[Revision Log](#)

Roles

- Manage beam line operation and experiment program environment, safety and health (ESH) issues.
- Assign adequate resources to provide beam line and User ESH support and oversight.

Responsibilities

- Establish and communicate requirements for safe operation of the beam line and experiments.
 - Develop procedures to address NSLS beam line ESH, training, and operations requirements.
 - Ensure that the beam line staff assignments within the Proposal, Allocation, Safety and Scheduling (PASS) system are current and reviewed annually.
 - Know and reinforce NSLS ESH requirements pertinent to beam line operation as defined in the NSLS Policies and Requirements Manual (PRM) and the BNL Standards Based management System (SBMS).

Authorities

- Direct any personnel working at the beam line to ensure safe operation and compliance with NSLS requirements.
- Stop beam line or experiment operations that present unacceptable risk.

Accountabilities

- Accountable to the NSLS Chairperson for safe operation of beam line, for compliance with NSLS requirements, and fulfillment of the roles and responsibilities listed above.
- Accountable to beam line staff to provide the resources needed for effective achievement of their ESH responsibilities.
