ACKNOWLEDGMENTS

Many persons participated in the various activities of the 2002 Survey of Business Owners (SBO). The report was prepared in the Company Statistics Division under the direction of **Ewen M. Wilson**, Chief. Overall planning, management, and coordination of this report were under the supervision of **Ruth A. Runyan**, Assistant Division Chief for Surveys and Programs. Planning and implementation were under the direction of **Lee R. Wentela**, Chief, Economic Census Branch, assisted by **Valerie C. Strang**, Section Chief. Primary staff assistance was provided by **Melody M. Atkinson, Ahmad Bakhshi, Lori E. Bowan, Anthony M. Caruso, Trey Cole, Kimberly A. Dusebout, Elaine M. Emanuel, Mary G. Frauenfelder, Geoffrey S. Hill, Kimberly M. Hollingsworth, and James C. Jarzabkowski**.

Mathematical and statistical techniques were provided by **Carol V. Caldwell**, Assistant Division Chief for Research and Methods, assisted by **Mark S. Sands**, Chief, Statistical Research and Methods Branch, and **Richard A. Moore**, Chief, Statistical Improvement Staff. Sample design, imputation, estimation and variance methodology were developed by **James W. Hunt** with assistance from **Lieu Galvin, Steven S. Klement, Nancy L. Robbins, Beth S. Schlein, and Aneesah N. Williams**.

Data collection, processing, and dissemination activities were coordinated by the Economic Planning and Coordination Division, under the direction of **Shirin A. Ahmed**, Chief. **Bernard J. Fitzpatrick**, Assistant Division Chief for Collection Activities, assisted by **Sheila M. Proudfoot**, Chief, Mailout and Data Capture Branch, and **Richard E. Hanks**, Chief, Annual Surveys Processing Branch, were responsible for developing the systems and procedures for mailout, receipts and data capture, and electronic products. Staff support was provided by **Nancy J. Bean** and **Christopher L. Berbert**. **Donna L. Hambric**, Chief, Economic Planning Staff, was responsible for overseeing the systems and information for dissemination. **Douglas J. Miller**, Chief, Tables and Dissemination Branch, assisted by **Lisa L. Aispuro, Jamie A. Fleming, Andrew W. Hait, Julia Naum, Shawna J. Orzechowski, John C. Walsh, and Jeremy M. Wiedemann**, was responsible for developing the data dissemination systems and procedures. The Geography Division staff, **Robert A. LaMacchia**, Chief, developed geographic coding procedures and associated computer programs.

The Economic Statistical Methods and Programming Division, **Howard R. Hogan**, Chief, assisted by **Barry F. Sessamen**, Assistant Division Chief for Post Collection, developed and coordinated computer processing systems. **Steven G. McCraith**, Chief, Census Related Surveys Branch, supervised the preparation of computer programs. **Barbara Love Lambert**, assisted by **Evelyn Cabrera, Abi O. Okeneye, and Preet Singh Toor**, provided primary computer programming and implementation. **Gary T. Sheridan**, Chief, Macro Analytical Branch, assisted by **Carol R. Blatt, Jenny Hua, Apparao V. Katikineni, and Edward F. Johnson**, provided special computer programming and implementation.

The Systems Support Division provided the table composition system. **Robert Joseph Brown**, Table Image Processing System (TIPS) Senior Software Engineer, was responsible for the design and development of the TIPS, under the supervision of **Robert J. Bateman**, Assistant Division Chief, Information Systems.

The staff of the National Processing Center performed mailout preparation and receipt operations, clerical and analytical review activities, and data entry.

Margaret A. Smith, Bernadette J. Beasley, and Michael T. Browne of the Administrative and Customer Services Division, **Walter C. Odom**, Chief, provided publication and printing management, graphics design and composition, and editorial review for print and electronic media. General direction and production management were provided by **James R. Clark**, Assistant Division Chief, and **Wanda K. Cevis**, Chief, Publications Services Branch.

Special acknowledgment is also due the many businesses whose cooperation contributed to the publication of these data.

Introduction

PURPOSES AND USES OF THE ECONOMIC CENSUS

The economic census is the major source of facts about the structure and functioning of the nation's economy. It provides essential information for government, business, industry, and the general public. Title 13 of the United States Code (Sections 131, 191, and 224) directs the Census Bureau to take the economic census every 5 years, covering years ending in "2" and "7."

The economic census furnishes an important part of the framework for such composite measures as the gross domestic product estimates, input/output measures, production and price indexes, and other statistical series that measure short-term changes in economic conditions. Specific uses of economic census data include the following:

- Policymaking agencies of the federal government use the data to monitor economic activity and to assess the effectiveness of policies.
- State and local governments use the data to assess business activities and tax bases within their jurisdictions and to develop programs to attract business.
- Trade associations study trends in their own and competing industries, which allows them to keep their members informed of market changes.
- Individual businesses use the data to locate potential markets and to analyze their own production and sales performance relative to industry or area averages.

BASIS OF REPORTING

The economic census is conducted on an establishment basis. A company operating at more than one location is required to file a separate report for each store, factory, shop, or other location. Each establishment is assigned a separate industry classification based on its primary activity and not that of its parent company. (For selected industries, only payroll, employment, and classification are collected for individual establishments, while other data are collected on a consolidated basis.)

The Survey of Business Owners (SBO) is conducted on a company or firm basis rather than an establishment basis. A company or firm is a business consisting of one or more domestic establishments that the reporting firm specified under its ownership or control at the end of 2002.

The SBO covers both firms with paid employees and firms with no paid employees. Although firms with no paid employees are included in this survey, they are omitted from many of the economic census reports. Because of the inclusion of firms with no paid employees, caution should be exercised in comparing data presented in this report with published or unpublished data from other reports of the 2002 Economic Census.

INDUSTRY CLASSIFICATIONS

Data from the 2002 SBO are summarized by kind of business based on the 2002 North American Industry Classification System (NAICS). The 2002 SBO includes all firms operating during 2002 with receipts of \$1,000 or more which are classified in one or more of the following NAICS sectors:

11	Forestry, Fishing and Hunting, and Agricultural Support Services (NAICS 113–115)
21	Mining
22	Utilities
23	Construction

31–33	Manufacturing
42	Wholesale Trade
44–45	Retail Trade
48–49	Transportation and Warehousing
51	Information
52	Finance and Insurance
53	Real Estate and Rental and Leasing
54	Professional, Scientific, and Technical Services
55	Management of Companies and Enterprises
56	Administrative and Support and Waste Management and Remediation Services
61	Educational Services
62	Health Care and Social Assistance
71	Arts, Entertainment, and Recreation
72	Accommodation and Food Services
81	Other Services (except Public Administration)
99	Industries Not Classified

The 20 NAICS sectors are subdivided into 96 subsectors (three-digit codes) and 317 industry groups (four-digit codes). Selected NAICS industries are defined in Appendix B, NAICS Codes, Titles, and Descriptions.

The following NAICS industries are not covered in the 2002 SBO:

- crop and animal production (NAICS 111, 112)
- scheduled air transportation (NAICS 4811, part)
- rail transportation (NAICS 482)
- postal service (NAICS 491)
- funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930)
- religious, grantmaking, civic, professional, and similar organizations (NAICS 813)
- private households (NAICS 814), and
- public administration (NAICS 92).

NAICS 11 and 99 are in scope of the SBO, but out of scope of the economic census. NAICS 525 and 813 are within the scope of the economic census, but out of the scope of the SBO. Therefore, caution should be exercised in comparing data presented in this report with published or unpublished data from other reports of the 2002 Economic Census.

RELATIONSHIP TO HISTORICAL INDUSTRY CLASSIFICATIONS

Prior to the 2002 SBO, data were published according to the Standard Industrial Classification (SIC) system. NAICS identifies new industries, redefines concepts, and develops classifications to reflect changes in the economy. While many of the individual NAICS industries correspond directly to industries as defined under the SIC system, most of the higher level groupings do not. Particular care should be taken in comparing data for construction, manufacturing, retail trade, and wholesale trade, which are sector titles used in both the NAICS and SIC systems, but cover somewhat different groups of industries. A description and comparison of the NAICS and SIC systems can be found in the 2002 NAICS and 1987 Correspondence Tables on the Internet at www.census.gov/epcd/naics02/N02TOS87.HTM.

CLASSIFICATION BY RECEIPTS SIZE AND EMPLOYMENT SIZE OF FIRM

The size categories, both by receipts and employment, are based on the total nationwide receipts and/or employment of the firm. A firm is a business organization or entity consisting of one domestic establishment (location) or more under common ownership or control. All establishments of subsidiary firms are included as part of the owning or controlling firm. For the economic census, the terms “firm” and “company” are synonymous.

The revenue and employment of a multi-unit firm is determined by summing the receipts and employment, respectively, of all associated establishments. The receipts size and employment size of a firm are determined by the summed revenue or employment of all associated establishments. The employment size group 0 includes firms for which no associated establishments reported paid employees in the mid-March pay period, but paid employees at some time during the year.

Receipts size and employment size are determined for the entire company. Hence, counterintuitive results are possible, for example, only 100 employees in a category of firms with 500 employees or more in a particular industry.

GEOGRAPHIC AREA CODING

Accurate and complete information on the physical location of each establishment is required to tabulate the economic census data for states, metropolitan and micropolitan statistical areas, counties, and corporate municipalities (places) including cities, towns, townships, villages, and boroughs. Respondents were required to report their physical location (street address, municipality, county, and state) if it differed from their mailing address. For establishments not surveyed by mail (and those single-establishment companies that did not provide acceptable information on physical location), location information from administrative sources is used as a basis for coding.

The 2002 SBO data are presented for the United States, each state and the District of Columbia; metropolitan and micropolitan statistical areas; counties; and corporate municipalities (places) including cities, towns, townships, villages, and boroughs with 100 or more minority- or women-owned firms. Although collected on a company basis, data are published such that firms with more than one domestic establishment are counted in each geographic area in which they operate. The employment, payroll, and receipts reflect the sum of their locations within the specified geography and are, therefore, additive to higher levels. The sum of firms, however, reflects all firms in a given tabulation level and are not additive. For example, a firm with operating locations in two counties will be counted in both counties, but only once in the state total.

GEOGRAPHIC AREAS COVERED

The level of geographic detail varies by report. Notes specific to areas in the state are included in Appendix D, Geographic Notes. Data may be presented for —

1. The United States as a whole.
2. States and the District of Columbia.
3. Metropolitan and micropolitan statistical areas. A core based statistical area (CBSA) contains a core area with a substantial population nucleus, together with adjacent communities having a high degree of social and economic integration with that core. CBSAs are differentiated into metropolitan and micropolitan statistical areas based on size criteria. Both metropolitan and micropolitan statistical areas are defined in terms of entire counties, and are listed in Appendix E, Metropolitan and Micropolitan Statistical Areas.
 - a. Metropolitan Statistical Areas (metro areas). Metro areas have at least one urbanized area of 50,000 or more population, plus adjacent territory that has a high degree of social and economic integration with the core as measured by commuting ties.
 - b. Micropolitan Statistical Areas (micro areas). Micro areas have at least one urban cluster of at least 10,000 but less than 50,000 population, plus adjacent territory that has a high degree of social and economic integration with the core as measured by commuting ties.
 - c. Metropolitan Divisions (metro divisions). If specified criteria are met, a metro area containing a single core with a population of 2.5 million or more may be subdivided to form smaller groupings of counties referred to as Metropolitan Divisions.
 - d. Combined Statistical Areas (combined areas). If specified criteria are met, adjacent metro and micro areas, in various combinations, may become the components of a new set of areas called Combined Statistical Areas. The areas that combine retain their own designations as metro or micro areas within the larger combined area.

-
4. Counties and county equivalents defined as of January 1, 2002. Counties are the primary divisions of states, except in Louisiana where they are called parishes and in Alaska where they are called boroughs, census areas, and city and boroughs. Maryland, Missouri, Nevada, and Virginia have one place or more that is independent of any county organization and constitutes primary divisions of their states. These places are treated as counties and as places.
 5. Places are municipalities of 2,500 inhabitants or more defined as of January 1, 2002. These are areas of significant population incorporated as cities, boroughs, villages, or towns according to the 2000 Census of Population. For the economic census, boroughs, census areas, and city and boroughs in Alaska and boroughs in New York are not included in this category.

HISTORICAL INFORMATION

The economic census has been taken as an integrated program at 5-year intervals since 1967 and before that for 1954, 1958, and 1963. Prior to that time, individual components of the economic census were taken separately at varying intervals.

The economic census traces its beginnings to the 1810 Decennial Census, when questions on manufacturing were included with those for population. Coverage of economic activities was expanded for the 1840 Decennial Census and subsequent censuses to include mining and some commercial activities. The 1905 Manufactures Census was the first time a census was taken apart from the regular decennial population census. Censuses covering retail and wholesale trade and construction industries were added in 1930, as were some service trades in 1933. Censuses of construction, manufacturing, and the other business censuses were suspended during World War II.

The 1954 Economic Census was the first census to be fully integrated, providing comparable census data across economic sectors and using consistent time periods, concepts, definitions, classifications, and reporting units. It was the first census to be taken by mail, using lists of firms provided by the administrative records of other federal agencies. Since 1963, administrative records also have been used to provide basic statistics for very small firms, reducing or eliminating the need to send them census report forms.

The range of industries covered in the economic census expanded between 1967 and 2002. The census of construction industries began on a regular basis in 1967, and the scope of service industries, introduced in 1933, was broadened in 1967, 1977, and 1987. While a few transportation industries were covered as early as 1963, it was not until 1992 that the census broadened to include all of transportation, communications, and utilities. Also new for 1992 was coverage of financial, insurance, and real estate industries. With these additions, the economic census and the separate census of governments and census of agriculture collectively covered roughly 98 percent of all economic activity. New for 2002 is coverage of four industries classified in the agriculture, forestry, and fishing sector under the SIC system: landscape architectural services, landscaping services, veterinary services, and pet care services.

The Survey of Business Owners, formerly known as the Survey of Minority-Owned Business Enterprises, was first conducted as a special project in 1969 and was incorporated into the economic census in 1972 along with the Survey of Women-Owned Businesses.

An economic census has also been taken in Puerto Rico since 1909, in the Virgin Islands of the United States and Guam since 1958, in the Commonwealth of the Northern Mariana Islands since 1982, and in American Samoa for the first time as part of the 2002 Economic Census.

Printed statistical reports from the 1992 and earlier censuses provide historical figures for the study of long-term time series and are available in some large libraries. Reports for 1997 were published primarily on the Internet and copies of 1992 reports are also available there. CD-ROMs issued from the 1987, 1992, and 1997 Economic Censuses contain databases that include nearly all data published in print, plus additional statistics, such as ZIP Code statistics, published only on CD-ROM.

SOURCES FOR MORE INFORMATION

More information about the scope, coverage, classification system, data items, and publications for the 2002 Economic Census and related surveys is published in the *Guide to the 2002 Economic*

Census at www.census.gov/econ/census02/guide. More information on the methodology, procedures, and history of the census will be published in the *History of the 2002 Economic Census* at www.census.gov/econ/www/history.html.

REPORTS

The following reports are published from the 2002 Economic Census, Company Statistics (CS) Series, Survey of Business Owners, and include totals for all U.S. businesses based on the 2002 Economic Census and estimates of business ownership by gender, Hispanic or Latino origin, and race based on the 2002 SBO. Estimates for equally male-/female-owned firms and publicly held companies and other businesses whose ownership cannot be classified by gender, Hispanic or Latino origin, and race are tabulated and published separately.

Minority-Owned Firms.

- American Indian- and Alaska Native-Owned Firms
- Asian-Owned Firms
- Black-Owned Firms
- Hispanic-Owned Firms
- Native Hawaiian- and Other Pacific Islander-Owned Firms

Data are presented by industry classifications and/or geographic area (states, metropolitan and micropolitan statistical areas, counties, and corporate municipalities (places) including cities, towns, townships, villages, and boroughs) and size of firm (employment and receipts). Data include estimates at the U.S., state, and metropolitan and micropolitan statistical area levels by detailed Asian or Pacific Islander group in the Asian-Owned Firms and the Native Hawaiian- and Other Pacific Islander-Owned Firms reports; and by Hispanic subgroup in the Hispanic-Owned Firms report.

Women-Owned Firms. Data are presented by industry classifications and/or geographic area (states, metropolitan and micropolitan statistical areas, counties, and corporate municipalities (places) including cities, towns, townships, villages, and boroughs) and size of firm (employment and receipts).

Company Summary. Data include all businesses (minority-, nonminority-, female-, male-, and equally male-/female-owned; publicly held companies and other businesses whose ownership cannot be classified by gender, Hispanic or Latino origin, and race) and are presented by industry classifications and/or geographic area (states, metropolitan and micropolitan statistical areas, counties, and corporate municipalities (places) including cities, towns, townships, villages, and boroughs) and size of firm (employment and receipts).

