HSG - 410352 - FHA Financial Operations Modernization - FHAFO-P013

INITIATIVE DEFINITION BY08

Initiative Definition BY08	
Template Name	IT Investment BY2008
Investment Name	HSG - 410352 - FHA Financial Operations Modernization - FHAFO-P013
Investment Revision Number	9
Is this investment a consolidated business case?	No
Point of Contact	Rodgers, Linda
Revision Comment	
Class	IT

I.A: OVERVIEW BY08

Descriptive Information BY08	
Date of Submission	9/11/2006
Agency	Department of Housing and Urban Development
Bureau	Working Capital Fund
Name of this Capital Asset	HSG - 410352 - FHA Financial Operations Modernization - FHAFO-P013
Full UPI Code	025-00-01-01-01-1010-00
Four Digit UPI Code	1010
Two Digit UPI Code	00
Exhibit 53 Part	IT Investments by Mission Area
OMB Investment Type	01 - Major Investment
OMB Exhibit 53 Major Mission Area	01 - Financial Management Systems
PY Full UPI Code	025-00-01-01-01-1040-00-402-124
What kind of investment will this be in this Budget Year	? Mixed Life Cycle
If this investment supports homeland security, Indicate by corresponding number which homeland security mission area(s) this investment supports?	
OMB Short Description	The FHA Financial Operations initiative provides FHA with integrated budget management, timely funds control, and financial operations support to record, validate, process and account for payables and receivables.
Investment C&A Status	55 - All of the systems within this investment have been through a C&A Process and have been granted Full Authority to Operate
Screening Questions BY08	

What was the first budget year this investment was FY2001 or earlier submitted to OMB?

Provide a brief summary and justification for this investment, including a brief description of how this closes in part or in whole an identified agency performance gap:

The Federal Housing Administration Financial Operations (FHAFO) initiative provides FHA with integrated budget management, timely funds control, and financial operations support to record, validate, process and account for payables and receivables. As a result of the initiative, FHA produces accurate and timely financial statements directly from FHA general ledger. The statements are produced within the required timeframes. The statements are complaint with the requirements of FFMIA and other standards. The initiative improves FHA's ability to manage financial risk.

The FHAFO effort is a consolidated initiative consisting of two major parts. The first part implemented a FED-GAAP certified ledger for FHA and is compliant with the e-GOV PMA objective for Financial Systems integration. The second part implements an integrated and modern Target Enterprise Architecture solution for the FHA Financial Operations business processes. There are 12 legacy systems currently supporting the FHAFO business processes. The FHAFO initiative is in alignment with HUD's IT roadmap, Vision 2010.

FHAFO involves the processing of all financial events for the FHA Mortgage Insurance programs. The FHA Financial Operations life cycle consists of four business functions: 1. Underwriting / Up-front Mortgage Insurance Premiums, 2. Servicing / Periodic Premiums,

3.Terminations,

4. Assets.

FHAFFO must respond to three high-level areas of business functions undergoing significant changes in the next few years. The changes affect planning for the FY 2007 and FY 2008 systems budgets. The areas of change are:

1 - FHA Financial Operations Business Systems Integration:

2 - FHA Reform: Address a set of new and revised housing programs that will result in significant improvements in the FHA business.

3 - Treasury / External Requirements: The Dept. of Treasury is moving to eliminate lock box services and require the use of Pay.Gov. Other areas of external requirements are statutory changes, changes to requirements under the Debt Collection Integrity Act (DCIA), and changes in functionality to address audit findings.

HUD's Integrated Financial Management System plans to modernize HUD's accounting and financial management functions by transitioning its core legacy systems into PeopleSoft COTS suite of financial management modules to produce an integrated turn-key accounting and financial system with hosting services/support at a shared sevice center.

services, support at a shared service content.	
Did the Agency's Executive/Investment Committee approve this request?	Yes
If "yes," what was the date of this approval?	2/10/2006
Did the Project Manager review this Exhibit?	Yes
Contact information of Project Manager?	
Project Manager Name	
Fuentevilla, William F	
Project Manager Phone Number	202-708-0614 x2344
Project Manager E-mail	William F. Fuentevilla/HSNG/HHQ/HUD
Has the agency developed and/or promoted cost effective, energy efficient and environmentally sustainable techniques or practices for this project.	No
Will this investment include electronic assets (including computers)?	No
Is this investment for new construction or major retrofit of a Federal building or facility? (answer applicable to non-IT assets only)	No
If "yes," is an ESPC or UESC being used to help fund thi investment?	S
If "yes," will this investment meet sustainable design principles?	
If "yes," is it designed to be 30% more energy efficient than relevant code?	
Does this investment directly support one of the PMA initiatives?	Yes
If "yes," check all of the PMA initiatives that apply:	Budget Performance Integration, Expanded E- Government, Financial Performance, Human Capital
Does this investment support a program assessed using the Program Assessment Rating Tool (PART)? (For more information about the PART, visit www.whitehouse.gov/omb/part.)	
Does this investment address a weakness found during the PART Review?	No
If "yes," what is the name of the PARTed program?	
If "yes," what PART rating did it receive?	
Is this investment for information technology?	Yes
Briefly describe how this asset directly supports the identified initiative(s)?	This initiative implements FED-GAAP certified ledger for FHA and is compliant with the eGOV PMA objectives for Financial Systems integration. It also implements modern target Enterprise Architecture solution for the FHA financial operations business processes that are currently supported by 12 automated systems.
	J · · · ·

IT Screening Questions BY08

If the answer to Question: "Is this investment for information technology?" was "Yes," complete this sub-section.

If the answer is "No," do not answer this sub-section.	
What is the level of the IT Project? (per CIO Council PM Guidance)	Level 3
What project management qualifications does the Project Manager have? (per CIO Council's PM Guidance)	(1) Project manager has been validated as qualified for this investment
Is this investment identified as "high risk" on the Q4 - FY 2006 agency high risk report (per OMB's 'high risk" memo)?	No
Is this a financial management system?	Yes
If "yes", does this investment address a FFMIA compliance area?	Yes
If "yes," which FFMIA compliance area?	Accounting standards, SGL, Federal financial management systems requirements
If "no," what does it address?	
If "yes," please identify the system name(s) and system systems inventory update required by Circular A-11 sect	
A43 - SFIS; A43C - SFICS; A80B - SFPCS-P; A80D - F71/71A - DCAMS; F72 - TIIS; F47 - MFIS; F75 - MF	DSRS; A80N - Notes; A80Q - PICS; SFPCS-U - A80R; IC; P013 - FHASL;
Provide the Percentage Financial Management for the budget year	100.000000
What is the percentage breakout for the total FY2008 funding request for the following? (This should total 100%)	100.000000
For budget year, what percentage of the total investment is for hardware?	4.170000
For budget year, what percentage of the total investment is for software?	4.170000
For budget year, what percentage of the total investment is for services?	81.660000
For budget year, what percentage of the total investment is for other services?	10.000000
If this project produces information dissemination products for the public, are these products published to the Internet in conformance with OMB Memorandum 05- 04 and included in your agency inventory, schedules and priorities?	
Contact information of individual responsible for privacy	related questions:
Privacy Officer Name	
Smith, Jeanette	
Privacy Officer Phone Number	202-708-0614 x8062
Privacy Officer Title	HUD Privacy Officer
Privacy Officer E-mail	Jeanette_smith@HUD.GOV

Are the records produced by this investment appropriately scheduled with the National Archives and Records Administration's approval?

