Dear Sirs,

I am writing you. to voice my opinion in favor of option #2-51-49 standard of Flavored Malt Beverages. My reasoning's are as follows:

- 1.) Integrity of products currently in the market and the ability to obtain their current taste profile as these brands were developed.
- 2.) Fairness to all current producers of these products, if reformulation was to occur it will only favor larger producers and create financial restraints on smaller producers. The 90-10 proposal will create higher retail pricing for the consumer.
- 3.) The product was approved as a malt beverage and has been taxed accordingly.

I strongly encourage you to support option #2.

Thank you,

Allen Koglin