Characteristics of Businesses. Data for respondent firms by Hispanic or Latino origin, race, and gender are presented by industry classifications at the U.S. level and by size of firm (employment and receipts). Data include additional demographic and economic business characteristics for home-based, family-owned, and franchised businesses; types of customers and workers; sources of financing for expansion, capital improvements, or start-up; the year the owner(s) in 2002 established, purchased, or acquired the business; and the sole proprietor's self-employment or business activities.

Characteristics of Business Owners. Data for the owners of respondent firms are presented by employment status and business interest. Data include additional demographic and economic owner characteristics, such as: Hispanic or Latino origin, race, gender, age, education level, and veteran status; average number of hours spent managing or working in the business; primary function in the business; and whether the business provided the primary source of personal income.

DOLLAR VALUES

All dollar values presented in the SBO reports are expressed in current dollars, i.e., 2002 data are expressed in 2002 dollars and 1997 data in 1997 dollars. Consequently, when making comparisons to prior years, data users should take into consideration the inflation that has occurred.

COMPARABILITY OF THE 1997 AND 2002 SBO DATA

The data presented in the 2002 SBO are based on the 2002 NAICS. Previous data were presented according to the SIC system developed in the 1930s. Due to this change, comparability between census years is limited (see Relationship to Historical Industry Classifications section).

The 2002 SBO covers more of the economy than any previous survey. New for 2002 are data on information, finance and insurance, real estate, and health-care industries. The scope of the census includes virtually all sectors of the economy.

Additional information about NAICS is available from the Census Bureau Internet site at www.census.gov/naics.

More information on the comparability of the SBO data is included in Appendix C, Methodology.

RELIABILITY OF ESTIMATES

The figures shown in this report are, in part, estimated from a sample and will differ from the figures which would have been obtained from a complete census. Two types of possible errors are associated with estimates based on data from sample surveys: sampling errors and nonsampling errors. The accuracy of a survey result depends not only on the sampling errors and nonsampling errors measured, but also on the nonsampling errors not explicitly measured. For particular estimates, the total error may considerably exceed the measured errors. More information on the reliability of the data is included in Appendix C, Methodology.

DISCLOSURE

In accordance with federal law governing census reports (Title 13 of the United States Code), no data are published that would disclose the operations of an individual establishment or business. However, the number of firms in a kind-of-business or industry classification is not considered a disclosure; therefore, this information may be released even though other information is withheld. Techniques employed to limit disclosure are discussed at www.census.gov/epcd/ec02/disclosure.htm.

The information and data obtained from the Internal Revenue Service, the Social Security Administration, and other sources are also treated as confidential and can be seen only by Census Bureau employees sworn to protect the data from disclosure.

CONTACTS FOR DATA USERS

Questions about these data may be directed to the U.S. Census Bureau, Company Statistics Division, Economic Census Branch, 301-763-3316 or csd@census.gov.

AVAILABILITY OF ADDITIONAL DATA

Reports in Print and Electronic Media. All results of the 2002 Economic Census, including the SBO, will be available on the Census Bureau Internet site (www.census.gov) and on digital versatile discs (DVD-ROMs) for sale by the Census Bureau. The American FactFinder system at the Web site allows selective retrieval and downloading of the data. For more information, including a description of electronic and printed reports being issued, see the Internet site, write to U.S. Census Bureau, Washington, DC 20233-0801, or call Customer Services at 301-763-4100.

Special Tabulations. Special tabulations of data collected in the 2002 SBO may be obtained, depending on availability of time and personnel, in electronic or tabular form. The data will be summaries subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual business establishments or companies) that govern the regular publications.

Special tabulations are prepared on a cost basis. A request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to the Chief of the Economic Census Branch, Company Statistics Division, U.S. Census Bureau, Washington, DC 20233-6400.

To discuss a special tabulation before submitting specifications, call 301-763-3316.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used with the 2002 Economic Census data:

–	Represents zero (page image/print only)
D	Withheld to avoid disclosing data for individual companies; data are included in higher level totals
N	Not available or not comparable
S	Estimates are suppressed when publication standards are not met, such as, the firm count is less than 3, or the relative standard error of the sales and receipts is 50 percent or more.
X	Not applicable
a	0 to 19 employees
b	20 to 99 employees
c	100 to 249 employees
e	250 to 499 employees
f	500 to 999 employees
g	1,000 to 2,499 employees
h	2,500 to 4,999 employees
i	5,000 to 9,999 employees
j	10,000 to 24,999 employees
k	25,000 to 49,999 employees
l	50,000 to 99,999 employees
m	100,000 employees or more
r	Revised
t	90 percent or more reporting
u	80 to 89 percent reporting
v	70 to 79 percent reporting
w	60 to 69 percent reporting
y	Less than 60 percent reporting

Table 1. Statistics for Hispanic-Owned Firms by Kind of Business and Detailed Hispanic or Latino Origin: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 1. Statistics for Hispanic-Owned Firms by Kind of Business and Detailed Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

¹All firms data include both firms with paid employees and firms with no paid employees.
²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.
³Data do not include crop and animal production (NAICS 111, 112).
⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.
⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).
⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Table 1. **Statistics for Hispanic-Owned Firms by Kind of Business and Detailed Hispanic or Latino Origin: 2002—Con.**

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

2002 NAICS code	Geographic area and kind of business	All firms ¹		Firms with paid employees				Relative standard error of estimate (percent) ² for column—							
		Firms (number)	Sales and receipts (\$1,000)	Firms (number)	Sales and receipts (\$1,000)	Employees (number)	Annual payroll (\$1,000)	A	B	C	D	E	F

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

See footnotes at end of table.

Table 2. Statistics for Hispanic-Owned Firms by State and Kind of Business: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 3. Statistics for Hispanic-Owned Firms by State and Detailed Hispanic or Latino Origin: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 3. Statistics for Hispanic-Owned Firms by State and Detailed Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 3. Statistics for Hispanic-Owned Firms by State and Detailed Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

¹All firms data include both firms with paid employees and firms with no paid employees.
²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner has the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. **Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. **Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. **Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

2002 NAICS code	Geographic area and kind of business	All firms ¹		Firms with paid employees				Relative standard error of estimate (percent) ² for column—

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. **Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E]

Table 4. Statistics by Kind of Business for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area and industry in which they operate. This table is based on the 2002 North American Industry Classification System (NAICS). For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

Table 5. Statistics by Detailed Hispanic or Latino Origin for Selected Metropolitan and Micropolitan Statistical Areas With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For definition of metropolitan and micropolitan statistical areas, see Appendix E.]

¹All firms data include both firms with paid employees and firms with no paid employees.
²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 6. Statistics for Selected Counties With 100 or More Hispanic-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 6. Statistics for Selected Counties With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 6. Statistics for Selected Counties With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 6. Statistics for Selected Counties With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

¹All firms data include both firms with paid employees and firms with no paid employees.
²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Geographic area	All firms ¹		Firms with paid employees				Relative standard error of estimate (percent) ² for column—

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Geographic area	All firms ¹		Firms with paid employees				Relative standard error of estimate (percent) ² for column—

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Geographic area	All firms ¹		Firms with paid employees				Relative standard error of estimate (percent) ² for column—

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D.]

Table 7. Statistics for Selected Places With 100 or More Hispanic-Owned Firms: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each geographic area in which they operate, but only once in the state totals. For information on geographic area coding, confidentiality protection, and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A. For information on geographic areas, see Appendix D]

¹All firms data include both firms with paid employees and firms with no paid employees.
²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 8. Statistics for Hispanic-Owned Firms by Kind of Business and Receipts Size of Firm: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 8. Statistics for Hispanic-Owned Firms by Kind of Business and Receipts Size of Firm: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 8. Statistics for Hispanic-Owned Firms by Kind of Business and Receipts Size of Firm: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 9. Statistics for Hispanic-Owned Firms With Paid Employees by Kind of Business and Employment Size of Firm: 2002

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 9. Statistics for Hispanic-Owned Firms With Paid Employees by Kind of Business and Employment Size of Firm: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

¹For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

²Data do not include crop and animal production (NAICS 111, 112).

³Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁴Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁵Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 10. Statistics for Hispanic-Owned Firms With No Paid Employees by Kind of Business: 2002

Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. ¹For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 12. **Statistics for Hispanic-Owned Firms With No Paid Employees by Receipts Size of Firm: 2002**

[Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 13. **Statistics for All U.S. Firms by Kind of Business and Hispanic or Latino Origin: 2002**

— Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

See footnotes at end of table.

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. **Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 14. Statistics for All U.S. Firms by State, Kind of Business, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state and industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 15. Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 15. Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

Table 15. **Statistics for All U.S. Firms by Kind of Business, Receipts Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A]

¹All firms data include both firms with paid employees and firms with no paid employees.

²For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

³Data do not include crop and animal production (NAICS 111, 112).

⁴Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁵Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁶Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

2002 NAICS code	Kind of business, employment size, and Hispanic or Latino origin	Firms (number)	Sales and receipts (\$1,000)	Employees (number)	Annual payroll (\$1,000)	Relative standard error of estimate (percent) ¹ for column—

Table 16. **Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 16. **Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.**

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

2002 NAICS code	Kind of business, employment size, and Hispanic or Latino origin	Firms (number)	Sales and receipts (\$1,000)	Employees (number)	Annual payroll (\$1,000)	Relative standard error of estimate (percent) ¹ for column—

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Table 16. Statistics for All U.S. Firms With Paid Employees by Kind of Business, Employment Size of Firm, and Hispanic or Latino Origin: 2002—Con.

[Includes firms with payroll at any time during 2002. Employment reflects the number of paid employees during the March 12 pay period. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

¹For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

²Data do not include crop and animal production (NAICS 111, 112).

³Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁴Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁵Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 17. Statistics for All U.S. Firms With No Paid Employees by Kind of Business and Hispanic or Latino Origin: 2002

Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A)

Table 17. **Statistics for All U.S. Firms With No Paid Employees by Kind of Business and Hispanic or Latino Origin: 2002—Con.**

Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each industry in which they operate, but only once in the U.S. total. This table is based on the 2002 North American Industry Classification System (NAICS). For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A)

¹For explanation of relative standard errors, see Reliability of Estimates in the introductory text.

²Data do not include crop and animal production (NAICS 111, 112).

³Data do not include large certificated passenger carriers that report to the Office of Airline Information, U.S. Department of Transportation. Railroad transportation and U.S. Postal Service are out of scope for the 2002 Economic Census.

⁴Data do not include funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930).

⁵Data do not include religious, grantmaking, civic, professional, and similar organizations (NAICS 813) and private households (NAICS 814).

Note: To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this table contain nonsampling errors. Data users who create their own estimates using data from this table should cite the Census Bureau as the source of the original data only. For the full technical documentation, see Appendix C.

Table 18. **Statistics for All U.S. Firms With No Paid Employees by State and Hispanic or Latino Origin: 2002**

Includes firms with no paid employees. The U.S. totals are based on the 2002 Economic Census, whereas the gender, Hispanic or Latino origin, and race estimates are based on the 2002 Survey of Business Owners (see Appendix C for information on survey methodology and sampling error). Detail may not add to total because a Hispanic or Latino firm may be of any race. Moreover, each owner had the option of selecting more than one race and therefore is included in each race selected. Firms with more than one domestic establishment are counted in each state in which they operate, but only once in the U.S. total. For information on confidentiality protection and the meaning of abbreviations and symbols, see introductory text. For explanation of terms, see Appendix A.]

Appendix A.

Explanation of Terms

ANNUAL PAYROLL

GENERAL DEFINITION

Payroll includes all forms of compensation, such as salaries, wages, commissions, dismissal pay, bonuses, vacation allowances, sick-leave pay, and employee contributions to qualified pension plans paid during the year to all employees. For corporations, payroll includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service (IRS) on Form 941 as taxable Medicare Wages and Tips (even if not subject to income or FICA tax).

SECTOR-SPECIFIC INFORMATION

Accommodation and Food Services and Retail Trade. Includes tip and gratuities received by employees from patrons and reported to employers. Excludes payrolls of departments or concessions operated by other companies at the establishments.

Administrative and Support and Waste Management and Remediation Services; Arts, Entertainment, and Recreation; Educational Services; Health Care and Social Assistance; Information; Management of Companies and Enterprises; Professional, Scientific, and Technical Services; and Other Services (Except Public Administration). Also included are tips and gratuities received by employees from patrons and reported to employees and the spread of stock options that is taxable to employees as income. If an employee works at more than one location, the payroll is included in the one location where they spend most of their time. Also included are salaries of members of professional service organizations or associations which operate under state professional corporation statutes and file a corporate federal income tax return. Excluded are payrolls of departments or concessions operated by other companies at the establishment; payments to or withdrawals by proprietors or partners of an unincorporated company; and annuities or supplemental unemployment compensation benefits, even if income tax was withheld.

Finance and Insurance and Real Estate and Rental and Leasing. Payroll does not include commissions paid to independent (nonemployee) agents, such as insurance or real estate agents.

Manufacturing Sector. Also excluded are payments to members of Armed Forces and pensioners carried on the active payrolls of manufacturing establishments.

Payroll of leased employees, that is, those whose payroll is filed with the IRS by an employee leasing company, is counted together with the payroll of the industry where work is performed and also in the payroll for NAICS 561330, Employee Leasing Services.

Mining Sector. Also included are payments received on a ton, car, or yard basis; excluded are payments to members of Armed Forces and pensioners carried on the active payroll of mining establishments. Also excluded are royalty payments to unions and costs of smithing, explosives, fuses, electric cap lamps, and mine supplies used in production, development, and exploration work but charged to employees and deducted from their wages.

Payroll of leased employees is counted together with the payroll of the industry where work is performed and also in the payroll for NAICS 561330, Employee Leasing Services.

NUMBER OF EMPLOYEES

GENERAL DEFINITION

Paid employees consist of full and part-time employees, including salaried officers and executives of corporations, who (for all sectors except Construction and Manufacturing) were on the payroll during the pay period including March 12. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors or partners of unincorporated businesses. The definition of paid employees is the same as that used on IRS Form 941.

SECTOR-SPECIFIC INFORMATION

Accommodation and Food Services and Retail Trade. Excludes employees of departments or concessions operated by other companies at the establishment; full- and part-time leased employees whose payroll was filed under an employee leasing company's Employer Identification Number; and temporary staffing obtained from a staffing service.

Administrative and Support and Waste Management and Remediation Services; Arts, Entertainment, and Recreation; Educational Services; Health Care and Social Assistance; Information; Management of Companies and Enterprises; Professional, Scientific, and Technical Services; and Other Services (Except Public Administration). Included are salaried members of professional service organizations or associations which operate under state professional corporation statutes and file corporate federal income tax returns. Not included are employees of departments or concessions operated by other companies at the establishment; full- and part-time leased employees whose payroll was filed under an employee leasing company's Employer Identification Number; and temporary staffing obtained from a staffing service.

Construction and Manufacturing Sectors. Comprises all full-time and part-time employees on the payrolls of establishments who worked or received pay for any part of the pay period including the 12th of March, May, August, and November, divided by 4.

Leased employees, that is, those whose payroll is filed with the IRS by an employee leasing company, are counted together with the employment of the industry where work is performed and also in the employment for NAICS 561330, Employee Leasing Services.

Finance and Insurance and Real Estate and Rental and Leasing. Excluded are full- and part-time leased employees whose payroll was filed under an employee leasing company's Employer Identification Number. Also, excluded are independent (nonemployee) agents.

Mining. Also included are employees working for miners paid on a per ton, car, or yard basis. Excluded are employees at the mine but on the payroll of another employer (such as employees of contractors) and employees at company stores, boardinghouses, bunkhouses, and recreational centers. Also excluded are members of the Armed Forces and pensioners carried on the active rolls but not working during the period.

Leased employees are counted together with the employment of the industry where work is performed and also in the employment for NAICS 561330, Employee Leasing Services.

Transportation and Warehousing and Utilities. Excluded are full- and part-time leased employees whose payroll was filed under an employee leasing company's Employer Identification Number.

NUMBER OF ESTABLISHMENTS

GENERAL DEFINITION

An establishment is a single physical location at which business is conducted and/or services are provided. It is not necessarily identical with a company or enterprise, which may consist of one establishment or more.

Economic census figures represent a summary of reports for individual establishments rather than companies. For cases where a census report was received, separate information was obtained for each location where business was conducted. When administrative records of other federal agencies were used instead of a census report, no information was available on the number of locations operated. Each economic census establishment was tabulated according to the physical location at which the business was conducted. The count of establishments represents those in business at any time during 2002.

When two activities or more were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment. The entire establishment was classified on the basis of its major activity and all data for it were included in that classification. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted at a single location under a single ownership, separate establishment reports for each of the different activities were obtained in the census.