Jeanette_smith@HUD.GOV No

I.B: SUMMARY OF SPENDING BY08

Summary of Spending BY08

Provide the total estimated life-cycle cost for this investment by completing the following table. All amounts represent budget authority in millions, and are rounded to three decimal places. Federal personnel costs should be included only in the row designated "Government FTE Cost," and should be excluded from the amounts shown for "Planning," "Full Acquisition," and "Operation/Maintenance." The "TOTAL" estimated annual cost of the investment is the sum of costs for "Planning," "Full Acquisition," and "Operation/Maintenance." For Federal buildings and facilities, life-cycle costs should include long term energy, environmental, decommissioning, and/or restoration costs. The costs associated with the entire life-cycle of the investment should be included in this report.

Total*	0	0	0	0	0	0	0	0	8.93									

*This row represents the 'Number of FTE represented by cost' from Summary of Spending table and will be sent to OMB.

Funding Questions BY08

Will this project require the agency to hire additional No FTE's?

How many and in what year?

If the summary of spending has changed from the FY2007 President's budget request, briefly explain those changes.

The Summary of Spending for this initiative has changed because the scope of this initiative has changed. Last year it was reported as FHA Subsidiary Ledger, but this year this initiative includes budget request for 11 additional financial operations systems.

Contract/Task Order Questions BY08 If earned value is not required or will not be a contract requirement for any of the contracts or task orders above, explain why: Contracts with "NO" EVM indicated in the contract are maintenance contracts which practice "Operational Analysis". Yes

Do the contracts ensure Section 508 compliance?

Explain why (508 Compliance)?

Software supports 508 compliance.

Is there an acquisition plan which has been approved in Yes

accordance with agency requirements? What is the date of your acquisition plan? If "no," will an acquisition plan be developed? If "no," briefly explain why:

8/15/2005

I.D: PERFORMANCE INFORMATION BY08

Performance Goals & Measures BY08

Agencies must use the Performance Goals and Measures Table below for reporting performance goals and measures for all non-IT investments and for existing IT investments that were initiated prior to FY 2005. The table can be extended to include measures for years beyond FY 2006.

Performance Goals and Measures

Fiscal Year	Strategic Goal(s) Supported	Performance Measure	Actual/baseline (from Previous Year)	Planned Performance Metric (Target)	Performance Metric Results (Actual)
2002	EM. Embrace high standards of ethics, management, and accountability. EM 2. Improve HUD's management, internal controls and systems and resolve audit issues customer service of HUD and our partners	HUD developed this metric in 12/02; therefore no goals were established for FY 02.	2 material weaknesses: 1)FHA's ADP system environment must be enhanced to more effectively support FHA's business processes2) Controls over budget execution and funds control must be improved	Number of Material Weaknesses	2 material weaknesses
2002	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and our partners	HUD developed this metric in 12/02; therefore no goals were established for FY 02.	15 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines (OMB Circular A-127).	Number of financial management systems not in compliance with Federal financial management guidelines	15 Financial management systems not in compliance with Federal financial management guidelines
2002	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and	HUD developed this metric in 12/02; therefore no goals were established for FY 02.	19 FHA Financial Management Systems in Operation	Number of FHA financial management systems in operation	19 FHA financial management systems in operation

Fiscal Year	Strategic Goal(s) Supported	Performance Measure	Actual/baseline (from Previous Year)	Planned Performance Metric (Target)	Performance Metric Results (Actual)
	our partners				
2003	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues	2 material weaknesses. FHA's Blueprint for Financial Management Systems dated April 2001 describes FHA's plan to strengthen funds control processes, accounting operations and financial statement reporting. FHA expects to address the cited material weaknesses with the completion of this phased plan in December 2006.	1)FHA's ADP system environment must be enhanced to more effectively support FHA's business processes 2) Controls over budget execution and funds control must be improved	Number of material weaknesses	weaknesses
2003	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and our partners	3 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines (7(g)- (I) of OMB Circular A-127). Note: All 15 Financial Management Systems will be compliant with 7(a)-(f) of OMB Circular A-127.	15 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines (OMB Circular A-127).	Number of financial management systems not in compliance with Federal financial management guidelines	3 financial management systems not in compliance with Federal financial management guidelines
2003	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and our partners	19 FHA financial management systems in operation	19 FHA Financial Management Systems in Operation	Number of Financial Management Systems in Operation	The number of FHA Financial Management Systems in Operation remains at 19.Note: A56 (FHA General Ledger) was replaced in FY03 by OFFM- compliant P013. retaining the number of systems at 19.
2004	EM. Embrace high standards of ethics, management, and accountability EM	2 material weaknesses. FHA's Blueprint for Financial Management	2 material weaknesses: 1)FHA's ADP system environment must	Number of material weaknesses	1 material weakness as of 9/30/04

Fiscal	Strategic Goal(s)	Performance	Actual/baseline	Planned	Performance Metric
Year	Supported	Measure	(from Previous Year)	Performance Metric (Target)	Results (Actual)
	2. Improve HUD's management, internal controls and systems and resolve audit issues	Systems dated April 2001 describes FHA's plan to strengthen funds control processes, accounting operations and financial statement reporting. FHA expects to address the cited material weaknesses with the completion of this phased plan in December 2006.	be enhanced to more effectively support FHA's business processes 2) Controls over budget execution and funds control must be improved. Baseline was established 1/31/03		
2004	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUD's management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and our partners	16 Financial management systems in operation	19 FHA Financial Management Systems in Operation. Baseline was created 1/31/03	Number of Financial Management Systems in Operation	16 FHA Financial Management Systems in Operation
2004	EM. Embrace high standards of ethics, management, and accountability EM 2. Improve HUDs management, internal controls and systems and resolve audit issues EM 3. Improve accountability, service delivery, and customer service of HUD and our partners	3 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines (7(g)- (I) of OMB Circular A-127). Note: All 15 Financial Management Systems will be compliant with 7(a)-(f) of OMB Circular A-127.	15 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines (OMB Circular A-127).	Number of financial management systems not in compliance with Federal financial management guidelines	3 Financial Management Systems Not in Compliance with Federal Financial Management Guidelines 2004

FEA Performance Reference Model (PRM) BY08

FEA PRM

Fiscal Year	Strategic Goal(s) Supported	Measurement Area	Measurement Category	Measurement Grouping	Measurement Indicator	Baseline	Planned Improvement to the Baseline	Actual Results
2005	Goal E:	Customer	Timeliness and	Delivery	Delivery Time	Monthly	Monthly	Monthly

