|--|-------------|--------------------------|---|---------------------------------------|--------------------|
| 1  | 2           | 3                        | 4   | 5                                     | 6                  |
| Inspection Lot Size                      | Sample Size | Sample Correction Factor | Number of Minus Package Errors Allowed to Exceed the MAV <sup>1</sup> | Initial Tare Sample Size <sup>2</sup> |                    |
|  |             |                          |   | Glass and Aerosol Packages            | All Other Packages |
| 1  | 1           | Apply MAV                | 0 <sup>1</sup>  | 2                                     | 2                  |
| 2  | 2           | 8.985                    |   |                                       |                    |
| 3  | 3           | 2.484                    |   |                                       |                    |
| 4  | 4           | 1.591                    |   |                                       |                    |
| 5  | 5           | 1.242                    |   |                                       |                    |
| 6  | 6           | 1.049                    |   |                                       |                    |
| 7  | 7           | 0.925                    |   |                                       |                    |
| 8  | 8           | 0.836                    |   |                                       |                    |
| 9  | 9           | 0.769                    |   |                                       |                    |
| 10                                       | 10          | 0.715                    |   |                                       |                    |
| 11                                       | 11          | 0.672                    |   |                                       |                    |
| 12 to 250                                | 12          | 0.635                    |   |                                       |                    |
| 251 to 3 200                             | 24          | 0.422                    |   | 1 <sup>1</sup>                        | 3                  |
| More than 3 200                          | 48          | 0.290                    |   |                                       |                    |

<sup>1</sup>For mulch and soils packaged by volume, see Table 2-10. Exceptions to the Maximum Allowable Variations – 1 package may exceed the MAV for every 12 packages in the sample.

<sup>2</sup>If sample size is 11 or fewer, the initial tare sample size and the total tare sample size is 2 samples.

| Table 2-2. Sampling Plans for Category B for Use in USDA-Inspected Meat and Poultry Plants Only |             |                          |  |
|---|-------------|--------------------------|--|
| 1   | 2           | 3                        | 4  |
| Inspection Lot Size   | Sample Size | Initial Tare Sample Size | Number of Packages Allowed to Exceed the MAVs in Table 2-9 |
| 250 or Fewer  | 10          | 2                        | 0  |
| 251 or More   | 30          | 5                        |  |

| <b>Table 2-3. Category A</b>   |   |           |          |           |          |
|--|---|-----------|----------|-----------|----------|
|  | <b>Total Number of Packages in Tare Sample</b>  |           |          |           |          |
|  | <b>Note:</b> Total number of packages to be opened for tare determination. Numbers include those packages opened for initial tare sample. |           |          |           |          |
| <b>Sample Size</b>   | <b>12</b>   | <b>24</b> |          | <b>48</b> |          |
| <b>Initial Tare Sample Size</b>  | <b>2</b>  | <b>2</b>  | <b>3</b> | <b>2</b>  | <b>3</b> |
| <b>Ratio of <math>R_c/R_t</math></b>   |   |           |          |           |          |
| If range of tare equals “zero,” use Initial Tare Sample Size.<br>If the ratio is “zero” based on a “zero” range of net weight, open all of the packages in the sample. | 2   | 2         | 3        | 2         | 3        |
| If the ratio is greater than 0 but less than or equal to 0.2   | 12  | 24        | 24       | 48        | 48       |
| 0.21 to 0.60   | 12  | 24        | 24       | 48        | 48       |
| 0.61 to 0.70   | 12  | 24        | 24       | 47        | 47       |
| 0.71 to 0.80   | 12  | 23        | 23       | 47        | 47       |
| 0.81 to 1.00   | 12  | 23        | 23       | 46        | 46       |
| 1.01 to 1.10   | 11  | 23        | 23       | 46        | 46       |
| 1.11 to 1.20   | 11  | 23        | 23       | 45        | 45       |

| <b>Initial Tare Sample Size</b>      | <b>2</b>  | <b>2</b>  | <b>3</b> | <b>2</b>  | <b>3</b> |

| <b>Table 2-4. Category B</b>   |   |           |
|--|---|-----------|
|  | <b>Total Number of Packages in Tare Sample</b>  |           |
|  | <b>Note:</b> Total number of packages to be opened for tare determination. Numbers include those packages opened for initial tare sample. |           |
| <b>Sample Size</b>   | <b>10</b>   | <b>30</b> |
| <b>Initial Tare Sample Size</b>  | <b>2</b>  | <b>5</b>  |
| <b>Ratio of <math>R_c/R_t</math></b>   |   |           |
| If the ratio is zero, based on a “zero” range of tare, use Initial Tare Sample Size.               | 2   | 5         |
| If the ratio is “zero” based on a “zero” range of net weight, open all the packages in the sample. |   |           |
| If the ratio is greater than 0 but less than or equal to 0.2                                       | 10  | 30        |
| 0.21 to 0.40   | 10  | 29        |
| 0.41 to 0.60   | 10  | 28        |
| 0.61 to 0.80   | 9   | 26        |
| 0.81 to 1.00   | 8   | 24        |
| 1.01 to 1.20   | 8   | 23        |
| 1.21 to 1.40   | 7   | 21        |
| 1.41 to 1.60   | 7   | 19        |
| 1.61 to 1.80   | 6   | 17        |
| 1.81 to 2.00   | 5   | 15        |
| 2.01 to 2.20   | 5   | 14        |
| 2.21 to 2.40   | 5   | 13        |
| 2.41 to 2.60   | 4   | 12        |
| 2.61 to 2.80   | 4   | 11        |
| 2.81 to 3.00   | 4   | 10        |
| 3.01 to 3.20   | 3   | 9         |
| 3.21 to 3.60   | 3   | 8         |
| 3.61 to 3.80   | 3   | 7         |
| 3.81 to 4.40   | 2   | 6         |
| If the ratio is greater than 4.40, use the Initial Tare Sample Size                                | 2   | 5         |

**Table 2-5. Maximum Allowable Variations (MAVs) for Packages Labeled by Weight**

Do Not Use this Table for Meat and Poultry Products Subject to USDA Regulations – Use Table 2-9.  
For Polyethylene Sheeting and Film, see Table 2-10. Exceptions to the MAVs.

| <b>Labeled Quantity</b>   | <b>Maximum Allowable Variations</b>             |
