

- The Mall at Robinson
- Station Square
- Galleria
- South Hills Mall
- Ross Park Mall
- The Waterfront
- Monroeville Mall
- Century III Mall

The following provides a breakdown of residents that visit the above malls:

Mall	Total # of Shoppers	Shoppers from the Proposed Community	Percentage from the Proposed Community
The Mall at Robinson	411,870	404,725	98%
Station Square	226,675	219,960	97%
Galleria	107,590	106,490	99%
South Hills Mall	410,535	388,125	95%
Ross Park Mall	414,845	405,755	98%
The Waterfront	463,960	463,960	100%
Monroeville Mall	485,240	469,330	97%
Century III Mall	499,620	481,885	96%

The above table illustrates that a large percentage of shoppers in the major trade area are residents of the proposed community.

Employment

Residents in the proposed community have significant opportunities for interaction through their place of employment. According to 2000 U.S. census data, 97 percent of the community's 1,179,218 person labor force works in the community. Of those who are employed in the proposed community, 57 percent work in the community hub located in Allegheny County. Although the majority of the residents who work in Allegheny County are residents of that county, 20 percent of the workforce commutes to Allegheny County for employment from the outlying counties. This demonstrates a significant portion of residents commuting into the community hub for employment. In addition, while a large portion of the population works in the Allegheny County, there is also evidence that the proposed area's labor force work throughout the proposed community, thus fostering interaction, as depicted in the chart below:

- Pittsburgh Regional Champions – The Champions are more than 1,100 individuals volunteering their skills and enthusiasm in support of the region's marketing and economic development efforts.

Allegheny Conference on Community Development

The Allegheny Conference on Community Development also serves all ten counties within the proposed community. This is a private, non-profit organization with the unique ability to convene government and corporate leaders to frame, discuss, and implement civic initiatives. The conference develops strategies that are:

- Regional – building on the assets of all ten counties in SP, and improving the economic status and quality of life for citizens in every county.
- Inclusive – promoting opportunities for women, minorities, and the international community in the regional economy.
- Collaborative – working in partnership with other civic organizations, supporting the leadership efforts of public officials at the local, state, and federal levels, and involving the general public as appropriate.
- Cost-effective – helping to make SP a competitive region for businesses, workers, and visitors.

This organization also has three-long range objectives to fulfill its mission of improving the regional product:

- Ensuring that all children in SP can read, write, and compute by the age of 10.
- Promoting the growth of businesses and jobs based on new technologies.
- Developing amenities that will make SP one of the top regions in the country for attracting young, skilled mobile workers.

Community Events

Residents of the proposed community participate in numerous activities within the community, promoting interaction among the residents. The largest of these events are the Three Rivers Arts Festival and the Three Rivers Regatta which are held in Allegheny County. The Three Rivers Art Festival is a 17-day long event that over 600,000 people attend each year. They mount public art exhibitions and present over 100 performances by musical, dance and spoken word artists on five different stages. The Three Rivers Art Festival was founded in 1959 by the Carnegie Women's Group. According to Scarborough research, forty percent of the visitors were of the proposed community.

The Pittsburgh Three Rivers Regatta is a non-profit 501 (c) community celebration established in 1977. As a premier regional festival of 26 years, the land, air, and water event is one of the top festivals in the country. The largest inland regatta in the United States is host to over 20 daily events, including powerboat racing, fireworks, water ski shows, extreme sports, and national-act concerts. The estimated attendance for the four day event is 200,000-400,000 visitors. According to Scarborough research, 155,390 adults from the proposed community attended this festival last year. This means that 78 percent of the attendees at the regatta came from the proposed community using the lowest attendance estimate, and 39 percent when using the highest attendance estimate.

Newspapers/Media

The *Pittsburgh Post-Gazette* and the *Tribune Review* are SP's main newspapers. Over 43 percent of the proposed community reads the daily edition of either the *Pittsburgh Post Gazette* or the *Tribune Review*. The majority of the population of the proposed community, 65 percent, reads the Sunday edition of one of these newspapers. Both these newspapers daily and Sunday circulation are from the proposed community. For the *Pittsburgh Post Gazette*, 97 percent of the daily circulation and 94 percent of the Sunday circulation are residents of the proposed community. For the *Tribune Review*, 98 percent of the daily circulation and 90 percent of the Sunday circulation are residents of the proposed community.

In addition, the proposed community has two weekly publications, the *Pittsburgh Business Times* and the *Pittsburgh City Paper*. It also has a monthly publication, the *Pittsburgh Magazine*. Supporting documentation depicts that the proposed community accounts for 82 percent of the magazine subscribers for *Pittsburgh Business Times* and 60 percent for the *Pittsburgh City Paper* and *Pittsburgh Magazine*.

Sports

The proposal indicates there is community interaction through sporting events on the professional level as represented by the following four major sports teams who are located in Pittsburgh metro area:

- Pittsburgh Steelers – Professional football team that plays downtown in Heinz Field. The most popular team in Pittsburgh who sell out every game in a season. Sold out seasons have been recorded since the early 1970's. The proposal states that 72 percent of the attendees are from the proposed community.
- Pittsburgh Penguins – The area's professional men's hockey team that plays downtown in the Mellon Arena. The proposal states that 46 percent of the attendees are from the proposed community.

- Pittsburgh Pirates – A professional men’s baseball team that plays downtown at PNC Park. The Pirates have won a total of five World Series titles and have a rich historical background that surround the team which attracts area residents. The proposal states that 38 percent of the attendees are from the proposed community.
- Pittsburgh Riverhounds – Professional Soccer team who play downtown at the Bethel Park Stadium. As a new sporting event to watch, the Riverhounds have appealed to a fan base of all ages because of their friendly and entertaining game atmosphere. Because the sport is popular among children and teens, the Riverhounds have attracted many young boys and girls to play soccer as a career. The proposal states that 44 percent of the attendees are from the proposed community.

Airport

Pittsburgh International Airport (PIA) is the primary airport serving the residents of the proposed community. Currently, PIA is served by more than twenty air carriers as well as being US Airways largest hub. PIA has more than 600 flights per day to 118 destinations. PIA is within a 90-minute flight to seventy percent of North America’s population.

Healthcare

Residents of the proposed community frequently use two major healthcare providers, the University of Pittsburgh Medical Center (UPMC) and the West Penn Allegheny Health System (WPAHS). UPMC has thirteen of their twenty hospital facilities and WPAHS has five of six hospitals facilities located in Allegheny County.

Ninety percent of the residents in the proposed community who attended a hospital in the last three years went to either a UPMC or WPAHS hospital facility. This is broken down by sixty-two percent attended UPMC hospital facility, while twenty-eight percent attended a WPAHS facility.

Low-Income Analysis

Since each municipality has its own median household income, we used the weighted average median household income to assess whether the community meets NCUA’s low-income criteria. The chart below shows the factors used in determining the area’s average median household income based on 2000 census data.

Estimated Median Household Income for Proposed Community

Municipality		
Allegheny County	537,150	\$38,329
Armstrong County	29,005	\$31,557
Beaver County	72,576	\$36,995
Butler County	65,862	\$42,308
Fayette County	59,969	\$27,451
Greene County	15,060	\$30,352
Indiana County	23,283	\$30,233
Lawrence County	37,091	\$33,152
Washington County	81,430	\$37,607
Westmoreland County	149,813	\$37,106
Total	1,070,939	\$36,997*

*Weighted average for all areas in the proposed community

As indicated in the above chart, the weighted average median household income is \$36,997. The area's weighted average median household income is greater than NCUA's 2000 median household income standard of \$33,595. Thus, the proposed area is not a low-income community.

However, a review of 2000 CDFI data indicates that 716,107, or 27 percent of the proposed community, meets the underserved standards. Approximately 51 percent of the underserved area resides in community hub of Allegheny County where the majority of USAFCU's branch offices, shared service centers, and ATMs are located.

CONCLUSION

The proposal contains sufficient information supporting Southwestern Pennsylvania is a local community where residents have common interests or interact as prescribed in Chapter 2, Section V.A.2 of the *Chartering and Field of Membership Manual*. The community has a hub, a major trade area, several shared facilities and organizations, a community newspaper, airport, and cultural/recreational events.

3. BUSINESS AND MARKETING PLAN

USAFCU features a comprehensive package of favorably priced products and services, as shown in the following table:

• Regular savings	• Automobiles/Recreational	• Direct Deposit
• Christmas club	• Personal/Signature/Vacation	• Money Orders / Travelers Checks
• Share Drafts	• Visa/Debit	• Notary Services
• IRAs	• 1 st and 2 nd Mortgages/HELOC	• Indirect Loan Program
• Youth	• Overdraft	• Shared Branching
• Certificates	• Student	• Surcharge Free ATMs
• Money Markets	• Micro/Payday	• Financial Seminars

In addition, the credit union offers a variety of electronic delivery services including home banking with bill payer, loans-by-phone, an audio response system, toll-free call center, and wire transfers.

Service to the Underserved

USAFCU looked into financial institutions currently available in the proposed community. The review disclosed there are primarily two types of financial service providers; banks who almost exclusively cater to the lending needs of commercial customers and alternative financial providers including pawn shops, finance companies, rent-to-own retailers, payday loan companies, and check cashing outlets.

Since a high percentage, 27 percent of the community qualifies as underserved and U.S. Census Bureau data of 2000 indicates that 25 percent of the residents of the proposed community did not graduate from high school, these individuals are more likely to be victimized by the high cost alternative financial providers. Therefore, USAFCU believes there is a need in the community for a low-cost provider that the credit union believes it can fulfill. Below provides the products and services USAFCU offers to meet the needs of this segment of the community:

- No-fee share draft accounts;
- Small saver certificate program;
- No consumer loan fees;
- Micro loans starting at \$500;
- No-fee VISA card;
- Personal computer loans;
- Education loans;
- Used auto loans;
- Reward-based lending (a risk-based lending program) ;

- Positive space program (Free services for senior citizens including wire transfers, traveler's checks, money orders, and stop payments);
- Free financial seminars (Home buying seminars, Investing for Your Retirement, Investing for Education Purposes, Women and Investing, Long Term Care Insurance);
- Financial planning (Free annual financial analysis to members with no obligation);
- Member debt/financial education and counseling (Money Management, Home & Family Finance Online Newsletter, Financial Counseling for One-on-One Meetings, Budget Sessions, Debt Management); and
- Electronic Credit Union (ECU) stations (Free internet access in branch lobbies).

The credit union has performed a demographic analysis of the underserved segment of the community and has determined there are four unique groups that could benefit from their many products and services. These groups include: Hispanic, African American, Senior Citizens, and Single Parents. In addition to offering the services listed above, the credit union also plans to implement the following new services in 2005 to improve the economic and social well being of these members:

- Payday loans at reasonable rates;
- First time home buyers programs;
- "Start Over" packages (designed to help re-establish credit with checking accounts and various plastic accounts);
- Voluntary Income Tax Assistance (VITA);
- International Remittance Network (IRnet); and
- Bi-lingual audio response system.

Business Products and Services

(b)(4)

The credit union conducted a survey of their existing membership that revealed that 25 percent of the respondents have small businesses. Also, 13 percent of the respondents plan to have a small business in the future. This would equate to 38 percent of the existing membership demonstrating a need for this type of service. The

(b)(4)

Facilities

The credit union already serves numerous select groups throughout the proposed community and has considerable familiarity with the area. USAFCU currently operates two full-service facilities and is a member of five shared service branches. In addition, the credit union has access to 11 credit union owned and 410 other surcharge-free ATMs throughout the proposed community.

(b)(4)

In addition, the credit union also offers the following low-cost or free financial service access through the following channels:

- Call Center – Provides a wide array of account information via a toll free number 24 hours a day.
- Web Site – Offers numerous on-line services including new accounts and loan applications.
- PC Banking – Convenient financial services via the internet including electronic statements, bill payer, and check imaging services.
- Onsite Community/Company visits – Dedicated business development and sales team professionals conduct membership drives and information sessions throughout the community and at various employer locations.

The proposal indicates the existing and proposed office locations, ATMs, and shared service centers are strategically located on major highways and are also accessible by public transportation for easy accessibility to the proposed area's residents. A map

under Tab 3 indicates the credit union's closest facility to the two farthest edges is 57 miles from Fayette County and 50 miles from Indiana County.

Although these are significant distances, these farthest edges are rural in nature. Residents in these areas are accustomed to traveling large distances to the major trade area to work, shop, and attend cultural/recreational events. Furthermore, the credit union has numerous electronic services as discussed above to assist in adequately serving the membership in the entire proposed area. Nonetheless, the credit union is

(b)(4)

Also, as noted above approximately 51 percent of the underserved area resides within the community hub in Allegheny County. Since the majority of USAFCU's branch offices, shared service centers, and ATMs are located in this area, the credit union's service facilities are accessible to a large portion of the underserved community.

Source: 2000 U.S. Census

Higher Education

The community's higher education needs are served by University of Pittsburgh (Pitt), Robert Morris University (RMU), and Allegheny Community College (ACC). Residents of the proposed community represent 49 percent of the students at Pitt, 81 percent of the students at RMU, and 97 percent of the students at ACC. All three schools are located in the major trade area and have a significant portion of students enrolled at each institution. Pitt enrolls 34,003, RMU enrolls 4,816, and ACC enrolls 19,271 students thus supporting that a large percentage of students are drawn to the three schools located in the community hub.

Organizations

Pittsburgh Regional Alliance (PRA)

PRA is a non-profit economic development organization, working in concert with public, private, and civic organizations to generate and serve business creation, expansion, relocation, and to aid employers in the growth of skilled talent pool in the SP area. The PRA serves the entire ten county area of the proposed community. The PRA has one mission: To generate and serve customers of SP. Their services and initiatives include:

- Confidential Project Management – their network of state and local economic development partners ensure that expanding or relocating companies receive the support they need to be successful.
- Comprehensive Information and Resources – PRA provides data, demographics, information, and resources that help companies learn about SP.
- Education and Workforce Training – INDEX, the Industry and Education Exchange, connects businesses with education and workforce training programs, helping employees to obtain the specific skills that their company requires.
- Career Resources – The Career Resource Center provides links to job sources, workforce and industry data, networking groups and internship data.

(b)(4)

(b)(4),(b)(8)

(b)(8)

Conclusion

USAFCU is a well managed financial institution that has a proven track record for developing and implementing effective strategic plans. Management has the financial resources, expertise, marketing plan, services, and track record to effectively serve the entire community.

(b)(8)

USAFCU has a capable management team with a proven track record based on sound strategic planning. Staff is highly competent, well-trained, and there is a well-developed strategic plan. A strong internal audit department and thorough outside audit provide excellent oversight. Therefore, the credit union is financially capable of handling the community conversion.

BOARD ACTION MEMORANDUM

TO: NCUA Board
DATE: September 1, 2004
FROM: Edward P. Dupcak
Regional Director
SUBJ: US Airways Federal Credit Union
Application to Convert from
Multi-Group to Community Charter

ACTION REQUESTED: Approve application for conversion to a community charter for US Airways Federal Credit Union (USAFCU) in Moon Township, Pennsylvania, under Section 109 of the Federal Credit Union Act, and Interpretive Ruling and Policy Statement (IRPS) 03-1, as amended.

DATE ACTION REQUESTED: September 23, 2004

OTHER OFFICES CONSULTED: General Counsel and Examination and Insurance

VIEWS OF OTHER OFFICES CONSULTED: Concur

BUDGET IMPACT, IF ANY: None

RESPONSIBLE STAFF MEMBERS: Regional Director Edward P. Dupcak, Director of Insurance Antoinette St. Clair, and Insurance Analyst Kerry Murphy

SUMMARY: US Airways FCU, assets \$607 million, was chartered in 1953, and serves multiple groups in the vicinity of Pittsburgh, Pennsylvania.

US Airways FCU proposes to convert to a community charter to serve persons who live, work, worship, or go to school in, and businesses and other legal entities in Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland counties in Pennsylvania. The area's population is 2,656,007 according to the 2000 Census. The community is comprised of multiple political jurisdictions with well-defined geographic boundaries in the southwestern region of Pennsylvania.

Most of the workforce, 97 percent, is employed within the community. It has a community hub, the Pittsburgh metro region, which is centrally located and easily accessibility by major routes including I-76, I-79, and I-70 and comprises of 48 percent of the total population of the community. The Pittsburgh metro region draws residents from throughout the proposed community for business, shopping, employment, and entertainment. The entire proposed community interacts through two major newspapers, an airport, shared facilities and organizations, and cultural and recreational events.

Our analysis shows the applicant has met all the requirements to convert to a community charter, including the Special Documentation Requirements to establish the community common bond based on a well-defined, local community with fixed geographic boundaries and residents having common interests or interaction.

42. Employees of Convergent Lending Services, LLC who work or are headquartered in Coraopolis, Pennsylvania; 8/8/02
43. Employees of Allegheny County Airport Authority who work in or are paid from Pittsburgh, Pennsylvania; 8/8/02
44. Employees of Township of Moon who work in, or are paid or supervised from Moon Township, Pennsylvania; 10/10/02
45. Employees of Don Vith Contracting who work in or are paid or supervised from Kennedy Township, Pennsylvania; 10/31/02
46. Employees of Colgan Air, Inc., who work in or are headquartered from Manassas, Virginia; 11/21/02
47. Employees of Moon Township Public Library who work in or are paid from Moon Township, Pennsylvania; 1/10/03
48. Employees of Allegheny & Chesapeake Physical Therapists, Inc., who work in or are headquartered in Ebensburg, Pennsylvania; 1/29/03
49. Employees of ~~Techint Technologies~~ **CORE Furnace Systems Corp.** who work in or are paid from Corapolis, Pennsylvania; 02/05/03 Sponsor name cg. 07/21/03
50. Employees of the following who work in or are paid or supervised from the locations named:
 - Jon Alan Associates, Inc., Gibsonia, Pennsylvania 01/31/03
 - Charlotte Air Traffic Control Tower, Charlotte, North Carolina 02/05/03

Data as of June 30, 2004 Call Report

1. GENERAL BACKGROUND

US Airways Federal Credit Union (USAFCU) was originally chartered as the Allegheny Airlines FCU in 1953 to serve employees of Allegheny Airlines in Washington, D.C. In 1966, the credit union relocated to Pittsburgh, PA at the Allegheny Airlines hangar facility. Due to sponsor mergers, the credit union changed its name several times over the years to their current name. Upon approval of a community charter, USAFCU plans (b)(4) Over the years, USAFCU expanded its FOM to include over 60 Select Employee Groups (SEGs), including groups acquired in mergers.

As of June 30, 2004, USAFCU had 79,092 members and estimated its potential at 84,092 members, for a penetration ratio of 94.05 percent.

The four primary reasons USAFCU seeks to covert to a community charter are:

1. To bring its many services to the underserved people in the proposed community.
2. To serve the needs of the proposed community.
3. To broaden its membership base and expand financial service, to maintain and build on its solid financial position, and to ensure its long-term viability.
4. To provide for future viability as US Airways, Inc., their primary sponsor is in a very precarious financial position and may not survive. E+S

Proposal

The proposed community consists of persons who live, work, worship, or attend school in, and businesses and other legal entities in Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland counties in Pennsylvania.

Delegated Authority

The population of the proposed community is 2,656,007 per the 2000 U.S. Census Bureau data. Because the proposed community consists of multiple political jurisdictions and has a current population of more than 500,000, GC and E&I concurrence and NCUAB approval is required under Delegated Authority CHA 3B.

SEGs

The proposal indicates that USAFCU currently serves 21 SEGs located outside the proposed community. The credit union provided a draft letter that will be sent to the SEGs notifying them they will only be able to continue to serve members of record.

2. WELL DEFINED AREA THAT IS A LOCAL COMMUNITY, NEIGHBORHOOD, OR RURAL DISTRICT

A. Geographic Boundaries

The proposed community consists of the following recognized political jurisdictions including their populations:

County	Population
Allegheny	1,281,666
Armstrong	72,392
Beaver	181,412
Butler	174,083
Fayette	148,644
Greene	40,672
Indiana	89,605
Lawrence	94,643
Washington	202,897
Westmoreland	369,993
Total	2,656,007

The proposed area covers approximately 7,200 square miles and has the following boundaries:

North	Mercer, Venango, Clarion and Jefferson County, Pennsylvania
South	West Virginia and Maryland
East	Clearfield, Cambria, and Somerset County, Pennsylvania
West	Ohio and West Virginia

USAFCU provided a map of the proposed community. The map sufficiently identifies the boundaries and the geographical characteristics.

B. Evidence of Resident Interaction and/or Common Interests in the Local Community¹

The proposed community is located in the southwestern portion of Pennsylvania and is comprised of ten contiguous counties that are recognized political jurisdictions. The majority of the proposed population (92 percent) is part of the Pittsburgh, Pennsylvania Metropolitan Statistical Area (MSA). The three outlying counties excluded from the MSA are Lawrence, Indiana, and Greene counties. They are rural in nature and frequently interact with residents of the Pittsburgh MSA.

Commonly Defined Region

The proposed community is contained within a commonly defined region as designated by the Southwestern Pennsylvania Commission (SPC) as Southwestern Pennsylvania (SP). The SPC is the regional planning agency serving the SP area providing essential services to the region. It is a 60 member governing body comprised of representatives from all ten counties (5 members each), the City of Pittsburgh (5 members), and other state and federal agencies. Not only is the SPC the official Metropolitan Planning Organization, but it is also the region's designated Local Development District and Economic Development District by the US Appalachian Regional Commission and the US Department of Commerce. In this role, the SPC establishes regional economic development priorities and provides a wide range of services to the region including:

- Developing, monitoring, and updating the region's Comprehensive Economic Development Strategy (CEDS). These plans are used as a guide in granting awards for water and sewer infrastructure systems, technology training centers, telecommunications facilities, research parks, and other major public-works projects.

¹ A large portion of the third party documentation supporting the information regarding residential interaction comes from Scarborough Research Company, a marketing research company in business for twenty-five years and serving major customers such as Coca-Cola, Wells Fargo Bank, Goodyear Tire & Company, and others. The company collects data on 75 markets in the United States and provides it to end users who wish to purchase it. Therefore, the information is independent and was not for credit union purposes only.

- Encouraging businesses and residents to locate in economically distressed areas by offering them a tax holiday until 2013 to improve economically distressed areas within the region.
- Acting as a public partner to reduce risk for local lenders while creating business opportunities for entrepreneurs through low-interest loans for real-estate, machinery, equipment, and working capital needs related to increasing their job production capacity and operating efficiency.
- Helping local government officials solve, prioritize, and anticipate problems based on a self-assessment of their organization, functions, and processes. They also offer real estate, finance, and business deal expertise to local governments in order to help them move projects forward.
- Educating hundreds of small companies about the complex process of doing business with the federal government, focusing on the contract process that enables small businesses to compete in the government market place.
- Providing and creating opportunities for SP businesses to expand their business internationally in order to increase export sales and employment opportunities for the region.

In addition, the SPC website recently became the region's portal for accessing information about public planning in SP.

Community Hub

Pittsburgh is the largest city in the proposed community which is located in Allegheny County. The Pittsburgh metro region, which encompasses Allegheny County, is the hub which draws residents from throughout the proposed community and serves as the focal point for shopping, employment, higher education, healthcare, sporting events, and other entertainment. It is centrally located and easily accessibility by major routes including I-76, I-79, and I-70 and comprises 48 percent of the total population of the community.

Major Trade Area

The community's major trade area lies within Allegheny County (Pittsburgh metro region), which contains the concentration of trade. Residents of the community can satisfy their shopping needs at any of the eight malls in the Pittsburgh metro trade area. These malls offer a wide range of shopping opportunities and are within a 10 mile radius of the city of Pittsburgh. The malls are as follows:

U-S AIRWAYS

FEDERAL CREDIT UNION

Joseph C. Cirelli
President / CEO

April 21, 2004

Mr. Ed Dupcak, Regional Director
National Credit Union Administration, Region II
1775 Duke Street, Suite 4206
Alexandria, VA 22314-3437

Dear Mr. Dupcak:

We are pleased to present this proposal as our request for US Airways Federal Credit Union to convert to a community charter to serve the Southwestern Pennsylvania Community (SPC) consisting of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland Counties, Pennsylvania. This charter conversion would allow those persons who live, work, worship, volunteer or go to school in, businesses and other legal entities located in those counties to have the benefit of our many services.

US Airways Federal Credit Union is not seeking a community charter for the sole purpose of becoming a community charter. We are seeking a community charter in order to survive and remain a viable credit union for our current and future members.

US Airways, Incorporated (US Airways), our primary sponsor, is in a very precarious financial position and may not survive. US Airways has already reduced employment from a high of 55,000 to 29,000 presently with more layoffs anticipated. Those employees who remain have experienced significant reductions in pay and benefits. While our credit union has worked diligently during recent years to diversify our field of membership by including select employee groups, US Airways, their Subsidiaries and Affiliates presently represent 56% of shares and 89% of loans of US Airways Federal Credit Union.

In the meantime, a review of the National Credit Union Administration's (NCUA) Examination Reports and 5300 Call Report data going back to December 1999 reveals that US Airways Federal Credit Union has operated quite satisfactorily in spite of US Airways, Inc.'s situation.

(b)(8)

US Airways Federal Credit Union Operating Data

Capital Still Strong and Growing –

US Airways Federal Credit Union staff is quite proud of the fact that in spite of absorbing high loan losses and a declining loan volume, our Net Worth/Total Assets increased from 12.56% to 13.09%, 25% higher than our peer. In other words our credit union is financially stronger today even after absorbing several years of layoffs and pay cuts at our primary sponsor.

Bankruptcies Have Impact –

Due to many laid off employees and those whose pay has been substantially reduced declaring bankruptcy, our credit union absorbed significant loan losses equaling 2.5 times our peer. In the last three years delinquency increased from .42% to 1.10%, double peer. Charge offs in the last two years went from .69% to 1.25%. Charge offs drove our provision for loan loss expenses to .70%, almost triple peer.

Loan Activity Diminished –

Unemployed employees or those concerned about their future job status have quit borrowing. Our best income producing asset, loans declined as a percentage of shares from 66% to 57%. In spite of our significant marketing efforts, our total outstanding loans declined in 2002 and 2003.

Return on Assets Declining –

Loan losses and declining loan volume have impacted our return on assets. As high yield loans declined they were replaced by very low yield investments which, coupled with loan losses 2.5 times our peer, caused our return on assets to decline from a peer return of 1.03% in 1999 to .35% in 2003.

To survive, US Airways Federal Credit Union like all other credit unions needs to make loans. To make loans we need a community field of membership consisting of people who have jobs and represent a cross section of our population in age and borrowing needs. Those people remaining at US Airways are not only so fearful for their jobs that they do not borrow, but they are older workers with the highest seniority who, even in the best of times, have diminished borrowing needs.

At the risk of repeating ourselves, US Airways Federal Credit Union needs our requested community charter to survive and remain a viable credit union.

Our proposal contains a full description of the community showing how people in the proposed community interact and share common goals and interests. Enclosed third party documentation fully supports that the area is a single well-defined community. We strongly believe that our documentation clearly shows that the proposed Southwestern Pennsylvania Community (SPC) meets National Credit Union Administration (NCUA) requirements.

