including the requested positions for the second year of the Visa and Passport Security Plan.

Enhancing Diplomatic Capacity and Readiness

Human Resources Initiative (HRI).—The conference agreement does not include a provision specifying an amount for the HRI, as proposed by the Senate. Instead, the amount for the HRI is included in the table above.

The conference agreement includes \$344,190,000 and a projected 745 positions to enhance the diplomatic capacity and readiness of the Department of State. Within the total, \$118,279,000, and 565 new positions, is for phase II of the HRI, as proposed by the House and Senate. These additional funds provided in fiscal year 2010 will continue the expansion of the Department's training capacity, increase representation on interagency and Defense staffs, and augment the overseas diplomatic presence at strategic posts worldwide. The balance, \$225,911,000 and a projected 180 positions, is to meet workload demands and resource requirements at posts in Africa, East Asia and the Pacific, Europe and Eurasia, the Near East, South Central Asia, and the Western Hemisphere, as well as to begin to address the vacancy rate in domestic Foreign and Civil Service positions. The conferees agree that the Secretary of State should give priority to overseas assignments in allocating these positions.

Locally Employed Staff (LES).—The conference agreement does not include a provision regarding LES, as proposed by the Senate. However, the conferees recognize and appreciate the invaluable contributions of LES to overseas operations and programs, and note that they often serve without adequate salary increases and/or at less-than-prevailing wages and compensation packages.

The conferees recommend \$695,000,000 for salary and compensation (including awards and special benefits) for LES, and endorse the directive in the Senate bill regarding the review/database, guidelines, and the definition of LES in section 7069(b), (c), and (d), respectively, except that the Department of State shall consult with the Committees on Appropriations on the appropriate length of periodic reviews of salary and compensation guidelines.

Personnel Strategy.—The conference agreement requires the Secretary of State to submit to the Committees on Appropriations a strategy for projected personnel requirements for the Department of State over the next three fiscal years, similar to that proposed by the Senate. This strategy should describe the resources required for hiring, training, and deploying new personnel to domestic and overseas positions, including resources necessary for office and housing facilities. Concurrent with the submission of this strategy, the Secretary of State is directed to submit a report describing the hiring, training, and deploying of new staff since fiscal year 2008,

including resources expended for such purposes to date, and to update this report on a semi-annual basis.

Funding Issues

Afghanistan Operations.—The conference agreement provides \$485,595,000 for diplomatic operations in Afghanistan for fiscal year 2010, which is the same as the request, after including funds requested for fiscal year 2010 that were appropriated in the Supplemental Appropriations Act, 2009 (Public Law 111–32). The conferees understand that operational requirements in Afghanistan may change, and direct that any such change be subject to the regular notification procedures of the Committees on Appropriations, including changes to the civilian staffing surge that are above the previously justified levels.

The conferees direct the Secretary of State to submit to the Committees on Appropriations not later than 45 days after enactment of this Act and every 60 days thereafter through September 30, 2010, a report detailing all United States Government personnel serving in Afghanistan, including on a temporary duty basis. This report may be submitted in classified form, if necessary, and may be consolidated with the reporting requirement on civilian staffing levels in Pakistan.

The conference agreement does not include a prohibition on the use of funds in the Act to acquire property in Kabul, Afghanistan, as proposed by the Senate. Instead, section 7004(c) of this Act requires the Secretary of State to consult with the Committees on Appropriations prior to any final decision to acquire property for diplomatic facilities in Kabul.

The conferees note that \$25,000,000 was included for the Department of State's Afghanistan airwing in the Supplemental Appropriations Act, 2009 (Public Law 111–32). The balance of the funds requested for fiscal year 2010, \$35,000,000, is included in this conference agreement.

Cultural Heritage.—The conference agreement provides \$5,750,000 for the Ambassador's Fund for Cultural Preservation, of which \$1,000,000 is to support at least two large projects of historic cultural significance, as proposed in the Senate Report. The conferees are aware that the Department of State may use funds made available under the Economic Support Fund (ESF) heading in title III to support additional cultural preservation projects. The conferees intend that all funds made available from this Act for cultural preservation projects be subject to the Committee's regular notification procedures and that the projects should be selected utilizing the technical expertise of the Department's Cultural Heritage Center, including the technical review and competitive process established by the Center.

Iraq Operations.—The conference agreement provides \$1,121,641,000 for Department of State Operations in Iraq. This is in addition to \$336,000,000 appropriated under this heading in the Supplemental Appropriations Act, 2009 (Public Law 111–32) for fiscal year 2010, bringing the total available for such purposes in fiscal year 2010 to \$1,457,641,000.

The conferees direct the Department of State to use funds provided for operations in Iraq to address the requirements identified

by the Office of Inspector General in Report Number MERO-A-09-10 that arise from the anticipated military drawdown, including enhanced security around Embassy Baghdad's compound, convoy security for fuel, food, and other supplies, commercial air travel as an alternative to military transport, and contracting issues regarding the replacement of United States Army Corps of Engineers' support services.

The conferees continue to encourage the Chief of Mission in Iraq to conduct periodic rightsizing reviews to ensure appropriate civilian staffing levels before, during, and after the anticipated United States military drawdown.

Intelligence and Research.—The conferees endorse Senate Report language regarding the Department of State's Bureau of Intelligence and Research, including \$1,000,000 above the request to support six additional analysts for priority countries.

Joint Action Plan.—The conference agreement includes sufficient funds for the Secretary of State to allocate the resources and experienced personnel necessary to staff and implement the United States-Brazil Joint Action Plan to Eliminate Racial and Ethnic Discrimination and Promote Equality (JAPER), as proposed by the House.

Leahy Vetting.—The conference agreement does not include a Senate provision to transfer funds appropriated under the Foreign Military Financing Program (FMF) heading to the D&CP heading for the Department of State's Bureau of Democracy, Human Rights and Labor to support monitoring of the uses of FMF assistance. However, the conferees direct that not less than \$2,000,000 from funds made available under this heading be used for such purpose, and that the Secretary of State consult with the Committees on Appropriations prior to the obligation of these funds.

