

The following pumps are “approved” manufacturers of potable water pumps when constructed of food grade materials:

ACT-202-BTW
Ampco
Bell & Gossett
Berkeley
Coker
Darley
Davey
Dayton
Flotec
Goulds
Grainger
Grundfos
Hays
Invensys AVP
Jabsco
Pacer
Shurflo
Sta-Rite
Thompson
Walrus TQCN
Waukesha Cherry-Burrell “C” Series
Yamada

Ensure that you research particular models of each brand listed to ensure they are constructed of food grade materials.

Note: All Honda pumps are not acceptable based on the manufacturer’s statement that their pumps are not intended for potable water.