In the proposal you will find our business plan with financial projections that show US Airways Federal Credit Union can handle the proposed community financially and administratively without a negative impact on our operations or financial condition. Commitments are in place to build or lease facilities to supplement the electronic delivery of services.

The proposal also contains a comprehensive marketing plan and significant marketing budget that demonstrates our commitment and how we plan to serve the requested area.

Our credit union is a proud corporate citizen as shown by our participation in many community activities. In addition, we encourage our individual employees to participate in various activities to make our community a better place to live and raise a family. A listing of our corporate and employee community activities, that goes back many years, is enclosed for your edification.

We strongly believe that approval of this request will be beneficial not only for our credit union, but for the entire Southwestern Pennsylvania Community (SPC) and its citizens as well.

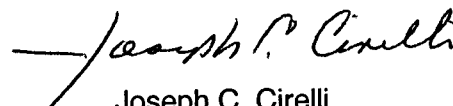

We sincerely believe that we have complied with all National Credit Union Administration regulations, Interpretive Ruling and Policy Statements and policies.

Regarding our name, it is our intention to amend Section 1 of our charter by seeking a new credit union name to better represent our emerging membership. Eighteen months ago NCUA reserved the name Clearview Federal Credit Union for us. Our attorneys have researched and trademarked the name for our use. We will forward the necessary documentation in the near future.

We would like to meet with you in your office sometime during May, 2004, to talk more specifically about our situation and the community proposal. Perhaps prior to that meeting your staff will have had time to briefly review our proposal. I will have someone contact you to arrange a mutually convenient meeting time.

In conclusion, we specifically authorize and give you permission to contact and correspond with our agent, Allen Carver of O'Rourke Consulting at (770) 587- 6910, if you need additional information or have any questions.

Sincerely,

Joseph C. Cirelli
President/CEO

Mr. Ed Dupcak, Regional Director
National Credit Union Administration – Region II
1775 Duke Street, Suite 4206
Alexandria, VA 22314-3437

Dear Mr. Dupcak:

I want to take this opportunity to again thank you for taking your time and the time of your staff to meet with us on June 1, 2004, to assist us in preparing our community proposal.

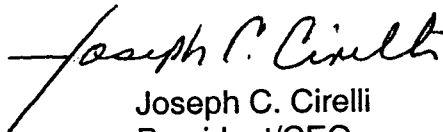

Enclosed is our comprehensive response to your letter dated May 26, 2004, in which you detailed issues that needed additional information and clarification. For your staff's convenience, we responded to the subject areas in the exact order as presented in your letter.

While preparing our response, our additional analysis and data gathering further reinforced our belief that the requested ten-county Southwestern Pennsylvania Community represents a single, well-defined community as required by the National Credit Union Administration.

Please let us know if you need additional information.

Thanks for your continued support and assistance.

Sincerely,

Joseph C. Cirelli
President/CEO

Enclosures

US Airways Federal Credit Union Community Charter Conversion Request

US Airways Federal Credit Union (USAFCU), charter 09007, respectfully requests permission to amend our charter in order to serve **all** persons who live, work, worship, volunteer or attend school in, businesses and other legal entities located in Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland Counties, Pennsylvania, which will be referred to in this proposal as the Southwestern Pennsylvania Community (SPC).

USAFCU's Board of Directors submits this proposal in support of its request, in accordance with the National Credit Union Administration's (NCUA's) Chartering and Field of Membership Manual and amended policies. This proposal includes USAFCU's current financial statements, which indicate that our credit union has performed well financially and has built a strong capital and reserve base. USAFCU has a long history of being guided by competent and committed employees and volunteers. This proposal includes a description of the community, as well as details about community interaction, that we believe clearly demonstrates our conviction that the SPC is a single, well-defined, unified, closely-knit community as required by NCUA.

In addition, we have included a business and marketing plan for implementing the proposed conversion, allowing for expenditures, to serve the entire SPC area.

We believe that USAFCU can make a difference in the lives of individuals and families within the SPC and would welcome the opportunity to offer them reasonably priced and needed financial products and services.

Reasons For Conversion Request

Reasons For Conversion Request -

USAFCU is proposing this community charter conversion for four primary reasons:

1. First, USAFCU would like to bring its many services to the underserved people in the SPC community. We firmly believe there is a need for the products and services offered by USAFCU to this portion of the community. Additionally USAFCU has a well-conceived plan to assist members in building wealth through free educational seminars held at the credit union and elsewhere in the community.
2. Second, USAFCU is seeking this conversion based on the needs of the SPC. The citizens of the SPC deserve a financial institution that is member/consumer owned, and is focused and available to serve the needs of all individuals. By amending its charter, USAFCU will be able to offer the same outstanding level of member services and products currently enjoyed by our existing members to the entire SPC community.
3. Third, to allow USAFCU to broaden its membership base and expand financial services, to maintain and build on its solid financial position, and to ensure its long-term viability.
4. Lastly, to provide for USAFCU's future viability as US Airways, Incorporated (US Airways), our primary sponsor, is in a very precarious financial position and may not survive. US Airways has already reduced employment from a high of 55,000 to 29,000 presently with more layoffs anticipated. Those employees who remain have experienced significant reductions in pay and benefits. While our credit union has worked diligently during recent years to diversify our field of membership by including select employee groups, US Airways and their related companies presently represent 56% of shares and 89% of loans of USAFCU.

Tract
 County
 County ID:

DO NOT DESIGNATE ANY NON-CONTIGUOUS TRACTS OR COUNTIES WITHIN A SINGLE INVESTMENT AREA. YOU MUST SAVE NON-CONTIGUOUS TRACTS OR COUNTIES AS TWO OR MORE SEPARATE INVESTMENT AREAS.

Qualified

Define Another Investment Area in :
 Same State : Another State

Empowerment Zone/Enterprise Community Map

How do I use 'Rectangle Select' ?

Why do my Hot Zones disappear when I switch between county views ?

CDFI Investment Area Designation Instructions

1. Select **ADD** button, click on the desired tract/county
2. Once you have selected the census tract, click the **CDFI Test** button.
3. If your area qualifies, press the **Submit** button.
4. If your area does not qualify, you can deselect your selection and click **CDFI Test** again.

Geographic Unit Meets CDFI Investment Area Criteria

Economic Development and Housing **Hot Zone**
(Also Qualifies as an Investment Area)

Housing **Hot Zone** Criteria
(Also Qualifies as an Investment Area)

Economic Development **Hot Zone** Criteria
(Also Qualifies as an Investment Area)

(Because Hot Zones in nonmetropolitan areas are designated at the county level only, they will not appear when the map is switched from the county-level view to the tract-level view.)

Geographic Unit Does Not Meet CDFI Investment Area Criteria
Selected Area

Deselected Area

Please refer to Federal Register at 12 CFR Part 1806 for the requirements to designate a Distressed Community/Investment Area.

*Community Profile
Southwestern Pennsylvania
Community
(SPC)*

Community Interaction Overview – Where individuals work and play together

The City of Pittsburgh is the center of the 10 county area for work, residence, entertainment and community interaction in southwestern Pennsylvania (SPC). Specifically, the ten county SPC is bound together by their countless interactions with and reliance upon Pittsburgh and the community. As you will see, the individuals of these counties shop together, work together, attend school together, play sports together, and spend their leisure time together. Both a strong economy and a high quality of life attract people to this community; a sense of belonging and community filled with opportunities keep people here.

The SPC includes the state's second largest city, also ranked the nation's 54th largest city – Pittsburgh. Pittsburgh and its surrounding area have evolved dramatically during the last two decades. What was once a region dependent on steel manufacturing has re-invented itself as a diverse economic center with expertise across a wide variety of new and emerging fields. As the region has re-invented its economy, it has also re-energized its lifestyle to create a community recognized nationally for its high quality of life, cultural energy, rich ethnic diversity and low cost of living according to Ronnie Bryant, President and COO of the Pittsburgh Regional Alliance. (Enc. 7)

Today, the mix and interaction of SPC residents is documented in migration patterns. According to census data, Pittsburghers tend to stay where they are. Ninety-two percent (92%) of residents lived in Pittsburgh in both 1995 and 2000 with only 8% moving outside the SPC. The majority (66% of all residents) were living in the same house, and the rest (26% of all residents) were living in a different house within the Pittsburgh MSA. (Enc. 8) In fact, more residents of Pittsburgh stayed in the same house between 1995 and 2000 than in any other large metropolitan area. (Enc. 9) Pittsburgh is not a transient community; residents grow up and grow old together. When SPC residents decide to move, they are prone to relocate within the ten-county SPC area. As the following chart demonstrates, migration flow is from Allegheny County to the surrounding counties to a great extent, but there is also significant migration from the suburbs to Allegheny County. (Enc. 10)

From this data, we find early SPC residents continually moved from Pittsburgh to create an ever-expanding community and now are continuing the expansion and interaction of the population through their current migration patterns, both in and out of Pittsburgh.

The Pittsburgh region is 7,200 square miles of people, industry and heritage. It is 10 dynamic counties and the vibrant city of Pittsburgh. It combines urban centers and rural landscapes that stretch over hills and valleys. (Enc. 11)

According to the Pittsburgh Regional Alliance's web site, "the 2.6 million people that live and work here are connected by more than the region's famous rivers. They share a history of innovation, the work ethic to get things done and an affordable high quality of life". (Enc. 11)

Key facts about the SPC that contribute to the bonds and common interaction of the community include:

- The SPC is home to seven "Fortune 500" corporations including: Alcoa, H.J. Heinz, PPG Industries, PNC Bank Corporation, Mellon Bank Corporation, United States Steel Corporation and Wesco International, Inc. (Enc. 12) Additionally, 84 Lumber, American Eagle Outfitters, Bayer Corporation, Cutler-Hammer (Eaton Corporation), Dick's Sporting Goods, DQE, Inc., General Nutrition Company, Giant Eagle, Inc., Koppers Industries, Inc., GlaxoSmithKline, Federated Investors, Kennametal, Inc., and Mylan Laboratories are also headquartered in the SPC. (Enc. 13)
- Pittsburghers have a heritage of valuing education. No wonder the SPC region is rich in educational opportunities, with 32 post-secondary institutions and 79 trade schools. (Enc. 14)
- The Cathedral of Learning, the University of Pittsburgh's main education complex, is 42 stories, which makes it the second tallest educational building in the world. (Enc. 15)
- In southwestern Pennsylvania, more than 250,000 people are employed by technology-related companies. (Enc. 15)
- Numerous organizations such as the Pittsburgh Urban Magnet Project, Pittsburgh Young Professionals, Ground Zero, Fay-Penn, Washington County Council on Economic Development and the Allegheny Conference on Community Development provide networking opportunities and opportunities for involvement in community development. (Enc. 15)
- The University of Pittsburgh Medical Center ranked 16th out of 17 hospitals recognized on the honor roll by U. S. News and World Report for quality and depth of expertise. Also noteworthy, Allegheny General ranked 35th in digestive disorders and 47th in cancer treatment; Children's Hospital ranked 6th in pediatrics, and Magee Women's Hospital ranked 18th in gynecology. (Enc. 16)
- Pittsburgh is ranked 4th among the top 25 arts destinations in the nation, according to American Style magazine in 2002. Pittsburgh is among New York, Santa Fe and San Francisco for best arts destinations. (Enc. 17) Through a collaboration of community organizations, the UltraViolet Loop, a weekend bussing service through various Pittsburgh neighborhoods, encourages people to check out the thriving art, music and nightlife scenes. (Enc. 15)
- City, county and state parks cover 26,000 acres of the Pittsburgh region, and 6.5 million people visit southwestern Pennsylvania state parks annually. (Enc. 16)
- There are 63 trail sites where it is possible to hike at least one mile within a 40-minute drive of the city in the surrounding counties. (Enc. 18)

- In the city alone, Pittsburgh has rails to trails, golf, hiking and boating, while the region is home to all of that plus skiing, rafting and fishing. (Enc. 16) The three major rivers include the Allegheny, Monongahela and Ohio, the confluence of which forms "The Point" a major attraction in downtown Pittsburgh, and the site of the Three Rivers Regatta, the largest inland regatta in the United States. (Enc. 19)
- The SPC hosts a number of professional sports teams including the Pittsburgh Steelers football team, Pittsburgh Pirates baseball team and the Pittsburgh Penguins hockey team.
- Pittsburgh was the home to everyone's favorite neighbor, Mister Rogers. For more than 30 years, Mister Roger's Neighborhood was produced at WQED. (Enc. 19)

Presented in the following pages are eight general categories of community interaction. Each category strives to document how and why the SPC is much more than ten contiguous counties. Evidence of extraordinary interaction depicts the true story behind the SPC.

Southwestern Pennsylvania Commission -

At the heart of the SPC is the Southwestern Pennsylvania Commission that bonds its inhabitants into a community with common interests and goals. Defined geographically and geologically on the west by the Ohio and West Virginia borders, to the north and east by county lines, and to the south by the West Virginia and Maryland borders, this community-of-counties shares a vested interest in working together to serve the basic needs of all its citizens.

The Commission is the regional planning agency serving the SPC and provides essential services to the region. Not only is the Commission the official Metropolitan Planning Organization, but it is also the region's designated Local Development District and Economic Development District by the US Appalachian Regional and the US Department of Commerce. In this role, the SPC establishes regional economic development priorities and provides a wide range of services to the region. (Enc. 20)

In addition, the Commission's Web site recently became the region's portal for accessing information about public planning in the SPC. The site includes information about regional economic development and transportation planning, photos, maps, statistics and direct links to all member government homepages for quick access to government information in each county in the SPC. Not only will the site assist English-speaking individuals, but the SPC is the first region to have use of instant translation technology in this country. This technology will allow information on the SPC to be available in eight different languages. The site opens up regional planning information to a much wider local and international audience, allowing business owners from around the world to learn what the SPC has to offer in their own language. (Enc. 21)

The Commission is the 60 + member governing body for the Corporation comprised of representatives from all 10 counties (5 members each), the City of Pittsburgh (5 members), and other state and federal agencies. (Enc. 20) The Commission is the region's forum for collaboration, planning and public decision-making. The Commission establishes regional economic development priorities and provides a wide range of public services to the region. (Enc. 22)

Please refer to Enclosure 23 for a list of the Commission's Officers, Executive Committee, Federal Members, State Members and County Representatives (Enc. 23)

The Southwestern Pennsylvania Commission is responsible for overseeing several committees and programs, each responsible for issues and projects directly affecting the residents of the 10 county SPC. Specifically, these include:

- The Transportation Technical Committee (TTC), which deals exclusively with technical issues and makes recommendations to the Commission on a range of Transportation subjects that include the Transportation Improvement Program, transportation-related air quality plans, and other transportation matters referred to the committee.
- The Transit Operators Committee whose primary responsibilities include:
 - recommending the annual allocation of federal and state funding for transit operations and capital assistance in the SPC;
 - drafting the transit portion of the Transportation Improvement Program (TIP);
 - tracking the use of federal transit funds on the TIP; and
 - addressing other common transit issues of regional interest. (Enc. 24)

Appalachian Regional Commission Area Development Program

In addition, the Commission has been designated the "Local Development District" by the Appalachian Regional Commission (ARC). – Area Development Program. In this capacity, the Commission plays a lead role in identifying priority needs of local communities by working with board members and local citizens to foster economic development, to target and meet the most pressing needs, and to build community unity and leadership. The Commission undertakes projects through the Area Development Program that address the five goals identified by ARC in its strategic plan.

1. Developing a knowledgeable and skilled population
2. Strengthening the Region's physical infrastructure
3. Building local and regional capacity
4. Creating a dynamic economic base
5. Fostering healthy people

The Commission seeks to fund such projects as education and workforce training programs, highway construction, water and sewer system construction, leadership development programs, small business start-ups and expansions, and development of health-care resources to meet the area development goals. In addition to technical assistance and grant assistance, the Commission operates a revolving loan fund targeted to small manufacturing and industrial businesses employing 100 or fewer people. (Enc. 25)

Comprehensive Economic Development Strategy

As the federally designated Economic Development District (EDD), the Commission is also responsible for developing, monitoring, and updating the region's Comprehensive Economic Development Strategy (CEDS). A well-planned, coordinated strategy for public priorities in economic development is critical at local, state and federal levels for sound use of public dollars. For these reasons, the Economic Development Administration (EDA) of the US Department of Commerce appointed the Commission the region's EDD. With the endorsement of member governments, the EDA designates regional districts across the country to create and maintain CEDS. These public-sector, EDA-approved plans for economic development are used as a guide in grant awards for water and sewer infrastructure systems, technology training centers, telecommunications facilities, research parks, and other major public-works projects.

The EDA provides grants for infrastructure development local capacity building, and business development to help communities alleviate conditions of substantial and persistent unemployment and underemployment in economically distressed areas and regions. The Commission receives planning funds from the EDA for economic development projects in the Southwestern Pennsylvania Community. (Enc. 26)

Keystone Opportunity Zones (KOZs)

The Commission is the regional manager of the state's Keystone Opportunity Zone (KOZ) program, which encourages businesses and residents to locate in economically distressed areas by offering them a tax holiday until 2013. The Commission partnered and contracted with the Cornerstone Development Group to create an enhanced marketing program to drive business to available KOZ sites. Currently nearly 6,000 acres in nine counties of the SPC have been identified as areas where businesses can take advantage of local and state tax abatements to spur economic development and increase employment opportunities. One highlight of the Commission's KOZ program last year was the opening of the Mon Valley Care Center, a 101-bed, long-term care facility built on the site of a former high school in Washington County. This project created approximately 80 jobs. (Enc. 27) The following map shows the KOZs by County. (Enc. 28)

Business Finance/ Loans

In many communities within the SPC, finding capital to create or expand businesses is a challenge. The Commission acts as a public partner to reduce risk for local lenders while creating business opportunities for entrepreneurs. The Commission plays a complementary role in putting together comprehensive loan packages in concert with industrial development corporations and community-based development departments.

Small businesses come to the Commission to obtain low-interest rate loans for real estate, machinery, equipment and working capital needs related to increasing their production capacity and operating efficiency, all of which encourage creation of additional job opportunities.

In the current turbulent economy, the Commission's business loans are in great demand. The current loan portfolio contains more than 120 loans totaling a principal balance of \$12 million, and drawing on funds from 10 different state and federal business finance programs. In 2002, the Commission used these funds to leverage matching investments to the SPC of more than \$24 million, resulting in 27 loans. This investment helped small businesses retain 469 jobs and create 360 new positions in the region. (Enc. 29)

Community Assistance

Community Assistance helps local government officials solve, prioritize, and anticipate problems based on a self-assessment of their organization, functions and processes. Community Assistance also offers real estate, finance and business deal expertise to local governments in order to help them move projects forward.

Through collaboration with county officials, the Commission identifies specific training topics in staff development and financial management. The Commission locates consulting professionals in these areas who work with the counties directly. For example, the Commission offers a workshop on the county budgeting process for SPC member county finance directors and staff.

The Commission makes municipalities in the region aware of the considerable cost savings available by sharing equipment through membership in a federal surplus depot located in Indiana County, one of only two such facilities in the country. This depot makes federal surplus heavy equipment and standard supplies available on a low-cost basis to municipalities, state agencies and other qualified nonprofit organizations within the SPC. The program enables small communities and nonprofits to make civic improvements that might otherwise be unaffordable. (Enc. 30)

In addition, Community Assistance has developed award-winning support tools and manuals to help train local officials in the many smaller communities who may lack technical, financial or human resources to improve professionalism. Examples include:

- The Municipal Hiring Manual – the first municipal reference guide of its kind ever offered in Pennsylvania
- The Problem Solving Guide for Public Officials
- Standards for Effective Local Government (Enc. 31)

Government Procurement

The Commission's Government Procurement Assistance program educates hundreds of smaller companies about the complex process of doing business with the federal government, focusing on the contract process that enables small businesses to compete in the government marketplace.

By collaborating with other business development organizations in 2002, the Commission was able to maximize its resources and provide greater service to over 300 individual businesses. For example, the Commission worked in cooperation with Indiana University of Pennsylvania and the Private Industry Council of Westmoreland/Fayette and shared in the Cooperative Agreement Grant. Last year the following organizations participated in the Government Procurement Assistance Program:

- Department of Defense
- U. S. Small Business Administration
- U. S. Department of Energy
- U. S. Army Corps of Engineers
- Minority Purchasing Council
- Minority Business Opportunity Committee
- Military Affairs Council
- Pennsylvania Departments of General Services, Community and Economic Development and Transportation
- Local Small Business Development Centers

Some of the most impressive results include:

- 42 businesses with no prior experience in government marketing began doing business with the federal government in one year (2002).
- 44 businesses received individual procurement assistance, educating them on the dynamics of the government marketplace, the bid process to win government opportunities, and matching their products and services with government needs.
- 169 businesses received free technical assistance, such as a briefing on federal regulations and specifications as well as detailed individual assistance in preparing proposals.
- Total awards for 2002 were 309 with a value of more than \$50 million. (Enc. 32)

Export Development

The goal of the Commission's Export Development Program is to provide and create opportunities for SPC businesses to expand their business internationally in order to increase export sales and employment opportunities for the region. The program provides customized, hands-on export developing counseling service to small and medium-sized businesses in the SPC.

Services include export readiness assessment, information research, market identification, market access strategies, and business plan implementation. Export Development also sponsors or co-sponsors educational seminars and training for exporters or potential exporters in the SPC. In 2002, the Commission worked with six regional partners to provide export assistance to more than 300 companies in the region. (Enc. 33)

Natural Infrastructure

The Commission is partnering with The Heinz Endowments and the Pennsylvania Environmental Council to lead a regional initiative to develop a Natural Infrastructure Inventory and Plan. To enhance economic vitality and the quality of life, the Plan will suggest ways to take advantage of our natural amenities and recreational opportunities for the benefit of the entire SPC. The goal is to develop an accurate depiction of the region's assets utilizing the Commission's Geographic Information System (GIS) in order to determine how to best advantage the region nationally in using and conserving its resources.

In 2002, the Commission launched a revolutionary, collaborative effort to upgrade GIS data and operations across the SPC. Not only will this Unified GIS Plan establish a single, regional data set representing the geography, topography and land use for the entire region, but it also establishes a strong, working relationship with local government. This cooperative process involves the Commission's GIS staff and activities collaborating with counties and municipalities to establish the following:

- Technical standards
- Consistent information categories
- Protocols for data development
- Data sharing agreements to reflect the consensus of participants at every level of government

In the past year, the Commission assisted 41 municipalities with GIS and mapping activities, provided data to four member counties for their comprehensive plans and supplied data for numerous high-profile projects, such as the Maglev high speed rail, Mon-Fayette Expressway, the Laurel Valley Transportation Improvement Project, Route 228 Corridor Study and the All-Risk Connector.

GIS based information systems help make transportation, including highways, railways, bridges, waterways, tunnels, airports and others, more efficient and effective. Municipalities' ability to access all the best current data and future projections in a single place enables them to make more informed decisions about their future residential and commercial development potential. (Enc. 34)

Business Calling

As the regional coordinator for the Pennsylvania Business Retention and Expansion Program, the Commission coordinates and facilitates the Business Calling Program across nine counties in the region. This program identifies critical needs through personal, confidential interview; refers businesses to specific service providers; and follows up with both the business and the service provider to ensure a satisfactory solution. In 2002, The Business Calling Program completed 513 calls. (Enc. 15)

Airport Planning

The Commission's active participation in the Federal Aviation Administration's Continuous Airport Systems Planning Program (CASPP) ensures that the SPC will sustain its network of strong regional airports. Through CASPP, the Commission works to identify the immediate and future air transportation needs of the region and to develop a regional airport system plan. Aviation facilities will be required to meet the SPC's immediate and future air transportation needs. The system also:

- Defines the role of existing airports in the region
- Makes recommendations for airport expansions or new airport development
- Identifies threats to the preservation of existing aviation resources.

Through an annual FAA grant, the Commission maintains an inventory of all airport facilities in the region, administers an Aircraft Operations Counting Program at general aviation airports, and provides technical assistance to airports. (Enc. 38)

The following map shows the locations of the regional airports in the SPC. (Enc. 39) Additional information on the airports within the SPC may be found in the section titled "Transportation".

20/20 Vision

The Commission and the Port Authority of Allegheny County have partnered with the Heinz Endowments, Port of Pittsburgh Commission, Steel Industry Heritage Corporation, along with the region's public transit agencies and a variety of other community partners to develop a regional vision to identify transportation needs and recommend transportation improvements for the SPC. The Study is incorporating the ideas and suggestions of residents, community leaders, employers and workers from the SPC. Public participation and input has resulted in an extensive set of comments about the status of transportation and development in the region, needed regional improvements and suggestions pertaining to the role public transit can play in shaping the region. Studies are currently ongoing and are scheduled to conclude in the summer of 2004. (Enc. 40)

Southwestern Pennsylvania Corporation

The Corporation is the administrative arm of the Southwestern Pennsylvania Commission. Taking its direction from the Commission, the Corporation executes the three program areas:

- Transportation
- Planning and Development
- Information Systems

The 50+ staff members are responsible for conducting extensive and necessary work and research to provide important services to local governments and their planning departments. (Enc. 41) The Corporation enters into contracts, manages staff and is the owner of the Regional Enterprise Tower – a catalyst for regional development. The Corporation assumed ownership of the Regional Enterprise Tower in August 1998. Dedicated solely to regional development, it is one of the first buildings of its kind in the nation. (Enc. 42)

A non-profit 501 (c) (3) organization, the Corporation's operations are funded through a combination of member contributions, state and federal grants, in-kind donations, and sale of specialized information services. (Enc. 43)

Regional Enterprise Tower (RET)

In August 1998, Alcoa transferred the deed to its 360,000 square foot former headquarters building to the Southwestern Pennsylvania Corporation.

