These nine projects represent a selection of the more than 30 winners in 2012.

Federal Energy and Water Management Awards 2012

Honoring individuals and
organizations making significant
contributions to the efficient use
of energy and water resources
within the Federal government.

Think Globally... LEAD LOCALLY

Year after year, Federal employees like you inspire us to be the best we can. Individuals and teams around the world, inspired by a pioneering spirit, are demonstrating leadership in energy innovation and management.

Find out more about how cost-effective energy and water management can benefit you and how to nominate energy leaders in your agency.