Fiscal Year	Strategic Goal(s) Supported	Measurement Area	Measurement Category	Measurement Grouping	Measurement Indicator	Baseline	Planned Improvement to the Baseline	Actual Results
	Embrace High Standards of Ethics, Management and Accountability	Results	Responsiveness	Time		financial statements are closed within 10 days. FHASL incorporates the use of an OFFM- compliant, commercial off-the-shelf (COTS) software package to function as a subsidiary general ledger.	financial statements are closed within 8 days	statements are done within 10 days
	Goal E: Embrace High Standards of Ethics, Management and Accountability	Customer Results	Timeliness and Responsiveness		Response Time	Yearly financial statements are closed within 74 days.	Draft yearly financial statements are closed within 15 days. Final yearly financial statements are closed within 45 days.	For FY05 financial statements were completed in 45 days.
	Embrace High	Mission and Business Results	Financial Management	Accounting	Accounting	with Federal financial	Two financial management systems not in compliance with Federal financial management guidelines	Two financial management systems not in compliance with Federal Financial Management guidelines.
	Goal E: Embrace High Standards of Ethics, Management and Accountability	Business		Asset and Liability Management	Asset and Liability Management	2 material weaknesses	2 material weaknesses eliminated	All material weaknesses eliminated
2005	Goal E: Embrace High Standards of Ethics, Management and Accountability	Mission and Business Results	Financial Management	Reporting and Information	Reporting and Information	16% of financial systems are eliminated, integrated or reengineered (3 of 19)	42% of financial systems are eliminated, integrated or reengineered (8 of 19)	16% of financial systems have been eliminated, integrated or reengineered (3 of 19).
2005	Goal E: Embrace High Standards of Ethics,	Business	Information and Technology Management	Information Management	Information Management	19 financial management systems in operation	13 financial management systems in operation	16 financial management systems in operation

Fiscal Year	Strategic Goal(s) Supported	Measurement Area	Measurement Category	Measurement Grouping	Measurement Indicator	Baseline	Planned Improvement to the Baseline	Actual Results
	Management and Accountability							
	Goal E: Embrace High Standards of Ethics, Management and Accountability	Processes and Activities	Productivity and Efficiency	Efficiency	Efficiency	have funds control	100% of endorsements have funds control automated in FHASL	100% of endorsements have funds control automated in FHASL. Credit Subsidy Control (CSC) was implemented and went live 10/04
	Goal E: Embrace High Standards of Ethics, Management and Accountability	Technology	Efficiency	Response Time	Response Time	0% of financial operations have automated journal entries. Automated journal entries and daily funds control give FHA better control over funds management and decrease response time for preparing financial statements.	50% of financial operations have automated journal entries	85% of financial operations have automated journal entries.
	Goal E: Embrace High Standards of Ethics, Management and Accountability	Technology	Information and Data	Data Reliability and Quality	Data Reliability and Quality	0% of funds	100% of funds control processes are performed daily	100% of funds control processes are performed daily. Cash, Controls & Funds Control (CCFC) was implemented and went live 7/04
2006	Goal E: Embrace High Standards of Ethics,	Customer Results	Timeliness and Responsiveness		Delivery Time in days to close monthly financial	financial	Monthly financial statements are closed	Monthly financial statements are closed

All new IT investments initiated for FY 2005 and beyond must use Table 2 and are required to use the Federal Enterprise Architecture (FEA) Performance Reference Model (PRM). Please use Table 2 and the PRM to identify the performance information pertaining to this major IT investment. Map all Measurement Indicators to the corresponding ""Measurement Area"" and ""Measurement Grouping"" identified in the PRM. There should be at least one Measurement Indicator for at least four different Measurement Areas (for each fiscal year). The PRM is available at www.egov.gov.

I.E: SECURITY AND PRIVACY BY08

Costs & Risks BY08

In order to successfully address this area of the business case, each question below must be answered at the system/application level, not at a program or agency level. Systems supporting this investment on the planning and operational systems security tables should match the systems on the privacy table below. Systems on the Operational Security Table must be included on your agency FISMA system inventory and should be easily referenced in the inventory (i.e., should use the same name or identifier).

All systems supporting and/or part of this investment should be included in the tables below, inclusive of both agency owned systems and contractor systems. For IT investments under development, security and privacy planning must proceed in parallel with the development of the system/s to ensure IT security and privacy

requirements and costs are identified and incorporated into the overall lifecycle of the system/s. Please respond to the questions below and verify the system owner took the following actions: Have the IT security costs for the system(s) been Yes identified and integrated into the overall costs of the investment? Provide the Percentage IT Security for the budget year 8.165000 Is identifying and assessing security and privacy risks a Yes part of the overall risk management effort for each system supporting or part of this investment.

Security: Weaknesses & Contractor Procedures BY08 Have any weaknesses, not yet remediated, related to any of the systems part of or supporting this investment been identified by the agency or IG?

If "yes," have those weaknesses been incorporated into Yes the agency's plan of action and milestone process?

Indicate whether an increase in IT security funding is No

requested to remediate IT security weaknesses?

If "yes," specify the amount, provide a general description of the weakness, and explain how the funding request will remediate the weakness.

How are contractor security procedures monitored, verified, and validated by the agency for the contractor systems above?

Contractors currently operate investment under OCIO management and control and in a governmentowned facility. Contractors responsible for system operations do not have direct update access to any of the systems. In accordance with contract provisions, contractor reporting, site inspections, audits, and personnel background investigations are periodically conducted to ensure contractor compliance with all security requirements. All HUD contracts must comply with HUD IT operations and security policy. IT Data Centers must follow FISMA, A-130, A-11, and other federal requirements. Contractor procedures are monitored through biweekly status meetings based on results of automated scans and audit log reviews. Contractors who provide software development and technical operations support must provide the same evidence of background investigation. Under contract terms and in compliance with HUD policies, contractor security procedures are monitored, verified, and validated by the agency. User identification and authentication are accomplished through the user identification codes and passwords and is fully supported as an integrated part of the agency's IT infrastructure. Specifically, access is controlled through user profiles that relate to defined job functions and restrict access to needed procedures and associated data. FHASL contracts include a security clause from the HUD Acquisition Regulations (HUDAR 2452.239-70) that requires contractors and subcontractors: (1) to have a background investigation; (2) be U.S. citizens (or owe allegiance to the U.S.); (3) to notify HUD of any security breach or suspected breach or unauthorized disclosure of information contained in the specific investment; (4) to not release or divulge information developed or obtained during the contract; (5) to establish security procedures that meet the relevant requirements of HUD Handbooks 2400.24, "Information Security Program", and 732.2, "Personnel Security/ Suitability"; and (6) to comply with the contract security clause or face termination of the contract for default.

