p Preliminary

r Revised

1. Per capita personal income (PCPI) estimates for 2010 were calculated using the April 1, 2010 decennial census population counts that were released by the Census Bureau in December 2010. Revised estimates of PCPI for 2001-2009 are not published because intercensal state population estimates consistent with the 2000 and 2010 decennial census counts are not currently available.

2. Percent change was calculated from unrounded data.

NOTE: The personal income level shown for the United States is derived as the sum of the state estimates. It differs from the estimate of personal income in the national income and product accounts because of differences in coverage, in the methodologies used to prepare the estimates, and in the timing of the availability of source data.

p Preliminary

r Revised

1. Per capita disposable personal income (PCDPI) estimates for 2010 were calculated using the April 1, 2010 decennial census population counts that were released by the Census Bureau in December 2010. Revised estimates of PCDPI for 2001-2009 are not published because intercensal state population estimates consistent with the 2000 and 2010 decennial census counts are not currently available.

2. Percent change was calculated from unrounded data.

NOTE: The personal income level shown for the United States is derived as the sum of the state estimates. It differs from the estimate of personal income in the national income and product accounts because of differences in coverage, in the methodologies used to prepare the estimates, and in the timing of the availability of source data.

NOTE: Totals shown for the United States differ from the national income and product account estimates of gross domestic product (GDP) because GDP by state excludes and national GDP includes the compensation of Federal civilian and military personnel stationed abroad and government consumption of fixed capital for military structures located abroad and for military equipment, except office equipment. Also, GDP by state and national GDP have different revision

schedules.
