Table 930. Energy Consumption by End-Use Sector: 1975 to 2010

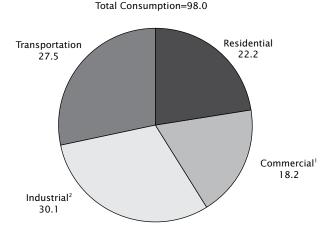

[71.97 represents 71,970,000,000,000,000,000 Btu. Btu = British thermal units. For definition of Btu, see source and text, this section. See Appendix III. Total energy consumption in the end-use sectors consists of primary energy consumption, electricity retail sales, and electrical system energy losses]