The building, located in downtown Pittsburgh, has been renamed the Regional Enterprise Tower and is the first of its kind in the nation: a 31-story skyscraper fully dedicated to the economic, cultural and educational development of its 10 county region. The RET provides "one-stop shopping" for those persons and businesses interested in learning more about the region and its opportunities. (Enc. 44)

The RET remains true to its vision of consolidating resources and a unified regional development effort. The building provides top-notch office space in the heart of downtown with the following impressive facilities and convenient services: (Enc. 45)

- Conference center with state-of-the-art technology, breakout rooms and catering
- A 62 seat theater
- 24 hour access and security
- Lobby restaurant

Today, approximately 90 businesses and non profit organizations inhabit the RET. Occupying approximately 360,000 square feet of office space, the Tower is a hub of activity. Nearly 1,200 meetings were held last year in the center's state of the art meeting facilities. Given the unique mission of the building, the comparison of nonprofit to for-profit tenants is 85% vs. 15%, respectively. (Enc. 46)

Tenants of interest include:

- Community Leadership Development Institute
- Women's Center & Shelter of Greater Pittsburgh
- RIDC
- Strategic Investment Fund
- Greater Pittsburgh Chamber of Commerce
- Pittsburgh Regional Alliance
- Allegheny County Department of Economic Development
- Action Housing
- University of Pittsburgh
- African-American Chamber of Commerce
- Hispanic Chamber of Commerce
- League of Women Voters of Greater Pittsburgh
- Pittsburgh Human Resources Association (current SEG of US Airways FCU)

A complete listing of tenants may be found on the following pages. (Enc. 47)

Pennsylvania's Small Town Environmental Program (PennSTEP)

The critical nature of Pennsylvania's water and sewage problem has led the Commission to take an active role in improving the water and sewer infrastructure in the SPC. The Commission is mapping the region's existing infrastructure, assisting communities seeking to address infrastructure issues cooperatively, and working closely with local and research organizations such as the National Research Council. PennSTEP is a two-year-old program whose primary focus is self-help. By using volunteer labor and/or machinery at reduced market costs, communities can build small projects or finish older ones. While other initiatives are underway to assess the regional status of water and sewer concerns, PennSTEP is helping communities complete specific projects using public equipment, volunteer labor, donated materials and public funding. Examples of projects completed in 2002 include:

- A rural water connection and a security fence project in Fayette County to protect a drinking water reserve system
- A sewer and water renovation project in Indiana County which helped maintain and improve the existing systems for over 900 residents
- A storm drainage project and a recycled wastewater program in Armstrong County, using a local volunteer fire department as labor
- Installation of a water fountain in a formerly abandoned lot in Allegheny County, now revitalized as a public park. (Enc. 36)

Municipal Technology Assistance Program (MTAP)

The Commission's MTAP serves local governments in more than 500 municipalities by offering training, tools and assistance in areas ranging from police regionalization to fiscal management. As regional coordinator for electronic government under the MTAP, the Commission assists local governments with computer training, Internet access, website development and computer purchasing.

In 2003, the Commission successfully implemented the following 4 MTAP initiatives:

1. Computer Purchase Program – the Commission facilitated the purchase of new computers by contributing funds toward the purchase price for municipalities that currently did not have a computer or for municipalities that had less than 4 computers. So far, 33 computers have been purchased through this program.
2. Internet Access Grant – In 2003, the Commission offered up to \$300 to local municipalities that did not have Internet access.
3. Website Development Assistance – Last year, the Commission selected local municipalities who needed assistance in developing their first municipal web site.
4. Free Computer Training – the Commission contracted with a computer learning center to offer free, on-site computer training courses. Approximately 75 municipal workers attended the training. (Enc. 37)

Pittsburgh Metropolitan Statistical Area (MSA) -

The MSA is a statistical measurement designated by the White House Office of Management and Budget. There are 370 MSAs in the United States. The Pittsburgh MSA had previously been defined as Allegheny, Beaver, Butler, Fayette, Washington and Westmoreland counties. In 2003, the MSA was expanded to include Armstrong county according to the Pittsburgh Tribune Review (June 11, 2003). (Enc. 59) Jim Scahill, Armstrong's commissioner's chairman said, "It means we're one step closer to building a solid 10-county southwestern Pennsylvania region." (Enc. 59) Adding, "We have fought long and hard to ensure that Armstrong County is recognized as part of the southwestern Pennsylvania region". (Enc. 60)

Armstrong made it into the MSA based on a calculation of the number of the county's residents that commute to the other counties of the MSA for work. The Office of Management and Budget sets the threshold at 25%. More than 25% of Armstrong's resident commute to surrounding counties to work. (Enc. 59)

"That's good news for the entire region. Armstrong County is already a vital part of the (region)", said Allegheny County Executive Jim Roddey. (Enc. 59)

Jim Hassinger, executive director of the Southwest Pennsylvania Commission, said Indiana and Lawrence also will be reported as a combined MSA. That leaves Greene County as the only county considered by regional leaders to be part of the 10 county SPC that is not officially counted as part of the region. "We're working on getting Greene County included," Hassinger said in the Tribune Review article. (Enc. 59)

The changes in the MSA reflect the increasing economic interdependence of the counties in the region. "From an economic standpoint, the region (SPC) has a common labor market, which means there are strong linkages between the economic trends across different counties," said Chris Briem of the Center for Social and Urban Research at the University of Pittsburgh. (Enc. 59)

This announcement confirms what the Southwestern Pennsylvania Commission has been saying all along, that the region is bigger than previously recognized. A map of the combined statistical area may be found on Enclosure 60.

Ronnie Bryant, President/COO of the Pittsburgh Regional Alliance went on to say, "This is a great boost for regional marketing. It will make it much more obvious that the region is larger and more dynamic than previously reported." (Enc. 60)

The following articles include projects initiated and financially supported by the Southwestern Pennsylvania Commission. These projects benefit the SPC and help demonstrate the Commission's positive impact on the SPC providing further proof of a well-defined community.

Supporting articles – Pittsburgh Post-Gazette (February 2002-September 2003)

- \$4 billion for the Mon-Fayette Expressway/Southern Beltway project was approved. The 100 mile project from West Virginia north to Pittsburgh and a westward leg to the airport will benefit the struggling Mon Valley, as well as, Pittsburgh and the Parkway East area. (February 26, 2002) (Enc. 77)
- The end of 2004 is the projected completion date for a project to convert a one-time railroad tunnel into a high occupancy vehicle roadway connecting Route 51 under Mount Washington into the city of Pittsburgh. (November 16, 2002) (Enc. 78)
- The Southwestern Pennsylvania Commission approved an additional \$6.7 million for a construction project to build ramps to alleviate congestion to and from the Pittsburgh International Airport. The project is set to begin in 2005. (December 10, 2002). (Enc. 79)
- Cranberry's push for public transit in southern Butler County is picking up speed. The idea is to relieve local congestion and improve access among the area communities, and then to link them with other mass transit services in Beaver and Allegheny counties. (September 28, 2003). (Enc. 80)

Supporting articles – Pittsburgh Tribune-Review (September 2002-January 2004)

- A commuter rail system linking Greensburg (Westmoreland County) to downtown Pittsburgh is one of several options being considered by a regional planning group to improve transportation in western Pennsylvania. The Port Authority of Allegheny County has hired STV Inc. to complete the \$1 million study with recommendations for potential projects. (September 20, 2002) (Enc. 81)
- A project to build a crucial link between Route 28 and Interstate 279 is on the fast track. A \$3 million study will review possible locations for a ramp allowing motorists to drive nonstop from southbound Route 28 onto southbound Interstate 279 along a section known as the North Shore Expressway. (July 19, 2003) (Enc. 82)
- A public transit study in southwestern Butler County will move forward with combined funds from Butler County, Cranberry and the federal government. The study will look at public transit in the southwestern corner of Butler County and could spill over into Allegheny and Beaver counties. (January 8, 2004) (Enc. 83)

Supporting articles – Valley News Dispatch (May 2002-January 2003)

- The Southwestern Pennsylvania Commission, an agency that helps small businesses find funding, presented the new owner of a small business with a \$106,000 low-interest, revolving loan. “We act as a middleman between the state and federal governments and regional businesses,” said Sarah Francis, a loan administrator with the Commission. “We want to keep businesses in the region that will promote job creation and retention.” (May 18, 2002) (Enc. 84)
- Southwestern Pennsylvania Commission members vote to put \$12 million in federal money toward the widening of a part of Route 28. The Commission is the regional planning agency that distributes billions of federal dollars for transportation projects in southwestern Pennsylvania. The widening of Route 28 is critical for the millions of shoppers who are expected to travel to a new mall set to open in late 2004 in southern Frazer (Allegheny County). (January 28, 2003) (Enc. 85)

Supporting article – Daily Courier

- Westmoreland County has received a \$100,000 grant to complete the final phase of the county’s first-ever comprehensive development plan. The plan is expected to take three years and involve 65 municipalities. (December 29, 2003) (Enc. 86)

Awards

The 2001 Governor’s Award for Environmental Excellence in the category of land use was presented to the Port Authority of Allegheny County. The Southwestern Pennsylvania Commission initiated planning efforts to replace an abandoned railroad with a modern, rapid transit bus facility connecting downtown Pittsburgh with western Allegheny County neighborhoods and the airport corridor. In September 2000, the West Busway opened its doors to the public. Owned and operated by the Port Authority of Allegheny County, the busway is a five-mile long, two-lane road built exclusively for bus traffic and provides a rapid transit connection for commuters. (Enc. 87)

**US AIRWAYS FEDERAL CREDIT UNION
COMMUNITY COMMON BOND
(NCUA Page One)**

Further evidence also demonstrates that the Galleria is an upscale mall located in the South Hills (**Enclosure 3**). The upscale nature of this mall contributes to the lower number of shoppers when compared to other, more mainstream malls.

In addition, Strabane Mall (locally referred to as Strabane Square) experiences significantly less traffic than other malls located within the Pittsburgh Metro region. Scarborough Research combines shopping statistics from Strabane Square with shopping statistics from Trinity Point when conducting their research. Trinity Point is a small strip mall located across the street from Strabane Square, also in Washington County. As demonstrated in Scarborough Research, only 82,790 shoppers from the SPC indicated that they had visited one or both of these two strip malls within the past 3 months (**Enclosure 4**).

Summary

Looking at these shopping statistics in the SPC, it is evident that residents of the SPC shop at the same malls. This data also proves that additional malls outside of the trade area do not detract from the community hub, as their number of shoppers is relatively low when compared to the "mega-malls".

In addition, the enclosed Scarborough Research documentation better demonstrates that the Base population surveyed is from the 10 County Aggregate (Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland counties). This support was discussed on pages 56-58 of our original proposal and contained in enclosures 180-188.

**US AIRWAYS FEDERAL CREDIT UNION
COMMUNITY COMMON BOND
(NCUA Page One)**

Attached you will find additional evidence to support the requested area is a well-defined, local community as required by Chapter 2, Section V.A.2 of the Chartering and Field of Membership Manual. This compelling information, along with documentation, supports the existence of a single, local community where residents have common interests and interact. The Pittsburgh metro region is the community hub, and residents travel to Pittsburgh and the surrounding area to work, shop, etc. Additional information necessary to support this community hub follows.

(1) Major Trade Area

In addition to the six major malls in the Pittsburgh metro region discussed in the proposal, the following five malls are also in the proposed community:

- Station Square
- Galleria
- South Hills Mall
- Clearview Mall
- Strabane Mall

Scarborough Research indicates that residents of the 10 county Southwestern Pennsylvania Community (SPC) shop at these five malls in addition to the six major malls discussed in the original proposal. The number of adults 18 or older who reported shopping at these malls in the past 3 months is as follows:

<u>Name of Mall</u>	<u>Total Shoppers</u>	<u>Shoppers from the SPC</u>	
Station Square	226,675	219,960	97%
Galleria	107,590	106,490	99%
South Hills Mall	410,535	388,125	95%
Clearview Mall	157,930	135,705	86%
Strabane Mall/Trinity Point	82,790	82,790	100%

Two of these malls, Clearview and Strabane/Trinity, are located outside the trade area. As evidenced above, these malls experience significantly less traffic than the "mega-malls" located within the Pittsburgh Metro region that were included in our original proposal. In the past 3 months, only 135,705 adults from the SPC shopped at Clearview Mall. SPC shoppers represented only 86% of the total shoppers as reported by Scarborough Research (**Enclosure 1 and 2**). Although this number is slightly higher than the number of SPC residents who reported shopping at the Galleria (106,490), it is significantly lower than the number of SPC residents who reported shopping at the "mega-malls" Century II (481,885), Monroeville Mall (469,330) and The Waterfront (453,950) just to name a few (**Enclosure 1**).

Shopping -

Third party documentation regarding shopping habits within the SPC. The intent is to demonstrate that residents of all 10 counties interact while shopping at various malls throughout the SPC. The intent is to further demonstrate that the largest shopping areas are located within Allegheny County. These areas draw in a number of residents from the surrounding SPC counties for shopping.

Century III Mall

Century III Mall is located in West Mifflin (Allegheny County). It is conveniently located 20 minutes south of Pittsburgh on Route 51. Anchor stores include JC Penney, Sears, and Kaufmann's, as well as, Wickes Furniture and Kaufmann's Home Store. In addition, 180 other specialty stores are located in Century III. The Mall offers 1,281,000 square feet of gross leasable area for shoppers to enjoy. (Enc. 180) According to Scarborough research, 499,620 individuals shopped at Century III Mall in the past 3 months. (Enc. 181) Of those, 481,885 shoppers (96%) came from the SPC. (Enc. 182) Nearly one-fourth (23.4%) of all adults over the age of 18 within the SPC shopped at Century III Mall in the past 90 days. (Enc. 182) This proves that residents of the SPC rely on the same mall(s) for their shopping needs.

Monroeville Mall

This large shopping mall, located on Business Route 22 in Monroeville, boasts over 180 stores, including Kaufmann's, Lazarus, JC Penney, a food court and a day-care center. In 1969, Turnberry Associates acquired a 300 acre site in the eastern section of Pittsburgh and developed the 1.3 million square foot Monroeville Mall Shopping Complex. The mall spurred further construction including a state of the art indoor athletic facility, four hundred luxury apartments, a 350 room Radisson Hotel and a 210,000 square foot Regional Conference Center. (www.monroevillemall.com) (Enc. 183)

According to Scarborough research, 485,240 adults over the age of 18 shopped at the Monroeville Mall in the past 3 months. (Enc. 184) Of those, 469,330 shoppers were from the SPC. As is the case with Century III Mall, nearly one-fourth (22.8%) of all adults over the age of 18 living in the SPC have shopped at Monroeville Mall within the past 3 months. (Enc. 185) This shows that 97% of all shoppers at the Monroeville Mall in the past 3 months live in the SPC. This gives further evidence that residents from all 10 counties interact while shopping.

The Waterfront

Thriving along the Monongahela River between Pittsburgh's Squirrel Hill neighborhood and Homestead, The Waterfront is Pittsburgh's newest destination for shopping, dining and nightlife. Large department stores such as Target, Filene's Basement, Michael's and Marshall's share parking space and scenic walkways with more intimate boutiques such as Barnes and Noble, Abercrombie and Fitch, Victoria's Secret and The Gap. A total of 43 stores along with Loews Waterfront Theatre and multiple restaurants attract residents of the SPC for shopping, dining and entertainment. (www.fallinpa.com) (Enc. 186)

According to Scarborough research, 463,960 adults over the age of 18 have shopped at the Waterfront in the past 3 months. (Enc. 187) All of these adults, fully 100% (463,960) are from the SPC. In total, 22.5% of all adults in the SPC have shopped at the Waterfront in the past 3 months. (Enc. 188) The fact that 100% of the shoppers are from the SPC proves that individuals from the SPC interact to such an extent that large shopping complexes are developed solely for their use.

The Mall at Robinson and Robinson Town Centre

The Mall at Robinson is a 1.2 million square-foot, two-level, regional retail, dining and lifestyle complex, specializing in family-oriented activities, customer service, fashion, convenience and community accessibility. (Enc. 189) The \$130 million state-of-the-art regional mall is anchored by a 199,000 square-foot Kaufmann's Department Store, which opened in 1998 as a free-standing store. Other anchors include a 141,000 square-foot Sears, a 147,000 square-foot JC Penney store and a 75,000 square-foot Dick's Sporting Goods. (Enc. 190-191) An additional 100+ tenants also occupy the space. (Enc. 192) The Mall is located at Parkway West and Highway 60 in Robinson Township (Allegheny County) only five minutes east of the Pittsburgh International Airport. (www.shoprobinsonmall.com)

Scarborough Research reports that 411,870 shoppers visited the Robinson Mall in the past 90 days. (Enc. 193) Of these shoppers, 404,725 were from the SPC. (Enc. 194) The fact that 98% of the shoppers were from the SPC further demonstrates that residents of the SPC interact while shopping.

Robinson Town Centre is an additional shopping mecca located next to the Robinson Mall. This strip mall was visited by 435,125 shoppers from the Pittsburgh market area in the past 3 months. (Enc. 193) Of these, 427,120 (98%) were residents of the SPC. (Enc. 194)

The Pointe at North Fayette is also located within walking distance of The Mall at Robinson and Robinson Town Centre. This shopping complex attracted 188,935 shoppers from the SPC in the past 90 days according to Scarborough Research. (Enc. 194)

Downtown Pittsburgh

Downtown Pittsburgh is also a popular shopping destination. In the past 3 months, 418,110 individuals over the age of 18 in the Pittsburgh market area reported to Scarborough research that they had shopped in Downtown Pittsburgh. (Enc. 193) Of these shoppers, 409,695 were residents of the SPC. (Enc. 194) This means 98% of the individuals in the Pittsburgh market area who shop Downtown are from the SPC.

One popular destination near Downtown Pittsburgh is The Strip District. "The Strip", as it is familiarly known, is just that – a narrow strip of land in a flood plain confined by natural boundaries: the Allegheny River to the north and the extension of Grant's Hill to the south. Throughout the 19th century, the Strip's location and access to transportation made it ideal for industrial development. As early as the 1820s and 1830s, the Strip District was home to iron mills, foundries and glass factories. After the Civil War, industrial development flourished and new construction continued to move east, with factories lining the Allegheny River. The Strip District was the location for a number of significant "firsts". Andrew Carnegie got his start in the iron and steel industries in the Strip, ALCOA began commercial production of aluminum, and George Westinghouse built his first factory to produce air brakes. Today the Strip District is best known for its retail produce and ethnic food stores, restaurants and coffee shops. (www.neighborsinthestrip.com) (Enc. 195)

Residents of the SPC interact in Downtown Pittsburgh, not only for work, but also for shopping.

Ross Park Mall

Anchored by Kaufmann's, JC Penney, Lazarus and Sears, Ross Park Mall makes shopping fun. In addition to the four major department stores, Media Play, DSW and nearly 150 specialty stores make up this 1,235,000 square-foot, multi-level shopping center. Ross Park Mall is accessible from any of the surrounding suburbs. (Enc. 196) The Ross Park Mall trade area includes Cranberry (Butler County), the highest growth area in Western Pennsylvania. This premier shopping center is located off of McKnight Road, approximately 9 miles/15 minutes north of Pittsburgh. (Enc. 197) The Mall hosted more than 10 million shopper visits in 1999. (www.simon.com) (Enc. 198)

Within the Pittsburgh Designated Market Area, 414,845 adults shopped at Ross Park Mall in the past 3 months (Scarborough Research). (Enc. 199) Of these shoppers, 405,755 adults (98%) came from the SPC. Scarborough Research reports that 19.7% of all adults in the SPC shopped at Ross Park Mall in the past 3 months. (Enc. 200) This further demonstrates that residents from all 10 counties co-mingle while shopping.

Additional shopping complexes: (Enc. 199-200)

Name	Total PIT shoppers	Shoppers from the SPC	
South Hills Village	410,535	388,125	95%
Westmoreland Mall	319,015	317,430	99%
Waterworks Mall	275,305	267,935	97%
North Hills Village	268,865	258,430	96%
Northway Mall	261,415	250,980	96%
Cranberry Mall	267,465	230,280	86%
Century Square	221,040	221,040	100%
Station Square	226,675	219,960	97%

Summary

Looking at the multiple examples of shopping tendencies in the SPC, it is evident that residents of the SPC shop at the same locations. It is also worthy to note that the malls in the SPC are more than shopping destinations, they are entertainment and dining destinations. This proves that residents of the SPC interact as one community while shopping, dining and enjoying the entertainment provided by these large mall complexes.

**US AIRWAYS FEDERAL CREDIT UNION
EMPLOYMENT
(NCUA Page Two)**

(2) Employment

According to the Southwestern Pennsylvania Commission's Profile of General Demographic Characteristics – 2000, there were 2,656,007 total residents living within the SPC (**Enclosure 5**). According to the census.gov Web site (**Enclosure 6**) a total of 1,179,218 aged 16 years and older were employed and of the total employed, 1,141,829 (or 97%) residents worked within the SPC and 37,389 (or 3%) residents worked outside of the SPC.

In addition, a total of 666,628 (or 57%) of employed residents within the SPC worked in the Pittsburgh metro region (Allegheny County). Please refer to the table below for more detail (Also **Enclosure 6**).

County	Population	Employed	Employed in Allegheny County
TOTAL	2,656,007	1,179,218	666,628

Shared Educational Facilities -

Third Party Documentation

There are multiple educational facilities throughout the SPC, ranging from public and private universities to technical and community colleges. We profiled one of the largest public universities, the University of Pittsburgh – Pittsburgh, one of the largest private universities, Robert Morris University – Moon Township and one of the largest community colleges, Community College of Allegheny County (CCAC).

University of Pittsburgh

The University of Pittsburgh is located in Pittsburgh (Allegheny County). Founded in 1787, it is considered one of the nation's oldest educational institutions. (Enc. 147) With more than 392 degree programs, the university is most known for their medical programs and their affiliation with the University of Pittsburgh Medical Center (UPMC). (Enc. 148) They are also ranked among the top ten universities nationally in terms of annual research support by the National Institutes of Health. Part of the Big East Conference, the university has won national championships in football and conference titles in many sports. The University of Pittsburgh also has campus locations in Bradford, Greensburg, Johnstown and Titusville, Pennsylvania. (Enc. 147)

According to the University of Pittsburgh Institutional Research and Reporting, there were 34,003 total students enrolled during the Fall of 2002. (Enc. 148) Of the 34,003 enrolled, 16,641 or 49% were from the Southwestern Pennsylvania Community. (Enc. 149)

Robert Morris University

Robert Morris University is one of the largest private universities located in Moon Township (Allegheny County). This university offers over 30 undergraduate academic majors and 13 masters and doctoral degree programs. (Enc. 150-151) Robert Morris University is nationally known for its strong business, technology and communications programs. The university also has 17 intercollegiate men's and women's sports teams, all of which compete in the Northeast Conference. (Enc. 152)

According to the Director of Institutional Research at Robert Morris University, there were 4,816 total students (3,735 undergraduate and 1,081 graduate students) enrolled during the Fall 2003 term. (Enc. 153)

Of the 3,735 undergraduates enrolled, 81% came from the following five counties from the Southwestern Pennsylvania Community: (Enc. 153)

Undergraduate Student Enrollment by County

- Allegheny
- Beaver
- Washington
- Butler/Westmoreland
- Other

Out of the 1,081 graduate students enrolled, 76% came from the following five counties from the Southwestern Pennsylvania Community: (Enc. 153)

Graduate Student Enrollment by County

- Allegheny
- Beaver
- Butler/Westmoreland
- Washington
- Other

Community College of Allegheny County (CCAC)

CCAC is one of the largest community colleges in the SPC. The college offers 2-year degrees in fields such as health care, business and industry, human relations and information technology. According to their Web site, 94% of their career program students remain in western Pennsylvania after graduation. (Enc. 154) With 19,271 students enrolled in the 2003 Fall Term, 97% of the students were from the SPC. This data is documented in the Community College of Allegheny County Geographic Analysis Report. (Enc. 155) The following chart is a breakdown of CCAC students by SPC county:

Allegheny	16,218
Armstrong	135
Beaver	141
Butler	198
Fayette	175
Greene	33
Indiana	42
Lawrence	33
Washington	1,130
Westmoreland	510

Summary

It is apparent from this documentation from three typical institutions of higher education that residents of the SPC interact while attending institutions of higher education located within the SPC further supporting our contention that the SPC is a single well-defined community.

Pittsburgh Regional Alliance (PRA) –

(Third Party Documentation for PRA may be found under Enclosure 50)

The PRA is a non-profit economic development organization, working in concert with public, private and civic organizations to generate and serve business creation, expansion and relocation, and to aid employers in the growth of skilled talent pool in the 10-county SPC.

The PRA has one mission: To generate and serve customers of Southwestern Pennsylvania. Their services and initiatives include:

- Confidential Project Management – Their network of state and local economic development partners ensures that expanding or relocating companies receive the support they need to be successful.
- Comprehensive Information and Resources – the PRA provides data, demographics, information and resources that help companies learn about the SPC.
- Education and Workforce Training – INDEX, the Industry and Education Exchange, connects businesses with education and workforce training programs, helping employees obtain the specific skills that their company requires.
- Career Resources – The Career Resource Center provides links to job sources, workforce and industry data, networking groups and internship data.
- Pittsburgh Regional Champions – The Champions are more than 1,100 individuals volunteering their skills and enthusiasm in support of the region's marketing and economic development efforts.

Because of the far-reaching nature of their mission, the PRA's strategy recognizes that economic development is a regional effort, one where success can only be accomplished by working with many others – including public, private, civic and economic development organizations within the SPC and those beyond the region, such as the Governor's Action Team and federal partners. (Enc. 51)

The PRA's success in accomplishing this mission has resulted in the organization being recognized by Site Selection magazine as a Top 10 Economic Development Group for 2001. (Enc. 51)

The PRA has three major areas of focus. First is business attraction – working with businesses that are considering expanding their operations to the region or relocating here from another market. Second is the expansion of existing businesses by ensuring that they receive assistance and resources required to foster new jobs and growth. And third is workforce development, which strives to ensure that the growing industries of the SPC have an adequate supply of workers with the skills and knowledge needed for the future.

As a vital part of all these roles, the PRA also acts as a clearinghouse for information about the region, maintaining regional data, demographics and real estate databases. In addition, it provides strategic counsel on emerging regional trends to business executives who are investing in the Pittsburgh Region. (Enc. 51)

The PRA also heads the regional branding initiative for the SPC. The vision of the initiative is to convey the reality that this region possesses a unique combination of community focus and civic/economic resources – coupled with an unparalleled ease of access to both – that can lead to individual fulfillment and a high quality of life.

The goals of the Pittsburgh branding initiative are:

1. Align perceptions of the Pittsburgh region with its positive “realities” and promising vision for the future
2. Be considered as part of the competitive set of mid-tier fast growing regions as measured by increased tourism, talent and business growth
3. Provide a blueprint for integrated messaging and a focused strategy for future investments and marketing of the region

In order to achieve the brand vision, the region must:

- Set high standards and commit to innovative initiatives that will transform, enhance and sustain our product offering
- Provide a critical mass of choices and resources leading to opportunity and fulfillment, all within the environment that balances the needs of the community with the needs of the individual
- Build our capacity for greater collaboration and diversity, and stimulate increased interaction between separate entities both within the SPC and on the global stage (Enc. 52)

Pittsburgh’s uniqueness is derived from a distinct set of brand strengths. It is the combination of all of these strengths, not any one individually, that serves to differentiate the Pittsburgh brand and define the region.

- World Class Urban Setting.....Small Town Feel
- A Genuine Opportunity to Make an Impact
- Heritage and Current Home of Innovation and Transformation
- Pride in Working, Making & Creating
- Rivers, Mountains & Outdoor Adventure Surrounding Unique Urban Beauty (Enc. 53)

The PRA’s branding initiative translates the region’s brand strengths into a single core concept that defines the SPC. Pittsburgh’s brand strengths all stem from a core concept that is based on the region’s history of connected individuality. In reality, Pittsburgh was first branded 200 years ago when it was called “Gateway to the West”, connecting East to West at the Forks of the Ohio. Later, our region connected immigrants to opportunity by forging entire new industries, based on the confluence of capital and innovation, and ultimately, the individuality of diverse leaders who brought vitality and a strong work ethic to the SPC.

