APPENDIX B

DOCUMENTS USED TO CONDUCT THE 2008 GENERAL AVIATION AND PART 135 ACTIVITY SURVEY

Aircraft Characteristics:

2008 General Aviation and Part 135 Activity Survey

(As of December 31, 2008)

Instructions:

- Please answer questions for the aircraft shown to the right.
- If this is not your aircraft, please check this box and return the survey in the enclosed postage-paid envelope.
 When entering numbers, use numbers that look like this:

	Round all numbers to the nearest WHOLE number.	1	2	3	4	5	6	7	8	9	0	
--	--	---	---	---	---	---	---	---	---	---	---	--

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, please report for <u>all users of this aircraft</u>. If you do not know the exact information for a particular question, please provide your <u>best estimate</u>.

Q1 Was this aircraft flown in 2008? (Check one)

□ Yes>	Continue to Q2
🗌 No	Why was this aircraft inactive? (Check one)
	Sold – Year Under restoration Museum piece
	Destroyed – Year Under construction Other
	The survey is complete. Please return the survey in the enclosed postage-paid envelope.

- Q2 In 2008, was this aircraft leased to or operated primarily by a FAR Part 121 or 129 air carrier? (*Check one*)
 - ☐ Yes → Do not complete the rest of this survey. Please return the form in the enclosed postage-paid envelope.
 - \square No \longrightarrow Please complete the rest of this survey.
- Q3 In what U.S. state or territory was this aircraft primarily flown in 2008?

(Please use 2-character state/territory abbreviation)

Q4 What were the total lifetime airframe hours as of December 31, 2008?

(Lifetime airframe hours to nearest WHOLE number - no decimals please)

Q5 How many total hours did this aircraft fly in 2008? (Include estimated rental and leased hours; if you purchased this aircraft in 2008, please include hours flown for the entire year; NOTE: the maximum number of hours you could have flown in 2008 is 8,760 hours.)

Hours (rounded to the nearest WHOLE number - no decimals please)

Q6 For what percent of the total hours flown in 2008 was the aircraft flown in Alaska? (If no hours were flown in Alaska in 2008, please enter 0 below.)

FIGURE B.1: SINGLE-AIRCRAFT QUESTIONNAIRE

What percent of the total hours flown by this aircraft in 2008 were flown in each of the

following categories? (Estimate the percent of total hours flown in 2008 in each of the following categories so that the total equals 100%.)

Cat	egory		of Hr Iown	
	Personal/Recreation – Flying for personal reasons (excludes business transportation)			%
	Instructional – Flying under the supervision of a flight instructor, including student pilot solo (excludes positioning flights, proficiency flights, training, ferrying, sales demos)			%
	Business Transportation – Individual or group use for business transportation <u>without</u> a paid flight crew			%
	Corporate/Executive Transportation – Individual or group business transportation <u>with</u> a paid flight crew (includes fractional ownership)			%
ė	Air Medical Services – Air ambulance services, rescue, human organ transportation, emergency medical services (excludes AMS conducted under FAR Part 135)			%
General Use	Sight-seeing – Commercial sight-seeing conducted under FAR Part 91			%
Gene	Aerial Observation – Aerial mapping/photography, patrol, search and rescue, hunting, traffic advisory, ranching, surveillance, oil and mineral exploration, etc.			%
	Aerial Application in Agriculture and Forestry – Crop and timber production, including fertilizer and pesticide application			%
	Other Aerial Application – Public health sprayings, cloud seeding, fire fighting including forest fires, etc.			%
	External Load – Operation under FAR Part 133, rotorcraft external load operations, examples include: helicopter hoist, hauling logs, etc.			%
	Other Work Use – Construction work (excluding FAR Part 135 operation), parachuting, aerial advertising, towing gliders, etc.			%
	Other – Positioning flights, proficiency flights, training, ferrying, sales demos, etc.			%
	Air Taxi – FAR Part 135 <u>on-demand</u> passenger and all cargo operations (excluding air tours, air medical services, or scheduled passenger service)			%
Part 135	Air Tours – Commercial sight-seeing conducted under FAR Part 135			%
	Air Medical Services – Air ambulance services, rescue, human organ transportation, emergency medical services conducted under FAR Part 135			%
FAR	Commuter – FAR Part 135 scheduled passenger service only			%
ΓΟΊ	AL OF ALL USES	100	%	

Q8 For what percent of the total hours flown in 2008 was the aircraft flown under a fractional ownership program? (This is NOT simply joint ownership. This is ONLY for turbine aircraft in a fractional ownership program meeting Part 91, subpart K, and issued FAA Management Specifications. Flights under Part 135 should <u>not</u> be included. Enter 0 if no hours were flown under a fractional ownership program.)

