Interactive State Transportation Facts and Figures

Friday, January 27, 2012 - The Department of Transportation's Bureau of Transportation Statistics (BTS) today released [State Transportation Facts and Figures](#), an interactive web transportation mapping application that allows customers to find state-by-state transportation data, comparisons and rankings as well as gives them the ability to download state transportation information. *State Transportation Facts and Figures* contains data and statistics related to each state's transportation infrastructure, transportation safety, freight movements and passenger travel, vehicle characteristics, economy and transportation finance, and transportation energy usage and the environment. For additional state tables, see [State Transportation Statistics 2010](#). For the latest transportation spatial data and analysis, see [Office of Geospatial Information Services](#). Contact Dave Smallen: 202-366-5568.