Today, the Pittsburgh region offers connections of a new and different kind, but they remain based on the same premise that historically made Pittsburgh vital and innovative. In an age where people can choose to work and live virtually anywhere in the world, Pittsburgh provides the connections that are essential to achieving success, not only in our own backyards but also on a global stage if so desired. (Enc. 53)

The Pittsburgh region is, after all, Mister Roger's Neighborhood. Fred Rogers was one of the SPC's most beloved sons and he put simple words to the idea of connected individuality. On the one hand, he celebrated the "specialness" of each individual person. Simultaneously, he reinforced the importance of our connections with family, friends, and the community, our neighborhood.

Ultimately, the underlying theme of the SPC's brand is "accomplishment through connected individuality – linking vital individuals, vital communities and vital resources". (Enc. 54)

Several organizations within the SPC have already taken the underlying theme of the brand to develop taglines. For example:

1. The Pittsburgh Regional Alliance uses the phrase, "No Barriers, Just Bridges"
2. WQED Multimedia adopted the tagline, "Stay Connected"
3. The Greater Pittsburgh Chamber of Commerce is producing its first regional membership directory titled, "Connections: Pittsburgh Region 2003". (Enc. 54)

The PRA has developed the Pittsburgh Region Marketing ToolKit. This toolkit is designed to help people all over the world understand that the Pittsburgh region is "where it all comes together". (Enc. 55)

The fact that the Pittsburgh region has its own brand is especially compelling proof that this region is a unique, well-defined community. The unique challenges of "location branding" further demonstrate this fact. Challenges include:

1. Location branding must cover the gamut of economic development, investment, talent, tourism, higher education, political interests, trade, etc.
2. The lack of a single guardian of the brand. It's easy to see by looking at the many groups of the SPC that there are many interdependent stakeholders. The goal of the branding initiative is to help these groups share a common and cohesive agenda and strategy, and ultimately make more effective use of marketing dollars.
3. The branding can't stand alone but is part of many other initiatives. What it can do is provide a strategic framework for future action and communication strategies.
4. Collaboration and consensus building will be key to success. All of the various groups marketing the region must "buy-in" so the message can remain consistent across multiple and varied audiences.
5. The brand must be real and built on tangible and unified strengths. (Enc. 56)

The Pittsburgh branding message targets several different audiences to show the desired brand image of the entire SPC. Three of these audiences include talent, business and visitors.

Branding aimed at Talent (Enc. 57)

The Pittsburgh region is an incredibly vibrant place where people can create their own definition of success and have access to the means to achieve it – for a life that is both professionally and personally fulfilling.

Messages:

- It's a safe, friendly, manageable, comfortable and affordable place that is conducive to balancing work and life outside work.
- Here individuals can make an impact, get involved in their communities and produce significant accomplishments.
- Job opportunities abound.
- Recreational opportunities abound. The region offers a diverse array of cultural, urban, sports and outdoor activities.
- There is ready access to the resources that fuel success.
- There is a sense of belonging and connectedness – by neighborhoods, by technology, by the sharing of ideas.
- It's physically beautiful and refreshingly authentic – truly one-of-a-kind.

Branding aimed at Business (Enc. 57)

The Pittsburgh region is a highly attractive, one-of-a-kind place to locate a business because it has an exciting convergence of people and resources that create opportunities for success, and a real commitment to forging the links that help businesses thrive.

Messages:

- It is centrally located in the prime Northeast business corridor, connected by direct flight to America's commerce centers.
- There is ready access to resources (quality workforce, tax incentives, real estate, intellectual capital, funding, economic development support, etc.)
- Employees will feel welcome and "connected" to the community
- Employees will be impressed by the choice of affordable options for living, whether they desire an urban, suburban or rural setting.
- The quality of life here is unparalleled, and the city is real, genuine and natural.

Branding aimed at Visitors (Enc. 57)

For a memorable vacation gateway, the Pittsburgh region offers a rich and diverse array of cultural, family-oriented, heritage and outdoor experiences to ensure a good time is had by all.

Messages:

- Natural beauty and topological diversity.
- A wide variety of opportunities for intellectual, cultural and physical stimulation and excitement.
- Critical mass of affordable attractions; some one-of-a-kind and several world-class. (The Warhol Museum, Fallingwater)
- Ease of getting here and getting around.
- Safe.
- Not intimidating – the people and the region are genuine and authentic.
- Truly an original region, like no other.
- Feeling of togetherness, with each family member having a choice of attraction to visit.

Please see the advertisement that demonstrates the branding currently taking place for the Pittsburgh region. This advertisement appeared in the November 2003 issue of Fortune Magazine. (Enc. 58)

Pennsylvania Economy League

The Pennsylvania Economy League, Inc., Western Division is a nonprofit, civic organization whose mission is to provide the research and analysis for the business, civic and governmental leadership of western Pennsylvania in efforts to effectuate change to make the SPC a better place to live, work and do business. To fulfill its mission, the Pennsylvania Economy League/Western Division maintains a network of private leadership and staff throughout the region to identify problems and opportunities. (Enc. 71) The Western Division's area includes the 10 county SPC in addition to three other western counties. For a map of the Western Division's area, please refer to Enclosure 72.

Allegheny Conference on Community Development (Enc. 73)

The Allegheny Conference is a private, non-profit organization with the unique ability to convene corporate government and community leaders to frame, discuss and implement civic initiatives. In carrying out its objectives, the Conference will develop strategies that are:

- Regional: building on the assets of all 10 counties in the SPC and improving the economic status and quality of life for citizens in every county
- Inclusive: promoting opportunities for women, minorities and the international community in the regional economy
- Collaborative: working in partnership with other civic organizations, supporting the leadership efforts of public officials at the local, state and federal levels, and involving the general public as appropriate
- Cost-effective: helping to make the SPC a competitive region for businesses, workers and visitors.

In July 2000, the Conference Board adopted a new set of objectives in order to continue to fulfill its mission of improving the regional product. Three long-range visionary objectives were adopted and will be pursued in partnership with others:

1. Ensuring that all children in southwestern PA can read, write and compute by the age of 10
2. Promoting the growth of businesses and jobs based on new technologies
3. Developing amenities that will make southwestern PA one of the top regions in the country for attracting young, skilled, mobile workers. (Enc. 73)

**US AIRWAYS FEDERAL CREDIT UNION
EMPLOYMENT
(NCUA Page Two)**

(3) Community Events

Community Events were used to document that residents from throughout the SPC have much in common and interact at events such as fairs and festivals located throughout the region. The largest of these events are the Three Rivers Arts Festival and the Three Rivers Regatta.

The following enclosures provide additional information supporting the statistical information for these events. These enclosures better demonstrate that the Scarborough Research survey included residents from the entire proposed community, not just Pittsburgh. The information provided states the respondents are from the 10 county aggregate of Allegheny, Armstrong, Beaver, Butler, Fayette, Green, Indiana, Lawrence, Washington and Westmoreland (**Enclosure 8**).

Summary

As noted in the original proposal, according to Scarborough Research, 237,985 adults from the SPC reported attending the Three Rivers Arts Festival last year (**Enclosure 8**). Additionally, 155,390 adults from the SPC reported attending the Three Rivers Regatta last year (**Enclosure 8**). The following enclosures prove the population surveyed includes residents from the entire proposed community. This information was discussed on pages 67-68 of our original proposal and documented in enclosure 241.

Festivals and Fairs

In addition to amusement park entertainment, residents of the SPC interact at fairs and festivals located throughout the region. Two of the larger events are the Three Rivers Arts Festival and the Three Rivers Regatta.

Three Rivers Arts Festival

The Three Rivers Arts Festival is a Pittsburgh tradition in its 44th year downtown that bridges artistic style and expression, mixing the contemporary visual arts, painting, sculpture, crafts and photography and new media, with live music, theater and dance performances. The Festival is a 17 day long event that over 600,000 people attend each year. They mount public art exhibitions, including sculpture in Point State Park, exhibitions at the Three Rivers Arts Festival Gallery, Wood Street Gallery and other settings. They present over 100 performances by musical, dance and spoken work artists on five different stages in Point State Park and downtown Pittsburgh. The Festival also has programming for children and their families. (Enc. 240)

The Three Rivers Arts Festival was inceptioned in 1959 by the Carnegie Women's Group. It started as a small outdoor venue to exhibit local artwork and performances. Since then the festival has grown in numbers and expanded its mandate to bring the City of Pittsburgh a celebration of the arts in our city. (www.volunteersolutions.org) (Enc. 240)

Over one-third of all of the visitors to the Festival are from the SPC. According to Scarborough research, 237,985 adults from the SPC reported attending the Festival last year. (Enc. 241)

Three Rivers Regatta

The Pittsburgh Three Rivers Regatta is a non-profit 501 (c) 3 community celebration established in 1977. As a premier regional festival of 26 years, the land, air and water event is one of the top festivals in the country. The largest inland regatta in the United States is host to over 20 daily events, including powerboat racing, fireworks, water-ski shows, extreme sports and national-act concerts. The Regatta generates a \$32 million economic impact on the City's business volume. It generates a \$24 million economic impact on Allegheny County's business volume. Additionally, it generates a \$13 million economic impact on Pennsylvania's business volume. (Enc. 242)

According to the Regatta's web site (www.threeriversregatta.com), the estimated attendance for the 4 day event is 200,000 – 400,000 people. (Enc. 242) According to Scarborough research, 155,390 adults from the SPC reported attending the Regatta last year. (Enc. 241) This means approximately 78% of the attendees at the Regatta came from the SPC if the lowest attendance estimate (200,000) is used. When using the highest attendance estimate (400,000), adults from the SPC still account for 39% of the total attendees.

Because Scarborough research does not track attendees under the age of 18, and the Regatta reports total estimated attendance, these percentages can both be assumed to be larger when attendees under the age of 18 are added. Based on this information, it can be concluded that between 50% and 90% of the total attendees at the Regatta are residents of the SPC. The Regatta is therefore, another avenue for residents of the SPC to interact with one-another socially within their well-defined community.

Looking at the multiple examples given throughout this section, there is ample evidence proving that residents from the SPC have much in common with regards to museums, zoos, amusement parks, fairs, festivals and events. The figures provided show direct interaction among the residents of the SPC, thus proving the SPC acts as a single well-defined community.

Media -

Third-party documentation regarding the circulation estimates of the *Pittsburgh Post-Gazette* and the *Tribune Review* are from the Audit of Bureau Circulation (ABC), the *Tribune Review* and Scarborough Research. The television station viewer totals are from individual television stations based on the Nielson Ratings. The radio station listener totals are from Scarborough Research. The intent is to demonstrate that residents of the Southwestern Pennsylvania Community (SPC) rely on the same media outlets for news, advertising, etc.

Third-Party Documentation

Newspapers

There are two major newspapers in Southwestern Pennsylvania: the *Pittsburgh Post-Gazette* and the *Tribune Review*.

According to Scarborough Research, there are 2,059,615 adults ages 18 or older in the SPC. (Enc. 100) Of this population, 596,630 adults (29% of the population) read the daily edition of the *Pittsburgh Post-Gazette*. (Enc. 101) Scarborough Research also reports that 915,495 adults (44.4% of the population) read the Sunday edition of the *Pittsburgh Post-Gazette*. (Enc. 102)

Scarborough Research further reports that 309,130 adults (15% of the population in the SPC) read the daily edition of the *Tribune Review*. (Enc. 103) Additionally, 428,210 adults (20.8% of the population in the SPC) read the Sunday edition of the *Tribune Review*. (Enc. 104)

Over 43% of the population in the SPC reads the daily edition of either the *Pittsburgh Post-Gazette* or the *Tribune Review*. The majority of the population in the SPC, over 65% of the population, reads the Sunday edition of one of these newspapers. This shows the direct correlation between the ten counties and on whom they rely for news and advertising.

Further evidence can be found by examining additional documentation. The ABC's Audit Report for the *Pittsburgh Post-Gazette* listed the average projected paid circulation for the *Pittsburgh Post-Gazette*, showing there are 239,742 daily papers and 390,054 Sunday papers delivered to households in the SPC. (Enc. 105) The circulation totals are 244,969 daily papers and 410,879 Sunday papers. (Enc. 106)

In an email from the *Tribune Review*, a representative noted the circulation numbers for the daily and Sunday newspaper distribution in the SPC. This showed that 118,913 daily papers and 164,518 Sunday papers were delivered to households in the SPC. (Enc. 107) The circulation totals are 120,518 daily papers and 182,805 Sunday papers. (Enc. 108)

With over 97% of the *Pittsburgh Post-Gazette* daily circulation and over 94% of the Sunday circulation coming from the SPC, it is evident that residents of all 10 counties in the SPC rely on the same media publications for news, advertising, etc. Likewise, with over 98% of the *Tribune Review* daily circulation and 90% of the Sunday circulation coming from the SPC, this also shows the correlation between the residents of the ten counties and on whom they rely for news, advertising, etc. The extremely high percentage of SPC residents reading the same newspapers helps support the facts that the SPC is a well-defined community

Other Periodicals

Pittsburgh Magazine

Pittsburgh Magazine, a monthly publication from WQED, has been serving the Southwestern Pennsylvania Community for over 30 years. According to Scarborough research, 97,910 adults in the SPC read *Pittsburgh Magazine* each month. (Enc. 109) The total readership of *Pittsburgh Magazine* each month is 120,000. (Enc. 110) 60%

Pittsburgh Business Times

The *Pittsburgh Business Times* is a weekly publication that is read by 36,850 adults in the SPC each week, according to Scarborough Research. (Enc. 111) The total readership of the *Pittsburgh Business Times* is 61,000 each week. (Enc. 112) 60%

Pittsburgh City Paper

Pittsburgh City Paper, a weekly publication, was first published in November 1991. (Enc. 113) Since then, *Pittsburgh City Paper*, has grown to become the leading alternative publication in the region. It has extensive arts and entertainment coverage, local news coverage, unique columns and comprehensive event and dining listings. According to Scarborough Research, each month 215,148 adults in the SPC read the *Pittsburgh City Paper*. (Enc. 114) The total readership of the *Pittsburgh City Paper* is 359,000 each month. (Enc. 115) 60%

With over 81% of *Pittsburgh Magazine's* monthly readership, over 60% of *Pittsburgh Business Times's* weekly readership, and over 59% of *Pittsburgh City Paper's* monthly readership coming from the SPC, it is evident that all 10 counties in the SPC rely on the same periodicals for news, advertising, and other information.

The extremely high percentage of SPC residents reading the same periodicals helps further support the facts that the SPC is a well-defined community.

**US AIRWAYS FEDERAL CREDIT UNION
EMPLOYMENT
(NCUA Page Two)**

(4) Sporting Events

Sporting Events were used to document that residents from the SPC have much in common and interact at various football, baseball, hockey and soccer games located throughout the region.

The largest of these events are Pittsburgh Steelers football games and Pittsburgh Penguins hockey games. 72% of the attendees at Pittsburgh Steelers football games are from the SPC. 46% of the attendees at Pittsburgh Penguins hockey games are from the SPC.

The University of Pittsburgh football team attracts 355,183 attendees to their football games annually (**Enclosure 174 – original proposal**). Of which, 38% of the attendees are from the SPC (**Enclosure 9**). We have reason to believe that if the University of Pittsburgh students whose permanent residence is outside of the SPC were included, this percentage would be much higher.

Additional information is enclosed to support statistical information for sporting events (**Enclosure 9**). The supporting documentation obtained from Scarborough Research better indicates the population pool being reported to support these statements. The information provided states the respondents are from the 10 county aggregate of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland.

Summary

By examining the statistics of attendance at professional and college sporting events, it is evident that SPC residents depend on the same types of events for their sporting entertainment, thus proving there is community interaction among the SPC residents. This information is contained on page 52 of our original proposal summarized from enclosures 157 and 160-161.

Sporting Events -

Third-party documentation providing evidence of community interaction through professional sporting events.

Pittsburgh and the surrounding communities are rich in athletic activities. As a result, many people from the counties of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington and Westmoreland attend various professional Pittsburgh sporting events.

Professional Teams

Pittsburgh Steelers

The Pittsburgh Steelers are the professional men's football team that plays in downtown Pittsburgh at Heinz Field (Allegheny County). Probably the most popular team in the City of Pittsburgh, the Steelers typically sell-out every game in a season. Sold out seasons have been recorded since the early 1970s. This is due to a history of winning seasons and Super Bowl appearances that have helped the team become popular. The Steelers have built a strong fan base, resulting in long waiting lists for the purchase of season tickets.

The Steelers host many premier players including Jerome Bettis (a running back), Heinz Ward (a wide receiver), Joey Porter (a linebacker) and Tommy Maddox (the quarterback). According to the Pittsburgh Steelers organization, 477,584 people attended a Steelers game in the past year. (Enc. 156) Of the total attendees, Scarborough Research reported that 345,585 people (18 years and older) came from the SPC. (Enc. 157) **This shows that 72% of the attendees came from the SPC and proves that SPC residents rely on the same types of sporting events for entertainment.**

Pittsburgh Penguins

The Pittsburgh Penguins are the professional men's hockey team that plays in the Mellon Arena, located in downtown Pittsburgh (Allegheny County). The Penguins have become a popular hockey team because of their winning history and back-to-back Stanley Cup Championship wins in 1991 and 1992. (Enc. 158) They sell-out almost every game due to fan interest in their premier players Mario Lemieux (a center), and Jean-Sebastian Aubin (a goaltender).

The Mellon Arena is the oldest arena in the National Hockey League. (Enc. 159) According to the Pittsburgh Penguins organization, 604,728 people attended a Penguins game in the past year. (Enc. 160) Out of that number, Scarborough Research reported that 278,540 people (18 years and older) came from the SPC. (Enc. 161) **This shows that 46% of the attendees came from the SPC and proves that SPC residents rely on the same types of sporting events for entertainment.**

Pittsburgh Pirates

The Pittsburgh Pirates are the professional men's baseball team that plays in downtown Pittsburgh at PNC Park (Allegheny County). The Pirates have won a total of five World Series titles and have a rich historical background that surrounds the team. Few cities can match Pittsburgh's 115 year relationship with the same ball club. (Enc. 162)

In 2000, a crowd of 55,351, the largest ever to see a regular season baseball game in Pittsburgh, watched the final baseball game between the Pirates and Chicago Cubs at Three Rivers Stadium, the former home of the Pirates. (Enc. 163) In 2001, the Pirates moved to their new and exciting home, PNC Park. PNC Park drew an impressive first game opening attendance of 36,954 fans to its inaugural game on April 9, 2001. (Enc. 164)

It is quite possible to see 30,000+ fans at any given game. According to the Pittsburgh Pirates organization, 1,636,751 people attended a Pirates game in the past year. (Enc. 165) Out of that number, Scarborough Research reported that 625,855 people (18 years and older) came from the SPC. (Enc. 166) **This shows that 38% of the attendees came from the SPC and proves that SPC residents rely on the same types of sporting events for entertainment.**

Pittsburgh Riverhounds

The Pittsburgh Riverhounds are the Professional Men's A-League Soccer Franchise that plays outdoors at the Bethel Park Stadium in Pittsburgh PA (Allegheny County). (Enc. 167) Awarded to Alliance Soccer Resources, Inc. on March 11, 1998, the Riverhounds are the first professional outdoor soccer team to play in the Pittsburgh area in the last 30 years. (Enc. 168) As a new sporting event to watch, the Riverhounds have appealed to a fan base of all ages because of their friendly and entertaining game atmosphere. Because the sport is popular among children and teens, the Riverhounds have attracted many young boys and girls aspiring to play soccer as a career.

For the 2004 season, the Riverhounds will play all home games at the Moon High School Stadium located in Moon Township, PA (Allegheny County). The new stadium was chosen in an effort to provide easier accessibility and attract more fans to the Riverhounds games. The Moon Area High School Stadium seats approximately 4,300 fans (Enc. 169) The Riverhounds are still in the process of gaining fans, and based on seating capacity at their new Stadium, less than 64,500 people attended a Riverhounds home game in the past year. (Enc. 170 shows that 15 games were played at home) Out of that number, Scarborough Research reported that 28,120 people (18 years and older) came from the SPC. (Enc. 171) **This shows that 44% of the attendees were from the SPC and proves that SPC residents rely on the same sporting events for entertainment.**

Air Travel

The Pittsburgh International Airport (PIT) is a world-class facility that accommodates nearly 20 million travelers in nearly 450,000 aircraft operations per year. With more than 600 non-stop flights per day to 118 destinations, PIT is served by more than 20 air carriers as well as being US Airways largest hub. PIT has been frequently recognized for its quality in meeting traveler's needs. PIT is within a 90-minute flight to 70% of North America's population. (Enc. 96)

The SPC also has numerous regional airports located in each of its counties. The individual airports are listed below. See the following documentation for a map and detailed listing of these regional airports. (Enc. 97)

<u>County</u>	<u>Airport Name</u>
Allegheny	Allegheny County Airport (AGC)
	Culmerville Airport (G04)
	Inter County Airport (31D)
	Pittsburgh Monroeville Airport (4G0)
	Rock Airport of Pittsburgh (9G1)
Armstrong	McVile Airport (P37)
Beaver	Beaver County Airport (BV1)
	Zelienople Municipal Airport (8G7)
Butler	Butler County/K.W. Scholter Field Airport (BTP)
	Butler Farm Show Airport (3G9)
	Lakehill Airport
Fayette	Connellsville Airport (2G3)
	Mt. Pleasant -Scottsdale Airport (P45)
	Seven Springs Airport (7SP)
	Nemacolin Airport
	W.P.H.S. Airport (P99)
Greene	Greene County Airport (WAY)
Indiana	Indiana County/Jimmy Stewart Airport (IDI)
Lawrence	New Castle Municipal Airport (UCP)
Washington	Bandel Airport (22D)
	Washington County Airport (AFI)
	Finleyville Airport (G05)
	Miller Airport (P64)

Westmoreland

Arnold Palmer Regional Airport (LBE)
Greensburg-Jeannette Regional Airport (5G8)
Rostraver Airport (P53)

Traveling between counties is even faster if you fly. There are daily flights between Westmoreland County (Latrobe, PA) and Pittsburgh International Airport. (Enc. 98)

Future Transportation Plans for the SPC

Looking into the future is important when discussing both a community and its transportation. The SPC region's four-year Transportation Improvement Program (TIP) is the backbone of successful, short-term transportation planning. Correlated with the Long-Range Transportation Plan, the TIP determines the top-priority transportation projects and enhancements that can be advanced with available resources. The TIP contains about 400 highway projects and anticipates the investment of \$1.5 billion. TIP also contains 150 transit projects with an anticipated investment of \$1 billion. Regional transit projects range from better signage, improved shelters and fleet maintenance and replacement to substantial capital projects such as an intermodal center, maintenance facilities, the Martin Luther King, Jr. East Busway expansion and the North Shore Connector. The development of the 2005-2008 TIP is currently underway and is scheduled for June 2004 adoption. (Enc. 99)

Current and future means of transportation cover residents throughout the SPC helping to prove that the SPC is a single well-defined community were people interact and share common goals.

**US AIRWAYS FEDERAL CREDIT UNION
EMPLOYMENT
(NCUA Page Two)**

(2) Healthcare

Additional information is enclosed to support the statistics provided for the percentage of SPC residents age 18 or older who visited either a University of Pittsburgh Medical Center (UPMC) or West Penn Allegheny Health System (WPAHS) hospital. The total number of SPC residents age 18 or older who visited a hospital in the past three years and who visited a UPMC or WPAHS healthcare facility was obtained from Scarborough Research and calculated as evidenced below (**Enclosure 10**).

SPC residents age 18 or older	2,059,615
SPC residents age 18 or older who did not use a hospital in the past 3 years	<u>- 425,210</u>
SPC residents age 18 or older who visited a hospital in the past 3 years	1,634,405

Summary

It is significant to note that 90% of persons ages 18 or older in the SPC who attended a hospital in the last 3 years went to a UPMC or WPAHS hospital facility as shown by the following. The number (1,634,405) was the basis for the statistics in our original proposal demonstrating that 62% of the SPC patients (or 1,019,340 people ages 18 or older) visited a UPMC hospital facility. This number was also used to demonstrate that 28% of the SPC patients (or 460,090 people ages 18 or older) visited a WPAHS hospital facility. This information is detailed on pages 43-44 of our original proposal and contained in enclosures 130 and 141.

Shared Medical Facilities -

Third Party Documentation

Within the SPC, there are two major healthcare providers that serve the community as a whole. The largest is the University of Pittsburgh Medical Center (UPMC) with 13 of their 20 hospital facilities located in Allegheny County. The other major healthcare provider is the West Penn Allegheny Health System (WPAHS) with 5 of 6 hospital facilities in Allegheny County.

The University of Pittsburgh Medical Center (UPMC)

The University of Pittsburgh Medical Center (UPMC) is the largest healthcare provider and one of the largest nonprofit integrated health care systems in the United States. Of their 20 hospital facilities, the following 13 are located in Allegheny County: (Enc. 129)

- UPMC Presbyterian – Pittsburgh
- UPMC Shadyside – Pittsburgh
- UPMC Braddock – Braddock
- UPMC McKeesport – McKeesport
- UPMC Montefiore – Pittsburgh
- UPMC Passavant – Pittsburgh
- UPMC South Side – Pittsburgh
- UPMC St. Margaret – Pittsburgh
- Children’s Hospital of Pittsburgh of UPMC - Pittsburgh
- Eye and Ear Institute – Pittsburgh
- Magee – Women’s Hospital – Pittsburgh
- UPMC Rehabilitation Hospital – Pittsburgh
- Western Psychiatric Institute and Clinic – Pittsburgh

UPMC also has other healthcare sites, such as assisted living facilities, throughout the SPC. There is at least one site in each of the 10 counties of the SPC as evidenced on the map in Enclosure 129.