Pakistan Operations.—The conference agreement provides \$45,837,000 for diplomatic operations in Pakistan for fiscal year 2010, which is the same as the request. The conferees understand that operational requirements in Pakistan may change and direct that any such change be subject to the regular notification procedures of the Committees on Appropriations, including changes to the civilian staffing surge that are above the previously justified levels.

The conferees direct the Secretary of State to submit to the Committees on Appropriations not later than 45 days after enactment of this Act and every 60 days thereafter through September 30, 2010, a report detailing all United States Government personnel serving in Pakistan, including on a temporary duty basis. This report may be submitted in classified form, if necessary, and may be consolidated with the reporting requirement on civilian staffing levels in Afghanistan.

Other Issues, Directives and Reporting Requirements

American Corners.—The conferees support the mission of American Corners and Centers in making information about the United States readily available to the public in foreign countries through open and accessible places of learning. The conferees support relocating such Centers outside of New Embassy Compounds wherever feasible, consistent with appropriate security consider-

ations. The conferees support the timely relocation of the American Center in Rangoon, Burma.

The conferees direct the Deputy Secretary for Management, in consultation with the Under Secretary for Public Diplomacy and Public Affairs, the Director of the Office of Overseas Building Operations and the Assistant Secretary, Bureau of Diplomatic Security, to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, identifying possible Centers for relocation. The report should include security parameters, cost estimates, and proposed funding resources for such relocations.

The conferees endorse the Senate Report requirement for an assessment of the security implications and public diplomacy gains of establishing United States public diplomacy facilities in locations that maximize their use, except that the assessment may be submitted in classified form, if necessary.

International Child Abductions.—The conferees are concerned with custody cases involving American children in Jordan, Japan, Brazil, Lebanon, Syria, and other countries, and expect the governments of such countries to expeditiously enforce court orders related to such cases. The conference agreement does not include a provision proposed by the House related to international child abductions. Instead, the conferees direct the Secretary of State to provide periodic updates to the appropriate congressional committees on international child abductions, including information regarding international parental child abductions that are reported to the Office of Children's Issues. The conferees expect the Department of State to maintain an electronic database in order to track international child abduction cases and facilitate the provision of timely information to interested members of the House and Senate, to the extent that the parent or guardian provides written authorization to do so.

Overseas Schools.—The conferees commend the consolidated Overseas Schools Assistance Program for its work in improving educational standards for the children of American families living abroad, and the contributions of the Overseas Schools Advisory Council and its Program of Educational Assistance that helps bring quality educational services to American overseas schools.

Report on Procurement and Acquisition.—On January 9, 2008, the Assistant Secretary for Legislative Affairs notified the Committees on Appropriations of the Department of State's intent to fund the acquisition function of the Department on a "fee-for-service" basis through a one percent assessment on the appropriations accounts funding the acquisition. The conferees understand that the rationale for this change was to improve both the responsiveness and accountability of the acquisition/procurement process at the Department. The conferees direct the Undersecretary for Management to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, which details the manner in which the "fee-for-service" plan was and is being used to improve the responsiveness and oversight of the Department's procurement and acquisition processes. The conferees expect the report to include the number of direct-hire and contract personnel added in fiscal years 2008 and 2009, and the benefit of these per-

sonnel and funds in providing increased technical assistance and oversight to these activities.

Report on Agreements for Transfer and Release of Detainees.—The conferees direct the Secretary of State to report in writing to the Committees on Appropriations when any agreement is concluded with any country that will receive, by transfer or release, any individual detained at Naval Station, Guantanamo Bay, Cuba. This requirement includes agreements with states with a compact of free association with the United States. The report shall be submitted not later than five days after the conclusion of such agreement.

Secure Passports.—The conferees endorse House Report language on secure United States passports, and believe that the passport should provide the highest levels of resistance to counterfeiting, alteration and image substitution. The conferees further expect the Department of State to undertake a review of the current security materials used on the passport, particularly the data page, in order to strengthen its security.

CIVILIAN STABILIZATION INITIATIVE

The conference agreement provides \$120,000,000 under this heading for the Civilian Stabilization Initiative (CSI), which is \$5,000,000 below the House and \$30,000,000 below the Senate. In addition, \$30,000,000 is provided under title II for the United States Agency for International Development (USAID) for the CSI, as proposed by the House, for a total of \$150,000,000 to stand-up, equip and deploy a coordinated civilian response capacity.

The conference agreement includes a provision, similar to that proposed by the Senate, withholding \$10,000,000 from obligation until the Secretary of State reports to the Committees on Appropriations that the Department of State has signed a memorandum of understanding with the Department of Defense relating to the provision of airlift for deployment of Civilian Response Corps (CRC) Standby and Active personnel and equipment.

The conference agreement does not include bill language limiting to \$5,000,000 the amount made available for procurement of armored vehicles, as proposed by the Senate. However, the conferees agree with this limitation and direct that not more than \$5,000,000 of the funds made available under this heading be used for such purpose.

The conference agreement does not include a provision prohibiting the use of funds to establish a Reserve component of the CRC. However, the conferees direct that no funds be made available for this purpose. The conference agreement requires the submission of a joint spending plan, coordinated with USAID, for funds made available under this heading and the CSI heading in title II not later than 45 days after enactment of this Act, as proposed by the House and Senate. The conferees also endorse House Report language requiring notification to the Committees on Appropriations within 15 days of any deployment of a CRC Active and/or Standby unit, to include the destination, size, composition, and expected duration of deployment of such unit.

Funds made available under this heading are to be allocated according to the following table, subject to the provisions of section 7019 of this Act:

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$100,000,000 for the Office of Inspector General (OIG), which is \$8,000,000 below the House and the same as the Senate, of which \$23,000,000 is for the Special Inspector General for Iraq Reconstruction (SIGIR), and \$23,000,000 is for the Special Inspector General for Afghanistan Reconstruction (SIGAR) for reconstruction oversight, as proposed by the Senate.