Q7

Q9 For what percent of the total hours flown in 2008 was the aircraft rented or leased to others? (Include all hours where someone other than an owner paid to operate the aircraft, including instructional flights. Enter 0 if the aircraft was not rented or leased to others.)

Q10 For what percent of the total hours flown in 2008 was the aircraft owned or hired by the federal, state, or local government for the purpose of fulfilling a governmental function? (Enter 0 if the aircraft was not used for the purpose of fulfilling a governmental function.)

FIGURE B.1: SINGLE-AIRCRAFT QUESTIONNAIRE

Q11 What percent of the total hours flown by this aircraft in 2008 were flown under... (Estimate the percent of total hours flown in 2008 in each of the following categories so that the total equals 100%.)

Flight Plans / Conditions % of Hours			
VFR	Day Visual Meteorological Conditions (VMC)		%
Flight Plans	Night Visual Meteorological Conditions (VMC)		%
	Day Instrument Meteorological Conditions (IMC)		%
IFR	Day Visual Meteorological Conditions (VMC)sNight Instrument Meteorological Conditions (IMC)		%
Flight Plans			%
	Night Visual Meteorological Conditions (VMC)		%
No	Day Visual Meteorological Conditions (VMC)		%
Flight Plans	Night Visual Meteorological Conditions (VMC)		%
TOTAL OF ALL HOURS FLOWN100%			00%

Q12 How many landings did this aircraft perform in 2008? (Include water & touch-and-go landings.)

(Number of 2008 landings)

Q13 What type of landing gear system did this aircraft primarily use in 2008? (Check one)

Fixed wheelsStraight floatsOther (e.g., skis)Retractable wheelsAmphibious floatsNone (e.g., hot air balloon)

Q14 What kind/grade of fuel was primarily used in this aircraft in 2008? (Check one)

 □ Jet Fuel - Turbine
 □ Aviation Fuel: 100-Low Lead

 □ Jet Fuel - Piston
 □ Aviation Fuel: 100 Octane

Automotive Gasoline Other

Q15 What was the average fuel burn rate (in gallons per hour) for this aircraft in 2008?

Gallons per hour (rounded to the nearest WHOLE number - no decimals please)

□ None

Q16 In 2008 was this aircraft prohibited from flight in icing? (Check one)

	🗌 No				
	☐ Yes →	How was this	aircraft prohibite	d? (Check one)	
		Placard	POH or	AFM limitation	Both
Q17	Was the aircr (Check all that		with ice protectior	n on any of the follov	ving in 2008?
	U Wing		Propeller		Stall warning sensor
	Horizontal	tail	Windshield		Pitot system
	Vertical tai	il	Engine (Nace	lle lip or inertial separato	pr)
Q18	In 2008 was t (Check one)	his aircraft ce	rtified and mainta	ined to operate unde	er instrument flight rules (IFR)?

- ☐ Yes
- ___ No

Autopilot-Axis Controls:	
Lateral Guidance	
Approach Mode (vertical guidance)	
Horizontal Situation Indicator (HSI)	
Heads Up Display (HUD)	
Enhanced Vision System (EVS)	
Synthetic Vision System (SVS)	

- Agency Display of Estimated Burden of the General Aviation and Part 135 Activity Survey -

The public reporting burden for this collection of information is estimated to average 20 minutes per response. If you wish to comment on the accuracy of the estimate or make a suggestion for reducing this burden, please direct your comments to FAA and OMB at the following addresses: U.S. DOT Federal Aviation Administration Office of Management and Budget

U.S. DOT Federal Aviation Adm 800 Independence Avenue SW AAI-220 (2008 Survey) Washington, DC 20591