SECTOR-SPECIFIC INFORMATION

Accommodation and Food Services. Leased departments are treated as separate establishments and are classified according to the kind of business they conduct. For example, a leased department selling gifts/souvenirs within a hotel would be considered a separate establishment under the “gift, novelty, and souvenir stores” classification in the Retail Trade sector.

Administrative and Support and Waste Management and Remediation Services; Arts, Entertainment, and Recreation; Educational Services; Health Care and Social Assistance; Information; Professional, Scientific, and Technical Services; and Other Services (Except Public Administration). An establishment is included in the census if it is an employer, the establishment has \$1,000 in payroll, and was in operation at any time during 2002. Leased service departments (separately owned businesses operated as departments or concessions of the other service establishments or of retail businesses, such as a separately owned shoeshine parlor in a barber shop, or a beauty shop in a department store) are treated as separate service establishments for census purposes. Leased retail departments located in service establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

Construction. All establishments that were in business at any time during the year are included. Construction establishments that were inactive or idle for the entire year were not included.

Manufacturing. All manufacturing establishments (plants) with one employee or more, in operation at any time during the year, are included.

Mining. For the crude petroleum and support activities for mining industries, the basis for reporting is different from the establishments basis used for other types of mining. Firms operating oil and gas wells, drilling wells, or exploring for oil and gas for their own account were required to submit a separate report for each state or offshore area adjacent to a state in which it conducted such activities. Firms that performed contract services for oil and gas field operation or for mining establishments were required to submit one report covering all such activities in the United States and to include information on receipts for services and production-worker wages and hours by state. These consolidated reports were then allocated to state establishments based on the data reported at the state level.

Real Estate and Rental and Leasing. Data for individual properties leased or managed by property lessors or property managers are not normally considered separate establishments, but rather the permanent offices from which the properties are leased or managed are considered establishments. Data for separate automotive rental offices or concessions (e.g., airport locations) in the same metropolitan area, for which a common fleet of cars is maintained, are merged together and not considered as separate establishments.

Retail Trade. Leased departments are treated as separate establishments and are classified according to the kind of business they conduct. For example, a leased department selling shoes within a department store would be considered a separate retail establishment under the “shoe stores” classification.

FIRMS

A firm is a business organization or entity consisting of one domestic establishment (location) or more under common ownership or control. All establishments of subsidiary firms are included as part of the owning or controlling firm. For the economic census, the terms “firm” and “company” are synonymous.

LEGAL FORM OF ORGANIZATION

The legal form of organization was generally based on information from administrative records of other federal agencies.

Reports from the 2002 Economic Census and related programs present data for establishments by the following legal forms of organization:

1. Corporations
2. Individual proprietorships
3. Partnerships
4. Cooperative associations (Sector 42 — Wholesale Trade data only)
5. Other legal forms of organization

RACE GROUP

The race categories and Hispanic subgroups used in the 2002 SBO are consistent with those mandated by the Office of Management and Budget. These standards were developed by both the Executive Branch and Congress.

Five major race categories are represented on the survey questionnaires: American Indian or Alaska Native; Asian; Black or African American; Native Hawaiian and Other Pacific Islander; and White.

Four Hispanic subgroups are listed on the survey questionnaires: Mexican, Mexican American, Chicano; Puerto Rican; Cuban; and Other Spanish/Hispanic/Latino.

The category “Publicly held and other firms not classifiable by gender, Hispanic or Latino Origin, and race” includes foreign-owned companies and not-for-profit companies.

Businesses classified as fifty percent minority/fifty percent nonminority-owned are included in the total number of all U.S. firms but are excluded from the detailed estimates of business ownership by Hispanic or Latino Origin and race.

VALUE OF SALES, SHIPMENTS, RECEIPTS, REVENUE, OR BUSINESS DONE

General Definition

Includes the total sales, shipments, receipts, revenue, or business done by domestic establishments (excludes foreign subsidiaries) within the scope of the economic census. The definition of each of these items is included in the information provided below.

All Firms. Sales and receipts of all firms include those of both nonemployer firms and firms with paid employees. In most summaries, sales and receipts of nonemployers make up a relatively small part of the total.

Nonemployer Firms. Receipts of nonemployer firms includes gross receipts, sales, commissions, and income from trades and businesses, as reported on annual business income tax returns. Business income consists of all payments for services rendered by nonemployer businesses, such as payments received as independent agents and contractors.

The composition of nonemployer receipts may differ from that of the sales and receipts as published for firms with paid employees. For example, for wholesale agents and brokers without payroll, the receipts item contains commissions received or earnings. In contrast, for wholesale agents and brokers with payroll, the sales item published in the economic census represents the value of the goods involved in the transactions.

Employer Firms. The total sales, shipments, receipts, revenue, or business done by establishments with paid employees, as recorded in the Economic Census, differs slightly from sector to sector, as noted below.

Sector-Specific Information

Accommodation and Food Services. Includes sales from customers for services rendered, from the use of facilities and from merchandise sold. If tax exempt, also includes dues and assessments from members and affiliates.

Sales do not include carrying or other credit charges; sales and other taxes (including Hawaii's General Excise Tax) collected from customers and forwarded to taxing authorities; gross sales and receipts of departments or concessions operated by other companies; and commissions or receipts from the sale of government lottery tickets.

Excludes sales from civic and social organizations; amusement and recreation parks; theaters; and other recreation or entertainment facilities providing food and beverage services.

Administrative and Support and Waste Management and Remediation Services; Arts, Entertainment, and Recreation; Educational Services; Health Care and Social Assistance; Information; Professional, Scientific, and Technical Services; and Other Services (Except Public Administration)

Receipts (basic dollar volume measure for service establishments of firms subject to federal income tax). Includes gross receipts from customers or clients for services provided, from the use of facilities, and from merchandise sold in 2002, whether or not payment was received in 2002. For advertising agencies, travel industries, and other service establishments operating on a commission basis, receipts include commissions, fees, and other operation income, NOT gross billings and sales. Excise taxes on gasoline, liquor, tobacco, etc., which are paid by the manufacturer or wholesaler and passed on in the cost of goods purchased by the service establishment, are also included. The establishments share of receipts from departments, concessions, and vending and amusement machines operated by others are included as part of receipts. Receipts also include amounts received from the rental and leasing of vehicles, equipment, instruments, and tools; the total value or service contracts; market value of compensation received in lieu of cash; amounts received for work subcontracted to others; and dues and assessments from members and affiliates. Receipts from services performed for foreign parent firms, subsidiaries, and branches are included. Independent artists, writers, and performers should report royalties.

Receipts are net after deductions for refunds and allowances for merchandise returned by customers. Receipts do not include sales and other taxes (including Hawaii's General Excise Tax) collected directly from customers and paid directly to a local, state, or federal tax agency. Also excluded are gross receipts from departments and concessions operated by others; sales of used equipment previously rented or leased to customers; domestic intracompany transfers; proceeds from the sale of real estate (land and buildings), investments, or other assets (except inventory held for resale); income from interest, rental of real estate, dividends, contributions, and grants; receipts of foreign parent firms and subsidiaries; and other nonoperating income, such as franchise fees. Receipts do not include service receipts of manufacturers, wholesalers, retail establishments, or other businesses whose primary activity is other than services rendered (e.g, sale of merchandise to individuals or other businesses) by establishments primarily engaged in performing services and classified in the service industries.

Revenue (basic dollar volume measure for firms exempt from federal income tax). Includes revenue from customers or clients for services provided in 2002, whether or not payment was received in 2002, and gross sales of merchandise, minus returns and allowances. Also included

are income from interest, dividends, gross rents (including display space rentals and share of receipts from departments operated by other companies), gross contributions, gifts, grants (whether or not restricted for use in operations), royalties, dues and assessments from members and affiliates, commissions earned from the sale of merchandise owned by others (including commissions from vending machine operators), and gross receipts from fundraising activities. Revenue now includes gains or losses from the sale of real estate (land and buildings), investments, or other assets (except inventory held for resale). Receipts from taxable business activities of firms exempt from federal income tax (unrelated business income) are also included in revenue.

Revenue does not include sales and other taxes collected directly from customers or clients and paid directly to a local, state, or federal tax agency; gross receipts of departments or concessions operated by others; and amounts transferred to operating funds from capital or reserve funds.

Construction. Includes the value of construction work done during the year for construction work performed by general contractors and special trade contractors. Included is new construction, additions and alterations or reconstruction, and maintenance and repair construction work. Also included is the value of any construction work done by the reporting establishments for themselves.

Speculative builders were instructed to include the value of buildings and other structures built or being built for sale in the current year but not sold. They were to include the costs of such construction plus normal profit. Also included is the cost of construction work done on buildings for rent or lease.

Establishments engaged in the sale and installation of such construction components as plumbing, heating, and central air-conditioning supplies and equipment; lumber and building materials; paint, glass, and wallpaper; electrical and wiring supplies; and elevators or escalators were instructed to include both the value for the installation and the receipts covering the price of the items installed.

Excluded was the cost of industrial and other specialized machinery and equipment, which are not an integral part of a structure.

Finance and Insurance. Includes revenue from all business activities whether or not payment was received in the census year, including commissions and fees from all sources, rents, net investment income, interest, dividends, royalties, and net insurance premiums earned. Revenue from leasing property marketed under operating leases is included, as well as interest earned from property marketed under capital, finance, or full payout leases. Revenue also includes the total value of service contracts and amounts received for work subcontracted to others.

Revenue does not include sales and other taxes (including Hawaii's General Excise Tax) collected from customers and paid directly by the firm to a local, state, or federal tax agency.

Information. Includes gross receipts from customers or clients for services provided, from the use of facilities, and from merchandise sold during 2002, whether or not payment was received in 2002. Receipts include royalties, license fees, and other payments from the marketing of intangible products (e.g., licensing the use of or granting reproduction rights for software, musical compositions, and other intellectual property). Receipts also include the rental and leasing of vehicles, equipment, instruments, tools, etc.; total value of service contracts; market value of compensation received in lieu of cash; amounts received for work subcontracted to others; dues and assessments from members and affiliates; this establishment's share of receipts from departments, concessions, and vending and amusement machines operated by others. Sales to and receipts from foreign parent firms, subsidiaries, and branches are included. Receipts also include advertising sales, and sales of goods and services marketed through sales offices. For public broadcast stations and libraries, receipts include contributions, gifts, grants, and income from interest, rental of real estate, and dividends. Receipts do not include sales and other taxes (including Hawaii's General Excise Tax) collected directly from customers or clients and paid directly to a local, state, or federal tax agency. Also excluded are gross receipts collected on behalf of others;

gross receipts from departments or concessions operated by others; sales of used equipment previously rented or leased to customers; proceeds from the sale of real estate (land and buildings), investments, or other assets (except inventory held for resale); contributions, gifts, grants, and income from interest, rental of real estate, and dividends, EXCEPT for public broadcast stations and libraries; domestic intracompany transfers; receipts of foreign parent firms and subsidiaries; and other nonoperating income (e.g., franchise fees).

Management of Companies and Enterprises. Includes gross receipts from services provided, from the use of facilities, and from merchandise sold in 2002, whether or not payment was received in 2002. Receipts also include income from interest, rental of real estate, or dividends; contributions, gifts, and grants of not-for-profit organizations exempt from federal income tax; receipts from service performed for FOREIGN parent firms, subsidiaries, branches, etc; the establishments share of receipts from departments, concessions, and vending and amusement machines operated by others; receipts from the rental and leasing of vehicles, equipment, instruments, and tools; the total value or service contracts; market value of compensation received in lieu of cash; amounts received for work subcontracted to others; franchise sales and fees, license fees, and royalties; and gains and losses from the sale of real estate (land and buildings), investments, or other assets (except inventory held for resale).

Receipts do not include sales and other taxes (including Hawaii's General Excise Tax) collected directly from customers and paid directly to a local, state, or federal tax agency. Also excluded are gross receipts from departments and concessions operated by others; domestic intracompany transfers; and receipts of foreign parent firms and subsidiaries.

Manufacturing and Mining. This item covers the net selling values, f.o.b. mine or plant after discounts and allowances (exclusive of freight and excise taxes), of all products shipped, both primary and secondary, as well as all miscellaneous receipts, such as installation and repair, sales of scrap, and sales of products bought and sold without further processing. Included are all products physically shipped by the establishments, whether sold, transferred to other plants of the same company, or shipped on consignments. For products transferred to other establishments of the same company, or prepared on a custom or toll basis, companies were requested to report the estimated value, not merely the cost of producing the product. In the case of multiunit companies, the mineral operation was requested to report the value of products transferred to the other establishments of the same company at full economic or commercial value, including not only the direct cost of production but also a reasonable proportion of "all other costs" (including company overhead) profit.

In addition to the value for (North American Industry Classification System) NAICS-defined products, aggregates of the following categories of miscellaneous receipts are reported as part of a total establishment's value of shipments and receipts:

1. Receipts for services. Receipts for work or services that an establishment performed for others.
2. Value of resales. Sales of products brought and sold without further processing.
3. Other miscellaneous receipts. Such as repair work, installation, sales of scrap, etc.

An establishment's value of shipments and receipts include those products assigned to an industry (primary products), those considered primary to other industries (secondary products), receipts for services and miscellaneous activities, and the value of resales.

Real Estate and Rental and Leasing. Includes revenue from all business activities whether or not payment was received in the census year, including commissions and fees from all sources, rents, net investment income, interest, dividends, and royalties. Revenue from leasing property marketed under operating leases is included. Revenue also includes the total value of service contracts, amounts received for work subcontracted to others, and rents from real property sublet to others.

Revenue does not include sales and other taxes (including Hawaii's General Excise Tax) collected from customers and paid directly by the firm to a local, state, or federal tax agency.

Retail Trade. Includes merchandise sold for cash or credit at retail and wholesale by establishments primarily engaged in retail trade; amounts received from customers for layaway purchases; receipts from rental of vehicles, equipment, instruments, tools, etc.; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; the total value of service contracts; gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed on to the retailer; and shipping and handling receipts.

Sales are net after deductions for refunds and allowances for merchandise returned by customers. Trade-in allowances are not deducted from sales. Sales do not include carrying or other credit charges; sales and other taxes (including Hawaii's General Excise Tax) collected from customers and forwarded to taxing authorities; gross sales and receipts of departments or concessions operated by other companies; and commissions or receipts from the sale of government lottery tickets.

Sales do not include retail sales made by manufacturers, wholesalers, service establishments, or other businesses whose primary activity is other than retail trade. They do include receipts other than from the sale of merchandise at retail, e.g., service receipts, sales to industrial users, and sales to other retailers, by establishments primarily engaged in retail trade.

Transportation and Warehousing and Utilities. Includes revenue from all business activities whether or not payment was received in the census year. Revenue does not include sales and other taxes (including Hawaii's General Excise Tax) collected from customers and paid directly by the firms to a local, state, or federal tax agency.

Wholesale Trade. Sales include merchandise sold for cash and credit by establishments primarily engaged in wholesale trade; receipts for delivery, installation, maintenance, repair, alteration, storage, and other services; the gross selling value of goods the establishment sold or purchased on a commission, brokerage, consignment, or agency basis for others; the actual value of trade-ins taken as partial payment for other merchandise; sales to foreign subsidiaries and affiliates and to the establishment's Foreign Sales Corporations (FSCs); receipts from rental or leasing of merchandise; gasoline, liquor, and tobacco excise taxes which are paid by the manufacturer and included in the cost of the goods purchased; liquor and tobacco stamps, taxes, and licenses sold; fees received for the arrangement of the foreign sale of goods which never entered the United States or its Foreign Trade Zones; shipping and handling receipts; and the value of transfers (billing) of farm products to other establishments in the company.

Sales exclude sales and other taxes (including Hawaii's General Excise Tax) collected directly from customers and paid directly to a federal, state, or local tax agency; receipts from carrying or other credit charges; nonoperating income from such sources as investments, rental or sale of real estate, and interest; commissions received from selling and buying goods (unless the goods never entered the United States); foreign sale of goods which never entered the United States or its Foreign Trade Zones; refunds or allowances for returned merchandise; and transfers (billings) to other establishments in the company, except those made by petroleum bulk plants to the firm's own retail service stations, retail fuel oil dealers, and retail liquefied petroleum (LP) gas dealers and those made by establishments selling farm products.

Sales figures include sales of all establishments in business at any time during the year. Sales shown for agents and brokers represented the value of the goods involved in the transactions rather than the commissions received or earnings.

Appendix B.

