> To Whom it may concern, > > L&F  
Distributors LTD, is wanting to express our  
approval of the "0.5%" standard. We support  
the "0.5%" standard because it draws a clear  
distinction between beer & liquor products  
and because it will preserve the flavored  
malt beverage category. > > The  
biggest problem with the "51/49" standard is  
that it would make the federal regulations  
contrary to many state laws. The same  
products could be a beer in some states and  
liquor products in other states. Passing  
this standard would be extremely disruptive  
to the marketplace.