Internet Invitation Postcard

Dear Aircraft Owner,
Each year, the Federal Aviation Administration conducts a survey to calculate fleet size and the hours flown by the general aviation community. Please log onto <u>www.aviationsurvey.org</u> to complete a survey for the aircraft listed below. Use the aircraft N-number as your password. If you cannot complete the survey on the Internet, you will automatically be sent a paper survey in the mail. It may be helpful to have your flight log book handy to answer the questions.
If you have questions about the survey, please call Theresa Tennant of PA Consulting Group at 1-800-826-1797. Thank you for your help with this important study.
2008 General Aviation 🛞 and Part 135 Activity Survey

Reminder/Thank-you Postcard

Mail 1 Survey Insert for Partial Web Completes

Our records indicate you were unable to complete the 2008 General Aviation and Part 135 Activity Survey on the Internet. We apologize if this was caused by slow server response time or other technical difficulties. It's very important that everyone's answers are included so we represent the general aviation community accurately. We would appreciate it if you would complete the enclosed paper version of the 2008 General Aviation and Part 135 Activity Survey.

Thank you for your help with this important study. If you have any questions, please call Theresa Tennant of PA Consulting at 1-800-826-1797.

Alaska Only Survey Insert for All Mail Surveys with Alaska Addresses

Dear Alaskan aircraft owner/operator:

The enclosed survey is an important tool in collecting accurate information on Alaskan aviation. The **Alaska Airmen's Association** and the **Alaska Air Carriers Association** both strongly support this survey and encourage your participation. The survey is conducted by a private contractor, and your answers will remain completely confidential.

If we are to set the best course for aviation in Alaska, we need the best data. Please take a few minutes to complete the enclosed survey – it will be time well spent!

Thank you,

Adam White President Alaska Airmen's Association

C. Joy Journeay Executive Director Alaska Air Carriers Association

Alaska Air Carriers Association

U.S. Department of Transportation

Federal Aviation Administration

May 18, 2009

Dear Aircraft Owner:

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

The Federal Aviation Administration is conducting the 31st annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2008. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this important information. The information collected is used by government agencies, industry, trade associations, and private businesses. These organizations use the data to pinpoint safety problems and to form the basis for critical research and analysis of general aviation issues.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Enclosed is a questionnaire requesting information for calendar year 2008. Regardless of whether you used this aircraft frequently in 2008, did not use this aircraft at all, or filled out a similar survey about this aircraft in past years, your response for 2008 is important. I urge you to complete the questionnaire today.

If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft N-number as the log-on password.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797. If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst, at 1-800-842-8736 extension 78659.

The FAA and the general aviation community thank you for your participation.

Lyne Q. Chomus

Lynn Osmus Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so PA Consulting Group knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were randomly selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2008.

In order to better understand general aviation activity of high-use groups, several groups were sampled at 100 percent for the 2008 survey. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to this survey this year. Owners/operators of multiple aircraft represent a key portion of the general aviation population. The newly designed summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project? Yes. The OMB control number is 2120-0060, with an expiration date of March 31, 2012.

U.S. Department of Transportation

Federal Aviation Administration

June 2009

Dear Aircraft Owner:

The Federal Aviation Administration (FAA) needs your help. Please participate in the 2008 General Aviation (GA) and Part 135 Activity Survey. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample.

The enclosed survey is the only source for this important information. The information collected is used by government agencies, industry, trade associations, and private businesses. These organizations use the data to pinpoint safety problems and to form the basis for critical research and analysis of general aviation issues.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Enclosed is a questionnaire requesting information for calendar year 2008. If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft N-number as the log-on password.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797. If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst, at 1-800-842-8736 ext. 78659.

The FAA and the general aviation community thank you for your participation.

B. Hooper Harris Acting Director, Office of Accident Investigation

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so PA Consulting Group knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were randomly selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2008.

In order to better understand general aviation activity of high-use groups, several groups were sampled at 100 percent for the 2008 survey. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

Federal Aviation Administration

July 2009

Dear Aircraft Owner or Operator:

We really need your input! Thanks to the support and participation of the General Aviation (GA) community, the 2007 survey was an unprecedented success. You can help us sustain that success.