NAICS Codes, Titles, and Descriptions

00 TOTAL FOR ALL SECTORS

This NAICS code reflects the sum of all the economic activity for all sectors published in the 2002 Economic Census of Island Areas, the 2002 Survey of Business Owners, and the 2002 Nonemployer Statistics report. (Note that this total is not published as part of the 2002 Economic Census.) The definitions for all the individual sectors that comprise this total are shown separately. Finally, the sectors that comprise this total vary for each of the programs just listed; these are shown below:

- For the **2002 Economic Census of Island Areas**, this total includes establishments classified in NAICS sector 21 (Mining), 22 (Utilities), 23 (Construction), 31-33 (Manufacturing), 42 (Wholesale trade), 44-45 (Retail trade), 48-49 (Transportation and warehousing), 51 (Information), 52 (Finance and insurance), 53 (Real estate and rental and leasing), 54 (Professional, scientific, and technical services), 55 (Management of companies and enterprises), 56 (Administrative and support and waste management and remediation services), 61 (Educational services), 62 (Health care and social assistance), 71 (Arts, entertainment, and recreation), 72 (Accommodation and food services), and 81 (Other services (except public administration)).
- For the **2002 Survey of Business Owners**, this total includes establishments classified in the same sectors as the 2002 Economic Census of Island Areas plus those classified in NAICS sector 11 (Forestry, fishing and hunting, and agricultural support services (NAICS 113-115)) and 99 (Industries not classified).
- For the **2002 Nonemployer Statistics report**, this total includes establishments classified in the same sectors as the 2002 Economic Census of Island Areas except sector 55. It also includes establishments classified in NAICS sector 11.

11 FORESTRY, FISHING AND HUNTING, AND AGRICULTURAL SUPPORT SERVICES

The Agriculture, Forestry, Fishing and Hunting sector comprises establishments primarily engaged in growing crops, raising animals, harvesting timber, and harvesting fish and other animals from a farm, ranch, or their natural habitats.

The establishments in this sector are often described as farms, ranches, dairies, greenhouses, nurseries, orchards, or hatcheries. A farm may consist of a single tract of land or a number of separate tracts which may be held under different tenures. For example, one tract may be owned by the farm operator and another rented. It may be operated by the operator alone or with the assistance of members of the household or hired employees, or it may be operated by a partnership, corporation, or other type of organization. When a landowner has one or more tenants, renters, croppers, or managers, the land operated by each is considered a farm.

The sector distinguishes two basic activities: agricultural production and agricultural support activities. Agricultural production includes establishments performing the complete farm or ranch operation, such as farm owner-operators, tenant farm operators, and sharecroppers. Agricultural support activities include establishments that perform one or more activities associated with farm operation, such as soil preparation, planting, harvesting, and management, on a contract or fee basis.

Excluded from the Agriculture, Forestry, Hunting and Fishing sector are establishments primarily engaged in agricultural research and establishments primarily engaged in administering programs for regulating and conserving land, mineral, wildlife, and forest use. These establishments are classified in Industry 54171, Research and Development in the Physical, Engineering, and Life Sciences; and Industry 92412, Administration of Conservation Programs, respectively.

21 MINING

The Mining sector comprises establishments that extract naturally occurring mineral solids, such as coal and ores; liquid minerals, such as crude petroleum; and gases, such as natural gas. The term mining is used in the broad sense to include quarrying, well operations, beneficiating (e.g., crushing, screening, washing, and flotation), and other preparation customarily performed at the mine site, or as a part of mining activity.

The Mining sector distinguishes two basic activities: mine operation and mining support activities. Mine operation includes establishments operating mines, quarries, or oil and gas wells on their own account or for others on a contract or fee basis. Mining support activities include establishments that perform exploration (except geophysical surveying) and/or other mining services on a contract or fee basis (except mine site preparation and construction of oil/gas pipelines).

Establishments in the Mining sector are grouped and classified according to the natural resource mined or to be mined. Industries include establishments that develop the mine site, extract the natural resources, and/or those that beneficiate (i.e., prepare) the mineral mined. Beneficiation is the process whereby the extracted material is reduced to particles that can be separated into mineral and waste, the former suitable for further processing or direct use. The operations that take place in beneficiation are primarily mechanical, such as grinding, washing, magnetic separation, and centrifugal separation. In contrast, manufacturing operations primarily use chemical and electrochemical processes, such as electrolysis and distillation. However, some treatments, such as heat treatments, take place in both the beneficiation and the manufacturing (i.e., smelting/refining) stages. The range of preparation activities varies by mineral and the purity of any given ore deposit. While some minerals, such as petroleum and natural gas, require little or no preparation, others are washed and screened, while yet others, such as gold and silver, can be transformed into bullion before leaving the mine site.

Mining, beneficiating, and manufacturing activities often occur in a single location. Separate receipts will be collected for these activities whenever possible. When receipts cannot be broken out between mining and manufacturing, establishments that mine or quarry nonmetallic minerals, beneficiate the nonmetallic minerals into more finished manufactured products are classified based on the primary activity of the establishment. A mine that manufactures a small amount of finished products will be classified in Sector 21, Mining. An establishment that mines whose primary output is a more finished manufactured product will be classified in Sector 31-33, Manufacturing.

22 UTILITIES

The Utilities sector comprises establishments engaged in the provision of the following utility services: electric power, natural gas, steam supply, water supply, and sewage removal. Within this sector, the specific activities associated with the utility services provided vary by utility: electric power includes generation, transmission, and distribution; natural gas includes distribution; steam supply includes provision and/or distribution; water supply includes treatment and distribution; and sewage removal includes collection, treatment, and disposal of waste through sewer systems and sewage treatment facilities.

Excluded from this sector are establishments primarily engaged in waste management services classified in Subsector 562, Waste Management and Remediation Services. These establishments also collect, treat, and dispose of waste materials; however, they do not use sewer systems or sewage treatment facilities.

23 CONSTRUCTION

The construction sector comprises establishments primarily engaged in the construction of buildings or engineering projects (e.g., highways and utility systems). Establishments primarily engaged in the preparation of sites for new construction and establishments primarily engaged in subdividing land for sale as building sites also are included in this sector.

Construction work done may include new work, additions, alterations, or maintenance and repairs. Activities of these establishments generally are managed at a fixed place of business, but they usually perform construction activities at multiple project sites. Production responsibilities for establishments in this sector are usually specified in (1) contracts with the owners of construction projects (prime contracts) or (2) contracts with other construction establishments (subcontracts).

Establishments primarily engaged in contracts that include responsibility for all aspects of individual construction projects are commonly known as general contractors, but also may be known as design-builders, construction managers, turnkey contractors, or (in cases where two or more establishments jointly secure a general contract) joint-venture contractors. Construction managers that provide oversight and scheduling only (i.e., agency) as well as construction managers that are responsible for the entire project (i.e., at risk) are included as general contractor type establishments. Establishments of the “general contractor type” frequently arrange construction of separate parts of their projects through subcontracts with other construction establishments.

Establishments primarily engaged in activities to produce a specific component (e.g., masonry, painting, and electrical work) of a construction project are commonly known as specialty trade contractors. Activities of specialty trade contractors are usually subcontracted from other construction establishments, but especially in remodeling and repair construction, the work may be done directly for the owner of the property.

Establishments primarily engaged in activities to construct buildings to be sold on sites that they own are known as operative builders, but also may be known as speculative builders or merchant builders. Operative builders produce buildings in a manner similar to general contractors, but their production processes also include site acquisition and securing of financial backing. Operative builders are most often associated with the construction of residential buildings. Like general contractors, they may subcontract all or part of the actual construction work on their buildings.

There are substantial differences in the types of equipment, work force skills, and other inputs required by establishments in this sector. To highlight these differences and variations in the underlying production functions, this sector is divided into three subsectors.

Subsector 236, Construction of Buildings, comprises establishments of the general contractor type and operative builders involved in the construction of buildings. Subsector 237, Heavy and Civil Engineering Construction, comprises establishments involved in the construction of engineering projects. Subsector 238, Specialty Trade Contractors, comprises establishments engaged in specialty trade activities generally needed in the construction of all types of buildings.

Force account construction is construction work performed by an enterprise primarily engaged in some business other than construction for its own account and use, using employees of the enterprise. This activity is not included in the construction sector unless the construction work performed is the primary activity of a separate establishment of the enterprise. The installation and the ongoing repair and maintenance of telecommunications and utility networks is excluded from construction when the establishments performing the work are not independent contractors. Although a growing proportion of this work is subcontracted to independent contractors in the Construction Sector, the operating units of telecommunications and utility companies performing this work are included with the telecommunications or utility activities.

31-33 MANUFACTURING

The Manufacturing sector comprises establishments engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. The assembling of component parts of manufactured products is considered manufacturing, except in cases where the activity is appropriately classified in Sector 23, Construction.

Establishments in the Manufacturing sector are often described as plants, factories, or mills and characteristically use power-driven machines and materials-handling equipment. However, establishments that transform materials or substances into new products by hand or in the worker’s home and those engaged in selling to the general public products made on the same premises

from which they are sold, such as bakeries, candy stores, and custom tailors, may also be included in this sector. Manufacturing establishments may process materials or may contract with other establishments to process their materials for them. Both types of establishments are included in manufacturing.

The materials, substances, or components transformed by manufacturing establishments are raw materials that are products of agriculture, forestry, fishing, mining, or quarrying as well as products of other manufacturing establishments. The materials used may be purchased directly from producers, obtained through customary trade channels, or secured without recourse to the market by transferring the product from one establishment to another, under the same ownership. The new product of a manufacturing establishment may be finished in the sense that it is ready for utilization or consumption, or it may be semifinished to become an input for an establishment engaged in further manufacturing. For example, the product of the alumina refinery is the input used in the primary production of aluminum; primary aluminum is the input to an aluminum wire drawing plant; and aluminum wire is the input for a fabricated wire product manufacturing establishment.

The subsectors in the Manufacturing sector generally reflect distinct production processes related to material inputs, production equipment, and employee skills. In the machinery area, where assembling is a key activity, parts and accessories for manufactured products are classified in the industry of the finished manufactured item when they are made for separate sale. For example, a replacement refrigerator door would be classified with refrigerators and an attachment for a piece of metal working machinery would be classified with metal working machinery. However, components, input from other manufacturing establishments, are classified based on the production function of the component manufacturer. For example, electronic components are classified in Subsector 334, Computer and Electronic Product Manufacturing and stampings are classified in Subsector 332, Fabricated Metal Product Manufacturing.

Manufacturing establishments often perform one or more activities that are classified outside the Manufacturing sector of the North American Industry Classification System (NAICS). For instance, almost all manufacturing has some captive research and development or administrative operations, such as accounting, payroll, or management. These captive services are treated the same as captive manufacturing activities. When the services are provided by separate establishments, they are classified to the NAICS sector where such services are primary, not in manufacturing.

The boundaries of manufacturing and the other sectors of the classification system can be somewhat blurry. The establishments in the manufacturing sector are engaged in the transformation of materials into new products. Their output is a new product. However, the definition of what constitutes a new product can be somewhat subjective. As clarification, the following activities are considered manufacturing in NAICS: Milk bottling and pasteurizing; Water bottling and processing; Fresh fish packaging (oyster shucking, fish filleting); Apparel jobbing (assigning of materials to contract factories or shops for fabrication or other contract operations) as well as contracting on materials owned by others; Printing and related activities; Ready-mixed concrete production; Leather converting; Grinding of lenses to prescription; Wood preserving; Electroplating, plating, metal heat treating, and polishing for the trade; Lapidary work for the trade; Fabricating signs and advertising displays; Rebuilding or remanufacturing machinery (i.e., automotive parts) Ship repair and renovation; Machine shops; and Tire retreading. Conversely, there are activities that are sometimes considered manufacturing, but which for NAICS are classified in another sector (i.e., not classified as manufacturing).

They include: (1) Logging, classified in Sector 11, Agriculture, Forestry, Fishing and Hunting is considered a harvesting operation; (2) The beneficiating of ores and other minerals, classified in Sector 21, Mining, is considered part of the activity of mining; (3) The construction of structures and fabricating operations performed at the site of construction by contractors, is classified in Sector 23, Construction; (4) Establishments engaged in breaking of bulk and redistribution in smaller lots, including packaging, repackaging, or bottling products, such as liquors or chemicals; the customized assembly of computers; sorting of scrap; mixing paints to customer order; and cutting metals to customer order, classified in Sector 42, Wholesale Trade or Sector 44-45, Retail Trade, produce a modified version of the same product, not a new product; and (5) Publishing and

the combined activity of publishing and printing, classified in Sector 51, Information, perform the transformation of information into a product where as the value of the product to the consumer lies in the information content, not in the format in which it is distributed (i.e., the book or software diskette).

42 WHOLESALE TRADE

The Wholesale Trade sector comprises establishments engaged in wholesaling merchandise, generally without transformation, and rendering services incidental to the sale of merchandise.

The wholesaling process is an intermediate step in the distribution of merchandise. Wholesalers are organized to sell or arrange the purchase or sale of —

1. goods for resale (i.e., goods sold to other wholesalers or retailers),
2. capital or durable nonconsumer goods, or
3. raw and intermediate materials and supplies used in production.

Wholesalers sell merchandise to other businesses and normally operate from a warehouse or office. These warehouses and offices are characterized by having little or no display of merchandise. In addition, neither the design nor the location of the premises is intended to solicit walk-in traffic. Wholesalers do not normally use advertising directed to the general public. Customers are generally reached initially via telephone, in-person marketing, or by specialized advertising that may include Internet and other electronic means. Follow-up orders are either vendor-initiated or client-initiated, generally based on previous sales, and typically exhibit strong ties between sellers and buyers. In fact, transactions are often conducted between wholesalers and clients that have long-standing business relationships.

This sector comprises two main types of wholesalers: those that sell goods on their own account and those that arrange sales and purchases for others generally for a commission or fee.

1. Establishments that sell goods on their own account are known as wholesale merchants, distributors, jobbers, drop shippers, and import/export merchants. Also included as wholesale merchants are sales offices and sales branches (but not retail stores) maintained by manufacturing, refining, or mining enterprises apart from their plants or mines for the purpose of marketing their products. Merchant wholesale establishments typically maintain their own warehouse, where they receive and handle goods for their customers. Goods are generally sold without transformation, but may include integral functions, such as sorting, packaging, labeling, and other marketing services.
2. Establishments arranging for the purchase or sale of goods owned by others or purchasing goods, generally on a commission basis, are known as business-to-business electronic markets, agents and brokers, commission merchants, import/export agents and brokers, auction companies, and manufacturers' representatives. These establishments operate from offices and generally do not own or handle the goods they sell.

Some wholesale establishments may be connected with a single manufacturer and promote and sell the particular manufacturers' products to a wide range of other wholesalers or retailers. Other wholesalers may be connected to a retail chain or a limited number of retail chains and only provide a variety of products needed by the retail operation(s). These wholesalers may obtain the products from a wide range of manufacturers. Still other wholesalers may not take title to the goods, but act as agents and brokers for a commission.

Although wholesaling normally denotes sales in large volumes, durable nonconsumer goods may be sold in single units. Sales of capital or durable nonconsumer goods used in the production of goods and services, such as farm machinery, medium and heavy duty trucks, and industrial machinery, are always included in wholesale trade.

44-45 RETAIL TRADE

The Retail Trade sector comprises establishments engaged in retailing merchandise, generally without transformation, and rendering services incidental to the sale of merchandise.

The retailing process is the final step in the distribution of merchandise; retailers are, therefore, organized to sell merchandise in small quantities to the general public. This sector comprises two main types of retailers: **store** and **nonstore retailers**.

Store retailers operate fixed point-of-sale locations, located and designed to attract a high volume of walk-in customers. In general, retail stores have extensive displays of merchandise and use mass-media advertising to attract customers. They typically sell merchandise to the general public for personal or household consumption, but some also serve business and institutional clients. These include establishments, such as office supply stores, computer and software stores, building materials dealers, plumbing supply stores, and electrical supply stores. Catalog showrooms, gasoline service stations, automotive dealers, and mobile home dealers are treated as store retailers.

In addition to retailing merchandise, some types of store retailers are also engaged in the provision of after-sales services, such as repair and installation. For example, new automobile dealers, electronics and appliance stores, and musical instrument and supplies stores often provide repair services. As a general rule, establishments engaged in retailing merchandise and providing after-sales services are classified in this sector.

The first eleven subsectors of retail trade are store retailers. The establishments are grouped into industries and industry groups typically based on one or more of the following criteria:

1. The merchandise line or lines carried by the store; for example, specialty stores are distinguished from general-line stores.
2. The usual trade designation of the establishments. This criterion applies in cases where a store type is well recognized by the industry and the public, but difficult to define strictly in terms of merchandise lines carried; for example, pharmacies, hardware stores, and department stores.
3. Capital requirements in terms of display equipment; for example, food stores have equipment requirements not found in other retail industries.
4. Human resource requirements in terms of expertise; for example, the staff of an automobile dealer requires knowledge in financing, registering, and licensing issues that are not necessary in other retail industries.

