Dear Chief, Regulations and Procedures Division:

I am writing in support of the proposed 0.5 percent standard (90/10) for flavored malt beverages.

The proposed standard is the best way to maintain clear distinctions between beer and liquor and it is the best way to preserve the flavored malt beverage category. Alternatively, accepting a 51/49 standard would call most existing state regulations into question, requiring many more promulgations.

Thank you in advance for your consideration of these comments.
