Dear Sir or Madam:

Bartyzel Inc. supports the proposed rule issued in March 2003 by the Tax and Trade (TTB) Bureau that outlines the alcohol content requirements in order for flavored malt (FMB) beverages to be classified as beer. Specifically, the TTB proposes that for an FMB to be classified as beer, its alcohol content from distilled alcohol cannot exceed 0.5%.

Beer is not distilled spirits. Beer is not fortified wine. Beer is not a product that has been made through the distillation process. Beer is made through the brewing process. The 0.5% standard will ensure that the integrity of beer remains.

Once again, Bartyzel Inc encourages the TTB to give final approval to the proposed 0.5% standard on FMB's

Sincerely,

Stewart Sharpe
