

No. HS-15. Deaths—Age-Adjusted Rates by Race and Sex: 1900 to 2001

[Age-adjusted rates per 100,000 U.S. standard population based on year 2000 standard see Technical Notes in the source. Rates are based on populations enumerated as of April 1 for census years and estimated as of July 1 for all other years. Beginning 1970, excludes deaths of nonresidents of the United States. Data for specified races other than White and Black should be interpreted with caution because of inconsistencies reporting race on death certificates and on censuses and surveys; see Technical notes]