Privacy: Planning & Operational Systems BY08

Name of System	Is this a new system?	Is there a Privacy Impact Assessment (PIA) that covers this system?	Is the PIA available to the public?	Is a System of Records Notice (SORN) required for this system?	Was a new or amended SORN published in FY 06?
A43 SFIS 00251140 SF Insurance System	No	No.	No, because the PIA has not been prepared.	Yes	No, because the existing Privacy Act system of records was not substantially revised in FY 06.

I.F: ENTERPRISE ARCHITECTURE (EA) BY08

General EA Questions BY08

In order to successfully address this area of the business case and capital asset plan you must ensure the investment is included in the agency's EA and Capital Planning and Investment Control (CPIC) process, and is mapped to and supports the FEA. You must also ensure the business case demonstrates the relationship between the investment and the business, performance, data, services, application, and technology layers of the agency's EA.

Is this investment included in your agency's target Yes enterprise architecture?

If "no," please explain why this investment is not included in your agency's target enterprise architecture?

Is this investment included in the agency's EA Transition Yes Strategy?

If "yes," provide the investment name as identified in the Transition Strategy provided in the agency's most recent annual EA Assessment. Financial Management Modernization--FHASL Integrates with HUD's Core Financial System

If "no," please explain why this investment is not included in the agency's EA Transition Strategy?

FEA SRM BY08

Identify the service components funded by this major IT investment (e.g., knowledge management, content management, customer relationship management, etc.). Provide this information in the format of the following table. For detailed guidance regarding components, please refer to http://www.whitehouse.gov/omb/egov/.

Service Component Reference Model (SRM) Table

Agency Component Name	Agency Component Description	Service Domain	FEA SRM Service Type	FEA SRM Component	FEA Service Component Reused Name	FEA Service Component Reused UPI	Internal or External Reuse?	BY Funding Percentage
Asset Cataloging/Identification	Asset Cataloging/Identification defines the set of capabilities that support the listing and specification of available assets.	Back Office Services	Asset / Materials Management	Asset Cataloging / Identification			No Reuse	0
Asset Transfer, Allocation, and Maintenance	Asset Transfer, Allocation, and Maintenance defines the set of capabilities that support the movement, assignment, and replacement of assets.	Back Office Services	Asset / Materials Management	Asset Transfer, Allocation, and Maintenance			No Reuse	0
Property/Asset Management	Property/Asset Management defines the set of capabilities that support the identification, planning and allocation of an organization's physical capital and resources.	Back Office Services	Asset / Materials Management	Property / Asset Management			No Reuse	0
Data Exchange	Data Exchange defines the set of capabilities that support the interchange of information between multiple systems or applications.	Back Office Services	Data Management	Data Exchange			No Reuse	0
Activity-Based Management	Support a defined, specific set of finance related tasks for a given objective.	Back Office Services	Financial Management	Activity- Based Management			No Reuse	0
Auditing	Support the examination and verification of records for accuracy.	Back Office Services	Financial Management	Auditing			No Reuse	0
Financial Management	Defines the set of capabilities that support the charging, collection, and reporting of an organization's accounts.	Back Office Services	Financial Management	Billing and Accounting			No Reuse	20
Financial Management	Defines the set of capabilities that support the process of accounts receivable.		Financial Management	Debt Collection			No Reuse	5
Expense Management	Expense Management defines the set of capabilities that support the management and reimbursement of costs paid by employees or an organization.	Back Office Services	Financial Management	Expense Management			No Reuse	0
Internal Controls	Internal Controls defines the set of capabilities that support the methods and procedures used by the	Back Office Services	Financial Management	Internal Controls			No Reuse	0

Agency Component Name	Agency Component Description	Service Domain	FEA SRM Service Type	FEA SRM Component	FEA Service Component Reused Name	FEA Service Component Reused UPI	Internal or External Reuse?	BY Funding Percentage
	organization to safeguard its assets, produce accurate accounting data and reports, contribute to efficient operations, and encourage staff to adhere to management policies.							
Financial Management	Defines the set of capabilities that support the process of accounts payable.	Back Office Services	Financial Management	Payment / Settlement			No Reuse	10
Revenue Management	Support the allocation and re-investment of earned net credit or capital within an organization.	Back Office Services	Financial Management	Revenue Management			No Reuse	0
Standardized/Canned	Standardized/Canned defines the set of capabilities that support the use of pre- conceived or pre-written reports.	Business Analytical Services	Reporting	Standardized / Canned			No Reuse	0
Business Rule Management	Defines the set of capabilities for the management of the enterprise processes that support an organization and its policies.	Business Management Services	Management of Processes	Business Rule Management			No Reuse	0
Change Management	Change Management defines the set of capabilities that control the process for updates or modifications to the existing documents, software or business processes of an organization.	Business Management Services	Management of Processes	Change Management			No Reuse	0
Program/Project Management	Program/Project Management defines the set of capabilities for the management and control of a particular effort of an organization.	Business Management Services	Management of Processes	Program / Project Management			No Reuse	0
Alerts and Notifications	Defines the set of capabilities that allow a customer to be contacted in relation to a subscription or service of interest.	Customer Services	Customer Preferences	Alerts and Notifications	Alerts and Notifications		No Reuse	0
Contact and Profile Management	Contact and profile Management defines the set of capabilities that provide a comprehensive view of	Customer Services	Customer Relationship Management	Contact and Profile Management			No Reuse	0

Agency Component Name	Agency Component Description	Service Domain	FEA SRM Service Type	FEA SRM Component	FEA Service Component Reused Name	FEA Service Component Reused UPI	Internal or External Reuse?	BY Funding Percentage
	all customer interactions, including calls, email, correspondence and meetings; also provide for the maintenance of a customer's account, business and personal information.							
Partner Relationship Mangement	Partner Relationship Management defines the set of capabilities that provide a framework to promote the effective collaboration between an organization and its business partners, particularly distribution chain and other third parties that support operations and service departments.	Customer Services	Customer Relationship Management	Partner Relationship Management			No Reuse	0
Information Retrieval	Information Retrieval defines the set of capabilities that allow access to data and information for use by an organization and its stakeholders.	Digital Asset Services	Knowledge Management	Information Retrieval			No Reuse	0
Information Sharing	Information Sharing defines the set of capabilities that support the use of documents and data in a multi-user environment for use by an organization and its stakeholders.	Digital Asset Services	Knowledge Management	Information Sharing			No Reuse	0
Knowledge Capture	Knowledge Capture defines the set of capabilities that facilitate collection of data and information.	Digital Asset Services	Knowledge Management	Knowledge Capture			No Reuse	0
Knowledge Distribution and Delivery	Knowledge Distribution and Delivery defines the set of capabilities that support the transfer of knowledge to the end customer.	Digital Asset Services	Knowledge Management	Knowledge Distribution and Delivery			No Reuse	0
Document Retirement	Defines the set of capabilities that support the termination or cancellation of documents and artifacts used by an organization and its stakeholders.	Digital Asset Services	Records Management	Document Retirement			No Reuse	0
Case/Isssue Management	Defines the set of capabilities for managing the life cycle	Process Automation Services	Tracking and Workflow	Case Management			No Reuse	0

Agency Component Name	Agency Component Description	Service Domain	FEA SRM Service Type	FEA SRM Component	FEA Service Component Reused Name	FEA Service Component Reused UPI	Internal or External Reuse?	BY Funding Percentage
	of a particular claim or investigation within an organization to include creating, routing, tracing assignment and closing of a case as well as collaboration among case handlers.							
Process Tracking			Tracking and Workflow	Process Tracking			No Reuse	0
Community Management	Defines the set of capabilities that support the administration of online groups that share common interests.	Support Services	Communication	Community Management			No Reuse	0
Forms Creation	Forms Creation defines the set of capabilities that support the design and generation of electronic or physical forms and templates for use within the business cycle by an organization and its stakeholders.	Support Services	Forms Management	Forms Creation			No Reuse	0

Use existing SRM Components or identify as "NEW". A "NEW" component is one not already identified as a service component in the FEA SRM.

