

# The More Organizations Spend with FSSI OS2, the More Everyone Saves!

In this critical time of reduced budgets, savings can be achieved by controlling spending. That's why the Second Generation Federal Strategic Sourcing Initiative for Office Supplies (FSSI OS2) is here. This cross-agency strategic sourcing initiative allows the government to combine its purchasing power, analyze spending to understand how and what we are buying, and follows all government regulations. What could be better?

## FSSI Office Supplies Program Metrics (through August 2011)

- Savings through FSSI: **\$16 million representing 8.4%\***
- Spend through FSSI: **\$180.2 million**
- Small Business Utilization: **73.9%**
- AbilityOne Utilization: **17.4%**
- Green Items (EPP or CPG): **16%**
