Comments=Dear Sir:

I see no public benefit or clamor for this change. Indeed, it just makes record keeping, business and manufacturing processes more expensive without any benefit to the consumer. The consumer is always free to choose and I believe the market place should determine the products and the composition of those products the consumer chooses.

This appears to be no more than a special interest gaining too much influence with the Board.

"Integrity of Beer"..what nonsense, its just beer. People, tackle something worthwhile, have the courage to say no, follow your conscience. Yours truly