Nonstore retailers, like store retailers, are organized to serve the general public, but their retailing methods differ. The establishments of this subsector reach customers and market merchandise with methods, such as the broadcasting of "infomercials," the broadcasting and publishing of direct-response advertising, the publishing of paper and electronic catalogs, door-to-door solicitation, in-home demonstration, selling from portable stalls (street vendors, except food), and distribution through vending machines. Establishments engaged in the direct sale (nonstore) of products, such as home heating oil dealers and home delivery newspaper routes are included here.

The buying of goods for resale is a characteristic of retail trade establishments that particularly distinguishes them from establishments in the agriculture, manufacturing, and construction industries. For example, farms that sell their products at or from the point of production are not classified in retail, but rather in agriculture. Similarly, establishments that both manufacture and sell their products to the general public are not classified in retail, but rather in manufacturing. However, establishments that engage in processing activities incidental to retailing are classified in retail. This includes establishments, such as optical goods stores that do in-store grinding of lenses, and meat and seafood markets.

Wholesalers also engage in the buying of goods for resale, but they are not usually organized to serve the general public. They typically operate from a warehouse or office and neither the design nor the location of these premises is intended to solicit a high volume of walk-in traffic. Wholesalers supply institutional, industrial, wholesale, and retail clients; their operations are, therefore, generally organized to purchase, sell, and deliver merchandise in larger quantities. However, dealers of durable nonconsumer goods, such as farm machinery and heavy duty trucks, are included in wholesale trade even if they often sell these products in single units.

48-49 TRANSPORTATION AND WAREHOUSING

The Transportation and Warehousing sector includes industries providing transportation of passengers and cargo, warehousing and storage for goods, scenic and sightseeing transportation, and support activities related to modes of transportation. Establishments in these industries use transportation equipment or transportation related facilities as a productive asset. The type of equipment depends on the mode of transportation. The modes of transportation are air, rail, water, road, and pipeline.

The Transportation and Warehousing sector distinguishes three basic types of activities: subsectors for each mode of transportation, a subsector for warehousing and storage, and a subsector for establishments providing support activities for transportation. In addition, there are subsectors for establishments that provide passenger transportation for scenic and sightseeing purposes, postal services, and courier services.

A separate subsector for support activities is established in the sector because, first, support activities for transportation are inherently multimodal, such as freight transportation arrangement, or have multimodal aspects. Secondly, there are production process similarities among the support activity industries.

One of the support activities identified in the support activity subsector is the routine repair and maintenance of transportation equipment (e.g., aircraft at an airport, railroad rolling stock at a railroad terminal, or ships at a harbor or port facility). Such establishments do not perform complete overhauling or rebuilding of transportation equipment (i.e., periodic restoration of transportation equipment to original design specifications) or transportation equipment conversion (i.e., major modification to systems). An establishment that primarily performs factory (or shipyard) overhauls, rebuilding, or conversions of aircraft, railroad rolling stock, or a ship is classified in Subsector 336, Transportation Equipment Manufacturing according to the type of equipment.

Many of the establishments in this sector often operate on networks, with physical facilities, labor forces, and equipment spread over an extensive geographic area.

Warehousing establishments in this sector are distinguished from merchant wholesaling in that the warehouse establishments do not sell the goods.

Excluded from this sector are establishments primarily engaged in providing travel agent services that support transportation and other establishments, such as hotels, businesses, and government agencies. These establishments are classified in Sector 56, Administrative and Support, Waste Management, and Remediation Services. Also, establishments primarily engaged in providing rental and leasing of transportation equipment without operator are classified in Subsector 532, Rental and Leasing Services.

51 INFORMATION

The Information sector comprises establishments engaged in the following processes: (a) producing and distributing information and cultural products, (b) providing the means to transmit or distribute these products as well as data or communications, and (c) processing data.

The main components of this sector are the publishing industries, including software publishing, and both traditional publishing and publishing exclusively on the Internet; the motion picture and sound recording industries; the broadcasting industries, including traditional broadcasting and those broadcasting exclusively over the Internet; the telecommunications industries; the industries known as Internet service providers and Web search portals, data processing industries and the information services industries.

The expressions “information age” and “global information economy” are used with considerable frequency today. The general idea of an “information economy” includes both the notion of industries primarily producing, processing, and distributing information, as well as the idea that every industry is using available information and information technology to reorganize and make themselves more productive.

For the purpose of developing NAICS, it is the transformation of information into a commodity that is produced and distributed by a number of growing industries that is at issue. The Information sector groups three types of establishments: (1) those engaged in producing and distributing information and cultural products; (2) those that provide the means to transmit or distribute these products as well as data or communications; and (3) those that process data. Cultural products are those that directly express attitudes, opinions, ideas, values, and artistic creativity; provide entertainment; or offer information and analysis concerning the past and present. Included in this definition are popular, mass-produced, products as well as cultural products that normally have a more limited audience, such as poetry books, literary magazines, or classical records.

The unique characteristics of information and cultural products, and of the processes involved in their production and distribution, distinguish the Information sector from the goods-producing and service-producing sectors. Some of these characteristics are:

1. Unlike traditional goods, an “information or cultural product,” such as a newspaper on-line or television program, does not necessarily have tangible qualities, nor is it necessarily associated with a particular form. A movie can be shown at a movie theater, on a television broadcast, through video-on-demand or rented at a local video store. A sound recording can be aired on radio, embedded in multimedia products, or sold at a record store.
2. Unlike traditional services, the delivery of these products does not require direct contact between the supplier and the consumer.
3. The value of these products to the consumer lies in their informational, educational, cultural, or entertainment content, not in the format in which they are distributed. Most of these products are protected from unlawful reproduction by copyright laws.
4. The intangible property aspect of information and cultural products makes the processes involved in their production and distribution very different from goods and services. Only those possessing the rights to these works are authorized to reproduce, alter, improve, and distribute them. Acquiring and using these rights often involves significant costs. In addition, technology is revolutionizing the distribution of these products. It is possible to distribute them in a physical form, via broadcast, or on-line.
5. Distributors of information and cultural products can easily add value to the products they distribute. For instance, broadcasters add advertising not contained in the original product. This capacity means that unlike traditional distributors, they derive revenue not from sale of the distributed product to the final consumer, but from those who pay for the privilege of adding information to the original product. Similarly, a directory and mailing list publisher can acquire the rights to thousands of previously published newspaper and periodical articles and add new value by providing search and software and organizing the information in a way that facilitates research and retrieval. These products often command a much higher price than the original information.

The distribution modes for information commodities may either eliminate the necessity for traditional manufacture, or reverse the conventional order of manufacture-distribute: A newspaper distributed on-line, for example, can be printed locally or by the final consumer. Similarly, it is anticipated that packaged software, which today is mainly bought through the traditional retail channels, will soon be available mainly on-line. The NAICS Information sector is designed to make such economic changes transparent as they occur, or to facilitate designing surveys that will monitor the new phenomena and provide data to analyze the changes.

Many of the industries in the NAICS Information sector are engaged in producing products protected by copyright law, or in distributing them (other than distribution by traditional wholesale and retail methods). Examples are traditional publishing industries, software and directory and mailing list publishing industries, and film and sound industries. Broadcasting and telecommunications industries and information providers and processors are also included in the Information sector, because their technologies are so closely linked to other industries in the Information sector.

52 FINANCE AND INSURANCE

The Finance and Insurance sector comprises establishments primarily engaged in financial transactions (transactions involving the creation, liquidation, or change in ownership of financial assets) and/or in facilitating financial transactions. Three principal types of activities are identified:

1. Raising funds by taking deposits and/or issuing securities and, in the process, incurring liabilities. Establishments engaged in this activity use raised funds to acquire financial assets by making loans and/or purchasing securities. Putting themselves at risk, they channel funds from lenders to borrowers and transform or repackage the funds with respect to maturity, scale and risk. This activity is known as financial intermediation.
2. Pooling of risk by underwriting insurance and annuities. Establishments engaged in this activity collect fees, insurance premiums, or annuity considerations; build up reserves; invest those reserves; and make contractual payments. Fees are based on the expected incidence of the insured risk and the expected return on investment.
3. Providing specialized services facilitating or supporting financial intermediation, insurance, and employee benefit programs.

In addition, monetary authorities charged with monetary control are included in this sector.

The subsectors, industry groups, and industries within the NAICS Finance and Insurance sector are defined on the basis of their unique production processes. As with all industries, the production processes are distinguished by their use of specialized human resources and specialized physical capital. In addition, the way in which these establishments acquire and allocate financial capital, their source of funds, and the use of those funds provides a third basis for distinguishing characteristics of the production process. For instance, the production process in raising funds through deposit-taking is different from the process of raising funds in bond or money markets. The process of making loans to individuals also requires different production processes than does the creation of investment pools or the underwriting of securities.

Most of the Finance and Insurance subsectors contain one or more industry groups of (1) intermediaries with similar patterns of raising and using funds and (2) establishments engaged in activities that facilitate, or are otherwise related to, that type of financial or insurance intermediation. Industries within this sector are defined in terms of activities for which a production process can be specified, and many of these activities are not exclusive to a particular type of financial institution. To deal with the varied activities taking place within existing financial institutions, the approach is to split these institutions into components performing specialized services. This requires defining the units engaged in providing those services and developing procedures that allow for their delineation. These units are the equivalents for finance and insurance of the establishments defined for other industries.

The output of many financial services, as well as the inputs and the processes by which they are combined, cannot be observed at a single location and can only be defined at a higher level of the organizational structure of the enterprise. Additionally, a number of independent activities that represent separate and distinct production processes may take place at a single location belonging to a multilocation financial firm. Activities are more likely to be homogeneous with respect to production characteristics than are locations, at least in financial services. The classification defines activities broadly enough that it can be used both by those classifying by location and by those employing a more top-down approach to the delineation of the establishment.

Establishments engaged in activities that facilitate, or are otherwise related to, the various types of intermediation have been included in individual subsectors, rather than in a separate subsector dedicated to services alone because these services are performed by intermediaries, as well as by specialist establishments, and the extent to which the activity of the intermediaries can be separately identified is not clear.

The Finance and Insurance sector has been defined to encompass establishments primarily engaged in financial transactions; that is, transactions involving the creation, liquidation, or change in ownership of financial assets or in facilitating financial transactions. Financial industries

are extensive users of electronic means for facilitating the verification of financial balances, authorizing transactions, transferring funds to and from transactors' accounts, notifying banks (or credit card issuers) of the individual transactions, and providing daily summaries. Since these transaction processing activities are integral to the production of finance and insurance services, establishments that principally provide a financial transaction processing service are classified to this sector, rather than to the data processing industry in the Information sector.

Legal entities that hold portfolios of assets on behalf of others are significant and data on them are required for a variety of purposes. Thus for NAICS, these funds, trusts, and other financial vehicles are the fifth subsector of the Finance and Insurance sector. These entities earn interest, dividends, and other property income, but have little or no employment and no revenue from the sale of services. Separate establishments and employees devoted to the management of funds are classified in Industry Group 5239, Other Financial Investment Activities.

53 REAL ESTATE AND RENTAL AND LEASING

The Real Estate and Rental and Leasing sector comprises establishments primarily engaged in renting, leasing, or otherwise allowing the use of tangible or intangible assets, and establishments providing related services. The major portion of this sector comprises establishments that rent, lease, or otherwise allow the use of their own assets by others. The assets may be tangible, as is the case of real estate and equipment, or intangible, as is the case with patents and trademarks.

This sector also includes establishments primarily engaged in managing real estate for others, selling, renting and/or buying real estate for others, and appraising real estate. These activities are closely related to this sector's main activity, and it was felt that from a production basis they would best be included here. In addition, a substantial proportion of property management is self-performed by lessors.

The main components of this sector are the real estate lessors industries; equipment lessors industries (including motor vehicles, computers, and consumer goods); and lessors of nonfinancial intangible assets (except copyrighted works).

Excluded from this sector are real estate investment trusts (REITS) and establishments primarily engaged in renting or leasing equipment with operators. REITS are classified in Subsector 525, Funds, Trusts, and Other Financial Vehicles, because they are considered investment vehicles. Establishments renting or leasing equipment with operators are classified in various subsectors of NAICS depending on the nature of the services provided (e.g., transportation, construction, agriculture). These activities are excluded from this sector because the client is paying for the expertise and knowledge of the equipment operator, in addition to the rental of the equipment. In many cases, such as the rental of heavy construction equipment, the operator is essential to operate the equipment.

54 PROFESSIONAL, SCIENTIFIC, AND TECHNICAL SERVICES

The Professional, Scientific, and Technical Services sector comprises establishments that specialize in performing professional, scientific, and technical activities for others. These activities require a high degree of expertise and training. The establishments in this sector specialize according to expertise and provide these services to clients in a variety of industries and, in some cases, to households. Activities performed include: legal advice and representation; accounting, bookkeeping, and payroll services; architectural, engineering, and specialized design services; computer services; consulting services; research services; advertising services; photographic services; translation and interpretation services; veterinary services; and other professional, scientific, and technical services.

This sector excludes establishments primarily engaged in providing a range of day-to-day office administrative services, such as financial planning, billing and record keeping, personnel, and physical distribution and logistics. These establishments are classified in Sector 56, Administrative and Support and Waste Management and Remediation Services.

55 MANAGEMENT OF COMPANIES AND ENTERPRISES

The Management of Companies and Enterprises sector comprises (1) establishments that hold the securities of (or other equity interests in) companies and enterprises for the purpose of owning a controlling interest or influencing management decisions or (2) establishments (except government establishments) that administer, oversee, and manage establishments of the company or enterprise and that normally undertake the strategic or organizational planning and decision making role of the company or enterprise. Establishments that administer, oversee, and manage may hold the securities of the company or enterprise.

Establishments in this sector perform essential activities that are often undertaken, in-house, by establishments in many sectors of the economy. By consolidating the performance of these activities of the enterprise at one establishment, economies of scale are achieved.

Government establishments primarily engaged in administering, overseeing, and managing governmental programs are classified in Sector 92, Public Administration. Establishments primarily engaged in providing a range of day-to-day office administrative services, such as financial planning, billing and record keeping, personnel, and physical distribution and logistics are classified in Industry 56111, Office Administrative Services.

56 ADMINISTRATIVE AND SUPPORT AND WASTE MANAGEMENT AND REMEDIATION SERVICES

The Administrative and Support and Waste Management and Remediation Services sector comprises establishments performing routine support activities for the day-to-day operations of other organizations. These essential activities are often undertaken in-house by establishments in many sectors of the economy. The establishments in this sector specialize in one or more of these support activities and provide these services to clients in a variety of industries and, in some cases, to households. Activities performed include: office administration, hiring and placing of personnel, document preparation and similar clerical services, solicitation, collection, security and surveillance services, cleaning, and waste disposal services.

The administrative and management activities performed by establishments in this sector are typically on a contract or fee basis. These activities may also be performed by establishments that are part of the company or enterprise. However, establishments involved in administering, overseeing, and managing other establishments of the company or enterprise, are classified in Sector 55, Management of Companies and Enterprises. These establishments normally undertake the strategic and organizational planning and decision making role of the company or enterprise. Government establishments engaged in administering, overseeing, and managing governmental programs are classified in Sector 92, Public Administration.

61 EDUCATIONAL SERVICES

The Educational Services sector comprises establishments that provide instruction and training in a wide variety of subjects. This instruction and training is provided by specialized establishments, such as schools, colleges, universities, and training centers. These establishments may be privately owned and operated for profit or not for profit, or they may be publicly owned and operated. They may also offer food and accommodation services to their students.

Educational services are usually delivered by teachers or instructors that explain, tell, demonstrate, supervise, and direct learning. Instruction is imparted in diverse settings, such as educational institutions, the workplace, or the home through correspondence, television, or other means. It can be adapted to the particular needs of the students, for example sign language can replace verbal language for teaching students with hearing impairments. All industries in the sector share this commonality of process, namely, labor inputs of instructors with the requisite subject matter expertise and teaching ability.

62 HEALTH CARE AND SOCIAL ASSISTANCE

The Health Care and Social Assistance sector comprises establishments providing health care and social assistance for individuals. The sector includes both health care and social assistance because it is sometimes difficult to distinguish between the boundaries of these two activities.

The industries in this sector are arranged on a continuum starting with those establishments providing medical care exclusively, continuing with those providing health care and social assistance, and finally finishing with those providing only social assistance. The services provided by establishments in this sector are delivered by trained professionals. All industries in the sector share this commonality of process, namely, labor inputs of health practitioners or social workers with the requisite expertise. Many of the industries in the sector are defined based on the educational degree held by the practitioners included in the industry.

Excluded from this sector are aerobic classes in Subsector 713, Amusement, Gambling and Recreation Industries, and nonmedical diet and weight reducing centers in Subsector 812, Personal and Laundry Services. Although these can be viewed as health services, these services are not typically delivered by health practitioners.

