Attn: Notice 4

Dear Sir or Madam:

As a member of the Ohio General Assembly with an interest in the regulated beverage industry, I am writing to express my support for the U.S. Treasury's Alcohol and Tobacco Tax and Trade Bureau proposed rulemaking for flavored malt beverages. (2001R-136P)

I believe the fFTB's action is an important clarification of federal alcohol beverage categories established to maintain an orderly US marketplace. Further, I believe the debate surrounding the proposed standard poses important issues for the stability of the retail licensing system and the overall marketplace.

With my support for the proposed 0.5% standard, I am joining The Beer Institute, the National Beer Wholesalers Association and major small brewer associations, among many others, because this standard is the most efficient means to address the recent concerns by both federal and state officials. If adopted, the standard will maintain an orderly marketplace, meet consumer expectations for consistent products, and help sustain the long-term development of the product category. In addition, these reformulated products will be consisted with state tax, license, and distribution laws allowing wholesalers and retailers to continue to distribute, sell and market flavored malt beverages as they do today.

However, absent a national standard rooted in existing law and regulation, manufacturers, retailers and wholesalers will face a potential for patchwork of individual state laws and regulations where the same product may ultimately be sold as a "beer" in one state and as "distilled spirits" in another.

Finally, while there are some who have concerns regarding the ability of manufacturers to produce FMB products in accordance with the new proposal, as you may know, brewers have

already demonstrated the expertise and technical ability to brew these products under the new federal standard. The FMiB products that look and taste the same will be available to wholesalers and retailers in all states with no interruption and no discernable taste differences for consumers.

Thank you for this opportunity for me to offer my support for the current TTB proposed rulemaking for flavored malt beverages.

Sincerely,

Sally Conway Kilbane
State Representative
16th District