In addition to the amount made available under this heading, \$2,000,000 is transferred to this account from funds made available under the ESF heading to augment funds made available to the OIG for oversight of assistance activities in Pakistan, which brings the total available in this Act for the OIG to \$56,000,000.

Within the total amount made available to the OIG in fiscal year 2010, the conferees understand that the current program plan includes \$20,100,000 for the OIG’s oversight of programs and investigations of fraud, waste, and abuse in the Middle East and South Asia, including Afghanistan, Iraq, and Pakistan, and to establish an OIG satellite office in Islamabad and support the regional office in Amman and the existing satellite offices in Baghdad, Cairo, and Kabul. The conferees further understand that future events may require the modification of this plan and that such modifications are subject to the regular notification procedures of the Committees on Appropriations.

The Inspectors General of the Department of State, USAID, SIGIR, and SIGAR each have independent oversight and investigative responsibilities in Iraq and Afghanistan. The Inspectors General should, to the maximum extent practicable, coordinate, and de-conflict all activities related to oversight and investigation of assistance programs for the reconstruction of Iraq and Afghanistan to ensure that resources are used effectively and are not unneces-

sarily duplicative. The Inspectors General of the Department of State and USAID are directed to consult with the Committees on Appropriations on the joint oversight plan in Afghanistan.

The conferees understand that SIGIR will use a portion of the funds made available in fiscal years 2009 and 2010 to make short-term appointments of experienced, career prosecutors and detail them to the Criminal Division of the Department of Justice, where they will work on cases that fall within SIGIR's jurisdiction. The conferees strongly support efforts by SIGIR and the Department of Justice to investigate and prosecute cases of fraud and criminal activity associated with assistance programs in Iraq.

The conferees do not intend for the SIGAR to utilize funds made available under this heading in this or prior Acts to conduct training or other development programs for Afghan ministries.

The BBG shall submit to the Committees on Appropriations within 90 days of enactment of this Act a multi-year strategic plan for broadcasting to Cuba that reflects the following: (1) an analysis of the current situation in Cuba and an allocation of resources that is consistent with the relative priority of broadcasting to Cuba as determined by the annual Language Service Review and other factors, including input from the Secretary of State on the relative United States interest of broadcasting to Cuba; (2) the estimated size of the audiences in Cuba for Radio and TV Marti, and the sources and relative reliability of the data on which such estimates are based; (3) the annual operating cost (and total cost over the life of the contract) of—any and all—types of TV transmission and the effectiveness of each in increasing such audience size; (4) the principal obstacles to increasing such audience size; (5) an analysis of

Within 90 days of the submission of the strategic plan outlined above, the Comptroller General of the General Accountability Office (GAO) shall conduct an assessment of the strategic plan and submit to the Committees on Appropriations its analysis of the data on which the plan is based and the plan's recommendations.

The conferees endorse the funding priority in the Senate Report concerning Pashto and Dari broadcasts targeted toward Afghanistan and northwest Pakistan.

The conferees note the GAO recommends that as the Administration develops a new comprehensive communication strategy, Federal agencies, including the BBG, should identify and link key agency-level programs, goals, and performance measurements to the strategy. The conferees direct that not later than 60 days after the new strategy is issued, the BBG report to the Committees on Appropriations on the linkages between the BBG's strategic plan and performance measurement system and the new strategy; BBG's participation in inter-agency activities related to the implementation of the strategy; and which national communication goals the BBG believes it can support under its mandate and strategic plan and those goals the BBG considers inconsistent and therefore cannot support.

TITLE II

UNITED STATES AGENCY FOR INTERNATIONAL
DEVELOPMENT

FUNDS APPROPRIATED TO THE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,388,800,000 for Operating Expenses, which is the same as the House and Senate.

The conference agreement provides funding to support the hiring of an estimated 300 additional USAID Foreign Service Officers under the Development Leadership Initiative (DLI). The conference agreement includes a provision requiring the USAID Administrator to submit a strategy for projected personnel requirements over the next three fiscal years, similar to that proposed by the Senate. This strategy should describe the resources required for hiring, training, and deploying new personnel to domestic and overseas positions, including resources necessary for office and housing facilities. Concurrent with the submission of this strategy, the USAID Administrator is directed to submit a report describing the hiring, training, and deploying of new staff since the DLI began in fiscal year 2008, including resources expended for such purposes to date. This report should be updated on a semi-annual basis. The conferees intend that one of the outcomes of the personnel expansion at USAID will be increased oversight of programs and activities.

The conferees are aware of concerns with civilian capacity necessary to effectively administer programs in Pakistan and Afghanistan and have provided funds in this Act and prior Acts to support a civilian surge. The conferees direct the USAID Administrator to provide a report to the Committees on Appropriations on a semi-annual basis that describes the USAID workforce in both countries, including geographical distribution, skill sets, and training, as well as the physical space and capacity to absorb additional personnel.

The conferees believe that USAID's increased reliance on sole source contract awards, indefinite quantity contracts, and large umbrella awards undermines competitive processes, inhibits the participation of small organizations with niche expertise, limits creative and innovative approaches to programming, and is neither cost effective nor consistent with sustainable development. The conferees endorse the notification requirements in the House Report and the reporting requirement in the Senate Report, and require the USAID Administrator to consult with the Committees on Appropriations on steps that will be taken to reduce reliance on these mechanisms in the future and increase support for building capacity of local organizations and institutions, including the training that will be provided to new personnel hired under the DLI.

The conferees endorse the small minority-owned and disadvantaged business enterprises reporting requirement, as proposed in the House Report.

The conference agreement provides up to \$1,000,000 for special compensation for LES in section 7059(n), as proposed by the Senate, and requires the USAID Administrator to consult with the Committees on Appropriations on proposed guidelines for special compensation of these employees.

Implementation of USAID's Partner Vetting System is addressed in section 7034(o) of this Act.

CIVILIAN STABILIZATION INITIATIVE

The conference agreement provides a total of \$150,000,000 to continue to stand up a capacity for the Department of State, USAID, and other relevant civilian agencies to respond to post-conflict stabilization and reconstruction challenges, which is \$5,000,000 below the House and the same as the Senate. Within the amounts provided in this Act, \$30,000,000 is included under this heading, as proposed by the House, and \$120,000,000 is included under a similar heading in title I for this purpose.