71 ARTS, ENTERTAINMENT, AND RECREATION

The Arts, Entertainment, and Recreation sector includes a wide range of establishments that operate facilities or provide services to meet varied cultural, entertainment, and recreational interests of their patrons. This sector comprises: (1) establishments that are involved in producing, promoting, or participating in live performances, events, or exhibits intended for public viewing; (2) establishments that preserve and exhibit objects and sites of historical, cultural, or educational interest; and (3) establishments that operate facilities or provide services that enable patrons to participate in recreational activities or pursue amusement, hobby, and leisure time interests.

Some establishments that provide cultural, entertainment, or recreational facilities and services are classified in other sectors. Excluded from this sector are: (1) establishments that provide both accommodations and recreational facilities, such as hunting and fishing camps and resort and casino hotels, are classified in Subsector 721, Accommodation; (2) restaurants and night clubs that provide live entertainment in addition to the sale of food and beverages are classified in Subsector 722, Food Services and Drinking Places; (3) motion picture theaters, libraries and archives, and publishers of newspapers, magazines, books, periodicals, and computer software are classified in Sector 51, Information; and (4) establishments using transportation equipment to provide recreational and entertainment services, such as those operating sightseeing buses, dinner cruises, or helicopter rides, are classified in Subsector 487, Scenic and Sightseeing Transportation.

72 ACCOMMODATION AND FOOD SERVICES

The Accommodation and Food Services sector comprises establishments providing customers with lodging and/or preparing meals, snacks, and beverages for immediate consumption. The sector includes both accommodation and food services establishments because the two activities are often combined at the same establishment.

Excluded from this sector are civic and social organizations; amusement and recreation parks; theaters; and other recreation or entertainment facilities providing food and beverage services.

81 OTHER SERVICES (EXCEPT PUBLIC ADMINISTRATION)

The Other Services (except Public Administration) sector comprises establishments engaged in providing services not specifically provided for elsewhere in the classification system. Establishments in this sector are primarily engaged in activities such as equipment and machinery repairing, promoting or administering religious activities, grantmaking, advocacy, and providing dry-cleaning and laundry services, personal care services, death care services, pet care services, photofinishing services, temporary parking services, and dating services.

Private households that engage in employing workers on or about the premises in activities primarily concerned with the operation of the household are included in this sector.

Excluded from this sector are establishments primarily engaged in retailing new equipment and also performing repairs and general maintenance on equipment. These establishments are classified in Sector 44-45, Retail Trade.

99 INDUSTRIES NOT CLASSIFIED

This sector comprises establishments where no NAICS coding information is available.

Appendix C.

Methodology

SOURCES OF THE DATA

The 2002 Survey of Business Owners (SBO) was conducted by mail. One of two census forms was mailed to a random sample of businesses selected from a list of all firms operating during 2002 with receipts of \$1,000 or more, except those classified in the following NAICS industries:

- crop and animal production (NAICS 111, 112)
- scheduled air transportation (NAICS 4811, part)
- rail transportation (NAICS 482)
- postal service (NAICS 491)
- funds, trusts, and other financial vehicles (NAICS 525), except real estate investment trusts (NAICS 525930)
- religious, grantmaking, civic, professional, and similar organizations (NAICS 813)
- private households (NAICS 814), and
- public administration (NAICS 92).

The lists of all firms (or universe) are compiled from a combination of business tax returns and data collected on other economic census reports. The Census Bureau obtains electronic files from the Internal Revenue Service (IRS) for all companies filing IRS Form 1040, Schedule C (individual proprietorship or self-employed person); 1065 (partnership); any one of the 1120 corporation tax forms; and 941 (Employer's Quarterly Federal Tax Return). The IRS provides certain identification, classification, and measurement data for businesses filing those forms.

For most firms with paid employees, the Census Bureau also collected employment, payroll, receipts, and kind of business for each plant, store, or physical location during the 2002 Economic Census.

The report forms used to collect information are available at www.census.gov/csd/sbo/index.html.

The SBO is conducted on a company or firm basis rather than an establishment basis. A company or firm is a business consisting of one or more domestic establishments that the reporting firm specified under its ownership or control at the end of 2002. Firms were instructed to return their completed report form by mail. Two report form remails were conducted at one-month intervals to all delinquent respondents. A telephone follow-up was conducted to obtain a subset of information from selected firms that failed to return their report form. The returned forms underwent extensive review and computer processing. All reports were geographically coded, data-keyed, and edited. The editing process identified records with significant problems and firms were contacted for correction resolution. Corrections were performed interactively using standard procedures.

The data were then tabulated by NAICS, subjected to further data analysis, and the resulting corrections applied to individual computer records. Corrected tabulations were then produced for the final published reports.

A more detailed examination of census methodology is presented in the *History of the 2002 Economic Census* at www.census.gov/econ/www/history.html.

INDUSTRY CLASSIFICATION OF FIRMS

The classification for all establishments are based on the *North American Industry Classification System, United States, 2002*, manual. The kind-of-business or industry classification codes for the SBO are obtained from the 2002 Economic Census. More information on the industry classification codes is included in the Industry Classifications and Relationship to Historical Industry Classifications sections in the introductory text.

SAMPLING AND ESTIMATION METHODOLOGIES

Sampling. To design the 2002 SBO sample, the Census Bureau used the following sources of information to estimate the probability that a business was minority- or women-owned:

- Administrative data from the Social Security Administration.
- Lists of minority- and women-owned businesses published in syndicated magazines, located on the Internet, or disseminated by trade or special interest groups.
- Word strings in the company name indicating possible minority ownership (derived from 1997 survey responses).
- Racial distributions for various state-industry classes (derived from 1997 survey responses) and racial distributions for various ZIP Codes.
- Gender, race, and Hispanic or Latino origin responses of a single-owner business to an SBO previous survey or to the 2000 Decennial Census.

These probabilities were then used to place each firm in the SBO universe in one of nine frames for sampling:

- American Indian
- Asian
- Black or African American
- Hispanic
- Non-Hispanic white men
- Native Hawaiian and Other Pacific Islander
- Other (a different race was supplied as a write-in to another source)
- Publicly owned
- Women

The SBO universe was stratified by state, industry, frame, and whether the company had paid employees in 2002. The Census Bureau selected large companies, including those operating in more than one state, with certainty. These companies were selected based on volume of sales, payroll, or number of paid employees. All certainty cases were sure to be selected and represented only themselves (i.e., had a selection probability of one and a sampling weight of one). The certainty cutoffs varied by sampling stratum, and each stratum was sampled at varying rates, depending on the number of firms in a particular industry in a particular state. The remaining universe was subjected to stratified systematic random sampling.

A firm selected into the sample was mailed one of two questionnaires. The Census Bureau sent the SBO-1 questionnaire to partnerships and corporations. The businesses were asked to report the percentage of ownership, gender, Hispanic or Latino origin, race, and several characteristic questions (e.g., age, education level) for each of the three largest percentage owners. The SBO-2 questionnaire was used for sole proprietors and self-employed individuals. The businesses were asked essentially the same information as asked on the SBO-1, but limited to two owners.

Treatment of Nonresponse. Approximately 81 percent of the 2.3 million businesses in the SBO sample responded to the survey. Data from the 1997 survey were used for businesses in both the 1997 and 2002 samples. For the remaining nonrespondents, gender, Hispanic or Latino origin, and race were imputed from donor respondents with similar characteristics (state, industry, employment status, size, and sampling frame).

Tabulation. Business ownership is defined as having 51 percent or more of the stock or equity in the business and is categorized by:

- Gender: Male; Female; or Equally Male-/Female-Owned
- Ethnicity: Hispanic or Latino Origin; Not Hispanic or Latino Origin
- Race: White; Black or African American; American Indian or Alaska Native; Asian; Native Hawaiian or Other Pacific Islander

Firms equally male-/female-owned were counted and tabulated as a separate category.

Businesses could be tabulated in more than one racial group. This can result because:

- a. the sole owner reported more than one race;
- b. the majority owner reported more than one race;
- c. a majority combination of owners reported more than one race.

The detail may not add to the total or subgroup total because a Hispanic or Latino firm may be of any race, and because a firm could be tabulated in more than one racial group. For example, if a firm responded as both Chinese and Black majority owned, the firm would be included in the detailed Asian and Black estimates, but would only be counted once toward the higher level all firms' estimates.

The sum of the detailed Hispanic or Latino origin may not add to the total because no one Hispanic subgroup (i.e., Mexican, Puerto Rican, Cuban, or Other Spanish/Hispanic/Latino) owned a majority of the firm, but a combination of these subgroups did own a majority. For example, if a firm had two owners each with equal ownership, one responding Puerto Rican and the other responding Cuban, there is no one subgroup with a majority ownership, but the firm is Hispanic-owned. This firm would be tabulated in the Hispanic or Latino estimate, but would not appear in any of the subgroup estimates.

Also, the subgroup detail for both Asians and Native Hawaiians and Other Pacific Islanders may not add to the total for similar reasons as explained above.

For the tabulations by gender, Hispanic or Latino origin, and race, the data for each firm in the SBO sample were weighted by the reciprocal of the firm's probability of selection.

RELIABILITY OF ESTIMATES

The figures shown in this report are, in part, estimated from a sample and will differ from the figures which would have been obtained from a complete census. Two types of possible errors are associated with estimates based on data from sample surveys: sampling errors and nonsampling errors. The accuracy of a survey result depends not only on the sampling errors and nonsampling errors measured, but also on the nonsampling errors not explicitly measured. For particular estimates, the total error may considerably exceed the measured errors. The following is a description of the sampling and nonsampling errors associated with this tabulation.

Sampling variability. The particular sample used for this survey is one of a large number of all possible samples of the same size that could have been selected using the same sample design. Estimates derived from the different samples would differ from each other. The relative standard error is a measure of the variability among the estimates from all possible samples. The estimated relative standard errors presented in the tables estimate the sampling variability, and thus measure the precision with which an estimate from the particular sample selected for this survey

approximates the average result of all possible samples. Relative standard errors are applicable only to those published cells in which sample cases are tabulated. A relative standard error is an expression of the standard error as a percent of the quantity being estimated.

The sample estimate and an estimate of its relative standard error can be used to estimate the standard error and then construct interval estimates with a prescribed level of confidence that the interval includes the average results of all samples. To illustrate, if all possible samples were surveyed under essentially the same condition, and estimates calculated from each sample, then:

1. Approximately 68 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the average value of all possible samples.
2. Approximately 90 percent of the intervals from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate would include the average value of all possible samples.

Thus, for a particular sample, one can say with specified confidence that the average of all possible samples is included in the constructed interval.

Example of a confidence interval. Suppose the estimate is 51,707 and the estimated relative standard error is 2 percent. The standard error is then 2 percent of 51,707 or 1,034. An approximate 90-percent confidence interval is found by first multiplying the standard error by 1.6 and then adding and subtracting that result from the estimate to obtain the upper and lower bounds. Since $1.6 \times 1,034 = 1,654$, the confidence interval in this example is $51,707 \pm 1,654$ or the range 50,053 to 53,361.

Nonsampling errors. All surveys and censuses are subject to nonsampling errors. Nonsampling errors are attributable to many sources, including the inability to obtain information for all cases in the universe, imputation for missing data, data errors and biases, mistakes in recording or keying data, errors in collection or processing, and coverage problems.

Explicit measures of the effects of these nonsampling errors are not available. However, it is believed that most of the important operational and data errors were detected and corrected through an automated data edit designed to review the data for reasonableness and consistency. Quality control techniques were used to verify that operating procedures were carried out as specified.

COMPARABILITY OF THE 2002 AND 1997 SBO DATA

The following changes were made in survey methodology in 2002 which affect comparability with past reports:

1. The 1997 Surveys of Minority- and Women-Owned Business Enterprises (SMOBE/SWOBE) form that was mailed to sole proprietors or self-employed individuals who were single filers or who filed joint tax returns instructed the respondent to mark one box that best described the gender, Spanish/Hispanic/Latino origin, and race of the primary owner(s). The gender question included an equal male/female ownership option. The 2002 SBO form that was mailed to sole proprietors or self-employed individuals who were single filers or who filed a joint tax return instructed the respondent to provide the percentage of ownership for each owner and the gender of the owner(s). The equal male/female ownership option was eliminated.

The form that corporations/partnerships received in 1997 requested the percentage of ownership by gender of the owners. In 2002, a business was asked to report the percentage of ownership and gender for each of the three largest percentage owners.

Male/female ownership of a business in both 1997 and 2002 was based on the gender of the person(s) owning the majority interest in the business. However, in 2002, equally male/female ownership was based on equal shares of interest reported for businesses with male and female owners. Businesses equally male-/female-owned were tabulated and published as a separate entity in both 1997 and 2002.

The 1997 SWOBE/SMOBE forms may be viewed at www.census.gov/epcd/www/pdf/97cs/mb1.pdf (corporations/partnerships) or at www.census.gov/epcd/www/pdf/97cs/mb2.pdf (sole proprietors or self-employed individuals).

The 2002 SBO forms may be viewed at www.census.gov/csd/sbo/sbo1.pdf (corporations/partnerships) or at www.census.gov/csd/sbo/sbo2.pdf (sole proprietors or self-employed individuals).

2. The Hispanic or Latino origin and racial response categories were updated in 2002 to meet the latest Office of Management and Budget (OMB) guidelines. There were nineteen check-box response categories and four write-in areas on the 2002 SBO questionnaire, compared to the twenty check-box response categories and five write-in areas on the 1997 SMOBE/SWOBE.

The Hispanic or Latino origin of business ownership was defined as two groups:

- Hispanic or Latino
- Not Hispanic or Latino

Four Hispanic subgroups were used on the survey questionnaires: Mexican, Mexican American, Chicano; Puerto Rican; Cuban; and Other Spanish/Hispanic/Latino.

The 2002 SBO question on race included fourteen separate response categories and two areas where respondents could write in a more specific race. The response categories and write-in answers were combined to create the following five standard OMB race categories:

- American Indian and Alaska Native
- Asian
- Black or African American
- Native Hawaiian and Other Pacific Islander
- White

Response check boxes were added for “Samoan” and “Guamanian or Chamorro.”

The check box for “Some Other Race” and the corresponding write-in area provided in 1997 were deleted.

If the “American Indian and Alaska Native” race category was selected, the respondent was instructed to print the name of the enrolled or principal tribe.

In 1997, sole proprietors or self-employed individuals who were single filers or who filed a joint tax return were asked to mark a box to indicate the Spanish/Hispanic/Latino origin of the primary owner(s) and to mark the one box that best described the race of the primary owner(s). In 2002, they were asked to provide the percentage of ownership for the primary owner(s), his/her Spanish/Hispanic/Latino origin, and to select one or more race categories to indicate what the owner considers himself/herself to be.

The form that corporations/partnerships received in 1997 requested the percentage of ownership by Spanish/Hispanic/Latino origin and race of the owners. In 2002, a business was asked to report the percentage of ownership, Spanish/Hispanic/Latino origin, and race for each of the three largest owners, allowing them to mark one or more races to indicate what the owner considers himself/herself to be. The 2002 SBO was the first economic census in which each owner could self-identify with more than one racial group, so it was possible for a business to be classified and tabulated in more than one racial group.

Business ownership in both 1997 and 2002 was based on the Hispanic or Latino origin and race of the person(s) owning majority interest in the business; however, in 2002, multiple-race reporting by the owner(s) could affect where a business was classified.

Note: In the 2000 population census, 2.4 percent of the population reported more than one race.

-
3. The Native Hawaiian- and Other Pacific Islander-Owned Firms report is new for 2002. Previously, estimates for this group of business owners were included in the Asian- and Pacific Islander-Owned Firms report for some tables (at the U.S., state, and metropolitan area by kind of business level). However, estimates at the county, place, and size of firm (employment, receipts) levels provided only the total number of businesses classified as Asian- and Pacific Islander-owned, with no detailed estimates by subgroup. Therefore, particular care should be taken in comparing the estimates for Asian-owned firms and/or Native Hawaiian- and Pacific Islander-owned firms from 1997 to 2002.

Appendix D.

Geographic Notes

ALABAMA

Arab is in Cullman and Marshall Counties.

Bayou La Batre is now tabulated separately due to a population increase. This change deletes territory from the Balance of Mobile County.

Birmingham is in Jefferson and Shelby Counties.

Boaz is in Etowah and Marshall Counties.

Calera is in Chilton and Shelby Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Chilton and Shelby Counties.

Centreville is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Bibb County.

Chelsea is now tabulated separately due to a population increase. This change deletes territory from the Balance of Shelby County.

Childersburg is in Shelby and Talladega Counties.

Cordova is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Walker County.

Decatur is in Limestone and Morgan Counties.

