Dear Sir or Madam:

I am writing this letter in favor of option #2 under the proposed FMB proposal. If this option doesn't pass the company I work for could suffer losses, meaning more lay-offs, and could hurt us financially. Malt beverages and spirits are two different types and shouldn't be placed in the same category. The most logical thing will be for option #2 to pass. If option #2 passes my job and fellow employees will not have to suffer from any losses that may arise.

Sincerely,

Jose A. Caballero