A reused component is one being funded by another investment, but being used by this investment. Rather than answer yes or no, identify the reused service component funded by the other investment and identify the other investment using the Unique Project Identifier (UPI) code from the OMB Ex 300 or Ex 53 submission. 'Internal' reuse is within an agency. For example, one agency within a department is reusing a service component provided by another agency within the same department. 'External' reuse is one agency within a department reusing a service component provided by another agency in another department. A good example of this is an E-Gov initiative service being reused by multiple organizations across the federal government. Please provide the percentage of the BY requested funding amount used for each service component listed in the table. If external, provide the funding level transferred to another agency to pay for the service.

FEA TRM BY08

Service Components identified in the previous question should be entered in this column. Please enter multiple rows for FEA SRM Components supported by multiple TRM Service Specifications

In the Service Specification field, Agencies should provide information on the specified technical standard or vendor product mapped to the FEA TRM Service Standard, including model or version numbers, as appropriate.

Reuse & Information Sharing BY08

Will the application leverage existing components and/or No applications across the Government (i.e., FirstGov, Pay.Gov, etc)?

If "yes," please describe how the application will leverage existing components and/or applications across the Government.

Does this investment provide the public with access to a No

government automated information system? If "yes," does customer access require specific software (e.g., a specific web browser version)? If "yes," provide the specific product name(s) and version number(s) of the required software and the date when the public will be able to access this investment by any software (i.e. to ensure equitable and timely access of government information and services).

II.A: ALTERNATIVES ANALYSIS BY08

Analysis Background BY08

Part II should be completed only for investments identified as "Planning" or "Full Acquisition," or "Mixed Life-Cycle" investments in response to Question 6 in Part I, Section A above.

In selecting the best capital asset, you should identify and consider at least three viable alternatives, in addition to the current baseline, i.e., the status quo. Use OMB Circular A-94 for all investments, and the Clinger Cohen Act of 1996 for IT investments, to determine the criteria you should use in your Benefit/Cost Analysis. Did you conduct an alternatives analysis for this Yes

project?	
If "yes," what is the date of the analysis?	8/21/2006
If "no," what is the anticipated date this analysis will be	
completed?	

If no analysis is planned, please briefly explain why:

Alternatives Table BY08

Use the results of your alternatives analysis to complete the following table:

Alternatives Analysis Results

Send to OMB	Alternative Analyzed	Description of Alternative	Risk Adjusted Lifecycle Costs estimate	Risk Adjusted Lifecycle Benefits estimate
True	Build Financial Management System	This alternative is to develop a new accounting system to support FHA's accounting processes. This approach meets the unique reporting, including credit reform accounting, detail project level tracking, and reconciliation between the legacy FHA systems and FHa's core financial management system. The new system will have full federal accounting functionality including the ability to perform daily and/or real-time funds control, as well as conduct queries of detailed claim-level financial data.	317.4	95.5
True	Enhanced HUDCAPS	This alternative will use an enhanced, OFFM-compliant version of HUDCAPS as FHA's subsidiary ledger. This will be accomplished first by upgrading HUD Central Accounting and Program System (HUDCAPS) to the latest OFFM-compliant version of American Management Systems' (AMS) Federal Financial System (FFS). Once HUDCAPS is upgraded, it will be modified to hold FHA's subsidiary ledger information and meet all FHA's functional requirements.	304.5	95.4

Send to OMB	Alternative Analyzed	Description of Alternative	Risk Adjusted Lifecycle Costs estimate	Risk Adjusted Lifecycle Benefits estimate
True	OFFM- Compliant COTS package	This alternative will continue to use an OFFM-compliant Commercial-Off-The-Shelf (COTS) software package, PeopleSoft, as FHA's subsidiary ledger. Once implemented, the COTS system will capture and report on all FHA's financial transactions in a manner consistent with federal rules and regulations. The OFFM-compliant COTS system will also enable FHA to meet HUD Departmental reporting requirements while maintaining responsibility for its own accounting and financial reporting.	265.8	89.8
False	Status Quo	Maintaining the status quo means keeping the systems as they exist today without any modifications. The Federal Housing Administration (FHA) financial system is not compliant with Office of Federal Financial Management (OFFM). Therefore, continuing with the status quo means that FHA will not meet its regulatory requirements nor will it address the issues related to overall modernization plan of Housing and Urban Development (HUD).	320.00	98.75

Selected Alternative BY08

Which alternative was selected by the Initiative Governance process and why was it chosen?

Four alternatives were researched, Status Quo, COTS Financial System, Enhanced HUDCAPS, and Build Financial Management System. Of the four, Alternative 2, Implementing a COTS Financial System, was selected based on the cost/benefit analysis. A summary of the 9-year risk adjusted cost/ benefit analysis (FY2006-FY2014) for each of alternative is provided below:

-- Alternative 1 - Status Quo: Total Costs: \$320M; Total Benefits: \$98.75; ROI: 3.24 years

-- Alternative 2 - Implement COTS Financial Implementation: Total Costs: \$265.8M; Total Benefits: \$89.8; \$M; ROI: 2.95 years

-- Alternative 3 - Enhanced HUDCAPS: Total Costs: \$304.5M; Total Benefits: \$95.4; ROI: 3.19 Years

-- Alternative 4 - Custom Development: Total Costs: \$317.4M; Total Benefits: \$95.5M; ROI 3.34 years

Implementing a COTS financial management system (Alternative 2) had the lowest costs and it had the most favorable return on investment. This alternative ensures that FHA implements an OFFM-compliant financial management system and therefore meets all Federal-reporting requirements. This decision supports FHA's choice to implement Oracle's PeopleSoft Financial Management system. PeopleSoft will meet FHA's entire financial management requirement including the ability to process accounts receivables and accounts payables, maintain funds control, support general ledger accounting, support contracts, support credit subsidy processing and support financial management reporting.

Other factors that supported this decision included:

-- Alternative 1, Status Quo, does not support the financial reporting requirements of FHA. In addition, this alternative had the highest cost and the second worst return of investment.