Funds provided under this heading are intended to support costs associated with implementation of the Civilian Deployment Center; operational costs of the Office of Civilian Response; relevant USAID personnel salaries, expenses and training; and some deployment costs. The conferees direct that none of the funds provided under this heading may be used to establish a Reserve Corps component of the Civilian Response Corps. USAID and the Department of State shall jointly consult with the Committees on Appropriations prior to the obligation of funds made available under this heading.

The conference agreement includes language proposed by the House requiring the USAID Administrator and the Secretary of State to submit a coordinated joint spending plan for funds available under this heading and the CSI heading in title I.

CAPITAL INVESTMENT FUND

The conference agreement provides \$185,000,000 for Capital Investment Fund, which is the same as the House and \$28,000,000 below the Senate, of which up to \$134,500,000 is provided for implementation of the Capital Security Cost-Sharing Program. The

conferees endorse the reporting requirement, as proposed in the House Report.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$46,500,000 for the Office of Inspector General, which is the same as the House and Senate. The conferees continue to believe that programs funded through emergency appropriations should be regularized into the annual budget process.

The conferees direct the USAID Inspector General to continue to expand oversight activities of United States Government assistance programs in Pakistan and Afghanistan. The conferees understand that by the end of fiscal year 2010, the USAID Inspector General will have a fully staffed office in Islamabad that will consist of seven auditors, two investigators, and five Foreign Service National auditors/investigators, and a fully staffed office in Kabul that will consist of three auditors and two investigators. The Office of Inspector General is directed to ensure that efforts are de-conflicted from the oversight plans of other agencies and to consult with the Committees on Appropriations on the joint oversight plan in Afghanistan and Pakistan. In addition, the Office of Inspector General is directed to inform the Committees on Appropriations if gaps in oversight are identified.

The conferees endorse House Report language directing the Office of Inspector General to consult with the Committees on Appropriations on a regular and on-going basis.

*Funding in italics denotes a non-add and is not in addition to the subcategory total.

The conference agreement includes language that allows funding provided under this heading to be used for programs to address neglected tropical diseases, as proposed by the Senate; language on the determination related to organizations that have been found to support or participate in the management of a program of coercive abortion, as proposed by the Senate; and language on the procurement of condoms, similar to that proposed by the House.

The conferees endorse the reporting requirement on global health program effectiveness, similar to that proposed by the House. The report should include an analysis of key global health challenges, a review of the interventions that have been found to have the greatest impact in addressing these challenges, and opportunities for the United States to increase support for these interventions in order to significantly reduce mortality and morbidity. The report should pay special attention to those issues that have not received adequate support in the past, including maternal health which is directly related to child survival; the role that the United States could play in promoting best practices; and the role

of other donor countries in expanding access to these critical interventions. The conferees direct the Secretary of State to consult with the Committees on Appropriations prior to, and during, the development of this report.

The conferees endorse the HIV/AIDS prevention reporting requirement, as proposed by the House, which should include a description of HIV/AIDS prevention interventions that could be components of a United States global HIV/AIDS strategy and their effectiveness; an analysis of how these interventions should be implemented in order to address key drivers of the epidemic; the goals of the United States prevention strategy and how progress toward these goals will be measured; and a review of how the United States will collaborate with other bilateral and multilateral donors to reduce duplication. This report should include country-by-country prevention interventions and goals to ensure that unique conditions on the ground are taken into account.

The conferees direct OGAC to include, in future quarterly Summary Financial Status Reports of the global AIDS program, data on outlays as a percentage of the total amount of appropriated funds available for each country and Federal agency. Third quarter reports shall include a brief explanation of the factors contributing to countries falling behind target obligation and outlay rates.

The conferees are aware of the fiscal year 2010 Coordinated Audit Plan for global AIDS programs that has been developed by the relevant Inspectors General and are concerned that the Office of Inspector General at the Department of Health and Human Services does not plan to audit global AIDS funds transferred to the agency in the coming year. The OGAC Director is to report to the Committees on Appropriations on steps taken by OGAC to ensure that all program funds, including funds transferred to other agencies, are audited on a regular basis.

The conferees provide \$750,000,000 for the Global Fund to Fight AIDS, Tuberculosis and Malaria in this Act. The conferees remain committed to supporting a performance-based, results-oriented, multilateral financing instrument to combat these diseases. The conferees support efforts by the "Working Group to Manage the Tension between Demand and Supply in a Resource Constrained Environment" to ensure that Global Fund resources are used efficiently and effectively. The Committees on Appropriations expect to be updated by OGAC on further efforts of this group. The conferees endorse the Global Fund reporting requirement, as proposed by the House.

The conferees endorse the research and development reporting requirement, as proposed by the Senate, which should include a discussion of microbicides research and development and opportunities for expanded research and development related to child immunizations.

The conference agreement includes \$106,000,000 for pandemic preparedness and response activities to support H1N1 influenza and avian influenza surveillance, immunization delivery, and treatment programs internationally. The conferees note that the budget request did not include specific funding to address the H1N1 influenza outbreak and continue to support the transfer authority provided in the Supplemental Appropriations Act, 2009 (Public Law

111–32) to combat an H1N1 influenza pandemic, if the President determines that the human-to-human transmission of the virus is virulent, efficient and sustained, severe, spreading internationally to multiple regions, and has been designated by the World Health Organization to be at the highest phase of Global Influenza Pandemic Alert. The conferees also continue to support the use of funds provided in title VIII of the Supplemental Appropriations Act, 2009 (Public Law 111–32) to support USAID’s international response to H1N1 influenza.

The conferees support the use of family planning/reproductive health funds for programs in areas where population growth exacerbates human vulnerability to the impacts of climate change, as proposed by the Senate.

The conference agreement does not include a provision proposed by the House and Senate regarding funds to monitor and provide oversight of certain global health programs. However, the conferees direct that not to exceed \$400,000, in addition to funds otherwise available for such purposes, may be used to monitor and provide oversight of child survival, maternal and family planning/reproductive health, and infectious disease programs.

