Subject: Silver Limits

Chairman Gensler and Fellow Commissioners,

When it gets to the point that "Joe Sixpack" understands that the silver and gold markets are being manipulated by the big Wall Street banks and the reasoning behind the manipulation (love of money and the redistribution of wealth), it's time to clean house. When it gets to the point that "Joe Sixpack" no longer has an equal playing field in the investment arena, it's time to set things right.

The new Financial Regulatory Reform law mandates that the Commission institute hard position limits in the derivatives trading of all commodities of finite supply. I propose that the Commission adopt a hard position limit in the contract equivalent amount of no more than one percent (1%) of the world annual production of any commodity of finite supply.

Brooksley Born is a goddess, how will you be remembered?
