

Low/High Temperature Limit Calculator 05/ /2012

- [] Glidepath Angle
- [] Field Elevation
- [] LTP Elevation
- [] TCH
- [] Fastest Published Category

NA above°C = NA above°F =
NA below°C = NA below°F =

Additional Information:

°C is the ΔISA_{Low} entry in VEB if RNP AR
ft/min is the max descent rate at standard temperature
ft/min is the descent rate at the high temperature limit
