Cleaner air
thanks to cars powered by small,
nonpolluting, cool-running
fuel cells.

Computers and cell

phones
that are smaller, better,
and longer lasting.

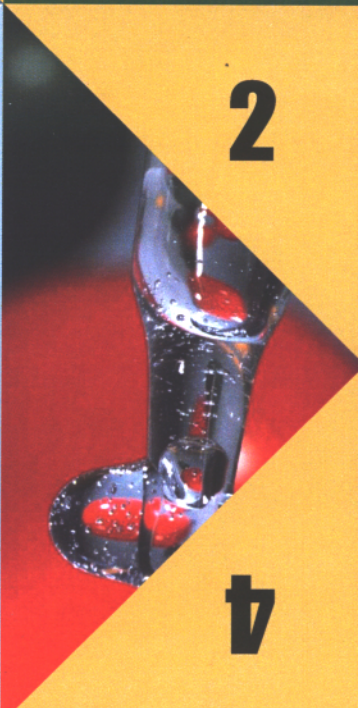

Better medicine
that tests and provides help
for bone and blood
diseases.

Aircraft
that are faster, safer, and more
energy-efficient.

RING

TARGET

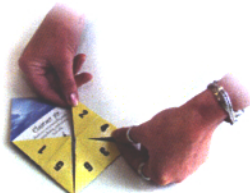

Neutron-scattering research could help make real the stuff of dreams. See what wonderful things the future could hold for all of us with neutron-scattering research at SNS.

HOW TO FOLD YOUR FORTUNE TELLER:

Step 1

Step 2

Step 3

Step 4

HOW TO PLAY:

Find a partner. Hold up the fortune teller and ask your partner to pick a color. Spell out the word on the panel by alternately opening and closing beak. Once word is spelled out, ask partner to pick a number. Count to the number by opening and closing beak. Ask partner to choose another number. Lift the numbered panel to reveal fortune!