-- Alternative 3, Enhance HUDCAPS, costs were approximately \$40 Million higher than implementing a COTS solution. In addition, HUD has decided to replace HUDCAPS, therefore enhancing it at this time would not be cost effective.

-- Alternative 4, Build Financial Management System, had the highest costs at \$317.4 million and worst ROI rate of 3.34. Also, developing a system would be contrary to OMB Circular A-127.

What specific qualitative benefits will be realized?

FHA Subsidiary Ledger project enables FHA to reduce costs over the next 9 years. This is achieved through:

· Retiring legacy systems

- Â. Capability to record and track budgetary resources, and control expenditure against available resources
- Â- Improving accuracy of transactions through integration
- $\hat{A} \cdot$ Improving timeliness of transactions through the real-time update feature
- · Reducing cycle time through the real-time update feature
- Â. Improving efficiencies or productivity of program areas through elimination of duplicate data entry and real-time updates
- Â. Increasing automation through the elimination and reengineering of manual processes
- · Performing daily and real-time funds control
- Automating reconciliation of fund and cash balances
- · Producing automated financial statement reports directly from general ledger
- · Conducting queries of detailed case-level financial data

· Reducing the number of legacy mainframe systems by incorporating their functionality into the COTS package · Implementing funds control and budget execution.

Through the execution of the COTS financial management system, FHASL has been able to eliminate all of its audit material weaknesses and its financial system related reportable conditions. Costs associated with future changes in Federal reporting requirements will be less since the COTS software vendor will deliver those changes to FHA without charge as part of the annual maintenance agreement.

II.B: RISK MANAGEMENT BY08

Risk Management Plan BY08

You should have performed a risk assessment during the early planning and initial concept phase of this investment's life-cycle, developed a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate or manage risk, and be actively managing risk throughout the investment's life-cycle.

Does the investment have a Risk Management Plan?YesWhat is the date of the risk management plan?2/3/2006Has the Risk Management Plan been significantly changed since last
year's submission to OMB?No

If "yes," describe any significant changes to the Risk Management Plan:

If there currently is no risk plan, will a plan be developed?

If "yes," what is the planned completion date of the risk plan?

If "no," what is the strategy for managing the risks?

Investment Risks BY08

Briefly describe how investment risks are reflected in the life cycle cost estimate and investment schedule:

The investment risks are addressed in each life cycle by expanding project management oversight of by FHA and contractor management. The project plan has been expanded to include tasks identified during risk mitigation strategy meetings. The following specific risk mitigation strategies documented in our Risk Management plan include:

--FHASL plans to migrate existing applications to a new hosting environment.

--FHASL project managers for the contractor teams meet on a weekly basis to review the integrated work plan, updating it to reflect progress

--FHASL has developed an integrated project plan, tying tasks back to the specific requirements listed in the Statements of Work (SOWs) for each of the contractor groups

--FHASL has developed a process for controlling changes to the software baseline for the project

--FHASL will continue to work with its relevant stakeholders/users to define requirements early in the process and to conduct training and user acceptance testing

--FHASL has included several change management tasks in the integrated project work plan to assist with obtaining end users' acceptance and understanding of the new system

II.C: COST AND SCHEDULE PERFORMANCE BY08

Earned Value BY08

Does the earned value management system meet the criteria in ANSI/EIA Standard - 748?	Yes
Answer the following questions about current cumulative cost and sch actual information. (Per OMB requirements Cost/Schedule Performance	edule performance. The numbers reported below should reflect current e information should include both Government and Contractor Costs):
What is the Planned Value (PV)?	53.292300
What is the Earned Value (EV)?	53.205700
What is the actual cost of work performed (AC)?	53.199700
What costs are included in the reported Cost/Schedule Performance information (Government Only/Contractor Only/Both)?	Contractor Only
EVMS "As of" date:	6/30/2006
What is the calculated Schedule Performance Index (SPI = EV/PV)?	0.998375
What is the schedule variance (SV = EV-PV)?	-0.086600
What is the calculated Cost Performance Index (CPI = EV/AC)?	1.000113
What is the cost variance (CV = EV-AC)?	0.006000

EVM is required only on DME portions of investments. For mixed lifecycle investments, O&M milestones should still be included in the table (Comparison of Initial Baseline and Current Approved Baseline). This table should accurately reflect the milestones in the initial baseline, as well as milestones in the current baseline.

Cost/Schedule Variance BY08

Is the CV% or SV% greater than 10%? (CV%= CV/EV x 100; SV%= No

SV/PV x 100)	
If "yes," was it the CV or SV or both?	
If "yes," explain the variance:	
If "yes," what corrective actions are being taken?	
What is the most current "Estimate at Completion"?	65.867700
Performance Baseline BY08	
Have any significant changes been made to the baseline during the	No

Have any significant changes been made to the baseline during the past fiscal year?

Complete the following table to compare actual performance against the current performance baseline and to the initial performance baseline. In the Current Baseline section, for all milestones listed, you should provide both the baseline and actual completion dates (e.g., "03/23/2003"/ "04/28/2004") and the baseline and actual total costs (in \$ Millions). In the event that a milestone is not found in both the initial and current baseline, leave the associated cells blank. Note that the 'Description of Milestone' and 'Percent Complete' fields are required. Indicate 0 for any milestone no longer active.

If "yes," when was it approved by OMB?

Comparison of Initial Baseline and Current Approved Baseline

Milestone	Description of	Initial E	Baseline	Current Baseline				Current Baseline Variance		Percent
Number	Milestone	Planned	Total Cost	Complet	ion Date	Total	Cost	Schedule	a 1	Complete
		Completion Date	(Estimated)	Planned	Actual	Planned	Actual	(# days)	Cost

III.A: RISK MANAGEMENT BY08

Risk Management Plan BY08

Part III should be completed only for investments identified as "Operation and Maintenance" (Steady State) in response to Question 6 in Part I, Section A above.

You should have performed a risk assessment during the early planning and initial concept phase of this investment's life-cycle, developed a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate or manage risk, and be actively managing risk throughout the investment's life-cycle.

Does the investment have a Risk Management Plan?	Yes
What is the date of the risk management plan?	2/3/2006
Has the Risk Management Plan been significantly changed since last	No
year's submission to OMB?	
If "yes," describe any significant changes to the Risk Management Plar):

If there currently is no risk plan, will a plan be developed?

If "yes," what is the planned completion date of the risk plan?

If "no," what is the strategy for managing the risks?

III.B: COST AND SCHEDULE PERFORMANCE BY08

Operational Analysis BY08 Was operational analysis conducted? If "yes," provide the date the operational analysis was completed. Please provide a brief summary of the operational analysis results.

If "no," please explain why it was not conducted and if there are any plans to conduct operational analysis in the future:

Performance Baseline BY08

Complete the following table to compare actual cost performance against the planned cost performance baseline. Milestones reported may include specific individual scheduled preventative and predictable corrective maintenance activities, or may be the total of planned annual operation and maintenance efforts.

