TRAINING: None

REMARKS: IMC 0612 Exhibit 4 (Sample Cover Letters) has been revised to incorporate a 30-day written response period for cross-cutting aspect disagreements, in accordance with section 13.01 (a) of IMC 305, "Operating Reactor Assessment Program." Also, the sample security inspection report cover letter has been modified to add a paragraph on force-on-force security inspections.

IMC 0620 (Inspection Documents and Records) has been revised to add clarifying information on written requests for information. The definitions and references are also updated.

TI 2515/178 (Risk Management Technical Specifications Initiative 5b Surveillance Frequency Control Program) is issued to provide inspection guidance related to Risk-Informed Surveillance Frequency Control Program implementation for a licensee who has implemented Risk Management Technical Specification (RMTS) Initiative 5b.

The following temporary instructions have been deleted because the inspection activities have been completed:

TI 2515/157 (Mark I and Mark II Containment Operations)

TI 2800/034 (Inspection of Panoramic and Underwater Irradiators
Additional Security Measures)

TI 2800/035 (Verification of Licensee Responses to NRC Bulletin 2003-04
Regarding Inventories of Source and Special Nuclear Materials
Tracked in the Nuclear Materials Management and Safeguards
System)

DISTRIBUTION: Standard