DEVELOPMENT ASSISTANCE

The conference agreement provides \$2,520,000,000 for Development Assistance (DA), which is \$30,000,000 above the House and \$47,000,000 below the Senate.

The conference agreement does not include language concerning the availability of funds related to water and microenterprise/microfinance programs, as proposed by the Senate. The conference agreement includes language requiring the relevant USAID bureaus and offices that support cross-cutting development programs, including but not limited to water, food security, and democracy and governance, to coordinate such programs on a regular basis, similar to that proposed by the Senate.

Agriculture and Food Security

The conference agreement provides a total of \$1,169,833,000 for agricultural development and food security programs, of which \$31,500,000 is for Collaborative Research Support Programs.

The conference agreement includes a provision requiring the Secretary of State, in consultation with the USAID Administrator, to submit a strategy for achieving food security and agricultural development program goals, as proposed by the House and Senate. The conferees expect this strategy to take into account the technical capacities and capabilities of other United States Government agencies. However, the conferees intend that the agencies funded in this Act should serve as the primary conduits for programmatic implementation. In cases where funding is transferred to other agencies, the conferees direct the Department of State to ensure that these funds are properly audited as directed in section 7009(e) of this Act and that oversight of these programs is conducted in a manner consistent with Department of State and USAID requirements.

The conference agreement does not include language authorizing the use of funds under this heading for local and regional

purchase, as proposed by the Senate. Local and regional purchase is addressed under the International Disaster Assistance heading.

The conferees provide not less than \$30,000,000 for dairy development and livestock programs, as proposed by the House.

The conference agreement provides not less than \$35,000,000 for agricultural research programs, including plant and biotechnology.

The conference agreement provides \$10,000,000 as a United States contribution to the endowment of the Global Crop Diversity Trust.

The conference agreement provides funding for a multilateral food security initiative. The Committees on Appropriations shall be consulted on the proposed uses prior to the obligation of these funds.

The conference agreement includes language related to the exercise of notwithstanding authority, as proposed by the Senate, and the Secretary of State is directed to provide the Committees on Appropriations a written justification within five days when such authority is used.

Economic Development

Cooperative Development Program.—The conference agreement provides \$10,000,000 for this program within USAID's Office of Private and Voluntary Cooperation, as proposed by the Senate.

Gender Integration.—The conferees endorse the reporting requirement proposed in the House Report related to the integration of gender considerations into agriculture and economic development programs.

Microfinance and Microenterprise Programs.—The conferees note that while USAID has increased its microenterprise activities in Africa in recent years, there has been relatively small investment in microfinance in Africa. The conferees direct the USAID Administrator to consult with the Committees on Appropriations on a strategy to increase funding for this purpose. The conferees further direct that up to 25 percent of funding be made available to build the institutional and human capacity of microfinance institutions.

The conferees direct that at least 50 percent of funds provided for microfinance and microenterprise programs be for grants and cooperative agreements to not-for-profit networks, practitioner institutions, and nongovernmental organizations (NGOs), and direct that USAID's Office of Microenterprise Development, in consultation with the Committees on Appropriations, develop a strategy to meet this mandate. This strategy shall be submitted to the Committees on Appropriations not later than 90 days after enactment of this Act, and shall include a description of USAID's strategy to increase outreach to women, and the poor and very poor who are currently without access to financial services.

Oversight.—The conference agreement does not include a provision regarding funds to monitor certain programs for children and victims of war, as proposed by the House and Senate. However, the conferees direct that not to exceed \$60,000, in addition to funds otherwise available for such purposes, may be used to mon-

itor and provide oversight of programs for displaced and orphaned children and victims of war.

Reporting Requirements.—The conferees endorse the reporting requirements on program review and impact evaluation processes, as proposed by the Senate, except that such report should be provided to the relevant appropriations and foreign affairs committees of the House and Senate.

The conferees endorse the small and medium enterprises reporting requirement, as proposed by the Senate.

The contracting reporting requirement proposed by the Senate is addressed under the USAID Operating Expenses heading.

Safe Water.—The conference agreement provides not less than \$315,000,000 for water and sanitation supply projects pursuant to the Senator Paul Simon Water for the Poor Act of 2005 (Public Law 109–121), including safe water for communities harmed by oil contamination in the northeastern region of Ecuador. The conferees endorse language in the House and Senate Reports on safe water and water management programs.

Women's Leadership Training.—The conference agreement provides \$20,000,000 for women's leadership capacity building programs, as proposed by the House.

Education

Basic Education.—The conference agreement provides a total of \$925,000,000 for basic education programs in this Act, of which \$365,000,000 is provided under this heading. The conferees are concerned with the availability of education for children who are refugees or internally displaced, and encourage USAID to use a portion of basic education funds for programs in such settings. The conferees intend that schools supported with basic education funds appropriated in this Act should, when practicable, serve as “Communities of Learning” and should be a focal point for development programs, as proposed by the House. USAID shall ensure that pilot programs implemented pursuant to section 664 of division J of the Consolidated Appropriations Act, 2008 (Public Law 110–161) include “Communities of Learning” in the five year strategic plans, where appropriate.

Higher Education.—The conference agreement provides not less than \$200,000,000 for higher education programs in this Act, of which not less than \$25,000,000 shall be for such programs in

Africa, as proposed by the Senate. The conferees believe that higher education partnerships between American and African institutions of higher education should be expanded and \$15,000,000 is provided for this purpose, as proposed by the Senate, which shall be awarded in an open and competitive process in accordance with all applicable rules and regulations.

