

## Florida Department of Transportation

CHARLIE CRIST  
GOVERNOR

605 Suwannee Street  
Tallahassee, FL 32399-0450

STEPHANIE C. KOPELOUSOS  
SECRETARY

April 17, 2009

Secretary Raymond H. LaHood  
U.S. Department of Transportation  
1200 New Jersey Avenue, S.E.  
Washington, D.C. 20590

Dear Secretary LaHood:

Pursuant to Title XV, Subtitle A, section 1511 of the American Recovery and Reinvestment Act of 2009 (Recovery Act), I certify the infrastructure investments funded with amounts appropriated by the Recovery Act under the headings: "Highway Infrastructure Investment" to the Federal Highway Administration, "Transit Capital Assistance," "Fixed Guideway Infrastructure Investment," and "Capital Investment Grants" to the Federal Transit Administration, have received the full review and vetting required by law and I accept responsibility that such investments are appropriate uses of taxpayer dollars. I further certify that the specific information required by section 1511 concerning each such investment (a description of the investment, the estimated total cost, and the amount of Recovery Act funds to be used) is currently available to the public at <http://www.flarecovery.com> and linked to Recovery.gov and is to be provided on the Florida Statewide Transportation Improvement Program (STIP).

I understand that Florida may not receive Recovery Act infrastructure investment funding unless this certification is made and posted. Please let me know if additional information is needed.

Sincerely,

Stephanie C. Kopelousos  
Secretary

**LIST OF SELECTED PROJECTS** - The following list of transportation projects recommended for funding by the American Recovery and Reinvestment Act (ARRA) has been approved by the Florida Legislative Budget Commission (LBC).

**SELECTING PROJECTS FOR ARRA FUNDING** - The Florida Department of Transportation (FDOT) worked with cities, counties, Metropolitan Planning Organizations (MPOs) and other transportation partners throughout the state to develop the list of selected projects. This effort was based on the established transportation planning processes. Thirty percent of the highway and bridge funds were allocated for locally-prioritized projects. For areas with a population greater than 200,000, Metropolitan Planning Organizations selected projects with input from local governments in their area and technical support from the FDOT to ensure project eligibility.

**FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS** - All candidate projects must meet federal requirements for federal transportation aid and have been assessed to ensure these requirements can be met within the approval timelines. The following are examples of the requirements applicable to transportation projects funded under the Act:

- All projects in a metropolitan area must be included in an approved Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). All projects located in a non-metropolitan area must be included in the STIP.
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Rail and airport projects should be coordinated with the relevant MPO and FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all projects must have completed the required assessments of environmental impacts.
- Right of way on projects must have been acquired pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies.
- American iron, steel and manufactured goods are to be used in projects, except in certain instances.

**FACTORS FOR PRIORITIZING PROJECTS** - Priority projects are those "shovel ready" projects which:

- Have been deferred by the state
- Are tied to concurrency where development is being held up
- Have the potential to generate revenues and jobs
- Are geographically balanced
- Provide congestion relief
- Are located in economically distressed areas
- Can be completed within 3 years

State of Florida  
 The American Recovery and Reinvestment Act of 2009 (ARRA)  
 Transit Systems (Section 5311) Rural Funding  
 As of April 15, 2009

**LIST OF SELECTED PROJECTS** – The following list of transportation projects recommended for funding by the American Recovery and Reinvestment Act (ARRA) has been approved by the Florida Legislative Budget Commission (LBC).

**SELECTING PROJECTS FOR ARRA FUNDING** – The Department distributed to its seven (7) geographical Districts a Section 5311 ARRA Grant Application Manual in early 2009. This manual contained general program information and requirements, threshold criteria, a description of the grant award process, general instructions for forms/exhibits and certifications, and grant application information. Each District notified prospective applicants within their geographical area. After evaluating applications the Florida Department of Transportation (FDOT) has been working with cities, counties, Metropolitan Planning Organizations (MPOs) and other transportation partners throughout the state to develop the list of selected projects. This effort is based on the established transportation planning processes.

**FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS** – All candidate projects must meet federal requirements for federal transportation aid. They must also be completed within the approved timelines. The following are examples of requirements applicable to transportation projects funded under the Act:

- All projects must be included in an approved Statewide Transportation Improvement Plan (STIP).
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all capital structure projects must have completed the required assessments of environmental impacts.

**FACTORS FOR PRIORITIZING PROJECTS** – Priority projects are those projects which:

- Have the potential to generate revenue and jobs
- Are geographically balanced
- Are located in economically distressed areas
- Can be completed within 3 years

State of Florida  
 The American Recovery and Reinvestment Act of 2009 (ARRA)  
 Transit Assistance and Fixed Guideway (Sections 5307 & 5309) Funding  
 As of April 15, 2009

**LIST OF SELECTED PROJECTS** – The following list of transportation projects recommended for funding by the American Recovery and Reinvestment Act (ARRA) for urbanized areas (5307) and fixed guideway systems (5309) was developed under the consultative process mandated by law.

