ATTENTION: NOTICE #4

DEAR SIRs,

I am writing you regarding option #2 51-49 standard of flavored malt beverages. I have several issues regarding this matter

1. Taste profile is the true identity of whether a product succeeds or fails in our business. To alter these fine products would dampen or eliminate them altogether
2. Reformation of these products would only cater to the larger producers of our industry, and financially burden the smaller producers.
3. The 90-10 proposal could also create more out of pocket expense for the consumer in regards to higher pricing of these specialty brews in the future.
4. I can safely speak for myself and fellow salespeople at my company who work on commissions, that the 90-10 proposal would put a financial restraint in our pockets as well.

Please support Option 2 in fairness to everyone concerned.

Sincerely
Tyner R. S

Distributors of fine imported beers, specialty microbeers, soda, and juice.
