Dear Sirs,

We would like to take this opportunity to express our support for option #2 standard for flavored malt beverages. Reformulating these products will financially hurt smaller companies as well as change the entire taste of the products we have come to enjoy.

The 90-10 proposal will also, no doubt, raise the price of these products to the point of being unaffordable.

We urge you to support Option #2 to keep these products taste profiles appealing to the public as well as keeping the price reasonable to the people who currently buy them.

Thank you

Joseph and Lisa Frank