According to a study by Scarborough Research, a total of 1,634,405 people visited a hospital in the past three years throughout the SPC. 62% of these SPC patients (or 1,019,340 people ages 18 or older) visited a UPMC hospital facility. (Enc. 130)

Children's Hospital of Pittsburgh	
Magee - Women's Hospital	
UPMC Presbyterian	
UPMC Passavant	
UPMC Shadyside	
UPMC St. Margaret	
UPMC Montefiore	
Other UPMC Hospital	

According to their Web site, www.upmc.com, (Enc. 131-132) UPMC's annual patient activity includes more than: (Enc. 132)

- 4,000 licensed beds,
- 150,000 inpatient admissions,
- 3 million outpatient visits,
- 350,000 emergency visits,
- 115,000 total surgeries and
- 1 million home care visits

UPMC is also the largest employer in western Pennsylvania with more than 35,000 employees, generating an additional 80,000 jobs within a range of sectors. Employed are more than: 5,000 physicians, 200 behavioral health physicians, psychologists and professionals, 75 affiliated oncologists, 1,300 medical residents in 82 specialty areas and 1,200 nurses-in-training. (Enc. 131-132)

Serving 29 western Pennsylvania counties, including all of the SPC, UPMC locations put 90% of the western Pennsylvania and eastern Ohio populations within 30 minutes of UPMC treatment. (Enc. 133) UPMC has more than 400 doctors' offices and specialized outpatient centers throughout the primary service area. Other facilities include more than 50 rehabilitation hospital and outpatient facilities for physical, occupational, speech and specialty therapies, 14 freestanding retirement and long-term care facilities, more than 50 behavioral health locations and more than 40 cancer centers. (Enc. 131)

Also according to their Web site, UPMC was recently cited as one of the top 15 hospitals in the nation, earning a place in the U.S. News & World Report's hospital Honor Roll. The Health System offers internationally ranked programs in a number of specialties, including: (Enc. 134)

- Oncology
- Psychiatry
- Transplantation
- Cardiology
- Neurosurgery
- Orthopedics and Sports Medicine
- Arthritis
- Genetics
- Geriatrics
- HIV Care

At the heart of UPMC is the region's only academic medical center. Through its affiliation with the University of Pittsburgh School of Medicine (also located in Allegheny County) and other schools of the health sciences – the schools of Dental Medicine, Pharmacy, Nursing, Health and Rehabilitation Sciences and the Graduate School of Public Health – UPMC shares in the academic mission of the university of providing a broad range of programs in education, biomedical research, training, health promotion, diagnosis and treatment of disease and disability. (Enc. 134)

UPMC has an international clinical and research reputation, drawing patients from across the United States and more than 30 countries across the globe. The health system's academic partner, the University of Pittsburgh, is among the top recipients of National Institutes of Health research funding. (Enc. 135)

As a regional hub of medicine, education and research, UPMC attracts patients, students and scientific investment. Each dollar UPMC spends generates an additional \$1.25 in the region. Therefore, with an annual budget of more than \$4 billion, UPMC's regional economic impact is more than \$5 billion each year. (Enc. 136)

Their community impact is also overwhelming. UPMC is forging new partnerships in addition to the more than 3,000 community initiatives currently in place. Its varied programs help prevent and treat disease, develop the workforce, support business, protect vulnerable populations, enhance populations, enhance surrounding and generally improve the quality of life. (Enc. 137)

West Penn Allegheny Health System (WPAHS)

West Penn Allegheny Health System was Pittsburgh's first chartered public hospital since its incorporation in 1848. (Enc. 138) The WPAHS provides care to the people of Pittsburgh and the tri-state area, including the SPC. WPAHS has over 12,700 employees including more than 3,000 medical staff. (Enc. 139) They have 6 hospital facilities; 5 of which are located in Allegheny County and 1 in Washington County: (Enc. 140)

- Allegheny General Hospital in Pittsburgh – Pittsburgh
- Alle-Kiski Medical Center in Natrona Heights – Pittsburgh
- Forbes Regional Hospital in Monroeville – Monroeville
- Suburban General Hospital in Bellevue – Pittsburgh
- The Western Pennsylvania Hospital in Pittsburgh – Pittsburgh
- Canonsburg General Hospital in Washington County – Canonsburg

According to a research study by Scarborough Research, there were a total of 1,634,405 people who visited a hospital in the past three years throughout the SPC. As demonstrated in the following chart, 28% of these SPC patients (or 460,090 people ages 18 or older) visited a WPAHS hospital facility. (Enc. 141)

WPAHS Hospital	Number of Patients	% of Total
WPAHS Allegheny General Hospital	107,980	23.2%
Forbes Regional Health Center	100,550	21.6%
WPAHS Western PA Hospital	100,550	21.6%
Other WPAHS Hospital	51,010	11.0%

According to their Web site, www.westpennhospital.com, WPAHS's annual patient activity for each hospital includes: (Enc. 142)

Allegheny General	675	27,917	41,950	25,740
Alle-Kiski Medical	250	11,951	42,641	9,299
Canonsburg General	104	4,201	18,998	2,638
Forbes Regional	340	13,532	39,237	11,693
Suburban General	154	4,112	13,054	2,374
Western Pennsylvania	532	18,514	25,103	14,189

As a clinical campus for Philadelphia-based Temple University and as an affiliate of Clarion University, Indiana University of Pennsylvania, and Pennsylvania State University, West Penn Hospital provides distinguished undergraduate and graduate medical and health sciences education programs. The hospital is also committed to advancing medicine through clinical and basic research and is currently conducting studies in numerous areas, including breast cancer, bone marrow transplantation, cardiovascular diseases, cervical cancer, neuro-oncology, orthopedics and pain medicine. (Enc. 143)

WPAHS has earned national recognition for its bone marrow transplant program, which is the largest in Pennsylvania. It is also the only hospital in the region to be designated a Center of Excellence by the Myelodysplastic Syndromes Foundation. WPAHS's Burn Trauma Center is the largest burn care center in the tri-state area, and the first and only burn center in Pittsburgh to receive verification honors by the American College of Surgeons and the American Burn Association. (Enc. 144)

For more than 150 years, the West Penn Allegheny Health System has provided Pittsburgh and the tri-state area, including the SPC, with medical services through floods, flu epidemics, wars, depression, industrial prosperity and the renaissance. (Enc. 145) The WPAHS has a very rich history and many "firsts" in the Pittsburgh medical field. Below is their history timeline: (Enc. 146)

1848

First public hospital chartered in Pittsburgh

1862

First to build a hospital for the insane in the area

1863

First in the area to serve as a veterans hospital

1883

First in the area to sponsor a medical college

Conclusion -

We believe the above narrative, along with the enclosed supporting information, provides overwhelming evidence that the SPC is a single, separate, geographically well-defined community where citizens interact on a frequent basis, as well as share common goals and interests.

SPC residents share common resources, including major medical and educational facilities, and government. The overwhelming majority of SPC residents work, shop, worship, volunteer or attend school within the boundaries of the SPC. This has been demonstrated by transportation and shopping statistics as well as information supporting the fact that residents of the SPC rely on the same media outlets for news and information.

There are numerous community-based facilities, organizations, and special events in the SPC, which offer residents an opportunity to interact with one another. These organizations are an integral part of the Southwestern Pennsylvania community and represent a variety of interests within the SPC. These organizations range from the Carnegie Museums to the amusement park facilities located within the SPC.

Based on the documentation provided in this proposal, we believe USAFCU has provided ample evidence that the SPC is a separate, well-defined, local community, whose residents interact on a regular basis and share common interests and goals as required by NCUA.

The Commission

The Southwestern Pennsylvania Commission, or SPC, is the region's forum for collaboration, planning, and public decision-making. As the official Metropolitan Planning Organization (MPO) for the ten-county region including the City of Pittsburgh and the counties of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland, SPC is responsible for planning and prioritizing the use of all state and federal transportation funds allocated to the region. The Commission has the authority and responsibility to make decisions affecting the 10-county region. Click a menu selection on the right to view a complete or partial Commission Member

listing.

As the Local Development District (LDD) and Economic Development District for southwestern Pennsylvania (as designated by the U.S. Appalachian Regional Commission and the U.S. Department of Commerce), SPC establishes regional economic development priorities and provides a wide range of public services to the region.

Normally, the Commission meets every other month, generally the last Monday of the month. Members serve multi-year terms and may be reappointed. The chair and vice-chair, elected by voting members, serve one-year terms.

2030 Transportation & Development Plan Executive Summary

SPC is a forum where the people and local governments of Southwestern Pennsylvania can come together to discuss our region's economic development and transportation needs, prioritize goals and objectives, evaluate available resources and alternatives, and develop the most effective and realistic approach to building the foundation for our region's future.

The 2030 Regional Plan is the blueprint for this foundation: a collaborative design coordinating the region's economic development and transportation infrastructure investments to help enable Southwestern Pennsylvania to fully harness the benefits of the global economy and realize its vision of being recognized as one of the best places in the world to live, work, play and invest.

A broad range of local representatives grappled with the issue of balancing the quest for new development and prosperity with protecting the environment and achieving the desired quality of life. These deliberations produced the regional vision statement and set the major priorities, goals and objectives needed to achieve the vision.

The 2030 Regional Plan outlines an integrated program of projects and policy actions that are guided by the principle that the relationship between economic development and the region's transportation system is fundamental.

This Plan focuses on achieving balanced, cost effective growth and development by targeting population centers with existing infrastructure and integrating economic development and transportation system priorities.

[top]

GOALS AND OBJECTIVES

The adopted vision statement of the 2030 Transportation and Development Plan for Southwestern Pennsylvania is supported by twenty-one goal statements. They are significant in that they articulate the common

Note: Babel Fish is a third-party resource and a computer translation of the original webpage. It is provided for general information only and should not be regarded as complete or accurate.

aspirations of SPC's members and partners for the future of the region.

1. Land use and community development throughout the region will be well planned to protect our natural amenities and to strengthen communities, offering a variety of living environments, good public services, a well-balanced economy, and family-sustaining jobs, accessible from comfortable, affordable homes.

[top]

2. The region's quality of life will be a competitive advantage to attract and retain businesses and residents, and regional prosperity will produce sustainable and manageable population growth.

[top]

3. Local governments throughout southwestern Pennsylvania will cooperate and will deliver services fairly and efficiently.

[top]

4. Citizens will be actively involved in local and regional policy making.

[top]

5. Residents of the region will have access to an adequate and diverse supply of affordable, well maintained housing.

[top]

6. The region will have world-class cultural, heritage, historic, recreational, and entertainment assets, visited by local residents and visitors to the area.

[top]

7. The region will have clean air.

[top]

8. The region will have clean water.

Welcome To SPC!

The Southwestern Pennsylvania Commission, or SPC, is the regional planning agency serving the Pittsburgh 10-county area and providing essential services to the region. The official Metropolitan Planning Organization (MPO), SPC directs the use of all state and federal transportation and economic development funds allocated to the region—approximately \$33 billion through 2030. For example, SPC helps counties, cities, municipalities, and townships use federal transportation funds in a timely way.

SPC is also the region's designated Local Development District and Economic Development District by the US Appalachian Regional Commission and the US Department of Commerce. In this role, SPC establishes regional economic development priorities and provides a wide range of services to the region. [more . . .]

THE COMMISSION

The Southwestern Pennsylvania Commission (SPC) is the 60+-member governing body for the Corporation comprised of representatives from all 10 counties (5 members each), the City of Pittsburgh (5 members), the Governor's office (one member), and other state and federal agencies.

Dave Coder
Chairman

The Commission is the regional forum for collaboration, planning and public decision-making regarding transportation and land use issues in southwestern Pennsylvania. [more . . .]

THE CORPORATION

The Southwestern Pennsylvania Corporation is the administrative arm of the Southwestern Pennsylvania Commission. Taking its direction from the Commission, the Corporation executes the three program areas:

Transportation, Planning and Development, and Information Systems. The 50+ staff members (see staff directory) are responsible for conducting the extensive and necessary work and research to provide important services to local governments and their planning departments. The Corporation also owns and manages the Regional Enterprise Tower. [more . . .]

James Hassinger
President, CEO

PITTSBURGH - The Southwestern Pennsylvania Commission (SPC) is the region's forum for collaboration, planning and public decision-making in Southwestern Pennsylvania, and now www.spcregion.org is the region's portal for accessing information about public planning in Southwestern Pennsylvania. At its annual meeting yesterday, SPC launched the new www.spcregion.org, an online gateway to all SPC member governments and related government agencies in Southwestern Pennsylvania. The site includes information about regional economic development and transportation planning, photos, maps, statistics and direct links to all member government homepages for quick access to government information in each county in the region.

The new www.spcregion.org not only enhances overall public access, but also helps those who are not native speakers of English or who perhaps do not speak English at all to find information about all of SPC's planning functions and services in eight languages. The site incorporates AltaVista's new Babel Fish instant translation technology and provides one-click translation of not only www.spcregion.org, but also all websites directly accessed through SPC's gateway. This is the first such regional use of instant translation technology in the country.

This site opens up regional planning information to a much wider local and international audience, as non-English speakers from Southwestern Pennsylvania and around the world can access the websites of SPC member governments and regional partners and a wealth of resources in eight different languages. SPC is the state's coordinator for international export development programs and works with the Department of Commerce and other agencies locally to improve international business access. Now, business owners from around the world can also visit Southwestern Pennsylvania through www.spcregion.org and learn about what our region has to offer in their own language.

As the official Metropolitan Planning Organization (MPO) for the region, including the City of Pittsburgh and the counties of Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Lawrence, Washington, and Westmoreland, SPC is responsible for planning and prioritizing the use of all state and federal transportation funds allocated to the region. The Commission has the authority and responsibility to make decisions affecting the region.

Transit Operators Committee

The primary responsibilities of the Southwestern Pennsylvania Commission's Transit Operators Committee include:

- recommending the annual allocation of federal and state funding for transit operations and capital assistance in the Region;
- drafting the transit portion of the Transportation Improvement Program (TIP);
- tracking the use of federal transit funds on the TIP; and
- addressing other common transit issues of regional interest.

For more information on the Transit Operators Committee, contact Chuck Imbrogno at imbrogno@spc9.org.

Agencies and organizations represented on the Transit Operators Committee include:

Transit Operators

- Beaver County Transit Authority
- Butler City-Township Transit Authority
- Fayette Area Coordinated Transit GG&C Bus Company
- Indiana County Transit Authority
- Mid-County Transit Authority
- Mid-Mon Valley Transit Authority
- New Castle Area Transit Authority
- Port Authority of Allegheny County
- Westmoreland County Transit Authority

Associations

- Airport Corridor Transportation Association
- Oakland Transportation Management Association
- Pittsburgh Downtown Partnership

SPC Appalachian Regional Commission - Area Development Program

Click here for a list of ARC Committee Members.

Designated the Local Development District by the Appalachian Regional Commission, SPC plays a lead role in identifying priority needs of local communities by working with board members and local citizens to foster economic development, to target and meet the most pressing needs, and to build community unity and leadership.

SPC undertakes projects through the Area Development Program that address the five goals identified by ARC in its strategic plan.

1. Developing a knowledgeable and skilled population
2. Strengthening the Region's physical infrastructure
3. Building local and regional capacity
4. Creating a dynamic economic base
5. Fostering healthy people

SPC seeks to fund such projects as education and workforce training programs, highway construction, water and sewer system construction, leadership development programs, small business start-ups and expansions, and development of health-care resources to meet the area development goals.

Eligible projects:

- Technical assistance that provides basic services to enhance business development
- Industrial site development
- Local access road
- Acquisition and development of incubator facilities
- Commercial area revitalization.

The agency is key to project development and review, providing technical assistance to local project sponsors and sending priority recommendations to the State. All area development projects must be completed in close

Comprehensive Economic Development Strategy

Visit the CEDS section of the 2030 Transportation & Development Plan for Southwestern Pennsylvania

Aerial view of University Technology Park.

Visit the Economic Development Administration (EDA) of the US Department of Commerce

A well-planned, coordinated strategy for public priorities in economic development is critical at local, state, and federal levels for sound use of public dollars. As the federally designated Economic Development District (EDD), SPC is responsible for developing, monitoring, and updating the region's Comprehensive Economic Development Strategy (CEDS).

The Economic Development Administration (EDA) of the US Department of Commerce appointed SPC the region's EDD. With the endorsement of member governments, the EDA designates regional districts across the country to create and maintain CEDS.

These public-sector, EDA-approved plans for economic development are used as a guide in grant awards for water and sewer infrastructure systems, technology training centers, telecommunications facilities, research parks, and other major public-works projects.

The EDA provides grants for infrastructure development, local capacity building, and business development to help communities alleviate conditions of substantial and persistent unemployment and underemployment in economically distressed areas and regions. SPC receives planning funds from the EDA for economic development projects in southwestern Pennsylvania.

Visit a Map of KOZ Sites!

Keystone Opportunity Zones (KOZs)

SPC is the regional manager of the state's Keystone Opportunity Zone (KOZ) program, which encourages businesses and residents to locate in economically distressed areas by offering them a tax holiday until 2013. We partnered and contracted with the Cornerstone Development Group to create an enhanced marketing program to drive business to available KOZ sites.

Currently, we have identified nearly 6,000 acres in nine counties as areas where businesses can take advantage of local and state tax abatements to spur economic development and increase employment opportunities.

One highlight of SPC's KOZ program last year was the opening of the Mon Valley Care Center, a 101-bed, long-term care facility built on the site of a former high school in Washington County. This project is expected to create approximately 80 jobs.

Visit a Map of KOZ Sites!

For more information on Keystone Opportunity Zones, contact Kelly Hunt at (412) 391-5590 x343 or e-mail kellyhunt@spc9.org.

Business Finance (Loans)

In many of our communities, finding capital to create or expand businesses is a challenge. SPC acts as a public partner to reduce risk for local lenders while creating business opportunities for entrepreneurs. SPC plays a complementary role in putting together comprehensive loan packages in concert with industrial development corporations and community-based development departments.

Small businesses come to SPC to obtain low-interest rate loans for real estate, machinery, equipment, and working capital needs related to increasing their production capacity and operating efficiency, all of which encourage creation of additional job opportunities.

In the current turbulent economy, SPC business loans are in great demand. SPC's current loan portfolio contains more than 120 loans totaling a principal balance of \$12 million, and drawing on funds from 10 different state and federal business finance programs. In 2002, SPC used these funds to leverage matching investments to this region of more than \$24 million, resulting in 27 loans. This investment helped small businesses retain 469 jobs and create 360 new positions in the region.

SPC carefully reviews every business applying for assistance. Last year, SPC reviewed nearly 40 business plans. Where we spot cash-flow problems, as we did in 12 cases last year, our Business Renewal and Turnaround Assistance program can recommend solutions. This program offers companies affordable access to experts who can help them with strategic and tactical planning, reorganizations, debt restructuring, and crisis management.

For more information about SPC's Small Business Finance Program, contact **Donna Costantino-Rilling** at (412) 391-5590 x350 or dcostantino@spc9.org.

Community Assistance

SPC has broadened its Local Government Assistance program—now called Community Assistance—with a broader focus dealing with government and economic development issues.

Community Assistance helps local government officials solve, prioritize, and anticipate problems based on a self-assessment of their organization, functions and processes. Community Assistance also offers real estate, finance, and business deal expertise to local governments in order to help them move projects forward.

- Community Assistance
- Government Manuals
- Financial Training
- Equipment Sharing
- Recognizing Excellence
- MS4 Compliance Documents
- MS4 Compliance Links

Financial Training

Through collaboration with county officials, SPC identifies specific training topics in staff development and financial management. SPC locates consulting professionals in these areas who work with the counties directly.

In 2002, SPC offered a workshop on the county budgeting process for SPC member county finance directors and staff. The workshop focused on forecasting, fiscal analysis, and capital improvement planning. Due to overwhelming success and increased demand, a repeat-performance is scheduled for 2003.

[top]

Sharing Equipment

SPC makes municipalities in the region aware of the considerable cost savings available by sharing equipment through membership in a federal surplus depot located in Indiana County, one of only two such facilities in the country.

This depot makes federal surplus heavy

Government Procurement

SPC's Government Procurement Assistance program educates hundreds of smaller companies about the complex process of doing business with the federal government, focusing on the contract process that enables small businesses to compete in the government marketplace.

By collaborating with other business development organizations in 2002, SPC was able to maximize its resources and provide greater service to over 300 individual businesses. For example, SPC worked in cooperation with Indiana University of Pennsylvania and the Private Industry Council of Westmoreland/Fayette and shared in the Cooperative Agreement Grant. Last year the following organizations participated in our Government Procurement Assistance Program:

- Department of Defense
- U.S. Small Business Administration
- U.S. Department of Energy
- U.S. Army Corps of Engineers
- Minority Purchasing Council
- Minority Business Opportunity Committee
- Military Affairs Council
- Pennsylvania Departments of General Services, Community and Economic Development, and Transportation
- Local Small Business Development Centers

The results were most impressive:

- 42 businesses with no prior experience in government marketing began doing business with the federal government in 2002.
- 44 businesses received individual procurement assistance, educating them on the dynamics of the government marketplace, the bid process to win government opportunities, and matching their products and services with government needs.
- 168 businesses received free technical assistance, such as a briefing on federal regulations and specifications as well as detailed individual assistance in preparing proposals.
- Total awards for 2002 were 309 with a value of \$50,149,070.00.

For more information about our Government Procurement program, contact Gil Lutz at (412) 391-5590 x325 or glutz@spc9.org.

Export Development: 1-888-PA-EXPORT

The goal of SPC's Export Development Program is to provide and create opportunities for southwestern Pennsylvania businesses to expand their business internationally in order to increase export sales and employment opportunities for the region. The program provides customized, hands-on export developing counseling service to small and medium-sized businesses in the region.

Services include export readiness assessment, information research, market identification, market access strategies, and business plan implementation. Export Development also sponsors or co-sponsors educational seminars and training programs for exporters or potential exporters in the region.

Last year was a banner year for SPC's Export Development program: for the first time ever, the funding agency gave SPC a bonus grant for exceeding its performance goals. SPC coordinated with six regional partners within the Pennsylvania Export Network to provide export assistance to more than 300 companies in the region.

The collaborative efforts of SPC's Export Development program offers businesses access to international market research, business expertise, and practical tools to help with every step of the export development process. Click to read more about our successes.

For more information on the Export development program, contact **Rena Liu-Belshe**, Manager, at (412) 391-5590 x320 or e-mail renabelshe@spsc9.org.

Airport Planning

[View an Airport Map!](#)

SPC's active participation in the Federal Aviation Administration's Continuous Airport Systems Planning Program (CASPP) ensures that southwestern Pennsylvania will sustain its network of strong regional airports.

Through CASPP, SPC works to identify the immediate and future air transportation needs of the region and to develop a regional airport system plan. Aviation facilities will be required to meet the region's immediate and future air transportation needs. The system also:

- Defines the role of existing airports in the region
- Makes recommendations for airport expansions or new airport development
- Identifies threats to the preservation of existing aviation resources

SPC communicates this information to individual airports, who use this valuable information in their planning efforts, and to local decision-makers, who use this information in land-use and ground transportation planning.

Through an annual FAA grant, SPC maintains an inventory of all airport facilities in the region, administers an Aircraft Operations Counting Program at general aviation airports, and provides technical assistance to airports.

For more information on the Airport Planning program, contact Sara Walfoort at (412) 391-5590 x339 or e-mail swalfoort@spc9.org.

20/20 Vision

The Port Authority of Allegheny County and the Southwestern Pennsylvania Commission (SPC), in partnership with the Heinz Endowments, Port of Pittsburgh Commission, Steel Industry Heritage Corporation, along with the region's public transit agencies and a variety of other community partners, are developing a regional vision to identify transportation needs and recommend transportation improvements for Southwestern Pennsylvania.

The Strategic Regional Transit Visioning Study, entitled "20/20 Vision," is incorporating the ideas and suggestions of residents, community leaders,

employers and workers from Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Indiana, Washington and Westmoreland counties. Public participation and input, a critical component of this study, has resulted in an extensive set of comments about the status of transportation and development in our region, needed regional improvements, and suggestions pertaining to the role public transit can play in shaping the region.

In addition to the 20/20 Vision's public participation process and study objectives, the study team is also incorporating public input, transit analysis and transportation recommendations resulting from the Pennsylvania High-Speed Maglev Environmental Impact Statement (EIS), Eastern Corridor Transit Study and Airport Multimodal Corridor Study into the 20/20 Vision Study. Work and associated analysis related to these initiatives are still underway. These three major studies are scheduled to conclude by Summer 2004.

Types of Transit Service

With such diverse land uses within the southwestern Pennsylvania region, several types of transit services will need to be part of the region's transit vision to accommodate the region's overall transportation needs and improve county-to-county connections. Click here to read about the characteristics of various transit services. Click here to view a map that shows the area's existing transit service and the transit operator

The Southwestern Pennsylvania Corporation's resources are applied to three main purposes: SPC's day-to-day administrative operations; management of the Regional Enterprise Tower; and the agency's Work Program, which includes numerous technical planning and economic development studies and projects.

SPC's administrative arm is the Southwestern Pennsylvania Corporation, a non-profit 501(c)(3) organization with a staff of 51, which supports the Commission's work. Its operations, based at SPC's Regional Enterprise Tower in downtown Pittsburgh, are funded through a combination of member contributions, state and federal grants, in-kind donations, and sale of specialized information services.

State and federal governments are the largest sources of support for SPC's work. Excluding revenues associated with the Regional Enterprise Tower's Showcase Project and the HYP-Pittsburgh Club Project, SPC's primary operating revenues amounted to approximately \$7.3 million in FY2002.

The ratio of income to expenditures for the Regional Enterprise Tower is in keeping with financial projections in the five-year pro forma developed for the building. All cash flow projections have been positive.

The fiscal year for SPC runs from July 1 through June 30. The accompanying financial figures are those for the fiscal year ending June 30, 2002. The agency's financial records are kept on an accrual basis, and the summary figures shown here have been audited and accepted without qualification by Maher Duessel, an independent public accounting firm.

**Includes annual depreciation and amortization expense of \$1,549,101.

***Includes \$2,683,461 in state redevelopment assistance grant funds

The University of Pittsburgh

A Place to Discover

Founded in a log cabin in 1787, the University of Pittsburgh is among the oldest institutions of higher education in the United States. The University has nearly 169,000 alumni living in all 54 states and territories and 117 foreign countries whose accomplishments range from winning Olympic gold medals to unlocking the secrets of DNA. From University laboratories have come Jonas Salk's polio vaccine and the identification of Vitamin C. Today, this former frontier University is an internationally recognized center of learning and research, strong in the arts and sciences and the professions.

Campuses

The University's Pittsburgh campus consists of more than 90 buildings on 132 acres in Oakland, the city's cultural and medical center. Pitt also has four regional campuses in Bradford, Greensburg, Johnstown, and Titusville, Pennsylvania.

Enrollment

Pitt's total enrollment for its five campuses is 32,107 students. Of this total, 23,598 are full-time and 8,509 are part-time: 22,471 are undergraduates and 9,634 are graduate students. More than 26,000 of the students are enrolled at the Pittsburgh campus. [Click here](#) to go to the University of Pittsburgh web site.

Faculty

The Pitt faculty totals 3,154 full-time and 677 part-time. The University has 38 endowed chairs and professorships. Each year the University honors faculty excellence with Chancellor's Distinguished Teaching, and Research, and Public Service Awards.

Governance

The University is a state-related institution serving the Commonwealth of Pennsylvania, the nation and the international community through its missions of instruction, research, and public service. Its Board of Trustees has 50 members, 12 of whom are appointed by the state. Mark A. Nordenberg was named Pitt's 17th chancellor on June 20, 1996. Nordenberg, 48, previously held positions as dean of Pitt's Law School, and interim provost and senior vice chancellor. He served as the interim chancellor from Aug. 1, 1995, until his current appointment.

Research

Pitt was selected to membership in the Association of American Universities (AAU), in acknowledgement of its position as one of the top research universities in North America. University researchers bring in more than \$232 million annually for sponsored research and other sponsored programs, and Pitt ranks in the top ten nationally in terms of research funds received from the National Institute of Health.