Dothan is in Dale, Henry, and Houston Counties.

East Brewton is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Escambia County.

Enterprise is in Coffee and Dale Counties.

Glencoe is in Calhoun and Etowah Counties.

Haleyville is in Marion and Winston Counties.

Helena is in Jefferson and Shelby Counties; it annexed into Jefferson County in March 1996, but this change was not submitted to the Census Bureau until August 1998. This change deletes territory from the Balance of Jefferson County.

Hoover is in Jefferson and Shelby Counties.

Huntsville is in Limestone and Madison Counties.

La Fayette name corrected from Lafayette in August 1999.

Leeds is in Jefferson, St. Clair, and Shelby Counties.

Linden is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Marengo County.

Lipscomb is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Jefferson County.

Madison is in Limestone and Madison Counties.

Millbrook is in Autauga and Elmore Counties; it annexed into Autauga County in February 1999. This change deletes territory from the Balance of Autauga County.

Oxford is in Calhoun and Talladega Counties.

Phenix City is in Lee and Russell Counties.

Piedmont is in Calhoun and Cherokee Counties.

Prattville is in Autauga and Elmore Counties.

Smiths Station incorporated in June 2001. This change deletes territory from the Balance of Lee County.

Southside is in Calhoun and Etowah Counties.

Springville is now tabulated separately due to a population increase. This change deletes territory from the Balance of St. Clair County.

Sumiton is in Jefferson and Walker Counties.

Tallassee is in Elmore and Tallapoosa Counties.

Trussville is in Jefferson and St. Clair Counties.

Vestavia Hills is in Jefferson and Shelby Counties.

Warrior is in Blount and Jefferson Counties; it was erroneously reported in Blount County in April 1997; a correction deleting Warrior from Blount County was reported in 2003 too late to be included in the Economic Census. This change deletes territory from the Balance of Blount County.

Winfield is in Fayette and Marion Counties.

Balance of Autauga County lost territory due to the annexation of Millbrook into the county.

Balance of Bibb County includes Centreville, which is no longer tabulated separately due to a population decrease.

Balance of Blount County lost territory due to the erroneous addition of Warrior in the county; a correction deleting Warrior from the county was reported in 2003 too late to be included in the Economic Census.

Balance of Chilton County no longer includes Calera (part), which is tabulated separately due to a population increase.

Balance of Escambia County includes East Brewton, which is no longer tabulated separately due to a population decrease.

Balance of Jefferson County includes Lipscomb, which is no longer tabulated separately due to a population decrease and lost territory due to the annexation of Helena into the county.

Balance of Lee County lost territory due to the incorporation of Smiths Station.

Balance of Marengo County includes Linden, which is no longer tabulated separately due to a population decrease.

Balance of Mobile County no longer includes Bayou La Batre, which is tabulated separately due to a population increase.

Balance of St. Clair County no longer includes Springville, which is tabulated separately due to a population increase.

Balance of Shelby County no longer includes Calera (part) and Chelsea, which are tabulated separately due to a population increase.

Balance of Walker County includes Cordova, which is no longer tabulated separately due to a population decrease.

ALASKA

Cordova is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Valdez-Cordova Census Area.

Balance of Valdez-Cordova Census Area includes Cordova, which is no longer tabulated separately due to a population decrease.

ARKANSAS

Charleston is now tabulated separately due to a population increase. This change deletes territory from the Balance of Franklin County.

Cherokee Village is in Fulton and Sharp Counties; it incorporated in January 1997. This change deletes territory from the Balances of Fulton and Sharp Counties.

Fairfield Bay is no longer tabulated separately due to a population decrease. This change adds territory to the Balances of Cleburne and Van Buren Counties.

Farmington is now tabulated separately due to a population increase. This change deletes territory from the Balance of Washington County.

Haskell is now tabulated separately due to a population increase. This change deletes territory from the Balance of Saline County.

Little Flock is now tabulated separately due to a population increase. This change deletes territory from the Balance of Benton County.

Prairie Grove is now tabulated separately due to a population increase. This change deletes territory from the Balance of Washington County.

Springdale is in Benton and Washington Counties.

Ward is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lonoke County.

Balance of Benton County no longer includes Little Flock, which is tabulated separately due to a population increase.

Balance of Cleburne County includes Fairfield Bay (part), which is no longer tabulated separately due to a population decrease.

Balance of Franklin County no longer includes Charleston, which is tabulated separately due to a population increase.

Balance of Fulton County lost territory due to the incorporation of Cherokee Village (part).

Balance of Lonoke County no longer includes Ward, which is tabulated separately due to a population increase.

Balance of Saline County no longer includes Haskell, which is tabulated separately due to a population increase.

Balance of Sharp County lost territory due to the incorporation of Cherokee Village (part).

Balance of Van Buren County includes Fairfield Bay (part), which is no longer tabulated separately due to a population decrease.

Balance of Washington County no longer includes Farmington and Prairie Grove, which are tabulated separately due to a population increase.

ARIZONA

Apache Junction is in Maricopa and Pinal Counties.

Carefree is now tabulated separately due to a population increase. This change deletes territory from the Balance of Maricopa County.

Peoria is in Maricopa and Yavapai Counties; it annexed into Yavapai County in July 1999. This change deletes territory from the Balance of Yavapai County.

Quartzsite is now tabulated separately due to a population increase. This change deletes territory from the Balance of La Paz County.

Queen Creek is in Maricopa and Pinal Counties.

Sahuarita is now tabulated separately due to a population increase. This change deletes territory from the Balance of Pima County.

Sedona is in Coconino and Yavapai Counties.

Balance of La Paz County no longer includes Quartzsite, which is tabulated separately due to a population increase.

Balance of Maricopa County no longer includes Carefree, which is tabulated separately due to a population increase.

Balance of Pima County no longer includes Sahuarita, which is tabulated separately due to a population increase.

Balance of Yavapai County lost territory due to the annexation of Peoria into the county.

CALIFORNIA

Aliso Viejo incorporated in July 2001. This change deletes territory from the Balance of Orange County.

Citrus Heights incorporated in January 1997. This change deletes territory from the Balance of Sacramento County.

Elk Grove incorporated in July 2000. This change deletes territory from the Balance of Sacramento County.

Goleta incorporated in October 2001. This change deletes territory from the Balance of Santa Barbara County.

Industry does not qualify as a place for the economic census based on its 2002 population, but is included because of its dense concentration of economic activity.

Laguna Woods incorporated in March 1999. This change deletes territory from the Balance of Orange County.

Moraga name corrected from Moraga Town in April 2000.

Oakley incorporated in July 1999. This change deletes territory from the Balance of Contra Costa County.

Rancho Santa Margarita incorporated in January 2000. This change deletes territory from the Balance of Orange County.

Vernon does not qualify as a place for the economic census based on its 2002 population, but is included because of its dense concentration of economic activity.

Balance of Contra Costa County lost territory due to the incorporation of Oakley.

Balance of Orange County lost territory due to the incorporations of Aliso Viejo, Laguna Woods, and Rancho Santa Margarita.

Balance of Sacramento County lost territory due to the incorporations of Citrus Heights and Elk Grove.

Balance of Santa Barbara County lost territory due to the incorporation of Goleta.

COLORADO

Arvada is in Adams and Jefferson Counties.

Aurora is in Adams, Arapahoe, and Douglas Counties.

Avon is now tabulated separately due to a population increase. This change deletes territory from the Balance of Eagle County.

Basalt is in Eagle and Pitkin Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Eagle and Pitkin Counties.

Berthoud is in Larimer and Weld Counties.

Brighton is in Adams and Weld Counties.

Broomfield is in the new Broomfield County organized in November 2001; it is no longer in Adams, Boulder, Jefferson, and Weld Counties.

Centennial incorporated in February 2001. This change deletes territory from the Balance of Arapahoe County.

Eagle is now tabulated separately due to a population increase. This change deletes territory from the Balance of Eagle County.

Eaton is now tabulated separately due to a population increase. This change deletes territory from the Balance of Weld County.

Erie is in Boulder and Weld Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Boulder and Weld Counties.

Gypsum is now tabulated separately due to a population increase. This change deletes territory from the Balance of Eagle County.

Johnstown is now tabulated separately due to a population increase. This change deletes territory from the Balance of Weld County.

Littleton is in Arapahoe, Douglas, and Jefferson Counties.

Lone Tree incorporated in December 1996, but this change was not submitted to the Census Bureau until August 1997. This change deletes territory from the Balance of Douglas County.

Longmont is in Boulder and Weld Counties.

Milliken is now tabulated separately due to a population increase. This change deletes territory from the Balance of Weld County.

Northglenn is in Adams and Weld Counties.

Palisade is now tabulated separately due to a population increase. This change deletes territory from the Balance of Mesa County.

Superior is in Boulder and Jefferson Counties.

Thornton is in Adams and Weld Counties.

Wellington is now tabulated separately due to a population increase. This change deletes territory from the Balance of Larimer County.

Westminster is in Adams and Jefferson Counties.

Windsor is in Larimer and Weld Counties.

Adams County no longer includes Broomfield (part), which organized as Broomfield County.

Balance of Arapahoe County lost territory due to the incorporation of Centennial.

Balance of Boulder County no longer includes Erie (part), which is tabulated separately due to a population increase; Boulder County no longer includes Broomfield (part), which organized as Broomfield County.

Balance of Douglas County lost territory due to the incorporation of Lone Tree.

Balance of Eagle County no longer includes Avon, Basalt (part), Eagle, and Gypsum, which are tabulated separately due to a population increase.

Balance of Jefferson County no longer includes Broomfield (part), which organized as Broomfield County.

Balance of Larimer County no longer includes Wellington, which is tabulated separately due to a population increase.

Balance of Mesa County no longer includes Palisade, which is tabulated separately due to a population increase.

Balance of Pitkin County no longer includes Basalt (part), which is tabulated separately due to a population increase.

Balance of Weld County no longer includes Eaton, Erie (part), Johnstown, and Milliken, which are tabulated separately due to a population increase; Weld County no longer includes Broomfield (part), which organized as Broomfield County.

CONNECTICUT

All **Balance of Metropolitan Areas (MAs)** shown in 1997 have been converted to Balance of County records.

East Windsor is no longer tabulated separately due to a population decrease. This area is included in the Balance of Hartford County.

Granby is now tabulated separately due to a population increase. It was included in a Balance of MA record in 1997.

Groton town (balance) contains all of Groton except Groton city.

Killingly (balance) contains all of Killingly except Danielson.

Milford (consolidated city) is coextensive with Milford. It includes Woodmont, which is not populous enough for separate tabulation. Therefore, "Milford" refers to the whole consolidated city.

Old Saybrook is now tabulated separately due to a population increase. It was included in a Balance of MA record in 1997.

Somers is now tabulated separately due to a population increase. It was included in a Balance of MA record in 1997.

Weston is now tabulated separately due to a population increase. It was included in a Balance of MA record in 1997.

DELAWARE

Harrington is now tabulated separately due to a population increase. This change deletes territory from the Balance of Kent County.

Milford is in Kent and Sussex Counties.

Smyrna is in Kent and New Castle Counties.

Balance of Kent County no longer includes Harrington, which is tabulated separately due to a population increase.

FLORIDA

Miami-Dade County renamed from Dade County in November 1997.

Apalachicola is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Franklin County.

Blountstown is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Calhoun County.

Bonita Springs incorporated in December 1999. This change deletes territory from the Balance of Lee County.

Bowling Green is now tabulated separately due to a population increase. This change deletes territory from the Balance of Hardee County.

Cedar Grove is now tabulated separately due to a population increase. This change deletes territory from the Balance of Bay County.

Dania Beach name changed from Dania in November 1998. The code for Dania Beach is shown incorrectly as 16325; the correct code is 16335.

Eatonville is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Orange County.

El Portal is now tabulated separately due to a population increase. This change deletes territory from the Balance of Miami-Dade County.

Fellsmere is now tabulated separately due to a population increase. This change deletes territory from the Balance of Indian River County.

Flagler Beach is in Flagler and Volusia Counties; it annexed into Volusia County in October 1996, but this change was not submitted to the Census Bureau until October 1997. This change deletes territory from the Balance of Volusia County.

Fort Myers Beach incorporated in December 1995, but this change was not submitted to the Census Bureau until October 1998. This change deletes territory from the Balance of Lee County.

Graceville is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Jackson County.

Hallandale Beach (28452) name and code changed from Hallandale (28450) in August 1999.

Hilliard is now tabulated separately due to a population increase. This change deletes territory from the Balance of Nassau County.

Indian River Shores is now tabulated separately due to a population increase. This change deletes territory from the Balance of Indian River County.

Islamorada, Village of Islands incorporated in December 1997. This change deletes territory from the Balance of Monroe County.

Jacksonville (35000) was erroneously reported as a consolidated city; name and code changed from Jacksonville (remainder) (35006) in 1998. This change creates a Balance of Duval County, which equals the area of Baldwin.

Jacksonville (remainder) no longer exists; now reported as Jacksonville but no longer includes Baldwin, which is equal to Balance of Duval County.

Juno Beach is now tabulated separately due to a population increase. This change deletes territory from the Balance of Palm Beach County.

LaBelle name corrected from La Belle in April 2000.

Longboat Key is in Manatee and Sarasota Counties.

Malabar is now tabulated separately due to a population increase. This change deletes territory from the Balance of Brevard County.

Marathon incorporated in November 1999. This change deletes territory from the Balance of Monroe County.

Marco Island incorporated in August 1997. This change deletes territory from the Balance of Collier County.

Mascotte is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lake County.

Miami Lakes incorporated in December 2000. This change deletes territory from the Balance of Miami-Dade County.

Minneola is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lake County.

Newberry is now tabulated separately due to a population increase. This change deletes territory from the Balance of Alachua County.

Palm Coast incorporated in December 1999. This change deletes territory from the Balance of Flagler County.

Pinecrest code changed from 56560 to 56625.

Ponce Inlet is now tabulated separately due to a population increase. This change deletes territory from the Balance of Volusia County.

Southwest Ranches incorporated in June 2000. This change deletes territory from the Balance of Broward County.

Sunny Isles Beach incorporated in June 1997. This change deletes territory from the Balance of Miami-Dade County.

Umatilla is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Lake County.

Balance of Alachua County no longer includes Newberry, which is tabulated separately due to a population increase.

Balance of Bay County no longer includes Cedar Grove, which is tabulated separately due to a population increase.

Balance of Brevard County no longer includes Malabar, which is tabulated separately due to a population increase.

Balance of Broward County lost territory due to the incorporation of Southwest Ranches.

Balance of Calhoun County includes Blountstown, which is no longer tabulated separately due to a population decrease.

Balance of Collier County lost territory due to the incorporation of Marco Island.

Balance of Duval County, equal to the area of Baldwin, is the result of the correction eliminating Jacksonville (consolidated city) in 1998.

Balance of Flagler County lost territory due to the incorporation of Palm Coast.

Balance of Franklin County includes Apalachicola, which is no longer tabulated separately due to a population decrease.

Balance of Hardee County no longer includes Bowling Green, which is tabulated separately due to a population increase.

Balance of Indian River County no longer includes Fellsmere and Indian River Shores, which are tabulated separately due to a population increase.

Balance of Jackson County includes Graceville, which is no longer tabulated separately due to a population decrease.

Balance of Lake County includes Umatilla, which is no longer tabulated separately due to a population decrease and no longer includes Mascotte and Minneola, which are tabulated separately due to a population increase.

Balance of Lee County lost territory due to the incorporations of Bonita Springs and Fort Myers Beach.

Balance of Miami-Dade County changed name from Balance of Dade County as a result of county name change in 1997. Balance of Miami-Dade lost territory due to the incorporations of Miami Lakes and Sunny Isles Beach and also no longer includes El Portal, which is tabulated separately due to a population increase.

Balance of Monroe County lost territory due to the incorporations of Islamorada, Village of Islands and Marathon.

Balance of Nassau County no longer includes Hilliard, which is tabulated separately due to a population increase.

Balance of Orange County includes Eatonville, which is no longer tabulated separately due to a population decrease.

Balance of Palm Beach County no longer includes Juno Beach, which is tabulated separately due to a population increase.

Balance of Volusia County lost territory due to the annexation of Flagler Beach into the county and no longer includes Ponce Inlet, which is tabulated separately due to a population increase.

GEORGIA

Adairsville is now tabulated separately due to a population increase. This change deletes territory from the Balance of Bartow County.

Athens-Clarke County (consolidated city) is coextensive with Clarke County. It includes Winterville and Bogart (part in Clarke County), which are not populous enough for separate tabulation. Therefore, "Athens-Clarke County" refers to the whole consolidated city.

Atlanta is in DeKalb and Fulton Counties.

Auburn is in Barrow and Gwinnett Counties.

