

Corporate Overview

AMERICAN SYSTEMS delivers exceptional, one-of-a-kind services to a diversity of Government and Commercial customers. Consulting Services; Professional, Technical, and IT Services; Custom Solutions; Managed Services; Human Capital Services; and Design and Installation Services—whether we address your needs within a single service offering or from multiple offerings, we deliver solutions **when it has to be right the first time.**

About AMERICAN SYSTEMS

Founded in 1975, AMERICAN SYSTEMS is one of the largest employee-owned companies in the United States. With offices nationwide and a headquarters in Chantilly, Va., we provide a wide variety of services tailored specifically to our government and commercial customer base. Our approximately 1,300 employee-owners have a vested interest in their work and are committed to delivering the highest-quality strategic solutions to every customer, every time. Our quality reflects our people, our processes, and our philosophy—and our reputation depends on it.

Service Offerings

Consulting Services

Our customers receive industry-best technology subject matter specialists, market leadership, and focused services.

Professional, Technical, and IT Services

Our program managers are PMI certified, we are ISO9001:2008 registered, and our software development process is externally appraised.

Custom Solutions

Our wide-ranging custom solutions follow the instructional systems development process and are Shareable Content Object Reuse Model compliant.

Managed Services

Our internationally-offered Managed Services support professional, technical, administrative, and clerical task requirements.

Human Capital Services

For more than thirty years, we have delivered the professional, technical, and administrative talent needed to reduce costs, increase flexibility and responsiveness, and get the job done right the first time.

Design and Installation Services

We offer total turnkey support for the customer's network transport layer infrastructure, engineering, and installation requirements.
