B. Brief description of the agency's response time ranges.

The FAA administers a decentralized FOIA program. FOIA coordinators and responding program offices acknowledge receipt of FOIA requests promptly. Response time for a request varies according to the clarity and complexity of the request, the volume of documents requested and the number of facilities assigned to respond to the request. Response time is facilitated when requesters are specific about the records they seek, and include the FAA organization(s) where the records may be located. Program offices contact requesters by telephone or in writing to clarify any uncertainties in FOIA request, and to resolve any fee issues with the request, so that they may provide a response as soon as possible.

FEDERAL AVIATION ADMINISTRATION

FY 2002 FOIA ANNUAL REPORT

II. How to Make a FOIA Request

C. Brief description of why some requests are not granted.

The FAA releases records requested under FOIA except those protected from disclosure by the FOIA. Other reasons for not responding to a request under the FOIA include the following:

- a. the request is not reasonably described enough to make a search possible
- b. the request poses questions rather than seeks documents
- c. the information is already publicly available
- d. the request should more properly be answered under another Act, such as the Privacy Act or the Pilot Records Improvement Act (PRIA).
- e. fees for previous requests have not been paid

III. Definitions of Terms and Acronyms Used in the Report

A. 1. Agency-specific acronyms or other terms.

Remanded appeal - An appeal request, particularly a no records appeal, sent back to the original action office or forwarded to another office when the requester provides additional information either clarifying the documents sought or providing additional search parameters. The action office considers the request as if it were a new request, responding directly to the requester. Remanded appeal responses may again be appealed; appeal rights are provided if the remanded appeal response is a denial, partial denial or no records determination.

B. 2. Basic terms expressed in common terminology.

FOIA/PA Request - Freedom of Information Act/Privacy Act request. A FOIA is generally a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records for oneself; such requests are also treated as FOIA requests.

3. Initial Request - a request to a federal agency for access to records under the Freedom of Information Act.
4. Appeal - a request to a federal agency asking that it review at a higher administrative level a full denial or partial denial of access to records under the Freedom of Information Act, or any other FOIA determination such as a matter pertaining to fees.
5. Processed Request or Appeal - a request or appeal for which an agency has taken a final action on the request or the appeal in all respects.
6. Multi-track Processing - a system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first in/first out basis. A requester who has an urgent need for records may request expedited processing (see below).

**FEDERAL AVIATION ADMINISTRATION
FY 2002 FOIA ANNUAL REPORT**

III. Definitions of Terms and Acronyms Used in the Report

- B. 7. Expedited Processing - an agency will process a FOIA request on an expedited basis when a requester has shown an exceptional need or urgency for the records which warrants prioritization of his or her request over other requests that were made earlier.
- 8. Simple Request - A FOIA request that an agency using multi-track processing places in a faster track based on the volume and/or simplicity of records requested.
- 9. Complex Request - a FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.
- 10. Grant - an agency decision to disclose all records in full in response to a FOIA request.
- 11. Partial Grant - an agency decision not to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more of the FOIA exemptions; or a decision to disclose some records in their entirety, but to withhold others in whole or in part. Within the FAA, this determination is also used for a decision to disclose the requested records located in response to a FOIA request, and other specifically requested records for the same request are not located.
- 12. Denial - an agency decision not to release any part of a record or records in response to a FOIA request because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA exemptions, or for some procedural reason (such as because no record is located in response to a FOIA request).
- 13. Time Limits - the time period in the Freedom of Information Act for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a "perfected" FOIA request).
- 14. Perfected Request - a FOIA request for records which adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.
- 15. Exemption 3 Statute - a separate federal statute prohibiting the disclosure of a certain type of information and authorizing its withholding under FOIA subsection (b)(3).
- 16. Median Number - the middle, not average, number. For example, of 3, 7, and 14, the median number is 7.
- 17. Average Number - the number obtained by dividing the sum of a group of numbers by the quantity of numbers in the group. For example, of 3, 7, and 14, the average number is 8.

VII. Compliance with Time Limits/Status of Pending Requests

A. Median processing time for requests processed during the year

1. Simple requests (if multiple tracks used).	
a. number of requests processed	5057
b. median number of days to process	8
2. Complex requests (specify for any and all tracks used).	
a. number of requests processed	2204
b. median number of days to process	31
3. Requests accorded expedited processing	
a. number of requests processed	123
b. median number of days to process	7

B. Status of pending requests

1. Number of requests pending as of end of current fiscal year	1735
2. median number of days that such requests were pending as of that date	89

**FEDERAL AVIATION ADMINISTRATION
FY 2002 FOIA ANNUAL REPORT**

VII NOTES:

- 1) The median number of days is reported in working days.
- 2) The FAA national FOIA staff administers a decentralized FOIA program. FOIA requests are answered by the headquarters/region/center program area with responsibility for the requested records. If requested records involve several regions and/or program areas (e.g., flight standards, air traffic, aircraft certification), the agency may opt to have each program area respond separately, or to develop a consolidated response. For the annual report, each request is counted once, regardless of the number of responses provided. The number of days to process is computed from the completion date of the longest program area to respond.

VIII. Comparison with Previous Year(s)

- A. Comparison of numbers of requests received. The number of requests received in FY 2002 is 967 or 11.8% fewer than what was reflected in the FY 2001 report.
- B. Comparison of numbers of requests processed. The number processed in FY 2002 is 809 or 9.8% fewer than in FY 2001.
- C. Comparison of median numbers of days requests were pending at the end of the fiscal year. The median for requests pending at the end of FY 2002 is 29 days fewer or 25% fewer than those pending at the end of FY 2001.
- D. Other statistics significant to agency.
- E. Other narrative statements describing agency efforts to improve timeliness of FOIA performance and to make records available to the public.

The FAA continues to increase the types and volume of information available to the public on the Internet.