Climate Change and Environment

Biodiversity.—The conference agreement includes a total of \$205,000,000 in title III of this Act for biodiversity programs, particularly to protect forests, wildlife, and water ecosystems. Of this amount, not less than \$25,000,000 is for USAID's conservation programs in the Amazon Basin, of which \$15,000,000 is for the Initiative for Conservation in the Andean Amazon and \$10,000,000 is for such activities in Brazil. In addition, \$20,500,000 is for the Congo Basin Forest Partnership; \$7,500,000 is for the Coral Triangle Initiative; \$5,000,000 is for international programs of the United States Fish and Wildlife Service, particularly in central Africa; \$2,000,000 is for the Department of State's Bureau of Oceans and International Environmental and Scientific Affairs and USAID to support inter-agency outreach and capacity building programs and activities in developing countries related to implementation and enforcement of section 8204 of the Food, Conservation, and Energy Act, 2008 (Public Law 110–246); and \$1,000,000 is for conservation and related programs of the Department of Interior in the Maya Biosphere Reserve in Guatemala. The conferees direct USAID to consult with the Committees on Appropriations on a multi-year strategy for forest and archeological conservation in the Peten region of Guatemala. The conferees endorse language in the Senate Report on the protection of orangutan habitat in Borneo and Sumatra, and support wildlife conservation in Southern Sudan and Niger. In addition, the conferees recommend that USAID work with the United States National Park Service and the National Oceanic and Atmospheric Administration to protect forests, wildlife, and water ecosystems in developing countries. The conferees direct the agencies administering these funds to consult with the Committees on Appropriations prior to the obligation of funds.

Climate Change.—The conference agreement includes a total of \$1,257,200,000 for climate change programs in this Act, of which \$108,500,000 is for clean energy, \$74,450,000 is for sustainable landscapes, and \$122,750,000 is for adaptation programs.

The conferees intend that funds for clean energy programs will be used only to support programs that promote the sustainable use of renewable energy technologies and energy efficient end-use technologies, carbon sequestration, and carbon accounting. The primary objective of these programs should be to reduce, mitigate, and/or sequester emissions of greenhouse gases. The conferees direct that no funds shall be utilized for any nuclear, coal or other fossil fuel technology or production. The conferees intend that USAID's programs should complement the efforts undertaken by the Department of State's Bureau of Oceans and International Environmental and Scientific Affairs as well as programs implemented through the Clean Technology Fund (CTF), the Strategic Climate Fund (SCF), and the Global Environment Facility.

The conferees urge USAID to expand support in rural communities for small scale solar and other renewable energy technologies, which provide clean, healthier and more economically sustainable sources of energy than fossil fuels and help reduce migration to overpopulated urban areas.

The conferees intend that funds for sustainable landscapes programs will be used to support activities to maximize climate change mitigation, including carbon removals and avoided emissions, through efforts to protect and preserve landscapes and ecosystems. These efforts should include programs that preserve tropical forests, abandoned lands, and other endangered landscapes. In addition, programs to build institutional capacity to measure and monitor greenhouse gas emissions and removal, and policy reforms including land tenure, should be supported. These programs should not duplicate similar efforts currently implemented through USAID's biodiversity programs.

The conferees intend that a significant portion of funding provided for sustainable landscapes programs should be used to expand activities that reduce emissions from tropical forest destruction and degradation (commonly called REDD) in order to avoid the worst effects of global climate change. USAID should increase support for programs that assist developing countries in building their institutional and governance capacity to manage forest resources in a manner that demonstrates measurable, reportable and verifiable emissions reductions; develops strong forest governance laws; and improves law enforcement against illegal logging. These programs should be transparent and should respect the rights of indigenous and forest-dependent people, who should be consulted and included in the design and implementation of programs. The Department of State and USAID are directed to consult jointly with the Committees on Appropriations not later than 90 days after enactment of this Act on the United States Government strategy related to REDD and the capacity of developing countries to implement these programs.

The conferees intend that adaptation program funds will be used to ensure that on-going programs and projects are designed to be as resilient as possible to climate variability and change. This funding should be used to ensure that climate change factors are taken into account during program assessment and design and that any program modifications are included in final implementation.

INTERNATIONAL DISASTER ASSISTANCE

The conference agreement provides \$845,000,000 for International Disaster Assistance, which is \$15,000,000 above the House and \$10,000,000 below the Senate.

The conference agreement neither designates, nor assumes, a specific amount for food assistance from funds made available under this heading, as proposed by the House. However, the conferees understand that, as in previous years, a significant portion of the funds made available under this heading will support food assistance in fiscal year 2010 and will be in addition to the \$1,169,833,000 designated in this Act for food security and agricultural development.

The conferees endorse the reporting requirement on local and regional procurement of food assistance contained in the House Report, except the submission date shall be September 30, 2010.

TRANSITION INITIATIVES

The conference agreement does not include authority for a new Rapid Response Fund under this heading, as proposed by the House.

COMPLEX CRISES FUND

The conference agreement provides \$50,000,000 for the Complex Crises Fund (CCF), which is \$50,000,000 above the House and \$50,000,000 below the Senate. This new account provides greater flexibility to USAID to prevent or respond to emerging or unforeseen complex crises overseas, and is similar to the Emergency Crises Fund account proposed by the Senate. The CCF consolidates the budget requests for a Rapid Response Fund and a Stabilization Bridge Fund to provide greater efficiency and oversight by the Administration and the Congress of these activities.

For the purposes of this account, a “complex crisis” shall mean a disaster or emergency, usually of long-term duration, that includes a combination of humanitarian, political and security dimensions which hinders the provision of external assistance.

USAID and the Department of State should continue to establish and bolster crisis prevention and response capabilities in order to assume most, if not all, of the functions currently funded by the Department of Defense under section 1207 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163). USAID and the Departments of State and Defense shall continue to consult on the formulation and implementation of stabilization

and security assistance, as appropriate, whether through the utilization of section 1207 or funds appropriated by this Act.

The conferees direct that not less than \$10,000,000 of the funds in this Act for assistance for the DRC be made available to address gender-based violence, including for fistula repair and other assistance for victims, and training and support for health and law enforcement personnel. The conferees direct the Department of State, in consultation with USAID, to provide a report to the Committees on Appropriations that outlines a comprehensive strategy and budget to address gender-based violence in the DRC. The report should describe how United States Government efforts fit into multi-donor and host government strategies to address this issue. The Department shall consult with the Committees on Appropriations prior to developing the strategy. The conferees endorse the reporting requirements on the exploitation of

mineral resources, as proposed in the Senate Report, to include identifying the governments and companies that are involved in or profiting from such exploitation.