What costs are included in the reported Cost/Schedule Performance Contractor Only information (Government Only/Contractor Only/Both)?

Comparison of Plan vs. Actual Performance Table

Milestone Number	ilestone Number Description of Milestone	Planned	Actual	Variance	
		Completion Date Total Cost	Completion Date Total Cost	Schedule (# days) Cost	

IV.A: E-GOV AND LINES OF BUSINESS OVERSIGHT BY08

Partners BY08

Part IV should be completed only for investments identified as an E-Gov initiative or a Line of Business(LOB), i.e., selected the E-Gov and LOB Oversight choice in response to Question 6 in Part I, Section A above. Investments identified as E-Gov and LOB Oversight will complete only Parts I and IV of the exhibit 300.

Multi-agency initiatives, such as E-Gov and LOB initiatives, should develop a joint exhibit 300.

As a joint exhibit 300, please identify the agency stakeholders. Provide the partner agency and partner agency approval date for this joint exhibit 300.

Stakeholder Table

Partner Agency Name	Partner Agency	Joint Exhibit Approval Date

Partnering Strategies BY08

Provide the partnering strategies you are implementing with the participating agencies and organizations. Identify all partner agency capital assets supporting the common solution; Managing Partner capital assets should also be included in this joint exhibit 300. These capital assets should be included in the Summary of Spending table of Part I, Section B. (Partner Agency Asset UPIs should also appear on the Partner Agency's exhibit 53)

Partner Capital Assets within this Investment

Partner Agency Name Partner Agency Partner Agency Asset Title Partner Agency Exhibit 53 UPI (BY2008)

Partner Funding BY08

For jointly funded initiative activities, provide in the "Partner Funding Strategies Table": the name(s) of partner agencies; the UPI of the partner agency investments; and the partner agency contributions for CY and BY. Please indicate partner contribution amounts (in-kind contributions should also be included in this amount) and fee-for-service amounts. (Partner Agency Asset UPIs should also appear on the Partner Agency's exhibit 53. For non-IT fee-for-service amounts the Partner exhibit 53 UPI can be left blank)

Partner Funding Strategies

Partner	Partner	Partner exhibit 53	CV	CY Fee-for-	PV	BY Fee-for-
Agency Name			Contribution		Contribution	
Agency Name	Agency	0FT (BT2000)	Contribution	Jeivice	Contribution	Jervice

Analysis Background BY08

An Alternatives Analysis for E-Gov and LOB initiatives should also be obtained. At least three viable alternatives, in addition to the current baseline (i.e., the status quo), should be included in the joint exhibit 300. Use OMB Circular A-94 for all investments, and the Clinger Cohen Act of 1996 for IT investments, to determine the criteria you should use in your Benefit/Cost Analysis.

 Did you conduct an alternatives analysis for this project?
 Yes

 If "yes," what is the date of the analysis?
 8/21/2006

 If "no," what is the anticipated date this analysis will be completed?
 If no analysis is planned, please briefly explain why:

Alternatives Table BY08

Use the results of your alternatives analysis to complete the following table:

Alternatives Analysis Results

Send to OMB	Alternative Analyzed	Description of Alternative	Risk Adjusted Lifecycle Costs estimate	Risk Adjusted Lifecycle Benefits estimate
True	Build Financial Management System	This alternative is to develop a new accounting system to support FHA's accounting processes. This approach meets the unique reporting, including credit reform accounting, detail project level tracking, and reconciliation between the legacy FHA systems and FHa's core financial management system. The new system will have full federal accounting functionality including the ability to perform daily and/or real-time funds control, as well as conduct queries of detailed claim-level financial data.	317.4	95.5
True	Enhanced HUDCAPS	This alternative will use an enhanced, OFFM-compliant version of HUDCAPS as FHA's subsidiary ledger. This will be accomplished first by upgrading HUD Central Accounting and Program System (HUDCAPS) to the latest OFFM-compliant version of American Management Systems' (AMS) Federal Financial System (FFS). Once HUDCAPS is upgraded, it will be modified to hold FHA's subsidiary ledger information and meet all FHA's functional requirements.	304.5	95.4
True	OFFM- Compliant COTS package	This alternative will continue to use an OFFM-compliant Commercial-Off-The-Shelf (COTS) software package, PeopleSoft, as FHA's subsidiary ledger. Once implemented, the COTS system will capture and report on all FHA's financial transactions in a manner consistent with federal rules and regulations. The OFFM-compliant COTS system will also enable FHA to meet HUD Departmental reporting requirements while maintaining responsibility for its own accounting and financial reporting.	265.8	89.8
False	Status Quo	Maintaining the status quo means keeping the systems as they exist today without any modifications. The Federal Housing Administration (FHA) financial system is not compliant with Office of Federal Financial Management (OFFM). Therefore, continuing with the status quo means that FHA will not meet its regulatory requirements nor will it address the issues related to overall modernization plan of Housing and Urban Development (HUD).	320.00	98.75

Selected Alternative BY08

Which alternative was selected by the Initiative Governance process and why was it chosen? Four alternatives were researched, Status Quo, COTS Financial System, Enhanced HUDCAPS, and Build Financial Management System. Of the four, Alternative 2, Implementing a COTS Financial System, was selected based on the cost/benefit analysis. A summary of the 9-year risk adjusted cost/ benefit analysis (FY2006-FY2014) for each of alternative is provided below:

-- Alternative 1 - Status Quo: Total Costs: \$320M; Total Benefits: \$98.75; ROI: 3.24 years -- Alternative 2 - Implement COTS Financial Implementation: Total Costs: \$265.8M; Total Benefits: \$89.8; \$M; ROI: 2.95 years

-- Alternative 3 - Enhanced HUDCAPS: Total Costs: \$304.5M; Total Benefits: \$95.4; ROI: 3.19 Years -- Alternative 4 - Custom Development: Total Costs: \$317.4M; Total Benefits: \$95.5M; ROI 3.34 years

Implementing a COTS financial management system (Alternative 2) had the lowest costs and it had the most favorable return on investment. This alternative ensures that FHA implements an OFFM-compliant financial management system and therefore meets all Federal-reporting requirements. This decision supports FHA's choice to implement Oracle's PeopleSoft Financial Management system. PeopleSoft will meet FHA's entire financial management requirement including the ability to process accounts receivables and accounts payables, maintain funds control, support general ledger accounting, support contracts, support credit subsidy processing and support financial management reporting.

Other factors that supported this decision included:

-- Alternative 1, Status Quo, does not support the financial reporting requirements of FHA. In addition, this alternative had the highest cost and the second worst return of investment.

-- Alternative 3, Enhance HUDCAPS, costs were approximately \$40 Million higher than implementing a COTS solution. In addition, HUD has decided to replace HUDCAPS, therefore enhancing it at this time would not be cost effective.

-- Alternative 4, Build Financial Management System, had the highest costs at \$317.4 million and worst ROI rate of 3.34. Also, developing a system would be contrary to OMB Circular A-127.