**SELECTING PROJECTS FOR ARRA FUNDING** – FTA designated recipients for urbanized area funding and fixed guideway funding developed the listed projects in consultation with Metropolitan Planning Organizations (MPOs) and local governments. These projects were then submitted to the Department for inclusion in the STIP. This effort is based on the established transportation planning processes.

**FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS** – All candidate projects must meet federal requirements for federal transportation aid. They must also be completed within the approved timelines. The following are examples of requirements applicable to transportation projects funded under the Act:

- All projects must be included in an approved local Transportation Improvement Plan (TIP) and the Statewide Transportation Improvement Plan (STIP).
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all capital structure projects must have completed the required assessments of environmental impacts.

**FACTORS FOR PRIORITIZING PROJECTS** – Priority projects are those projects which:

- Have the potential to generate revenue and jobs
- Can be completed within 3 years

State of Florida  
 The American Recovery and Reinvestment Act of 2009 (ARRA)  
 Transportation Enhancement Funding  
 As of April 15, 2009

**LIST OF SELECTED PROJECTS** - The following list of transportation projects recommended for funding by the American Recovery and Reinvestment Act (ARRA) has been approved by the Florida Legislative Budget Commission (LBC).

**SELECTING PROJECTS FOR ARRA FUNDING** - The Florida Department of Transportation (FDOT) worked with cities, counties, Metropolitan Planning Organizations (MPOs) and other transportation partners throughout the state to develop the list of selected projects. This effort was based on the established transportation planning processes. Thirty percent of the highway and bridge funds were allocated for locally-prioritized projects. For areas with a population greater than 200,000, Metropolitan Planning Organizations selected projects with input from local governments in their area and technical support from the FDOT to ensure project eligibility.

**FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS** - All candidate projects must meet federal requirements for federal transportation aid and have been assessed to ensure these requirements can be met within the approval timelines. The following are examples of the requirements applicable to transportation projects funded under the Act:

- All projects in a metropolitan area must be included in an approved Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). All projects located in a non-metropolitan area must be included in the STIP.
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Rail and airport projects should be coordinated with the relevant MPO and FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all projects must have completed the required assessments of environmental impacts.
- Right of way on projects must have been acquired pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies.
- American iron, steel and manufactured goods are to be used in projects, except in certain instances.

**FACTORS FOR PRIORITIZING PROJECTS** - Priority projects are those "shovel ready" projects which:

- Have been deferred by the state
- Are tied to concurrency where development is being held up
- Have the potential to generate revenues and jobs
- Are geographically balanced
- Provide congestion relief
- Are located in economically distressed areas
- Can be completed within 3 years

State of Florida  
 The American Recovery and Reinvestment Act of 2009 (ARRA)  
 Geographically Allocated (Local) Surface Transportation Program (STP) Funding  
 As of April 15, 2009

**LIST OF SELECTED PROJECTS** - The following list of transportation projects recommended for funding by the American Recovery and Reinvestment Act (ARRA) has been approved by the Florida Legislative Budget Commission (LBC).

**SELECTING PROJECTS FOR ARRA FUNDING** - The Florida Department of Transportation (FDOT) worked with cities, counties, Metropolitan Planning Organizations (MPOs) and other transportation partners throughout the state to develop the list of selected projects. This effort was based on the established transportation planning processes. Thirty percent of the highway and bridge funds were allocated for locally-prioritized projects. For areas with a population greater than 200,000, Metropolitan Planning Organizations selected projects with input from local governments in their area and technical support from the FDOT to ensure project eligibility.

**FEDERAL REQUIREMENTS FOR TRANSPORTATION STIMULUS PROJECTS** - All candidate projects must meet federal requirements for federal transportation aid and have been assessed to ensure these requirements can be met within the approval timelines. The following are examples of requirements applicable to transportation projects funded under the Act:

- All projects in a metropolitan area must be included in an approved Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). All projects located in a non-metropolitan area must be included in the STIP.
- Transit projects must be coordinated with the relevant transit operating agency, MPO or FDOT.
- Rail and airport projects should be coordinated with the relevant MPO and FDOT.
- Pursuant to the National Environmental Policy Act (NEPA), all projects must have completed the required assessments of environmental impacts.
- Right of way on projects must have been acquired pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies.
- American iron, steel and manufactured goods are to be used in projects, except in certain instances.

**FACTORS FOR PRIORITIZING PROJECTS** - Priority projects are those "shovel ready" projects which:

- Have been deferred by the state
- Are tied to concurrency where development is being held up
- Have the potential to generate revenues and jobs
- Are geographically balanced
- Provide congestion relief
- Are located in economically distressed areas
- Can be completed within 3 years

District	County	Agency	Item #	Project Description	Total ARRA Funding	Total Project Costs
1	Charlotte	Charlotte County	426725-1	Cape Haze bridge culvert replacement including earthwork and approaches over Amberjack waterway on Cape Haze Drive	\$ 1,230,207	\$ 1,232,207