Sudan.—The conferees direct the Department of State, in consultation with USAID, to prioritize programs in Southern Sudan that implement the Comprehensive Peace Agreement, including support for local governance, judicial strengthening and rule of law, law enforcement professionalism and commitment to human rights, anti-corruption, and community level reintegration programs.

The conferees are concerned with reports of corruption within the Government of Southern Sudan (GoSS), and the conference agreement includes a provision, similar to that proposed by the Senate, requiring the Secretary of State, in determining amounts and types of assistance to provide to the GoSS, to consider whether such government is conducting regular audits of its financial accounts to ensure transparency and accountability of funds, including revenues from the extraction of oil, gas, and other natural resources, and is making such audits publicly available in a timely manner. The conferees believe such audits are necessary to prevent the misuse of funds, including United States assistance.

The conferees direct the Department of State, in consultation with USAID, to provide a report to the Committees on Appropriations not later than 90 days after enactment of this Act, on the steps that will be taken by the GoSS to improve resource management and increase transparency and accountability of funds, including efforts by the United States Government to support this goal.

The conferees endorse the reporting requirement on Sudan and the People's Republic of China, as proposed in the House Report.

Asia

Burma.—The conferees recognize that the failure of governance in Burma has resulted in severe humanitarian needs throughout the country that are further exacerbated by violations of internationally recognized human rights committed with impunity by the ruling junta. The conference agreement includes language, similar to that proposed by the House and Senate, and provides \$36,500,000 for activities to address these needs, including income-generating activities, and to support ongoing democracy and humanitarian programs along the Burma-Thailand border. The Department of State is to consult on the uses of these funds, which are subject to the regular notification procedures of the Committees on Appropriations. The conference agreement also requires that funds be used in a manner that is consistent with the principles and goals of the National League for Democracy in Burma.

Cambodia.—The conferees intend that assistance should be increased for Cambodian NGOs involved in the promotion and protection of human rights, democracy and the rule of law, including core funding. The conference agreement does not include a provision, as proposed by the Senate, which would have amended section 656 of the Foreign Assistance Act of 1961. The conferees direct the Secretary of State to submit a report to the Committees on Appropriations not later than 180 days after enactment of this Act detailing, for each country that received assistance under chapter 5 or part II of such Act during the reporting period specified in that section, the net savings to that country for training purchased at a reduced cost or incremental rate through the Foreign Military Sales program, as authorized by section 21(a)(1)(C) of the Arms Export Control Act, as amended by section 108 of the International Security and Development Cooperation Act of 1985 (Public Law 99-83).

The conferees endorse the environmental reporting requirement, as proposed by the

House. The report should include all financing carried out in fiscal year 2009 for renewable energy or end-use energy efficiency technologies, as well as other environmentally beneficial exports; efforts made by Ex-Im to promote and support such exports; information on which regions and sectors exhibit the greatest potential for such exports; how Ex-Im defines and tracks such activities; data on Ex-Im's progress toward meeting the 10 percent directive and Ex-Im's planned efforts to overcome any shortfall; Ex-Im data, current policies, and mitigation measures on greenhouse gas emissions of its projects; and, as applicable, the status of implementation of recommendations made by the GAO related to the promotion of renewable energy or end-use energy efficiency technologies, as well as other environmentally beneficial exports.

The conferees endorse the reporting requirement on the impact of the global financial crisis and economic downturn on the work of OPIC, as proposed by the House. The report should include annual and quarterly data, detail and trends, both in aggregate and for each category of credit, guarantee, or insurance instrument offered by OPIC, on the following: impact on demand for OPIC's

The following provisions are new, modified from the Omnibus Appropriations Act, 2009 (Public Law 111–8), or further clarified in this joint statement.

Sec. 7004. Embassy construction

The provision is modified by including subsection (c), which requires the Department of State to consult with the Committees on Appropriations prior to the obligation of funds to acquire property for diplomatic facilities in Kabul, Afghanistan, similar to that proposed by the Senate.

Sec. 7006. Local guard contracts

The conference agreement includes a new provision which allows the Secretary of State flexibility to award local guard contracts on the basis of either lowest price that is technically acceptable or the best value cost-technical tradeoff (as defined in the Federal Acquisition Regulation part 15.101) when awarding such contracts in Afghanistan, Iraq and Pakistan. Current law requires that all local guard contracts must be awarded on the basis of the lowest price that is technically acceptable, and if other factors had

been considered, the problems reported earlier this year involving the local guard contract in Kabul, Afghanistan may have been prevented. The conferees understand that providing the Secretary with authority to make awards through the best value approach can enhance the guard force's effectiveness and justify the additional cost, particularly in countries with dangerous or hostile environments.

Sec. 7008. Coups d'État

The conference agreement changes the heading from "Military Coups" to "Coups d'État". While there is no substantive change to the provision, the conferees are concerned that the previous title implied an unintended limitation of the provision's application, and direct the Department of State's Office of the Legal Advisor to undertake a review of events necessary to trigger the provisions of this section and submit a report on such events to the Committees on Appropriations not later than 45 days after enactment of this Act.

Sec. 7009. Transfer authority

The conference agreement includes a new subsection requiring notification of transfers over \$1,000,000 between either USAID or the Department of State and any department, agency, or instrumentality of the United States Government. The provision is further modified by requiring audits of funds transferred by the Department of State to any other federal agency.

Sec. 7015. Reprogramming notification requirements

The conference agreement modifies subsection (c) to include the CSI and CCF headings; subsection (d) to include an exemption from the requirements of this subsection to funds transferred to title I of this Act; and subsection (f) by including Somalia and Sri Lanka on the country notification list.

Sec. 7019. Allocations

The conference agreement modifies this section to include charts under the following headings: CSI, D&CP, American Sections, International Commissions, DF, INCLE, and PKO; and strikes Andean Counterdrug Programs.