Pitt Facts

Pitt is 215 years old, making it one of the nation's oldest educational institutions, established in 1787, just after the original colonial colleges.

Pitt has several programs ranked in the top 26 in their field nationally including anthropology, art history, history and philosophy of science, industrial engineering, and linguistics. Pitt also has many other highly ranked programs including chemistry, economics, English language and literature, music, pharmacology, physics, political science and psychology, among others.

The University Honors College allows highly motivated undergraduate students to pursue exceptionally challenging honors courses and degrees and to conduct independent research. Pitt students have won a number of prestigious awards in recent years, including Rhodes, Marshall, and Truman scholarships, and National Mellon Fellowships in the Humanities.

Pitt athletes have won national championships in football, conference titles in many sports, national rankings in basketball, wrestling and volleyball, and individual national championships in gymnastics, swimming and track and field. Former Pitt track and field star Roger Kingdom is a two-time Olympic gold medalist.

Pitt's University Center for International Studies offers an extensive study-abroad program, and the opportunity to spend an entire semester aboard the SS Universe, the world's only floating campus. UCIS also offers area studies programs in Asian, East Asian, Latin American, East European, Russian, Soviet Studies and West European Studies. Pitt was ranked as one of the 100 "best college values" in higher education among national universities in a 1996

Money Magazine report.

Fact Book Highlights

General Information

- The University of Pittsburgh (Pitt) comprises five campuses: the Pittsburgh Campus and four regional campuses. Pitt's regional campuses are located in western Pennsylvania at Johnstown, Greensburg, Titusville, and Bradford.
- In addition to institutional accreditation by the Middle States Association, Pitt holds numerous specialized accreditations among its various schools and programs in, but not limited to, such areas as business, education, engineering, law, nursing, pharmacy, psychology, and medicine.

Student Information

- In Fall Term, 2002, Pitt enrolled 34,003 students, including 27,190 students at the Pittsburgh Campus and 6,813 students at the regional campuses.
- Of the students enrolled at the University in Fall Term, 2002, 81 percent were full-time, 73 percent were undergraduates, 12 percent were minorities, 54 percent were female, 82 percent were from Pennsylvania, and five percent were non-resident aliens (international students).
- Pitt students originate from all 50 states, the District of Columbia, and three U.S. territories, as well as from 126 foreign countries. The top five countries of origin are: China, India, Republic of Korea, Japan, and Taiwan.

Degree and Certificate Programs

- The University includes the Pittsburgh Campus, wherein are housed 16 undergraduate, graduate, and first professional schools, and four undergraduate regional campuses. In addition to numerous certificate and degree program options, Pitt offers 392 distinct degree programs, including: 14 associate, 180 baccalaureate, 120 master's, 73 doctoral, and five first professional programs.
- Pitt conferred 7,257 degrees in fiscal year 2002. At the Pittsburgh Campus, there were 3,470 baccalaureate, 1,873 master's, 336 doctoral, and 577 first professional degrees conferred. At the regional campuses, there were 59 associate and 942 baccalaureate degrees conferred.

Faculty and Staff Information

- Employed at the University in Fall Term, 2002 were 4,411 faculty. Of the 3,641 full-time faculty, 18 percent were minorities, 35 percent were female, and 88 percent had the doctorate or first professional degree as their highest earned degree.

Faculty and Staff Information (continued)

- In Fall Term, 2002, 23 percent of the full-time faculty were professors, 25 percent were associate professors, and 38 percent were assistant professors.
- There were 6,565 staff employed at the University in Fall Term, 2002. Of the 6,178 full-time staff, 16 percent were minorities and 63 percent were female.

Financial Information

- Pitt's fiscal year 2002 expenses in instruction, research, public service, and various other expense categories totaled \$1.1 billion.

Research Information

- Research activities are conducted at the University in its schools and in its 200 centers, institutes, laboratories, and clinics.
- Pitt is a member of the Association of American Universities (AAU), a select group of institutions which collectively perform a major share of university-based research in the U.S. and Canada.

Library Collections and Services

- In fiscal year 2002, the University's 29 libraries and collections housed nearly 4.7 million volumes. Additionally, there were more than 4.4 million pieces of microforms, more than 24,700 print subscriptions, and approximately 8,100 electronic journals.

Computing Services and Systems Development

- Computing Services and Systems Development (CSSD) maintains the University's World Wide Web services that showcases the University to the international community via the Internet. Pitt's website can be accessed at www.pitt.edu.
- Students have access to six public computing labs at the Pittsburgh Campus. CSSD maintains more than 600 personal computers in the labs, which are equipped with 200 of the latest software applications and tools.

Institutional Advancement

- In fiscal year 2002, Institutional Advancement programs raised \$75.4 million in contributions from private sources.
- More than 209,000 Pitt alumni reside throughout all 50 states, three U.S. territories, and in 160 countries.

Academics

Education that Works

The university you select will make a real difference in your life. It can teach you the habits of success, show you how to lay the groundwork for a great career and lead you to lifelong friendships. Robert Morris University offers a wide range of programs designed to help you make a difference—in your career, in your community and in your life.

Robert Morris University offers over 30 undergraduate academic majors from which to choose. We have a practical focus and help you look at contemporary business and professional issues in some very creative ways. Most of our faculty have worked in the area they teach and many of them retain close contacts in business and industry. Our small class size allows our professors to work very closely with students on an ongoing basis.

[Building Your Future, A Guide for Students](#), outlines activities you should complete in each year in order to plan and develop the steps to seek.

- Schools
- PNC Financial Services Corporation

Relevant

Robert Morris University's graduate offerings - including 13 master's and doctoral degree programs - are uniquely pragmatic. Each program deals with a specific set of issues in a focused way that invites critical thinking and encourages strong, effective communication. We train you to analyze and resolve today's problems with an eye on tomorrow.

Rewarding

According to U.S. Department of Labor statistics, employees with a graduate degree earn up to 50 percent more than those with only an undergraduate degree. A graduate degree will give you a wider range of employment options and more control over your own future. Additionally, while attending RMU, you will have the opportunity to build relationships with faculty, fellow students and local business leaders that will follow you throughout your career.

Flexible

RMU's graduate programs are ready whenever you are. Our flexible course offerings allow you to work your class schedule around a busy professional and personal life. We offer evening and Saturday classes in eight-week accelerated sessions. Attending part time, you can complete a master's degree

Subject: RMU Student Data

Joe,

Here are some enrollment stats for RMU. These are our fall 2003 numbers as spring 2004 is not yet complete:

Total students: 4,816 (3,735 undergrads, 1,081 grad students)

76% of our grad students came from the 5 county western PA region (Allegheny, Beaver, Butler, Washington & Westmoreland counties). 57% came from Allegheny County, 9% from Beaver County and remaining balance is scattered among the other 3 counties. The 24% who come from outside the 5 county area are scattered among outlying PA counties, OH, WV, and foreign lands.

81% of our undergrad students came from the 5 county region. 57% came from Allegheny County, 12% from Beaver County, 6% from Washington County and the rest are scattered between the other two counties. The 19% who come from outside the 5 county area are distributed as per the grad students above.

The number of students that we attract from each of the PA counties outside the 5 county area is not consequential and I don't think that factoring them in will add much to your analysis.

I hope that this information is helpful to your project. Please call me if you have any questions.

Regards,

Dave Majka

CCAC Highlights

What makes CCAC so special?

Here are just a few highlights worthy of mention:

- > CCAC's union apprenticeship program with the International Brotherhood of Electrical Workers has grown to be international in scope and now includes an exchange program with European partners.
- > CCAC is the third largest provider of associate's degree health care program graduates in the country.
- > Its Distance Learning program has grown by 200 percent in the past three years. It's now possible to earn an entire associate's degree online.
- > Annually, CCAC provides strategic tools and techniques to more than 2,000 students with disabilities to enable them to reach their educational goals.
- > Twenty-two percent of all Allegheny County residents attended CCAC in the last five years.
- > More than 90,000 credit and noncredit students were enrolled at CCAC during the last academic year.
- > Among Allegheny County college students, CCAC enrolls about 37 percent of all African Americans, 29 percent of all female students, and 35 percent of all first-time freshmen.
- > With 94 percent of its career program students remaining in western Pennsylvania after graduation, CCAC provides powerful fuel for the region's economic development engine.

Your Gateway to the New Pittsburgh Region: The Pittsburgh Regional Alliance

Ready to discover more about the New Pittsburgh Region? We're ready to help. Let the Pittsburgh Regional Alliance (PRA) be your gateway to discovering the new opportunities and new momentum of our region. Our team is ready to listen carefully to your needs and work hard to find the best opportunities for your business.

Our Mission Makes Us Different

Formed in 1995 as a non-profit organization, the PRA's mission is to serve business creation, expansion and relocation, and to aid in the growth of a skilled local talent pool across the entire 10-county Pittsburgh region. Because of the far-ranging nature of this mission, the PRA's strategy recognizes that economic development is a regional effort, one where success can only be accomplished by working with many others—including public, private, civic and economic development organizations within our region, and those beyond our region, such as the Governor's Action Team and federal partners.

The PRA's success in accomplishing this mission has resulted in our organization being recognized by *Site Selection* magazine as a Top 10 Economic Development Group for 2001.

The PRA has three major areas of focus. First is business attraction—working with businesses that are considering expanding their operations to the region or relocating here from another market. Second is the expansion of existing businesses by ensuring that they receive the assistance and resources required to foster new jobs and growth. And third is workforce development, which strives to ensure that the growing industries of the region have an adequate supply of workers with the skills and knowledge needed for the future.

As a vital part of all these roles, the PRA also acts as a clearinghouse for information about the region, maintaining regional data, demographics and real estate databases. In addition, it provides strategic counsel on emerging regional trends to business executives who are investing in the New Pittsburgh Region.

The Pittsburgh Region

market research & analysis

exploration regional showcase

The Pittsburgh region is a dynamic mix of people, industry and heritage. It is 10 dynamic counties and the vibrant city of Pittsburgh. It combines urban centers and rural landscapes that stretch over hills and valleys.

The 2.6 million people that live and work here are connected by more than the region's famous rivers. They share a history of innovation, the work ethic to get things done and an affordable high quality of life.

Countless opportunities exist for your business to grow here. And a day's drive or 90-minute flight is all you need to connect with more than 20 states and Canada.

On behalf of the Pittsburgh Regional Alliance, I would like to introduce you—or perhaps re-introduce you—to one of the most dynamic regions of our country: The New Pittsburgh Region.

Pittsburgh and its surrounding area have evolved dramatically during the last two decades. What was once a region dependent on steel manufacturing has re-invented itself as a diverse economic center with expertise across a wide variety of new and emerging fields—including life sciences, advanced manufacturing, information technology, financial services/insurance, back office operations and warehousing and distribution. As the region has re-invented its economy, it has also re-energized its lifestyle to create a community recognized nationally for its high quality of life, cultural energy, rich ethnic diversity and low cost of living.

In short, the Pittsburgh region is a great place not only to work and invest, but also to live and play.

In the following pages, you will read about all that the New Pittsburgh Region has to offer, as well as the many advantages of doing business in our area. You'll also be introduced to the organization I lead, the Pittsburgh Regional Alliance, created specifically to help businesses like yours discover our region and to achieve success here. I hope you will take advantage of the many services we offer by calling (877) 392-1300 or by visiting www.pittsburghregion.org.

We look forward to working with you.

Sincerely,

Ronnie L. Bryant, CEO
President and Chief Operating Officer

County to County Migration within the Pittsburgh Region: 1999-2000

Internal Migration Within the Pittsburgh Metropolitan Region

Internal migration is defined here as the movement of people between counties within the Pittsburgh Region. The general pattern of movement out of Allegheny County continues in the latest year. The table below highlights the overall difference in the movement of

people to and from the suburban counties compared to the core of the region: Allegheny County. The table above details the specific county to county movement within the region between 1999 and 2000. Overall, all counties have a net out-migration with respect to Butler County and a net in-migration with respect to Allegheny County. The largest county-to-county level of net migration was the 1,004 person difference in people moving from Allegheny to Washington County vs. the Washington to Allegheny County flow.

PITTSBURGH REGION MARKETING TOOLKIT

Why Brand the Region?	Overview	Messaging	Style Guide	Newsroom	Community
-----------------------	----------	-----------	-------------	----------	-----------

- Strengths
- Positioning
- Proof Points
- Testimonials

What are the goals of the Pittsburgh branding initiative?

- Align perceptions of the Pittsburgh region with its positive "realities" and promising vision for the future
- Be considered as part of the competitive set of mid-tier fast growing regions as measured by increased tourism, talent and business growth
- Provide a blueprint for integrated messaging and a focused strategy for future investments and marketing of the region

What is the vision of this initiative?

The Pittsburgh branding initiative will convey the reality that this region possesses a unique combination of community focus and civic/economic resources - coupled with an unparalleled ease of access to both - that can lead to individual fulfillment and a high quality of life. The clear understanding of that proposition will place our "brand" among the nation's fast-growth mid-tier regions, and will result in an increase in the rate of attraction to talent, business locations, and visitors to this region by 2010.

What is the scope of the Pittsburgh brand?

The Pittsburgh "brand", encompassing the 13-county region of Southwestern Pennsylvania, will compete with other mid-tier, fast growth American regions as a destination for:

- Visitors
- Talent
- Business

What must we do as a region to achieve our brand vision?

The Pittsburgh region will provide dynamic opportunities and personal fulfillment for talent, businesses and visitors seeking a unique environment:

- We will set high standards and commit to innovative initiatives that will transform, enhance and sustain our product offering
- We will provide a critical mass of choices and resources leading to opportunity and fulfillment, all within an environment that balances the needs of the community with the needs of the individual
- We will build our capacity for greater collaboration and diversity, and stimulate increased interaction between separate entities both within the region and on the global stage

What differentiates the Pittsburgh "brand"?
 Pittsburgh's uniqueness is derived from a distinct set of brand strengths. It is the combination of all of these strengths, not any one individually, that serves to differentiate the Pittsburgh brand and define the region.

- World Class Urban Setting . . . Small Town Feel
- A Genuine Opportunity to Make an Impact
- Heritage and Current Home of Innovation and Transformation
- Pride in Working, Making & Creating
- Rivers, Mountains, & Outdoor Adventure Surrounding Unique Urban Beauty

How do we translate our brand strengths into a single core concept that defines the region?
 Pittsburgh's brand strengths all stem from a core concept that is based on the region's history of connected individuality. In reality, Pittsburgh was first branded 200 years ago when it was called "Gateway to the West," connecting East to West at the Forks of the Ohio. Later, our region connected immigrants to opportunity by forging entire new industries, based on the confluence of capital and innovation ... and ultimately the individuality of diverse leaders who brought vitality and a strong work ethic to our region.

Today, the Pittsburgh region offers connections of a new and different kind, but they remain based on the same premise that historically made us vital and innovative. In an age where people can choose to work and live virtually anywhere in the world, Pittsburgh provides the connections that are essential to achieving success, not only in our own backyards but also on a global stage if so desired.

The Pittsburgh region, after all, is Mister Roger's Neighborhood! Fred Rogers is one of our most beloved sons, and in his own inimitable way, he put simple words to the idea of connected individuality. On the one hand, he celebrated the specialness of each individual person: "I like you, just the way you are." Simultaneously, he reinforced the importance of our connections with family, friends, and community, our neighborhood.

So ultimately, what is the underlying theme of our brand?
 Accomplishment through connected individuality - linking vital individuals, vital communities and vital resources.

And what is the "promise" each of us can make to the customers (tourists, talented individuals, and businesses) we hope to attract?
 We will connect you to the people, resources and communities you need to accomplish your goals.

How might such a theme translate into advertising copy and other forms of communication?
 Although it was not the mission of the initial phase of the regional branding initiative to develop a slogan or a tagline for the region, it is easy to see how the theme might be adapted in a variety of creative ways.

Already, the Pittsburgh Regional Alliance uses the phrase, "No Barriers, Just Bridges" in its international marketing. WQED Multimedia recently adopted the tagline, "Stay Connected." The first regional membership directory produced under the guidance of the Greater Pittsburgh Chamber of Commerce will be called "Connections: Pittsburgh Region 2003." Others might urge prospects to "get connected," "make connections," even "make an impact."

Each organization participating in the Image Gap Project, through its communications professionals and agencies, will seek to bring the theme to life for its own customers

Armstrong Co. added to region

By Michael Yeomans
TRIBUNE-REVIEW
Wednesday, June 11, 2003

Congratulations, Armstrong County. You're now one of the club.

In what the chairman of the Armstrong County board of commissioners calls the, "Sweetest little victory for this county in a long time," the Pittsburgh Metropolitan Statistical Area has been adjusted to include Armstrong and its 71,673 people.

Indiana and Lawrence counties also will be included in a combined statistical district.

"It means we're one step closer to building a solid 10-county southwestern Pennsylvania region," said Jim Scahill, Armstrong's commissioners chairman and a vocal proponent of regionalism. "We're no longer on the outside looking in."

The MSA is a statistical measurement designated by the White House Office of Management and Budget. There are 370 MSAs in the United States. Local officials were notified of the change by the OMB Tuesday.

The Pittsburgh MSA had previously been defined as Allegheny, Beaver, Butler, Fayette, Washington and Westmoreland counties.

Although compiled strictly for statistical purposes, the MSA is used by the federal and state government to base its program and funding decisions and calculations.

Scahill said that while the designation is largely symbolic for Armstrong County, it also will have the practical effect of increasing the Medicare and Medicaid compensation formulas used for reimbursing its county-run nursing home.

"We're talking a \$20-per-day, per-bed increase. That's a good jolt," he said.

Perhaps more importantly, it means that when corporate site selection professionals receive information on the Pittsburgh MSA, it includes Armstrong County.

"A lot of businesses will only consider locating in MSAs, so the inclusion of Armstrong county in the Pittsburgh MSA could open up site selection opportunities," said Chris Briem of the Center for Social and Urban Research at the University of Pittsburgh. "It's sort of like a master list which if you are not on, you can not compete for many projects."

Armstrong made it into the MSA by a margin thinner than its glancing contact with Allegheny County's northeastern border, based on a calculation of the number of the county's residents that commute to the other counties of the MSA for work.

The Office of Management and Budget sets the threshold at 25 percent. It said that 25.1 percent of Armstrong's residents commute to surrounding counties to work.

"It's good news for the entire region. Armstrong County is already a vital part of the (region)," said Allegheny County Executive Jim Roddey.

Jim Hassinger, executive director of the Southwest Pennsylvania Commission, a federally designed transportation planning agency, said Indiana and Lawrence, also will be reported, together with the seven counties of the Pittsburgh MSA, as a "Combined MSA," pending congressional approval.

He said that leaves Greene County as the only county considered by regional leaders to be part of the 10-county southwestern Pennsylvania region to not be officially counted as part of the region.

"We're working on getting Greene County included," Hassinger said.

Briem said the changes in the MSA reflect the out-migration from Allegheny County and the increasing economic interdependence of the region.

"From an economic standpoint, the region has a common labor market, which means there are strong linkages between the economic trends across different counties," he said. "Bottom line: the larger definition of the MSA may provide greater impetus for the counties of southwestern Pennsylvania to work together on economic development projects."

PEL

The Region Is a Product

Greater Pittsburgh International Airport

Ideas Into Realities

~~The Allegheny Conference is a private, non-profit organization with the unique ability to convene corporate, government, and community leaders to frame, discuss, and implement civic initiatives.~~

Conference Operating Principles

A number of unwritten "operating principles" have typified the activities and agenda of the Conference since its founding in 1944.

- The Conference recognizes that the primary decision-makers in the public arena are those officials who have been elected to serve the public. The Conference works in partnership with elected public officials while remaining nonpartisan in the electoral process itself, inviting elected officials of all parties to call upon the Conference in developing and implementing their initiatives.
- The Conference avoids competition or duplication of effort with other groups or programs in the civic and public sectors. The Conference either becomes involved where no existing organization seems able to address a particular problem, or it acts as a partner in helping other organizations address problems and issues. The Conference accepts both leadership and "followership" roles in its efforts to improve the region.
- The Conference often helps set in motion programs or organizations that are needed to improve the region's quality of life, maintaining its commitment until they became self-supporting. However, the Conference avoids operating or financing programs on a permanent basis. Rather, it restricts its permanent activity to its roles of conferring and guiding.
- Reasoned, informed, and strategic action is the

- [Strengthening Our Regional Assets](#)

[CLICK HERE](#)

hallmark of Conference activity. To that end, its agenda is based on the research, analysis and studies completed by its own staff and those commissioned by task forces, study groups, government agencies and others. The Conference's affiliation with the Pennsylvania Economy League provides a formal mechanism for the Conference to obtain research and analysis on key regional issues.

Conference Guiding Principles

In carrying out its objectives, the Conference will develop strategies that are:

- **Regional;** building on the assets of all ten counties in southwestern PA, and improving the economic status and quality of life for citizens in every county
- **Inclusive;** promoting opportunities for women, minorities, and the international community in the regional economy
- **Collaborative;** working in partnership with other civic organizations, supporting the leadership efforts of public officials at the local, state and federal levels, and involving the general public as appropriate
- **Cost-effective;** helping to make southwestern PA a competitive region for businesses, workers and visitors.

Fallingwater, Fayette County

The Governance of the Conference

The Conference is governed by its Board of Directors. There are currently 39 voting members of the Board, and eight non-voting emeritus members. Board members are the top executives of local corporations and nonprofit institutions. There are no public officials on the Board. While members represent the companies or organizations that they head, they serve on the Board as individuals, and are not permitted to send representatives.

To support the Board leadership, the Executive Director

manages a small professional staff. The Executive Director also oversees the Pennsylvania Economy League/Western Division.

The Strategic Approach of the Conference

The Conference operates on two concurrent strategic paths:

- It helps implement change through a combination of idea generation, research, analysis, and planning using its affiliate, the Pennsylvania Economy League/Western Division, on many of the significant research challenges to help bring ideas into realities.
- It provides leadership to groups of other civic and public organizations to achieve common agenda items. The Conference maintains the ability to create and manage partnership efforts. In exercising leadership, the Conference stands ready to contribute intellectual ability, organization and financial resources, and strategies to build consensus.

Types of Conference Projects

The projects in which the Allegheny Conference is engaged to improve our region - our product - are ones that: need private sector leadership in order to succeed; provide civic leadership with the opportunity to give back to their community; are done in partnership with other organizations; and are frequently bigger, riskier and longer term in scope. To accomplish results, we use leadership; research and analysis; expertise; organization; communications; and funding.

To complete the Allegheny Conference is 1991 agenda, we are currently involved in the following major areas:

- *Regional Development* - Improving the physical infrastructure and development of the region
- *Education and Workforce Development* - Improving the systems and methods that develop human potential
- *Public Governance* - Making local government more productive and fiscally sound
- *Civic Organization* - Making the civic sector more productive through reorganization and leadership
- *Working Together* - Promoting action on the "Working Together to Compete Globally" recommendations

Conference Agenda 2000+

In July 2000, the Conference Board adopted a new set of objectives in order to continue to fulfill its mission of improving the regional product. Three long-range visionary objectives were adopted and will be pursued in partnership with others:

- Ensuring that all children in southwestern PA can read, write and compute by the age of 10
- Promoting the growth of businesses and jobs based on new technologies
- Developing amenities that will make southwestern PA one of the top regions in the country for attracting young, skilled, mobile workers.

Three Rivers Arts Festival ☆

Last updated on April 23, 2003

The Three Rivers Arts Festival is a Pittsburgh tradition in it's 44th year downtown that bridges artistic style and expression, mixing the contemporary visual arts, painting, sculpture, crafts and photography, installation and new media, with live music, theater and dance performances.

Description:

The festival is a 17 day long event that over 600,00 people attend each year. We mount public art exhibitions, including sculpture in Point State Park, exhibitions at the three Rivers Arts Festival Gallery, Wood Street Gallery and other settings. We present over 100 performances by musical, dance and spoken word artists n five different stages in Point State Park and downtown Pittsburgh. We also have programming for children and their families.

History:

The Three Rivers Arts festival was incepted in 1959 by the Carnegie Women's Group. It started as a small outdoor venue to exhibit local artwork and performances. Since then the festival has grown in numbers and expanded it's mandate to bring the city of Pittsburgh a celebration of the arts in our city.

Subject: FW: circulation by county

Christy Ann,

Follosing is the information you requested. I'm sorry it took some time to get it. I had to check with several different departments before I found someone who had it.

I hope I can help you advertise your Credit Union in the near future.

We are currently working on our Enterprise 2004 edition. It will consist of 4 sections which are business reviews and a look forward. I will fax it to you for your review.

Pittsburgh Magazine

- circulation of 120,000 per issue
- April issue (best driving vacations, story (advertorial) will highlight WPMC and featured museums in our ad and offers a reader response card)
- July issue (City Guide-100,000 extra copies are available all year long and features a special museum/arts section)
- September issue (vacation guide, story (advertorial) will highlight WPMC and featured museums in our ad and offers a reader response card)
- November issue (winter travel guide, holiday gift guide)

Carnegie Magazine

- circulation of 35,000 per issue to a very targeted museum audience
- March/April issue
- July/August issue (features the Warhol Museum's tenth anniversary)
- September/October issue
- November/December issue (features Carnegie International)

Pittsburgh History

- circulation of 5,000 per issue to a very targeted museum audience
- Spring issue (out in March)
- Summer issue (out in June)
- Fall issue (out in September)
- Winter issue (out in December)

Tourism Publications:

Pittsburgh Visitor's Guide 2005

- annual circulation of 250,000 issues and includes distribution in visitor kiosks, hotels, by sales teams, universities, relocation companies and GPCVB internet and phone requests for visitor information (for free).
- will feature a pull out card where readers can request information from the participating museums
- January 1 publication date

Event Source (replaces Art Source)

- annual circulation of 250,000 and includes distribution in visitor kiosks, hotels, by sales teams, universities, relocation companies and GPCVB internet and phone requests for visitor information (for free).
- because the size of each page is half the size of the above publications, the space allotted for each museum will be about 2/3 the size of a business card.
- April/May/June issue
- July/August/September issue
- October/November/December issue

Inserts

Circulation

PRE-PRINTED INSERT RATES

Inserts may be used as part of your frequency display advertising contract. Each insert counts as one ad toward fulfilling your contract. Match your frequency contract to the appropriate insert rate.

Inserts 10" x 13" max.	65x	53x	30x	14x	open
	95/m	105/m	115/m	130/m	180/m

INSERTS REQUIREMENTS

Total cost based on 2003 circulation of 16,500. Insert rates are net and non-commissionable and must be pre-paid. Inserts should be full run of circulation; smaller increments are available at a 25% additional cost. Inserts must be submitted for approval two weeks prior to publication date. Advertiser is advised to get Publisher's approval before printing piece. Any inserts resembling editorial matter must have "Paid Advertising Supplement to Pittsburgh Business Times" in 14 point type at top and bottom of each page. All prices stated for inserts weighing one ounce or less; anything heavier will be priced according to weight. The number of inserts are limited per week and sold on a first-come basis. Because of this, cancellations for inserts will not be accepted less than four weeks prior to insert date. No verbal cancellations accepted. Any cancellations received after the deadline of four weeks prior will be billed for the full cost of the insert. Under no circumstances will any advertiser be allowed to self advertising into any insert or supplement being inserted into the Business Times. Postal regulations govern insert requirements; no Bulk Rate indicia permitted on finished piece. See your Account Executive for insert shipping instructions.

