

Federal Aviation Administration
Mike Monroney Aeronautical Center

ENVIRONMENTAL POLICY

The FAA Mike Monroney Aeronautical Center is fully committed to the Administrator's Environmental Management Policy to achieve and maintain excellence and leadership in protecting the environment, and the health and safety of its employees and neighbors. In keeping with this commitment, we will accomplish our mission in a manner that will minimize environmental consequences. All organizations at the Aeronautical Center are responsible to ensure that environmental considerations are integrated into their daily activities and operations to:

- (1) Ensure compliance with all applicable environmental requirements
- (2) Minimize pollution and waste
- (3) Conserve natural resources and improve energy efficiency
- (4) Continually improve environmental performance

Aeronautical Center personnel shall be committed to this policy by providing products and services in a manner that demonstrates our good stewardship of the environment.

Stanley A. Sieg
Acting Director, Aeronautical Center