Sec. 7030. International financial institutions

The conference agreement continues prior year language related to limitations on programs in Heavily Indebted Poor Countries, as proposed by the House, and includes technical changes.

Sec. 7034. Special authorities

The conference agreement is modified by deleting subsections (i), (k), (m), and (o); moving subsection (f) to section 7085(c) of this Act; modifying subsection (d); and including new subsections (j), (l), (m), (n), (o), (p), (q), (r), (s), and (t).

The conference agreement includes a modified provision (subsection (o)) that restricts the use of funds in this Act for implementation of the Partner Vetting System (PVS), similar to that proposed by the Senate. The section was modified to allow for imple-

mentation of a limited pilot program, and the conferees understand that this pilot program may be conducted in up to five countries and in Washington. The provision also requires that the PVS pilot be applied equally to the Department of State and USAID. Steps to put USAID's PVS system in place began in fiscal year 2009, and the system should be designed to vet USAID partners in order to minimize the risk that taxpayer-funded assistance could be diverted for terrorist purposes, without impeding the efficient and effective implementation of United States foreign assistance programs. The conferees expect the system to be extended to the Department of State's implementing partners but do not intend for this extension to supersede current Leahy vetting requirements on security assistance.

The conferees remain concerned with the quality of the Department of State and USAID congressional budget justifications (CBJs). While the conference agreement does not include language proposed by the Senate that would have prohibited the obligation of funds to compile, produce, or publish any CBJ documents for fiscal year 2011 until the Secretary of State and the USAID Administrator consult with the Committees on Appropriations, the conferees expect consultations to continue regarding the purpose, format, and content of the CBJs.

The conference agreement includes a provision clarifying the Secretary of State's obligations regarding visa determinations for applicants of A-3 and G-5 visas, under the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110-457). For purposes of section 203(a)(2) of such Act, a final civil judgment in a trafficking case or a determination by the Department of Justice that the United States Government would seek to indict the diplomat or a family member but for diplomatic immunity shall be deemed "credible evidence" of abuse or other mistreatment.

Sec. 7040. Limitation on Assistance for the Palestinian Authority

The conference agreement includes a new subsection (f), which is substantively identical to the provision carried in the Supplemental Appropriations Act, 2009 (Public Law 111-32). The new subsection continues to prohibit assistance to Hamas or any entity effectively controlled by Hamas, and further prohibits assistance to any power-sharing government of which Hamas is a member unless such government, including all its ministers or such equivalent, has met certain conditions.

Sec. 7041. Saudi Arabia

The conference agreement includes a new provision prohibiting assistance for Saudi Arabia, similar to that proposed by the House. The conference agreement includes a waiver. The Senate did not include similar language.

Sec. 7042. Near East

The conference agreement includes a new provision similar to that proposed by the Senate, which provides overall assistance levels in the Act for the countries of Egypt, Iraq, Jordan, and Lebanon. The conferees note that these levels do not include funds that

may be derived through regional funding within the individual appropriations accounts. The provision also includes a funding level for the West Bank and Gaza.

The provision includes language, similar to that proposed by the Senate, regarding the establishment of an endowment to further the shared interests of the United States and Egypt, consistent with the purposes for which such funds are requested in the fiscal year 2010 CBJ materials and appropriated under such heading. The House did not include a similar provision. The conferees recognize that discussions and negotiations on such an endowment will take time, and direct the Secretary of State to consult with the Committees on these efforts. Consultation should include explanation of the specific definition of shared interests, and how such interests would be furthered through an endowment. The conferees note that such funds are subject to the regular notification procedures of the Committees on Appropriations.

The provision includes language continuing the transparency and accountability reporting requirements contained in the statement of managers accompanying the Supplemental Appropriations Act, 2009 (Public Law 111-32, House Report 111-151) under the MRA heading. The House had included the reporting requirement as a separate general provision. The Senate bill did not include a similar requirement.

Sec. 7043. Iran Sanctions

The conference agreement includes a provision similar to that proposed by the House which modifies the reporting requirement in the Omnibus Appropriations Act, 2009 (Public Law 111-8) by adding a statement of policy in subsection (a) and including a limitation in subsection (b). The conferees intend “significant” or “material” to mean aggregate transactions undertaken in a 12-month period valued in excess of \$20,000,000. The conferees direct the Departments of State and Treasury to be responsible for determining what entities meet such standard. The conference agreement does not restrict the Export-Import Bank from modifying existing transactions. However, the conferees direct the Export-Import Bank to consult with the Committees on Appropriations prior to the modification or extension of financing to any existing project that would otherwise be prohibited by this section.

Sec. 7044. Aircraft Transfer and Coordination

The conference agreement includes a provision, similar to that proposed by the Senate, regarding the use of Department of State and USAID aircraft, including a reporting requirement on air fleets.

Sec. 7045. Western Hemisphere

The conference agreement includes funding and legislative requirements for a Caribbean Basin Security Initiative, as proposed by the House. The conference agreement includes a provision, similar to that proposed by the Senate, providing authority for USAID to continue support for an Economic and Social Development Fund for Central America, which is intended to address unemployment and other root causes of drug trafficking and criminal gangs, par-

ticularly among youth, in vulnerable communities. The conference agreement does not provide a specific funding level from under the ESF heading, as proposed by the Senate. The provision continues funding allocations and legislative requirements for Haiti, Guatemala, Mexico, Central America, and trade capacity building. The conferees intend that the pilot project required in subsection (h) will inform the findings and recommendations of the report required on passport cards, which should also include an analysis of the effect that expanding passport cards to air travelers may have on the fees for both the passport cards and passport books.

Sec. 7046. Colombia

The conference agreement includes language similar to prior years except that it continues by reference the prior year funding restrictions and reporting requirements with the exception that (b)(1)(B)(iv) of the Omnibus Appropriations Act, 2009 (Public Law 111–8) is modified to include human rights defenders, journalists, trade unionists, political and religious leaders. The provision provides not more than \$521,880,000 for assistance for Colombia from funds made available under the headings ESF, NADR, INCLE, IMET, and FMF. The conferees note that the cap established by this section includes funds that may be derived from regional accounts.