Digital SPECS

Preferred format is Adobe Acrobat PDF. Digital ad materials must be provided in PDF, QuarkXpress 4-4.11, Adobe Illustrator, or as an Illustrator, or Photoshop EPS. Only postscript fonts are acceptable. Fonts must be embedded when providing ad in PDF format. Text in vector images (Illustrator or Freehand) must be converted to paths or outlines to eliminate font problems. Save all images as EPS or TIFF only. All 4-color artwork must be saved in CMYK format. 4-color PDFs must be composite CMYK documents. Color graphics and images saved as RGB, Lab, indexed color or duotones are not acceptable. Ads with a screened image in them should be a minimum of 15% and a maximum of 30% to ensure a clean, readable rendering. All scanned halftone images should be sized at a resolution of at least 200 dpi (for 85 line screen output) at 100% of the size they are used in the file. Line art images such as logos require an image resolution of 600 dpi. A fax or laser printout of the ad should be faxed to 412-316-8519 or sent to your account executive at the address below.

We accept materials via E-mail, CD, Zip or AdSend. A publication quality proof is required for 4-color ads. Materials are due one week prior to issue date. The e-mail address for submitting ad materials is pghads@bizjournals.com. Contact your Account Executive for additional information regarding electronic ad submission. Due to the large volume of e-mails and to ensure proper placement, please be sure to put the Ad/Client name and issue date in the subject line of all e-mailed ads (RE: ABC Company, Dec. 20th Issue, ROP/Focus/Supplement.)

SHIPPING INSTRUCTIONS

All orders, correspondence and advertising materials must be sent to:
Pittsburgh Business Times Voice: 412.481.6397
2313 East Carson Street, Suite 200 Fax: 412.481.9956
Pittsburgh, PA 15203

INSERTS SHOULD BE SHIPPED TO INDIANA GAZETTE

Pittsburgh City Paper

Pittsburgh City Paper, Pittsburgh's leading news and entertainment weekly, first hit the streets in November 1991. Since then, *Pittsburgh City Paper* has grown exponentially and has become **the leading alternative publication in the Pittsburgh market.**

Whether it's the extensive arts and entertainment section, local news coverage, unique columns, award winning writers and visuals or the area's most comprehensive event & dining listings, *Pittsburgh City Paper* is where people turn to find out what's going on in the Golden Triangle.

Pittsburgh City Paper delivers **77,500** papers per week to over **1,700** distribution points throughout Western Pennsylvania. More importantly, your advertising message will reach over **359,000*** people per month by advertising in *City Paper* and on the web site www.pghcitypaper.com.

* The Media Audit © International Demographics, Inc. Oct.-Nov. 2003
Cume readers of *Pittsburgh City Paper* and cume visitors of www.pghcitypaper.com.

The size of the Mellon Arena floor is 200 feet x 85 feet (17,000 square feet) for hockey, and can be expanded to 250 feet x 120 feet (30,000 square feet) by pushing back the A-level seats.

In the Fall of 1967, the Mellon Arena became the home of the NHL's Pittsburgh Penguins. The Pens have since earned two Stanley Cup Championships--1991 & 1992. Other notable sporting events hosted at the Arena have been the Larry Holmes vs. Renaldo Snipes heavyweight boxing match in 1981, the 1983 World Figure Skating Championships, and the NCAA Division One Men's Basketball Championship Tournament first and second rounds in 1997.

The Mellon Arena boasts two exclusive dining clubs--The Blue Line and the Igloo Club, both of which are available for private parties and events. Other recent renovation projects include the 1993 addition of the F-level balconies, new luxury skyboxes and several privately catered club seats. In addition, the East and West Igloo seats give patrons access to the adjacent lounges. While the original capacity of the Mellon Arena was 10,500, these and other renovations over the past three decades have increased that number to over 17,000.

SMG is the management company for the Mellon Arena and is universally recognized as the world leader in the private management of public assembly buildings, operating over 120 venues worldwide. Combined, SMG facilities host more concerts than any other presenter in the world.

With Walt Disney's World on Ice, World Wrestling Federation, Harlem Globetrotters, Ringling Bros. and Barnum & Bailey, Penguins hockey and a myriad of concerts, the Mellon Arena is a fast-paced hub of entertainment for the Pittsburgh area.

Associated Press

PITTSBURGH -- The NHL's oldest arena has a new name: Mellon Arena.

The Pittsburgh Penguins signed an \$18 million, 10-year agreement Monday to rename the Civic Arena after the Pittsburgh-based bank.

The downtown arena was built in 1961 and is better known throughout the NHL as the Igloo because of its signature curved steel roof.

One of the few pro sports arenas nationally that did not previously have a corporate identity, the arena became the NHL's oldest last season when Maple Leaf Gardens in Toronto closed.

The Penguins got the naming rights during owner Mario Lemieux's acquisition of the team in federal bankruptcy court earlier this year.

"This agreement is a very important step to making this franchise financially viable," Lemieux said.

The Sports and Exhibition Authority, which oversees the arena and the city's other stadiums, is expected to approve the name change

the first World Series in 1903, the Bucs moved to Forbes Field in Oakland on June 30, 1909. The club spent 61 seasons at Forbes, its longest tenure at any facility, before moving to Three Rivers Stadium on July 16, 1970.

Perhaps the strongest inspiration for PNC Park's design is the legacy of the Pirates themselves. Few cities can boast of a 115-year relationship with the same Major League ballclub. Pittsburgh deserves nothing less than a ballpark classic that will enthrall fans for generations to come.

1976

April 10 – LLanny Frattare makes his major league broadcast booth debut as the Pirates defeat the Philadelphia Phillies, 5-4, at Veterans Stadium.

1979

August 9 – The 500th game in Three Rivers Stadium history turns out to be one of the most memorable as John Candelaria throws the first-ever no-hit, no-run game by a Pirates' pitcher in Pittsburgh, a 2-0 win over the Los Angeles Dodgers.

1979

October 17 – In Game Seven at Baltimore, Willie Stargell's third World Series homer lifts the Pirates to a 4-1 win and their fifth World Championship. Stargell is named Series MVP after the Pirates erase a three-games-to-one deficit and ground the Orioles.

1982

July 21 – Willie Stargell hits his club record 475th home run, an eighth-inning, game-winning, pinch-hit solo shot at Cincinnati's Riverfront Stadium.

1990

September 21 – Barry Bonds becomes the first Pirates' player (and just the second major leaguer) in history to hit 30 or more homers and steal 50 or more bases in the same season.

1994

July 12 – The largest crowd in Pittsburgh baseball history, 59,568, turns out as Three Rivers Stadium plays host to baseball's 65th All-Star Game. In a Midsummer Classic that is truly a classic Tony Gwynn leads off the 10th with a single and comes around to score the game-winning run in dramatic fashion on a double by Moises Alou as the National League posts an 8-7 victory.

1996

February 14 – Kevin McClatchy and his financial partners purchase the Pirates and save the franchise from a move out of Pittsburgh by other potential buyers.

1997

July 12 – In front of a sellout crowd at Three Rivers, Mark Smith's pinch-hit, three-run homer in the bottom of the 10th caps off a no-hitter by Francisco Cordova (nine innings) and Ricardo Rincon (one inning), the first combined, extra-inning no-hitter in major league history.

1999

April 7 – PNC Park ceremonial groundbreaking takes place and the Sixth Street Bridge is renamed the Roberto Clemente Bridge.

2000

October 1 – A crowd of 55,351, the largest ever to see a regular season baseball game in Pittsburgh, watches the Pirates fall to the Chicago Cubs, 10-9, in the final game at Three Rivers Stadium.

2001

April 9 – PNC Park, the fifth home of the Pittsburgh Pirates since their inception in 1887, opens along the shore of the Allegheny River and adjacent to Federal Street.

offices in Baltimore, MD. The Architect of Record was L.D. Astorino & Associates April 14, 1999 of Pittsburgh.

PNC Park is the first ballpark with a two-deck design to be built in the United States since Milwaukee's County Stadium was completed in 1953. Because of its intimate design, the highest seat is just 88 feet from the field, giving every fan in the park an ideal sight line.

great majority of spectators a spectacular view of the Clemente Bridge and the downtown skyline beyond.

The home of the Pirates is instantly recognizable as a ballpark, with architectural flourishes of Forbes Field lending a touch of nostalgia. The series of masonry archways extending along the entry level facade and decorative terra cotta tiled pilasters exude the charm of the club's former home of 61 years.

The irregularly shaped, natural grass playing field measures 325 feet down the left foul line and 389 feet through the left field power alley. The park reaches its greatest distance of 410 feet at a nook located just left of center field.

The distance down the right field foul line is 320 feet, 375 feet down the power alley, and 399 feet to center field.

The outfield wall rises up to 21 feet behind right field (in honor of the Pirates legendary right fielder #21, Roberto Clemente) and drops down to just six feet in front of the left field bleachers.

From home plate to the Allegheny River is 443 feet, 4 inches.

PNC Park is the fifth home of the Pittsburgh Pirates since their inception in 1887. The fledgling National League franchise first began play at Recreation Park, located at the corners of Grant and Pennsylvania Avenues along the Fort Wayne railroad tracks on the North Side. The club then moved to Exposition Park in 1891, which was situated along the Allegheny River between the new

Among the features of the beautiful facility are 69 suites with their own concourse level, club seating at both the field and mezzanine levels with their own respective lounges, an outfield barbecue run by former Pirate Manny Sanguillen, an outdoor river terrace and river walk.

PNC Park also features Outback in the Outfield, a steakhouse restaurant with a party deck that overlooks both the playing field and the city.

The ballpark houses retail areas along the Federal Street and General Robinson Street corridor, including Vincent's Pizza, Atria's Restaurant, Seattle's Best Coffee, Ben and Jerry's Ice Cream, a sports art gallery, PNC Bank, and the Pirates administrative and ticket offices.

PNC Park is approachable and pedestrian in scale. Designed to fit within the existing city grid, it is also orientated to allow a

2003 Attendance
MLB attendance
By league
League overview
By average

(or good riddance) to the Vet, which closed at the end of the season. Also up significantly: the Kansas City Royals, where a 40 percent attendance boost was fueled by the team being in the midst of a pennant race, and the Montreal Expos, where 22 "home" games in San Juan and better attendance at Olympic Stadium boosted the average by 26 percent.

- It's a safe bet that the Cincinnati Reds were expecting a bigger attendance boost after moving into a new ballpark in 2003. Attendance at Reds game was up 27 percent, but the team sold only 69 percent of available tickets.
- The Anaheim Angels benefited greatly from their World Series win in 2002, enjoying a 32.8 percent rise in attendance and breaking the 3 million mark. Despite the bump, the Angels still were out drawn by the Los Angeles Dodgers. Combine the attendance of the two teams, though, and you have the best baseball market in the county, with 6.199 million fans attending MLB games. New York (5.605 million), the Bay Area (5.481 million) and Chicago (4.902 million) trailed Los Angeles.
- The biggest loser in terms of percentage was in Cleveland, where Indians attendance plummeted by 34 percent as the team played in rebuilding mode. In response, the Indians actually dropped ticket prices for 2004; meanwhile, flush with some young talent in the minors, look for attendance to pick up in 2005 when the team is more competitive. Also suffering through some double-digit declines after their teams were not competitive: the Mets (down almost 19 percent), Colorado (down almost 15 percent), Milwaukee (down almost 14 percent) and Arizona (down 12 percent).

TEAM	GAMES	TOTAL AVERAGE CAPACITY	%	2002	2002 AV.	2003 VS.

Check out our Panoramic View of Bethel Park Stadium!
"Load time may differ"

The Pittsburgh RIVERHOUNDS™ are playing their 1999 soccer season at Bethel Park Stadium near South Hills Village. Bethel Park Stadium:

- Has a grass field allowing the Pittsburgh RIVERHOUNDS™ to play quality soccer.
- It seats approximately 5,400 with 2,700 seats on each side of the stadium. This seating amount has proved to be a very good number considering the amount of fans that have attended games.
- Concession stands and restrooms are located on both sides of the field making it convenient for all of our fans.
- The main concourse area is large enough to hold the Merchandise booth allowing us to sell the latest Pittsburgh RIVERHOUNDS™ t-shirts, hats, sweatshirts, fanny packs, bumper stickers, and mugs.
- There is ample parking on the stadium grounds.
- The stadium is handicapped accessible.
- The stadium is within a 30-45 minute driving time for most area residents.
- Additional space near the field has made the Pepsi Kidsfest a great area for many kids, and adults, to test their soccer abilities with various activities such as the Pepsi Speed Kick machine, Target shoot, and Skills Drill. There is also a duck pond, a MoonWalk, and much, much more to be a part of.

Season ticket packages are now available. For more information, [click here!](#)

Timeline

March 11, 1998 – USISL Commissioner, Francisco Marcos, awarded a Professional A-League Soccer Franchise to Alliance Soccer Resources, Inc. This is the first professional outdoor soccer team to be in Pittsburgh in the last 30 years.

March 16, 1998 - Alliance Soccer Resources, Inc. hired Dave Kasper as the General Manager of Pittsburgh's new professional outdoor soccer team.

April 1, 1998 - Alliance Soccer Resources hired Melissa Ross as the Office Coordinator of Pittsburgh's A-League Team.

April 6, 1998 - Dave Kasper announced the "Name the Team" contest .

June 15, 1998 - Dave Kasper announced that the A-League team will be named Pittsburgh Riverdogs. The winner, Mike Giegel, received T-shirts, 2 season tickets, a trip to see the Pittsburgh Riverdogs play the Hershey Wildcats, and one day training with the team.

July 6, 1998 – Christina Heasley was hired as Director of Community Relations.

July 16, 1998 – Dave Kasper announced the first summer soccer camps under the Pittsburgh Riverdogs name.

July 24, 1998 – Robert R. Derda, Jr. was hired as Director of Marketing.

July 27, 1998 – The Pittsburgh Riverdogs announced their official office site at 2301 East Carson Street, Pittsburgh, PA 15203.

August 14 – 21, 1998 - The Pittsburgh Riverdogs held their first official summer soccer camps this year at Bethel Park, Upper St. Clair, and Moon Township.

September 1998 - The Pittsburgh Riverdogs released their official website.

September 21, 1998 - John Phillips was hired as Director of Media/Public Relations.

October 5, 1998 – Paul Child was hired as Director of Youth Development.

October 12, 1998 - Terri Young was hired as Sponsorship Sales Account Executive.

November 5, 1998 - GM Dave Kasper announced John Kowalski as the first Head Coach for the team. Coach Kowalski announced that he has named Paul Child as Assistant Coach.

December 1, 1998 - Jim Pappas was hired as Corporate Ticket Sales Account Executive/Box Office Manager.

December 1, 1998 - Mark Wassilchalk was hired as Team Operations Coordinator.

December 3, 1998 - The Pittsburgh Riverdogs have announced that they will now be known as the Pittsburgh Riverhounds. The Pittsburgh RIVERHOUNDS™ also announced their new website at www.riverhounds.com.

January 4, 1999 - Laurie Vanselow was hired as receptionist/secretary.

2004

SCHEDULE The Pittsburgh RIVERHOUNDS announced today the franchise will move all home games to Moon High School Stadium for the 2004 season. The switch in venues became official with the approval of

DIRECTIONS the move by the Moon Area School Board.

TICKETS "A number of venues were under consideration," said HOUNDS General Manager Mary Wilkie. "We explored all options and found Moon Area High School to be the most accessible for fans. The school district was extremely cooperative, and we really look forward to having a strong home field advantage in Moon," Wilkie added.

STADIUM

For the past five years, the RIVERHOUNDS played all home games at Bethel Park Stadium. "We had great co-operation from Bethel Park," Wilkie said. "However, our surveys consistently showed us that fans were having difficulty finding the field. Ultimately, we need to provide a location combines accessibility and a great playing surface so that we can continue to attract more fans", Wilkie said.

Moon Area High School Stadium seats approximately 4300 fans. The pitch is state of the art field turf. The facility is located off Beers School Road in Moon Township.

Wilkie says the franchise will continue to firm up dates for the 2004 schedule, which she says will be released after the start of the new year, pending league approval.

Directions To Moon Area Stadium

Traveling From The East:

From Pittsburgh, take the Parkway (279 South) through the Fort Pitt Tunnels. Follow signs to Airport until you pass the Robinson Town Center Area and then take Exit 3 – Moon Business Exit (Rt. 60). Go to 2 nd traffic light past new U.S. Army Center and turn right onto Beers School Road (**Now University Blvd .**). Proceed in right hand lane and the school entrance will be on the right.

Traveling From The West :

Take Beaver Valley Expressway (Rt. 60) towards Airport. Take Moon Business Exit and follow past cargo area to traffic light at intersection of Beers School Road (**Now University Blvd .**). Make a left onto Beers School Road (University Blvd.). Proceed in right hand lane and the school entrance will be on the right.

Traveling From The North :

Take I-79 South to Exit 66 - Sewickley Exit. Make left at end of ramp to Rt. 65 North. Follow signs to Sewickley and Airport. At traffic light on Rt. 65 make a left

Welcome to Pittsburgh International Airport

Pittsburgh International Airport (PIT) is a world-class facility that accommodates nearly 20 million travelers in nearly 450,000 aircraft operations per year. With more than 600 non-stop flights per day to 118 destinations, PIT is served by more than 20 air carriers as well as being US Airways largest hub. PIT has been frequently recognized for its quality in meeting traveler's needs. The OAG (Official Airline Guide) Worldwide recently listed the facility to its short list of the world's best airports for the second year in a row. The market research leader, JD Power and Associates named PIT number two in mid-sized airports in its most recent customer satisfaction survey. Conde Nast Traveler's Magazine named PIT number one in the United States and number three in the world in its People's Choice Award.

Quick Facts

- Opened in October 1992
- Cost: \$1billion
- Size: 2.1 million square feet
- 69 domestic gates
- 6 international gates
- 25 commuter gates
- More than 100 shops and restaurants

Opened October 1, 1992, Pittsburgh International's Midfield Terminal brought a new vision to the region for domestic and international air travel. Designed to be the nation's best gateway to international commerce, PIT is within a 90-minute flight of 70 percent of North America's population. Capacity is one of PIT's most valuable assets.

The Terminal is a series of three buildings linked by a variety of people moving transportation means. With the airplanes at one end and the parking lot at the other, travelers need only take a few steps to cross more than half a mile from the landside to airside terminal. A model to other airports around the world, the design of the terminal was planned to simplify aircraft movement on the airfield and ease pedestrian traffic to the gates.

Since opening, PIT's Midfield Terminal has been recognized on numerous occasions for its efficient and creative ways to assist travelers. PIT has become a major economic generator for southwestern Pennsylvania. And it continues to grow. In the last year, airlines have launched new service from PIT, US Airways has added new routes, and development surrounding the airfield is growing.

The Health System's tertiary hospitals, UPMC Presbyterian and UPMC Shadyside, provide advanced care. At UPMC Presbyterian, medical house staff practice in state-of-the-art facilities that are constantly updated. In the past five years, UPMC has renovated the MICU, CCU, Cardiac Pavilion, Emergency Department, inpatient and outpatient dialysis units, GI laboratory, and the general medicine outpatient clinics. Specialty services are provided at Eye & Ear Institute, UPMC Rehabilitation Hospital, Western Psychiatric Institute and Clinic, and Magee-Womens Hospital.

In addition to its academic core, UPMC Health System includes community hospitals and more than 400 primary care and other treatment centers -- putting 90 percent of the population of western Pennsylvania and eastern Ohio within 30 minutes of UPMC treatment. At UPMC Shadyside, the Department of Medicine offers both a Community-Based Categorical Program and a Medicine-Pediatrics Program in conjunction with Children's Hospital of Pittsburgh.

UPMC Health System also encompasses a number of other health-related services. Through its Diversified Services Division, UPMC offers rehabilitation services, in-home services, retirement living options, a mail-order pharmacy, occupational medicine services, durable medical devices, technology transfer ventures, and international health care initiatives. Through its Physician Services Division, the Health System offers the expertise of more than 4,000 primary care and specialist physicians -- the region's top academic physicians and its finest community practitioners. And UPMC Health System's Insurance Division offers a number of new managed care products to serve the insurance needs of the citizens of the region.

With more than 30,000 employees, UPMC Health System is the largest employer in the western Pennsylvania region. A \$3.6 billion a year enterprise, UPMC contributes nearly \$750 million yearly in nonsalary expenditures to local businesses, helping create an additional 80,000 jobs beyond direct employment. The Health System also contributes nearly \$100 million a year in charity and other uncompensated care, community services, and voluntary payments.

The UPMC Health System Environment

UPMC Health System is the leading integrated delivery system for health care in western Pennsylvania, a region that includes 5 million to 6 million people. The University of Pittsburgh-affiliated Health System is dedicated to providing exemplary patient care, educating the next generation of health care professionals, and advancing biomedical research.

UPMC Health System includes 19 tertiary, specialty, and community hospitals; 12 affiliated hospitals; and more than 5,000 aligned physicians. The Health System also offers primary care and specialist physician practices, rehabilitation services, health insurance, in-home services, retirement living options, a mail-order pharmacy, durable medical devices, technology transfer ventures, and international health care initiatives.

At the heart of UPMC Health System is the region's finest academic medical center. Through its affiliation with the University of Pittsburgh School of Medicine and other schools of the health sciences, UPMC shares in the academic mission of the University by providing a broad range of programs in education, biomedical research, training, health promotion, and diagnosis and treatment of human disease and disability.

UPMC enjoys an international clinical and research reputation, drawing patients from more than 30 countries across the globe. UPMC recently was cited as one of the top 15 hospitals in the nation, earning a place in *U.S. News & World Report's* hospital Honor Roll. The Health System offers internationally ranked programs in a number of specialties, including:

- **Oncology.** The University of Pittsburgh Cancer Institute is the region's only National Cancer Institute-designated Comprehensive Cancer Center, one of a select group of such centers in the country.

- UPMC Home
- About UPMC
- UPMC Health System
- UPMC Locations

- UPMC Contact Us

- **Psychiatry.** The University of Pittsburgh School of Medicine's Department of Psychiatry is number one in NIH funding.
- **Transplantation.** UPMC has long been an international leader in transplantation, pioneering new surgical and transplant rejection prevention techniques.
- **Cardiology.** UPMC's cardiology programs have consistently ranked among the best in the nation.
- **Neurosurgery.** The Department of Neurological Surgery has pioneered new technologies for imaging the brain both before and during surgery, operating with minimal or no incisions, and tackling the tough problem of stroke-induced disability.
- **Orthopaedics and sports medicine.** UPMC's orthopaedics program was ranked among the top 15 programs by *U.S. News & World Report*.
- **Arthritis.** UPMC's Arthritis Institute, with its multidisciplinary clinical and research programs, is at the forefront of basic, translational, and clinical research and patient care for rheumatic diseases.
- **Genetics.** UPMC's burgeoning programs in medical genetics and gene therapy promise potential breakthroughs in prevention and even cures for diseases as diverse as heart disease, cancer, and inborn genetic diseases.
- **Geriatrics.** UPMC has developed one of the most extensive networks of board-certified geriatricians at any medical center nationally. The Benedum Geriatric Center teams geriatricians with psychiatrists for the ongoing care of and research with patients with Alzheimer's.
- **HIV care.** UPMC maintains an outstanding HIV/AIDS clinical care service, which has helped develop current combination therapies and pioneered the use of viral load measurement to monitor the efficacy of therapy.

Within the Department of Medicine is a center that offers unique opportunities for clinical research: the federally funded General Clinical Research Center (GCRC). The bulwark of clinical research programs in the department since 1960, the GCRC is both an inpatient and outpatient facility that enables medical scientists to conduct clinical research in human physiology and the causes, prevention, control, and cure of human diseases. Opportunities exist for house officers to engage in clinical research projects under the supervision of department faculty.

[Biotechnology Development](#)
[Fundraising Opt Out](#)

As a regional hub of medicine, education, and research, UPMC attracts patients, students, and scientific investment. Each dollar UPMC spends generates an additional \$1.25 in the region. Therefore, with an annual budget of more than \$4 billion, UPMC's regional economic impact is more than \$5 billion each year.

The majority of UPMC's spending benefits people and businesses rooted in western Pennsylvania: It directs nearly \$2 billion to purchase goods and services, much of it to local companies. UPMC annually awards about 10% of local purchasing contracts to minority and women business owners, adding up to millions of dollars of activity each year. In comparison, some national programs target as little as 1% of expenditures to minority vendors. UPMC's initiative of developing and advancing minority businesses has drawn recognition from the Pittsburgh Regional Minority Purchasing Council (PRMPC), which has lauded the health system for its aggressive goals. UPMC regularly supports the annual PRMPC Business Opportunity Fair, bringing together vendors and potential clients from three states.

The region's largest concentration of new construction can be directly attributed to UPMC. Each year, the health system's construction activity averages about \$200 million, and it supports 2,000 construction-related jobs annually.

UPMC is, by far, the largest employer in western Pennsylvania, with more than 35,000 employees. Across the region, it generates an additional 80,000 jobs across a wide range of sectors, including manufacturing, wholesale, retail, food service, government, and education.

UPMC's future is inextricably linked with the future of western Pennsylvania. Cutting-edge research in treatment technologies such as gene therapy and biopharmaceuticals will continue to advance health care, even as it contributes to the region's burgeoning biotech industry. UPMC plans investments in excess of \$500 million for information systems, helping UPMC professionals to provide quality care that seamlessly follows patients wherever they need treatment.

Community Impact

[Clinical and Research Excellence](#)[Facts and Figures](#)[Economic Impact](#)[Mission, Vision, and Values](#)[Community Impact](#)[Notice of Privacy Practices](#)[Biotechnology Development](#)[Fundraising Opt Out](#)

Even with international prominence, UPMC's commitment is overwhelmingly to the communities of western Pennsylvania. For years, UPMC's individual hospitals, physicians, and other health care providers have acted impressively on their own for the well-being of the neighborhoods they serve. More recently they have joined to work collectively.

UPMC gives back to the community about \$200 million each year in services, charitable contributions, and uncompensated care. In addition, the health system is developing initiatives designed to eliminate regional health care disparities – disproportionately high levels of illness among minorities. Together, UPMC's hospitals, physicians, and other health care providers participate in a collaboration of care that can lead to healthy communities and healthy lives.

Hospitals everywhere sponsor community outreach activities. UPMC stands out because its board of directors has requested and endorsed two systemwide initiatives with participation by each hospital: one to increase the number of children covered by health insurance, the other to address the high incidence of diabetes in western Pennsylvania.

In addition, each UPMC hospital has developed community-wide projects tailored to the particular needs of its area. These range from farm safety in Mercer County to dental services for residents of urban public housing. Some hospitals target school-based programs, focusing on asthma, infection control, postponing sexual involvement, and smoking prevention. Others focus on older adults, immunizations, prenatal care, fitness, weight management, CPR training, or youth recreation.