Earlier this summer, we sent you a General Aviation and Part 135 Activity Survey questionnaire to help us compile aircraft activity information for calendar year 2008. We have not yet received your response. Your participation will help the FAA track the effectiveness of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this information. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample.

In case the previous mailings never reached you or were misplaced, we have enclosed another identical questionnaire with a return postage-paid envelope. Please read the instructions on the back of this letter, complete the questionnaire, and use the enclosed envelope to return it to us today.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

If you prefer to complete the survey online, you can access it at www.aviationsurvey.org and use your aircraft N-number as the log-on password.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Yes. The OMB control number is 2120-0060, with an expiration date of March 31, 2012.

2008 General Aviation and Part 135 Activity Survey Large Fleet Form

This form collects information based on 5 broad aircraft categories:

- Turbojets
- Turboprops
- Reciprocating Aircraft (excluding rotorcraft)
- Turbine Rotorcraft
- Reciprocating Rotorcraft

You will be asked to provide basic summary information for your fleet by each aircraft category. We recommend responding for one aircraft category at a time – each category should be completed independently of the others.

When you are finished, please return the completed pages in the postage-paid envelope provided. You may also fax your responses to 1-608-661-5181 attn: Theresa. If you would like to complete the questionnaire online, please visit the following web site: <u>www.aviationfleetsurvey.org</u> (to login, use your 7-digit password).

If you have any questions about this study, please contact Theresa Tennant of PA Consulting Group at 1-800-826-1797.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, include all hours flown by all users under all FAR Parts for all of 2008.

If you do not know the exact information for a particular question, please provide your *best estimate*.

Q1 Please enter the number of aircraft in each aircraft type below that were owned by your organization as of December 31, 2008. Then, please enter the state/territory in which each aircraft type was <u>primarily flown</u> in 2008. (Enter 0 if you did not own aircraft in a particular category in 2008. If all of the aircraft in a particular type below were not flown, leave the state primarily flown blank.)

Aircraft Type	Number of Aircraft	State Primarily Flown*
Turbojets		
Turboprops		
Reciprocating Aircraft		
Turbine Rotorcraft		
Reciprocating Rotorcraft		
Other Aircraft (i.e., balloons, gliders, etc.)

U.S. Department of Transportation

Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

Federal Aviation Administration

April 30, 2009

Dear Aircraft Owner/Operator:

The Federal Aviation Administration is conducting the 31st annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2008. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

Our records indicate that you are an owner/operator of multiple aircraft. To minimize the burden of reporting for multiple aircraft, we have developed a *special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.*

The responses of multiple-aircraft owners/operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity. To complete the survey online, please use your Web browser to access <u>www.aviationfleetsurvey.com</u> (to login, use the 7-digit

password in the box to the right). For your convenience, we have also enclosed a paper copy of the survey. If you choose to complete the paper copy, please return

it in the enclosed business reply envelope. You may also contact us to discuss other means of reporting, such as e-mail, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797. If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst, at

If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst 1-800-842-8736 extension 78659.

The FAA and the general aviation community thank you for your participation.

yme (c. Comus

Lynn Osmus Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so PA Consulting Group knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were randomly selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2008.

In order to better understand general aviation activity of high-use groups, several groups were sampled at 100 percent for the 2008 survey. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to this survey this year. Owners/operators of multiple aircraft represent a key portion of the general aviation population. The newly designed summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Yes. The OMB control number is 2120-0060, with an expiration date of March 31, 2012.

U.S. Department of Transportation Office of the Administrator

800 Independence Ave., S.W Washington, D.C. 20591

Federal Aviation Administration

May 2009

Dear Aircraft Owner/Operator:

Recently we mailed you a consolidated survey form for the 2008 General Aviation and Part 135 Activity Survey. We have not yet heard back from you and would like to ask if you have any questions regarding the questionnaire or the study itself. If so, please contact Ms. Theresa Tennant of PA Consulting Group at 1 (800) 826-1797.

Our records indicate that you are an owner/operator of multiple aircraft. In order to minimize the burden of reporting for multiple aircraft, we have developed a *special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.* The responses of multiple-aircraft owners/operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity.