What specific qualitative benefits will be realized?

FHA Subsidiary Ledger project enables FHA to reduce costs over the next 9 years. This is achieved through:

Â. Retiring legacy systems

· Capability to record and track budgetary resources, and control expenditure against available resources

- Â. Improving accuracy of transactions through integration
- $\hat{A}\cdot$ Improving timeliness of transactions through the real-time update feature
- Reducing cycle time through the real-time update feature

Improving efficiencies or productivity of program areas through elimination of duplicate data entry and real-time updates

Â. Increasing automation through the elimination and reengineering of manual processes

- Â. Performing daily and real-time funds control
- · Automating reconciliation of fund and cash balances
- · Producing automated financial statement reports directly from general ledger
- $\hat{A}\cdot$ Conducting queries of detailed case-level financial data

Â. Reducing the number of legacy mainframe systems by incorporating their functionality into the COTS

package

Â- Implementing funds control and budget execution.

Through the execution of the COTS financial management system, FHASL has been able to eliminate all of its audit material weaknesses and its financial system related reportable conditions. Costs associated with future changes in Federal reporting requirements will be less since the COTS software vendor will deliver those changes to FHA without charge as part of the annual maintenance agreement.

Quantitative Benefits BY08

What specific quantitative benefits will be realized (using current dollars) Use the results of your alternatives analysis to complete the following table:

Federal Quantitative Benefits

Budgeted Co Cost Avoid Savings		Justification for Cost Avoidance
--------------------------------------	--	----------------------------------

	Budgeted Cost Savings	Cost Avoidance	Justification for Budgeted Cost Savings	Justification for Cost Avoidance
PY - 6 2000	0	0		
PY - 5 2001	0	0		
PY - 4 2002	0	0		
PY - 3 2003	0	0		
PY - 2 2004	0	0		
PY - 1 2005	0	0		
PY 2006	0	0		
CY 2007	0	0		
BY 2008	0	0		
Total LLC Benefit	0	0		

IV.B: RISK MANAGEMENT BY08

Risk Management Plan BY08

You should have performed a risk assessment during the early planning and initial concept phase of this investment's life-cycle, developed a risk-adjusted life-cycle cost estimate and a plan to eliminate, mitigate or manage risk, and be actively managing risk throughout the investment's life-cycle.

Does the investment have a Risk Management Plan?	Yes
What is the date of the risk management plan?	2/3/2006
Has the Risk Management Plan been significantly changed since	No
last year's submission to OMB?	
If "yes," describe any significant changes to the Risk Management I	Plan:

If there currently is no risk plan, will a plan be developed?

If "yes," what is the planned completion date of the risk plan?

If "no," what is the strategy for managing the risks?

Investment Risks BY08

Briefly describe how investment risks are reflected in the life cycle cost estimate and investment schedule:

The investment risks are addressed in each life cycle by expanding project management oversight of by FHA and contractor management. The project plan has been expanded to include tasks identified during risk mitigation strategy meetings. The following specific risk mitigation strategies documented in our Risk Management plan include:

--FHASL plans to migrate existing applications to a new hosting environment.

--FHASL project managers for the contractor teams meet on a weekly basis to review the integrated work plan, updating it to reflect progress

--FHASL has developed an integrated project plan, tying tasks back to the specific requirements listed in the Statements of Work (SOWs) for each of the contractor groups

--FHASL has developed a process for controlling changes to the software baseline for the project

--FHASL will continue to work with its relevant stakeholders/users to define requirements early in the process and to conduct training and user acceptance testing

--FHASL has included several change management tasks in the integrated project work plan to assist with obtaining end users' acceptance and understanding of the new system

IV.C: COST AND SCHEDULE PERFORMANCE BY08

Earned Value BY08

You should also periodically be measuring the performance of operational assets against the baseline established during the planning or full acquisition phase (i.e., operational analysis), and be properly operating and maintaining the asset to maximize its useful life. Operational analysis may identify the need to redesign or modify an asset by identifying previously undetected faults in design, construction, or installation/integration, highlighting whether actual operation and maintenance costs vary significantly from budgeted costs, or documenting that the asset is failing to meet program requirements.

Answer the following questions about the status of this investment. Include information on all appropriate capital assets supporting this investment except for assets in which the performance information is reported in a separate Exhibit 300.

Are you using EVM to manage this investment?

Does the earned value management system meet the criteria in Yes ANSI/EIA Standard - 748?

If "no," explain plans to implement EVM:

Please provide a brief summary of the operational analysis results.

This sub-sections questions are NOT applicable for capital assets with ONLY O&M

Answer the following questions about current cumulative cost and schedule performance. The numbers reported below should reflect current actual information. (Per OMB requirements Cost/Schedule Performance information should include both Government and Contractor Costs):

What costs are included in the reported Cost/Schedule Performance information (Government Only/Contractor Only/Both)?	Contractor Only
EVMS "As of" date:	6/30/2006
What is the Planned Value (PV)?	53.292300
What is the Earned Value (EV)?	53.205700
What is the actual cost of work performed (AC)?	53.199700
What is the calculated Schedule Performance Index (SPI = EV/PV)	?0.998375
What is the schedule variance (SV = EV-PV)?	-0.086600
What is the calculated Cost Performance Index (CPI = EV/AC)?	1.000113
What is the cost variance (CV = EV-AC)?	0.006000

EVM is required only on DME portions of investments. For mixed lifecycle investments, O&M milestones should still be included in the table (Comparison of Initial Baseline and Current Approved Baseline). This table should accurately reflect the milestones in the initial baseline, as well as milestones in the current baseline.

Cost/Schedule Variance BY08

Is the CV% or SV% greater than 10%? (CV%= CV/EV x 100; No SV%= SV/PV x 100) If "yes," was it the CV or SV or both? If "yes," explain the variance:

If "yes," what corrective actions are being taken?

What is the most current "Estimate at Completion"?

65.867700

Performance Baseline BY08

This sub-sections questions are applicable to ALL capital assets.

Have any significant changes been made to the baseline during the No past fiscal year?

If "yes," when was it approved by OMB?

Complete the following table to compare actual performance against the current performance baseline and to the initial performance baseline. In the Current Baseline section, for all milestones listed, you should provide both the baseline and actual completion dates (e.g., "03/23/2003"/ "04/28/2004") and the baseline and actual total costs (in \$ Millions). In the event that a milestone is not found in both the initial and current baseline, leave the associated cells blank. Note that the 'Description of Milestone' and 'Percent Complete' fields are required. Indicate 0 for any milestone no longer active.

Milestone Number	Description		Baseline	Current Baseline			Current Baseline Variance		Percent	Agency	
	of Milestone	Planned Completion	Total Cost (Estimated)	Date		Total Cost		Schedule (# days)	Cost	Iromniete	Responsible For Activity
				Date		Planned	Actual	Planned	Actual	(# uays)	
Project Totals
