CHART 7

Fourteen industries reported more than 100,000 injuries and illnesses in 2005.

These 14 industries accounted for slightly more than 1.9 million injuries and illnesses, or 46 percent of the 4.2 million total cases in 2005.

Ten of the 14 industries were service-providing industries: hospitals; nursing and residential care facilities; general merchandise stores; administrative and support services; ambulatory health care services; merchant wholesalers, durable goods; supermarkets and other grocery stores; full-service restaurants; merchant wholesalers, nondurable goods; and limited-service eating places.

Industries with at least 100,000 nonfatal occupational injuries and illnesses, 2004 and 2005

(numbers in thousands)

Industry	2004	2005