If you would like to complete the survey online, please use your web browser to access <u>http://www.aviationfleetsurvey.com</u> (to login, use the 7-digit password in the box to the right).

If you have misplaced your questionnaire, feel free to contact us for another copy or another one will automatically be sent to you in a few weeks. You may also contact us to discuss other means of reporting, such as email, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Again, if you have any questions or need further assistance, please call Ms. Theresa Tennant of PA Consulting Group at 1 (800) 826-1797. If you have not obtained a satisfactory response, please call Mr. Brad Wacker, FAA Safety Analyst at 1 (800) 842-8736 ext. 78659.

The FAA and the general aviation industry thank you for your participation.

Lyne Q. Comus

Federal Aviation Administration

June 2009

Dear Aircraft Owner/Operator:

The Federal Aviation Administration (FAA) needs your help. Please participate in the 2008 General Aviation (GA) and Part 135 Activity Survey. Your participation will allow the FAA to measure the size and activity of the general aviation fleet and better understand how people use general aviation aircraft. The survey also allows us to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. The enclosed survey is the only source for this important information. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample.

Our records indicate that you are an owner/operator of multiple aircraft. To minimize the burden of reporting for multiple aircraft, we have developed a *special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.*

The responses of multiple-aircraft owners/operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity. To complete the survey online, please use your Web browser to access <u>www.aviationfleetsurvey.com</u> (to login, use the 7-digit password in the box to the right).

For your convenience, we have also enclosed a paper copy of the survey. If you choose to complete the paper copy, please return it in the enclosed business reply envelope. You may also contact us to discuss other means of reporting,

such as email, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call Ms. Theresa Tennant of PA Consulting Group, at 1 (800) 826-1797. If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst, at 1 (800) 842-8736 ext. 78659.

The FAA and the general aviation community thank you for your participation.

June a. Chomus

Lynn Ösmus Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your letter only so PA Consulting Group knows who should receive the letter.

Why was I selected for this survey?

Your aircraft were randomly selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2008.

In order to better understand general aviation activity of high-use groups, several groups were sampled at 100 percent for the 2008 survey. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to this survey this year. Owners/operators of multiple aircraft represent a key portion of the general aviation population. The newly designed summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project? Yes. The OMB control number is 2120-0060, with an expiration date of March 31, 2012.

of Transportation

Federal Aviation Administration

June 2009

Dear Aircraft Owner/Operator:

We really need your input! Thanks to the support and participation of the General Aviation (GA) community, the 2007 survey was an unprecedented success. You can help us sustain that success.

Earlier this summer, we sent you a 2008 General Aviation and Part 135 Activity Survey questionnaire to help us compile aircraft activity information for *calendar year 2008*. We have not yet received your response. Your responses will help the FAA track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community.

The enclosed survey is the only source for this important information. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample.

In case the previous mailings never reached you or were misplaced, we have enclosed another identical questionnaire with a return postage-paid envelope. This survey has been specially designed to minimize the burden of reporting for multiple aircraft, and allows you to report activity for your entire fleet using a single survey. Please complete the questionnaire and use the enclosed envelope to return it to us today.

Submission of this form is voluntary. The information provided will be used only for statistical purposes and will not be published or released in any form that would reveal specific information reported by an individually identifiable respondent. The FAA has contracted with PA Consulting Group, an independent research firm, to conduct the survey. The contractor is responsible for mailing out the surveys, processing responses, analyzing the results, and maintaining custody of your individual responses.

The responses of multiple-aircraft owners/operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity. If you prefer to complete the survey online, please use your Web browser to access <u>www.aviationfleetsurvey.com</u> (to login, use the 7-digit password in the box to the right). You may also contact us to discuss other means of reporting, such as email, electronic file, or over the phone. We are committed to working with you to find the best reporting option for your organization.

Frequently asked questions and answers are on the reverse side of this letter. For further assistance, please call Ms. Theresa Tennant of PA Consulting Group, at 1-800-826-1797. If you still have questions about this survey, please call Mr. Brad Wacker, FAA Safety Analyst at 1-800-842-8736 ext. 78659.

The FAA and the general aviation community thank you for your participation.

B. Hooper Harris Acting Director, Office of Accident Investigation