UPMC is forging new partnerships above the more than 3,000 community initiatives currently in place. Its varied programs help prevent and treat disease, develop the workforce, support business, protect vulnerable populations, enhance populations, enhance surroundings, and generally improve quality of life.

UPMC also supports a number of hospital foundations that contribute to the region's quality of life. The bulk of these maintain a community focus, funding programs that provide housing and help for chemically addicted, homeless women; prevention and educational programs; economic revitalization campaigns, which impact a wide range of issues from job creation to housing; and scholarship opportunities in the health care professions.

► Each year, UPMC nearly 3,000 community initiatives, representing a commitment of nearly 220,000 staff hours serving more than 2 million community members.

History

Since its incorporation in 1848 as Pittsburgh's first chartered public hospital, The Western Pennsylvania Hospital has had a rich history of leadership and innovation in medicine -- expanding its services and enhancing its technological capabilities to provide high-quality care to patients, educate health-care professionals and conduct research.

In 1912, the expanding needs of patients and staff led the hospital to relocate from its first site near downtown to its present location on Friendship Avenue in Bloomfield. For more than 150 years, The Western Pennsylvania Hospital has taken care of the people of Pittsburgh, through floods and flu epidemics, through wars and depression, and through this century's industrial prosperity and spirit of renaissance.

Through floods and flu epidemics, through wars and depressions, and through this century's industrial prosperity and spirit of renaissance, West Penn Hospital has provided care to the people of Pittsburgh and the tri-state area. During the mid 1840s Pittsburgh was a bustling community of 40,000 serving as a portal to the west. In 1844 Dorothea Dix, a well-known philanthropist and crusader, wrote a scathing report to the Commonwealth of Pennsylvania on the city's shocking state of health conditions and complete lack of institutional facilities. The outraged citizens held public meetings and three years later decreed that a non-sectarian hospital would be built to serve the physically and mentally afflicted in the western part of the state. They agreed on the name The Western Pennsylvania Hospital and construction began the following year.

Welcome to The Western Pennsylvania Hospital Continued

West Penn Hospital is nationally respected as a highly sophisticated medical center, providing comprehensive patient care in all major medical and surgical specialties.

In an independent study by one of the healthcare industry's leading research organizations, West Penn Hospital was one of just 16 major teaching hospitals in the country, and the only one in Pittsburgh, to be recognized among the country's *100 Top Hospitals* for overall performance. Previously, the same organization recognized West Penn as among the best for intensive care and heart care.

West Penn's Burn Trauma Center is the largest burn care center in the tri-state area, and the first and only burn center in Pittsburgh to receive verification honors by the American College of Surgeons and the American Burn Association.

West Penn is also the only hospital in the region to be designated a Center of Excellence by the Myelodysplastic Syndromes Foundation. A provider of the most advanced diagnostic and treatment services for all types of cancer, West Penn Hospital has earned national recognition for its bone marrow transplant program, the largest in Pennsylvania.

West Penn is known throughout the region for its expertise in [allergy/immunology](#), [anesthesiology](#), [cardiology](#), [cardiothoracic surgery](#), [colon and rectal surgery](#), [critical care medicine](#), [dermatology](#), [diagnostic and interventional radiology](#), [emergency medicine](#), [endocrinology](#), [family medicine](#), [foot and ankle surgery](#), [gastroenterology](#), [general internal medicine](#), [general surgery](#), [geriatrics](#), [gynecologic oncology](#), [hematology/oncology](#), [infectious diseases](#), [maternal-fetal medicine](#), [neonatology](#), [nephrology](#), [neurology](#), [neurosurgery](#), [obstetrics and gynecology](#), [ophthalmology](#), [oral/maxillofacial services](#), [orthopedics](#), [otorhinolaryngology - head and neck surgery](#), [pathology and laboratory medicine](#), [pediatrics](#), [physical medicine and rehabilitation](#),

History

Since its incorporation in 1848 as Pittsburgh's first chartered public hospital, The Western Pennsylvania Hospital has had a rich history of leadership and innovation in medicine -- expanding its services and enhancing its technological capabilities to provide high-quality care to patients, educate health-care professionals and conduct research.

In 1912, the expanding needs of patients and staff led the hospital to relocate from its first site near downtown to its present location on Friendship Avenue in Bloomfield. For more than 150 years, The Western Pennsylvania Hospital has taken care of the people of Pittsburgh, through floods and flu epidemics, through wars and depression, and through this century's industrial prosperity and spirit of renaissance.

Overall Request Conclusion

Overall Request Conclusion –

USAFCU strongly believes that the long-term financial impact of this community conversion will be very positive for both the citizens of the SPC and the credit union. We are committed to accomplishing our goal of serving the entire community in a conservative and consistent manner – building upon our strong financial base and our commitment to excellent member service. We will continue to develop and refine services that will be available to all members through a variety of delivery channels. We believe that our planning and financial projections, along with our performance over the past several years confirms that we have the human and financial resources to build a credit union that will be able to effectively serve the SPC community now and well into the future. We look forward to this exciting opportunity.

Statement of Commitment to Our Members and to Our Community

People Helping People - The Credit Union Philosophy

Clearview Federal Credit Union

(formerly US Airways Federal Credit Union)

STATEMENT OF COMMITMENT TO MEMBERS and THE SOUTHWESTERN PENNSYLVANIA COMMUNITY

As a member-owned, not-for-profit financial cooperative, Clearview Federal Credit Union is committed to our members. We will uphold our fundamental responsibility to actively serve people within our field of membership, and as appropriate, the communities they live in. We will treat all members with respect and dignity and we will offer honest, fair deals to all members at all times. We will deliver a range of low cost products and services to the diverse economic and social make-up of our members and potential members. We will look for better ways to reach out to the underserved or underserved in our field of membership. And we will continually, in all facets of operations, demonstrate the value of membership in Clearview Federal Credit Union.

We will monitor and communicate our services to members in a meaningful way so that members, potential members, legislators, regulators, and the community at large will understand and appreciate the unique role that member-owned financial cooperatives play in their lives.

Throughout Clearview Federal Credit Union's strategic plan, we will put forth every effort to enable our members to become financially self-sufficient and successful. We will place high importance on consumer education and the teaching of financial thrift.

This *Statement of Commitment to Members* is consistent with our credit union principles of "Not for Profit, Not for Charity, But For Service" and our philosophy of "People Helping People". This statement represents good business practices that ensure the financial strength of our credit union on behalf of our members.

Section I: *Service to Members*

Clearview Federal Credit Union strives to offer services designed to improve the economic and social well being of *all* members from *all* socio-economic backgrounds, including our low-income and moderate-income members, and return financial value to all those who participate in our member-owned financial cooperative.

Current Services that Help Improve the Economic and Social Well Being of Members:

1. Share accounts with low minimum balance requirements
2. Specialty Savings Accounts (e.g. Christmas Club/Member's Choice) with a low minimum deposit of \$5.00
3. Free Checking with no minimum balance requirement, no monthly fee or per check fee and no limits on the number of checks written per month
4. Small Saver certificate programs
5. Money Market Accounts
6. Secured and unsecured loans including new and used vehicles, motorcycles, recreational vehicles, boats, airplanes with flexible terms and competitive rates
7. Debt consolidation loans
8. Home Mortgage Programs including purchase, refinance and equity
9. Manufactured Home Loans
10. Share secured loans for members who have balances on deposit they wish to use as collateral or for members seeking to establish or re-establish credit
11. Vacation and holiday loans available for small dollar amounts with great rates
12. Auto Direct Lending (ADL) partnerships with local dealers offering special prices on new and used vehicles to members
13. Individual Retirement Accounts (IRAs) including Traditional, Roth and Education with minimum deposits as low as \$5.00
14. Members Financial Services (MFS) offering free annual financial analysis to members with no obligation
15. Online check reorders available for members' convenience
16. Free check copies available online
17. Reward-based lending offering flexible terms, competitive rates and a variety of payment options. This program rewards members with good credit while allowing us to make loans at competitive rates to members with average and less-than-average credit
18. Government insured student loan program
19. Credit Union education loans
20. Low-interest VISA credit card accounts with no annual fee
21. Share-secured VISA credit cards with no annual fee and our same low interest rate for members seeking to establish or re-establish credit
22. Student VISA program
23. Clear Advantage club for members ages 49 and over offering free and discounted services
24. Direct deposit and payroll deduction services to enable members to easily and conveniently contribute to savings and build wealth
25. Convenient, 24 hour access to accounts via automated teller machines (ATM)/Debit Card with no annual fee

Mortgage Postcard

26. TellerPhone for touchtone telephone access to account information and transactions available 24/7 via a toll-free telephone number
27. PCU (Personal Credit Union) for free computer access to account information and transactions
28. Bill Payer services for quick and easy payment of bills
29. Fully staffed Phone Service Center providing personalized member service
30. TeleLoan automated lending service available toll-free 24/7
31. Regularly conducted member surveys to measure member satisfaction, provide insights into potential new services and improve existing member services and products
32. Direct link to credit report service on Credit Union website for consumer education
33. Monthly and quarterly newsletters filled with educational articles
34. Newsletters published specifically for the young saver (Nest Egg News) and the teenager (Teen Cents)
35. Yearly website access to TurboTax allowing tax preparation and tax return submittal at a reduced cost
36. CUSC (Credit Union Service Centers) allowing for account access at multiple locations nationwide
37. Free overdraft protection transfers from savings accounts to prevent "bounced" checks
38. Courtesy Pay/Overdraft protection programs preventing "bounced" checks
39. GAP Insurance to protect members' automobile investments
40. On line membership, loan and mortgage applications for members' convenience
41. NCUA Federal Insurance to \$100,000
42. Notary service/Signature guarantees/official checks provided at no charge to members
43. Credit Union owned ATMs for member convenience
44. Member of multiple networks allowing surcharge-free transactions at hundreds of ATMs locally and thousands nationally
45. Credit Disability Insurance to protect members' loans
46. Credit Life Insurance to protect members' families
47. Skip-a-Pay Program allowing members to skip loan payments during the Holidays
48. Ralph B. Canterbury Scholarship Fund awarding multiple \$2,500 scholarships annually
49. Wire transfers, travelers checks and money orders available at minimal cost
50. E-statements available for free
51. Personal Computer (PC) loans available in small dollar amounts for members to purchase a home computer

Youth Mascots, Nick and Nickette

- 52. PowerLine, an unsecured line of credit that can also be used for overdraft protection
- 53. Communication with credit union departments via internet email
- 54. First time borrower discounts
- 55. Electronic Credit Union (ECU) stations providing members internet access in the branch

New Services Planned for the Coming Year:

- 1. Payday Loans at reasonable, fair rates
- 2. Check Cashing Service at reasonable, fair rates
- 3. Relationship Pricing
- 4. Vacation Club accounts
- 5. "Start over" Packages to help re-establish credit with checking accounts and various plastic products
- 6. Member business loans
- 7. Expanded VISA credit card offerings
- 8. Long Term Care protection provided through CUNA Mutual Group
- 9. New and improved Indirect Lending Program with expansion to all 10 counties in the Southwestern Pennsylvania Community (SPC)
- 10. Redemption of U.S. Savings bonds
- 11. Investigate implementing Mortgage Construction Loans

Section II: *Member Education*

Clearview Federal Credit Union is committed to member and consumer financial education; in addition we are committed to educating members and consumers, alike, about credit union uniqueness, philosophy and values.

Current Programs that Support Member Education and Advocacy:

- 1. Home buying seminars for first-time home buyers to explain the process
- 2. Money management education seminars conducted at local high schools
- 3. Clearview Federal Credit Union website with financial calculators and educational material
- 4. Home & Family Finance Online educational newsletter available on Credit Union website
- 5. Credit Union sponsored MEMBERS Financial Services (MFS) educational seminars (e.g. Investing for your retirement, Investing for educational purposes, Women and Investing, Long Term Care Insurance)
- 6. Monthly newsletter articles focusing on the latest financial information for members
- 7. Accredited financial counselor on staff available for one-on-one member meetings, budget sessions, debt management and other education
- 8. NADA guides/Free Lemon check from Carfax available on website

Home Buying Seminar
April 2004

9. Educational "Lobby Days" featuring different areas such as real estate, consumer loans, MFS, Financial Education and Counseling
10. Informational Credit Union booth at trade shows
11. Website designed to aid members with auto pricing guides, financial calculators, savings and loan rates and Googolplex for providing financial education to youth

Annual Meeting 2004

12. Annual meetings held annually in conjunction with a free picnic and celebration to encourage members to meet the Board and Management Team and remain informed on Credit Union happenings
13. Statement stuffers to educate members, remind them about upcoming events and introduce to new services
14. Literature racks in lobbies with informational brochures

15. Employee Orientation provides program for new employees which includes special emphasis on the formation of credit unions and their uniqueness compared to other types of financial institutions
16. On-hold messages with informational content
17. Lobby video with Credit Union programmed educational content
18. On site visits to Community Business Partners by Credit Union financial experts
19. Electronic Credit Union (ECU) stations providing member internet access in the branch
20. Participation in International Credit Union Week
21. Tuition Reimbursement Program for employees designed to allow us to better educate our employees and permit them to provide our members with a higher level of service and expertise

Credit Union Youth Week 2004

New Programs Planned for the Coming Year:

1. Mortgage seminar to educate community residents on home buying process
2. Member seminar for completing forms necessary to obtain assistance for college tuition
3. Money management education seminars conducted at high schools located throughout the Southwestern Pennsylvania Community
4. Credit Union information booth at community events
5. Expanded library of financial education material available on Credit Union website

Section III: *Involvement/Governance*

Clearview Federal Credit Union will endeavor to preserve credit union democratic principles, including demographic representation and volunteer participation in credit union activities.

Current Programs that support Involvement/Governance:

1. Government Affairs Conference annual attendance by CEO and Chairman of the Board
2. Volunteer Board of Directors
3. Members of the Board serve on many volunteer committees aimed at encouraging member participation (i.e. Annual Meeting, Scholarship, etc)
4. Volunteer Supervisory Committee appointed by Board
5. Annual Membership meeting used to promote credit union participation and philosophy is advertised in the monthly and quarterly newsletters
6. Credit Union promotes member involvement in Board elections and political endeavors through monthly and quarterly newsletters
7. Credit Union employee is current President of Pittsburgh Chapter of Credit Unions

Section IV: Diversity

Clearview Federal Credit Union recognizes the value of demographic diversity in staff as well as in volunteers and will strive to bring people of diverse backgrounds and experiences into leadership and other roles at the credit union. The Clearview Federal Credit Union's community field of membership includes a large percentage of residents classified as "underserved" and it is the Credit Union's goal to provide products/services and programs that will benefit these residents and the entire community.

Clearview Employees
Annual Meeting 2004

Current Programs that Promote Diversity:

1. Member market segmentation using demographics available through Liberty Marketing Services Marketing Customer Information Files (MCIF)
2. Equal Employment Opportunity used to fill vacancies
3. Equal Housing Lender making mortgages available to all members
4. Bi-lingual ATMs available to members
5. Member surveys conducted regularly

6. Select Employee Groups including minority owned businesses
7. Reward based lending
8. Goal to expand diversity of membership through business development and marketing programs

(b)(4)

Section V: Commitment to the Credit Union Movement and other Cooperative Activities

AMERICA'S
CREDIT UNIONS™

to build and strengthen relationships with other sectors of the national cooperative movement.

Clearview Federal Credit Union will work to build and strengthen our unique credit union movement by providing financial and in-kind resources to others within the credit union community and by actively advocating the credit union difference at all levels of government and in other appropriate public forums. In addition, Clearview Federal Credit Union will participate in local, state and national cooperative activities as appropriate and will strive

Current Activities that Support the Credit Union Movement:

1. Credit Union management holds leadership positions in various organizations including: Shared Branching network, Pittsburgh Chapter of Credit Unions,
2. Corporate Recognition Awards List (Dora Maxwell Award among others)
3. Claude R. Orchard Award presented by the National Credit Union Administration to former President/CEO for acting as agent for the conservator of a \$26 million credit union

4. Member of Pennsylvania Credit Union Association
5. Member of Credit Union National Association
6. Member of Pittsburgh Chapter of Credit Unions
7. Member of the Filene Research Institute Leadership Circle

Liberty serves your needs—no matter where you are in the process of growing your membership.

The Liberty Community Charter Package includes:

Community Analysis

Whether you're considering charter expansion or locating the best site for a new branch, Liberty Strategic Advisors will help you move forward by identifying the current and projected population, competitive saturation and product usage for areas relevant to the credit union.

Community Charter Application

Liberty will assist you in completing a comprehensive application, which follows the NCUA requirements for a community charter conversion.

Marketing Schedule

Maximizing growth potential with proven marketing strategies. Once the charter has been approved, Liberty will develop a marketing plan and schedule that identifies the best opportunities for maximizing growth.

Campaign and Design Fulfillment

Liberty Copywriters and Designers will develop credit union-specific, customized campaigns utilizing a variety of media, such as the postcard and letter shown here.

Subject: RE: Requested Info

SPC can provide for free an Excel file that shows the number of work sites and the employment in these work sites, presented for EACH SPC county (there are 10) and for EACH employment-range you specify (I believe you want four ranges). Currently, SPC is putting into our pipeline to renew our subscription to D&B's zapdata database from which these data will be provided. I expect that we can provide something by next week.

ArcView is full-featured GIS software for visualizing, managing, creating, and analyzing geographic data. Using ArcView you can understand the geographic context of your data allowing you to see relationships and identify patterns in new ways. ArcView helps tens of thousands of organizations make better decisions and solve problems faster.

With ArcView you can

- Leverage geographic data to make better decisions.
- View and analyze your spatial data in new ways.
- Build new geographic data sets quickly and easily.
- Create publication-quality maps.
- Manage all your file, database, and Internet data resources from a single

application.

- Customize the user interface around the tasks that you need to accomplish.

ArcView is the most widely used desktop GIS software in the world because it provides an easy way for everyone to use geographic data. With a large array of symbols and cartographic capabilities, you can easily create high-quality maps. ArcView makes data management and editing a painless task that can be accomplished by anyone in your organization. Virtually any geographic data provider can make data available in ArcView compatible format. Because data can be integrated from almost any source, projects can get started right away with data that is available locally or on the Internet.

ArcView simplifies complex analysis and data management tasks by allowing you to visually model the task in a logical work flow. ArcView is easy to use by nontechnical users, and advanced users will be able to take advantage of the sophisticated tools for advanced cartography, data integration, and spatial analysis. Developers can customize ArcView using industry-standard programming languages. ArcView is an exceptional stand-alone desktop GIS as well as one of the core products in [ArcGIS Desktop](#).

Al Jones

*Director of SBA's Pittsburgh
District Office*

The U.S. Small Business Administration (SBA)-Western Pennsylvania Pittsburgh District Office and its resource partners are committed to serving America's small businesses throughout Western Pennsylvania. I am proud to report that our dedicated staff had a record-breaking year this past fiscal year (October 1, 2002 through September 30, 2003), approving 2,382 SBA guaranteed loans for over \$155 million.

In the last several years, the SBA has streamlined its loan programs and simplified its procurement process, making it possible to provide assistance to a significantly larger group of small business owners. The Western Pennsylvania Pittsburgh District Office is particularly proud of its efforts to strengthen and build relationships with many economic development organizations to enhance services to entrepreneurs within our twenty-seven county service area. There are approximately 23 million small businesses in the United States which represent 99.7 percent of all employer firms and create 60 to 80 percent of net new jobs annually. SBA recognizes the important role that small businesses play in our economy, providing jobs and generating economic growth to enhance the quality of life for everyone.

Entrepreneurs face many challenges in the increasingly diverse global and technological world. To help entrepreneurs compete in the marketplace, we have joined with many of our partners in an effort to provide small businesses with our latest and most comprehensive Resource Guide. We thank the advertisers for making this complimentary Guide possible through their contributions and commitment to the small business community.

This Resource Guide provides detailed information on SBA's financial, procurement, and technical programs in addition to a wealth of information on various federal, state, and local services. Throughout these pages, you will find a list of SBA participating lenders, economic development organizations, Small Business Development Centers (SBDCs), SCORE Chapters, and Chambers of Commerce to assist you in your endeavors.

Prospective small business owners who are seeking start-up advice or an established business searching for financial assistance or insights into expansion will be introduced to many organizations who can offer consultation services. We encourage you to call upon these organizations to learn more about their programs.

I invite you to call our office at (412) 395-6560 or visit the SBA's web site at www.sba.gov. For local information, including a calendar of upcoming seminars and training programs, please visit the Western Pennsylvania Pittsburgh District Office's web site at www.sba.gov/pa/pitt/. Our staff is here to assist you because, "we are serious about service."

All the best,

Al Jones
District Director

As of November, our new address will be:
**411 Seventh Avenue
Pittsburgh, PA 15222**
(Please call ahead and verify prior to visiting.)

(b)(4)

(b)(4)

Service Delivery Channels –

USAFCU members in the SPC will enjoy convenient, low-cost or free financial service access and benefits through numerous delivery avenues including:

- Member Service Facilities** – Two full-service member service facilities and four shared branches are located in the SPC. These facilities are conveniently located throughout the SPC. By the end of 2006 three additional branches will be opened. Depending upon business conditions we plan is to have at least one branch in each county by 2010.
- ATMs** – USAFCU members have access to 11 credit union owned and 410 other surcharge-free ATMs in the SPC along with nationwide funds access at thousands of additional surcharge-free ATMs. . By the end of 2006 five additional ATMs will be deployed. Depending upon business conditions we plan is to have at least one credit union owned ATM in each county by 2010.
-
- PC Banking** – Convenient financial services via the Internet, including bill payer, statement access and check imaging services.
- USAFCU Web Site** – Offers numerous on-line services including loan applications, savings and loan calculators and financial education for adults and youth.
- 24/7 Automated Phone Services** – Our 24 hour automated teller service (TellerPhone) provides a wide array of basic account information services and functions in addition to loan applications via a toll free phone call.
- Phone Service Center** – Trained credit union staff is available to assist members with financial transactions or questions or take loan applications during extended hours Monday through Saturday.
- Onsite Community/Company visits** – Dedicated Business Development and Sales Team professionals conduct membership drives and information sessions throughout the community and at various employer locations.

USAFCU is committed to continually evaluating, expanding and improving member service delivery methods.

Serving The Underserved –

USAFCU continually seeks to develop products and services that are of benefit to all members, and of exceptional value to the underserved members of our community. Rates are routinely compared to ensure loan rates are consistently lower and savings rates are consistently higher than those of our bank competition. Additionally, it is not unusual for fees to be waived if the member is below the age of 22. Also, members over the age of 49 are invited to participate in a program which offers lower or no fees for many services. Furthermore, while USAFCU consistently strives to maintain a competitive balance that is fair, the following products/services are specifically suited to offer additional benefit to members of low-to-moderate means:

Low Income Member Services -

The existing and anticipated products and services offered to USAFCU members with limited financial resources and education are numerous, and we believe will have a significant impact for a large number of residents within the SPC. The following list illustrates of some of these products and services:

Savings Products –

- ↳ Regular savings accounts with no low-balance fee
- ↳ Low-minimum recurring share deposits (\$5.00)
- ↳ Christmas Club accounts
- ↳ Money market type accounts with low minimum deposit

Conversion Request Summary

Conversion Request Summary –

The enclosed financial exhibits include business and marketing plans, financial reports and budgets and other applicable financial projections and related data. We believe that these exhibits, along with our previous performance over the past several years, clearly demonstrate that USAFCU has the financial and managerial strength and commitment to effectively serve the entire SPC.

Our past financial performance is superior and our projections show that our numbers will be solid going forward. In addition, USAFCU believes that our proven track record of solid community involvement on the part of the credit union and its employees and volunteers is noteworthy. USAFCU already functions within the SPC as a community organization and looks forward to continuing our community involvement and extending our services to the entire SPC.

Report of Officials

**US AIRWAYS FEDERAL CREDIT UNION
SERVICE FACILITIES
(NCUA Page Four)**

Share Growth

The actual percentages for share growth in the proposal for 2004, 2005, and 2006 are 3.81%, 6.12% and 6.81% respectively. Your memo listed shared growth as 5.84%, 7.00% and 8.00%, which was the projected loan growth leading me to believe this was just a typo. The chart indicating the Estimated Growth By Percentage is attached for your review (**Enclosure 50**).

Share growth is affected by the country's economic condition, the sponsor's economic condition and the projected economic condition of the SPC; however, not as dramatically as loan growth. Many of the members had already accumulated their wealth prior to the sponsor's and general economic situations and can shift it to various financial products and sources depending on their personal needs.

Due to slow loan demand and to practice sound asset-liability management, we have steadily decreased our rates until the share growth subsided. The .58% share growth in 2003 was largely planned. Historically, we have never had difficulty attracting share growth. Even though the March 2004 FPR (**Enclosure 51**) indicates a share decline of 6.08%, this occurred due to a significant portion of our payroll deductions occurring one day after March 31st or on April 1st. We usually have between \$3,000,000 and \$5,000,000 per payday in check clearings; therefore, our direct deposits not posting until the day after month-end caused a large decline in our checking account balances and shares. As can be seen by the attached General Ledger Share Trial Balance as of April 1, 2004 (**Enclosure 52**), *just one day after March 31, our share balances increased by \$14,774,000 which would have caused our March FPR to show a significant increase in shares of 2.77% as opposed to a decrease of 6.08%*. Once loan demand picks up, we will again raise rates to a level necessary to maintain adequate liquidity levels, in conjunction with maintaining sound asset-liability management practices, while still keeping the bottom line in mind.

Should our community charter be approved, we expect our competitive rates to attract shares from the general community. In addition, we expect share products aimed towards the moderate to low-income population to contribute to our share growth. Due to our certificate rates and money market rates being extremely competitive in the proposed community, we expect our share growth to be above average, since many people in the community will have already built their wealth and are expected to be attracted to our share products. This is the reason that we project our new member share growth to average \$6,894. This is not that far above our December average shares per member of \$6,567.

SERVICE FACILITIES
(NCUA Page Four)**

Charged-Off Loan Information

The majority of the loans charged off during 2002 and 2003 were due to bankruptcies and were directly attributed to the layoffs and terminations by our primary sponsor, US Airways, Inc. The Net Charge-Offs to Average Loans for 2003 was 1.25%. Under normal conditions, if the community charter is approved, we would anticipate that the net charge-off ratio would decrease due to the influx of new loans made primarily to non-US Airways employees. Even though we believe charge-offs will decline, we are conservatively projecting that the charge-off ratio for 2005 and 2006 will remain at 1.25%, since the sponsor related charge offs may continue during that period.

Even though the March 2004 FPR indicates the ratio to be 1.49%, we still project the ratio will level off at 1.25% in 2005 and 2006, once loan volume begins to increase and losses from US Airways begin to subside. We anticipate that the ratio will eventually decline further after 2006. The charged-off loans for 2005 and 2006 are projected to be \$4,140,000 and \$4,451,000 respectively.