Augusta-Richmond County (consolidated city) is coextensive with Richmond County. It includes Hephzibah, which is tabulated separately. "Augusta-Richmond County (balance)", which is a place equivalent, includes Blythe (part in Richmond County), which is not populous enough for separate tabulation.

Austell is in Cobb and Douglas Counties.

Avondale Estates is now tabulated separately due to a population increase. This change deletes territory from the Balance of DeKalb County.

Bloomingdale is now tabulated separately due to a population increase. This change deletes territory from the Balance of Chatham County.

Bremen is in Carroll and Haralson Counties.

Buford is in Gwinnett and Hall Counties.

Byron is in Houston and Peach Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Houston and Peach Counties.

Claxton is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Evans County.

College Park is in Clayton and Fulton Counties.

Columbus is no longer a consolidated city, due to the disincorporation of Bibb City in January 2001.

East Dublin is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Laurens County.

Euharlee is now tabulated separately due to a population increase. This change deletes territory from the Balance of Bartow County.

Fitzgerald is in Ben Hill and Irwin Counties.

Folkston is now tabulated separately due to a population increase. This change deletes territory from the Balance of Charlton County.

Fort Oglethorpe is in Catoosa and Walker Counties.

Gordon is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Wilkinson County.

Lithia Springs is incorporated in June 2001. This change adds territory to the Balance of Douglas County.

Locust Grove is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Henry County.

Loganville is in Gwinnett and Walton Counties.

Macon is in Bibb and Jones Counties.

Manchester is in Meriwether and Talbot Counties.

Oakwood is now tabulated separately due to a population increase. This change deletes territory from the Balance of Hall County.

Palmetto is in Coweta and Fulton Counties.

Perry is in Houston and Peach Counties.

Reidsville is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Tattnall County.

Royston is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Franklin County.

Social Circle is in Newton and Walton Counties.

Thunderbolt is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Chatham County.

Unadilla is now tabulated separately due to a population increase. This change deletes territory from the Balance of Dooly County.

Vidalia is in Montgomery and Toombs Counties.

Villa Rica is in Carroll and Douglas Counties.

Walthourville is now tabulated separately due to a population increase. This change deletes territory from the Balance of Liberty County.

Warner Robins is in Houston and Peach Counties; it annexed into Peach County in September 1997. This change deletes territory from the Balance of Peach County.

Waycross is in Pierce and Ware Counties.

West Point is in Harris and Troup Counties.

Balance of Bartow County no longer includes Adairsville and Euharlee, which are tabulated separately due to a population increase.

Balance of Charlton County no longer includes Folkston, which is tabulated separately due to a population increase.

Balance of Chatham County includes Thunderbolt, which is no longer tabulated separately due to a population decrease, and no longer includes Bloomingdale, which is tabulated separately due to a population increase.

Balance of DeKalb County no longer includes Avondale Estates, which is tabulated separately due to a population increase.

Balance of Dooly County no longer includes Unadilla, which is tabulated separately due to a population increase.

Balance of Douglas County gained territory due to the disincorporation of Lithia Springs.

Balance of Evans County includes Claxton, which is no longer tabulated separately due to a population decrease.

Balance of Franklin County includes Royston (part), which is no longer tabulated separately due to a population decrease.

Balance of Hall County no longer includes Oakwood, which is tabulated separately due to a population increase.

Balance of Hart County includes Royston (part), which is no longer tabulated separately due to a population decrease.

Balance of Henry County includes Locust Grove, which is no longer tabulated separately due to a population decrease.

Balance of Houston County no longer includes Byron (part), which is tabulated separately due to a population increase.

Balance of Laurens County includes East Dublin, which is no longer tabulated separately due to a population decrease.

Balance of Liberty County no longer includes Walthourville, which is tabulated separately due to a population increase.

Balance of Madison County includes Royston (part), which is no longer tabulated separately due to a population decrease.

Balance of Peach County lost territory due to the annexation of Warner Robins into the county and no longer includes Byron (part), which is tabulated separately due to a population increase.

Balance of Tattnall County includes Reidsville, which is no longer tabulated separately due to a population decrease.

Balance of Wilkinson County includes Gordon, which is no longer tabulated separately due to a population decrease.

HAWAII

Ewa Gentry CDP is now tabulated separately due to a population increase. This change deletes territory from the Balance of Honolulu County.

Iroquois Point CDP is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Honolulu County.

Island of Lanai code changed from 43700 to 19200.

Island of Molokai (balance) erroneously reported with name Island of Molokai in 1997; the term “(balance)” after the island refers to the portion of the island excluding a CDP recognized for the 2002 Economic Census. Island of Molokai (balance) contains all of the Island of Molokai (including Kalawao County and part of Maui County) except Kaunakakai CDP.

Waikoloa Village CDP is now tabulated separately due to a population increase. This change deletes territory from the Balance of Hawaii County.

Balance of Hawaii County no longer includes Waikoloa Village CDP, which is tabulated separately due to a population increase.

Balance of Honolulu County no longer includes Ewa Gentry CDP, which is tabulated separately due to a population increase, and includes Iroquois Point CDP, which is no longer tabulated separately due to a population decrease.

IDAHO

Bonnors Ferry is now tabulated separately due to a population increase. This change deletes territory from the Balance of Boundary County.

Burley is in Cassia and Minidoka Counties.

Homedale is now tabulated separately due to a population increase. This change deletes territory from the Balance of Owyhee County.

Kellogg is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Shoshone County.

McCall is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Valley County.

Middleton is now tabulated separately due to a population increase. This change deletes territory from the Balance of Canyon County.

Pocatello is in Bannock and Power Counties.

Balance of Boundary County no longer includes Bonnors Ferry, which is tabulated separately due to a population increase.

Balance of Canyon County no longer includes Middleton, which is tabulated separately due to a population increase.

Balance of Owyhee County no longer includes Homedale, which is tabulated separately due to a population increase.

Balance of Shoshone County includes Kellogg, which is no longer tabulated separately due to a population decrease.

Balance of Valley County includes McCall, which is no longer tabulated separately due to a population decrease.

ILLINOIS

Algonquin is in Kane and McHenry Counties.

Amboy is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lee County.

Arlington Heights is in Cook and Lake Counties.

Aurora is in DuPage, Kane, Kendall, and Will Counties.

Barrington is in Cook and Lake Counties.

Barrington Hills is in Cook, Kane, Lake, and McHenry Counties.

Bartlett is in Cook, DuPage, and Kane Counties.

Batavia is in DuPage and Kane Counties.

Bedford Park does not qualify as a place for the economic census based on its 2002 population, but is included because of its dense concentration of economic activity.

Bensenville is in Cook and DuPage Counties.

Bolingbrook is in DuPage and Will Counties.

Buffalo Grove is in Cook and Lake Counties.

Burr Ridge is in Cook and DuPage Counties.

Casey is in Clark and Cumberland Counties.

Centralia is in Clinton, Jefferson, Marion, and Washington Counties; it annexed into Jefferson County in July 1999.

Channahon is in Grundy and Will Counties.

Chicago is in Cook and DuPage Counties.

Coal City is in Grundy and Will Counties.

Coal Valley is in Henry and Rock Island Counties.

Collinsville is in Madison and St. Clair Counties.

Columbia is in Monroe and St. Clair Counties.

Deerfield is in Cook and Lake Counties.

Deer Park is in Cook and Lake Counties; it annexed into Cook County in January 1996, but this change was not submitted to the Census Bureau until September 1998. This change deletes territory from the Balance of Cook County.

Dwight is in Grundy and Livingston Counties.

East Dundee is in Cook and Kane Counties.

Elburn is now tabulated separately due to a population increase. This change deletes territory from the Balance of Kane County.

Elgin is in Cook and Kane Counties.

Elk Grove Village is in Cook and DuPage Counties.

Elmhurst is in Cook and DuPage Counties.

El Paso is in McLean and Woodford Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of McLean and Woodford Counties.

Fox Lake is in Lake and McHenry Counties.

Fox River Grove is in Lake and McHenry Counties.

Frankfort is in Cook and Will Counties; it annexed into Cook County in December 1997. This change deletes territory from the Balance of Cook County.

Green Oaks is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lake County.

Hampshire is now tabulated separately due to a population increase. This change deletes territory from the Balance of Kane County.

Hanover Park is in Cook and DuPage Counties.

Hinsdale is in Cook and DuPage Counties.

Hoffman Estates is in Cook and Kane Counties.

Homer Glen incorporated in April 2001. This change deletes territory from the Balance of Will County.

Huntley is in Kane and McHenry Counties.

Island Lake is in Lake and McHenry Counties.

Joliet is in Kendall and Will Counties.

Lakemoor is in Lake and McHenry Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Lake and McHenry Counties.

LaSalle name corrected from La Salle in June 2002.

Lemont is in Cook, DuPage, and Will Counties.

Loves Park is in Boone and Winnebago Counties; it annexed into Boone County in March 1996, but this change was not submitted to the Census Bureau until November 1997. This change deletes territory from the Balance of Boone County.

Madison is in Madison and St. Clair Counties.

Marion is in Johnson and Williamson Counties.

Matteson is in Cook and Will Counties.

Minooka is in Grundy, Kendall, and Will Counties; it annexed into Kendall County in April 1999. This change deletes territory from the Balance of Kendall County.

Monee is now tabulated separately due to a population increase. This change deletes territory from the Balance of Will County.

Montgomery is in Kane and Kendall Counties.

Naperville is in DuPage and Will Counties.

New Baden is in Clinton and St. Clair Counties.

Nokomis is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Montgomery County.

North Barrington is now tabulated separately due to a population increase. This change deletes territory from the Balance of Lake County.

Oak Brook is in Cook and DuPage Counties.

Orland Park is in Cook and Will Counties.

Park Forest is in Cook and Will Counties.

Pawnee is now tabulated separately due to a population increase. This change deletes territory from the Balance of Sangamon County.

Pekin is in Peoria and Tazewell Counties.

Alleghany County includes Clifton Forge, which changed from an independent city to a town in July 2001.

Balance of Carroll County no longer includes Hillsville, which is tabulated separately due to a population increase.

Balance of Giles County no longer includes Pearisburg, which is tabulated separately due to a population increase.

Balance of Loudoun County no longer includes Purcellville, which is tabulated separately due to a population increase.

Balance of Russell County gained territory due to the disincorporation of Castlewood.

WASHINGTON

Auburn is in King and Pierce Counties; it annexed into Pierce County in May 1998. This change deletes territory from the Balance of Pierce County.

Benton City is now tabulated separately due to a population increase. This change deletes territory from the Balance of Benton County.

Black Diamond is now tabulated separately due to a population increase. This change deletes territory from the Balance of King County.

Bothell is in King and Snohomish Counties.

Covington incorporated in May 1997. This change deletes territory from the Balance of King County.

Enumclaw is in King and Pierce Counties.

Granger is now tabulated separately due to a population increase. This change deletes territory from the Balance of Yakima County.

Kenmore incorporated in August 1998. This change deletes territory from the Balance of King County.

Liberty Lake is now tabulated separately due to a population increase. This change deletes territory from the Balance of Spokane County.

Maple Valley is now tabulated separately due to a population increase. This change deletes territory from the Balance of King County.

Mattawa is now tabulated separately due to a population increase. This change deletes territory from the Balance of Grant County.

Milton is in King and Pierce Counties.

Okanogan is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Okanogan County.

Pacific is in King and Pierce Counties.

Sammamish incorporated in August 1999. This change deletes territory from the Balance of King County.

Warden is now tabulated separately due to a population increase. This change deletes territory from the Balance of Grant County.

Woodland is in Clark and Cowlitz Counties.

Yelm is now tabulated separately due to a population increase. This change deletes territory from the Balance of Thurston County.

Balance of Benton County no longer includes Benton City, which is tabulated separately due to a population increase.

Balance of Grant County no longer includes Mattawa and Warden, which are tabulated separately due to a population increase.

Balance of King County lost territory due to the incorporations of Covington, Kenmore, and Sammamish and no longer includes Black Diamond and Maple Valley, which are tabulated separately due to a population increase.

Balance of Okanogan County includes Okanogan, which is no longer tabulated separately due to a population decrease.

Balance of Pierce County lost territory due to the annexation of Auburn into the county.

Balance of Spokane County no longer includes Liberty Lake, which is tabulated separately due to a population increase.

Balance of Thurston County no longer includes Yelm, which is tabulated separately due to a population increase.

Balance of Yakima County no longer includes Granger, which is tabulated separately due to a population increase.

WEST VIRGINIA

Fayetteville is now tabulated separately due to a population increase. This change deletes territory from the Balance of Fayette County.

Huntington is in Cabell and Wayne Counties.

Nitro is in Kanawha and Putnam Counties.

Paden City is in Tyler and Wetzel Counties.

Petersburg is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Grant County.

Pleasant Valley incorporated in July 1996, but this change was not submitted to the Census Bureau until March 1999. This change deletes territory from the Balance of Marion County.

Richwood is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Nicholas County.

Shinnston is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Harrison County.

Weirton is in Brooke and Hancock Counties.

Wheeling is in Marshall and Ohio Counties.

White Sulphur Springs is no longer tabulated separately due to a population decrease. This change adds territory to the Balance of Greenbrier County.

Balance of Fayette County no longer includes Fayetteville, which is tabulated separately due to a population increase.

Balance of Grant County includes Petersburg, which is no longer tabulated separately due to a population decrease.

Balance of Greenbrier County includes White Sulphur Springs, which is no longer tabulated separately due to a population decrease.

Balance of Harrison County includes Shinnston, which is no longer tabulated separately due to a population decrease.

Balance of Marion County lost territory due to the incorporation of Pleasant Valley.

Balance of Nicholas County includes Richwood, which is no longer tabulated separately due to a population decrease.

WISCONSIN

Appleton is in Calumet, Outagamie, and Winnebago Counties.

Baldwin is now tabulated separately due to a population increase. This change deletes territory from the Balance of St. Croix County.

Bayside is in Milwaukee and Ozaukee Counties.

Bellevue town is now tabulated separately due to a population increase. This change deletes territory from the Balance of Brown County.

Berlin is in Green Lake and Waushara Counties.

Brodhead is in Green and Rock Counties; it annexed into Rock County in February 2000. This change deletes territory from the Balance of Rock County.

Burlington is in Racine and Walworth Counties.

Columbus is in Columbia and Dodge Counties.

Cottage Grove is now tabulated separately due to a population increase. This change deletes territory from the Balance of Dane County.

DeForest name corrected from De Forest.

Eau Claire is in Chippewa and Eau Claire Counties.

Edgerton is in Dane and Rock Counties; it annexed into Dane County in February 1997. This change deletes territory from the Balance of Dane County.

Hartford is in Dodge and Washington Counties.

Howard is in Brown and Outagamie Counties; it annexed into Outagamie County in November 1998. This change deletes territory from the Balance of Outagamie County.

Kewaskum in Washington County was erroneously reported in Fond du Lac County for the 1997 Economic Census. This change adds territory to the Balance of Fond du Lac County.

Kiel is in Calumet and Manitowoc Counties.

Marshfield is in Marathon and Wood Counties.

Menasha city is in Calumet and Winnebago Counties.

Milwaukee is in Milwaukee, Washington, and Waukesha Counties.

Mukwonago is in Walworth and Waukesha Counties.

New London is in Outagamie and Waupaca Counties.

Oostburg is now tabulated separately due to a population increase. This change deletes territory from the Balance of Sheboygan County.

Pulaski is in Brown, Oconto, and Shawano Counties; it is now tabulated separately due to a population increase. This change deletes territory from the Balances of Brown, Oconto, and Shawano Counties.

River Falls is in Pierce and St. Croix Counties.

Watertown is in Dodge and Jefferson Counties.

Waupun is in Dodge and Fond du Lac Counties.

Whitewater is in Jefferson and Walworth Counties.

Balance of Brown County no longer includes Bellevue town and Pulaski (part), which are tabulated separately due to a population increase.

Balance of Dane County lost territory due to the annexation of Edgerton into the county and no longer includes Cottage Grove, which is tabulated separately due to a population increase.

Balance of Fond du Lac County includes Kewaskum (part), erroneously reported in the county in 1997.

Balance of Oconto County no longer includes Pulaski (part), which is tabulated separately due to a population increase.

Balance of Outagamie County lost territory due to the annexation of Howard into the county.

Balance of Rock County lost territory due to the annexation of Brodhead into the county.

Balance of St. Croix County no longer includes Baldwin, which is tabulated separately due to a population increase.

Balance of Shawano County no longer includes Pulaski (part), which is tabulated separately due to a population increase.

Balance of Sheboygan County no longer includes Oostburg, which is tabulated separately due to a population increase.

WYOMING

Mills is now tabulated separately due to a population increase. This change deletes territory from the Balance of Natrona County.

Balance of Natrona County no longer includes Mills, which is tabulated separately due to a population increase.
